MORE MARINES ARE LANDED AND VERA CRUZ ENTIRELY TAKEN OVER BY UNITED STATES

HOUSE CONCURS IN SENATE RESOLUTION BACKING PRESIDENT

Viva Voca Vote Is Taken Without Debate on Question.

Scattered "Nays" From Republican Side Are Only Negatives.

Mann Raises Technicality That Halts Signing By Speaker.

Washington, April 22.—The president signed the "war" resolution at 2:05 p. m. Only his family was present.

Washington, April 22.—Without debate and without the formality of a roll call, the house today concurred in the administration's Mexican resolution as adopted by the senate which justifies the president in using the armed forces of the United States in securing amends for indignities suffered by the nation in Mexico.

On the viva voce vote the "yeas" were in pronounced majority. A few negative votes were heard here and there on the Republican side when Speaker Clark put the question. After a thirty-minute session the house adjourned until noon, when Speaker Clark was to sign the resolution. It then went to Vice President Marshall, and should reach the White House late today.

Statement by Flood.

In addressing the house in support of the substitute for the house resolution of justification, Mr. Flood said that when he introduced the original resolution Monday, he believed it was the proper form to carry out the purposes outlined in the address of the president.

"The original resolution made it clear that this country was not hostile to the Mexican people," said Mr. Flood, "and did not desire to make

(Continued on page 10, third column.)

JAPAN DECLARES HER NEUTRALITY

Announces Non-Partisan Attitude in the Mexican Affair.

Tokio, April 22.—Japanese government officials today declared that the attitude of the Japanese government in the Mexican situation was one of strict neutrality.

It was pointed out that the Japanese warship Idzumo was now at Guaymas on the Pacific coast, and could arrange for the embarkation of Japanese residents in Mexico, should such a step become necessary.

WILSON IS MUCH MOVED

"I'm Sorry, Terribly Sorry," His Comment on Vera Cruz.

Tampico Is Next Objective Point in Mexican Program.

Washington, April 22.—"I'm sorry, terribly sorry," were President Wilson's first words when news of loss of life in taking Vera Cruz first reached him.

Today the president was sad and disheartened. As he walked slowly to his office, through the White House, his head was bowed and his face showed deep feeling.

The president had hoped that the seizure of Vera Cruz might have been accomplished without loss of life. He has determined, however, that there shall be no backward step. He is trying to avert war and prevent further bloodshed but he realizes that the American people want to see the dignity of the flag upheld.

Tampico Next Point.

For the present the United States will content itself with holding the customs house at Vera Cruz, collecting duties and preventing shipments of arms from reaching Huerta.

Tampico is the next objective point. It has not yet been decided whether

(Continued on page 10, third column.)

PLENTY OF FUNDS TO CARRY ON WAR ARE ON HAND, SAY OFFICIALS

No Plans for Raising Money Have Yet Been Considered.

Beer and Stamp Taxes and Panama Bonds Would Be Possible.

Washington, April 22.—That the United States could finance a war with Mexico and scarcely feel it is the view authoritatively expressed here today. The government's finances are considered to be in excellent condition—so good, in fact, that even the treasury officials who are in closest touch with the situation, have given only tentative consideration to the subject of providing a war fund.

It was said today that no plans for raising money yet had been considered, as current appropriations for the navy and the army, in the view of officials, would be sufficient for present needs, and as it would cost no more to maintain the fleet in Mexican waters than in the United States waters.

In Case of Need.

In the event of extraordinary expenses, which would arise naturally during a state of war, money could be raised, it is pointed out, precisely as it was raised during the Spanish-American war, through extraordinary taxes.

It has been estimated that a beer and stamp tax would increase the revenues of the government by at least $100,000,000 a year. The position of such taxes would have to be made by the congress, but it is expected there would be no hesitancy either in the house or in the senate to re-enact certain parts of the revenue measure of the Spanish-American war.

It can be said that a new issue of bonds is not in contemplation. At present lying in the treasury are Panama bonds to the amount of $240,069,000, which may be sold at any time to reimburse the treasury for expenses incurred in the construction of the Panama canal. Of the $375,200,980 of Panama bonds authorized, only $134,631,980 have been issued. The balance could be issued at the pleasure of the president and Secretary McAdoo.

FORMER SOUTH DAKOTAN HAS HAD BIG FINGER IN THE MEXICAN TROUBLE

JOHN W. DE KAY.

Chicago, Ill., April 22.—(Special to The Herald.)—It is believed here that the war munitions bought recently in Europe by John W. De Kay of New York, a former Illinois editor, are the supplies that precipitated the Vera Cruz fight yesterday.

J. W. De Kay is well known in London and New York, but better known in Mexico. He wrote a piece that Madame Bernhardt produced in New York. The name of the play was "Judas." Mr. De Kay is the head of a large Anglo-Mexican concern in London. He was born in Iowa about thirty-eight years ago. He learned the printer's trade and at 19 was the owner of a small paper published in South Dakota. He afterwards published several daily and weekly newspapers near Chicago. He then went into the cattle business in Texas, and from Texas went to Mexico, where he organized the Mexican Packing company.

RED CROSS PREPARES FOR MEXICAN SERVICE.

Washington, April 22.—A meeting of the executive committee of the American Red Cross was called to be held late today at the war department for the purpose of preparing for emergencies in Mexico.

BRYAN IS WORRIED ABOUT O'SHAUGHNESSY

Has Not Heard From Charge at Mexico City Since Monday.

Washington, April 22.—Secretary Bryan, going to the White House at 1:15, said he had received no word from Charge O'Shaughnessy since Monday. The last message from Mexico City came from the American consul late Tuesday forenoon.

Mr. Bryan appeared worried about Mr. O'Shaughnessy and today cabled him to report about conditions in Mexico City. The secretary was sure, however, that if anything had happened to O'Shaughnessy, other legations in Mexico City would have, through their home governments, informed the United States.

Press reports have stated that telegraph wires from Mexico City to Vera Cruz were cut yesterday, which would probably account for the lack of information.

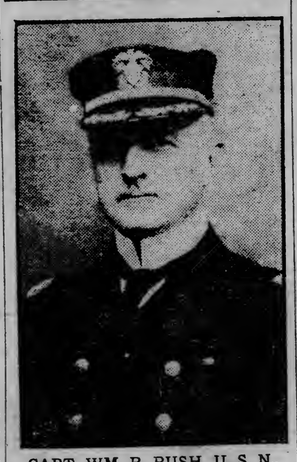
PENNSYLVANIANS READY TO MARCH.

Pittsburg, Pa., April 22.—Recruiting officers were on duty in local armories during last night and today bringing the commands of the Pennsylvania National Guard to a full peace footing in anticipation of orders placing them on a war basis. The Fourteenth and Eighteenth regiments, Battery B and Troop H have their kits packed and can move in a few hours when ordered. Headquarters of the Tenth Pennsylvania at Greensburg, Pa., received many applications for enlistment. The regiment saw active service in the Philippines.

MINNESOTA OFFICERS IN THE MARINE CORPS.

From The Herald Washington Bureau.

Washington, April 22.—Following are the Minnesota men holding commissions in the marine corps who are likely to see service in Mexico:



Capt. J. F. Dyer and Maj. N. J. Shaw of Minneapolis.

Capt. A. T. Marix of St. Paul.

PUTTING THE LID ON.

COMMANDED FORCE THAT TOOK VERA CRUZ

CAPT. WM. R. RUSH, U. S. N., Commander of the Battleship Florida.

NEW YORK MILITIA IS GETTING READY.

New York, April 22.—The commissary officers of the New York National Guard regiments began today making arrangements for the immediate provisioning of men and preparing requisitions on the war department for the quick delivery of field equipment. This action followed orders from their commanding officers, who want to be prepared for active service if called upon by the government.

APRIL IS THE WAR MONTH FOR THE UNITED STATES

Of the nineteen wars in which the United States has engaged ten have been declared in the month of April, as follows:

April, 1775—War of the Revolution.

April, 1831—Black Hawk Indian war.

April, 1836—Cherokee removal war.

April, 1846—War with Mexico.

April, 1849—Apache, Navajo and Utah Indian war.

April, 1856—Seminole Indian war.

April, 1861—Civil war.

April, 1898—Spanish-American war.

April, 1899—Philippine insurrection.

April, 1914—Mexican disturbance.

WASHINGTON HALTS; HUERTA'S MOVE NEXT

Complete Severance of Diplomatic Relations Is Rumored on High Authority at Capital.

All Is in Readiness for Actual Warfare; Armed Citizens Shoot Ineffectually at Americans.

Washington, April 22.—American operations in Mexico at Vera Cruz took on renewed aspects of war today when Rear Admiral Badger landed more marines from the Atlantic fleet and the United States forces proceeded to take the entire city.

While the orders of the president were being carried out to the letter, it was made apparent in conference at the White House that the United States will "sit tight" at Vera Cruz and that no further steps of pacification will be taken at this time.

For the present it was declared on high authority that the forces at Vera Cruz would hold the city to convince Huerta that this government means business, and that no action would be taken at Tampico unless there are retaliatory actions on the part of the Huerta government.

No Tampico Orders.

No orders, it was stated, have been sent to the American officers with reference to landing at Tampico, the only orders being sent there referring to directions for ships sent to Vera Cruz. Admiral Badger will remain at Vera Cruz until further notice.

No advancement further than Vera Cruz on the part of the United States forces, it was made plain, would be undertaken unless some overt act on the part of Huerta and officials should precipitate further trouble and make more aggressive action necessary.

Despite the purpose of the administration to confine the operations at Vera Cruz, the situation took on an ominous aspect which indicated that more serious consequences cannot be averted. Though not officially announced, it was reported on high authority that Senor Algara, the Mexican charge d'affaires, had been directed by Huerta to ask for his passports and that the American charge at Mexico City, Mr. O'Shaughnessy, had been asked to leave.

May Be Attacked.

With this prospective breaking of diplomatic negotiations, together with the reports of aroused feeling among the Mexicans, the feeling here is that it may be necessary in the near future to resist active attack from Mexican Federal soldiers.

Everything is in readiness for actual warfare if it must come and congress today took the final step in justifying the president's course thus far.

Consul Canada in a dispatch to the state department this afternoon said that so far he had been unable to establish communication with the American embassy at Mexico City. He said a house-to-house search was being made through Vera Cruz and many arrests of armed Mexicans were being made.

No Non-Combatants Hurt.

The White House gave out the following statement:

"Dispatches received from Consul Canada at Vera Cruz at 1:10 p. m., announced that the American forces are now in complete possession of the city; that there was apparently no fatality among American and foreign non-com-

(Continued on page 10, third column.)

AMERICANS KILLED IN VERA CRUZ BATTLE

Washington, April 22.—A corrected list of Americans killed and wounded in the first fighting at Vera Cruz yesterday was cabled today by Admiral Fletcher. The list differs in important respects from the first press reports. All the dead were from the battleship Florida. The list follows:

The dead:

Coxswain John E. Shoemaker, a son of Mrs. Isabella McKinnon of Brooklyn. He was born in Brooklyn, Dec. 5, 1889. He first enlisted in the navy Nov. 27, 1907, and was discharged Dec. 4, 1910. He re-enlisted the next day on the Hancock, at New York, later was transferred to the gunboat Wheeling, from which he was transferred to the Florida.

Seaman George Poinsett, a son of William P. Poinsett of Philadelphia. He was born in Philadelphia April 10, 1894, and enlisted in that city June 16, 1912. He was assigned to the Florida from the training school at Newport, R. I.

Marine Private Daniel Aloysius Haggarty, a son of Michael Haggarty of Cambridge, Mass. His first enlistment was on July 24, 1906. He served until July 12, 1910, and was discharged at the end of enlistment with a certificate of excellent character. He re-enlisted Jan. 7, 1911, at Boston on the battleship Utah, and was attached to the Eighth company, Second regiment, advance brigade.

Marine Private Samuel Marten, Sixteenth company, Second advance base regiment, enlisted at Chicago. Next of kin, father, Mayer Marten, Chicago.

Seriously wounded marines: Private George Draine, Seventeenth company, Second regiment, enlisted at Chicago. Next of kin, mother, Estella Draine, St. Joseph, Mo.

Private Edward P. Peterson, Sixteenth company, Second regiment, enlisted at Cleveland, Ohio. Next of kin,

(Continued on page 17, 7th column.)

HUERTA TROOPS CALLED ON TO "REPEL THE INVASION"

SUPPLIES FOR THE ARKANSAS MILITIA.

St. Louis, Mo., April 22.—Orders to rush army supplies to the headquarters of the Arkansas National Guards and provisions to the troops on the Mexican border were received here last night by Lieut.-Col. D. S. Stanley, army depot quartermaster.

A telegram from Governor Hays of Arkansas asked for 100 tents and the order for the border troops called for large quantities of condensed milk, beans, soap and candles.

NO MEMBER OF THE CABINET TO RESIGN

Washington, April 22. — The White House today requested the publication of this statement:

"Secretary Tumulty denied emphatically today, as wholly unfounded, reports that any member of the cabinet contemplates resigning. He said that this subject had not been considered by the president or by any member of the cabinet and had never been discussed."

The statement was issued in connection with a report that Secretary Bryan was about to resign.

More Than 1,200 Volunteers Join Army at Piedras Negras.

More Than 2,000 Refugees Cross to Eagle Pass River.

Eagle Pass, Tex., April 22.—Piedras Negras, opposite Eagle Pass, was evacuated by the Federal garrison early today after a night of wild excitement. This morning more than 2,000 refugees came to the American side of the Rio Grande for protection.

Gen. Guajardo's forces now are camped at Fuentes, three miles south of Piedras Negras, waiting for trains to transport them to Saltillo.

All Federal forces have been ordered by Gen. Maas to concentrate at Saltillo "to repel the American invasion."

Last night, when the people of Piedras Negras learned that American marines had occupied Vera Cruz, a dozen recruiting offices were open and arms issued to volunteer companies as fast as organized. More than 1,200 volun-

in a whole complete new household outfit of high grade furniture at a snap; will sell one piece or entire lot. This includes a beautiful new piano. Our lease expires by the 27th. Come today, 2 to 4 p. m., 7 to 9 p. m.

1426 East First St.

NO EXCEPTION IN DOCTORS' FAVOR

Poisons Cannot Be Shipped By Parcel Post By Any One.

From The Herald Washington Bureau.

Washington, April 22.—A request made by Representative Steenerson, that the postoffice department modify the parcel post regulations to permit doctors and druggists to ship poisons by parcel post, has been refused by the department. Mr. Steenerson's attention was called to the matter by Dr. C. W. Simison of Hawley, Minn., who urged the modification of the regulation.

The department stated that no exception in the regulation could be made by the department in favor of doctors and druggists, for the reason that it would be considered class favoritism, and this could not be permitted.

300-POUND WOMAN JUMPS; LANDS ON MAN

Escapes Unhurt, Though Three Relatives Die in Fire.

Philadelphia, April 22. — Julius Schulz, aged 82, his wife, aged 75, and son, aged 52, lost their lives in a fire that destroyed their home early today. Mrs. Paul Schulz, who weighs more than 300 pounds, jumped from a window and fell on a man. Neither was badly hurt.

WEATHER—Generally fair tonight and Thursday; probably showers.

NEW BATTLE IN COLORADO

Heavy Fighting Occurs in Hills at Delagua.

Hundreds of Armed Strikers Confront State Troops.

Trinidad, Colo., April 22.—Heavy fighting is reported to have been in progress at Delagua since daylight. Armed strikers are said to be swarming in the hills north of town and firing into the camp.

A report at the offices of the Victor American Fuel company from Supt. B. W. Snodgrass said two men had been killed in the Delagua camp, and that three guards were reported killed in the hills above the canon.

Shooting in the hills north of Delagua started at daylight. Several bullets struck into the camp, but no damage was done. An attacking party, believed to be strikers from the Aguilar district, clashed with a party of fifteen guards stationed at the north side of the camp and in the hills above. Reinforcements were sent the Delagua guards from Hastings and from the military camp at Ludlow.

No Correspondent Allowed.

One of a party of newspaper men who left a Colorado & Southern train at Ludlow station early today was ordered by a militia officer to return to the train. He continued his journey to Trinidad.

Smoke still was rising today from the ruins of the Ludlow tent colony. Black heaps of rubbish marked the sites of the canvas homes where two days ago men, women and children lived. The only sign of life about the place was a mournful, hungry dog prowling bewildered about the ruins of his master's tent. The station, the overhead bridge and the roads were guarded by militiamen.

The men killed in the camp were Dave Donovan and Carl Johnson. Firing ceased at 8:15. Supt. Snodgrass of the Delagua mine reported that the state troops which came from Ludlow and Hastings in steel cars took to the hills and fired several volleys.

No information was available as to the casualties among the attackers. According to mine company reports the attacking party appeared in the hills north of the camp.

In Deep Canon.

Delagua is located in the bottom of a deep canon which at that point runs nearly east and west. The village surrounds the mine office and the company store, which are located a few hundred feet down the canon from the double tipple, which connects with the two mines, one piercing each side of the canon.

A report to the Victor-American Fuel company headquarters here stated that seven or eight guards who went into the hills to meet the strikers were still unaccounted for, and that the remaining guards dared not go into the hills to search for them. A call for help was sent to Ludlow and Hastings, and militiamen were rushed to Delagua. In the course of the firing the mine office and the company store were pierced with rifle bullets.

Hundreds Are Armed.

More than 500 armed strikers and 100 members of the Colorado National Guard slept on arms throughout the night.

Reports that the guardsmen were to attempt a sortie with their machine guns in an effort to escape from their precarious position, where they are surrounded by strikers, added to the tension which is already at a breaking point. The soldiers, on the other hand, had heard of reinforcements by the hundreds who were supposed to be on their way to aid the strikers.

PHAETON ELECTRIC FOR SALE

Batteries and car in first-class condition. Any reasonable price considered. Phone Grand 483; Melrose 675.

OFFICERS CHOSEN BY ASSOCIATED PRESS

A. C. Weiss, Publisher of The Herald, Re-elected Director.

New York, April 22.—At the annual meeting here yesterday of the Associated Press, the following publishers were elected as directors for a term of three years:

Frank B. Noyes, Washington Star; W. I. McLean, Philadelphia Bulletin; Adolph S. Ochs, New York Times; A. C. Weiss, Duluth Herald, and W. Y. Morgan, Hutchinson, Kan., News.

R. M. Johnston of the Houston Post was elected for a term of one year to fill the vacancy caused by the retirement of Thomas G. Rapier of the New Orleans Picayune.

The members of the association unanimously adopted a resolution approving the action heretofore taken by the board of directors in respect to calling to account for an alleged violation of the by-laws, William R. Hearst, representing the San Francisco Examiner.

Members of the advisors' board for the ensuing year were elected as follows:

Eastern Division.

James Elverson, Jr., Philadelphia Inquirer; George B. Utter, Westerly, R. I., Sun; Edward H. Butler, Jr., Buffalo News; William H. Dow, Portland, Me., Express; A. P. Moore, Pittsburg, Leader.

Nominating committee: Don C. Seitz, New York World; Benjamin P. Anthony, New Bedford Standard.

Auditing committee: E. E. Smith, Meridian, Conn., Record.

Southern Division.

Charles R. Gray, Atlanta Journal; Frank B. Glass, Montgomery Advertiser; Robert E. Wing, New Orleans State; H. C. Adler, Chattanooga Times; Bruce Haldeman, Louisville Courier-Journal.

Nominating committee: W. J. Crawford, Memphis Commercial Appeal; D. D. Moore, New Orleans Times-Democrat.

Auditing committee: Frederick I. Thompson, Mobile Register.

Central Division.

Ernest Bross, Terre Haute Star; Gardner Cowles, Des Moines Register and Leader; Melvin A. Hoyt, Milwaukee News; B. B. Burton, Joplin, Mo., News-Herald; J. E. Sechrist, Lincoln, Neb., State Journal.

Nominating committee: Robert E. Wolfe, Columbus, Ohio, State Journal; Thomas Rees, Springfield, Ill., State Register.

Auditing committee: Louis T. Goldin, St. Joseph, Mo., News and Press.

Western Division.

M. E. De Young, San Francisco Chronicle; A. J. Blethen, Seattle Times; S. A. Perkins, Tacoma Ledger; I. N. Stevens, Pueblo Chieftain; A. N. Mackay, Salt Lake Tribune.

Nominating committee: C. A. Morden, Portland, Or., Telegram; R. A. Crothers, San Francisco Bulletin.

Auditing committee: D. H. Callister, Salt Lake Herald-Republican.

TWO FISHERMEN WERE USING LIGHTS.

The first arrest this year for violation of the state fish laws was made this morning by Deputy Game Warden Archie Boyd.

Gust Davis and Herman Falk were taken into custody this morning on a charge of having used artificial lights in catching fish in the St. Louis river last night. They pleaded guilty when brought before Judge Cutting, who imposed a fine of $50 and costs or sixty days on the work farm and later placed the pair on parole for six months. They each paid court cotss of $1.25.

LINDBERGH FILES AS REPUBLICAN

Colleagues Surprised as He Was Considered "Bull Mooser."

From The Herald Washington Bureau.

Washington, April 22.—Representative Charles A. Lindbergh has filed for renomination in the Sixth Minnesota district as a Republican.

This was a matter of considerable surprise to his colleagues, as he had been considered a "Bull Mooser." Mr. Lindbergh stated today that he "accepts no platform not drafted by the people themselves," and he has issued a pamphlet in which he makes his position clear. He stated that, while he will be a candidate on the Republican ticket, he will act and vote independently upon all national questions.

Representative Sydney Anderson has also filed for re-election to congress from the First district.

SHAVED PEOPLE FOR SIXTY YEARS.

Marquette, Mich., April 22.—(Special to The Herald.)—In the death of Mathew Krier at Michigamme, Marquette county, it is believed the barber trade in Michigan has lost its oldest active member. Krier was aged 77. He had been a barber for nearly six decades. He conducted his own shop and performed his duties at his chair almost up to the day of his death. His demise was due to heart disease.

Marine

AMERICA BACK FROM FIRST TRIP

Duluth Steamer Makes the Canadian Ports Without Any Mishaps.

The steamer America, owned by the United States & Dominion Transportation company, returned to Duluth at 11 a. m. today after a trip to Port Arthur and intermediate points. Although some ice was encountered in the bay at Port Arthur, no mishaps occurred and the vessel was in first-class condition when she docked.

The America has the distinction of making the first trip of the season to Canadian ports. A good-sized cargo of supplies was unloaded on the down-lake trip, and another cargo of supplies brought back besides a large number of passengers. As soon as the boat docked today unloading her cargo began, and it is expected that she will be fuly loaded again ready for a second trip at 10 o'clock tomorrow morning.

The America did not stop at Isle Royale on her first trip, and it is expected that she will defer visits to that point until later in the season.

Good speed was maintained throughout the trip. The entire time occupied in the voyage was only two days. The boat left Duluth at 11 a. m., Monday and docked here again at 11 today. She was to have left here Sunday morning but was delayed by the fierce gale which swept the lake Sunday and Sunday night.

TONNAGE WILL BE UNDER 1913

President Livingstone of Lake Carriers Predicts Poor Season.

Detroit, Mich., April 22.—(Special to The Herald.)—"The tonnage of the 1914 season of navigation will by no means equal that of last year," declared William Livingstone, president of the Lake Carriers' association, today.

"There are so many factors that go to bring about a quiet year on the Great Lakes for the coming season that nothing short of a radical change would bring it up to the standard of last year.

"The railroads are buying from hand to mouth and that in itself is enough to reduce the tonnage considerably. They are awaiting an increase in rates decision and until something definite is done it is hardly likely that they will change their policy of laying close to the ground.

"Then there is the currency bill and other unsettled conditions in the country. I do not blame the prospective condition of lake navigation on the country; the country is all right, but it just so happens that all of these big and important revisions of law and rules come at the same time."

FOUR STEAMERS AT TWO-TREE ISLAND

Mile of Heavy Ice Still at Soo; Weather Is Cold.

Sault Ste. Marie, Mich., April 22.—(Special to The Herald.)—At noon today four of the upbound fleet reached a point oposite Two-Tree island in Mud lake.

The work of ice breaking was very slow. There remained about a mile of heavy ice to break up before open water would be reached.

The weather keeps cool with northwest winds. The lone downbound steamer which was reported passing Whitefish point yesterday afternoon has not been sighted since, nor has she reached the Soo. It is probable she has encountered some of the big ice fields.

ICE IN LOWER LAKES A HANDICAP

Conditions Improve at Whitefish Point; Blockade at Lime Island

Although interlake navigation has begun, considerable ice is reported at various points. Conditions, however, are improving rapidly.

The ice conditions at Whitefish point are becoming quite favorable. The fields are said to be moving out of the bay slowly, and vessels will be able to pass if they avoid the large floes.

The ice at Lime island, lower St. Mary's river, has proved a serious handicap to navigation. Six steamers that left Detour yesterday to break through the ice were unable to get beyond a half mile above the Pittsburg coal dock on Lime island. At this point the heaviest ice is encountered, and steamers may not reach the Soo until tonight.

The ice breaking continued until darkness when the vessels anchored for the night. The Niagara steamed into Detour last night, making seven steamers en route for the Soo. These are the Niagara, McKee, Franz, Ontario, Agawa, Harvester and the L. R. Davidson.

A Canadian steamer passed Whitefish point late yesterday afternoon, and it is reported to have made very good headway.

SHIPPING ORE FROM ASHLAND.

Ashland, Wis., April 22.—The Soo railroad has begun hauling ore into Ashland from the Gogebic iron range. Two or three vessels have already cleared from Lake Erie ports for the Head of the Lakes and the Canadian furnaces near Sault Ste. Marie are anxious to get ore from the Ahsland Northwestern docks as early as possible.

EASTON WILL BEGIN HER TRIPS IN MAY.

The steamer Easton, owned and operated by the United States & Dominion Transportation company, will be put into commission for lake traffic the last week in May. The vessel has been employed for several years in carrying merchandise between the Head of the Lakes and north and south shore points.

Detroit Passages.

Detroit, Mich., April 22.—(Special to The Herald.)—Up: Leopold, 7:40 a. m. Wednesday; Mullen, Snyder, Jr., 8; Carleton, Peter Reiss, North, 8:30.

Down: Bope, 8:45 Tuesday night; Wyandotte, 3:15 a. m. Wednesday; J. F. Fratter, Taylor, 10:30.

GIVES TEMPERANCE TALK TO STUDENTS.

Mrs. Bessie Laythe Scovell, state president of the Women's Christian Temperance union, gave a lecture this morning on the effects of alcohol on the human system before the student body at the Central high school.

Mrs. Scovell said that all live problems were now being brought before the students throughout the country in order that these might become a part of their education.

She said that alcohol was harmful to the body. Showing a diagram of the body she said that alcohol first affects the nerves of self-control, then those of knowledge, then locomotion, and later the lungs and heart. Cigarettes, she said, worked the other way, going first to the heart, then the lungs, locomotion, knowledge and self-control.

The Big Suit Event of the Season!

Overstocks of New York Manufacturers

The number of garments runs into hundreds and lots will be replenished at frequent intervals. The styles are exclusive and fabrics and coloring afford an exceptional chance to choice with satisfaction. Particularly every new effect finds a good interpretation in this magnificent collection of suits.

Lot 1—$16.50 Suits $10.00

$16.50 is the regular value of these suits, and they are superb values at that price. **The models are the height of the vogue;** all the delightful colors that are most popular this season for women and misses, go on sale at, only **$10.00**

Lot 2—$22.00 Suits $14.50

$22.00 was the former selling price of these garments; suits of an exclusiveness that will delight the most particular and those who desire nothing but the latest styles; sizes for women and misses on sale at **$14.50**

Lot 3—$25.00 Suits $17.50

$25.00 was the price originally asked for these suits. The materials are French wear serge, moire, silk poplin, fancy corded weaves and novelty mixtures. The newest styles, kimono sleeves, trimming of moire and taffeta, for women and misses; sizes on sale at **$17.50**

Lot 4—$32.00 Suits $22.50

$32.00; yes, and no doubt you will have to pay more for any of these suits in this lot. Materials of silk moire, crepes, silk poplins, taffeta, etc.; the new Bolero coats, standing collars; skirts in tier effect; charming and clever suits; they go during this sale at, only **$22.50**

Lot 5—$35.00 Suits $25.00

Moire and taffeta suits; a few novelty and crepes amongst this lot, in the newest styles, smartest and best tailored garments that have ever been shown at these prices. Printers' ink could not describe the elegance and workmanship of these garments; women's and misses' sizes on sale at..... **$25.00**

Lot 6—$50.00 and $45.00 Suits $32.50

Moire, poplin, taffeta, faille, and crepe materials. An elegant collection at an attractively low price. There are suits in this lot, that some stores would ask as high as $50.00 for. There are not very many in this lot to choose from, and if you are fortunate enough to respond to this ad immediately you are bound to benefit at a saving of 100 per cent. Women's and misses' sizes go on sale at..... **$32.50**

Our New Spring Blouses

These Are the Newest and Very Latest of the Season, in Natty and Chic Styles—

We are showing the most wonderful values in Blouses ever shown in Duluth. The materials and workmanship are such as you would expect to find in Waists at a considerable higher price than what we are asking for them. It is a fact that some of our 98c Waists are handsomer than those that are being asked $2.00 and $2.50 for in other stores.

Table No. 1—Waists 98c

Consisting of fifty different styles, materials of voiles, crepe, lingerie, silk, lawn, included in this lot is the new Tango Waist; colors pink, gold, new blue and white; value up to $2.00; your choice..... **98c**

Table 2—$4.50 Values $1.98

This lot consists of lingerie, silks, voiles and laces; waists that should sell regularly at $4.50. Your choice **$1.98**

Our waists at $2.50 to $5.75 cannot be duplicated. Our statement may be bold, but nevertheless this is a fact. Materials consist of silk crepe, plain and flowered effect, voiles lace trimmed, and with fancy frills; shadow laces, nets, messalines, etc. It is also a fact that some of our $3.75 Waists are handsomer than some that are shown elsewhere at $5.75 to $7.75.

DRESSES

Beautiful Styles and Positively Unmatchable Values

We will offer an unusual opportunity in silk cloth, crepe de chine, charmeuse, pussy willow taffeta and novelty silks. They are all beautifully made with draped skirt and fancy blouse. Special price during this sale

$2.98 values; messaline silk Petticoats, in all colors; sale price **$1.69**
$4.50 values; Jersey Top Petticoats, in all colors; sale price **$2.98**

CONFER ON N. P. SUBWAY

City Commission Favors Short Route Along Railway Tracks.

The county commissioners met informally this morning in the mayor's office for further consideration of the proposed subway under the tracks of the Northern Pacific at Smithville.

Three different propositions were discussed. One was to follow the present route, another to use Gogebic street and follow the zigzag course along several streets and avenues, and the other was to cross at Gogebic street and follow the right-of-way of the Northern Pacific, which would eliminate the many sharp turns of the second route.

The general sentiment favored the third route. This would necessitate securing about sixty feet of the rear lots abutting the right-of-way of the Northern Pacific. One of the property owners was present this morning and he said that he would be willing to dedicate the necessary easement over his holdings. He will take the matter up with other property owners residing in the city.

If a considerable portion of the right-of-way will be deeded to the city and the cost of securing the balance is not heavy, the council will probably select this route. It would eliminate the long, deep cut which would have to be made if the present road were followed as well as the payment of big damages which might result and it also removes the sharp turns complained of in the other Gogebic street route.

The Gogebic street route with the roadway paralleling the railroad tracks was indorsed as the second proposition at the recent public hearing conducted by the council on the subway matter. The first choice of the delegation was the construction of a subway where the present road intersects the tracks.

HOUSING CODE IS MISUNDERSTOOD

Mayor Says Regulations Insure Better Conditions for All Classes.

Mayor Prince declares that most of the complaints against the housing code are due to a misunderstanding of its provisions.

He asserts that it is a good piece of legislation as it insures proper living conditions for all classes of people and thereby plays an important part in conserving the health of the community. It makes crowded tenements and unlighted and unventilated rooms impossible. The mayor asserts that this does not meet with the approval of the landlord who wants to squeeze the last cent of revenue from his holdings but that it is in the interest of all but a small percentage of the people.

"The housing ordinance has some lesser features which might be changed," he said, "but we apply the rule of reason in enforcing them. We want the spirit of the ordinance observed. That is the essential thing. I am satisfied that if those who have been objecting to the measure would visit the city hall to have its provisions explained to them, they would agree that it is not too drastic."

ADDITIONAL SPORTS

WILL PLACATE CHENEY.

Cubs' Dissatisfied Pitcher May Get Raise in Salary.

Chicago, April 22.—A meeting between Larry Cheney, the Cubs' pitcher, who is said to be dissatisfied with the terms under which he is working, and President Thomas of the club was to take place this afternoon at the ball park. Cheney has received an offer from the Kansas City Federals, it is understood.

Thomas refused to say in advance of the meeting whether a raise in salary would be offered Cheney, but said that he expected no trouble in satisfying him.

VETERAN WRESTLER TO ENTER CONTEST.

Marquette, Mich., April 22.—(Special to The Herald.)—Announcement is made that John Rowett of Ironwood, sheriff of Gogebic county, will take part in the Cornish wrestling tournament to be conducted at Ishpeming in July in connection with a reunion of the Sons of St. George. Rowett is a veteran of the jackets, the holder of the world's championship in the Cornish style, it is asserted by Upper Michigan authorities, and it is said he will be prepared to meet all contenders. He has not wrestled for several years.

Superior

Employes Re-elected.

The city commissioners yesterday afternoon re-elected all the former clerks and officials for the various departments. They are: H. V. Gard, corporation counsel; T. L. McIntosh, assistant corporation counsel; R. E. McKeague, city clerk; George W. Kane, city treasurer; W. J. Patterson, city comptroller; William Tiedeman, city assessor; E. B. Banks, city engineer; Dr. C. M. Gould, health commissioner; J. A. Little, city statistician; J. C. Stewart, secretary board of public works; John Bowser, poundmaster, District No. 2; A. G. Swanstrom, poundmaster, District No. 3; John Brantmeyer, poundmaster, District No. 4.

P. G. Ekstrand was reappointed a member of the board of public works for a three-year term.

Tried to "Pinch a Poke."

Chief of Police McKinnon last night arrested a man who gave the name of J. J. Blade, while the latter is alleged to have been attempting to pick a pocketbook from the pocket of Duncan McDonald, general manager of the Superior Laundry company. The attempted theft took place at the arena, corner Eighth street and Ogden avenue, during the Gibbons-Brown boxing contest. McDonald felt someone pulling at his pocket and notified Chief McKinnon, who stood in front of him. The chief reached back and grabbed the man, who is said to have dropped the pocketbook on the floor. He was arraigned in court this afternoon on a charge of larceny from the person.

Boys Charged With Theft.

Willie Dufree and Willie Lemere were arrested yesterday on complaint of Philip Creteau, a junk dealer, who alleged that the boys had stolen from him 1,500 pounds of scrap iron. The value of the loot, he says, is $5. Both boys pleaded not guilty and hearing was set for Saturday.

Railroads

ELECT NEW JERSEYITE.

Jamestown, N. D., April 22.—(Special to The Herald.)—A new set of officials was elected by the directors of the Midland Continental railroad at the annual meeting here. They now are inspecting the proposed extension from Wimbledon to Grand Forks, going over the route that has been laid out.

W. T. Van Brunt, for ten years a prominent official in the Vanderbilt lines, is the new president of the company. He lives at Jersey City, N. J., and is thoroughly interested in the possibilities of developing a Winnipeg to the Mexican gulf line, maintaining that the opening of the Panama canal lends new possibilities to such a line.

The other officers are: Vice president, C. F. Hatley, Chicago; secretary, A. C. MacIlvain, Chicago; treasurer, W. C. Phillips, Chicago; chairman of the board of directors, F. K. Bull, Racine, Wis.

With the change of officers it is probable that the proposed line to Grand Forks will cover a new route.

SUNDAY TRAIN FOR SPORTSMEN.

The Duluth, Winnipeg & Pacific Railroad company is planning to accommodate Sunday outers with a special train service from Duluth to Fort Frances.

According to the tentative program, beginning about the middle of May or June 1, a Sunday train will leave Duluth at 7 a. m., returning from Fort Frances at 3 p. m. This proposed schedule will afford pleasure-seekers at the Head of the Lakes an opportunity to pass the day at the various lakes along the route, returning home about 10:30 p. m. Last year a special daily service was inaugurated, but this year only the special Sunday service will be provided, it is thought.

Much publicity already is being given to the pleasure resorts in the northern part of the state by the Duluth, Winnipeg & Pacific. Vermilion lake is being featured as one of the most beautiful bodies of water in the state, thirty-five miles long and containing 400 islands.

The railroad company's literature also calls attention to the territory that can be reached from Ericsburg by canoe up Rat river to Black bay, one mile portage into Lake Kabetogama. Excellent sport is obtainable throughout the bodies of water along the route of the D. W. & P.

The company reports that numerous inquiries regarding the fishing and opportunities for summer outings in that section are being received.

WIDOW MARRIES FORMER HUSBAND.

A marriage license was issued this morning to Mrs. Josie Bergstrom of 204 West Third street and Edmond J. Butchart, her former husband. They have been separated quite a number of years. Eight years ago Mrs. Butchart was married to G. A. Bergstrom, who, up to the time of his death, about a year ago, was foreman of the News Tribune composing room. Since Mr. Bergstrom's death, the widow and her former husband renewed acquaintance and today were reunited. They have a 14-year-old son, who has been living with his mother since the separation.

She Darkened Her Gray Hair

A Kansas City Lady Darkened Her Gray Hair and Stimulated Its Growth by a Simple Home Process.

She Tells How She Did It.

A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, made the following statement: "Any lady or gentleman can darken their gray or faded hair, stimulate its growth and make it soft and glossy with this simple recipe, which they can mix at home. To half pint of water add 1 oz. of bay rum, 1 small box of Barbo Compound and ¼ oz. of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently, then every two weeks. This mixture relieves scalp troubles and is excellent for dandruff and falling hair. It does not stain the scalp, is not sticky or greasy and does not rub off. It will make a gray haired person look 10 to 20 years younger."

HICKEN FOR PROHIBITION

Favors Federal Anti-Liquor Law Rather Than Local Regulation.

Other Speakers Rap Liquor Business at W. C. T. U. Meeting.

The breweries, saloons and other liquor interests were scored as the foes of law enforcement, churches, and the people at large by speakers at the annual joint banquet held last night by the three W. C. T. U. organizations of the city at the First Swedish Baptist church, Twenty-second avenue west and Third street. The banquet was attended by nearly 250 people.

W. A. Hicken, commissioner of public safety, in speaking on law enforcement, said that the people had drifted away from the enforcement of the laws by being lax with the Sunday closing law. He said that while the general sentiment was that laws regarding the prosecution of murders, robberies and felonies should be rigidly enforced, that the liquor dealers did not favor the enforcement of the laws regulating their business.

Wants National Prohibition.

"I am not much in favor of prohibition for localities, either state or city, but I am heartily in favor of national prohibition," said Mr. Hicken. "National prohibition will eventually come."

B. N. Wheeler said that through the work of the W. C. T. U. the breweries and saloons were at last beginning to actually worry. He praised the work being done by the women. He also gave statistics showing the extent of the liquor traffic in the country, and also showed figures of the amount of money being spent for church work, which were far under the former sum.

Rev. Robert Yost said that the foes of the church were the liquor dealers. These, he said, were placing all obstacles possible in the way of the work of the church in its campaign for temperance. He urged the men to get into the work and said that the work had now reached a stage where the cooperation of the men was needed.

Mrs. Bessie Laythe Scovell, college secretary for the W. C. T. U., told of the work being accomplished in many of the colleges of the country. She said that the colleges were the last places to be reached. She predicted that with the present strides of the temperance forces that the national prohibition would be accomplished within the next ten years.

Urges Women to Join.

"You women who are not members of the W. C. T. U., better join now," said Mrs. Scovell. "Fifty years from now the women throughout the country will be organizing Daughters of the W. C. T. U., and they will be paying $25 to $50 to join, just as women are now paying to join the Daughters of the American Revolution."

Mrs. Joseph Cochran, president of the district union, was toastmistress. An address of welcome was given by Rev. Swaney Nelson, pastor of the Swedish Baptist church. The invocation was given by Rev. H. A. Ofstie. Several musical selections were also given.

Thursday's Popular Price Attractions

Apparel of the Better Kind

Suits---Coats---Dresses

At Freimuth's women will find a happy combination of highest quality and lowest prices—not in the mediocre models but in garments that are distinctive in character and exclusive in design. We illustrate with the following, some of which are very special and exceptional at the prices.

Fancy Trimmed Suits $18.95

"Just Out" Models—at

These are smart modish suits that flatter the price—you cannot find prettier or more becoming garments for the money. Just 35 of them and they will pass on to as many "value-wise" women who can appreciate such beauty and style. Fashioned of new wool crepes and worsted fancies, in greens, blue, helio, navy, tango, brown and black; made with the stunning tier skirts and peplum ruffles; the coat made with satin tie of self colors. They are copied from some of the imported models exhibited in one of the New York Fashion Reviews. A wonderful value for the price we quote.

Continuation of Sale of Sample Suits at $25

Just as good choosing as when the sale started, for we have added about 20 new models to the collection. There are no two alike, thus affording women an individuality and exclusiveness that raises this selling event to one above the ordinary. They are samples of high grade suits that other stores feature at $29.50 and $32.50. Materials are season's most favored fabrics; sizes 16 and 18 for misses and 36 and 38 for women.

Still More of Those $25.00 Coats at $19.50

Even at their regular price these stunning coats are considered extra good value for they possess every element of excellence, exclusive style, finest fabrics and highest class of workmanship. But inasmuch as the maker made a special price concession on 100 of the coats (in a diversified range of models) we are giving our customers the benefit of this saving. They are the renowned "Prinzess" make and come in all desirable colors for spring. Lined with Peau de Cygne of a superior wearing quality.

Silk Suits Will Be More Popular

Dame Fashion has declared the silk suit to be "de rigeur" for spring and summer wear, and the style creators have evolved some wonderful suit styles from the new silks that promises a great season for their beautiful garments. The silks are in new effects and designs and rich in colorings. Among them are Moires, Poplins, Taffetas and Faille Silks—colors are violet, helio, tango, rose, reseda, olive, Copenhagen, blue, tan, black, etc. Reasonable in price—

$32.50, $39.50, $45 and $59.50

BIG EXODUS FOR NORWAY

Nearly 20,000 in Northwest Will Revisit Their Native Land.

Between 15,000 and 20,000 Norwegian-American residents of the Northwest, it is estimated, will leave within the next three weeks for Norway to participate in the centennial celebration of their country's independence next month, and of this number, Duluth will contribute about 200 men, women and children.

Several small parties have already left Duluth for points in Norway and Sweden, while the bulk of Duluth's share will not leave until May and June. On May 6 a party of fifty men, women and children will leave Duluth in a special car for New York, from which port they will sail on the Olympic on May 9. This last party will be headed by Fred W. Erickson of 2029 West Third street, who is arranging for the excursion.

On June 4 the members of the Normanna Male chorus, consisting of about forty men, will also leave this city for Norwegian points, and it is expected that Duluth's share at the centennial celebration will fairly represent the Norwegian population of this city.

In addition to visiting at Christiania, the visitors to Norway will also take in the Baltic exposition at Malmo, Sweden. Among those who have already arranged to sail with Mr. Erickson are the following Duluthians:

Mr. and Mrs. John Lindstrom and family, Mr. and Mrs. John Rundberg and family, Mrs. Norlander and daughter, Mrs. Josephine Bergquist and son, Mrs. Neander and daughter, Mrs. Olga Johnson, Mrs. Paulson, Misses Hilda Johnson, Othella Gustafson, Mattson, Edith Olson, Ellen Nyberg, Ruth Dahl, Esther Wickstrom, Thelma Olund, and the Messrs. Oscar Engelstad, Michael Madsen, Albert Anderson, Ellinder Johnson, Frank Johnson, Fred Carlson, C. V. Lundgren, Edwin Johnson, William Jolmson, Gilbert Johnson, David Hornell, Gust Johnson, Carl Mattson, Carl Blomquist, Arvid Blomquist, Hjalmer Wilner, Oscar Willstrand, John Wallin, Jolin Nelson, Joe Larson, Erick Sundstrom, Albert Molander and Axel Blom.

A party of 150 left the Northwestern station at Minneapolis on Saturday evening, while Peter Stromme, a prominent Norwegian of the Northwest, will head a party of 200 that will leave the Mill City this evening.

Import Mule Foot Hogs.

New Rockford, N. D., April 22.—(Special to The Herald.)—Mule foot hogs are to be bred in this section of North Dakota. Many have been shipped in here from Indiana and are in great demand because of their alleged immunity from cholera. The breed is said to be as good as all other varieties for pork and having this great advantage are regarded as more highly valuable for breeding purposes.

DULUTH SINGERS ARE HONORED

Two Choruses Will Sing at Sangerfest in Minneapolis.

Swedish singers of Duluth have been honored in the preparation of the program for the sixth quadrennial sangerfest of the American Union of Swedish Singers, which will be held during the week beginning June 7 at Minneapolis. Both the Orpheus Singing society and the Svea Glee club have been listed on the program for choruses.

The Swedish Singers' union comprises fifty-three clubs from various parts of the country. Of these only sixteen have been selected to sing as individual choruses.

William A. Anderson, director of the Orpheus society, said this morning that the members are making elaborate preparations for the festival. The entire membership of forty men will go to the sangerfest this year. He said that within a short time, probably during the month of May, one or two entertainments would be given in this city for the purpose of raising funds to take the singers to the Mill City.

WEST END MARKET WILL BE OPENED SOON.

At the next meeting of the West End Commercial club plans will be made for the opening of the West end public market during the latter part of May or early in June. Members of the club expect to take up a proposition to ask the city to put in an addition of two stalls and otherwise place the market in condition.

The ten stalls of the market are said to be insufficient for the farmers coming to the city. Last summer these ten stalls were crowded on each Wednesday and Saturday and on many of the days one or two farmers were compelled to use boxes for the display of their produce.

It is expected that this summer may be the last that the present market site will be occupied, and the club intends asking the city officials to plan on securing another site which will be permanent. It is intimated that the owner of the property intends erecting a building which will occupy the entire site.

A number of suggestions as to new sites have been advanced, and a majority of the residents have favored a place on Superior street between Twenty-third and Twenty-fourth avenues. This property is vacant and at the foot of a paved thoroughfare leading to the top of the hill. The club intends calling the city officials' attention to the need of the city owning such property.

Will Repeat Play.

The Allen Bible class of the Grace Methodist church has had several requests to repeat its play. "At the Union Depot," which was given by the members last Friday evening at the Columbia hall. Announcement was made this morning that the play would be repeated at Columbia hall next Friday evening.

Several new acts are to be introduced including musical numbers given by the Adams Glee club. About thirty members of the church will take part.

THOMPSON,

THE PHOTOGRAPHER,

2030 West Superior Street.

West End Briefs.

John C. Kingly of Moorhead left for his home last evening after spending several days visiting relatives in this end of the city.

Miss Edith Langdon of Staples is spending a few days a guest at the home of relatives in the West end.

Albert Anderson, 327 Vernon street, will entertain the trustees of the First Swedish Baptist church at his home this evening.

A "Young Mothers'" club will be organized this afternoon at the Bryant school. The club will be instructed in the care of babies. Membership to the class will be confined to girls of the upper grades of the school, who are called upon to attend their little brothers and sisters.

Rev. Gust F. Johnson will speak on "The Ruin of the Promising Young Man," at the Swedish Mission church this evening. He will also speak tomorrow afternoon at 3 o'clock. Tomorrow evening the services will be held in English.

Central Plumbing & Heating company, 2004 W. Superior St. Lincoln 593.

BONAR LAW AND ASQUITH CLASH

Opposition Leader Demands Judicial Probe of Ulster Affair.

London, April 22.—A stormy scene was created in the house of commons yesterday when Andrew Bonar Law, leader of the opposition, demanded a judicial inquiry into the naval and military movements recently contemplated by the government in Ulster. The Unionists charge that these movements constituted a plot to provoke a rising in Ulster.

Premier Asquith refused a judicial inquiry, as he said the charges had been proved false, but he challenged Mr. Law to make any accusations he wished to make in the house itself when he would be given the fullest opportunity for discussion.

Amid the cheers and angry shouts of their supporters, the two leaders took their places alternately at the table, challenging each other.

Uproar followed Mr. Law's declaration that the statements made by Premier Asquith and his colleagues had been proved untrue.

The scene ended when, amid ministerial cries of "take your day for discussion," Mr. Law said that if he had seen what the promised White Paper contained, he would consider what steps it was worth while to take.

The tinplate production of the United States last year—1,750,000,000 pounds—was ten times as great as it was in 1899.

IS THE WORK OF HUNDREDS

Plan of Efficiency Commission Is Product of Many Minds.

Anxious to Get Outline Early Before Public for Criticism.

St. Paul, Minn., April 22.—(Special to The Herald.)—"Of course," says the man who is wise in such matters, "two men are doing all the work of the efficiency commission." Far from so. All the mechanical work indeed is done by an office force consisting of two persons. You would hardly expect thirty men to try to hold the pencil that writes every little line. The data that have been collected in the office are digested with the assistance of Dr. Durand of the university, but the plan is the work of thirty men. In committees of five they study it intimately and as the outlines are prepared, they are submitted to the judgment of the entire commission.

It is the work of thirty men. It is more than that. The heads of departments and other officers and board members are consulted as often as possible. There is hardly a line in the chart that has not had the benefit of criticisms of men who are actually doing the work. And when the report is adopted, it will be the work not of one man, nor of thirty men, but of hundreds.

Few Points in Doubt.

Probably 75 per cent of the recommendations have been agreed upon not only by the staff and the members of the commission but by everyone who could be reached in consultation, as being the best that could be devised to meet the situation. Maybe more than that. There are comparatively few points that are in doubt and are to be threshed out further to see if some adjustment can be made that everyone will agree is right, and there are not more than two or three places where a positive opinion has been expressed by anyone that the commission is on the wrong track. These points will be thoroughly discussed until the commission is satisfied either that the objections can be met or that they ought not to stand in the way. In short the commission expects to be able to present an outline which everybody will say is as near right as we can get.

That outline will possibly be adopted at the meeting of the commission the second week in May.

But that does not end the commission's work. There are nine thousand, seven hundred and sixty-eight details to be shaped to fit the general plan. It is the intention to work these out during the summer, have them carefully checked over, verified by the men in the departments, and approved by the entire commission before the formal report is made.

Wants Public Criticism.

Informally the commission wishes to get this outline before the public as early as possible so that it may be criticized and corrected, if faults are found, by the entire public. There is reason to believe that the main outline need not be changed. There is a group of constitutional functions including the secretary of state, auditor, treasurer and attorney general. There is the state educational system on which the educational commission is working in harmony with the efficiency commission and there are the following four departments:

Public domain.
Public welfare including health.
Commerce and labor.
Agriculture.

In those departments with the allied boards that it will be necessary to retain for advisory purposes and quasi-judicial functions, it is believed that every activity of the state can be comprehended. And it is believed that as the state takes on new duties from time to time, a place can be found for all of them in these departments on economical lines.

So if anybody tells you that this is the work of two or three, or half a dozen men, you know, by the time it is done, five hundred people here and there will have had a hand in it, and thousands of people in one way or another will have given it their attention and help to bring it to pass.

DULUTH, MINN.

SENATE FINALLY VOTES TO UPHOLD PRESIDENT'S ACT

Adopts Resolution By Vote of 72 to 13 After Long Debate.

Amendments By Lodge, La Follette and Others Are Voted Down.

Washington, April 22.—The senate at 3:21 o'clock this morning, by a vote of 72 to 13, passed the administration resolution declaring that "the president is justified in the employment of the armed forces of the United States to enforce his demands for unequivocal amends for the affronts and indignities committed against the United States in Mexico."

The senate at 2:40 a. m., by a vote of 47 to 35, rejected the substitute Mexican resolution proposed by Senator Lodge. It would have based the "justification" of the use of force in Mexico upon the general conditions there, instead of upon the Tampico incident alone.

An amendment proposed by Senator Gallinger "justifying the president in the use of force to protect American citizens in Mexico" as well as to demand reparation for the Tampico incident, was defeated 43 to 40.

An amendment by Senator La Follette to provide that after "the subjugation" of Mexico the United States should retire from that country, leaving Mexico and "every portion of it to its own people" was voted down, 44 to 39.

Long Debate Held.

Throughout yesterday and last night the senate was the scene of debate, sometimes bitter, over the resolution of support.

Senator William Alden Smith said that in the Spanish war case "no ironclad resolution was presented to congress by the president as embodying the will of the executive.

"President McKinley," he said, "had no personal pique to gratify. There was no studied hatred of individuals in his great heart.

"The president of the United States told us yesterday that the citizens of the United States have been singled out for insult and injury in Mexico. No other nation has treated Mexico as we have treated her. Every other nation represented there recognized Mexico's de facto government—all but three, Argentine, Chile and Brazil. What have we done to help bleeding Mexico?"

Smith Critizes Policy.

"It is not a pleasant thing," he concluded, "to recite the historical facts as to our attitude toward Mexico. I have never criticized the president but I have thought about the least respectable thing our government could do was to aid and abet bandits and revolutionists in a friendly state."

At 6 o'clock the senate recessed until 8.

An air of excitement and grave concern pervaded the chamber when the senate reconvened. The crowded galleries and the floor were alive with the news that four American marines had been killed and twenty wounded in the taking of Vera Cruz. The spectators who filled the galleries and overflowed into the corridors sat in silent attention as the roll was called to enforce the attendance of a quorum.

Senator Root opened the night session with a speech supporting the Lodge substitute.

Root Supported Lodge.

"I shall not prolong the debate," he said, "for I believe whatever action we shall take ought to be taken today. There should be no further delay."

As Senator Root began the British ambassador, Sir Cecil Spring-Rice, took a place in the diplomatic gallery.

Senator Root said that the foreign relations committee resolution, while omitting the name of Huerta, made it plain that it was directed against him. He expressed the "highest regard for the president and the highest confidence in his purposes."

"But we are not asked to express our confidence in him," he continued. "We are asked, as a part of our duty here, to declare a certain course of action in certain conditions to be 'justified.' We are called upon to do our duty to the hundred million people of this country and our duty to the civilized world."

The resolution, Senator Root said, called for "forceful armed compulsion of the de facto government of a friendly nation to make amends for an insult to the flag of this country."

Confidence Not Justified.

"We cannot justify this," he continued, "on our confidence in the president. We must justify ourselves before the conscience of the people of our country and before the eyes of the civilized world. What is that justification? Mark you, I do not say there is no justification. I ask what it is."

Senator Root reviewed the Tampico incident as the avowed "justification" by the president. He said the incident was "an insult to our flag."

"But sir," he said, "amends were immediately made. The officer who made the arrest was himself arrested. The commandant at Tampico apologized, and Gen. Huerta also apologized. These amends were not sufficient to the commander of the American vessels, and he demanded a salute to the flag.

"We learn tonight that Vera Cruz has fallen; that four American marines lie dead; that a score lie suffering from wounds. Is there nothing else but this dispute of the number of guns—the form and ceremony of a salute to justify the sacrifice of the American lives?

When War Fires Are Lighted.

"Deeply as the president desires to limit the scope of his action—the maintenance of peace, all history suggests that, once lighted, the fires of war cannot be quenched at will. It is war in its essence that we are to vote to justify tonight. What the result of these incidents, no man can tell. Men will die—men dear to us will die because of the action we are to take tonight. American homes will be desolate, American children will go through life fatherless, because of the action we will take tonight, and when they turn back the page to find why their fathers died, are they to find that it was about the number of guns or the form of salute.

"We are to justify. What is the justification? Is there none but that? We the representatives of the great democracy that prides itself before the world that demands can be peaceful and just. Is there no justification that we can lay before the world, before the judgment seat of history, except a dispute about the number of guns?"

"How Justify Ourselves?"

As Senator Root paused, he raised his hands heavenward and, turning to the senators about him, said:

"How can we justify ourselves if we have not justification?

"But that is not all. Back of this incident, back of the special circumstances of the resolution reported by the committee, is a great array of fact."

Senator Root asked what would have been done if a similar incident had occurred in an English, French or German port. He said that any such dispute could be settled by peaceful negotiations.

"Lying behind the insult to the American flag are the lives of Americans, lives destroyed, others reduced to poverty because of the destruction of their property. Lying behind it is a condition of anarchy in Mexico. Lying back of this incident is a condition of things in Mexico which absolutely prevents the protection of American lives and property, except through respect for the American flag, the American uniform, the American government. It is that which makes necessary the demand that public respect be made to the flag of the United States."

Real Reasons for Action.

Tension in the chamber increased as Senator Root in a voice that sank lower and lower reached his conclusion and pleaded for greater justification than a mere dispute over the formal ceremony of a salute for the use of force.

"If we omit from this resolution that we are to pass here tonight," he said, "the matters included in the substitute preamble, we omit the real reasons behind the action.

"Ah, Mr. President," he said, in a voice that sank almost to a whisper, and the galleries leaned forward breathlessly to hear, "the capture of Vera Cruz, the death of our American marines, the wounding and the suffering of those who live there tonight demand something more, far more, than a formal insult for justification."

As Senator Root took his seat, a sigh literally swept the chamber and was lost in a chattering chorus of whispered comments that was stilled by the gavel of Senator Lewis in the chair. As it subsided, Senator Reed took the floor.

Cabinet Members Present.

Secretary Bryan sat on the floor of the senate and heard most of Senator Root's speech. Secretary McAdoo reached the senate chamber just as Mr. Root ended his speech. He, too, took a seat on the floor. Secretary Lane was in the diplomatic gallery.

Senator Reed spoke in opposition to Root.

"Mr. President, cannot we vote," said Senator Reed in conclusion. "They are dying down there in Mexico already.

"Can we not say we are not quibbling about sentences, cannot we say we joined the president to give him authority to act?"

"Shall we, in this country, who have sent three assassins of presidents to the gallows, say that Huerta shall rule by assassination in Mexico," asked Senator James.

James Answered Critics.

"You sneered at 'watchful waiting,' and now that there is action, you sneer at that. If President Wilson had not asked for a salute, if he had said: 'Oh no, let him apologize,' you would not be content with that. You would have said he was not worthy of the office of president."

Senator Clapp told the senate that while he believed the president would proceed in Mexico regardless of what action the senate might take, he believed the time had come when Mexico should realize that there is but one voice in the United States that war is to be.

"We can't stop the president," he said. "I wish he could have seen, months ago, yesterday and today; but now we must forget the mistakes, brush away the past and deal with a real war."

Senator Bristow demanded to know if Senator Clapp believed that if the senate should refuse to pass a resolution justifying the president, that the president would continue to carry out the policy on which he had already embarked. Senator Clapp said he believed the president would do so. Senator Bristow suggested that meant usurpation, and that congress should stay the president's hand and refuse him the men and arms "and stop the murder and slaughter going on tonight."

Senator Clapp replied that he believed the president would continue regardless "on the alleged cause of peace and maintenance of national honor."

Clapp Finds Fault.

"The president's getting us into war, I think was not justifiable," said Senator Clapp, "but to vote against the president now would encourage the enemy to believe that there is a division of sentiment in this country."

He added that the "president will learn by bitter experience that the attack on Vera Cruz will consolidate all Mexico, north and south, against his forces."

Senator Poindexter at this point proposed an amendment which would declare that "a state of war now exists between the United States and Mexico."

The senate, on motion of Senator Shively, voted to lay on the table this amendment.

VOLUNTEERS ARE OFFERED CONGRESS.

Washington, April 22.—Offers of volunteers for service in Mexico are being received by representatives in congress. Representative Ferris of Oklahoma forwarded to the president a telegram from Hollis, Okla., tendering a company of 100 picked men "to help place the Stars and Stripes above the halls of the Montezumas."

Representative Igoe of Missouri gave the president a telegram announcing the readiness of the Army and Navy club of St. Louis to furnish a regiment of seasoned Spanish-war veterans.

NAVAL RESERVES ARE ORDERED EAST.

Chicago, April 22.—In response to orders from Admiral Blue, chief of the bureau of navigation, Capt. George Clark, commanding the United States naval training station on Lake Michigan, today prepared to send 75 naval reserves to New York and 116 to Philadelphia. The men received the orders that they were to be sent east with cheers, and 500 men in the course of training appeared overjoyed at the prospects that they might follow in a short time.

CALIFORNIA OFFERS AVIATORS' SERVICES.

Sacramento, Cal., April 22.—E. A. Forbes, adjutant general of the state National Guard, has sent a telegram to Washington offering a company of California aviators for service in the United States army, if needed in the Mexican trouble. Seven aviators and sixty-five mechanicians have signed the National Guard's muster roll.

MILITIA TO GUARD ARIZONA CANALS.

Phoenix, Ariz., April 22.—Governor Hunt has ordered two companies of state militia to patrol irrigation canals and protect other property along the border in the vicinity of Yuma. They were instructed to get into the field by tonight.

NEW INDUSTRIES IN NORTH DAKOTA

Cheese Factory at Burkey and Creamery at Golden Valley.

Burkey, N. D., April 22.—(Special to The Herald.)—A cheese factory is to be established here. For some time it had been planned to have a creamery, but it was decided that the cheese factory was preferable, as the products could be transported to railroad points easier. The organization was formed with Martin Gass as president and E. E. Egan as secretary.

Golden Valley Creamery.

Golden Valley, N. D., April 22.—(Special to The Herald.)—Following the address of State Dairy Commissioner Flint, it was decided to establish a creamery at this point. It is planned to organize a co-operative company and a committee was named to take up the matter and solicit subscriptions to stock.

To Reopen Minto Creamery.

Minto, N. D., April 22.—(Special to The Herald.)—Following a term of idleness, the local creamery will be reopened in a few days. An effort is being made to induce the farmers of this part of the state to dispose of all their cream to the local institution instead of shipping to Grand Rapids and other out-of-town points, so it will insure the continuous operation of the plant.

IF SKIN ITCHES AND BREAKS OUT APPLY SULPHUR

Get Ounce of Bold-Sulphur Cream and Heal Eczema Eruptions Right Up.

For years, common bold-sulphur has occupied a secure position in the treatment of cutaneous affections, by reason of its parasite-destroying property. It is not only parasiticidal, but also antipruritic, antiseptic and remarkably healing in irritable and inflammatory conditions of the skin.

The moment you apply it to an itching or broken out skin the itching stops and the healing begins, says a noted dermatologist. Just common bold-sulphur made into a thick cream effects such prompt and remarkable results, even in aggravated Eczema that it is a never-ending source of amazement to physicians.

While not always establishing a permanent cure it never fails to subdue the angry itching and irritation and heal the Eczema right up and it is often years later before any eruption again appears on the skin.

Any good pharmacist will supply an ounce of bold-sulphur cream which should be applied to the irritated or inflamed parts, like the ordinary cold creams. It isn't unpleasant and the prompt relief afforded is very welcome, particularly when the eruption is accompanied with itching.

Electro Medicine

For Weak Men and Women

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these troubles by dosing their system with drugs.

It is impossible. Drugs are poisons, and poisons wreck the nerves.

If you are weak, run down, nervous and unambitious; if you suffer frequent headaches and have spells of despondency, it means that your nerves are starving for new energy. Electro Ozone. That's all they need, and nothing else will restore them.

Electro Ozone saturates the nerves and vitals with electric life. It builds up strength and vitality in every weakened organ and drives out pains and aches.

If there was any nourishment in drugs they might do some good, but you know there is not. Electro Ozone is nerve food—nerve life. It soaks into the nerves and is taken up by them just as a sponge absorbs water. It nourishes and vitalizes the parts which drugs cannot reach.

Every dose of drugs that you put into your stomach weakens your nerves. Every time you kill a pain or an ache, by stupefying the nerves with poisonous drugs, you are hurting them, and any one can see that in time, by steady dosing, your nervous system will be completely broken down.

You know that rheumatism is caused by uric acid in the blood. There's only one thing on earth that can get at this uric acid and drive it out of your system—that's Electro Ozone. It soaks into all tissues of the body and drives the poisonous matter through the circulation, back to the kidneys, which filter the blood of all impurities.

Come and be convinced of the good there is in electrified medicine. It will surely cure you. Consultation free.

COMMITTEE.

Many Towns Incorporate.

Fargo, N. D., April 22.—(Special to The Herald.)—Linton, Flasher and other towns of the state have incorporated recently and the latest to do so are Napoleon, Milnor and Alexander. The residents of the latter will vote April 28 on the question. Linton and Napoleon are county seats and the necessity for organized municipal governments was imperative in both.

Pierce County Farm Agent.

Rugby, N. D., April 22.—(Special to The Herald.)—A county farm agent will be placed in Pierce county, according to Director Thomas Cooper. Pierce county has completed its portion of the contract which placed it in a fair way to receive the support of the state experimental station, and as soon as the board of trustees approve the plan, the agent will be placed here.

This county will make a levy to support the better farming work.

CARING FOR THE BABIES

Scottish Rite Masons Will Continue Their Infant Welfare Work.

"Little Mothers'" Meetings Are Added to Last Year's Program

The program for the infant welfare work of the Scottish Rite Masons for 1914 has been decided on, and it calls for, in substance, a repetition of that of last year, with the addition of "Little Mothers'" meetings which have been under consideration for some time and now are fully organized.

The milk stations will be opened in June, or as soon as the warm weather seems to demand it; one will be held at the Masonic Temple, the other has not yet been definitely located. In connection with the milk stations there will be a free clinic under the charge of Dr. Rood Taylor, whose work last year called for many commendations and in connection with the work of the consistory nurse, the milk stations and the baby ward at St. Luke's hospital kept the death rate of infants to the lowest possible figure.

In addition to these factors, Miss Heikkila has a class of fifteen young girls who will be called on to take care of smaller children after school and during holidays. They will be informed on the necessities of their responsible calling and such instruction given, with practical demonstration of approved methods, as will enable them to act intelligently in cases of emergency. They will also hold such other instruction in hygiene and sanitation as can be brought down to the simple understanding of the "Little Mothers." Diplomas and badges will be given for efficiency and experience after examination and trial. The first class will be held in the Finnish church, on St. Croix avenue, and will consist of the pupils of Deaconness Thompson, Miss Heikkila being the instructor.

It is the intention of the director of the Scottish Rite "infant welfare" movement to try to co-operate with all other allied interests in the city in order that the greatest good may be accomplished with the least expenditure of time or money, but in any case the above program will be carried out fully. The city will, probably, furnish the milk which will be distributed at the milk stations, the consistory nurse modifying it, if necessary, to suit the cases at no additional expense. The board of education will be asked to furnish a place at the West end for the milk station at that point. In connection with the station at the Temple, the free clinics will be held, and the baby ward at St. Luke's hospital which has proven such a boon for sick babies, will be continued. Miss Heikkila will look after any cases she may find, or that may be reported to her without any charge whatever, without any inquiry as to religion, race, color, or condition and without the slightest tinge of charity being involved or implied. The order deems it a privilege to be allowed to help in any cases which come within its range of endeavor.

ALMOST FATAL SHOCK.

Stray Stories: Hostess—I believe you are a musician, Mr. Brown?

Brown (who is dying to give an exhibition of his powers)—Well—er—yes, I think I can claim to have a small reputation as a pianist.

Hostess—I am delighted to hear it. My daughter is going to play, and I should be so glad if you would turn the music for her.

TONIGHT'S ATTRACTIONS.

LYCEUM—"The Blue Bird."
ORPHEUM—Vaudeville.
EMPRESS—"College Days."

Amusement Notes.

One of the first Americans to have valued rightly the influence of Maeterlinck is Edward Everett Hale, vocationally a teacher in Union college and avocationally an enthusiastic play-goer and analyst of things theatrical. He is the son of the elder Edward Everett Hale, late chaplain of the United States senate and celebrated the world over as the author of that short story classic of patriotism, "The Man Without a Country." Writing seven years ago, Prof. E. E. Hale, Jr., had the insight to discover that the frankishness of Maeterlinck was unimportant. What really mattered was the mighty Belgian's quest for inner truth.

"People who considered him only as a curious experimenter in dramatic form were wrong about him, as also those who bothered their heads and their readers by talking about symbolism," he says. "He writes plays or studies the habits of bees, not merely as diversions, but as means of expression or attainment of something concerning the problem of life."

"This," adds the Yankee thinker, "is the enforcement of M. Maeterlinck's fundamental idea: The laws of life are not to be deduced from the apparent circumstances of life. They are to be appreciated by intuition. They are therefore best known, not by words, by deeds, by that which can be seen and heard, but in silence, not actively but passively. Such communication with the absolute gives one a certain kind of disposition of which the motive power is love and the directing power wisdom, but of these the latter is the servant of the former."

In the last edition of his critical reviews, published in 1911, Mr. Hale discussed "The Blue Bird," which he saw at the New theater and characterized as "a rapturously delightful performance." Like Prof. Grandgent of Harvard university and other Maeterlinckian analysts, he did not regard the symbolism of that masterpiece as particularly important or valuable.

* * *

Bring a basket to the Orpheum with you this week. Sitting in the front rows you will be able to collect enough kindling to do you for the winter. Director Fred Bradbury and the orchestra get a little out of tune dodging the chips, not the red and white and blue kind, but of good stout white pine, right off the stump. And you will get a sensation provided with your kindling. You probably have never thought that you could get very excited over two men chopping wood, but you will. Horse racing is tame beside it.

The entertainment is called "The Australian Woodchoppers." Harry Jackson and Peter McLaren are two men of brawn brought out of the bush of Australia to show Americans how to chop and saw wood, and they look so much the real thing it is almost disconcerting to see the big fellows make mincing bows to the applause over the footlights. The two men say that the bowing is the hardest thing about the turn. The exhibition is preceded by moving pictures of the Australian bush. Then comes the two men, who are the champion sawers and choppers of Australia, saw a stump, throw axes and have a wood chopping contest. The long, even stroke of Harry Jackson looks like a winner, but somehow McLaren frequently gets his piece on the floor a quarter of a second before him.

The two men are delighted with Duluth because they can get good wood here. In many cities it is almost impossible to get clean logs free from spikes, but in Duluth they get big lengths of pine right from the woods.

Some $1.25 to $2.00 Silks 89c.

Manistique Man Released.

Marquette, Mich., April 22.—(Special to The Herald.)—By the action of the state board of pardons, W. M. Orr, former cashier of a bank at Manistique, has been provisionally released from Marquette prison, where he had been confined since 1912. There was presented in his behalf a petition containing the names of more than 1,000 persons at Manistique, including the most influential men in the city. Orr was serving a sentence for embezzlement.

WOMEN'S SPRING FOOTWEAR

There's not a choice or a wanted Shoe missing from our spring lines. When a woman comes here for shoes we offer her no uncertain style—but the best shoes at any stated price that the country produces.

OUR $3.50, $4.00 AND $5.00 SHOES

These shoes are for the woman who wants Shoe Goodness, Shoe Elegance and Shoe Luxury at a reasonable price. Stock, workmanship and style are right in every detail—not cheap shoemaking in any sense. We believe these shoes to be the best shoes ever sold for these prices. At these prices we show the spring styles in High or Low Cut Models, all the new leathers, the right toe style and the new heels.

WILL CONFER ON MARKET

City and Commercial Club Will Try to Settle Differences.

Mayor Prince Would Give Whole Armory Floor for Market.

The market committee of the Commercial club will meet with the members of the city commission at the city hall at 2 o'clock tomorrow afternoon to discuss the local public market situation.

A week ago Monday the city council unanimously passed a resolution introduced by Roderick Murchison, head of the works division, turning over sixty feet of the ground floor of the Armory for market purposes, and providing that a partition should be built the full length of the room.

This action has called forth considerable unfavorable comment, many of those interested taking the position that the city should encourage the development of the agricultural tributary to Duluth by turning over the whole floor to the farmers. They assert that all the space is needed. When the resolution was laid before the council it did not result in any discussion, and was passed as presented without objection.

Commissioner Murchison declares that the operation of the works division will be greatly hampered if it cannot have the use of part of the space. He points out that not only is the blacksmith shop necessary for making quick repairs, but that it serves as a garage for automobiles and a storeroom for much other equipment and machinery which cannot be left exposed to the elements. He states that he knows of no other available place, and that if deprived of this room, sheds would have to be built as a rather unsatisfactory substitute.

Mayor Prince said this morning that he favors turning over the whole floor for market purposes. "Give them every opportunity to demonstrate that the entire space is needed," he continued. "Remove all obstructions and provide a clear track. Then if it is found that the market does not justify such a move, the city can govern itself accordingly in the future."

HERALD HOUSE PLANS POPULAR

Architect Reports Many Inquiries Regarding His Published Drawings.

The Herald will shortly complete its series of nine types of domestic architecture, rendered by Edward Palmes Shurick, Duluth residence architect. The series has thus far proven immensely popular with Herald readers and Mr. Shurick reports receiving many inquiries following the weekly appearance of the drawings on Saturday night.

Through The Herald medium direct the following have contracted for homes patterned after the types of architecture submitted by Mr. Shurick: L. P. Devlin, Duluth; D. D. Morgan, Virginia; Zock Kohenawitz, Hibbing; Mrs. M. McGrath, Kerrick, Minn. In addition to these Mr. Shurick has been instructed to draw plans for Mrs. Sinclair of Duluth, Mrs. D. Schulze, Eveleth; D. G. Callihan, Duluth; Mrs. D. G. Smithies, Mrs. A. K. Le Faro and D. P. Mader of Minneapolis. He has also prepared drawings for Mrs. Margaret Melville for a duplex residence in Duluth. Mrs. Melville became a client through The Herald series.

"Letters from all parts of Minnesota, Iowa and Montana reach me daily asking for further information regarding this series," said Mr. Shurick.

The series comprises the American home in brick, colonial type; the Swiss chalet, the English half-timbered, Spanish mission, American home in frame, German type, California bungalow and the French Renaissance.

WILL ENTERTAIN COLLEGE BAND

North Dakota Students Will Spend Two Days Here.

Arrangements were completed yesterday for the entertainment of the North Dakota Agricultural College Cadet band which will spend Saturday and Sunday in Duluth as a part of its second annual tour of Minnesota.

The band, which consists of forty-five pieces, will arrive in the city Saturday morning from the Twin Cities, accompanied by President Worst of the agricultural college, Secretary Yoder and Prof. Alfred G. Arvold and their wives.

The visitors will be met by George D. McCarthy, assistant secretary of the Commercial club and escorted to the Commercial club for luncheon. During the afternoon they will be shown the various points of interest about the city.

T. W. Hugo, who is in charge of the arrangements for the entertainment of the visitors, yesterday announced that the Scottish Rite quartet and Prof. A. F. M. Custance would hold a reception and smoker for the band men at the Commercial club Saturday evening.

On Sunday afternoon, the band will give a program as one of the series of free concerts at the auditorium of the Masonic temple. The public is invited ot attend. Owing to the limited seating capacity, children will be expected to remain away.

The program is announced as follows:

March—"Garland Entree".....King
Overture—"Lustspiel" ....Keler Bela
"Oh Hail Us Yet Free," (from "Ernani") .....Verdi
College Male Quartet.
Serenade—"A Night in June"....King
Tuba solo—"The Elephant's Dance" .....Dr. C. S. Putnam
C. F. Guss.
Tone Pictures of the South—"Uncle Tom's Cabin".....Lampe
"To Watch O'er Thee".....Pinouti
College Male Quartet.
Selection from opera "Sweethearts" .....Victor Herbert
Descriptive suite—"Atlantis" (The Lost Continent) .....Safranck
Part 1—Nocturne and morning hymn of praise.....
Part 2—A court function.....
Part 3—"I Love Thee" (The Prince and Aana).....
Part 4—The Destruction of Atlantia
Finale—"The Yellow and the Green" .....Dr C. S. Putnam

The band is considered to be one of the best cadet bands in the country. It is made up of students ranging from 18 to 25 years, and is directed by a student.

CITY SENDS BIG DRAFT

Will Retire $474,000 of Bonds and Pay $21,760 in Interest.

Reduction of Bonded Indebtedness Will Save $7,820 Yearly.

City Treasurer Grant E. McLean will forward a draft for $496,406.90 to the American Exchange National bank of New York tomorrow.

This will retire $474,000 of bonds which fall due May 1. It also includes $21,760 for interest on other bonds and the exchange which is charged.

Most of this big sum was raised by the sale of $400,000 of refunding bonds and the remainder comes from the sinking fund.

The net reduction of the city's bonded debt this year will amount to $157,000. The amount of bonds coming due May 1 was $500,000, but $26,000 of these were retired earlier in the year, bringing the aggregate down to $474,000. At the same time $47,000 of New Duluth bonds, which bore interest at 6 per cent, were retired, and in December a $10,000 block of Garfield avenue paving bonds will be paid. The annual saving of interest will be $7,820.

This will reduce the total bonded debt, exclusive of that of the water and light department, from $2,261,000 to $2,104,000 and will bring down the annual interest payment from $101,265 to $93,445.

SCHOOL FARM CLUB WILL BE ACTIVE

Pupils Plan Exhibit and Visits to Dairy and Chicken Farms.

An exhibit at the third annual Duluth Industrial show this fall, addresses by Dean Woods, Prof. A. D. Wilson and Prof. Boss of the agricultural department of the University of Minnesota and weekly trips to large dairies and chicken farms are among the plans of the recently organized Central High School Agricultural club, as announced at a meeting of the organization yesterday afternoon.

The committees of the club appointed at the first meeting a short time ago, made their first reports yesterday and the outlook of the new organization is very promising.

Announcement was made by the lecture committee that Dean Woods of the state university would in all probability come here this spring and address the members Profs. Wilson and Boss, also of the university, have accepted invitations to speak, while addresses will be delivered by Prof. A. J. McGuire of the Grand Rapids experimental station; J. P. Grout of the Jean du Luth farm, Prof. Mark Thompson of the Northeastern experimental farm, and C. E. Roe, prominent homecrofter of Duluth.

The agronomy committee announced preliminary plans for the first exhibit of the club to be made at the industrial show at the curling club this fall. The arrangements will be more fully completed at the next meeting.

Arrangements are also to be made for special trips to the large dairies and chicken farms in and about Duluth. The club is also publishing the Agricultural Gazette. An agricultural library has been instituted at the high school, while a special shelf of books at the public library has been set aside for the members by Miss Frances Earhart, librarian.

The Agricultural club has a membership already of fifty young men, all of whom attended the Central high school.

GO TO ITALY FOR EVIDENCE

Required in Settlement of Two Accidental Death Claims.

In order to settle a dispute which has arisen between Attilio Castigliano, Italian consular agent, and local mining companies with reference to the settlement of two claims for wrongful death under the terms of the workingmen's compensation act, testimony must be taken from witnesses residing in Italy.

In district court today, Judge Cant signed orders that letters rogatory issue to the Italian authorities at San Giorgio La Molora, province of Benevento, and at Messanette, commune of Perogola, province of Pesaro, Italy, with authority to take depositions from such witnesses residing there as may be necessary.

Antonio Moffa was killed Nov. 9 in an accident at the Uno mine near Hibbing. He was unmarried and his only heirs are a father and mother residing at San Giorgio, Italy. He was employed by the Oliver Iron Mining company, which is contesting the claim for wrongful death which has been presented by the Italian consular agent, as legal representative of the heirs.

The matter in dispute is the amount of compensation to be paid and the duration of the period over which it should be paid. Depositions from witnesses in Italy are necessary to establish the claim that Moffa's parents were dependent upon him for support and as dependents, are entitled to compensation for his death.

Paolo Peverieri, unmarried, was killed in an accident at the Lincoln mine near Virginia on Jan. 23 last, while in the employ of the Interstate Steel & Iron company. The consular agent has put in a claim against the company for compensation on behalf of the young man's parents, who reside at Messanette, Italy. The same matters are in dispute.

Moffa was receiving $75 a month in wages and Peverieri was getting $87.

CITY WILL PAY HALF OF COST

Appropriates $500 Toward Ninety-Third Avenue Culvert.

The city council agreed at an informal meeting in the mayor's office this morning to appropriate $500 to pay half the cost of constructing a concrete culvert across Ninety-third avenue west below Zimmerly avenue.

The building of the culvert will be preliminary to improving Ninety-third avenue a distance of approximately 500 feet south of Zimmerly avenue. This will form a connection from the county road with the model city of the Steel corporation. The company will grade and pave the avenue to half its width.

An effort was made to secure a petition for the improvement in order that the highway might be improved to its full width, but it was unsuccessful. The company owns the property on one side, but the owners on the other side were unwilling to obligate themselves for the expenditure. To be effective a petition must be signed by 25 per cent of the property owners, owning at least 25 per cent of the property affected. The council may pass a resolution ordering the work done, but this will have to lay over sixty days to give the property owners an opportunity to file a petition protesting against the improvement.

Woman's Realm

Duluth's first dramatic conference attracted a big audience to the Lyceum theater yesterday afternoon.

Mrs. S. R. Holden, president of the Duluth Center of the Drama league, introduced Dr. J. W. Powell of Minneapolis who took charge of the program. When Dr. Powell was a resident of Duluth he was one of the original directors of the Duluth center of the Drama League of America and has retained his connection with the organization. Dr. Powell congratulated the local center on the success of the year's work. He introduced Charles Hampden, the stage manager of "The Blue Bird" company.

Mr. Hampden said it was a source of great satisfaction to Maeterlinck, the "Belgian Shakespeare" as he is called, to know of the success of "The Blue Bird" in America. The dramatist takes great interest in America but it is probable he will never visit this country on account of his fear of crossing the ocean. A link that connects him with America is his following of the transcedentalist, Emerson.

Mr. Hampden had the pleasure of meeting Maeterlinck in the ideal surroundings of the old Norman abbey that is his stronghold, in which he is safe from interviewers whom he abhors and noise for which he has the greatest aversion possible.

The abbey was founded in 649. In 833 it was devastated, in 1012 it was struck by lightning, in 1250 it was attacked by barbarous tribes from the north and in 1631 it was captured by the Huguenots. After this stormy history the present abbey is typical of peace with its surroundings of beautiful gardens and gloomy forests. A trout stream in which monks of the abbey angled for centuries adds to the beauty of the place and to the enjoyment of the owner for Maeterlinck is fond of fishing. The dramatist says he wants plenty of room and his wish is surely gratified for at one time the abbey sheltered 700 monks.

Heavy gates of oak and iron separate the outer portion of the estate from the inner and beyond these stout doors no interviewer or admirer may venture.

Says He Is a Peasant.

Mr. Hampden said on the occasion of his visit to Maeterlinck, the dramatist acted as if his visitors were the distinguished ones and he without fame. He is very retiring and has spoken of himself as a peasant. Maeterlinck understands English perfectly and reads Chaucer in the original but as he is a great recluse he has few chances of speaking it and his pronunciation is poor. The conversation between Maeterlinck and Mr. Hampden was carried on partly in English and partly in French.

Mr. Hampden described Maeterlinck as rugged, kind and earnest, with a smile that lights up his face and the ability to see a joke and enjoy a laugh.

He has great admiration for the ability of his wife, Georgette Le Blanc, who superintended the production of "The Blue Bird" in Paris.

Maeterlinck demands quiet, not comparative quiet, but the silence that is necessary for the production of his plays. A slight noise destroys the train of his thought. The forest near the abbey sometimes serves as his study. So averse is Maeterlinck to noise that the rehearsals of Mme. Maeterlinck's production of "Macbeth" made him declare there could be no more plays at the abbey. When Mr. Hampden explained the ways the scenery and properties of "The Blue Bird" are taken from one city to another, something almost beyond the comprehension of the recluse of beautiful Normandy, Maeterlinck said: "O, you poor man you have to put up with a lot of noise and confusion." Noise and confusion mean to Maeterlinck almost the plague and death.

It was almost two years after the book came out before a producer could be found who was brave enough to put "The Blue Bird" on the stage.

Mr. Hampden said he could tell his audience how the illusions that make the fairy story so successful are produced; how Milk is made to come out of the small milk jug; Sugar to grow new fingers of barley sticks after he breaks them off for the children and how the rain cask disappears and Water appears, but the revelation of those secrets would detract from the enjoyment of the play. He said the small children are the ones who most enjoy "The Blue Bird" because they ask no questions. "Enter into the spirit of it," was the advice of the stage manager. As an example of the ability of children to enjoy fairy stories without asking questions that take away from the enjoyment, he told of a young member who had just joined the company. She stood in a wing and when asked if she saw where Milk came from she said: "Yes, she came out of the jug." There are many children in the cast and they enjoy playing their parts.

Mr. Hampden's advice to those who will see the "Blue Bird" is "Don't seek for hidden meanings." He thinks if the meaning is there, a person will find it. He closed his remarks with the Influence of Maeterlinck." He said, "Any writer of books means what he means to you." He told of the man who said he had no trouble understanding the Gospels, but could not make out what the commentators meant. In like manner, according to the speaker, a person's enjoyment of "The Blue Bird" will be in proportion to the richness of the background supplied for it.

"Maeterlinck is compelling men to think," Dr. Powell said. "He represents the mystical side of science. He is an 'artist mystic' who approaches life from the point of science."

Comparing Maeterlinck to Ibsen, Dr. Powell said that Ibsen was an iconoclast, an adverse critic, who tried to tear down conventionalities and traditions and who laid bare things that had been looked over. Dr. Powell added. "A man who tears down an old building is not always an architect who builds a new one.

"Maeterlinck's early plays are morbid and grewsome, like the tales of Poe and De Maupassant. Before he wrote the 'Blue Bird' he had become an optimist, a poet, a loverof life, a believer in spiritual values and a modern of the moderns."

sane and peace giving remark, "You can't find happiness while you criticise."

The Fairy Talks.

Dr. Powell introduced Miss Alice Butler, who plays the part of the Fairy Beryline. Miss Butler said, "Everyone must interpret the play for himself." There enter into this old Belgian folk tale, Miss Butler said, things that appeal to scholars, philosophers and children. Maeterlinck the symbolist is evident in the play—the diamond typifying spiritual light, the dog, fidelity and obedience, and blue is the celestial color. "You get out of the play just as much as you put into it," she said. Miss Butler agrees with some of the critics who think Maeterlinck may not have meant "The Blue Bird" to stand for merely material happiness but for divine truth.

Miss Butler has played in "The Blue Bird" more than 500 times, but for her the charm of the play has never diminished, she said.

Dr. Powell spoke on "The Literary

AFTERNOON FROCK AS SHOWN BY GIDDING

MARTIAL-ARMAND FROCK.

This is an Armand-Martial afternoon frock exhibited by J. M. Gidding & Co.'s New York house. It is made of chiffon with pussy willow taffeta and thread lace.

Surprise Party.

A surprise party was given Saturday evening in honor of Misses Signe Olson and Exi Gustafson at the home of Mr. and Mrs. Charles R. Johnson, 3220 West Third street. The evening was spent in music and games, after which refreshments were served. Those present were:

Misses—
Signe Olson, Lina Anderson,
Exi Gustafson, Olga Danielson,
Anna Nerness, Edna Johnson,
Esther Hoffman, Nannie Solberg,
Sophie Nelson, Hilda Anderson,
Arvida Carlson, Ellen Lundholm,
Albertina Johnson, Emma Surdin,
Betsy Swanson, Signe Gustafson,
Frida Carlson, Hilda Carlson,
Mesdames— Hilda Johnson.
Swanson, Johnson.
Messrs.— Albert Nelson,
Herman Strom, Axel Backstrom,
Carl Johnson, Axel Melquist,
Linus Johnson, Ben Anderson,
Carl Carlson, Einar Melquist,
Robert Anderson, Charles Forslund,
John Fridman, John Naslund.
Per Anderson,
Johnson,

Talks on Wage Problems.

Labor legislation safeguarding the feminine wage worker was discussed in an address delivered at the Commercial club last evening by Dr. Raymond Phelan of the University of Minnesota. He spoke on "Woman Labor and the Law." Among other things he said:

"In several important cases our courts have held that where inequality between employer and worker puts free contracting out of the question, or where the public good is endangered in the absence of legal regulation, the state may restrict either or both parties in contracting for employment or for labor. The minimum wage appears to be constitutional and legal from both of these viewpoints. There can hardly be free contracting between employers and unorganized woman workers. And, furthermore, the low wages paid to woman workers as a class is a matter of serious concern from the viewpoint of public welfare."

Next Tuesday Dr. Phelan will lecture on "Child Labor" at the Commercial club.

At Flaaten Conservatory.

The following program will be given Friday evening at 8:15 o'clock:

Piano—Barcarolle .....Behr
Ruth Lahti.
Piano—"In May" .....Behr
Helen Heina.

William Wold, Drumand,
A. R. Thompson, Clifford Oppel,
Robert Delmon, Joseph Dickey,
Arthur Borren, E. H. Kaner.

Bridge Party.

Mrs. William Casler of Sixtieth avenue east and London road entertained at bridge yesterday afternoon at the Glass Block tea room. Favors were won by Mrs. H. E. Foster and Mrs. Robert Dryer. The decorations were in yellow and white. Mrs. Casler's guests were:

Mesdames—
John Green, H. C. Thomas,
Samuel Greirson, E. B. Gates,
William Murnain, William Meyer,
Earl F. Bradley, F. B. Thompson,
J. C. Bush, George Reed,
Wilson Palmer, Fred Bayha, Jr.
Edgar C. Smith, Alexander Stewart.
Lewis Ink, Frank Palmer,
Charles McFadden,

Dinner Party

Mr. and Mrs. W. B. Kellogg of Hunter's Park entertained last evening at dinner followed by a fashion play. The decorations were in jonquils and white sweet peas. The guests were:

Misses—
Juliet Lawrence, Edna Morterud,
Bessie Patterson, Winnifred Morterud,
Ruby Morterud, Barbara Harvey.
Kathryn Ingalls,

At Home.

Mrs. Charles T. Fitzsimmons and Miss Fitzsimmons of 1431 East First street were at home this afternoon from 3 to 6 o'clock. They were assisted by Mrs. J. D. Morrison, Mrs. F. Sleeper, Mrs. T. W. MacLain and Mrs. E. Ingalls. Assisting in the dining room were Misses Anna Reichert, Eleanore Kraft, Maria McManus and Grace Porter. Yellow flowers were used in the dining room and library, American beauties in the hall and sunburst roses in the parlors.

Banquet.

Members and employes of the Freimuth department store honored Selby T. Brown with a banquet in the red room of the Commercial club Friday evening. Mr. Brown has been connected with the Freimuth store eight years and is leaving it to engage in the office furniture business for himself in the firm of Steele & Brown. Mr. Brown's associates presented him with a silver cigar case.

Covers were laid for fifteen at the banquet. The following toasts were given: D. Freimuth, "Farewell and Good Wishes from the Representative of the Firm;" Edward W. Kaltenbach, "Kind Remembrances;" M. Freimuth, "Obtaining and Giving Credits;" George Olvens, "A Friend's Best Wishes;" L. Freimuth, "An Old School Chum;" Frank Robinson, "The Coming and Going of Time;" Frank E. Fleischmann, "Advice from the Oldest Employe," and Charles Freimuth, "Time We Should Start in Life Business."

Program at Ely, Minn.

The Matinee Musicale will give a recital before the Mothers' club at Ely, Minn., May 1. Miss Gladys Reynolds, Mrs. Louis Dworshak and Miss Agnes Mae Johnson will be on the program.

For Visitor.

Mrs. E. W. Bohannon of 2323 East Fifth street entertained informally this afternoon for Mrs. John Stone Pardee of St. Paul.

Engagement.

Mr. and Mrs. Frederic W. Paine have announced the engagement of their daughter, Mary Welles Paine, to Dr. Thacher W. Worthen of New York.

Woman's Relief Corps.

The regular meeting of J. B. Culver corps, No. 65, W. R. C., will be held tomorrow afternoon at 2:30 o'clock at Memorial hall, courthouse. Mrs. B. M. Sampson will be the hostess for the social half hour.

Bliss-Scanlon.

The marriage of Miss Myrtle Alice Bliss, daughter of Mr. and Mrs. Albert A. Bliss of Superior, and John J. Scanlon was solemnized this morning at 8 o'clock at the Sacred Heart cathedral by Rev. Hugh A. Floyd. Miss Ella Scanlon was maid of honor and Frank Scanlon was the best man. The bride wore her traveling gown. Her flowers were a corsage bouquet of bride's roses and lilies of the valley. A wedding breakfast was served at the home of the bridegroom's parents, 209 North Fifty-third avenue west. The house was decorated in pink and white. Assisting about the rooms were Mrs. E. J. Van, Mrs. L. J. Gibson and Mrs. E. Scanlon.

Stevens-Anderson.

Mr. and Mrs. Charles Stevens of 6124 Green street announce the engagement of their daughter, Lillian Mae, to Henry A. Anderson of this city. The wedding will take place next month.

Meeting at Bethel.

Judge W. D. Edson, president of the Bethel society, will be the speaker at the Women's meeting tomorrow afternoon at 2:30 o'clock at the Bethel, Mesaba avenue and West First street. A social half hour will follow the meeting. Women from all parts of the city are cordially invited to attend.

Circle No. 1.

Circle No. 1 of the Ladies Union of Pilgrim Congregational church met this afternoon at the home of Mrs. C. A. Duncan, 2215 East Second street.

Lodge Notes.

Aerial hive, No. 975 will give a benefit pedro party Friday afternoon at 2:30 o'clock at their hall in Odd Fellows' temple, Mesaba avenue and Fourth street. The regular meeting of the hive will convene that evening, and a debate will be held by members.

* * *

The Woman's Loyal Moose circle, No. 170, will meet tomorrow evening at Moose hall. A class of candidates will be initiated and all members are requested to attend the meeting. Each member is asked to take a cup, saucer and plate.

Surprise Party.

A surprise party was given last evening for F. A. Hathaway, business secretary of the Y. M. C. A., and A. F. Olson, physical director, at the home of Mr. Olson, 124 East Fifth street. The evening was spent in games. Refreshments were served. There were twelve guests.

Personal Mention.

Mr. and Mrs. Rene T. Hugo of 1504 East Second street have returned from Minneapolis where they attended the wedding of Mrs. Hugo's sister, Miss Clara C. Thomas, better known as "Quentin" of the Minneapolis Tribune.

* * *

Mr. and Mrs. Harold E. Mitchell, 305 East Third street, have returned from a ten days' trip to Chicago.

* * *

Mr. and Mrs. John Millen, 923 East Superior street, have returned from their winter home at Century, Fla., where they have been for three months.

* * *

Mr. and Mrs. C. Jeronimus, 17 East Fourth street, have returned from a several days' visit with their son, C. E. Jeronimus of Minneapolis.

* * *

Mrs. E. E. Rohlf of Hayward, Wis., has returned after visiting her sister, Mrs. W. H. Sansam, 516 Fifth avenue west.

* * *

Miss Ramona Hoopes of 2206 Woodland avenue is spending a month at Tryon, N. C.

STYLES MAY BE CHANGED

Club Women Denounce Present Modes as "Ugly, Uncomfortable and Immoral."

Chicago, April 21.—Resolutions already prepared to be presented to the convention of the General Federation of Women's clubs here June 9 to 19 declare that present styles in women's dress are ugly, uncomfortable and immoral.

"It is hardly possible now to buy skirts that do not hinder locomotion," states a notice sent out from headquarters of the Federation. "Costumes of the kind that cover everything and conceal nothing are seen on the street and social workers declare that proper dressing would benefit morals and eliminate many of the evils of improper dancing."

"The General Federation of Women's clubs in convention disapproves the present extreme tendency of American women to follow designs in dress regardless of beauty, comfort or modesty," the resolution reads. "This convention is heartily in favor of simpler and more modest styles suited to American needs."

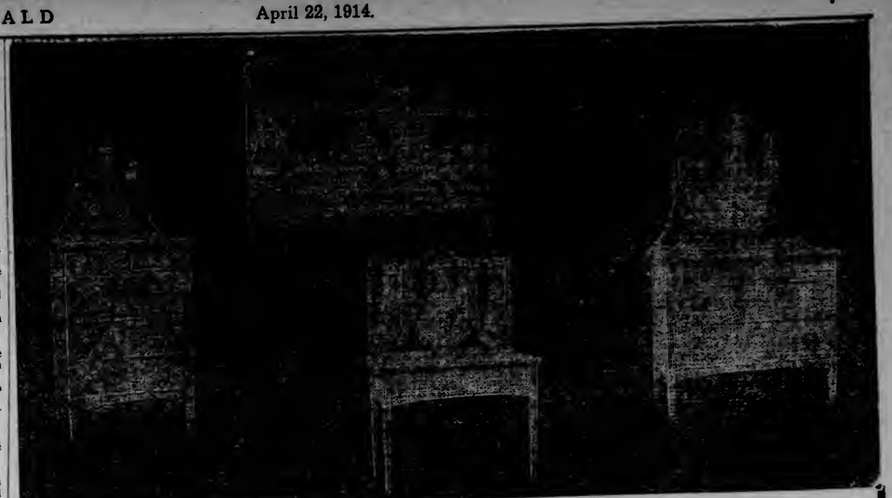
OBSERVATIONS

By PEGGY PEABODY

Women Bread-Earners, Bread-Bakers As Well.

Unfortunate it truly is, that the average American girl eats food that she could not cook, wears dresses that she does not know how to keep tidy—that is, as one writer points out. Very unfortunate, inasmuch as she is expected to have these accomplishments at her fingers' ends no matter how her time is occupied otherwise.



The average American in these days is a working girl. She earns her living, not to escape household duties, but to contribute to the support of the home. Formerly she married, and thus lightened the burden of her parents, but through exigencies, largely but unjustly, attributed to her fault, she enters business life instead, at the same age as her brother, and keeps at it until marriage relieves her of the necessity.

There is much adverse comment regarding her ignorance of housewifery. This, without training or experience, she is supposed to know. Bitter are the recriminations when she who successfully provides the money for the necessities and some of the luxuries of life, makes a fizzle of baking cake or fails in her attempt to cut and fit a gown for herself. Let's be fair. We do not explode in wrath and scorn because the brother knows not how to make his bed or prepare his own breakfast—why, then, shake the head so dubiously over the undisputed fact that any number of women wage-earners are poor housekeepers?

A man, whether he provides for himself alone or for several dependent on him, is not asked to concern himself with the numerous and various duties of housekeeping. No more should be demanded of women in the same position. Yet, notwithstanding the broad accusation against the average working woman, there are thousands who work all day in an office and elsewhere and morning and night are enslaved by household cares.

Many a woman bread-earner is a bread-baker as well. Many a girl who earns her living and is tastefully dressed at all times, cuts and fits her shirt-waists and her skirts. Many a girl for the sake of saving a 50-cent piece sweeps and dusts and tidies her own room in connection with her labors as wage-earner.

When you consider it—it is not the average American girl who is remiss—for the average American girl is a wage-earner. It is the home girl whose people have means to keep her in idleness. She, and very often her mother, have false notions; they think housework demeaning. She is the one upon whom blame should be heaped, because, with leisure and opportunity to acquire a working knowledge of a woman's duties, she is often only the shell of a woman.

Decorated Ivory Enamel
The Favorite Bed Room Furniture

Absolutely dependable in quality of manufacture and finish—and very reasonably priced. Every piece is distinctive, sanitary, inviting and restful.

DRESSER—42 inches long, with large mirror and cane panels, as shown; best of workmanship throughout, 4 drawers; a beauty for..... ***$34.50***

THE DULUTH HERALD

AN INDEPENDENT NEWSPAPER

Published every evening except Sunday by The Herald Company.

Both Telephones—Business Office, 224; Editorial Rooms, 1126.

Entered as second-class matter at the Duluth postoffice under the act of congress of March 3, 1870.

OFFICIAL PAPER, CITY OF DULUTH

SUBSCRIPTION RATES—By Mail, payable in advance, one month, 35 cents; three months, $1; six months, $2; one year, $4; Saturday Herald, $1 per year; Weekly Herald, $1 per year.

Daily by carrier, city and suburbs, 10 cents a week; 45 cents a month.

Subscribers will confer a favor by making known any complaint of service.

When changing the address of your paper, it is important to give both old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guaranty that it has the largest circulation in Minnesota outside the Twin Cities.

The Herald will be glad to have its attention called to any misleading or untrue statement which may appear in its news, editorial or advertising columns.

GOVERNOR EBERHART'S PLATFORM.

As a basis for his campaign for renomination and re-election, Governor Eberhart has put out a platform. Let us look it over, plank by plank. Its items are as follows:

Greater care and economy in making appropriations so as to reduce taxation.

In four years of the Eberhart administration the state appropriations have grown from $13,145,734 to $21,771,680—a gain of sixty-six per cent; while the state tax rate has increased from 2.7 mills to 5.03 mills—an increase of eighty-six per cent. Achievements count more than promises. These figures are the fruits of four years of Eberhart.

The retention of the state-wide primary law and corrupt practices act, so as to enable the people to make their own nominations without dictation by boss-ridden conventions.

Neither of these laws is threatened. There is not the slightest danger that either of them will be repealed, nor the slightest reason why a champion of them should claim election because of his championship.

A continuance of THE PRESENT POLICY OF STATE DEVELOPMENT and publicity, which has in the last five years nearly doubled the value of our farm lands and secured more active settlers than all surrounding states combined.

What does Northern Minnesota think of the idea of continuing the "present policy of state development?" It is a policy of negation, of inaction, of neglect, of betrayal of those who have been led by the state to settle on its lands in Northern Minnesota. The state has developed no new policies, taken no steps to redeem its years of neglect, except the niggardly appropriation of twenty thousand dollars a year for an immigration bureau that should have had a hundred thousand.

Reorganization of all state departments as outlined in my various messages to the legislature and for which the efficiency commission is now deliberating.

This, surely, every candidate of every party is for. And surely, any candidate who failed to include in his platform an indorsement of this movement will stand no show of election in this year of public intelligence and an oppressive burden of state taxes.

Strict enforcement of all laws.

What candidate would dare run for governor on a platform of non-enforcement of law, when the governor's oath binds him to law-enforcement? This plank has no meaning.

Appointment of public officers on the basis of merit only and under strict civil service rules.

This sounds well coming from a governor who in four years has built up the largest political machine ever known in the history of the state, by a policy of appointing public officers on the basis of political merit chiefly.

Effective regulation of all public service corporations so as to secure reasonable rates and adequate service for all.

How? What has become of the state public utility commission idea? What plan of corporation regulation is now to be proposed by the governor who by the use of his veto killed state regulation of telephones and denied the city of Minneapolis the right to "secure reasonable rates and adequate service for all" from its public utility corporations?

A clean and dignified campaign.

Oh, very well! So be it. But no parading of dignity can cover up the ugly facts that lurk behind the promises of this Eberhart platform.

A marked increase in exports of peanuts from Hongkong to the United States is reported. Apparently there is reason for the brand of politics some of the congressmen are playing. How about raising the duty on peanuts?

A FASCINATING PROJECT.

The more we study that project of young Mr. Ellis's, to advertise Duluth by a waterway airflight in a Glenn Martin Arrow yacht from this city to San Francisco, the more we are fascinated by it.

At first, we will admit, it seemed to us somewhat chimerical, and we were disposed to pick flaws in it and count obstacles. It seemed too startling to be practical.

On more careful study, it seems so thoroughly practical as to be twice as startling and fascinating as it was before.

The idea, as we understand it, is to have Mr. Ellis, with a skilled publicity agent as passenger and a huge wad of advertising matter as freight, to start from Duluth down the lakes about the middle of July, this year. The shore line would be followed down the lakes and the St. Lawrence, down the Atlantic coast to the Panama canal, across the isthmus and then up the Pacific coast to San Francisco.

Allowing plenty of time, it is figured that San Francisco would be reached about the middle of October. There the pontoons would be removed and wheels put in their places for the land flight across the continent to the home nest at Duluth.

On the way exhibitions would be given and passengers taken up at every promising point. Advertising matter would be distributed and the publicity man would give out interviews and stories of the trip. The whole country would watch it, beyond any question, and for nearly three months of the summer Duluth would be before the eyes of the world.

Those who think the scheme impractical have not become aware of the degree to which aviation has become an exact science. In a machine like the one proposed for the Duluth aviator, a man the other day flew in at one end of an exposition building at San Francisco and out at the other, through a space so narrow that in order to get through he had to tilt his machine at an angle of thirty or forty degrees because if he had gone through with planes on a level the pillars would have stopped him.

Moreover, this would be no rush trip, on forced time. There is to be plenty of lee-way to wait for favorable weather, and no risks need be taken.

It would be hard to imagine a plan that would advertise Duluth more strikingly than this, and the business-like way in which a number of local business men headed by E. J. Filiatrault have taken the project up makes it look like it was really going to come about.

How would you like to be a moving picture operator assigned to work in Mexico?

FILIBUSTERING AND FIGHTING.

While the senate talked, the president was acting.

While the senatorial friends of Huerta filibustered, the blue-clad sailors and marines fought.

Vera Cruz had been taken fifteen hours before the partisan opposition in the senate was overcome.

It is a sad spectacle—the dead and wounded at Vera Cruz.

But it is a nobler one than the place where embattled partisanship contested the way of patriotism.

The daughters of the American Revolution have declared their readiness to serve in Mexico. Did Huerta ever read a little poem about "the female of the species?"

"THE BLUE BIRD."

It is a pathetic confession—not to like "The Blue Bird."

It is an admission that the two most tragic things in life have befallen: that one has lost touch with fancy, and that one has left youth behind.

It is not good to lose fancy—to lose imagination, to sever relations with the things of the mind and spirit, the intangible, immaterial things of the past and the future—and to circumscribe life by the narrow boundaries of the material. For in all life and eternity it is only the immaterial things that are satisfying and lasting—the material is a fleeting thing of the moment.

And to lose youth—which is joy of living—that is the saddest tragedy of all! Whether one is eight, eighteen or eighty, youth is joy of living, and its loss is worse than death itself.

And the spirit of "The Blue Bird" is youth and joy of living—the greatest things in the world except love, which is a part of both. It is such poet's dreams—dreams which, more immaterial than air, are more lasting than enduring marble—that abide. They live when the rock-carved monuments of their age are fragments and dust.

Those congressmen who voted against the administration's Mexican policy are more powerful than Huerta—they made John Lind so mad he talked.

Disproved the Wrong Theory.

Cleveland Plain Dealer: Our Newburg correspondent tells us that a patient in the hospital out there imagined that he was dead. Nothing could drive the delusion out of his brain. One day an attending physician had a happy thought and said to this nut:

"Did you ever see a dead man bleed?"

"No, of course not," was the reply.

"Did you ever hear of a dead man bleeding?" continued the doctor.

"Sure I never did," answered the patient.

"Well, then, let me stick this knife into your arm. Aha! You are bleeding, aren't you? Well, then! Doesn't that prove to you that you are not dead?"

"Naw," said the patient. "You ain't much of a scientist. What you've proved is that dead men do bleed."

Garden Time

Editorial in the Kansas City Star.

When the sap begins to flow then the adult male fidgets to go out and lick somebody, or else to raise a garden. Just so far as the longing to see things grow about the place outdistances the desire to punch some unoffending gentleman squarely upon the nose, just that far is the owner of that desire removed from savagery. The progress of civilization and the arts can be measured by the backyard garden and the lilacs in the front yard.

Centuries before Alexander—not he of syncopated harmony, but that other conquering hero of fame—got up the early spring hoplites from the pasture and licked the stuffing out of all his neighbors, man has had the habit each spring of garnering himself a club, wading the creek and beating up everybody he saw. If he were lucky he got a good hired hand or two for nothing and he could go back home, sit in front of his cave and watch the hired men, acquired by the club method, do his farming. If he were unlucky he got licked and became a hired man or he got killed. Frequently the hired men, as soon as the bumps on their heads subsided, turned on their captor and made him captive.

That sort of thing went on through thousands of years. In fact, licking somebody became the first and prime essential of agriculture. Gradually man began to use his head more and his fists less and he discovered he could make more money by spending his time in his corn patch than by keeping his hired hands licked into a working humor. And so the first germ of civilization was born. Man began to specialize until the worker came to command the fighter. So today the quality of a man shows up in his springtime conduct after office hours. Does he go home and plant spinach or does he go home and quarrel with his wife or pick a row with a neighbor?

Dangers of the Bathtub.

Rochester Post-Express: According to Dr. Elmer Lee, writing in a current magazine, bathing is an acquired habit and like some other acquired habits unnecessary and even harmful. Cold or hot water showers, he tells us, sprays and any form of immersion will be injurious in the end. It is the doctor's contention that man is an air animal, not a water creature. "A bathtub is an enemy in the house," says this medical sage. "It is expensive and adds to the toils of woman. Bathing begets false security against disease, weakens and injures the skin, extracts bodily energy and magnetism and entails on society a needless habit."

A good deal that isn't truth comes out of the mouths of medical men. So Elmer Lee suddenly perceives that man is not a water animal and straightway he jumps to the conclusion that it is unnatural and unhealthy for man to bathe. His contention might apply to primitive man, but it does not dovetail in with the twentieth century. The primitive man did not wear clothes. The exercise of the chase kept his body in condition, promoted profuse perspiration, and the air did the rest. But let a man, clothed from neck to toes with air-defying clothes, imitate the primitive man and he would soon lose the "magnetism" Dr. Lee speaks so eloquently of. If Dr. Lee should have to ride in a closed car in company of a carload of non-bathers he would change his mind instanter concerning the necessity of bathing.

No, Dr. Lee, you will have to amend your theory; it doesn't hold water in this age of the world.

An Overplus of Legislation.

Wakefield, Mass., Item: We may be wrong in our ideas about it, but it would seem that the time will come before very long when the legislation pendulum will swing the other way and there will be a grand wiping out of many of the laws that are now an affliction to town officials, business men, manufacturers and the public generally.

Hardly a day passes without some one coming to Wakefield, either from the statehouse or some other place on Beacon Hill, telling our good people what must be done and what mustn't be done.

As a rule these fellows are all right, personally, and they are mighty pleasant people to meet and talk with, except in their official capacity. Most of them admit, themselves, that there are many inconsistencies and flaws in the laws, but they are not to blame for that, of course. No one begrudges them their salaries or envies them their work. One person will order a certain change and after the change is made perhaps another official will come along and order something a little different.

It is becoming almost the last straw in many instances, and whether it may be called "treason" or anything of the sort, it makes no difference; a long-suffering, patient public will some day arouse and start something that will either kill or cure.

It is the same old story of being almost legislated to death and, after suspending or changing some of the laws, if the legislature would suspend operations a few years it would give ordinary mortals time to breathe and, perhaps, enjoy a little genuine American freedom. It appears to be lacking just now, in some instances, and we believe we have no anarchistic tendencies, either.

Can You Make a Metagram?

Simplified Spelling Bulletin: Some British newspapers are playing with a trick of spelling English words, the game being to make up a new spelling, in which none of the letters of the old spelling shall be used; that is, to substitute different letters that, in the positions into which they are put, will suggest the same sounds as the old spelling. The words thus undergo a complete change of costume. Words so translated may be called "metagrams" or (in analogy with parafrase) "paragrams." Two examples given are "phya" for fire and "phyoocha" for future. These involve pronunciations that most Americans do not use, or would not accept. Another case of this kind would be "syfa" for cipher.

More exact "metagrams" or "paragrams" may be found: "Cyphed" for sift, "kauphy" for coffee, "phycks" for fix, "phyekst" for fixed, "kawph" for cough, "kawpht" for coughed, "cy" for sigh, "eauque" for oak, "pheauque" for folk.

Rev. Mr. Sunday's Success.

Memphis News Scimitar: Billy Sunday gets the money and goes about with his pockets bulging out, while ordinary clergymen are going from one lean year to another. Here is a sample of the argument which Billy uses when he wants to make the boys cough up: "David looked at Goliath and asked who this big stiff was. Then he hit him between the lamps, chopped off his block, and the rest of the gang beat it." When a soul-saver can handle the king's English in this manner he is sure to get the money.

The Yard a Part of the Home

From the Indianapolis News.

Back yard? Mercy, no! Of course not!

The back yard of Indianapolis is past and passing. Where once the winter ashes were dumped, and discarded tin cans were strewn in disconsolate disarray, where the grass in summer was neglected and the soapsuds from Monday's wash hid a blue-white scum on barren and sun-baked ground, now flourishes a thriving garden and, in the shade of tall growing flowering shrubs and low growing flowering trees, with flowers abloom and green grass shimmering in the light, 4 o'clock tea is served in a pergola retreat.

The back yard has vanished. What remains of it is compressed into the neat, clean, practical service yard. And, usually, the visitor who inspects the garden is innocent of its presence. A screen of shrubs, or, as often, of evergreen, effective in winter as well as in summer, shuts it away from view. Here, when occasion demands, hangs the wash to dry, here the rugs are cleaned and here other work of the domestic routine is done.

Ten years ago, back yards were numerous and gardens scarce; today the reverse is true. Ornamental planting was practiced, of course, but only in a desultory and haphazard fashion. None of the fundamental principles of landscape gardening—as essential for a small city lot as for a great country estate—was observed. Shrubs were planted because they were shrubs and not with any idea of their adaptability to surroundings, of their appropriateness or of their ultimate picturesque results. They were more often than not "in the picture," but jarringly out of drawing. Yards were yards—patchy, ineffectively planted or not at all. And houses were houses. The "place" was referred to as "a house and lot." Today the yard is as much an integral part of the property as the house itself, and the "house and lot" of yesterday is the "home" of today.

People now not only know when to plant, but what to plant, and of still greater importance, know what the result will be when the tree, vine, shrub or flower has reached maturity. They have become acquainted with the habits and requirements of decorative stock, and can select not only according to the effect desired, but according to the situation afforded. Study has been given to the subject of color harmonies and as a result, the glaring discords of yesterday are a thing, fortunately, of the past.

What the Experts Watch

John M. Oskison in Chicago News: I have received an exceptionally intelligent monthly circular on trade conditions from a bank. It deals with those factors which expert investors regard as important. What are they?

1. The volume of railroad financing during the month, compared with the same months in other years, and a logical explanation of its changing volume.

2. Bank clearings all over the country and in New York.

3. Building operations in the principal cities. They show whether people are optimistic and indicate prosperity or the reverse among companies supplying steel and building material.

4. Business failures, the amounts involved and the character of the failed businesses.

5. Railroad earnings, gross and net for the month, for the last year, compared with the previous months' and years' records.

6. Imports and exports of merchandise and of gold. Of course, the balances ought to be on the right side. Comparisons with previous months and years are made.

7. The reports from the metal trades, especially the reports of the booking of steel orders by the big companies.

8. Railroad equipment orders, since such orders indicate not only the condition of the many big companies supplying equipment, but also the prosperity of the roads.

9. The state of the market for and the output of pig iron, coke, copper and gold.

10. The volume of trading on the New York Stock exchange and the trend of stock and bond prices, with comparisons.

11. Dividend and interest disbursements, with comparisons.

12. Crop conditions—to the wise investor very important.

13. General business conditions and collections.

These, then, are what the wise investor will watch; the reports are available to everybody. Study them!

Needles and Pins.

"When will you marry me, my bonnie maid?"

"Can we not wait?" said she—

"You know that I love you, dear, but I'm afraid

You soon will get weary of me."

Then he vowed and swore to love and adore,

He prayed on his bended knee.

He said with a sigh, "If I wait I shall die!"

He was a man, you see.

Sugar and cream, sugar and cream,

When we are married 'twill be a sweet dream!

But the sugar and cream they passed like a dream.

Alas! they could never agree.

She said, "Let us part, you've broken my heart!"

"I think it is best," said he.

Then away she went stamping and slamming the door—

She was a woman, you see.

Needles and pins! Needles and pins!

When a man's married his trouble begins!

Five minutes, precisely five minutes had passed,

She opened the door with a sigh.

"Since we have settled to part," she said—

"I wanted to say good-by!"

"We never shall meet any more," she wept—

"Alone we must live and die."

Then he opened his arms and in them she crept,

And that's how they said good-by.

Let the bells ring! Let the bells ring!

Man without woman is but a poor thing!

—An Old Poem.

Places of Thought.

John Ruskin: Make yourselves nests of pleasant thoughts! None of us yet know, for none of us have been taught in early youth, what fairy palaces we may build of beautiful thoughts, proof against all adversity; bright fancies, satisfied memories, noble histories, faithful sayings, treasure houses of precious and restful thoughts, which care cannot disturb, nor pain make gloomy, nor poverty take away from us; houses built without hands, for our souls to live in.

Statesmen, Real and Near

By Fred C. Kelly.

Washington, April 22.—(Special to The Herald.)—Representative James Francis Byrnes of South Carolina used to be a court stenographer and it is doubtful if a stenographer in the country could jot down the little Chinese-looking symbols in a note-book any faster than he. Witnesses, lawyers, judge—all could talk at once, but Brynes, with his quick mind and nimble fingers, never muffed a word. He could take 220 words a minute single-handed and alone.

It came to pass one day, however, that Brynes met his Waterloo and went down to defeat under a vocative cloudburst.

* * *

The sheriff of that county had conceived a little joke in the course of a trial in which most of the witnesses were negroes. Waiting her turn in an ante-room was a large, pompous colored woman with a great heaving bosom and big, credulous poached-egg eyes. Just before she was due to give her testimony, the sheriff called her to one side and offered her these few words of caution:

"Look here, Mandy, when you get on that witness stand, you want to say what you've got to say in a hurry or else you'll get into a lot of trouble. The judge is very angry about the way you colored folks have been taking up his time telling long, rambling stories, and he has decided that the next person who speaks so slowly will have to go to jail for contempt of court. You want to say what you have to say just as fast as you can, and keep out of trouble. The court stenographer or some of the rest of those young fellows in the courtroom will try to stop you, but that is just because they think it would be fun to see you yanked off to jail. Don't you let them stop you. Start in and tell your story as fast as your tongue will let you."

* * *

As soon as the prosecuting attorney asked her name the woman threw herself into the high and got under way. During the first three seconds she spoke nearly 400 words, Brynes declares, and there were no spaces between words. The stenographer was fairly swamped under the verbal torrent. Words swirled about him in little eddies that nearly swept him from his desk. To catch the vast downpour in his little book would have been like trying to catch Niagara in a pocket drinking cup.

"Wait a minute!" shrieked Byrnes. But his cries of despair merely spurred on the wild, runaway utterance of the witness, who was determined to keep out of trouble at all hazards.

Before they could get her slowed up, she had said enough language to fill an ordinary copy of the Congressional Record.

Byrnes was never the same blithe, care-free stenographer again. He was like a locomotive engineer who has gone through one wreck too many. Shortly after that he gave up being a court stenographer and became a lawyer.

* * *

Former Senator Pettigrew had probably the meanest tongue that ever uttered invective in the United States senate. One day at the close of a scholarly speech by Senator Lodge, Pettigrew got up and said: "The gentleman's remarks remind me of the soil of his native state—highly cultivated but thin—very thin."

* * *

Representative Wallin, rug manufacturer of Amsterdam, N. Y., is a patient man. The other day he received a call at his office from a man selling stock in a mining proposition away out West. Wallin let the salesman tell his story without interruption even though the recital occupied about three-quarters of an hour. Finally the salesman inquired:

"What do you think of the proposition?"

"I think," replied Wallin, calmly, "that it's a long way from Broadway."

* * *

Franklin Roosevelt, assistant secretary of the navy and nephew of T. R., received a long letter the other day, asking for his views on about ten public questions of the hour, all carefully enumerated.

Now, Roosevelt does not pose as a human questions and answers department, and he wrote back a brief letter, stating that he did not feel that his views on the topics mentioned were of sufficient importance to justify the time it would take him to put them on paper.

In the course of a few days he got another letter, which explained:

"I made a mistake, and was thinking it was Mr. T. Roosevelt who was assistant secretary of the navy—the man who used to be president. You're different from him. He wouldn't never have wrote back saying he didn't think his views were worth putting down on a piece of paper."

* * *

Josephus Daniels, secretary of the navy, was called out of town unexpectedly the other evening and that necessitated his staying at the office until nearly train time. About 9:30 he rang up his home to tell his family good-bye. Two of his boys were in bed.

"We'll simply have to wake them up then," said Daniels; "I'm not going a step until I've told them good night."

So Mrs. Daniels had to rouse the youngsters out of a sound sleep to bid their dad farewell.

* * *

Representative Percy E. Quin was speaking of the modern tendency to extravagance.

"There was a man living in the country down our way," says Quin, "who used to boast that he could make his voice heard for three-quarters of a mile. He moved his family to town, and although he was in extremely moderate circumstances the first thing he did, before he even bought a new outfit of matting for the sitting room, was to install a telephone. It was necessary, he said, in ordering groceries. And yet the grocery was only a trifle more than two blocks away."

Justice Triumphs.

Life: It is announced that a large number of the claims growing out of the Triangle Waist company fire three years ago, in which 148 employes, mostly girls, were burned, have been settled at $75 per victim. This is extremely welcome news. There has been a great deal of dissatisfaction expressed hereabouts of late concerning the interminable delays of our courts and the inability of the poor to get justice, but this happy outcome gives the decisive lie to all such slanders. Every one of us, high or low, who has ever had anything to do with human lives knows that $75 is a liberal valuation. This prompt and generous settlement, therefore, will completely rehabilitate the courts in the estimation of the public and prove to us beyond quibble that, though justice may doze occasionally, she never goes fast asleep.

1904—Echoes of Harmony—1914

The State Press on the Republican Split.

Fine Time in Prospect.

Little Falls Herald: It is said that the Republican gubernatorial primary will get rather spicy before June comes and that in retaliation for the attacks on the governor the bones of Lee's legislative record and the Todd county rows of some years ago will be exhumed. That will give the Minneapolis Journal and the Minneapolis Tribune opportunity for pyrotechnics.

Watch the Interests.

Detroit Herald: At the coming primaries there will be before the people two candidates whom the people may vote for with clear conscience, Winfield S. Hammond, Democrat, and William E. Lee, Republican. Both represent the high ideals of their own party. Governor Eberhart has played to the tune of the special interests too long.

The senate is small and is elected for four years and if it is the desire of the citizens of Minnesota to rid themselves of the undesirable interests there must be an awakening of the better side of both parties, and the concentration on a single candidate, as some of the shrewdest and craftiest of politicians are playing the hand for the machine.

The Herald is heartily in favor of Hammond and we believe that with the Republican ranks split with the two candidates, Eberhart and Lee, the only salvation for the better element of both parties is to rally to the support of the Democratic nominee.

Not Flattering for Eberhart.

Fergus Falls Journal:

Reports from Todd county are that William E. Lee, candidate for the Republican nomination for governor, will be given a splendid vote in his home county.—St. Cloud Journal Press.

There isn't a question about it. It is different with Eberhart, who makes the poorest showing at home, where he is best known.

Can't You Take a Joke?

Chaska Review: The biggest joke ever pulled in the political history of Minnesota was the elimination convention which a number of disgruntled politicians held in Minneapolis one day last week. In the proceedings as they appeared in the Tribune we notice that Carver county's twelve votes were counted for Lee when in reality no one was present from this county and it is doubtful if twelve anti-Eberhart Republican voters could be found within the bounds of this county.

Just who is responsible for this convention we are unable to state, but the idea was conceived by William E. Lee, who had everything his own way and now the rank and file of the Republican voters are supposed to follow the dictates of this convention. We know several hundred voters who resent the action of the political manipulators and will cast their vote for A. O. Eberhart at the June primaries, who otherwise might have voted for either Iverson, Peterson or Elwell.

And Then Perhaps They Won't.

St. Peter Herald: Governor Eberhart has filed for re-election on a platform of economy. Perhaps the people will accept his promises and forget his extravagances while in office.

We Pause for a Reply.

Cokato Enterprise: William E. Lee, in his keynote speech, takes a crack at the way the governor built up his machine by making judicious appointments to important offices. In view of the fact that it is almost authoritatively rumored that Iverson and Peterson will be given the best appointive offices at the disposal of Mr. Lee (if elected), it might be of great interest for the Republican candiate to state how he will stand when he gets a chance to dish out the plums—if he does.

By Way of Correction.

Princeton Union:

Anyway the Norwegians fell for a neat little Southern Yankee trick, but they were given no "leeway" in the handling of the "chug" lever of the steam roller."—Cambridge Independent-Press.

Come, come now, Mr. Independent-Press, it is an insult to the intelligence of your readers to attempt to convey the impression that William E. Lee is a "Southern Yankee." You know, or ought to know, that Mr. Lee has been a resident of Minnesota since he was a boy and that his father was a Union soldier.

A Truce of God

Chicago Evening Post: With all the deliberation and unhurrying sweep of a movement that is impelled by profound and abiding forces, the Protestant churches of the world are seeking a closer fellowship in work and worship.

The imagination is stirred by the call for "a truce of God" that has been sent forth to the Christians of the world by a commission representing the great evangelical bodies of America and co-operating with those of Great Britain.

It is to be a truce to controversy, a laying aside of argument over the points of difference and a devotion of thought to the fundamental matters of agreement. In this atmosphere of mutual confidence, in this spirit of acknowledgment that beneath diversities of opinion there lies unity of faith and purpose, it is hoped the desire for organic oneness will be born and brought to maturity.

And while the truce prevails the commission will carefully promote its plans for a proposed world conference on faith and order. No date has been set for this conference. That is a fact significant of the earnestness and sanity of the movement. It may be three years hence, it may be five. There is to be no effort to force an artificial or premature climax. The law of growth is to be honored. The fruit is not to be plucked until it is ripe.

Being a Dandelion.

Kansas City Star: What a tough thing it is to be a dandelion.

You start out as glad as Pollyanna for the sweet spring. You're just as friendly as—well, as a little homeless puppy that hopes he has found a home. And then how beautiful you are, with your shining morning face. You glow like the sun, but with a kindlier flame, for it rests where the sun's blaze dazzles. You're filled with the milk of flowery kindness.

But we humans call you a milk weed—and you are a little pest with your prodigious purpose to avoid race suicide.

It certainly is tough to be a dandelion; meaning to be pleasant and hoping to be welcome—and not being welcome.

Twenty Years Ago

From The Herald of this date, 1894.

***More than 1,000 workingmen from Philadelphia and New Jersey marched down Pennsylvania avenue in Washington yesterday to emphasize their protest against the Wilson tariff bill. Men and women were in line marching four abreast under the American flag and fluttering banners displaying mottoes opposed to the Wilson bill. In the front rank was carried a great silk American flag, which had been donated by John Wanamaker for the demonstration.

***The St. Louis river is rising rapidly and is higher than has been known in six or seven years. The ice and logs have formed a bad jam at Cloquet and the water has backed up so that it reaches the Duluth & Winnipeg tracks. In some places the track is covered by about two inches of water. The Missabe road's tracks are also slightly submerged in some places.

***At the solicitation of numerous friends in St. Louis county and throughout the Sixth district, O. D. Kinney of Ely has consented to become a candidate for the Republican nomination for congress.

***A. L. Thurman of Duluth and Miss Cochran, daughter of Judge J. L. Cochran of Charlottesville, Va., were married yesterday at the bride's home. They will arrive in Duluth May 1.

***On April 25, Miss Medora Stewart, daughter of Mr. and Mrs. J. W. Stewart of Duluth, will be married to W. B. Gregory of West Superior at the residence of the bride's parents. They will make their home in West Superior.

***A new lodge of Brotherhood of Locomotive Firemen was organized last evening at Svea hall and a fine supper was served by Mrs. P. L. Whalen, Mrs. T. W. Robinson, Mrs. Thomas Ford, Mrs. William Mickler, Mrs. L. L. Hood, Miss Fay Hood, Mrs. A. Mentzer, Mrs. Nickegg, Mrs. Wolf Bemel and Mrs. William Mowdsley.

***Mr. and Mrs. W. E. Lucas left last night for New York.

***Dr. Corson of Biwabik has received a letter from George Hillyer, his brother-in-law, who is now exploring in the Rainy river county. He says he has discovered a vein of tin on the American side.

***D. P. McDonald of the West end will fill the vacancy made in the Duluth Ice company's office by F. L. Ryan's appointment as receiver of the land office.

***Gustav A. Lundberg died yesterday from typhoid fever, aged 43. He was one of the old settlers of Duluth, having come here in 1870 before he was old enough to vote. He served two terms as alderman and was formerly associated with Henry Truelsen in the grocery business.

A Desert Evening.

Dusk, and the purple shadows glide
o'er the desert land,
Cooling the dust-parched cacti, hiding
the sun-white sand;
The scent of the palo verde is sweet
on the twilight air,
And the yucca palms are stirring,
slender and frail and fair.
A weary pack-train, ghost-like, halts
by the water-tank,
Where the mallow flowers blossom,
bold and flaming and rank.
The brown bees circle the grease-
wood, and a lonely outcast cries,
The howl of a lean coyote raised to
the saffron skies.
Distant the ragged foothills, seared
and scorched by the sun,
Wait the caressing darkness, after the
day is done.
And sweet from the pale mesquit trees,
song of a feathered throat,
Haunting and wild and tender the
thrill of the mocking-bird's note.
Draw near to my arms, beloved! Our
campfire flickers and falls,
While the great stars lean above us
here where the rock-owl calls.
Stretches of shimmering silver, and
we and the desert moon.
Alone with the scented night-wind and
the peace of a gray dove's croon.

—Jean Brooke Burt in Lippincott's.

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest, but discussions of sectarian religious differences are barred. Letters must not exceed 200 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer (though these need not be published). A signed letter is always more effective, however.)

The Editor would like to ask W. E. W. of Proctor for the solution of that addition problem of his. Unless he counts two of the units as eleven, by placing them side by side, it doesn't seem possible of solution. Is that the answer, Mr. W. E. W.?—The Editor.

THE UNITED STATES MARINES.

To the Editor of The Herald:
Please print the inclosed lines on the U. S. Marines.

A FORMER MARINE.

Duluth, April 21.

Suppose we get word of a rumpus
The consul's unable to buck;
That the Greaser is trying to bump us,
Or the Boxer is running amuck;
That the Cuban falls down on his solo;
The Liberian's caught in a jam;
That the Moro is out with his bolo,
And it's up to your Uncle Sam.

What then?
Oh, just send the Marines:
Give 'em their guns and a handful of beans,
Back out the transport and turn her around—
And the divil a cheer for the outward bound,
Panama to Pekin—it's all on their beat,
Sweating in sunshine or shaking in sleet;
It's just part of the job for the dog-gone Marines,
Always the first on tumultuous scenes.

You don't see a lot in the papers
About the historical corps,
But when foreigners start cutting capers
They learn that its living—and more.
Whether a cutter can land 'em—
And if it is too shallow they'll wade—
They go, and few try to withstand them,
For they've learned that it's safer to fade.

A frolic? A fight?
Oh, just send the Marines;
Give 'em their guns and a handful of beans,
Back out the transport and turn her around,
See the Leathernecks grin to be outward bound,
It's the doggone Marines that land the first punch
Panama to Pekin—afloat with the fleet—
The World is all they patrol for a beat;
And whenever there's trouble you'll find the Marines,
For they start with the bell for tumultuous scenes.

TOOTHPICKS, THEIR USES AND ABUSES.

To the Editor of The Herald:
I noticed in a recent magazine article where a writer made fun of the good old-fashioned toothpick. I have carted a quill toothpick for ten years. Am I very much low class?

C. E. J.

Duluth, April 21.

Horribly!
The toothpick is not recognized either as a dessert or as an ornament to be carried behind the ear. And the quill toothpick is the most aggravated form of the disease. Quit this habit before it is too late.—The Editor.

FOSTER'S FORECASTS.

To the Editor of The Herald:
Would you please inform me through your Open Court whether Mr. Foster is the official weather forecaster of the United States government at Washington or has he a private observatory of his own? Please explain to settle argument.

JOSEPH O'NEILL.

Fort William, Ont., April 19.

Mr. Foster is a free lance, working out long distance forecasts on a theory of his own. He is not employed by the government.—The Editor.

BIG GUNS.

To the Editor of The Herald:
Is there a gun in the United States army that will carry a shell fifty miles? Answer in Open Court.

ARNOLD OLSON,
430 North Fifty-seventh avenue west.
Duluth, April 20.

The maximum distance at which targets are placed in government target practice is about 12,000 yards, or approximately seven miles. That is about as far as a shell can be fired with any degree of accuracy. How much farther a shell would travel if the muzzle of the gun were elevated to the angle which would bring the maximum distance, is a rather nice problem in ballistics. Fifty miles is undoubtedly more than the maximum distance, but just how far the most powerful gun would send a shell is something the Editor is not in a position to state definitely without more information than he has at hand. A news report recently stated that a new English gun had a range of twenty-two miles.—The Editor.

ANSWERS THEM ALL BUT TWO INCORRECTLY.

To the Editor of The Herald:
The answer to the addition problem is as follows:
One plus 1 plus 1 plus 3 plus 3 plus 9 equals 21.
To the egg problem, 31.
To the dog and rabbit problem, 342,000 legs, or 4,500 legs to each rabbit.
To the camel problem, if worked as the first son getting one-half, the second one-third and the third one-ninth, the man put his camel together with the other seventeen. To the first son he gave one-half, or nine camels. To the second one-third, or six camels, and to the last one-ninth, or two camels, leaving him his own camel.
Thanking you for the space, I am, yours truly,

MAURICE LABOVITZ.

Duluth, April 21.

THE EGG PROBLEM.

To the Editor of The Herald:
Herewith find a solution to the problem in your Open Court in regard to the farmer's eggs. I arrive to the answer as 15 as the smallest number she could have had at the start.
By selling half an egg over half her eggs would leave 7.
By selling half an egg over her eggs in the second store would leave 3, and half her eggs in the third store and a half egg would leave 1.
Yours very truly,

J. BORRLSON.

Proctor, Minn., April 20.

CORRECT.

To the Editor of The Herald:
In answer to the camel problem (considering the mistake) would say that "the man who happened to pass that way" settled the case in the following manner:
First, he added his own camel to the seventeen, making eighteen camels. One-half or nine went to the eldest son. One-third or six went to the second son. One-ninth or two went to the youngest. This way the sons received the seventeen camels, and the man took his own and went his way.
Thanking you for the space, I remain, yours truly,

DAVID SEGAL,
Duluth Central High School.
Duluth, April 21.

"PARKING" PROPERTY.

To the Editor of The Herald:
Just a little of your valuable space is desired to call the attention of property owners to the fact that a new way has been discovered of getting streets improved free of charge, that is, free to the property owners.
Instead of getting up a petition asking to have the street or avenue in front of your home graded or paved, prepare one asking the city to park it. If a roadway is necessary, incorporate that as part of the petition. That will throw the cost of the job on the city, and you may get a pretty lawn, with perhaps a flower bed or two and some trees, in front of your home. And all for nothing, or nearly nothing. Of course, you pay taxes, but so do thousands of others, cutting your pro rata share to a negligible amount.
In one or two instances, at least, the city has helped out property owners in this manner, or has announced its intention to do so. I notice that petitions are now being presented to the council asking that this be done. As the cost will be borne by the city, if favorable action is taken, you might as well try it. It's as fair for one as for the other, so get on the band wagon in order that you may stand as good a chance as the others.

WELL WISHER.

Duluth, April 21.

TWO MEN HOLD UP YOUNG WOMAN

Miss Inez Lee Robbed While Returning Home From Y. W. C. A.

While on her way home from the Young Women's Christian association about 9 o'clock last evening, Miss Inez Lee, 26 years old, was waylaid and robbed by two young men of a silver mesh purse containing 15 cents, a bathing cap and two swimming tickets for the Y. W. C. A. pool. The hold-up took place at Second avenue east and Fourth street.

Miss Lee was unable to see the men distinctly. One of them passed in front of the young woman, while the other stood behind her. The former seized the purse and the two men ran down Fourth street, disappearing in an alley. Miss Lee called for help, but her cries were heard only by three women, who were walking about a half a block ahead of her.

The young woman, badly frightened from her experience, ran to her home at 612 East Sixth street, and from there reported the hold-up to the police. She described the men as being youthful, probably not more than 20 years of age, one of them wearing a mackinaw and the other a short coat with a sweater underneath. Detectives were detailed to the scene of the hold-up immediately after the report was received, but were unable to locate the robbers.

Miss Lee, who is employed at the office of the McCarthy Bros. in the Board of Trade building, said this morning that she values the mesh purse very much and asks for its return, in case it is recovered.

POSLAM SOAP BEST SHAMPOO FOR DANDRUFF

NEW SIZES 15 CENTS

For health of hair and purity of scalp, shampoo with POSLAM SOAP.
Antiseeptic, wholesome, luxurious and delightful, leaves the scalp pure and sweet and the hair in superb condition.
This is the hygienic soap so beneficial to the skin because medicated with Poslam, the great healing remedy. Used daily, for toilet and bath, assures perfect skin health, improves and beautifies, prevents roughness and eruptional troubles.
Sold by all druggists everywhere.
(TO DRUGGISTS—All jobbers now supply Poslam Soap at N. A. R. D. prices.)

TRAFFIC HERE IS CONGESTED

Duluth Terminals Proving Inadequate to Handle Growing Freight.

Roads Plan Big Improvements If Rate Increase Is Allowed.

Duluth railroad freight agents aver that incoming and outgoing traffic at this point is now making a favorable comparison with last year, and that reports coming from points in Minnesota, North and South Dakota and Montana are such as to warrant expectations of an active season. It is said that if the interstate commerce commission accords the Eastern roads the 5 per cent increase in freight rates asked for, considerable improvement work and projected extensions will be proceeded with, entailing the employment of a large force of men through the summer months.

Duluth Terminals Congested.

"It must be admitted that our terminal facilities at Duluth are totally inadequate to handle the traffic developing and the congestion is growing more marked all the time," said a local official today. "General plans for improvements that will enable us to take care of their business more readily and at a reduced cost, have been made by all the lines with trackage here, I think, but the work has been held up until the roads know better where they are at regarding prospective earnings. However we are now in hopes that everything will be straightened out in due time. In such case Duluth people may count upon the railroad managements proceeding with a vast amount of work at the Head of the Lakes."

M. M. Hanna, city agent of the Duluth & Iron Range railroad, averred today that a large tonnage of woods products is still being moved from the camps along the lines. A feature at present, he said, is the movement of settlers' effects into a number of districts including Embarras and Lake county points. Many farmers are coming from Iowa and other Middle West states and that they are apparently well qualified to "make good" is shown in the class of livestock, machinery and household goods they are bringing with them.

Many Tourists Expected.

A good tourists' season is expected this year by Mr. Hanna. Inquiries from both Eastern and Western cities are being received and several reservation of cottages at Vermilion lake have been already made.

"General merchandise shipments from Duluth over our road have shown an increase over last year right along since the early winter months," remarked an official of the Duluth, Missabe & Northern. "With the ore season now about to open up materials and supplies for the mines are going in freely."

FEAR MEXICANS AT BISBEE, ARIZ.

Bisbee, Ariz., April 22.—Alarmed by the truculent attitude of Mexicans, citizens of Pearce, Arizona, and Gleason, telegraphed to Sheriff Wheeler here to send men to aid in watching the Mexicans, who are said to be arming heavily. The townspeople also have joined in the request of the citizens of Willcox for permission to form a militia company.

Mexicans largely predominate in the population of both Pearce and Gleason.

PRICES OF MEAT CONTINUE FIRM

Beef Cattle Are Scarce; Sheep Raising Said to Be Growing.

Meat prices are firm and are likely to remain so for some time yet, in the opinion of packers. While no further advances in quotations are looked for, it is thought highly improbable that there will be any reductions in figures to consumers during the year.

"It is a case of supply and demand," said the manager of a Michigan street establishment today. "Beef cattle are scarce and the market is being kept cleaned up all the time. Farmers are not selling their calves as freely as they formerly did, and it now seems impossible to produce sufficient animals to supply the trade. There is an indication, however, that the raising of sheep is on the upward trend, as farmers are beginning to appreciate more fully the profit in having a number of them around the place. So far as I can learn there are attractive possibilities in sheep raising in Northern Minnesota, as they can be maintained on new land that will not produce anything and will thrive with the aid of some auxiliary feeding."

Regarding importations of Argentine beef, he expressed himself as of the opinion that were it not for beef from that country American cattle would be selling today for 2 cents a pound more than they are today.

CARUSO SUED FOR PREACH OF PROMISE

Mildred Mefferto of New York Asks $100,000 Damages.

New York, April 22.—Summons and complaint of a suit for breach of promise of marriage were served upon Enrico Caruso, the tenor, yesterday in behalf of Miss Mildred Mefferto of this city. The damages asked are $100,000.

Was Never Photographed.

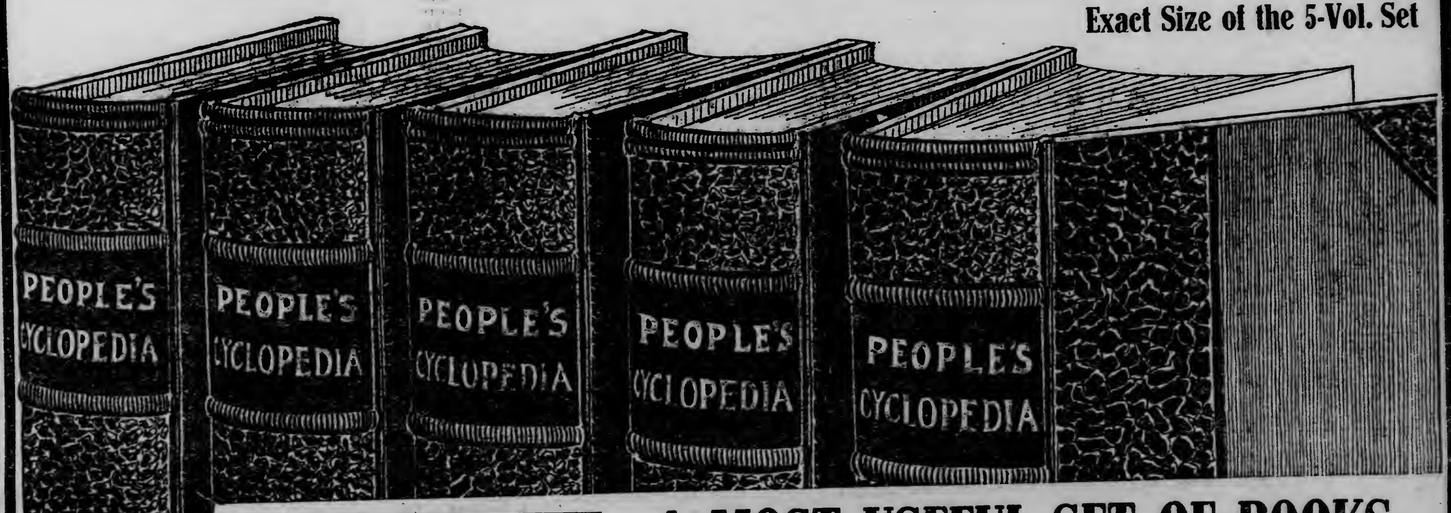
Menominee, Mich., April 22.—Bearing the distinction of never having been photographed, Johann Burenz, 74 years old, one of the oldest Catholic priests in Michigan, died here. He was known widely in early days as a missionary among the Indians. He had a particular aversion to photographs.

ONLY THREE DAYS MORE

After Today if the Supply Holds Out

In planning this great educational distribution for the benefit of readers of THE DULUTH HERALD, the National Newspaper Syndicate arranged for an allotment of books that it was thought would fully cover the demand under ordinary conditions, but the sale at THE GLASS BLOCK STORE has been far greater than anticipated — DULUTH is awake to the fact that PEOPLE'S CYCLOPEDIA is all and MORE than is claimed for it—that it is a concise and accurate work of reference—that it is MODERN, up-to-the-minute, convenient, COMPLETE. Hence THE GLASS BLOCK STORE has been thronged with enthusiastic coupon-clippers, eager to take advantage of this astonishing offer; so the supply is not likely to last until next Saturday—but the offer must be withdraw on that date. ACT QUICKLY—clip the coupon printed below and present it TODAY.

PRESENT ONE COUPON (PRINTED BELOW) and Get Your Set for $1.98 at Glass Block Store
Second Avenue West and Superior St.



Fathers and mothers, get this useful set for the children. Let the boys know that reference thereto leads to success.

WILLIAMSON & MENDENHALL

Coming to Duluth

DR. J. E. DORAN
SPECIALIST
Will Be at the
LENOX HOTEL
FRIDAY, APRIL 24
AND WILL REMAIN
One Day Only
Hours: 9 a. m. to 9 p. m.
OFFERS HIS SERVICES FREE OF CHARGE.

Dr. Doran licensed by the state of Minnesota for the treatment of deformities and all nervous and chronic diseases of men, women and children, offers to all who call on this trip consultation, examination, advice free, except the expense of the medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that his treatment is reasonably sure and certain in its effect.

According to his system no more operations for appendicitis, gall stones, tumors, goitre or certain forms of cancer.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys or bladder, catarrhal deafness, rheumatism, sciatica, malaria, bed-wetting, leg ulcers, weak lungs and those afflicted with long standing, deep-seated chronic diseases, that have baffled the skill of the family physicians, should not fail to call.

If you have kidney or bladder trouble bring a two ounce bottle of your urine for examination.

No matter what your ailment may be, no matter what others have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see him at once. Have it forever settled in your mind. If your case is incurable he will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself and friends or relatives, who are suffering because of your sickness, as a visit at this time may stop the disease and save your life.

Remember, this free offer is for one day only.

Married ladies must be accompanied by their husbands and minors with their parents.

Dr. J. E. Doran, Boston Block, Minneapolis, Minn.

AMERICAN FIGHTERS PROVE BRAVERY IN FIGHT AT VERA CRUZ

Seize Custom House and Part of City Against Mexican Rifles.

Details of Action Are Given Out at Washington.

Washington, April 22.—Marines and bluejackets of the American navy yesterday took the customs house and a section of Vera Cruz, with a loss of four killed and twenty-one wounded. The loss of the Mexican garrison is officially estimated at 150 killed and wounded.

This was the first step in the program of reprisal by the United States against the Huerta government for the arrest of American bluejackets at Tampico and other offenses "against the rights and dignity of the United States." It was the first clash between forces of the United States and Mexico since revolution broke out in the southern republic in 1910 and gave the Washington government a Mexican problem.

Salute Not Enough Now.

The salute to the flag which Huerta refused will not be satisfactory reparation. It is understood a declaration of apology as well as a salute and a guarantee that the rights and dignity of the United States would be respected can alone cause a withdrawal of the American forces.

Rear Admiral Fletcher, in command of the United States warships, prefaced his occupation of the port by a demand, through American Consul W. W. Canada, for its surrender. Gen. Maas promptly declined to accede to this demand, and shortly afterwards ten whaleboats were sent over the side of the transport Prairie, loaded with marines. These boats effected a landing in the neighborhood of the customs house before noon, and a few minutes later Capt. William R. Rush and his men of the battleship Florida took up their positions. They numbered 150 bluejackets from the Florida and 350 marines from the Florida. Later these were augmented by a detachment from the Utah.

No Excitement at Landing.

The coming of the American forces was not heralded by any great excitement, but small crowds gathered to watch the landing. Soon the bluejackets and marines marched through the streets leading to the water fronts and to the railroad yards. Others proceeded to the American consulate and were deployed along the plaza.

The maneuvers were without opposition, but suddenly the Mexicans challenged the advance with the first shots—a volley fired from a point three blocks from the marines and two blocks south of the main plaza. The marines replied immediately, but the action ceased in a moment.

There was a lull for ten minutes, and then another brief exchange from the west end of Montesinos street, where a Federal outpost was stationed.

At 12:30 o'clock the firing became general and at 1 o'clock the guns of the transport Prairie went into action.

Shot Down Old Tower.

Prior to this a detachment of bluejackets from the Utah, holding the ground between the consulate and the waterfront, opened with two of their three-inch guns. The first shots from these pieces were directed against an ancient tower which once served as a lighthouse. This was occupied by Mexican Sharpshooters. Lieut. Commander Buchanan of the Florida ordered that it be destroyed. Five shots brought the old Benito Juarez tower down.

The postoffice, government telegraph office and the cable office were the first buildings occupied after the custom house. A squad of marines was placed in charge of the cable office. The telegraph wires were found intact and enough Mexican operators were retained to man the lines to Mexico City.

Civilians in the Fight.

After the Mexicans had been driven from Central Plaza, the Americans found themselves the object of fusillades from the tops of houses, where small groups of soldiers and citizens had taken up positions. It was learned that the greater part of those engaged in this resistance were civilians who refused to accept the American occupation passively. They obtained guns and stationed themselves at points of vantage, and did much to prolong the action.

Lieut. Col. Wendell C. Nevill, commanded the marines from the Prairie, and Majors Reid and Berkeley and Captains Hughes, Hill and Dyer, along the line. Every precaution is being taken to prevent a Mexican attack, and the lines have been reinforced by a detachment, which was originally in position beyond the terminal works.

Toward the middle of the afternoon, a large body of Mexicans evacuated their position and are now somewhere in the sandhills back in the interior, where, it is reported from Mexican sources, they are expecting to be joined by reinforcements sent down from the capital.

Spoiled Flank Movement.

This withdrawal, however, was not entirely premeditated. Those watching on the ships observed through their glasses a large force of Mexicans moving over the hills in the western outskirts of the city, apparently with the intention of flanking a battalion of marines in the railroad yard and along Montesinos street, which runs east and west not far from the American consulate.

Instantly the five-inch guns of the Prairie let go, breaking the Mexican formation and causing a hasty retreat. This ended the flanking movement. Only a few minutes before the three-inch guns of the Prairie were used effectively near shore. A small detachment of Mexicans had gained positions near the customs house and their concealed marksmen were causing some trouble. A few shots from the Prairie's guns served to silence that position. From time to time the same guns played their shells along the lines of the shore, keeping that territory comparatively free of sharpshooters.

In the action about the customs house two of the bluejackets in a launch which carried a rapid-fire gun were wounded.

Raised Wireless System.

Capt. Rush supplemented his wigwag system of communication with Rear Admiral Fletcher as soon as he landed by radio operated from the roof of the Terminal hotel.

Admiral Fletcher was kept constantly advised of the operations and in turn reported to Rear Admiral Badger, who was off shore, and whose reinforcements would bring the available number of men up to 10,000.

Capt. Rush was reluctant to take action which he knew would result in loss of life to his men and possibly non-combatants.

While the machine guns played their music and the rifle fire added to the din he remarked to the newspaper men his deep regret at the resistance of the Mexicans and expressed the hope that they would not persist until he had to call on the ships' guns for a bombardment.

"It would be too bad, too bad," he said, "to shoot up this town. I hope I will not have to do it."

Lieut. Commander Buchanan, second in command, was close to Capt. Rush in the greater part of the engagement, and the two, with other officers, conferred constantly. Not at any time did Capt. Rush appear worried regarding the final result, but always he was perturbed at the thought of using the big guns.

Time of Fiercest Fighting.

The fiercest fighting occurred an hour or two after the opening shots. For a time, the rifle and machine gun fire gave the people of Vera Cruz and the foreign refugees aboard the steamers in the harbor more thrills than most of them had ever had.

There was no charging of forces to add to the dramatic action, but the spirited manner in which the marines and bluejackets held their ground and, firing at will, cracked back at the enemy, gave thrill enough. A large percentage of the marines wore across their dun-colored shirts one or all three bars indicating marksmanship, and they were practicing, many of them, for the first time at living targets.

Like the Mexicans, the Americans also took advantage of the roofs. The top of the Terminal station afforded an excellent position for sharp shooters. These naturally drew a return fire, and it was there that two men were wounded. Both of them had been detailed on signal work.

At the Water Front.

The liveliest separate action of the day was that at the customs house and the water front adjacent. Mexicans had been sending across from the buildings nearby an ugly and scattering fire, and the American riflemen ashore had great difficulty in dislodging them. A little flotilla of launches, each carrying a one-pounder in the stern, advanced under the cover of the Prairie's three-inch guns. The one-pounders dug viciously into the positions, and shells from the three-inch guns finished the work nicely. There was no more trouble from that quarter.

There was no cannon firing from the Mexican side, and it is supposed their artillery pieces were taken from the city early in the day.

With the exception of a few shots from the light field pieces of the bluejackets and a few from the Prairie, it was a contest of rifles.

Bravery Everywhere.

Bravery was shown everywhere among the Americans. The youngsters wearing the blue jackets of their vessels behaved as well under fire as the marines, who along the line comported themselves like veterans.

"In the early part of the engagement small detachments of Americans who were guarding the approaches to the central part of the city, stood without flinching while bullets from the rifles of the Mexicans sang about their ears.

Take an Early Car Tomorrow.

Gray's April silk sale opens at 8 a. m. You know what that means.

WILSON IS MUCH WORRIED

(Continued from page 1.)

a blockade will be maintained there or the customs house seized. The passage of the resolution in congress has given the president the feeling that he is justified in going further ahead now with aggressive steps, but he wants to have the full effect of the seizure of Vera Cruz impressed upon Huerta with the hope that he may be brought to terms without plunging further into armed conflict.

Bryan Much Changed.

Secretary Bryan was the president's first visitor early today. He, too, showed a change in demeanor. His eyes were sleepless and his face ashen white. He denied a report in circulation that Charge O'Shaughnessy had been given his passports, or was about to be recalled, or that Charge Algara was to be given his passports. Mr. Bryan said he had been in communication with Mexico City late yesterday. No disturbances in Mexico City or any demonstration against Americans had been reported, he said. He said he thought O'Shaughnessy's dispatch was filed late yesterday afternoon.

HOUSE CONCURS IN SENATE RESOLUTION BACKING PRESIDENT

(Continued from page 1.)

war on Mexico; the senate amendment states that in so many words. The substance of this resolution therefore is unchanged.

"In this momentous hour and in the circumstances confronting this country, prompt action justifying and approving the course of the president is of the utmost importance, and it would be childish to quibble over the words of the resolution when the substance is the same, and this is the view of the president.

Partisan Capital.

"I fear that an attempt has been made by gentlemen on the other side to make partisan capital of the present unfortunate situation between this country and Mexico. I hope the gentlemen have exhausted their misguided efforts in that direction, and that this house will give its approval to the chief executive of this nation without a single dissent."

"I do not believe that we ought to engage in a war with Mexico at this time for the reason suggested by the president," said Representative Mann, who followed Mr. Flood. "Mr. Speaker, if we pass this resolution we have entered on war. Already we have fired on and killed Mexican citizens already involved in war in Mexico. I believe we ought to be patriotic enough to try to secure peace.

"I have believed this 'watchful waiting' policy would involve us in war. I had hoped we might prevent it."

Mann Halted Signing.

As Speaker Clark stood with poised hand about to attach his signature to the resolution, Representative Mann made the point that he was acting without authority, as it was necessary for the senate to be informed that the house concurs in its substitute. The speaker replied that he had no doubt Mr. Mann was technically correct, and thereupon Representative Underwood said he would move that the house recess until noon, when the senate would convene.

MORE MARINES LANDED AND VERA CRUZ TAKEN BY UNITED STATES

(Continued from page 1.)

batants, and that firing had ceased, except for occasional picket shots."

Admiral Badger has reported the arrival at Vera Cruz of the battleship Minnesota and the naval transport Hancock with marines from New Orleans. These ships had stopped at Tampico and were ordered to proceed to Vera Cruz. The admiral reported that he had plenty of marines now to control the situation.

Rear Admiral Badger also reported to the navy department today that he had ordered the torpedo flotilla from Vera Cruz to Tampico to reinforce the Des Moines in that port, which was left alone when the other vessels were withdrawn to Vera Cruz.

Took 2,700 Men Ashore.

At a conference on board the battleship Arkansas, Rear Admirals Badger and Fletcher decided this morning to complete the investment of Vera Cruz. Read Admiral Badger organized a landing force composed of 2,700 marines and bluejackets and before daybreak these had all been sent ashore.

The Mexican sharpshooters occupied the roofs of houses in the central part of the city and were able to fire down upon the American marines and bluejackets as they neared the land from the vessels lying off shore.

Rear Admiral Fletcher reported that the Mexicans were firing from the housetops, but that the riflemen were only irregulars and armed citizens who kept up a scattered fire from behind their shelters.

Badger's Fleet at Vera Cruz.

The regular Federal troops forming the garrison of Vera Cruz are said to have withdrawn to a distance of fifteen or twenty miles inland.

Rear Admiral Badger's fleet of five battleships, the Arkansas, Vermont, New Jersey, New Hampshire and South Carolina, were outside the breakwater. They increased their speed to seventeen knots for the last eight hours of their trip, on the receipt of a report from Rear Admiral Fletcher as to conditions at Vera Cruz.

In the final dash to Vera Cruz the collier Orion and four tugs, which accompanied the fleet, were outstripped, but will arrive here today. The battleship Michigan also is due today, and the battleship Louisiana tomorrow.

All the American war vessels were held in readiness to start for Tampico at an hour's notice if Rear Admiral Mayo, in command there, desired aid.

Fletcher's Proclamation.

Admiral Fletcher's proclamation to the mayor, chief of police and citizens of Veru Cruz read:

"It has become necessary for the naval forces of the United States of America now at Vera Cruz to land and assume military control of the customs wharves of Vera Cruz. Your co-operation is requested to preserve order and prevent loss of life.

"It is not the intention of the United States' naval forces to interfere with the administration of civil affairs of Vera Cruz more than is necessary for the purpose of maintaining a condition of law and order and enforce such sanitary conditions as are needed to meet military requirements.

"It is desired that the civil officials of Vera Cruz shall continue in the peaceful pursuits of their occupations. Under these conditions, full protection will be given to the city by the United States naval forces.

"It is enjoined upon all inhabitants and property owners to prevent firing by individuals from the shelter of their houses upon United States forces, or upon any one else; such firing by irregulars not members of an organized military force is contrary to the laws of war; if persisted in, it will call for severe measures.

"F. F. FLETCHER,
"Rear Admiral, U. S. N., commander detached squadron."
United States Atlantic fleet."

Dispatches From Consul.

One of Consul Canada's dispatches, which was filed at Vera Cruz early today and was given out at 11 a. m., says:

"Firing commenced at daybreak. Ships now shelling southern part of city. Large force landed from Admiral Badger's fleet before daylight. Copies of proclamation issued by Rear Admiral Fletcher requesting at once the co-operation of the mayor and municipal authority in restoring order, have been distributed, but have been unable as yet to get in communication with these officals.

"Maj. Butler's forces of marines from Tampico now are ashore. Expect the city will be quiet later in the morning.

"Estimates of Mexicans killed and wounded up to late last night approximately 150. Battleships here, Florida, Utah, Arkansas, Vermont, New Hampshire, New Jersey, South Carolina, transport Prairie and collier Orion. Transport Hancock with marines reported due. American forces advance 8 a. m. under guns of war vessels to take city."

Another of Consul Canada's messages was received at 11:45. It said:

"Have sent messengers to all hotel keepers to reopen their establishments which will be given full protection. Customs house and warehouse on fire, but now extinguished. Now informed that American troops have been ordered to advance to take possession of the city. Informed also that first two sections of the train carrying American refugees from Mexico City arrived before the fighting commenced yesterday morning. Third section on its way, but not heard from. Maj. Catlin, with a force of 300 marines, just landed to assist Capt. Neville, says total number of forces landed 3,000. Our forces now well in center of city. I now believe fighting will be stopped within less than an hour."

Mexican Dead and Wounded 150.

Vera Cruz, April 22.—Consul Canada sent a report today to the state department at Washington that 150 Mexicans were killed and wounded here yesterday. The Americans lost four killed and twenty wounded.

This morning bodies of Mexicans are lying about the central part of the city uncared for.

Serious fighting on the part of the Mexicans early today appeared to be concluded. During the night there was an occasional shot from roofs, some times even within the American lines, and it was unsafe to travel the streets.

Late last night Rear Admiral Fletcher, through Consul W. W. Canada, sent a second messenger, a Mexican, to endeavor to locate some one in command to tell him conditions and suggest that in the name of humanity he call off his men. The rear admiral is considering the throwing of shells, but is reluctant to sacrifice life merely to clear the houses of the determined few.

The Americans have not yet occupied the central part of the city and more fighting may be necessary before the town is in their undisputed possession.

Gen. Maas Has Fled.

Gen. Gustavo Maas, commander of the garrison at Vera Cruz, left the city in a carriage at noon yesterday, half an hour after the first boat load of American marines landed from the warships. This was stated officially today and it was also declared that he had not been heard from since that hour. The commander's family followed him in another carriage.

It is stated that the Mexican troops forming the garrison of Vera Cruz were turned loose as soon as it was seen that the Americans were about to land and were told to act as they saw fit. Very few, if any, of their officers remained with the Mexican soldiers, whose operations were carried on without any one to direct them.

Some of the Mexican troops obtained a considerable supply of intoxicants by looting two stores. As a result many of them were in a condition which made them equally dangerous to natives and foreigners who came within their range.

Mexican Colonel Wounded.

Col. Cerrillo was one of the few officers who remained with the Mexican troops. He was the commander of the Nineteenth battalion and was wounded in one arm early in the fighting.

The Mexican troops had one 75-millimeter gun, which they placed in position at the corner of Estaban Morales and Main streets.

MINNESOTA MAN OFFERS SERVICES

Has Hundred Employes in Northern Mexico Ready to Fight.

From The Herald Washington Bureau.

Washington, April 22.—Representative Hammond today received an offer of services to the United States in its difficulties with Mexico from N. C. Dyer of Wyndham, Minn., and will this afternoon present the proposition to the secretary of war.

Mr. Dyer is the owner of a large ranch near Durango, in Northern Mexico, and in a letter to Mr. Hammond he explains that he has more than 100 employes at that point, who are eager to offer their services in a body if they are needed by the military authorities of the United States. These men, the letter says, are all willing fighters, have an intimate knowledge of the topography of all of Northern Mexico, and are thoroughly acquainted with the tactics and peculiarities of the Mexicans as fighters. He believes they would be of great value to our fighting forces, if trouble should eventually arise between this country and the Northern rebels and the regular troops.

WILL BRING BODIES OF DEAD TO STATES

Navy Department Will Care for Those Killed at Vera Cruz.

Washington, April 22.—The navy department is arranging to bring to the United States the bodies of sailors or marines killed at Vera Cruz and either forward them to relatives or make final interment in a national cemetery, as the families desire. All expenses of transportation of the dead will be borne by the United States.

SPANISH WAR MEN IN ST. LOUIS ORGANIZE

Form Nucleus of Volunteer Regiment in That City.

St. Louis, Mo., April 22.—A few minutes after the dispatches told that four Americans had been killed during the taking of Vera Cruz last night, fifty Spanish-American war veterans met here and organized the nucleus of what is to be known as the Volunteer regiment of St. Louis. Capt. T. R. Roemer was elected colonel of the regiment. It is announced the full regiment will be ready to go to the front, if necessary, in a few days.

TOPEKA BOYS MAKE MEXICANS SALUTE

March Through Streets With Flag and Fife and Drum.

Topeka, Kan., April 22.—Five hundred school boys who deserted their classrooms to parade through the streets headed by an American flag and a fife and drum corps, forced a dozen track laborers, evidently Mexicans, to salute "Old Glory."

More than 100 school girls, who followed a few blocks behind the boys in a parade of their own, cheered while the salute was delivered.

The demonstration was led through the heart of the business district of the city by a ragged boy in knickerbockers. Next were two youths with fife and drum.

Yells of "War, war" and roars of "Down with Huerta" and the frequent call of "On to Mexico" drowned out the fife and drum entirely.

ASKS $500,000 TO RESCUE AMERICANS

President Wants to Bring All Citizens Out of Mexico.

Washington, April 22.—President Wilson today sent to congress a message asking for an immediate appropriation of $500,000 to be used to bring Americans now in Mexico back to their homes in the United States. The message was referred to the appropriations committee.

May Supply Electricity.

Williston, N. D., April 22.—(Special to The Herald.)—If a movement that is now under way succeeds, the government experimental station power plant will become the center of electric supply for a number of cities in this district. Already Williston is being supplied with electricity, and the new movement contemplates the furnishing of "juice" to other points as well. Mondak, Mont., has become interested in the proposition, and a committee of citizens conferred with the government officials relative to the matter.

ANOTHER ILLINOIS COUNTY GOES DRY

Ninety-Two Bars Are Closed By Election on Local Option.

Chicago, April 22. — Anti-saloon forces failed by 181 votes to drive seventy-six saloons out of Danville. This city was the largest of forty in Central Illinois where the saloon question was balloted on yesterday. In the smaller towns the liquor foes had more success. They succeeded in closing ninety-two bars.

Bond county was the only addition to the list of "dry" counties, increasing prohibition territory in the state to fifty-three counties. Pocahontas, with five saloons, was the only "wet" spot in the county, and it went "dry."

The anti-saloon interests voted saloons out of the following municipalities: Arensville, Atkinson, Ashkum, Chebanse, Crescent City, Compton, Clifton, Chenoa, Deerfield, Gilman, Herscher, Irwington, Johnson City, Kampsville, Milan, Manteno, Momence, Pocahontas, West Frankfort, Altamont, Effingham, Shumway, Warren and Wamac.

Tells Positive Cure For All Foot Troubles

Science has proven that nearly all foot troubles originate from a common cause; that of injured tissues. The following information will be welcomed by thousands of victims of daily foot torture. No matter how many patent medicines you have tried in vain, this treatment, well known to foot doctors, will do the work. "Dissolve two tablespoonfuls of Calocide compound in a basin of warm water. Soak the feet for a full fifteen minutes, gently rubbing the sore parts." The effects are marvelous. All pain disappears instantly and the feet feel simply delightful. Corns and callouses can be peeled right off. Bunions, aching feet and sweaty, smelly feet get immediate relief. Use this treatment a week and your foot troubles will be a thing of the past. Calocide works through the pores and removes the cause. Don't waste time. Get it at once. Any druggist has Calocide in stock or he will get it from his wholesale house. A 25-cent box is said to be enough to cure the worst feet. Don't be persuaded to take something else instead. Calocide is prepared only at laboratories of Medical Formula Co. of Dayton, Ohio, and Chicago, Ill.

FREE TRIMMING SERVICE.

OLD GRAND UNION HOTEL TO BE RAZED

Will Go to Make Way for Subway Improvements in New York.

New York, April 22.—The Grand Union hotel, for forty years a popular uptown commercial house, is to be closed on May 2 and soon thereafter the building is to be torn down to make way for subway improvements. The property, which takes in the entire block on the east side of Park avenue from Forty-first to Forty-second streets, has been condemned and the title will revert to the city as soon as a price is fixed by the public service commission. A cross-town branch of the subway to connect the Lexington avenue and Fourth avenue lines will run under the hotel building.

DETECTIVE SAYS FRANK IS INNOCENT

Atlanta, Ga., April 22.—Leo M. Frank, under death sentence for the murder of Mary Phagan, is declared to be innocent of the crime in a report made public by the head of a national detective agency, who has been investigating the case. In the report the detective claims that the girl was killed by another employe at the pencil factory of which Frank was the superintendent.

The Day of Fake Advertising Is Passing

As a matter of self-protection, as well as protection of the public, we are downright glad to see the dawn of honest advertising.

The store that has honest merchandise at right prices need not hesitate to tell the truth.

For example, we never have had the least difficulty in advertising **Stein-Bloch Smart Clothes** for men. They contain so much that is superlatively good that the plain truth about them is the simplest kind of a story.

But after all they tell their own story better than cold type can tell it. If you, Mr. Man, are not familiar with that story and the clothes that tell it, don't wait another day to hear it.

Incidently the Spring and Summer showing of **Stein-Bloch Smart Clothes** is ready. To be found here exclusively.

STRAIGHT TALK FROM "BOSS"

Supt. Kreitter of Missabe Road Speaks at Employes' Banquet.

Congratulates Them on Efficiency—No Place for Men Who Drink.

More than 400 employes, gathered from various departments of the Duluth, Missabe & Northern railroad listened closely last evening at the annual banquet while Supt. J. W. Kreitter told them how they had improved in their work for the company since the last banquet. He also scored the drinking habit and cigarette smoking, and said that the time was coming when the man who "boozes" will not be employed anywhere and advised the men not to wait too long to climb on the wagon.

The banquet was the fifth given annually by the railroad to its employes. Every man who was able to be present was there, and every available seat of the 400 arranged for was occupied. In addition to the address given by the superintendent, C. E. Carlson, secretary of the company, spoke on behalf of President W. A. McGonagle and touched on the future possibilities of the road; Rev. D. B. Hanscom of the Forbes M. E. church and Rev. W. E. Harmann of the Christ's Episcopal spoke on co-operation.

Mr. Kreitter said that lack of room as well as a desire to keep some machinery of the road in operation was the reason why all of the employes were not present. In beginning his speech, Supt. Kreitter said that at the last banquet he had requested trainmen to try to gain ten minutes per round trip in the operation of trains, this to be accomplished by using less time in getting out of stations.

Increased Efficiency.

"You have responded in fine shape," said he. "While our round trip average in 1912 was ten hours and twenty-seven minutes you have cut it down to nine hours and forty-four minutes, a decrease of forty-three minutes per train. At the same time you have increased the average speed to fourteen miles per hour. In addition to this you also increased the cars per train by one, and as a consequence gave us an additional tonnage per train.

"Your other records are equally as good. Our engine failures were less than a year ago, showing more care given the engines by engine men. Among these good records it will not do to overlook damage to equipment. In 1912 our accidents, large and small, cost $15,964.73, while last season the figures were $8,973.51, a decrease of $6,991.22. Good judgment on the part of trainmen, co-operation between the men, and instructive lectures at the Proctor railroad club have done this."

The superintendent admonished the men to take no chances. He told those who are in charge of trains not to turn the supervision over to "the other fellow," but to be on the ground when anything happens and not to sit in their cabooses. He told them to always keep a watchful eye out for accidents to their fellow employe.

"There is not an employe who cannot improve his service with study and deliberation," he continued. "Benefit by the other man's misfortune by studying how you can prevent a similar accident. Get along with each other. Cut out all jealousy, crankiness and ill-feeling. Treat the men under you fairly and squarely. Teach them and remember you were one day yourself on the inexperienced list and some one had to have patience with you. Also remember your position of boss may be a matter of chance. The fellow that is under you may be just as capable as you are, or more so, but has not had the chance. In other words, keep your head within the size of your hat band."

Mr. Kreitter also talked on safety and said that buttons of the D., M. & N. Safety league would soon be out and expected all members of the league to wear them. He then touched on the liquor phase. He said that although 90 per cent of the people of Proctor are railroad people and the other 10 per cent spent next to nothing for liquor, two saloons flourished in the village in spite of paying a license fee of $1,500 in addition to other expenses. Said he:

Denounces Liquor Habit.

"It is our disagreeable duty as officers to now and then discharge a man for the violation of rule 113 and he is usually given two chances. In other words we first try to teach him, but when he cannot or will not be taught what else is there left for us to do? I have thought for some time that our rule 113 is out of date and it may be probable that we will adopt the one that is now being adopted by many employers throughout the country. That is: 'In future all advancements in positions or wages will be made only from the ranks of men who are known to be total abstainers from liquor.' All employers are coming to this.

"I do not want to take up your time giving a temperance lecture but I do want to tell you men who insist on drinking more or less all the time, that the time is coming when a man who 'boozes' will not be employed anywhere. So don't wait too long to get on the wagon."

Mr. Kreitter gave some statistics on the liquor traffic which showed that in the United States 70,000,000 gallons of whisky were consumed during the last six months and that in the same period 11,711,000,000 cigarettes had been smoked. The amount paid by the consumers, he said, might easily be estimated at over $300,000,000.

The banquet was served by the Ladies' Guild of Christ's Episcopal church. Mrs. C. H. Connors, president of the society was in charge. In charge of the tables were Mrs. G. W. Sutton and Mrs. J. T. Speck. Those assisting were Mesdames J. W. Kreitter, P. C. Mitchell, C. Rossiter, C. Towner, M. Lewis, K. Mathews, W. L. Caris, W. Brown, F. Hughes, A. G. Elbersen, E. Hurbert, B. Eales, J. M. Pheonix, J. Farm, F. Burke, J. Solberg, F. Mitchell, G. Studley, P. Peterson, E. G. Meville, and T. Grimes, and Misses Mamie Burns, Ruth Cook, Kate Buetner, Agnes Keating, Eileen Green, Laura Elbersen, Dyer, Violen Connors, Bee Larson, Pauline Benke, Eunice Speck, Alva Johnson, Myrtle McKinzie, Hettie Seitz, Mabel Yergen, Hulda Olson, Eileen Hanks, Mary McCabe, Ethel Lillig, Lottie Boyer, Lottie Jones, Emma Oleson, Ethel O'Connor, Grace Osborne, Florence Grant, Bulah Clark and Elizabeth Cairo, and choir boys from the church.

Will Give Cantata.

Children of the Merritt school, Fortieth avenue west and Sixth street, will entertain at a cantata, "Welcome to Spring," at the school Friday evening. Nearly 100 pupils of the upper grades will take part.

The playlet will include folk dancing, drills, singing and other features. A matinee will be given in the afternoon.

Olin Funeral.

The funeral for Carl Alfred Olin, 57 years old, 5309 Albin street, who died of heart failure Monday, was held at 1:30 o'clock this afternoon from the residence and at 2 o'clock from the Swedish Mission church, Fifty-ninth avenue and Green street. Burial was made in Oneota cemetery.

Hallum Funeral.

The funeral for O. M. Hallum, 57 years old, who was electrocuted Monday evening while working at the Zenith box factory, will be held Friday afternoon from 128 North Fifty-seventh avenue west. Interment will be in Oneota cemetery.

Women Will Entertain.

Women of the Westminster Presbyterian church will entertain tomorrow evening at another of their series of social affairs for members of the congregation. It will be held at the home of Mrs. G. L. Shoup, 122 North Fifty-third avenue west.

Among those who will take part will be: Miss Florence Mattson, piano solo; Miss Pauline Solem, piano solo; Miss Esther Mattson, violin solo; John Allen, reading; and Miss McDonald a reading.

The ladies assisting the hostess will be Mrs. T. F. Olsen, Mrs. Rudolph Sleger and Mrs. Eli Moore.

West Duluth Briefs.

The funeral of Joe Le Vata, 35 years old, who died Monday night at the Duluth hospital of peritonitis, was held this morning from Filiatrault's undertaking rooms.

Euclid lodge, No. 198, A. F. & A. M., will meet this evening at the Masonic temple, 615 North Central avenue. Work in the second degree will take place.

Members of Non-excelled homestead, B. A. Y., will entertain at a social this evening at Gilley's hall, 322 North Central avenue.

Excelsior Rebekah lodge, No. 59, will meet this evening at the Odd Fellows' hall, Central avenue and Cody street. A social session will follow the business meeting.

Rev. Havig Gjelsette of Nelson, Wis., arrived this morning and will conduct a series of revival meetings at Our Savior's Norwegian Lutheran church, Fifty-seventh avenue and Wadena street.

Miss Gerda Eklund of Proctor entertained Monday evening at a bundle shower in honor of Miss Ellen Strom, who will be a bride of this month. Twenty guests attended. The bride was presented with a number of handsome presents.

Read Wieland & Wade's special sale ad. on this page.

The Ladies' Aid Society of the St. James Catholic church will entertain tomorrow afternoon at Gilley's hall, 322 North Central avenue. The hostesses will be Mrs. Thomas Callahan, Mrs. Humphrey Jones, Mrs. McClelland and Mrs. Wheeler.

F. A. Foster, principal of Irving industrial high school, We, the undersigned committee, have hereby made the award in the Grand avenue pharmacy's window trimming contest for eighth grades as follows: Longfellow, first; Irving, second; Ely, third; Fairmont, fourth. William E. Utley, N. F. Nelson, Oscar A. Bergland. Master Leonard Hedman of the Longfellow school, Miss Alice Shannon, teacher, and Miss Laura MacArthur, principal, is the winner of $5, first prize. One dollar is also awarded to Master Theodore Gagnon, Master Reynolds Briggs and Master Arthur Anderson. Ray W. Abbott, manager Grand avenue pharmacy.

Richard J. Fisher, attorney at law, has opened an office at room 8, Nelson building, Grand avenue, West Duluth.

Watch repairing, Hurst, West Duluth.

WAS UNABLE TO "MAKE GO OF IT"

Ernest Munson and Family Sent Back to New York.

When Ernest Munson, 40, head of a family of four small children, confessed to the poor authorities yesterday afternoon that after six months in Duluth he was unable to "make a go of it" and that he was now out of a job and had a sick wife on his hands, Charles Shorgan, clerk of the poor commission, thought for a moment and then decided to give the applicant for county aid tickets for himself and family to his home town back in Binghamton, N. Y. Munson and his family today packed their trunks in preparation to leave tonight.

Munson told Clerk Shogran that he came to Duluth from New York six months ago and that he had been very unsuccessful in obtaining work since he arrived. During the last month, the county has been supplying him with groceries and paying for the rent of his home at 317 North Twenty-fourth avenue west. The youngest child in the family was born about five weeks ago. Munson was willing to be sent back to his home town.

OBITUARY

Alfred H. Anderson of Tacoma, Wash., reputed to be one of the wealthiest residents of the Northwest, died suddenly in his hotel room in New York April 21 of paralysis.

The Living Models Are Much Admired in Their Bon Ton Corsets

You may see just how Bon Ton Corsets mould the stout, the slender and the medium figures—you can see them worn by models with figures similar to your own. You can get an idea whether or not Bon Ton Corsets would improve your figure. Miss Shaull's lecture on

The Art of Corsetry

is appreciated by all who hear it. If you have not yet heard her, arrange to be here tomorrow at 2:30. Tickets are free at the Corset Department.

Don't Envy the Woman With the Fine Figure Just Get the Right Bon Ton and You'll be Admired Too

That's the truth—you'll believe after seeing the handsome living models wearing Bon Ton Corsets. Miss Shaull tells you why. You know Bon Ton Corsets are great favorites with French dressmakers.

Miss Shaull Will Arrange to Give a Limited Number of Fittings

Why not profit by the opportunity?

ON THE IRON RANGES

HIBBING JOBS NOT CHANGED

Very Few of Village Employes Are Supplanted By Others.

Mayor Power Allows Heads of Departments to Select Own Men.

Hibbing, Minn., April 22.—(Special to The Herald.)—Though several distinct innovations in the conduct of city affairs were made by Mayor Power in his annual message to the council last evening there were but few changes in the official family recommended.

Instead of the council appointing all of the members of the police and fire departments as has been the case in the past, the chiefs of those departments were given full power to select their own men.

The street commissioner will also be given full power under the new system and will be the only one empowered to hire men for street work, though his assistants may discharge men who fail to properly obey orders or do their work.

Mayor's Message.

The mayor's message follows:

"The following are the recommendations for positions in the village that I wish to make with the hope of your approval: Village attorney, S. C. Scott, $175 per month; fire chief, Charles Mellhargey, $175 per month; chief of police, Archie McFayden, $175 per month; engineer, E. J. Hawley, $200 per month; health board, chairman, Dr. G. N. Butchart, $50 a month; assistant, J. J. Stewart, $100 per month; street commissioner, Dennis Healey, $160 per month, assistants, Gust Jarvi, $100; Alex Bonaventura, $100; Albert Albertini, $100; Heimer Johnson, $100; foremen, teams, Christ Daly, $110 per month; Mr. Furlong, $100; Luigi Lombasatti, $100; timekeeper, Arvid Ericson, $90; scalemaster, M. P. Flanagan, $90; drivers on motor sprinklers, Harry Bay, $85; Mr. Munter, Jr., $85; water and light board, Fred M. Smith as a representative from the Alice district; park board, J. B. Murphy; library board, Mrs. Irving Lerch, Mrs. T. S. Silliman, S. C. Scott; board of charities, who will receive and disburse all funds collected for charitable purposes, Mrs. R. Murray, Mrs. W. J. West, Mrs. Al Dixon, Mrs. A. P. Silliman, Mrs. M. Hughes.

"Let me say that there was no occasion for a change in the park board except that Dr. Thomas is desirous of retiring, according to my information. He has been a careful and efficient officer and the work accomplished by the park board with his valuable assistance deserves favorable mention.

"I recommend that immediate action be taken toward procuring a new and sufficient water supply for the village. This should be taken up at once. I also recommend that a new joint district and municipal courthouse be built in conjunction with a new jail.

"The sewer work commenced last winter should be pushed to completion at the earliest possible moment.

"These and other improvements along the line of last year's work should be accomplished during the year 1914."

Appointments Approved.

The mayor's message was accepted by the council, the appointments approved and suggestions confirmed.

Mayor Prince made several explanatory remarks regarding his message. In connection with the change made in the head of the board of health he said that the work done during the last year had been excellent but that it was the understanding that Dr. Butchart was to receive the appointment this year.

He also explained in detail the purpose of appointing the board of charity.

"There has been considerable money collected for charitable purposes in the village during each year," he said, "and an effort made by the different organizations to distribute it. We find also that a large amount of money has been distributed by the village to the poor. We are of the belief that some of this, and I might say much of it, has gone to undeserving people and that there are families living on the village who should be self-supporting. This new board will have the power to employ a woman as secretary at a nominal salary to investigate the poor cases and make proper distribution of the funds."

The fact that in the future the street commissioner would be the only person authorized to hire street workers was emphatically brought out, though it was said that the assistants would have the power to discharge men.

OFF CHINESE BOND.

Virginia Pair No Longer Sureties for John Lee.

Virginia, Minn., April 22.—(Special to The Herald.)—Joseph Backus and W. B. Pratt, bondsman for John Lee, Chinese cook employed at a Virginia chop suey restaurant, convicted of first degree assault, while connected with the National hotel at Hibbing, yesterday afternoon asked Judge Hughes to release them as bondsmen for Lee in the sum of $9,000 on an appeal bond perfected by Lee's attorney.

Lee was arrested at the restaurant yesterday afternoon and is now in the county jail and the request of the bondsmen to be released from his bond was granted.

Charles Lee, a brother of John Lee, who induced Pratt and Backus to go on his brother's bonds, has been missing from the city for some time, and Backus and Pratt indicated to the court they did not care to take any further chances on John Lee's bond.

HIBBING EMPLOYES CANNOT DRINK ON DUTY.

Hibbing, Minn., April 22.—(Special to The Herald.)—Employes of this village may be thirsty and may be of the belief that a cooling glass of foamy beer or a bracing drink of whisky would increase their efficiency, but if they are seen entering a saloon during working hours they will be without a job, according to a motion passed by the council last evening.

MEXICAN WAR IS NOT CHILD'S PLAY

Virginia, Minn., April 22.—(Special to The Herald.)—A. M. Dafoe, chief dispatcher of the Duluth, Winnipeg & Pacific Railroad company here, who formerly was train master of the National railroad in Mexico, disagrees with those who predict that the United States will have little trouble disposing of Mexico.

"It will be no trick at all for Uncle Sam to bottle up the Mexican ports, but when it comes to interior fighting this country will face an entirely different proposition," said Mr. Dafoe.

"Huerta's plan no doubt will be to get our armies into the interior, where from the mountains and foothills the guerillas will pick men off right and left. If the war is carried to the interior a guerilla warfare might be carried on indefinitely with the American armies suffering great losses.

Rurales Hard Fighters.

"The rurales will be the hardest proposition the United States will have to deal with. They are trained fighters in the employ of the Huerta government. They are hired for the sole purpose of fighting and they will go the limit. The rurale is a born fighter and he has been given everything he needs to go ahead with by the government. He is a powerful Mexican Indian, rides splendidly, knows how to use his arms and is mounted on fine horseflesh. When the United States troops meet these fellows they will know what real fighting means. The rurale means business and the minute we attempt any fighting inland we certainly will hear from him. I have seen many of them in their khaki uniforms and big sombreros and they sure look the part of the real Mexican fighting man and soldier."

CREAMERY IS POPULAR.

More Patrons This Year of Grand Rapids Institution.

Grand Rapids, Minn., April 22.—(Special to The Herald.)—The local creamery report for the last half of March, shows 1,840 pounds of butterfat received, compared with 1,138 pounds for same period last year. The average price received for butter was 27½ cents per pound, which, owing to the tariff reduction on butter which allowed much foreign butter to be placed on the market, is 7½ cents less than it was last year. In the same period in 1913 the patrons received 48 cents, 35 cents and 33 cents, for butter fat in milk, first grade cream and second grade cream, respectively, and this year the checks were made out for 40 cents, 30 cents and 28 cents, respectively.

During this period this year, more than double the amount of milk was sold by the creamery to patrons than in the same period last year, 4,221 quarts sold this year as against 2,088 quarts last year.

VIRGINIA WEDDING.

James McCarthy Leads Miss Thorpe to the Altar.

Virginia, Minn., April 22.—(Special to The Herald.)—Yesterday morning at Our Lady of Lourdes Catholic church, Miss Susan Catherine Thorpe, daughter of Mr. and Mrs. Robert J. Thorpe, became the bride of James Grover McCarthy, Rev. Father W. J. Powers officiating.

Miss Madeline Dillon played Mendelsohn's wedding march as the bride entered the chancel on the arm of her father. She was preceded by Miss Mollie Boylan, daughter of Mayor Michael Boylan, flower girl, and Miss Norma McDonald of Hibbing, bridesmaid. At the altar they were met by the groom and J. L. Lindstrom of Marquette, Mich., best man.

The bride wore white crepe meteor, trimmed in silver, and carried a bridal bouquet. The bridesmaid wore white shadow lace.

The ushers were Paul Sevonick and Fred Voss of Virginia.

Following the ceremony a wedding breakfast was served at the bride's home.

Mr. and Mrs. McCarthy left for Duluth and the Twin Cities. They will return soon to Virginia to make their home.

Among the out-of-town guests were Mrs. Joe Grindel and Mrs. Rose Thorpe of Chicago, Mrs. J. Robertson, Mrs. M. P. Seymore and Miss Blanche Ryan of Duluth, Mrs. Mary Sullivan and Mrs. J. McDonald and Louis Sullivan of Hibbing.

FISHERMEN PROTEST.

Object to Netting in Rainy and Namakin Lakes.

Virginia, Minn., April 22.—(Special to The Herald).—Protests over the granting of state licenses to fish in the waters of Kabetogema lake with pond nets for the market and over the depleting of the waters of Namakin and Rainy lake of whitefish, pike and sturgeon through past commercial fishing operations are going forward to Fred B. Myers of Biwabik, range member of the state game and fish commission.

The commercial fishing licenses in Kabetogema lake have been granted to William Randolph, Bowman Bros., and other fishermen on the ground that Kabetogema lake is international water by the state and game commission. This contention is disputed by many North country residents, who declare that Kabetogema lake is not international water and that therefore the state game and fish commission has no right to grant commercial fishing licenses there.

It is alleged that the operation of fishermen netting for the market has almost completely depleted Namakin and Rainy lake of whitefish, pike and sturgeon, and that if netting is allowed on the scale it is at present being undertaken on Kabetogema, that lake will also be depleted of these varieties of fish in a short time.

President Joheph Buckus of the gun club forwarded the necessary blanks to residents of Orr to make application to the state game and fish commission for bass fry to be placed in Pelican lake. Dr. Lenont has also made application for some trout fry to be planted in one of the brooks to the north of this city on the Vermilion road.

EVELETH COUNCIL CONSIDERS PLAN

Eveleth, Minn., April 22.—(Special to The Herald.)—Two 16-ton boilers for the new city pumping station at St. Mary's lake must be conveyed over a mile of Fayal town road. Part of the road just now is a bottomless muskeg. The Gogebic Boiler Works of Duluth and the Northern Plumbing & Heating company of this city submitted bids of $890 and $826 respectively to the city council to haul and place the boilers. In the hope that the roads will dry and that lower bids can be received the council last night decided to readvertise.

Marco Ivkovich was given the contract to haul 1,200 tons of coal to the pumping station at 55 cents per ton.

Mayor J. J. Gleason stated he had been asked by residents at the Fayal and Spruce locations that the locations be annexed in order that the residents can get the advantage of the city water service and other improvements and to get better roads. Councilman J. J. Brince stated that he had put a team at work at his own expense in Spruce to make the roads passable.

An opinion of the city attorney telling of the necessary steps to acquire the power plant owned by the Home Electric Heating company, was read. Mr. McDonald of the Burns-McDonald company of Kansas City, Mo., consulting engineers, addressed the council on methods of making appraisals. The matter is being considered at an adjourned meeting this afternoon.

Name Health Officer.

At the suggestion of Mayor J. J. Gleason Frank Weyenberg was appointed health inspector. His duties will be to see that property owners obey the ordinances in cleaning up. "Some portions of the city are in bad shape. We intend to take drastic action if property owners will not act voluntarily," Mr. Gleason stated.

Notice was served of a claim for $5,000 personal injury damages by Mrs. Selma Kauppinen. She claims to have slipped on a defective crossing on Jones street, March 18, and fractured bones in her left arm and wrist.

An arc light was ordered installed on Fayal road, on application of Pazanzza Bros., for a permit to move the old Tower hotel building from Jones street and Grant avenue to Garfield street, was referred to the commissioner of streets and alleys with power to act. There was some discussion on the matter as it would tie up traffic on the Mesaba railway electric line for several hours unless the work is done at night.

DISCREPANCY $10,663.

Former Hibbing Village Accountant Reported Short Big Sum.

Hibbing, Minn., April 22.—(Special to The Herald.)—Discrepancies amounting to $10,663.20 were found in the accounts of J. L. Stewart, former village accountant, according to the final report submitted by S. S. Williamson to the council last evening.

The audit that was made covered the past six years and was exceedingly difficult, owing to the confused system of bookkeeping that had been employed and the evident worthlessness of previous audits.

The resume contained in the report showed:

Cash book—Collections not paid to treasurer	$ 6,639.66
Cash book—Discrepancies in footings	13.95
Cash book—Discrepancies in balancing with consumers' ledger	269.20
Meter deposits—Collected but not paid treasurer	1,934.00
Total due village	$ 8,756.81

In addition are three items that should be considered in a settlement, as follows:

1st. Amount from meter collections turned over by Ralph Wagy when he surrendered the office; less $49 included above ..... $ 760.46

2nd. Certain orders that should have been turned over to the treasurer, same having been paid by him... 970.93

3rd. Certain items apparently for meter deposits which do not appear on register..... 175.00

Total $10,663.20

One Convicted; Three Freed.

Virginia, Minn., April 22.—Joe Miller, charged with assault in the third degree, was convicted by a jury in district court here yesterday, and Mike Miller was found not guilty of the same offense. Sam and Joe Detich, who also faced the same charge, were found not guilty.

TRAMMERS LAID OFF.

Lack of Stock Pile Room at Eveleth Blamed for Action.

Eveleth, Minn., April 22.—(Special to The Herald.)—The Oliver Iron Mining company has laid off 150 trammers in this city within the last few days. Of the men laid off 100 are from the Spruce, and fifty from the Fayal. No reason for decreasing the size of the crews has been given out by the mining company, but it is said to be because of a lack of room for additional stock piles.

It is expected that the shipping season will begin in a few days and that the old men and additional miners will be put to work. Reports that new open pit properties are to be developed and that old properties will be worked the same as usual this season gives grounds to a belief that it will be a busy year in the Eveleth district.

SCARLET FEVER STILL MENACES

Two Harbors, Minn., April 22.—(Special to The Herald.)—According to city officials the number of scarlet fever cases in the city is increasing although not so rapidly as the first couple of weeks of the epidemic. During the past week the board of health reported ten new cases and during the same length of time the chief of police removed but four cards, thus the epidemic increased during the week by six cases. According to the physicians all the new cases are children around the age of 6 years.

There has been some talk that the city schools will be closed, but such action will not take place at present. The board of education and the health board will hold a joint meeting, if the epidemic continues to increase, to discuss the advisability of closing the city schools.

110 Pupils Quarantined.

Supt. J. E. Flynn of the city schools states that 110 pupils are quarantined, and that the nurse hired by the city for the schools was examining about thirty cases a day and reporting to the physicians all suspect cases that she finds. At the present time there are in the neighborhood of sixty families under quarantine.

City officials are exceedingly anxious to check the epidemic before the warm weather sets in, and if it continues to increase the schools, churches and all other public places will no doubt be closed.

TIMBER SUIT IS NOW BEING TRIED

Grand Rapids, Minn., April 22.—(Special to The Herald.)—The taking of testimony in the case of George Godfrey vs. S. D. Seavey, formerly of Superior, but now a timber operator in the Dumas and Ballclub country, which started at the reopening of district court yesterday, was continued today and the case will probably occupy the balance of the day.

Godfrey is suing to recover $450 claimed to be due on some timber he delivered to Seavey during the past winter. From the testimony, it develops that Seavey bought timber for Godfrey to log and otherwise financed the operations in return for which he was to receive back his principal and 5 cents per tie on all ties cut by Godfrey.

Only Delivered Part.

Godfrey, it seems, delivered a part of the stuff to Seavey, then started to sell to another firm and when settlement time came Seavey had held out the amount claimed by Godfrey as his commission on the stock which Godfrey sold to the other concern.

Judge Wright is presiding and Attorney Ralph A. Stone is representing the plaintiff, while C. C. McCarthy is looking after the interests of the defense.

Bury County Charge.

Grand Rapids, Minn., April 22.—(Special to The Herald.)—Fletcher Atkinson, who has been a county charge and ill with tuberculosis for the past couple of years, died at the Thomas hospital in Minneapolis and was brought here yesterday for burial. Atkinson was well known around here, being an old-time woodsman and all around worker. The funeral was held from the Kremer undertaking rooms, Rev. Myers officiating, and interment made in Itasca cemetery.

TWO HARBORS TEAM.

City By Lake Will Again Have Baseball Organization.

Two Harbors, Minn., April 22.—(Special to The Herald.)—About 100 ball fans and players last night discussed having a local ball team the coming season and the outlook for another championship team this year is very bright. Last year's players who will be in the line-up again are: Jack Lambert, John Woodward, Harry Johnson, Vic Wisten, Harry McDonald, Bud Ginter, "Barney" Griffin, Chester Gustafson and Alex Johnson. Nineteen candidates signed up last night for a tryout.

Robert J. Olson was elected manager and Jack Lambert, captain. A grounds committee was appointed to take up the matter of securing new grounds. It is possible that the old ball park will not be used this season. The grounds committee consists of Ernest Strand, W. B. Woodward and Ed Conliff.

ITASCA FILINGS.

Andy Nelson for Treasurer and John McMahon for Treasurer.

Grand Rapids, Minn., April 22.—(Special to The Herald.)—Two filings for county offices were made today at the county auditor's office, Andy Nelson, for county commissioner in the Third district, and John E. McMahon for county treasurer. Mr. Nelson will be opposed by Hans Nelson of Coleraine, and Frank Provinska of Bovey, who have already filed. It is not expected that Mr. McMahon will have opposition. He is now serving his first term.

FIRST ORE TRAIN.

Thirty-Three Carloads Brought to Two Harbors Docks.

Two Harbors, Minn., April 22.—(Special to The Herald.)—The first full trainload of ore this spring was brought here yesterday thereby opening the ore shipping season of 1914 on the Iron Range road. The train was managed by Conductor Robert Boston and Engineer Whiteside. It consisted of thirty-three loads and was brought from the Pettit mine. It is expected that business will increase slowly until navigation opens when things will take on a more lively stride.

A number of ore boats which wintered here and were loaded last winter are all steamed up and ready to leave as soon as they can get through the Soo.

LAWLER TO SPEAK.

St. Paul Man to Deliver Eveleth Memorial Day Address.

Eveleth, Minn., April 22.—(Special to The Herald.)—Daniel W. Lawler of St. Paul will deliver the address at the Memorial day services in this city. B. O. Greening, city superintendent of schools, and Charles McNamara, a G. A. R. veteran, have charge of the arrangements for the exercises.

It is planned to hold the exercises at the city auditorium and the several bands, a newly organized glee club and Company F of the National Guard will be asked to take part.

SIMPLE WAY TO END DANDRUFF

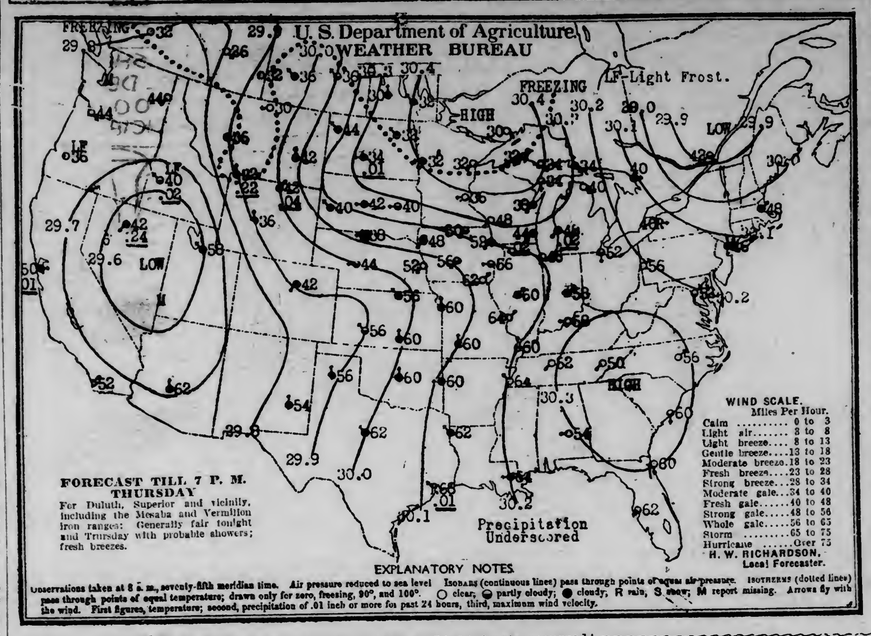
Stop Falling Hair and Itching Scalp.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it; then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need) apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy, every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it.



COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Thickness and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of muss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger. Agent, Wirth's drug store, 13 West Superior street.

OFFICIAL MAP OF THE WEATHER

FORECAST TILL 7 P. M. THURSDAY

For Duluth, Superior and vicinity, including the Mesaba and Vermilion iron ranges: Generally fair tonight and Thursday with probable showers; fresh breezes.

EXPLANATORY NOTES

Observations taken at 8 a. m., seventy-fifth meridian time. Air pressure reduced to sea level. ISOBARS (continuous lines) pass through points of equal air pressure. ISOTHERMS (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 90°, and 100°. ○ clear, ◒ partly cloudy, ● cloudy, R rain, S snow, M report missing. Arrows fly with the wind. First figures, temperature; second, precipitation of .01 inch or more for past 24 hours, third, maximum wind velocity.

FAIR

The latest prediction is for the much-desired fair weather. The day has started out well, and it is also said that the temperature will rise still further.

Rain fell at intervals a year ago today. The sun rose this morning at 5:07 and will set this evening at 7:36, giving thirteen hours and fifty-nine minutes of sunshine, four minutes more than yesterday.

Mr. Richardson makes the following comment on weather conditions:

"Light rains fell during Tuesday or last night over California, Nevada, Idaho, Wyoming, Central North Dakota, Southern Wisconsin, Southwestern Michigan, Western New York and Southeastern Texas. Colder weather prevails over Minnesota, South Dakota and Nebraska, but elsewhere the temperature has risen generally. Mild weather is the rule in Central and Southern states. Light frosts occurred last night in Idaho and Southwestern Oregon."

General Forecasts.

Chicago, April 22.—Forecasts for the twenty-four hours ending at 7 p. m. Thursday:

Illinois—Unsettled weather tonight and Thursday; probably showers.

Wisconsin—Generally fair tonight and Thursday; cooler tonight, with frost.

Minnesota—Generally fair in east; unsettled in west portion tonight and Thursday, with probably showers; warmer in west portion.

North Dakota—Unsettled tonight and Thursday; probably showers; warmer in east and central portions tonight.

South Dakota—Unsettled weather tonight and Thursday, probably showers; warmer tonight.

Montana—Unsettled weather tonight and Thursday, probably showers; warmer in northeast portion tonight.

Lower Michigan—Generally fair tonight and Thursday.

Upper Michigan—Fair tonight and Thursday; slightly warmer Thursday in west portion.

FILL ELY POSITIONS.

New Mayor and Council Hand Out Various Good Things.

Ely, Minn., April 22.—(Special to The Herald.)—Mayor John Harri and the new council met last night for the first time, and the following appointments were made and confirmed:

City clerk and clerk of the municipal court, Iver Wisted, Jr., salary $135 per month; city engineer, Charles A. Nutter, $160 per month; superintendent of water and light plant and city electrician, William Mitchell, $125 per month; assistant city clerk, Miss Elizabeth Western, $65 per month; street commissioner, Nick Aijala, $80 per month; janitor at the city hall, Anton Wolutz, $75 per month; legal adviser, A. J. Thomas, $65 per month; chief of police, Elias La Beau, $100 per month.

Five applications were made for the position of street commissioner and two desired to be janitor at the city hall.

To Work Eight Hours.

Workmen employed by the city on the streets will work on the basis of an eight-hour day and will receive $2.50 per day.

The following are the standing committees:

Finance—Aldermen Knutson, White and Somero.

Street, sewer and sidewalk—Preshern, Hegfors and White.

Purchasing—Somero, James and Preshiren.

Light and water—James, Somero and Hegfors.

Building and grounds — Hegfors, James and Knutson.

Fire department—White, Knutson and Preshiren.

Acting mayor—Alderman Knutson.

Board of health—Dr. O. W. Parker and Aldermen Somero and James.

FINANCIAL REPORT DATE.

To Be Presented to Hibbing Council at First Monthly Meeting.

Hibbing, Minn., April 22.—(Special to The Herald.)—From now on a report of the financial condition of the village will be submitted at the first meeting in each month, as the council has instructed the recorder to see that such a report was made out and read.

The appointment of the various council committees will not be made until next week, according to Mayor Power.

A complaint was made by the officials of the town of Stuntz to the council at their meeting last evening relative to the smokestack on the Mesaba steam laundry, which the officials claim is a nuisance.

REAPPOINT JOHNSON.

Former Virginia City Engineer Again Lands Job.

Virginia, Minn., April 22.—(Special to The Herald.)—The city council last night solved the deadlock over city engineer that followed the refusal of E. A. Anderson to serve, by finally agreeing upon and reappointing Edward F. Johnson, who will receive $200 per month. The deadlock over street commissioner was also broken, C. Christopherson being reappointed at a salary of $115 per month. The housing ordinance was discussed but not disposed of, being held open for the present.

EVELETH'S POLICE HEAD RETURNS.

Eveleth, Minn., April 22.—(Special to The Herald.)—Thomas Finnegan is back on the job as chief of police here after a vacation of several weeks spent at Excelsior Springs, Mo. Mr. Finnegan went to the medicinal springs in search of health and he states that the treatment accomplished all that he expected, and that he feels much better.

Frank Fink paid a fine in municipal court for disregarding warnings and driving through the coal yard of the Oliver Iron Mining company at the Spruce mine.

EVELETH SEEKING NEW BALL PLAYERS.

Eveleth, Minn., April 22.—(Special to The Herald.)—Anton Van Buskirk, captain of last year's baseball team, is looking for some good material for this season's squad. Several members of last year's team will be out for their old positions, but several new men will be needed.

The captain has received assurances of financial backing. Salaries will be paid to good outside players and good positions will be secured for them in the city as the team will play only Sunday and occasional evening baseball.

Award Hibbing Contract.

Hibbing, Minn., April 22.—(Special to The Herald.)—The contract for the construction of cement bases for the white way standards was let to the Home Electric company by the water and light board last evening, while the trench work will be done by Gus Linder. The digging of the trenches and the laying of the conduit will be done by the village, the bids covering only the cement work.

MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to flush Kidneys if Back hurts or Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges; urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink. Agent, Wirth's Red Cross Drug Store, 13 West Superior street.

DO NOT SCOLD THE CHILDREN

Nervous mothers, worried from morning till night by the care of children and the duties of the household; nervous children worn out by overstudy, unable to sit still or stand still or to keep their minds concentrated on anything very long, both need Dr. Williams' Pink Pills to build up the blood and strengthen the nerves.

Try a short treatment with these strengthening pills and watch the color return to pale cheeks and lips, see how the worn nerves recover their poise, note how much less irritating the children become and how much less scolding they need. Dr. Williams' Pink Pills are a blessing to nervous people everywhere, men as well as women, because they build up the blood and strengthen the nerves. They lighten the cares of life because they give you new strength to meet them.

Nervousness in children should be corrected at once as it is but a short step to St. Vitus' dance. Give them Dr. Williams' Pink Pills to build up their blood and they will become sturdy, pink-cheeked and rugged.

Dr. Williams' Pink Pills should be kept in the house. Your own druggist can supply you. Write now to the Dr. Williams' Medicine Co., Schenectady, N. Y., for free booklet "Home Treatment of Nervous Disorders."

HOME GARDENING

Special Lectures Will Be Given Virginia Pupils.

Virginia, Minn., April 22.—(Special to The Herald.)—On Friday evening a special illustrated lecture on home gardening will be given for the students and parents at the Roosevelt auditorium, by A. R. Hostetter of Duluth, district agricultural agent.

Saturday afternoon at 2:30 a meeting will be held at the same place for all persons interested in agriculture and gardening. The speakers will be Mr. Hostetter, Prof. Johnsrud, Supt. Dickinson of the Iron Range road demonstration farm, County Agricultural Agent Van Wagenen and Prof. Chapman, poultry expert of the state agricultural college.

TO SELECT SITE.

Hibbing Committee to Find Location for Proposed Joint Building.

Hibbing, Minn., April 22.—(Special to The Herald.)—Definite steps toward securing a site for the new combination district and municipal court and village jail were taken by the council when Mayor Power appointed a committee consisting of Robert Geiselman, H. P. Reed, Rupert Swinnerton, B. J. Burrows and D. D. Haley to report at the first meeting in May as to what land could be procured for that purpose and at what figures it could be obtained.

AURORA YEOMEN HAVE ELECTION.

Aurora, Minn., April 22.—(Special to The Herald.)—Harouff Homestead, No. 4610, Brotherhood of American Yeomen, has elected the following officers; Samuel Abbanat, foreman; Karen Lee, correspondent; Knute Lindberg, master of accounts; Mrs. Alma Mattson, chaplain; Alwin Kuchta, master of ceremonies; Mrs. Christine Bergstrom, lady rowena; Mrs. Marie Flattery, lady rebecca; John Abbanat, overseer; Edna Strolberg, courier; Jack Williams, sentinel; C. L. Beecher, watchman; Louis Champa, guard; Florence Abbanat, musician.

The homestead was named for P. F. Harouff of Two Harbors, who organized the homestead here. The meetings of the lodge will be on the first and third Wednesdays of every month.

COUNTY BOARD INSPECTS ROADS.

Eveleth, Minn., April 22.—(Special to The Herald.)—A committee of three from the board of county commissioners are in this city today inspecting roads and proposed new highways in this vicinity. A committee from the Commercial club met them and George A. Pernam, secretary of the club, is acting as a guide in showing them over the roads.

Mr. Perham is an active booster for roads and knows all of the country near Eveleth.

Gets Big Tie Contract.

Grand Rapids, Minn., April 22.—(Special to The Herald.)—C. M. Erskine of the C. M. Erskine Timber company has contracted with the Great Northern Railway company to store and handle from 100,000 to 150,000 ties at the King spur, about a mile this side of Gunn junction, and a mile and a half east of Grand Rapids. The job will entail peeling as well as storing and loading and will mean employment for thirty men, most of whom will make their home here.

Virginia Girl Buried.

Virginia, Minn., April 22.—(Special to The Herald.)—Alvina C. Larson, aged 15, daughter of Mr. and Mrs. John Larson, died of tuberculosis at the home of her parents, Monday night. She was a pupil in the public schools until her health failed. Miss Larson is survived by three sisters, Misses Augusta and Mabel and Mrs. H. J. Darling, all of Virginia. The funeral was held from the Cleveland Avenue Presbyterian church at 2 p. m. today. Mrs. A. Johnson of Duluth, a guest at the Larson home, remained for the funeral.

Duluthian on Hotel Job.

Eveleth, Minn., April 22.—(Special to The Herald.)—Oscar Aubin, formerly clerk at the Holland and Spalding hotels in Duluth, has taken a position as manager at the Glode hotel in this city. John Glode, proprietor of the hotel, intends to devote his time to his campaign for a county board position.

Eveleth Invites Bids.

Eveleth, Minn., April 22.—(Special to The Herald.)—The board of education has advertised for bids for the construction of a new manual training building near the present high school in this city. Bids are to be opened May 15. The approximate cost of the building is $50,000. Bray & Nystrom of Duluth are the architects.

New Virginia Rabbi.

Virginia, Minn., April 22.—(Special to The Herald.)—Rabbi Joseph Silver of St. Paul will arrive in Virginia Friday to accept the pastorate of the synagogue of Bnai Abraham in this city, and Friday night at 8 o'clock will speak on the subject, "What Is the Main Factor in Bringing Up Our Children?" Rabbi Silver is the first rabbi to be designated to the synagogue of Bnai Abraham, and Virginia Jewish people are preparing to give him a cordial welcome to the city.

Card of Thanks.

We desire to express our thanks to the neighbors and many friends, both in Chisholm and the other range towns, who lent us consolation and help by their words of sympathy and deeds of kindness during the illness and at the time of the death of our beloved daughter and sister, Lillian, and for the many beautiful floral offerings which were received.

MRS. C. F. OLSON AND CHILDREN.

Chisholm, Minn.

NEWS OF THE NORTHWEST

PARK RIVER MAN IS HELD

Former Cashier of North Dakota Bank Is Bound Over.

C. R. Verry Charged With Embezzling $10,000 From Bank

Grafton, N. D., April 22.—(Special to The Herald.)—C. R. Verry, former cashier of the Farmers Security bank of Park River, was bound over to the district court of Walsh county yesterday, charged with the embezzlement of over $10,000 of the bank funds, while he was an official.

Released on Bonds.

Verry's bonds were fixed at $2,000, which were immediately provided. His trial will take place at the term of the district court opening here about the middle of June.

The charge against Verry involves his manner of handling certain note collections, and which he maintained were being cared for by himself, personally, without any reference to the bank.

$31,000 FIRE AT HAWTHORNE, WIS.

General Store, Dwelling and Barn Are Destroyed.

Hawthorne, Wis., April 22.—Fire starting in a barn owned by Conrad Thiede, proprietor of the Hawthorne house, from an unknown cause, about 1:30 yesterday destroyed that building, the general store of the Duluth Log company and H. B. Wilson's home, causing an estimated loss of about $21,000, partly covered by insurance. The Superior fire department sent Capt Lynch with seven men and 1,600 feet of hose with the East end engine, which arrived in time to help the local fire fighters save the Hawthorne house which was on fire and effectually quench the entire conflagration. A bucket brigade, formed as soon as the fire broke out, worked faithfully and was well supplemented by the help from Superior. The fire was under control by 5 p. m. and the Superior department returned home at 6:40 p. m.

Strong Wind Blowing.

A strong southwest wind carried the flames from the burning barn to the store and dwelling. If it had been blowing in the opposite direction the entire town might have been destroyed.

William O'Shaughnessy, local agent for the Omaha road, wired Superior for aid as soon as it developed the local fire-fighting force could not handle the blaze, and the Superior boys came here by special train in quick time.

All excepting the Wilson home were insured.

H. B. Wilson estimates his loss at $10,000. According to A. Peterson, manager of the Duluth Log company's store, which was burned, $18,000 worth of stock was lost in the fire, while the building was valued at $4,000. The barn owned by Conrad Thiede, where the fire started, was valued at $400. Slight damage was done to the Hawthorne home.

STRIKERS ADMIT GUILT.

Several Involved in Copper Country Trouble Plead Guilty.

Houghton, Mich., April 22.—Strike troubles were aired in circuit court yesterday, when the following involved in difficulties during the "late unpleasantness," appeared before Judge O'Brien and pleaded guilty.

John Bacco, charged with intimidation, was given a fine of $15 and $10 in costs, or the alternative of serving thirty day in jail. He took the jail sentence.

John Vodopia, carrying concealed weapons, ten days in jail.

John Mesich, carrying concealed weapons, fifteen days in jail.

Matt Chopp, Frank Silmac and Anton Britich, carrying concealed weapons, sentence suspended on condition that a $10 fine be paid within six months.

Robert Nedson, carrying concealed weapons, allowed to go on probation.

Joe Kline, carrying concealed weapons, sentence suspended.

Peter Wronokiosks, carrying concealed weapons, nolle prossed.

Yalmer Wallio, carrying concealed weapons, sentence suspended.

Isaac Rauhala, carrying concealed weapons, sentence suspended.

Brywolf Slyvola, carrying concealed weapons, sentence suspended.

FIND NO SHORTAGE.

Charges Against North Dakota Elevator Man Are Dropped.

Valley City, N. D., April 22.—After hearing all the evidence in the Sanborn elevator case in which it was charged that E. A. Bisby was short in his accounts to the Farmers' elevator, the case was dismissed Monday. The case grew out of a charge that as manager of the institution the defendant was short several thousand bushels of grain and for a time it looked as though the state might have a case, but a careful auditing of the books by the expert accountant showed conclusively that Mr. Bisby had merely made a couple of slight errors, and when the case was called Judge Moe dismissed it.

PURE SEED MEET.

Northern Pine and Southern Carlton County Meet Planned.

Moose Lake, Minn., April 22.—(Special to The Herald.)—A pure seed convention will be held here on May 1, the district comprising Southern Carlton and Northern Pine county. Prof. Oswald of the University farm and A. J. McGuire of Grand Rapids will be here and discuss pure seeds and their increased production. The farmers in this section have taken a great interest in this work and it is expected that there will be a large attendance. Arrangements have been made for Governor Eberhart to be present and the day is looked forward to by the people of this community with a great deal of anticipation.

COURT TO DECIDE.

Wisconsin Law Requiring Physical Phone Connection Submitted.

La Crosse, Wis., April 22.—The question of determining the constitutionality of the law requiring physical connection of competing toll lines in Wisconsin rests with Judge Stevens of the circuit court, who has promised a decision in June.

After two years of preparation, attorneys presented arguments and briefs to the court and finally closed the case. This is an action brought by the Wisconsin Telephone company against the Wisconsin Railroad company, the La Crosse Telephone company and Frank Winter of this city to test the law, which the Bell interests contend is unconstitutional and confiscatory.

ANXIOUS TO FIGHT.

Minnesota Guardsmen Are Hoping to Get Into Action.

St. Paul, Minn., April 22.—The spirit of 1898 has taken hold of the Minnesota National Guard.

The militiamen are itching to get into the fray, providing war is declared with Mexico. Maj. George K. Shepard said that the guardsmen are eagerly awaiting the final order to prepare for mobilization. While the men in the ranks have shown great anxiety and disappointment that warfare has not been started, the officers have not been behind them in war talk.

"The field equipment of the militia is as good as that of the regular army," said Maj. Sheppard. "In the field the average American guardsman will be just as good a soldier as an enlisted man.

"Every company in St. Paul will be ready to leave for the front when the time comes. The men probably will be mobilized at the state fair grounds, as they were in 1898.

"The peace footing of the National Guard is about 65 to 75 men to each company. In war time this number is raised to 108."

STATE MILITIA "DRY."

No More Canteen at Future Gopher State Encampments.

St. Paul, Minn., April 22.—The Minnesota state militia may go "dry."

The entering wedge has been driven by the anti-beer contingent among the members of the state constabulary, and the canteen, which has been a feature of previous Minnesota National Guard encampments may, as a result, be abolished.

The custom of selling beer will be discontinued this year, when the six battery companies hold their annual encampment at Lake City, June 6 to 16.

It was voted to do away with the canteen because one of the batteries, F, of the University of Minnesota, is composed of college students, and it was thought advisable to set the young men a good example.

DULUTHIAN NAMED.

Mrs. P. L. De Voist Among Delegates to National Charities Conference.

St. Paul, Minn., April 22.—Governor Eberhart has appointed the following delegates to the forty-first annual meeting of the National Conference of Charities and Corrections, at Memphis, Tenn., May 8 to 15.

Mrs. W. J. Sanborn, Mrs. Jacob Wirth, C. C. Stillman, Rev. Father Ryan, Babel Cooper of St Paul; Mrs. J. N. Weir, Winona; J. J. O'Connor and Miss Needham, Minneapolis; Mrs. P. L. De Voist, Duluth, and Mrs. Fannie French Morse, Sauk Center.

FARGO RAISING MONEY.

Balance Needed to Complete Armory; Auditorium Being Sought.

Fargo, N. D., April 22.—(Special to The Herald.)—The armory-auditorium must be completed seems to be the slogan of the business men of this city, who are now endeavoring to raise the balance of the required funds. When first planned it was thought $60,000 would complete the structure and $57,000 was subscribed. It was found that it would require about $85,000 and the members of a special committee are now out endeavoring to raise that amount. The first floor was finished last fall.

HANCOCK MAN GETS JOB.

Ford King Will Build New City Hall at Negaunee, Mich.

Negaunee, Mich., April 22.—Ford E. King of Hancock was awarded the contract for building Negaunee's new city hall by the common council. Mr. King's aggregate bid was $49,192. His general bid was $47,850. For the marble steps and stringers specified in the plan, his bid was $400. He will put in tile floors in the corridors and main part of the council chamber for $942.

Swanson Bros. of Negaunee were awarded the plumbing and heating contract on a total bid of $9,986.30.

MILL CITY BOY KILLED BY AUTO.

Minneapolis, Minn., April 22.—Struck by an automobile while at play on April 8, Lyle Root, 7-year-old son of Earl W. Root, 1424 Vine place, died Monday in Eitel hospital. The car which struck him was driven by Charles E. Peterson, 2713 Pleasant avenue.

Horse Buyer Dies.

St. Paul, Minn., April 22.—William M. DeLancey, 52 years old, for twenty years a horse buyer for Barrett & Zimmerman of St. Paul, dropped dead at Gowrie, Iowa, where he had gone to buy horses for the firm Monday. Mr. DeLancey's home was at Northfield, Minn., where a widow and one brother survive and where the body will be taken for burial.

ELECTION DAY ROW RESULTS IN ARRESTS.

Beach, N. D., April 22.—(Special to The Herald.)—O. T. Osterman, arrested election day, was bound over to the district court. C. W. Elliott, also arrested election day, got a continuance of his examination for thirty days. It is maintained that both defendants were not legal residents of the wards in which they attempted to cast their ballots.

ACCUSED DROWNS HIMSELF IN TUB.

Winona, Minn., April 22.—John Bilicki, 28 years old, filled a large tub with water at the city prison yesterday and laid down in it to commit suicide. Life was extinct when the body was found. Bilicki had been charged with an assault. A blow had made his alleged victim unconscious.

FIGHT OVER FARM CAUSES ARRESTS.

Douglas, N. D., April 22.—(Special to The Herald.)—Charged with endeavoring to retake possession of a farm from which they had been dispossessed through foreclosure proceedings, Matt and William Schomer are under arrest and were taken to the county seat. They mortgaged the land to a Fargo man who sold the claim to a local bank. Under foreclosure the land was sold to Peter Shefveland and the Schomers were forced to give him possession. Later they concluded their original patent from the government was better than the mortgage foreclosure and went back on the farm.

WANT PATRIOTISM TAUGHT IN SCHOOLS.

Fargo, N. D., April 22.—(Special to The Herald.)—Patriotic instruction is demanded for the city schools by the Sons of Veterans who have named a committee to investigate the matter. The members of the organization complain the school children are lacking in proper information concerning patriotic subjects and in the elements of right citizenship.

BIG MOORHEAD MEET.

Red River Development Association to Meet There.

Moorhead, Minn., April 22.—(Special to The Herald.)—A great meeting of the Minnesota Red River Valley Development association is planned here for June 25 and 26. Leslie Welter of this place is the president and in making the arrangements for the meeting he will be assisted by R. W. Richards, E. E. Sharp, M. T. Wum and A. J. Wright. The Commercial club will raise funds for the entertainment of the visitors. It is planned to have special trains from various points in the valley. An immigration movement will be inaugurated at that meeting which is expected to bring additional settlers to the valley this summer and fall.

Benedict, N. D., Elevator Sold.

Benedict, N. D., April 22.—(Special to The Herald.)—Lack of proper management and especially because of extravagance in the operation of the plant led to the Farmers' elevator at this place being sold under foreclosure proceedings. Many farmers in this section lost their subscriptions and are now unable to dispose of their grain except to old line house, for the purpose of fighting which they had organized.

Buffalo Postoffice Blown.

Buffalo, Minn., April 22.—The postoffice safe was blown by burglars yesterday morning and $125 in cash, some drafts and checks were taken. A package of registered mail was left intact.

DAKOTA BRIEFS

Regan, N. D.—E. P. Homan heads the commercial club, the organization of which was just completed. Walter Graham is president and A. V. Marcellus, secretary and treasurer.

Casselton, N. D.—The proposed new county road from Fargo to Casselton is attracting a great deal of attention here because of the differences of opinion over the route.

Grafton, N. D.—Probate fees collected illegally by Walsh county, under a law that recently was declared unconstitutional, will be repaid. Already, the county has paid out $715, and additional claims are expected to bring the total to $1,250.

Grand Forks, N. D.—Grand Forks Elks, Thursday and Friday night of this week, will present their annual minstrel entertainment. Many Elks from throughout the northern part of the state will be in attendance.

Fargo, N. D.—The congregation at St. Mark's church was highly pleased Sunday night with the repetition of the cantata, Christ the Victor, rendered by the St. Mark's choir under the direction of J. F. Richards, chorister.

Beach, N. D.—Willis Wallace, who is making a model dairy farm fifteen miles north of Beach, is going more into the stock raising business.

La Moure, N. D.—La Moure is to have an exclusive postoffice building, which will be erected by the La Moure State bank, and leased to the government for a term of ten years.

Fargo, N. D.—Mrs. Leona M. Thayer died suddenly at a local hotel, April 20, at the age of 47 years. She and her husband, H. W. Thayer, had been in the city for four days. The remains were taken to Mora, Minn., where the family resides. The husband and two sons survive.

Valley City, N. D.—What is intended to be the finest Japanese art collection ever seen in the city is being exhibited all this week by Miss Mary G. Deem, of the art department of the state normal school. Miss Deem is being assisted in the collection by Miss Lura L. Perrine, curator of the museum, and Mrs. Frank White of this city.

Aberdeen, S. D.—John Kobernick, a bachelor farmer, about 50 years old, living northeast of here, was drowned in a creek sometime Saturday night, his body not being found until late Sunday.

WISCONSIN BRIEFS

Ashland—The suit of A. G. Bower against J. B. Mathews & Co. to recover $750 for commissions on land sold out of the Hines tract in Bayfield county was decided in favor of the plaintiff. The jury was out but a short time and returned a verdict giving Bower the full amount of commission he sued for.

Madison — Lieut.-Governor Thomas Morris of La Crosse, candidate for the Republican nomination for United States senator, filed a statement declaring that he had spent $176.86 for his campaign.

Milwaukee—Dr. F. X. Schaeffer, charged with manslaughter, following an alleged criminal operation, was arraigned in municipal court Monday and had bond fixed at $10,000. He was unable to pay it and was remanded to the county jail.

Madison—Smut diseases, which annually cause enormous losses to the grain growers of Wisconsin, can be controlled by treating the seed grain with formaldehyde solution, according to B. D. Leith, college of agriculture, University of Wisconsin.

Janesville—The Rock County Equal Suffrage association in planning a special demonstration for May 2, state suffrage day.

Eau Claire—Andrew P. Berg died April 21 at his home in the town of Drammen, this county; the cause of death being old age. He was 80 years old last August and had lived in the county for forty years, being at one time a resident of this city, where he was well known and highly respected. Four sons survive.

PENINSULA BRIEFS

Hancock — John Drouin of this city is now in Mexican waters with the United States fleet. Mr. Drouin is a brother of Alphonse Drouin of West Hancock and left here about a year ago.

Calumet — The Greek residents of the Copper country celebrated their New Year's Sunday and will observe the entire week with celebrations of various nature. The Copper country Greeks have no church of their own to observe the week with special religious ceremonies, but are celebrating the week as a holiday.

Houghton — The senior class of the Michigan college of mines has just made the annual trip underground to the Calumet & Hecla mine, Conglomerate lode. This is a privilege which the Calumet & Hecla Mining company grants once to each class graduating from the college, usually during the last term of the course.

Calumet — George A. Rule, formerly of Tamarack, now of Detroit, is making quite a name for himself as a baritone singer. Although a singer of more than usual ability while a resident of Calumet, Mr. Rule has advanced rapidly and is a baritone singer in one of the best known and most successful quartets in that city.

Lake Linden —Mrs. Orphe Decorreau, aged 50, a resident of Lake Linden for thirty years, died of heart trouble at the family residence on Hecla street, April 18. Besides the husband, two sons and four daughters survive. The funeral will be held Wednesday morning from St. Joseph's church.

Laurium — The term of Postmaster Vincent Vairo of Laurium expired April 20 and Charles Lowney took hold of the office. No changes in the staff of aides are anticipated. The clerks and carriers Saturday evening presented Mr. Vairo with a gold fountain pen.

Marquette — Health Officer Mani reported the following diseases during the month: Measles 49, deaths 2; tuberculosis 7, deaths 1; typhoid fever 4, deaths 1; pneumonia 3; scarlet fever 2; houses inspected, 18; shops and saloons inspected, 16; houses fumigated, 11; office treatments and examination of charity patients, 18. Complaints received by department: Concerning dairies, 10; garbage and sewage, 8; collection of garbage, 8.

Iron Mountain—J. J. Kirby, who recently resigned as city engineer and superintendent of streets here has gone to San Francisco. Mr. Kirby will have charge of important work in connection with the municipal water system.

Munising—Village President T. B. Wyman announced the following appointments, which were confirmed; Marshal and street commissioner, Fred Fairbrother; village attorney, H. B. Freeman; fire chief, John A. Frifeth; driver fire team, Peter Schilling; pump house employes, Messrs. Steinhoff and Metz; cemetery trustee, Frank G. Farrell; special assessors, G. Sherman Collins, R. W. Nebel, F. J. Baldwin; members board of review, E. F. Drury and Edwin Niness.

Negaunee—John Guest Kero, for the past twenty years a resident of Negaunee, died Sunday evening at his home at the Patch location from pneumonia, which he contracted two weeks ago. Mr. Kero was born in Finland in 1860, and came to Negaunee in 1890.

Stephenson—The special election held for the purpose of bonding the school district for $16,000 to erect a new building here was hard fought. The majority for bonding was twenty-six. Considerable ill feeling was shown during the contest.

Iron Mountain—It is stated that Mayor Cruse will appoint his late opponent, R. L. Hammond, to the office of city attorney and that Dr. Henry A. Newkirk will be named health officer. George J. Eisele and Gilbert V. Carpenter way be named members of the board of public works. Charles Lundgren, the present city marshal, will have a successor.

Marquette —An Austrian lumberjack, who hails from Big Bay, imbibed too feely while on a visit here Saturday, and was picked up by Officer Anderson for being drunk. When searched at the jail it was found that he had in his possession $302 in cash, and two checks amounting to $166, and a gold watch. He was fined $7 and ordered to board the first train for Big Bay.

MINNESOTA BRIEFS

St. Hilaire—C. J. Johnson of Duluth, Mr. and Mrs. Charles Hagglund of Holt, Minn., and Mrs. C. Juhl of Mahnomen were present at the funeral service for the late John Haggiund last week.

International Falls—The remains of Carl Johnson, the woodsman who died at the hospital Saturday, are being held at the Green undertaking establishment and if relatives are not found local Norwegians will probably bury the body.

St. Cloud—Mrs. Theresia Mary Homann, widow of the late John Homann, died at the family home, two miles north of Sauk Rapids, April 19, following an illness of several years, during which time she had been an invalid. She was 83 years of age. Eight children survive.

Stillwater—Frank Campbell of Hugo has been held to answer to the grand jury of the May term of the district court upon his own recognizance. He is accused by William Carpenter and Louis Burkhard of removing a lock from the door of the church of St. John the Baptist at Hugo on Feb. 7 last.

Bemidji—By reason of an alleged injury to his left knee, Wilfred Petrie of this city was awarded a verdict of $1,500 against the Crookston Lumber company in district court at Walker. The injury was sustained by Petrie while unloading a car of logs in this city last July.

Brainerd—T. W. Willis, a well known engineer familiarly called "Dad" Willis, will soon make his home in Brainerd after twenty-four years' absence.

Moorhead—N. I. Johnson Monday made his filing for nomination as county attorney. J. O. Feragen of Hitterdal filed as a non-partisan candidate for judge of probate and will contest with Judge Sharp for the position.

Mankato—Ora Anderson of Eagle Lake, when cited before the district court Saturday to show cause why he had not obeyed the order of the court to provide his divorced wife $15 a month alimony, put up the novel defense that he was too fat to work. He produced a doctor's certificate that he was suffering from fatty degeneration of the heart.

Rochester—Rochester has been selected as the meeting place of the midsummer district convention of the Southern Minnesota Better Development league. A one-day session will be held, probably on Thursday, June 25, although the date has not been definitely determined. It will be made not to conflict with any other conventions that may be held at that time in this section.

Fergus Falls—Nels J. Adamson, a fisherman, was drowned in Lake Clitherall Sunday, six miles southeast of Battle Lake. Mr. Adamson was a divorced man and lived alone about two and a half miles from the point where found. He was about 65 or 70 years of age, and made his living largely by fishing.

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "Fruit Laxative" Cleanses Stomach, Liver and Bowels.

A harmless cure for sick headache, billousness, sour stomach, constipation, indigestion coated tongue, sallowness—take "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels.

A tablespoonful to-night means all constipation poison, waste matter, fermenting food and sour bile gently move out of your system by morning without griping. Please don't think of California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children because this delicious fruit laxative can not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Your only difficulty may be in getting the genuine, so ask your druggist for a 50 cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." This city has many counterfeit "fig syrups," so watch out.

By BRUCE

"H.L." we exclaimed, "what is the best color, the proper color, if you will, for the eye of the ring sharp shooter?"

William, who has lived long and traveled far, ruminated, scratched, the two processes being more or less combined, and then slowly answered:

"Coal black, old scout; the blacker the better; them are the kind."

While talking with Mike Gibbons last night this remark came back to us. Michael is a walking contradiction of this theory of William's.

The Gibbons person had an eye of mild and gleeful blue. His eye is full and large and benign. Perhaps that is one of the reasons why ninety-nine people out of every hundred would never in the world take the champion welterweight and contender for the middleweight crown as a prize fighter at all.

And yet this slender and rather dapper young man is one of the very greatest of all the sharp shooters in all the world of fistiania.

You know or may not that the moving target is the hardest to hit. You might have noticed that most of the trick shooters of the stage do not attempt that kind of work. The gunners of the United States navy do, however.

The sharp shooter of the ring is the boy who has to aim at the moving target. A clever boxer is one of the most difficult objects in the world to hit. Try it and see! The real boxer, the artist, is not open one second in sixty—the real boxer.

Therefore the sharp shooting eye of the real boxer must be alert and penetrating. Look at the eyes of the older of the Gibbons boys and you can't help being impressed with the fact that he reads you through and through and is particularly alert for surface indications. No move escapes the eye of Michael.

Bill says he prefers the black orb—that dark impenetrable eye, that focuses to one shining point of concentration.

Anne Held used to sing of all kinds of eyes, and perhaps she was right. Whether the mild and benign blue eye is according to a certain ring Hoyle, we know not; but the fact remains that one Mike Gibbons, lithe, slender, wide of forehead, with those rather mild blue eyes of his, is one of the greatest of all shooters, one of the most accurate, and one of the quickest on the trigger of any we have produced since the days of Gans and Corbett.

Turning to Bill, we might be disposed to say, "Now what do you know about that?"

* * *

Word From the Dook.

THAT deliciously original and unique baseball character has taken pencil in hand and scribbled some words to this column. From the carefully planned sentences and well executed phrases of the Dook it is learned that First Baseman Meyers has jumped the team and has left for parts unknown. A man named Marks has also parted company with the select squad that is at Fort Wayne.

"I guess these two were afraid of the swell work that has been done by McGuff," says the I. O. "Shortstop Wolfe is another one of the recruits that looks pretty nifty. Catcher Young is another of the boys that I am keeping my eye on. Outfielder Phillips and Pitcher Bailey are also coming along well.

"Just say for me that I am not worrying about the club and believe that the White Sox will be up in the race from the very start of the season. I have some good youngsters and am going to have a real baseball team."

* * *

There Are the Rumors.

THE Rumor Brothers, Whisper and Interrogation, were abroad yesterday, and before the lapse of the busy promenade some of the ones along the main stem of the city are wondering if Joe Mandot and P. Lawrence Brown are to be the principals of the next fistic offering that is to be served up to the fans.

To us this would be one of the most tempting ring morsels that the Abrams bays could place upon the fistic menu card.

Mandot is a boy who has figured in some of the large ring contests of the last few years. He is a wonderfully clever boxer, a flashy ring figure and is classed among the real good boys of the lightweight division.

There are a lot of the fans around here who would like to see whether Brown had an off evening when he met Tillman. One of the very best methods to determine this end would be to match the little French Baker boy with the lad from the range districts.

* * *

Jess and Charley.

JUDGING from the news dispatches that blow this way, there are imminent doings in the wrestling relations of large and open-faced Jess Westergaard, one of the most popular and one of the best wrestlers of the world, and Charley Cutler, the pride of Chicago.

This should be one of the realest matches that has been wrestled during the last few years. Cutler comes near to being the best heavyweight this country has produced outside of Frank Alvin Gotch, and a lot of us are of the opinion that Westergaard is about the best, taking the measure of Gotch and casting it out of reach of the argument.

The very best way to get an opinion of a wrestler is to go around the wrestling circles and ask the opinion of some of the veterans. The opinion held of Westergaard is of the very highest. He is game, enduring and knows how to wrestle. The contest in which Jess is opposed by an athlete of the class of Cutler should be one of the best matches of the past years.

* * *

Boosting the League.

EVERYONE interested in the success of amateur baseball in this the dearest of cities should peel the figurative coat and place the figurative shoulder to the wheel.

One of the greatest of all sports is the old game of baseball. Out of the glowing ranks of the amateurs come the greatest of the professional players. But outside of that fact is the other fact that it is one of the greatest and most healthful sports for the growing boy and also one of the cleanest sports. Most of the professional sports of the day are tainted, we are loath to admit—all with the exception of baseball, which game down through the reaches of the ages has held aloft a proud head.

The Duluth Amateur Baseball league has the proper principle and it is up to the managers and those interested in baseball to make it successful along the lines of the Cleveland league, which has produced some of the fastest amateur teams and players of the United States.

WIZARD HOPPE STARS IN 14.1 BALK LINE.

New York, April 22. — Willie Hoppe, the world's champion at 18.1 and 18.2 balk line billiards, demonstrated last night that he has also mastered the intricacies of 14.1 balk line. He defeated Ora Morningstar of Pittsburg, 400 to 66, in the world's championship tournament here, winning in thirteen innings. His best run was 134, and his average of 30 10-13 is the best so far in the tourney. Koji Yamada, the Japanese, won from George Sutton, 400 to 380, in twenty-one innings.

STILL LOYAL TO NAPS.

Cleveland Blames Crippling of Players for Poor Showing.

Cleveland, Ohio, April 22.—The 1914 baseball season was scheduled to be opened here today with the Chicago White Sox, leaders of the race, opposing the tail-end Cleveland team.

Scott was the announced pitcher for Chicago and the Cleveland choice lay between Mitchell and Blanding.

Notwithstanding the club's disastrous Western trip, which resulted in seven games lost and none won, the advance sale indicated a large crowd for the opening. The followers of the team blame the crippling of Pitcher Steen, Shortstop Chapman, Catcher O'Neill, Outfielder Leibold and Manager Birmingham for its poor showing.

There was a possibility that Leibold would be able to resume his place in center field today.

NATIONAL LEAGUE

Darkness Stops Game.

St. Louis, Mo., April 22.—Darkness stopped the game between St. Louis and Chicago here last night when the score was tied at 2 to 2 at the end of the fifteenth inning. St. Louis scored one run and tied the score in the ninth. Thereafter neither side was able to score. Score:

	R.	H.	E.
Chi... 000000200000000	2	8	5
St. L. 100000001000000	2	8	2

Batteries—Lavender, Cheney and Archer; Hageman, Steele, Sallee, Robinson and Snyder, Wingo. Umpires—Orth and Byron.

Braves 4; Phillies 3.

Philadelphia, Pa., April 22.—Boston broke its losing streak here yesterday when three singles, an error by Lobert in the ninth inning gave the visitors the deciding tally of a 4 to 3 score over Philadelphia. Score:

	R.	H.	E.
Boston 110100001	4	12	1
Philadelphia ...010002000	3	10	3

Batteries—Crutcher and Gowdy, Whaling; Oeschger and Burns, Dooin. Umpires—Quigley and Eason.

Giants 6; Dodgers 0.

Brooklyn, N. Y., April 22.—Demaree with his slow delivery had the Brooklyns at his mercy yesterday and they lost their first championship game of the season, sustaining a 6 to 0 shutout. It was the New Yorks' first victory. Score:

	R.	H.	E.
New York 010002012	6	9	1
Brooklyn 000000000	0	4	2

Batteries—Demaree and McLean; Reulbach, Allen and Miller. Umpires—Klem and Hart.

Pirates 5; Reds 2.

Cincinnati, Ohio, April 22.—Pittsburg outbatted Cincinnati and easily won the last game of the series yesterday, 5 to 2. Yingling started well for the locals, striking out three men in the first inning, but after that appeared easy for the visitors. He was taken out at the end of the sixth inning. Douglas, a recruit from the Northwestern league, who succeeded Yingling, did not allow a hit in the three innings he pitched, and only one man reached a base on him. Score:

	R.	H.	E.
Pittsburg 003002000	5	11	1
Cincinnati 000010010	2	9	0

Batteries—McQuillen and Gibson; Yingling, Douglas and Clark, Gonzales. Umpires—Rigler and Emslie.

AMERICAN LEAGUE

Yankees 3; Senators 2.

New York, April 22.—Through spectacular ninth and tenth inning rallies, the New York Americans evened their series with Washington by winning the second game in the tenth inning, 3 to 2 yesterday. Boehling, the visitors' young left-hander, pitched great ball until the ninth inning, when, with the use of pinch hitters, and base runners, Chance's men tied the score. Score:

	R.	H.	E.
Washington ..0010100000—2	5	2	
New York ...0000000021—3	10	4	

Batteries—Boehling and Henry; Fisher, Cole and Sweeney. Umpires—Egan and Evans.

Tigers 7; Naps 4.

Detroit, Mich., April 22.—The hitting of Cobb and Crawford yesterday was responsible for Cleveland's seventh consecutive defeat, Detroit winning, 7 to 4. For the third time this season, the Tigers had to come up from behind to capture the game. John Williams, the Hawaiian pitcher, made his major league debut for Detroit. Score:

	R.	H.	E.
Cleveland 400000000	4	9	3
Detroit 000041120x	7	12	1

Batteries—Hagerman, Cullop and Billings; J. Williams, Covaleskie and Stanage. Umpires—Hildebrands and O'Loughlin.

Score Is Tied.

Boston, Mass., April 22.—Boston and Philadelphia battled for thirteen innings yesterday without decision, darkness ending the game with the score 1 to 1. Leonard and Shawkey both pitched brilliantly. Score:

	R.	H.	E.
Phil 000001000000	1	7	1
Boston ...001000000000	1	6	2

Batteries—Shawkey and Schang; Leonard and Thomas, Cady. Umpires—Connolly and Dineen.

White Sox 6; Browns 1.

Chicago, April 22.—The Chicago Americans played a batting game yesterday and won 6 to 1. Score:

	R.	H.	E.
St. Louis 010000000	1	6	0
Chicago 04101000x	6	11	2

Batteries—Mitchell and Crossin; Benz and Schalk. Umpires—Chill and Sheridan.

AMERICAN ASSN.

Brewers 3; Millers 0.

Milwaukee, Wis., April 22.—Joe Hovlik, who shut out St. Paul last week with one hit, whitewashed Minneapolis, 3 to 0, yesterday and allowed but three scattered hits. Only twenty-eight men faced him, four of the five men to reach first base being cut down trying to steal. Hovlik also won his own game with a timely single in the seventh. In this inning, with Beall on third and two out, Hughes was purposely passed for Hovlik. Hughes immediately stole second and scored with Beall when Hovlik cracked a clean single to left. Score:

	R.	H.	E.
Milwaukee 00000021x	3	7	0
Minneapolis 000000000	0	3	3

Batteries—Hovlik and Hughes; Gilligan and Rondeau. Umpires—O'Brien and Westervelt.

Saints 13; Kaws 4.

Kansas City, Mo., April 22.—St. Paul slaughtered two of Kansas City's pitchers here yesterday and won the game, 13 to 4. Allison, who worked the first three innings for Kansas City, was touched for eight hits, which, coupled with an error by Titus, netted seven runs. Daniels, who succeeded Allison, could not stop St. Paul's batting. Brief of Kansas City secured a home run in his first trip to the plate. Score:

	R.	H.	E.
St. Paul 124112020	13	17	0
Kansas City ..010200100	4	11	3

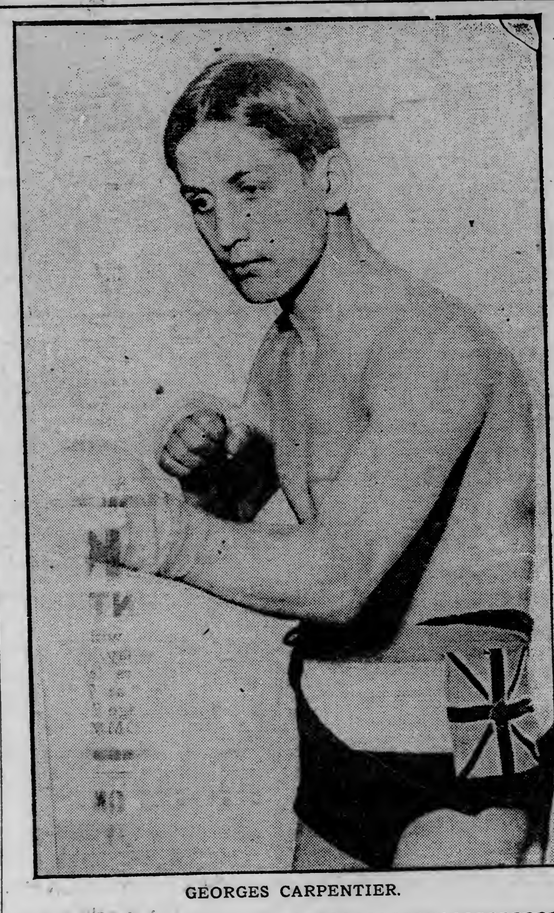
Batteries—Karger and Glenn; Allison, Daniels and Moore. Umpires—Owens and Connolly.

Hoosiers 4; Senators 0.

Indianapolis, Ind., April 22.—Schardt was a puzzle to Columbus yesterday and Indianapolis made a clean sweep of the series, winning the final game, 4 to 0. Score:

	R.	H.	E.
Columbus 000000000	0	6	2
Indianapolis ...10100200x	4	9	1

Batteries—Scheneberg, Tipple and Smith; Schardt and Livingstone. Umpires—Johnstone and Irwin.



Cleveland 5; Colonels 4.

Louisville, Ky., April 22.—Cleveland defeated Louisville yesterday, 5 to 4, in the last game of the series. Benn kept the hits down in the pinches. Score:

	R.	H.	E.
Louisville 000011002	4	7	2
Cleveland 000101201	5	11	5

Batteries—Loudermilk, Baker and Severeid; Benn and Devogt. Umpires—Murray and Johnson.

IDOL OF PARIS DESIRES A MEETING WITH GIBBONS

GEORGES CARPENTIER.

FEDERAL LEAGUE

Indianapolis 6; Kansas City 2.

Kansas City, Mo., April 22.—Mosley pitched for Indianapolis and held Kansas City to four hits yesterday, enabling his team to win, 6 to 2. Henning, for Kansas City, pitched good ball except in the second and third innings. A telegram yesterday afternoon from President Madison stated he would arrive today with George H. Johnson, the Indian secured from Cincinnati. Score:

	R.	H.	E.
Indianapolis ...023000100	6	13	0
Kansas City ...001000001	2	4	1

Batteries—Mosley and Texter; Henning and Brown. Umpires—Kane and Cusack.

St. Louis 4; Tinkers 3.

St. Louis, Mo., April 22.—The St. Louis Federals won their second game from the Chicago Federals, 4 to 3, yesterday, making it the fifth consecutive victory out of six games played thus far. Score:

	R.	H.	E.
Chicago 001100100	3	5	3
St. Louis 000012001	4	5	1

Batteries—Brennan and Wilson; Willett and Hartley. Umpires—Anderson and Cross.

Orioles 3; Brooklyn 2.

Baltimore, Md., April 22.—Pitcher Jack Quinn won Baltimore's game with Brooklyn yesterday by hitting the ball over the score board in left center field in the tenth inning. Score:

	R.	H.	E.
Baltimore 001000011	3	6	0
Brooklyn 000000200	2	7	2

Batteries—Quinn and Jacklitsch; Lafitte and Owens.

FANS SHOULD HAND IN NAME FOR SPECIAL.

If the fans of the Head of the Lakes and the ranges desire a special train to the Wolgast-Tillman fight, it is up to them to hand in their names at Blackwood's today.

There are many fans going down, but to date there have not been many names handed in. In order to secure the special it is necessary to assure the railroad officials of 100 passengers.

If the special runs, it will leave here late in the afternoon and will leave Hudson immediately after the fight, getting the Head of the Lakes fans home early Friday morning.

McCue and Mandot Draw.

Racine, Wis., April 22.—Matty McCue and Joe Mandot fought ten fast rounds to a draw here last night. It was McCue's first tryout against championship timber and he showed up to advantage.

TESREAU IS SUED.

New York, April 22.—Tesreau, the New York pitcher, was served on the ball field yesterday with papers in a breach of promise suit.

CUBS AT HOME.

First Appearance at Chicago Since Start for Training Camp.

Chicago, April 22.—The Chicago National league baseball team arrived today for its first home appearance of the season this afternoon against Cincinnati. The Cubs had not been in Chicago since they departed for their spring training camp more than two months ago.

Lieutenant Governor Barratt O'Hara will start the game by throwing the first ball. A band and trio of vocalists will furnish music between innings. Chairman Herrmann of the national baseball commission and a score of Cincinnati rooters arrived this morning to attend the game.

GIBBONS EARNS A SHADE OVER KNOCKOUT BROWN

St. Paul Boxer Proves Too Clever and Shifty for the Swinging Greek; Kid Billings Shades Salvatore, and Burke Stops Truman.

BY BRUCE.

Mr. George Contas, known in circles of swatfest as "Knockout" Brown, and who is a native of a country that produced such a well-known and fearless battler as Achilles, was last night outpointed, if not outfought, by Thomas Gibbons, a bright and particularly agile young man of St. Paul.

Knockout Brown has a wallop, because his manager says so. As the Contas gentleman only hit his opponent once or twice, and these blows were glancing ones for the most part, it is really difficult to say just hard the Greek gentleman can wallop.

The Knockout Brown one should have learned the telegraph business. He telegraphs all of his blows in a manner that warrants one in believing that he is naturally adapted to the business.

Young Mr. Gibbons earned the shade in the second, fourth, sixth and seventh rounds. The first, third, fifth, eighth and ninth were even, with Brown having the advantage in the closing chapter of the engagement.

Possessing a clever left, Gibbons used his port wing throughout the setto, seldom resorting to his right. When Thomas did use his right he shot it up with short jolts that jarred the Greek. But it was a left-handed fight as far as Gibbons was concerned, and though the dark countenance of the Greek was cut and slightly bruised the son of Attica was strong at the finish and was not in the least hurt, as injuries are figured by those used to sitting in judgment at ring debates.

There is little doubt that Mr. Brown would hurt one if he were to hit one, but the point is that he seldom landed. He would swing with his left, turn part way around and then come back with the right, but Gibbons was seldom there.

The Greek tried to use a shift, but it was so apparent just what he was going to essay, that Gibbons was either away or stepped inside of the full-armed swing.

Gibbons Is Clever.

Like the great and only Mike Gibbons, the younger member of the house of Gibbons possesses cleverness in abundance. Whether he can hit is another question. Through the ten rounds of the mill the Greek landed scarcely a fair blow, for the reason that Gibbons was generally going with any blow that landed, and this was seldom.

In and out, using his long left and seldom stepping in with his weight behind the lead, Gibbons took mighty few chances, and as a result there were few mixes. The bout was pretty all the way through and gave the fans a fine exhibition of the manly art.

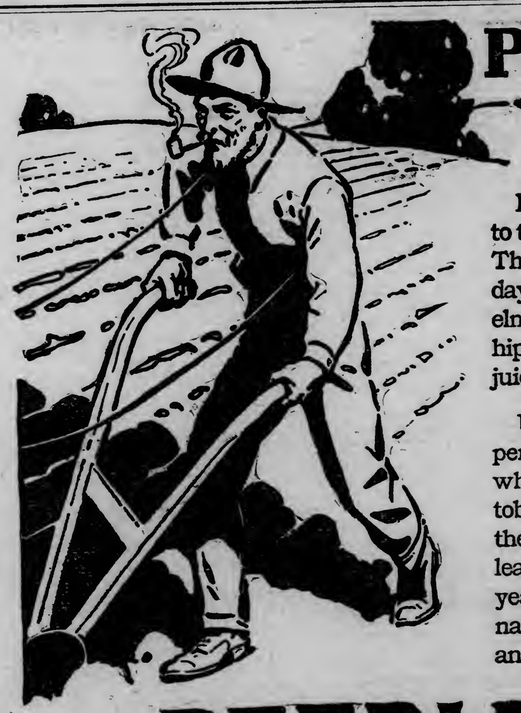
It remained for Kid Billings, the comer from the suburban district of suburban Superior, and Johnny Salvatore of St. Paul to put up one dashing bout that bristled with action from beginning to end.

To the surprise of even the staunch friends of Kid Billings he shaded the sturdy battler from St. Paul. Salvatore was the stronger of the two for most of the distance and carried the milling, especially during the first part of the bout, but after the stage fright of the youngster vanished he went in and more than held his own with a boy who in the point of ring experience held every advantage over the comparative novice of the other side of the bay.

In-fighting was the forte of the St. Paul Dutchman. Twice during the early part of the bout Johnny had Kid Billings worried by body fighting. Later the kid grew stronger and more aggressive and gained greater confidence, and from the sixth round he came on and piled up sufficient clean points to entitle him to the shade.

Salvatore used his right while in a clinch, which strictly interpreted, might be considered against the rules and spirit of the Wisconsin law. At open fighting Billings used a pretty short right that frequently caught Johnny coming in. Let it be said that the Durable Dutchman seemed not to feel the smashes that landed, for durability and stamina are his chief assets.

Cheering for Burke.



Little Johnny Burke of somewhere in England and more recently of St. Paul, who drops his H's with quaint and delightful consistency, stopped Walter Truman in the first round.

It is a long established precedent and thoroughly honorable practice for boxers to size each other up in the opening session, in the calm and deliberate manner of Gen. Coxey and army searching for work. But in the Burke-Truman battle all these little preliminaries were dispensed with and all frills and furbelows were tossed to the discard as useless and unnecessary.

Little Burke, with his pert nose distended with the scent of battle, and his short and stubby chin stuck out, sailed into the rather lanky Mr. Truman at the bell, and the large Mr. Ryan, who acted in the dual role of referee and towel swinger, was forced to call a halt to proceedings before the bell tolled off the first round.

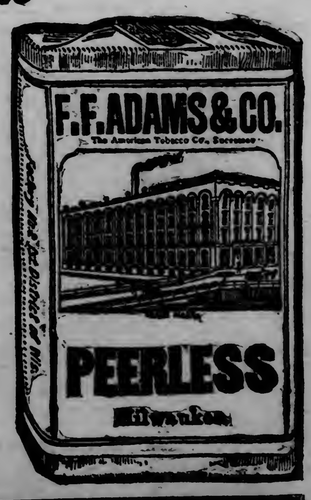
Mr. Burke is the possessor of a right cross that is a thing of beauty. He shoots it in a manner delightful to the man who is an ardent admirer of art, whether it be behind a paint brush or a boxing glove.

Little Burke sailed in with lefts and

Plow Right Ahead

Don't stop until you've got to that package of PEERLESS. Then you can turn out a good day's work as slick as slippery elm. Keep PEERLESS in your hip pocket, ready for a sweet juicy chew or a cool, rich smoke.

Use it from sun-up till supper's settled; you'll appreciate what a wonderful, old honest tobacco PEERLESS is—just the pure Southern Kentucky leaf, aged from three to five years so as to bring out all its natural *richness, sweetness* and *mellowness.*



PEERLESS

Long Cut Tobacco

is the ideal tobacco for vigorous men; because over fifty years ago it was especially designed to please the robust, sturdy man who wants a natural tobacco with "body" enough to it to *satisfy* his real tobacco-*hunger.*

PEERLESS is a *man's size* tobacco—not a "flat," insipid mixture. It has plenty of *snap* and *taste,* and is as satisfying as a *square meal.*

Give PEERLESS a *week's trial* as general, all-round helper. The longer you smoke and chew PEERLESS, the *better* you'll like it. You'll end up by keeping PEERLESS on the job all year 'round. Sold everywhere in 5c packages.

Other sizes, 10c, 20c and 40c Packages, and 45c Tin Pails.

THE AMERICAN TOBACCO COMPANY

rights, and getting his taller opponent off his balance, shot the short right over. Mr. Truman reeled to the ropes and then received another. Down he went to the canvas and remained for the count of nine. When the somewhat mussed Truman arose he got another and then another, and at this juncture was in no condition to continue, and Mr. Ryan, acting in the role of mediator, stopped the proceeding.

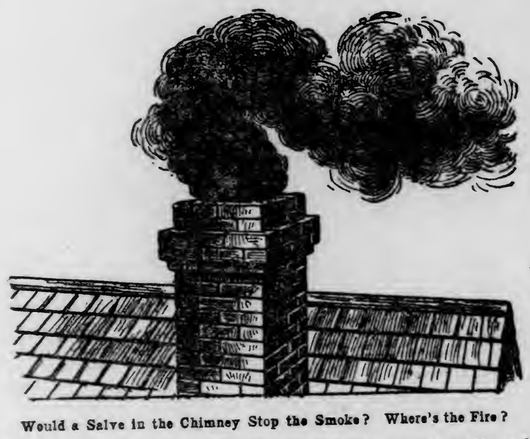
Kid Paul, the coming featherweight champion of the world, received a temporary setback in the person of Battling Olson.

Young Olson has patience, a seeming disregard for any blows that come his way, and is also possessed of a general knowledge that the object of the game is to hit the other fellow, no matter how this is accomplished.

This Olson youngster is durable, like others of his race, and swinging an overhand right frequently caught Kid Paul on his classical countenance, which act sent the large crowd into paroxysms of delight.

The bout was more or less even, but as Kid Paul had trained with the idea of winning and then advancing further on the trail of the championship he declares will be his when J. Kilbane gets through being chesty, the result must be considered in the light of a setback.

But K. Paul is a philosopher, and being used to setbacks, will doubtless follow the advice of the scholarly adage, and try again.



One large crowd was on hand, and as is the custom upon such occasions, it was largely made up of Duluth citizens.

REWARD OFFERED FOR "BORROWERS" OF AUTOS.

Members of the Duluth Automobile club are greatly vexed because of the frequency with which their machines have been injured by persons tampering with them or by joy-riders who have stolen them for several hours or a night. In an effort to put a stop to the practice the directors of the club have offered a standing reward of $10 for information leading to the arrest and conviction of such persons.

Why Catarrh Bothers Your Nose and Throat

Living, Vital Facts For All Who Suffer With Any Form of Catarrhal Infection and Chronic Colds

Would a Salve in the Chimney Stop the Smoke? Where's the Fire?

Everywhere people marvel at the results of S. S. S. in overcoming catarrh. To the mind not versed in the wonders of the human body it will be interesting to understand why this most famous of all blood purifiers, S. S. S., has such a remarkable influence in clearing the nose, throat and air passages of catarrh.

Your nose, as are all the important cavities of the body, is lined with mucous membrane. So is your throat and even your skin covering is a modified form of mucous tissue. Now, all toxins or blood impurities are eliminated by way of this membrane. Stomach distress, intestinal blonting, liver engorgement, kidney weakness, sore lungs and bronchial tubes that produce cough; an irritated bladder, diarrhoea and other bowel troubles all may be and often are inflamed and involved in a general state of disturbance which is recognized as catarrh. And it is through their mucous membranes that the impurities or hypersecretions of mucus must be eliminated. In such an event it is often necessary that these secretions be prepared by some internal medicinal influence or action before they can be effectually gotten rid of. And if not so prepared for elimination they are usually deposited in some vital parts and remain as points of concentration for various forms of chronic inflammation.

Now, the action of S. S. S. is to so prepare the various blood impurities for elimination that they are readily seized upon by the mucous membranes for expulsion. And if S. S. S. were more generally used as a membraneous catalytic there would be no catarrh.

But along comes LaGrippe and "Bad Colds," all the mucous membranes are involved and the nose, throat, bronchial tubes and lungs being closely allied in the process of burning up impurities these become clogged hence catarrh, bronchitis, chronic sore throat, pneumonia, cough, and then the general involvement of the stomach, kidneys, bladder and all other organs of the body.

Cough remedies, nose greases and throat tablets, gargles, sprays and so on are merely salves on a smoking chimney.

The fire may be down in the stomach or in the liver or in the kidneys.

The very fact that the nose is constantly pouring out or is plugged up with mucus must convince anyone that the supply is coming from many deeper sources.

This explains why local treatment for catarrh is and always has been a total failure. The action must be internal and there are ingredients in S. S. S. which not only eliminate catarrhal impurities by way of the mucous membranes but they put a stop to their seeking the point of concentration in the nose and other parts of the breathing apparatus.

These facts have been demonstrated for many years and are known to thousands in every community where catarrh abounds. But people cannot seem to shake off the notion that the nose is the seat of trouble. The nose is merely an outlet, the same as the bladder, bowels, skin and the expulsive process of the lungs.

Urge yourself to get a bottle of S. S. S. today. Get your mucous linings in order and not only will catarrh disappear, but away goes a myriad of other symptoms that usually distress nine people out of ten. S. S. S. is guaranteed absolutely vegetable, no acids, no minerals, no poisonous substance of any kind—just a remarkable blending of the most potent, most searching, most powerful blood purifiers known to man.

Do not permit anyone to substitute anything else for S. S. S.

Send for an interesting book on catarrh.

There are many people so discouraged over blood impurities that they will find a new lease of life by consulting freely our Medical Department. Write to The Swift Specific Co., 605 Swift Bldg., Atlanta, Ga.

NEW LEAGUE UNDER WAY FOR DULUTH AND RANGES

Meeting Called for Sunday When Plans Will Be Made.

Sam Meniece Will Act as Manager of the Local Aggregation.

There will be a meeting of range and Duluth baseball men at the St. Louis hotel on Sunday, when it is expected that the organization of the Northern Minnesota Baseball league, comprising six teams, will be formed.

Hibbing, Virginia, International Falls, Cloquet, Proctor and Duluth are the teams that are expected to join the league, according to the Duluth representatives, and it is expected that the organization will develop into the strongest semi-professional baseball association that has ever been formed in this part of the Northwest.

The plans call for Saturday and Sunday baseball here and in the other towns of the league. Games will be played here only when the White Sox are on the road, according to the announcement of John J. Desmond, one of the prime movers in the organizing of the league.

It is planned to secure the best players of the Northwest for the various teams, and it is expected that fast ball will be played. Sam Meniece, one of the most popular players that ever wore a Duluth uniform, is announced as manager of the Duluth Athletics, as the local team will be called.

All of the games of the new league are to be played at Desmond park, which is to be improved and a new grand stand built. It has been arranged for boat service to take care of the fans, and the diamond and outfield will be leveled and made hard.

Range Fans Enthusiastic.

According to the advices that have been received from the range, the fans up there are enthusiastic over the prospect of the new league.

James Leighty, a former Duluth player, is to represent Chisholm; W. C. Hasselbarth will represent International Falls; Judge Brady or Booth will be down at the meeting to look after the interests of Hibbing; J. Hayes will represent Cloquet, and Art O'Dea and Judge Hughes it is reported will be present to represent the interests of Virginia.

As there are some of the fastest semi professional players in the Northwest on the ranges and at Cloquet and Proctor, there is little fear but that the class of baseball of the various teams will be very fast.

Sam Meniece is also confident that he can line up a fast and hustling aggregation for Duluth.

If the new league gets away well, and there is small cause to doubt but that it will, the fans of the range towns will see some fast baseball.

GIBBONS HAS BIG OFFER

Paris Promoters Want Mike to Fight George Carpentier.

In The Herald office yesterday Eddie Reddy, manager of Mike and Tommy Gibbons, announced that he was in receipt of a $10,000 guarantee to take Mike over to gay and effervescent Paris and fight Georges Carpentier.

"I don't know whether we will go," said Reddy. "You see we want to get all the money we can in this country at the present time. Boxing is not looking any too good and we want to get ours while the getting is good. Fighting will be good for years in France, according to the way the game is going at the present time, and we will hold off for a while, in all probability.

"Carpentier is big and he is good, but we have not the least fear of the outcome of a meeting with the idol of Paris. You know Mike has it on most of those fellows. Take it from me—I'm telling you the honest truth—Mike made McGoorty look like a fool from the boxing standpoint. The best proof of the fact that Mike was a sick man the night of the meeting in the garden, is that he weighed 147 pounds when his one great object was to build up instead of taking off any weight.

"One thing more, don't let any one tell you that Mike Gibbons is not a welterweight. He can make the limit for any of them and holds the undisputed title to that class. The only argument is whether Mike is the middleweight champion also."

According to lively Mr. Reddy, Mike is waiting for the California promoters to make him a guarantee. It is understood that the fans upon the Pacific coast want to see the St. Paul marvel in action, but Reddy is in the state of those from the well-known state of Missouri—he wants to be shown.

"Tom McCarey tells me we will draw $25,000 in Los Angeles," continued the St. Paul impressario. "I wrote back and said that he knew California much better than humble me and that I would therefore not dispute his word—but—I merely asked him to make us a guarantee of $5,000 for our end. Today I have not received word that Uncle Tom will come through with the said guarantee."

Mike and Reddy will leave Friday for New York city. The Phantom takes on Johnny Howard and Reddy yesterday exhibited a letter from McGuigan, the Philadelphia matchmaker, in which he stated that Mike was tackling a real live one.

McGuigan is not the least interested financially in the match and his letter can be construed simply in the light of advice.

EXPEDITION TO THE ANTARCTIC

Weddell Sea Selected as Starting Point By Austrian Party.

Vienna, April 22.—Plans of the Austrian Antarctic expedition to be led by Dr. Felix Koenig have not been changed in any particular on account of the controversy with the British explorer, Sir Ernest Shackleton, as to which of them is entitled to priority in the attempt to explore the Weddell Sea region of the Antarctic. Both have selected the Weddell sea as their starting point. Neither is inclined to give way, but, at any rate, the Austrian will start first.

Dr. Koenig with about thirty men is expected to start from Trieste about the beginning of July. The party should arrive at their base of operations in the Weddell sea in January next and they expect to spend at least two years in that region. The total cost of the expedition will amount to about $160,000, most of which has been already subscribed.

The expedition will sail from Trieste in the Oesterreich, formerly the Deutschland, the ship used by the last German Antarctic expedition, under Filchner in 1911-12. They will reach Buenos Aires in about two months, carefully avoiding a too long sojourn in the tropics on account of the 150 Esquimaux dogs which will be taken. Some two weeks later they will arrive in South Georgia and remain there several weeks, making arrangements for establishing a large coal depot and also for keeping in wireless communication with the outside world via South America during their stay in the Antarctic ice.

Under the most favorable conditions the expedition cannot leave South Georgia before the beginning of December as the Weddell sea is not free from ice before then. It is hoped that with skillful navigation and ordinarily good luck the Oesterreich will reach open water in the south before the end of January. Arriving there, the next task will be to select suitable permanent quarters as a starting point for the sledge journeys inland.

The main object and scope of the expedition is the exploration of the hitherto entirely unknown Antarctic regions in the Weddell sea and for this purpose three separate sledge expeditions have been projected.

ELKS ATTENTION!

Big night with Superior Herd Thursday, April 23rd. Chartered cars leave Third avenue west at 7:30 p. m. Report at lodge 7:15 sharp.

COMMITTEE.

CONGRESS ON CHILD WELFARE

Leaders From Many Parts of the World Are Assembling.

Washington, April 22.—From many parts of the world leaders in the movement for the improved condition of children, assemble tonight for the opening session of the Third International Congress on Child Welfare, held under the auspices of the National Conference of Mothers and Parent-Teacher associations. The congress will continue daily until next Monday.

During these six days the relation of the child to the home, the church, the school and the state will be considered from every viewpoint. The program has been divided into four general sections to correspond to each of the four institutions which have a bearing upon the the welfare of the child. Thursday and Friday are to be devoted to the home; Saturday to the school; Sunday to the church and Monday to the state.

At the opening session tonight Mrs. Frederic Schoff of Philadelphia, president of the National Congress will preside. Delegates from nine national organizations, and delegates named by governors of the various states and those from foreign countries will present their greetings to the international congress.

The nine national organizations represented are the National Kindergarten association, the International Kindergarten union, the National Sunshine society, the Children of the American Revolution, the National Civic Federation, the Woman's Christian Temperance Union, the General Federation of Women's Clubs, the American Association for the Prevention of Infant Mortality and the Daughters of the American Revolution.

Mrs. Wilson will tender a reception at the White House Thursday afternoon at 2 o'clock to the delegates and members. This is the only purely social function included in the program.

SERIOUS FLOODS IN SOUTHERN ARIZONA

Secretary Lane Gets Word of Colorado River on Rampage.

Washington, April 22.—Advices to Secretary Lane indicated that the Colorado river, in Southern Arizona, is far above flood stage and that its banks have been washed out for 1,000 feet. The rushing waters are a menace to the entire Imperial valley region, with its valuable property and great irrigation works. The Imperial valley canal already has been damaged and the situation is reported as growing more serious hourly.

Secretary Lane called a conference of officers of the reclamation service, who hurriedly considered emergency measures.

"NEEDY ARE NOT CROOKS"

Remedial Loan Association Has Yet to Suffer a Loss.

Every Borrower to Date Has Been Eager to Repay.

The Duluth Remedial Loan association is gradually convincing the skeptical that it is not a "loan shark," and that it is lending money to worthy people who need it at a rate of interest which is calculated only to pay expenses of the office and the manager. From the time of the organization last May until last December the association did not pay expenses, but, beginning in December and ever since, the association is showing a small profit.

"We have yet to suffer a loss," said Manager H. A. Berg at the association office in the First National Bank building the other day. "I suppose I should knock wood when I say that, for nobody knows when we will; but so far we have found everybody to whom we have loaned money anxious to repay and get out of debt. This is good indication that the needy are, as a rule, not crooks."

During its first year of existence, the association has helped many worthy cases, and kept many people from the clutches of the so-called "loan sharks." Mr. Berg cited one case, which, he says, is only one in many.

This was the case of a woman in Duluth who is compelled to take washing to provide necessities for herself and family. Her husband is an invalid to the extent that he cannot work in winter, but can do odd jubs in summer. That makes the winter, with its additional fuel and heavy clothing expense a pretty hard drag on this woman. She was "up against it" during the last winter and borrowed $50 from one of the several loan agents who are doing business in Duluth.

The terms were to be that she was to make twelve payments of $7.15 each, or $85.80 cents in all, for the use of the $50. She made five payments, but the sixth was not paid until it was a few days overdue. She sent her daughter to the office of the company with the payment, and the manager talked pretty harshly to the girl for the delay. This made the girl's mother angry and she went to the office to see the manager, and made a strong objection to such talk. As she went down in the elevator she met another man engaged in the same business, to whom she told what had happened. He told her that he would give her enough money to settle with the other, so she took him up. She borrowed $40 to pay the balance of $35.75 still due the first concern. To repay this $40 and interest she was to make eleven payments of $5.90 each, or $64.90 in all. After she had made several payments, somebody told her about the Remedial Loan association, and she went there to see if she could be helped. At their advice she went to the loan man and offered to settle the remaining $24.90 for $10, although the advice had been to offer $9. She was refused, and informed the loan man that in a little while somebody else would come and offer him $9. He then asked if she would give $11, and she did. She saved $18.60 by the transaction. Had she gone through with it, she would have paid a total interest of $60.65 for the use of the original $50. The association loaned her $75 for a year, for which the interest will be $9.16.

Mr. Berg says that there are many such instances, and that this is by no means one of the most glaring.

Since the association made its first loan on May 13, 1913, up to the close of business March 31, 1914, it had made 356 loans, averaging $70.20, a total of $24,990. Of that sum $11,273.96 has been repaid.

RUMORS HIT BY REDFIELD

Secretary of Commerce Scores "Lurid Laxity of Unlicensed Mentality."

Talks to Columbus, Ohio, Chamber of Commerce.

Columbus, Ohio, April 22.—Half truths, exaggerations and misshapen statements which he said stalk over the land affecting the progress of economic changes to new conditions were denounced here by Secretary of Commerce Redfield in a speech before the Columbus Chamber of Commerce. The secretary appealed for assistance to prevent the continued use of "mental gymnastics" on the part of those who control public criticism, and predicted that if the truth was restored to general use the commerce of the country would soon find its pathway free for farther and larger progress.

"Men have seriously written," he said, "and spoken about certain suggested measures relating to business as administration bills when the measures were not administration bills at all, never took final form and have long ceased to exist. The facts were plain, yet how much bother they made and what a dust was kicked up about them.

Steel Importation Reports.

"We hear, for example of the importations of iron and steel on both our coasts, and that 40,000,000 pounds of iron and steel of various kinds have been imported into the United States in the eight months ending with February. This sounds portentous, but the unsaid part of it is that this is about 23,000 net tons, or at the rate for the entire period of less than half aday's work for the United States Steel corporation."

After he had cited a number of similar accounts, Mr. Redfield continued:

"I have a sort of remote, personal interest in two of the silly yarns that are floating about in that particular form of journalism which we may call the 'purlieus' of the press. One is that particular falsehood which has, as Milton would say, been 'by merit raised to its bad eminence,' about investigating every factory that reduced its wages or shut down. It has been amusing to communicate, now and then, with certain publications repeating those statements editorially, to ask them where it was born and who were its parents. The answers remind me of the Irishman's remark, in an old war ballad—'Spachless silence all around in every sound I hear!'

"Frenzied Fancy."

"Then there has been that fine piece of frenzied fancy to the effect Secretary Redfield had asked for an appropriation of $400,000 to find out what was the matter with the United States. This has reached the dignity of being the basis of a pamphlet, but save in the lurid laxity of unlicensed mentality it has no existence in fact. One wonders what the result would be if some of those who conduct public criticism were suddenly to become candid. Just think what a shock would occur if the whole truth were to be made clear!

"If we want the cost of living to be reduced," the secretary concluded, "it can only be done by having prices fall and this takes time to settle in many relations of our commerce. Meanwhile in a cordial spirit of sympathy, let us remove every local cause for disturbance that our commerce may soon find its pathway free for farther and larger progress."

198 COUNTS IN SIEGEL TRUE BILL

Grand Jury That Probed Bank Business Reports.

Boston, April 22.—A secret indictment of 198 counts was returned by the grand jury that has had before it the affairs of the Henry Siegel company of Boston. The jury has investigated the alleged action of the company in receiving deposits in its savings bank department in the two days prior to the institution of bankruptcy proceedings.

FREE ADVICE ABOUT YOUR

Manly Strength

TO MY READER:

Whether or not you lack an abundant vigor, here is a free offer which will surely interest you, and through which you may easily profit from now on to the end of a ripe, healthy, advanced age. I have compiled a little treatise for self help (book form) which I am pleased to send absolutely free by mail in a perfectly plain, sealed envelope to any man anywhere who writes for it. Over a million copies have already been thus distributed to those who wrote for them from all over the world. There is no obligation whatsoever involved in this offer, nothing which you are required to buy nothing which you are required to pay for in any way, either now or in the future. It is just simply an out-and-out free proposal. In this little book of 72 pages, 8,000 words and 30 half-tone photo reproductions, I have endeavored to give a stright-forward talk to men, young and elderly, single and married, a concise compendium for self-reference, a perfectly plain discourse upon those important, personal matters relating to vital strength of men, the preservation of virility, its possible self restoration, its legitimate uses and its wanton abuses. Every man should be in posaession of this book. One part describes a little druglees mechanical vitalizer which I make and distribute, but whether or not you wish to use one of these vitalizers is for you yourself to determine.

IT'S THE MAN, NOT THE CLOTHES THAT COUNTS.

However, aside from anything it contains in reference to my vitalizer, the book should be read by all for its own real worth. Therefore, please use free coupon below.

SANDEN, Author.

Reader, the whole world is today alive to the importance of a better general understanding of sex hygiene. The much discussed science of eugenics is teaching the great mass of people that strong, healthy, rugged parents beget equally sturdy children.

Manhood, no matter where or in what condition of life we find it, is the single power that most fascinates both men and women. The one who radiates this manly influence, this result of a vigorous, sturdy nerve force, is the one who forges to the front, while weaker people stand aside.

It is my opinion that any man may hope for a complete restoration of his manhood and vigor if he but make up his mind that he WILL conquer himself. Of course I do not include the man of extreme old age of the one who is incurably diseased. Lost vitality is not, according to my theory, an organic disease. It is more a sick condition of the mind and the nerves and a lowered state of the whole body, all combined. My free book tells you just what you may do.

The vitalizer referred to above, which I make and distribute, is a little appliance that men who desire to restore lost vitality are using everywhere today. The book in one part fully describes it. You wear this vitalizer comfortably upon your body all night. It weighs but a few ounces, and pours a great, gentle stream of FORCE or VITALITY into your blood, your nerves, your muscles and organs while you sleep. Men say it drives away the nervous weakness or pain in small of back often by one application; that vigor is restored in 60 to 90 days. With special attachments my vitalizer is also used for rheumatism, kidney, liver, stomach, bladder disorders, etc. It is a wonderful little appliance and generates and sends out a marvelous force. Possibly you might want to use one of these vitalizers in your own case. If so, you can, after reading the free book, let me know and I will make a special proposition whereby you may have one. If you live in or near this city I should be most pleased to have you call and get a free demonstration of the vitalizer, otherwise write. Hours 9 to 6; Sundays, 10 to 1.

LET ME SEND YOU THIS BOOK FREE.

If you live too far to call, or if you cannot call, please fill in the coupon below and send it to me. You will receive free, sealed, by return mail, my 72-page illustrated book, containing 8,000 words, a complete compendium of useful information for men, young or elderly, single or married, who want the truth about the subject of vital strength, its preservation, its possible self-restoration and its legitimate uses and wanton abuses. You get it all, free.

B. S. Sanden Co., 1261 Broadway, New York, N. Y.:

FARM LOANS AUTHORIZED

National Banks in Reserve System Are Given Privilege.

Official Announcement Is Made at Treasury Department.

Washington, April 22.—Official announcement was made at the treasury department today that national banks, members of the new financial system, legally may make loans secured by real estate, provided such real estate security is improved farm land, unincumbered by a prior lien.

The property must be located in the same Federal reserve district as the bank making the loan; the loan must not exceed 50 per cent of the actual value of the property, and for a period not longer than five years.

Another provision made is that the total of such loans by any bank must not exceed one-third of its deposits and must in no case exceed one-fourth of the capital and surplus of the bank.

CITY BRIEFS

Fire in Shoe Store.

The fire department was called out shortly after 9 o'clock this morning to put out a blaze at the Wear-U-Well shoe store, 304 East Superior street. The fire started when one of the operators of a shoe machine accidentally ignited some oil. The belting on the machine was burned, the only damage done by the blaze.

Finds Watch; Owner Missing.

If James Gady, who formerly lived at the Palmer house, will communicate with Detective Terry, he will recover a watch. On April 17, 1911, Gady lost a watch and he reported the loss to Detective Terry, who has been searching for the timepiece ever since. The latter has just found the watch, but is now unable to locate Gady.

Left Estate Here.

Mary C. Mogler, who died March 8 at San Bernardino, Cal., aged 39, left real and personal property in Duluth valued at $9,000, according to a petition for letters of administration on her estate which was filed today by her father, William A. Mogler of Redlands, Cal., with the clerk of the probate court. She left no will and her only heirs are a father and mother residing at Redlands, Cal.

Parcel Post Business.

During the first fifteen days of April there were 26,684 parcel post packages mailed at the local postoffice and 25,670 packages received here. The aggregate weight of the mail was 56,909 pounds.

Living Models, 2:30 P. M. Tomorrow.

Free tickets, Gray's corset department.

Eye Injured; Gets $382.50.

District Judge Dancer yesterday afternoon in district court approved a settlement under the workingmen's compensation act between Joze Suzman, miner, and the Oliver Iron Mining company for $382.50. Suzman on March 3 last was the victim of an accident at the Pioneer mine which made his left eye partially blind.

Fine Pictures and Frames.

Decker's, cor 2nd Ave. W. & First St.

Brings Suit on Policy.

Austin Lathers, trustee in bankruptcy for J. L. Prosser, began suit in district court yesterday afternoon against the Detroit Fire & Marine insurance company to recover $1,000 alleged to be due on a policy. It is claimed by the plaintiff that the policy was issued to Prosser on a grocery stock at 110-112 East Michigan street and that the place was destroyed by fire Jan. 6, 1913.

Wide Awake Club Meeting

At Gray's April silk sale. Join and be happy.

Will Preach at Bethany.

Rev. V. H. Hegstrom, Ph. D., of Chicago will preach this evening in Bethany Swedish Lutheran church, Twenty-third avenue west and Third street. Dr. Hegstrom, who took his degree of doctor of philosophy at Yale, is one of the ablest Swedish preachers in Chicago, it is claimed. Tomorrow afternoon he will address the foreign missionary society of the church at the church parlors.

Admits Assault.

Abraham Wiener, 47 years old, was arrested this morning on a charge of assault preferred against him by Louis Jeanette, who claims Wiener struck him Sunday afternoon. Wiener pleaded guilty and the court continued sentence until 10 o'clock tomorrow morning. Wiener is a merchant at 709 West Superior street.

The Foresters

Will give a dance at the Foresters' hall, Fourth avenue west and First street, Friday evening, April 24.

Foreclosure Begun.

Foreclosure proceedings on a mortgage covering land in section 20, 63-16, executed by Charles Harkee to John E. Comeford in December, 1908; to secure payments on promissory notes for $1,500, were instituted today in district court by Fred Hamilton, to whom the mortgage and notes were assigned by Comeford. It is claimed by the plaintiff that the money due on the notes has never been paid.

Elephant Tag on Each Orange

is a guarantee of the highest quality.

Orders Fund Divided.

District Judge Bert Fesler yesterday afternoon signed an order directing final distribution of a fund of $1,828.89 collected from the Oliver Iron Mining company on a death claim by John Sterle, administrator of the estate of Joe Mosne. The court allows the deduction of reasonable attorney fees and other expenses and orders the balance paid the widow, Anne Mosne and her daughter, the heirs.

59c for Many 85c to $1.25 Silks

At Gray's annual April silk sale. Opens tomorrow, ends Saturday night. Get there first.

Funeral Not Arranged.

The funeral of Fred Block, who dropped dead at the upper terminal of the incline a few days ago, will not be held until his son, Ernest, and daughter, Anna, arrive from St. Regis, Mont., where they reside. They will be here tomorrow evening. Mr. Block, who was 66 years of age, is survived by his widow and five children. Besides the two mentioned, a daughter, Mrs. Sidney Anderson, lives in Spokane, Wash., and two sons, Henry and Theodore, reside in Denver, Colo. Mr. Block is also survived by a sister, Mrs. Axe of Duluth.

We Will Bond You.

Fulford, How & Co., 609 Alworth building.

Y. M. C. A. Banquet.

The first annual banquet of the educational department of the Y. M. C. A. to be held in Duluth, will occur Friday night of this week at 6:30 in the assembly hall. The board of directors of the association are to be present and hear reports of the season's work and plans for new activities for another year. New departmental committees will be announced at this time.

Take an Early Car Tomorrow.

Gray's April silk sale opens at 8 a. m.

Concert For St. John's Church.

A concert will be given for the benefit of St. John's Episcopal church this evening at 8:15 o'clock at the Lakeside Masonic hall.

Would Make Park.

A petition was filed with the city clerk yesterday asking the city to vacate a strip of property lying south of the boulevard between Fifth and Sixth avenues west, and to park it. The property owners say that this could be done at small expense.

Chicken Thieves Busy.

Joe Polinski of 211 East Eleventh street reported to police headquarters at 5:45 o'clock this morning that some burglars had broken into his chicken coop during the night and stolen several chickens. Patrolman Youngstrom was detailed to investigate the report, but failed to locate the burglars or the missing fowls.

Hotel Clerks Meet.

The Duluth Hotel Clerks' association held its regular monthly meeting last night. Only routine business was taken up. President C. A. Hine, chief clerk at the Spalding, presided.

Life Savers on Duty.

Capt. M. A. McLennan of the local life saving station, received orders from Washington today to have his crew go into commission at 12 o'clock tonight. All has been in readiness at the station on Park point for weeks. The crew went into commission last year on April 21, so this year is two days behind.

Walking Across Continent.

F. E. Wettberg arrived in the city on foot last night, on his way to San Francisco, where he expects to arrive in July. He will start for Omaha tomorrow morning. He left New York Jan. 15, on his way for a tramp across the continent. He left Gotham with only 1 cent in his pocket. On his way he sells postcards with which to raise the necessary funds for existence. He wears shoes but no socks, thus emulating Sockless Jerry Simpson, one time national statesman from Kansas. He is 57 years old.

Case in Jury's Hands.

The municipal court jury in the case against Silevert Harnum, who is charged by the state with reckless driving, went out shortly before noon and up to 2:30 o'clock had not yet returned a verdict. Harum was arrested March 30 on a charge of driving recklessly the previous day, when he ran his machine onto the sidewalk near Lake avenue and First street.

OFFICIALS DISAPPEAR

Admiral Fletcher Is Unable to Serve Notice on Mexicans.

Food Supplies Low at Vera Cruz—No Wires to Capital.

Vera Cruz, April 22.—Rear Admiral Fletcher's note, sent to the local officials, calling on them to co-operate with the American officers in the restoration of order by calling off sharpshooters and by resuming the local government, could not be delivered.

Julio Franco, the Mexican chosen by American Consul Canada to be the bearer of the warning, was unable to communicate with any of the Federal officials, and only the mayor, Roberto Diaz, could be located.

When Franco tried to communicate with the mayor he was refused admittance by Mexican guards stationed at the door. Franco then crawled over the roof of an adjoining building into the court of the Diaz residence, but he did not succeed in seeing the mayor.

Yelled Message to Mayor.

Senor Diaz refused to leave his bedroom, so Consul Canada's messenger shouted the contents of Rear Admiral Fletcher's note to the mayor, and personally appealed to him to yield in order to save the city from bombardment by the American ships, reminding him of the grave risk to the families of Mexicans and others in the city.

Communication between the port of Vera Cruz and the Federal capital has been severed entirely. All the telegraph and the cable wires are down, and E. F. Hundley, superintendent of terminals, has been unable to ascertain what has become of the trains that were on their way here yesterday from Mexico City when the landing of American marines and bluejackets took place. At the terminal here are eight locomotives and several hundred cars.

Non-Combatants Go Hungry.

The unwillingness of storekeepers to keep their places open, and the almost total depletion of supplies at the restaurants where the proprietors continue doing business, made it difficult for anyone except the fighting forces to obtain anything to eat.

LENIENT WITH HUSBAND.

Sam Mickelson Is Released Upon Promise to "Make Good."

When Sam Mickelson, indicted by the January grand jury on a charge of having deserted his wife and two small children, yesterday afternoon assured Judge Dancer and Mason M. Forbes, first assistant county attorney that he would never give the authorities any further cause for complaint, the court, on the motion of Mr. Forbes, dismissed the case against him.

Mickelson was arrested last month in a lumber camp in the northern part of the county on a charge of having abandoned his family last December. After he had been lodged in jail, the heart of his wife, Sophia Mickelson, softened, and she asked the county attorney to drop the proceedings. Mickelson was given to understand, however, that in case he did not support his family in the future he would be extended no further leniency.

SURGEONS FIND JAWBONE IN TUMOR

Duluth physicians and surgeons are discussing today a phenomenon, disclosed by an operation at St. Mary's hospital.

A human jawbone with eight teeth was found yesterday afternoon in a tumor taken from Mrs. Frank Brozinski by Dr. A. A. Deslauriers and four local physicians, who assisted him in performing the operation.

Mrs. Brozinski is the wife of Frank Brozinski, clerk for the French & Bassett company, and was last week taken to the hospital for an operation. She had been troubled with the growth for several years and recently Dr. Deslauriers decided to operate.

The physician and his assistants operated successfully and removed a tumor nearly as large as a football. Upon examining it the physicians felt something hard in the center and discovered a human jawwith eight teeth.

Physicians say that in certain tumors teeth, hair and even nails grow, but that the cases are most unusual.

DENIES CARRANZA MAY JOIN HUERTA

Constitutionalist Agent at Washington Flatly Contradicts Reports.

Washington, April 22. — Reports reaching official circles that Gen. Carranza and Gen. Villa are about to join with the Huerta government to make common cause against the United States caused Juan F. Urquidi, secretary in charge of the Mexican Constitutionalist agency here, to issue this statement:

"Sensational reports that Gen. Carranza and certain of his subordinates had assumed an attitude hostile to the policy of President Wilson are absolutely without foundation."

PREDICTS REVOLT IN UNITED STATES

Washington, April 22.—"I very much fear that the keen desire of young Americans to go to war before many months will find satisfaction. Unless society finds some way of putting down the troubles between capital and labor, Mexico will not be the only country torn by internal warfare."

This startling statement was made in the senate today by Senator Thomas, discussing the clash between strikers and militia at Ludlow, Colo.

In the house, Chairman Foster of the house committee which investigated the Colorado coal strike told of conditions in the strike zone.

Representative Seldomridge of Colorado said that conditions were intolerable.

BASES DIVORCE ACTION ON CRUELTY

Facing Husband's Creditors Proves Displeasing to Mrs. Sunderlin.

Inventing excuses to satisfy bill collectors while her husband was hiding from them never exactly suited the fancy of Rachael Sunderlin, wife of Bert E. Sunderlin. And when she tired of facing her husband's creditors and shielding him, and told him so, he flew into a rage, pulled her hair and kicked her, she alleges. After one of their quarrels he deserted.

In district court yesterday afternoon Mrs. Sunderlin filed suit for divorce on the grounds of desertion and cruelty, making the foregoing charges against her husband. They were married at Menomonie, Wis., Aug. 15, 1905, and are parents of one child, of whom the mother is asking custody. She alleges that he deserted her on March 1, 1912. The woman asks for reasonable allimony.

HEINO CASE TO CLOSE.

Defense Is Now Ready With Its Final Evidence.

Closing arguments in the Heino adultery case which has been on trial for the last few days in Judge Dancer's division of the district court, will be made either late this afternoon or tomorrow morning.

The defense closed its case yesterday afternoon after several witnesses had been called to establish the alibi of the defendant, John R. Heino, as to a number of the telephone conversations alleged to have taken place between himself and Mrs. Gran. The witnesses who testified to an alibi were Judge W. L. Windom of the municipal court; John Monahan, Joseph Sellwood and Dr. G. J. Findley. Rebuttal evidence on the part of the state was received this morning. It is expected that the defense will put in its last evidence this afternoon.

BULLS ARE IN CONTROL

Wheat Advances on War News With Short Covering Near Close.

Flaxseed Sells Lower on Some Liquidation and Quiet Demand.

Duluth Board of Trade, April 22.—Wheat bulged sharply at the close on short covering. May wheat closed 1⅞c up; July 1⅝c up and September 1⅞c up at 89⅞c. May durum closed 1⅜c up and July 1½c up.

Oats closed 1¼c up at 36⅞c on the track and at 36⅝c for to arrive. Rye closed unchanged at 54½@56½c. Barley closed at from 43@57c.

At Winnipeg May oats closed at 35⅞@35½c bid, and July at 36¼c bid.

Puts on Minneapolis July wheat closed at 91¾c bid and calls at 93⅛@93¼c bid.

Wheat turned strong today on the Mexican developments and rumors of dry weather in some sections of the winter crop territory. That influenced short covering at the opening from many quarters.

Seaboard exporters reported having worked some business yesterday, and advices from Winnipeg were to the effect that considerable grain had been sold for export, both wheat and oats.

Duluth operators noted a marked improvement in the Eastern inquiry today and some durum was advised to have been sold for foreign shipment.

There were complaints of heavy wind storms in Western Kansas, it being estimated that that section of the state has lost 10 per cent of its acreage through that cause. Some news of dry weather also came to hand from Illinois districts.

Liverpool was higher on apprehensions of continued light shipments from Argentina and Australia. It is regarded as significant by traders over there that shipments from those countries last week were 6,000,000 bu short of last year's figures.

Primary receipts were at a low ebb today, being 234,000 bu less than a year ago. Inspections at Duluth were only nine cars against seventy last year. Loading out of grain at the elevators is proceeding, and during the last three days stocks have been reduced 1,254,000 bu, bringing them down to 20,575,000 bu of all grains.

Receipts at Minneapolis were 77 cars, compared with 150 last year, and stocks there showed a decrease of 800,000 bu in the four adys.

May wheat opened ⅛c up at 91c and gained ⅞c more during the first three hours' trading. July opened ¼c up at 92¼c and advanced 1c more. The September option opened ½c up at 88½c and gained ¾c more. May durum opened unchanged at 86½c and gained 1c on good inquiry. The July option opened unchanged at 88c and advanced 1¼c. The Chicago and Minneapolis markets bulged in about the same proportion.

Flaxseed Sells Off.

Liquidation appeared in flaxseed and on light inquiry prices sold off substantially. Crushers were apparently not in the market to any extent, and again showed a disposition to hold back for concessions. As a result closing prices were ⅝@1c off.

There was no vim in the foreign markets, and they all showed weakness. Antwerp closed ⅝c off; Buenos Aires ½c off and London unchanged.

May flax opened unchanged at $1.56 and closed 1c down at $1.55 asked. July opened unchanged at $1.57⅝ and closed ⅝c off at $1.57 asked and the September option closed ⅞c lower at $1.58½ asked.

At Winnipeg, May flax closed at $1.36⅛ bid and July at $1.39⅛ bid.

Cash Sales Wednesday.

Total all grains, 20,475,000 bu; net increase, 1,254,000 bu.

* * *

The steamer Vulcan is loading flaxseed at the Great Northern elevator today. She will take on 100,000 bu. The marine situation continues weak with considerable tonnage offering. The rate remains at 1¼c for steamers to arrive.

* * *

Price current says: "Based on conditions existing April 15 and 17, our correspondents report the condition of winter wheat as compared with two weeks ago as follows: Ohio, 98; Wisconsin, 100; Kansas, 95; Illinois, 101; Missouri, 98; Oklahoma, 101; Michigan, 83; Iowa, 97; Indiana, 100; Nebraska, 92. There is no abandonment of winter wheat acreage except in South Dakota where the abandonment is large, while Nebraska and Kansas report an average of about 4 per cent. Country elevator stocks of corn and oats are both reported light."

* * *

The International institute of agriculture at Rome has issued a preliminary statement of the Argentine crops as follows: Wheat, 117,181,000 bu against 198,414,000 bu last year; oats, 59,981,000 bu against 115,879,000 bu last year. On the basis of this estimate of wheat it is thought the export surplus would not be much over 60,000,000 to 65,000,000 bu.

* * *

The following was received by Baker from C. S. Lewis at Minneapolis: "The grain markets all opened sharply higher, with very little for sale even on this advance. The Mexican situation, coupled with reports of dry weather in the Southwest has caused a very much unsettled situation and upset all calculations of the bears. Foreigners are looking for very small shipments from the Southern hemisphere this coming summer and will undoubtedly be liberal buyers of American wheats. At the moment the position of wheat appears very strong. Nevertheless, we do not look for it to run very far in either direction and continue to advise sales on the bulges and purchases on the breaks."

* * *

Broomhall cabled from Liverpool: "Steadier American wheat cables yesterday and firmer Manitoba offers, caused some covering at the opening here and values were ⅛@¼d higher. Following the opening the market was dull with a disposition for speculative profits, but an improved demand from the continent and a better inquiry for Australians helped to hold the market steady. Much aprehension is felt here regarding the light shipments from the Southern hemisphere and India and this is emphasized by the fact that the shipments from this quarter last week were 6,000,000 bu smaller than a year ago. At 1:30 p. m. the market was dull, ⅛@¼d higher.

"Corn opened ¼d higher and later July gained a further ⅛d with undertone steady."

* * *

An Argentine cable said: "Wheat arriving and offered for sale is of low quality, mostly grading 61 pounds to the bushel, and foreign bids for this have been lowered. To consummate sales holders are forced to make concessions in prices."

* * *

The Chicago Inter-Ocean says: "Wheat—Bulls thought they saw evidence of damage in near future from dry weather and bugs and said that wheat should be bought on declines. It was noticeable by those who are most bearish that they refused to believe that there has been any damage to speak of or that there is likely to be enough to warrant a good advance."

* * *

The seaboard reported 80,000 bu Manitoba wheat sold yesterday for export and also a small lot of Canadian oats.

* * *

Parker Paine had the following from Chicago: "Our reports today on winter wheat are generally good. Western Kansas lost about 10 per cent of its acreage through wind storms and it needs rains. Western Nebraska complains of poor outlook on account of dry spell. The Northwestern states report wheat seeding late on account of cold weather and probable smaller acreage. Oats seeding is backward, Texas acreage being off 30 per cent on account of the freezing out of the plant. A reduced acreage is indicated in the Central states."

* * *

There was a good demand for cash wheat at Minneapolis with the millers active buyers of the best grades. Cash No. 1 northern wheat sold there at from 92½c to 94¼c and No. 2 northern at from 90½c to 92c.

MINNEAPOLIS MARKET.

Wheat Is Stronger on News of Mexican Situation.

Minneapolis, Minn., April 22.—News of the Mexican situation gave strength to the wheat market here today. The opening was higher than that of yesterday and prices advanced through the forenoon. Receipts were lighter than a year ago and the cash demand was good.

Wheat—May opened 89⅞@89½c; high, 91⅛@91¼c; low, 89¾c; closed 91@91⅛c bid. July opened 90⅞@91c; high, 92⅝@92¾c; low, 90⅞c; closed 92½c to ½@⅝c.

Cash: No. 1 hard, 95⅞c; No. 1 northern, 93⅛@94⅜c; to arrive, 93¼@94¼c; choice to arrive, 94⅞c; No. 2 northern, 91⅜@92⅝c; to arrive, 91⅝@92⅜c; No. 3 wheat, 88⅛@90⅛c.

Corn—No. 3 yellow, 62½@63c.

Oats—No. 3 white, 36@36½c.

Flax, $1.52@1.55.

The flour trade was reported stronger today. Prices were advanced 5c a hundred pounds in carload lots. Fancy patents, $4.60 in wood; first clears, $3.50 in jute; second clears, $2.75 in jute; shipments, 61,684 bbl.

Barley, 43@58c; rye, 55@57c.

Bran, unchanged.

Shipments of bonded grain—None.

CHICAGO MARKET.

War Talk and Lack of Rain Put Wheat Prices Up.

Chicago, April 22.—Largely on account of war excitement, but also because of the failure of predicted rains, wheat prices today ran up rapidly. The market showed considerable increase of activity as well as a higher range of values. Commission houses were well supplied with buying orders, and there was but little pressure to sell. Opening quotations which were ⅜c to 1⅛c above last night, were followed by a material further gain.

Dry weather reports from Western Kansas and Nebraska helped keep the market firm throughout the session. The close was at an advance of 1½@1⅝c net.

Corn jumped relatively more than wheat. In addition to the bullish news from Mexico, there were reports of torrential rains interfering with the harvesting and movement of the Argentine crop. Prices started ⅝c to 1⅛c higher, and continued to ascend. Smallness of receipts with good sized shipments from primary centers tended to prevent any setback. The close was strong, 1⅝@1⅞c net higher.

Tightening of quotations affected oats with other cereals. The effect, however, on oats was comparatively mild.

Although provisions at the outset felt to some extent the influence of a decline in the hog market, prices afterwards swung entirely into line with the upturn in grain. First sales were unchanged to 10c higher, but later transactions were at an advance all around.

Wheat—No. 2 red, 95@96c; No. 3 red, 93½@94½c; No. 2 hard, 93@93½c; No. 3 hard, 93⅛c; No. 2 northern, 95@96c; No. 3 northern, 93@95½c; No. 2 spring, 95@95½c; No. 3 spring, 93@95c.

Corn—No. 2, 63¾c; No. 2 yellow, 68c; No. 3, 65½c; No. 3 yellow, 66@66½c.

Oats—No. 2 white, 39¾c; No. 3 white, 38¼@38½c; standard, 39c.

Range of prices:

Wheat—	Open.	High.	Low.	Close.

Sheep—Receipts, 60; steady to 15c lower; lambs, $5.75@7.75; wethers, $5.00@6.25; ewes, $4.00@5.35.

ARE STRONG AT THE CLOSE

Stocks Open Weak Owing to Mexican News and Decline.

Most of Losses Are Canceled Later By Buying Movement.

New York, April 22.—The market soon lost its good undertone and during the second hour there was a general showing of weakness with many declines of one to three points. Although the Mexican situation was predominant in influencing sentiment, the market gave no indications of uneasiness.

Operations for foreign account were instrumental in shaping the course of the market. Large selling orders for European account were executed in Canadian Pacific, which broke four points, and in various other stocks. Coalers were weak features. Declines in investment shares, such as Delaware & Hudson, were regarded as indicative of a temporary strained investment position. Bonds irregular.

First changes were small and irregular, the speculative interest in the market seemed to be at low ebb. Government bonds, which on Monday eased off on the prospect of war with Mexico, held steady on the early call today. Declines of American stocks in London were ignored here. During the first half hour the movement was insignificant and no definite tendency appeared.

Desultory selling kept the market under pressure in the afternoon. Announcement of further cuts in steel, copper and oil prices and the hardening tendency of time loans operated against the market. There was liberal selling of New York state and city bonds, some of which were down ½ point. The lessened demand for these issues was due in part to the higher rates for call money.

The market closed strong. Mexican news depressed prices severely in the fore part of the day but later there was a buying movement which canceled losses, except in a few exceptionally weak issues. Liquidation of Canadian Pacific carried it down more than 5 points and there was free selling of Kansas & Texas shares for continental account.

Government bonds which were heavy on Monday, on the prospects of war with Mexico, were unchanged today on the early call. Mexican securities, of which comparatively few are dealt in here, were virtually unchanged. There was a small fractional decline in National Railways of Mexico preferred.

Wall Street's apathetic reception of the Mexican news was largely due to the fact that it had foreseen the beginning of hostilities. The decline of last week was ascribed to the gathering of war clouds.

COPPER SHARES BREAK NEAR CLOSE

Liquidation By Holders Appears in Granby and Butte-Ballaklava.

The market in mining stocks broke in the late trading at Boston today with heavy selling appearing in many issues. A feature was a sharp decline in Butte & Ballaklava to $2. Further liquidation of long holdings appeared in Granby and it sold off $2.50 to a share to a close of $76.

Butte & Superior closed a shade off at $80.12; North Butte 50c off at $25; Shattuck $1 up at $22; Alaska Gold a shade up at $26.25, and Amalgamated Copper at 25c up at $74.12.

In the Duluth curb list, Keating sold at $1.62, and Calumet & Corbin at 28c.

* * *

According to a wire received by Paine, Webber & Co., the International Smelting & Refining company, declared a dividend of 2 per cent, payable May 19.

* * *

Chino produced 5,566,819 pounds of copper in March.

EXPECT HUERTA TO DECLARE IT IS WAR

Washington Officials Are Prepared for Such Action By Mexican.

Washington, April 22.—The reported action of Gen. Huerta in asking the withdrawal of Mr. O'Shaughnessy, the American charge of embassy in Mexico City, and instructing Senor Algara, the Mexican charge of embassy here, to demand his passports, technically would constitute a complete breach of diplomatic relations between the United States government and the de facto government of Gen. Huerta, though whether Secretary Bryan would be willing to regard it as more than the act of an individual and not of the actual government of Mexico, remains to be seen.

There is no precedent for a refusal to accede to the demand for passports nor to fail to withdraw a diplomatic representative on demand of an established government, but the present situation, involving as it does a de facto government which the United States has not recognized, never before has arisen.

Step Toward War.

Such a severence of diplomatic relations, though not necessarily a prelude to war, is one of the steps that must be taken if war is to be formally declared, and it is surmised that Gen. Huerta is now about to resort to that step, regardless of any construction that may be placed upon the existing status of relations between the United States and Mexico by the executive of the former.

If this surmise is well founded, the international relations of Mexico necessarily would be greatly affected, and must be readjusted to suit conditions of actual war, such as those arising from a blockade and the necessity of defining the rights of neutrals within Mexican territory.

It is presumed that Gen. Huerta probably will serve notice upon the powers through the Mexican diplomatic representatives abroad of such a development, in order that they might issue the customary proclamations of neutrality should they care to do so. Such proclamations would have some effect upon American commerce and upon the right of the United States government to secure ships and munitions of war from abroad.

ROUNDABOUT REPORT FROM MEXICO CITY

Strict Censorship By Huerta Is Told of in Dispatch.

Mexico City, April 15, via Havana, April 22.—The following dispatch was sent by mail to Havana in order to avoid the censorship established by Gen. Huerta, which is more strict than at any time heretofore:

"Every telegraph wire out of Mexico City—commercial, railroad, or cable—is now watched over by a censor chosen from among the most reliable and intelligent men in the government telegraph service. These censors frankly inform would-be senders of dispatches that it is not a question of the veracity of the messages, nor whether they disclose military movements, but is merely a question of suppressing all news not favorable to the government.

Code Messages Prohibited.

"Code messages are absolutely prohibted, with the exception only of bank telegrams. The bankers of Mexico succeeded in having the embargo on the messages raised, but only after they had proved that the detention of the dispatches would seriously embarrass the financial department of the government.

"Newspaper correspondents were given to understand that if they were detected in using subterfuges to evade the censorship they would find themselves in jail.

"While Nelson O'Shaughnessy was acting as the messenger of the United States government to Provisional President Huerta in the endeavor to avert war between the two countries, more than 99 per cent of the Mexican residents in the Federal capital went about their affairs in total ignorance of the crisis.

Situation Was Concealed.

"Gen. Huerta and his official family cleverly concealed, even from their intimate friends, all knowledge of strained relations between Mexico and the United States. The general public was even more in the dark, as the newspapers published columns of glowing accounts of victories by the Federal armies in the North.

"Reports of Federal successes said to have occurred at places far beyond the limits of the telegraph lines were printed broadcast. One dispatch announced with great display that Gen. Villa had been captured.

"The railroads ceased some time ago carrying freight to the North, as the limited supply of fuel oil on hand made it necessary to conserve it for the movement of military trains.

"Considerable apprehension has been aroused in the capital by the movements of Emiliano Zapata, the rebel leader in the South, who, after gaining undisputed possession of the state of Guerrero, with the exception of the port of Acapulco, has shown indications of moving northward. The Southern rebels have recently gained considerably in numbers and it is feared they may become formidable enough to venture an attack on the Federal capital.

RETURN CARGO OF ARMS TO GERMANS

Huerta Had Paid in Advance for Shipment of Munitions.

Washington, April 22.—Disposition of the guns and ammunition in the cargo of the German vessel Ypiranga, which were held up at Vera Cruz when Admiral Fletcher took the port, was arranged for at a conference between Secretary of State Bryan and Ambassador Von Bernstorff of Germany.

The captain of the vessel, being unable to obtain clearance papers at Vera Cruz, will return the cargo to its former owners in Germany, although the Huerta government had paid in advance for the munitions.

HUERTA TROOPS CALLED ON TO "REPEL THE INVASION"

(Continued from page 1.)

teers, it was said, enlisted during the evening.

"Death to the Gringos."

Crowds marched through the streets shouting "Death to the Gringos!" until the cry became a chant in every street.

Excitement became intense, and then came the announcement that Gen. Guajardo was preparing to evacuate. In a few minutes the rush for the American side of the river began. The volunteers who had just been proclaiming their intention of fighting the Americans soon were sending their families to the American side for protection.

At 1 o'clock this morning the international bridge was blocked by refugees. The bridge was finally closed by immigration officers and preparations made to handle the throng at daylight. A company of United States soldiers and customs and immigration officers opened the bridge at dawn and within three hours about 2,000 persons had crossed and Piedras Negras was almost deserted.

Patrol to Prevent Desertions.

Gen. Guajardo left a mounted patrol to prevent desertion, and a few soldiers in a small fort that commands the bridge, but the main body of Federal troops included the new volunteer corps camped at Fuenetes.

Constitutionalist leaders say they will not occupy the town until an understanding has been reached with the United States.

AMERICANS KILLED IN VERA CRUZ BATTLE

(Continued from page 1.)

father, Walter Peterson, Malone, N. Y.

Seriously wounded bluejackets: Clarence Rex Harshbarger, seaman U. S. S. Utah, born March 31, 1892. Next of kin, C. O. Harshbarger, father, Waverly, N. Y. Enlisted at Waverly.

Joseph Louis Kwapich, seaman, U. S. S. Utah, born March 6, 1893, Rochester, N. Y. Next of kin, John Kwapich, father, Rochester, N. Y. Enlisted at Rochester.

Henry N. Nickerson, boatswain's mate, U. S. S. Utah, born Dec. 22, 1888, Wheeling, W. Va. Re-enlisted at Cleveland.

Edward A. Gisburne, electrician, Third class, U. S. S. Florida, born June 14, 1892. Next of kin, John R. Gisburne, father, Washington, D. C. Enlisted at Boston.

Wounded marines: Private George Maurice Davidson, Sixteenth company, Second regiment, enlisted at Chicago. Next of kin, mother, Martha M. Davidson, Oskaloosa, Iowa.

Private John McMillan, Sixteenth company, Second regiment, enlisted at Chicago. Next of kin, mother, Frances McMillan, Mayfield, Manitoba, Canada.

Private Richard Shaker, Seventeenth company, Second regiment, enlisted at New York. Next of kin, mother, Frederica Shaker, Poughkeepsie, N. Y.

Private Harry J. Reed, Sixteenth company, Second regiment, enlisted at Cincinnati. Next of kin, mother, Irene Reed, Chicago, Ill.

Wounded Bluejackets—William H. Mangles, seaman, U. S. S. Utah; born Nov. 17, 1894, Yonkers, N. Y. Next of kin, John Cotters, guardian, Yonkers, N. Y.

Frederick Nanz, ordinary seaman, U. S. S. Utah, born July 4, 1895. Next of kin, Marie Nanz, mother, Brooklyn, N. Y. Enlisted at New York.

Nathan Schwartz, ordinary seaman, U. S. S. Florida, born April 22, 1893. Next of kin, Harry Schwartz, brother, New York. Enlisted in New York.

James Horace Copeland, seaman, U. S. S. Utah, born July 13, 1892. Next of kin, J. M. Copeland, father, Monterey Tenn. Enlisted at Chattanooga.

The department has communicated with the next of kin in each case. In the cases of the men seriously wounded and wounded the next of kin also have been informed that they would be advised of any new developments.

VEGETABLES AS HAIR ORNAMENTS

London Chronicle: Now that fruit has reached the hair, in the shape of little oranges for the bride's coiffure, will it come to vegetables again, as it did among the absurdities of Marie Antoinette's time? "Ask my niece, Mme. de Matignon," we read in the memoirs of the Marquise de Cregny, "if it is not true that in 1785 she had her hair dressed a la jardiniere with a red check duster, into which M. Leonard, the queen's hairdresser, had artistically inserted a small artichoke, a broccoli, a fine carrot and some radishes. When Dondon Picot (the Comtesse de Lemeth-Picot, a rich Creole) saw it she was so delighted that she exclaimed, 'I will never wear anything but vegetables. It is so simple, and more natural than flowers.'"

THE SOCIAL CENTER.

Farm and Ranch: The social center is the place to discuss citizenship and ideals to place before the young men of the country. If you have no social center in your neighborhood, call a meeting of the interested citizens. All will be interested if you explain fully the possibilities of rural improvement. Organize a social center and start a reading club.

LEGAL NOTICES.

SHERIFF'S EXECUTION SALE—

Under and by virtue of an Execution issued out of and under the seal of the District Court of the State of Minnesota, in and for the Eleventh Judicial District and County of St. Louis, upon a judgment duly rendered in the Municipal Court, of the City of Duluth, St. Louis County, Minnesota, on the 1st day of December, 1909, in an action therein, wherein Barthe-Martin Company was Plaintiff and John J. Gerzin and Jacob Gerzin copartners as Gerzin Bros., Defendants, in favor of said Plaintiff and against said Defendants for the sum of three hundred sixteen and 65-100 ($316.65) Dollars, a transcript of which said judgment was thereafter and upon the 1st day of December, 1909, duly filed and docketed in the office of the Clerk of said District Court in and for St. Louis County, Minnesota, which said execution has to me as Sheriff of said St. Louis County, been duly directed and delivered, I have levied upon and will sell at Public Auction to the highest cash bidder, at the Sheriff's Office in the Court House, in the City of Duluth, in said County of St. Louis, on Thursday the 11th day of June, 1914, at ten o'clock in the forenoon of that day, all right, title and interest that above named Judgment debtor had in and to the real estate hereinafter described, on the 1st day of December, 1909, that being the date of the filing and docketing of said Judgment at the Office of the Clerk of the District Court in and for said St. Louis County, Minnesota, or any interest therein, which said judgment debtor may have since that day acquired. The description of the property being as follows, to-wit: Lots fourteen (14), fifteen (15), seventeen (17), eighteen (18), and nineteen (19), block fifteen (15), Chisholm. Lot twenty-three (23), block two (2), Second addition to Chisholm. Lot five (5) and six (6), block three (3), Hibbing Heights. Lot ten (10) block five (5), Southern addition to Hibbing, all according to the respective plats thereof on file and of record in the office of the Register of Deeds in and for St. Louis County, Minnesota and the southeast quarter of the northeast quarter (SE¼ of NE¼) and the northeast quarter of the southeast quarter (NE¼ of SE¼) of section thirty-four, (34), and the southwest quarter of the northwest quarter (SW¼ of NW¼) of section thirty-five (35), all in township fifty-seven (57) north of range nineteen (19), west of the Fourth Principal Meridian according to the United States government survey thereof, all the above described pieces or parcels of land situated in St. Louis County, Minnesota.

Dated, Duluth, Minn., April 16th, 1914.

JOHN R. MEINING,
Sheriff St. Louis County, Minn.
By V. A. DASH, Deputy.

ORDER OF HEARING ON PETITION FOR DETERMINATION OF DESCENT OF LAND—

State of Minnesota,
County of St. Louis.—ss.

In Probate Court. In the Matter of the Estate of Allen P. Lovejoy, decedent.

The petition of Allen P. Lovejoy having been filed in this Court representing, among other things, that the above named decedent died more than five years prior to the filing of said petition, and that no Will of decedent has been proved nor administration granted on his estate in this State; that said petitioner has, and claims to have, an interest in certain real estate of decedent lying and being in the counties of St. Louis, Koochiching and Goodhue in the State of Minnesota, described in said petition, and praying that the descent of said real estate be determined by this Court, and the same assigned to the persons thereunto entitled. It is ordered, that said petition be heard before this Court, at the Probate Court Rooms in the Court House, in the City of Duluth, in said County, on Monday, the 11th day of May, 1914, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted. Ordered further, that this order be served by publication in The Duluth Herald according to law, and by mailing a copy of this order to each heir and interested party at least fourteen days before the said date of hearing.

Dated at Duluth, Minn., April 15, 1914.

By the Court,
S. W. GILPIN, Judge of Probate.
Attest: A. R. MORTON,
Clerk of Probate.
Seal Probate Ct. St. Louis Co. Minn.
D. H., April 15, 22, 29. 1914.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS—ss.
District Court, Eleventh Judicial District.

In the matter of the application of James W. Balmer to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lot Sixteen (16) in Block Forty (40), and Lots Three (3) and Four (4) in Block Forty-nine (49), in Harrison's Division of Duluth, according to the plat thereof on file and of record in the office of the Register of Deeds of said St. Louis County; and all that part of the unplatted portion of the Northeast Quarter of the Southwest Quarter (NE¼ of SW¼) and of Government Lot Three (3) in Section Thirteen (13), Township Fifty (50) North, of Range Fourteen (14), West of the Fourth Principal Meridian, according to the government survey thereof, lying adjacent to said Lots Three (3) and Four (4) in said Block Forty-nine (49) in said Harrison's Division of Duluth, and being included within the lines hereinafter described, to-wit: (1) the Easterly line of said Lots Three and Four as shown upon said plat; (2) an extension southeasterly in the same straight line of the northeasterly line of the said Lot Four to an intersection with the easterly line of the said Northeast Quarter of the Southwest Quarter or the said government Lot Three, as the case may be; (3) the easterly line of said Northeast Quarter of the Southwest Quarter and of said government Lot Three as established by government survey thereof; (4) an extension northeasterly in the same straight line of the northwesterly line of Superior Street as said Superior street is shown upon the plat of said Harrison's Division of Duluth, to an intersection with the easterly line of said government Lot Three; (5) an extension southeasterly in the same straight line of the southwesterly line of Lot Three in said Block Forty-nine to an intersection with the said extended northwesterly line of Superior Street,
Applicant,

vs.

City of Duluth, Louise Henry Harrison, John A. Coke, George Ross, and all other persons or parties unknown claiming any right, title, estate, lien or interest in the real estate described in the application herein,
Defendants.

The State of Minnesota, to the above named Defendants:

You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service and, if you fail to answer the said application within the time aforesaid the applicant in this proceeding will apply to the court for the relief demanded therein.

Witness: J. P. Johnson, clerk of said court, and the seal thereof at Duluth, in said county this 21st day of April, A. D. 1914.

J. P. JOHNSON,
Clerk.
By R. E. JOHNSON,
Deputy.

ORDER FOR ADJOURNMENT AND OF HEARING ON PETITION FOR PROBATE OF WILL—

State of Minnesota,
County of St. Louis—ss.

In Probate Court. In the Matter of the Estate of Joseph Sellwood, Deceased.

In the matter above entitled, the petition of Richard M. Sellwood for the allowance and admission to probate of an instrument bearing date January 21st, 1914, purporting to be the last will and testament of Joseph Sellwood, deceased, duly came on to be heard before this court at the appointed time, to-wit, April 6th, 1914, at ten o'clock A. M., pursuant to notice theretofore given, and it appearing to the court that before the time so appointed for the hearing as aforesaid there has been duly filed in this court certain objections to the allowance of said purported will, by one of the heirs of said deceased, to-wit, Ophelia S. Leithhead, one of his daughters, upon the alleged grounds briefly summarized as follows: That said purported will and testament was not executed by the said Joseph Sellwood in the manner required by law to make said will valid, and that at the time of said alleged execution the said Joseph Sellwood was not of sound mind or disposing memory, and that said purported will was procured by undue and illegal influence of the residuary devisees therein named, and is not in fact the will of said deceased; and the said Ophelia S. Leithhead having also then and there filed her petition for the probate of a lost or destroyed will of said Joseph Sellwood, alleged to have been executed by the deceased as his last will and testament, at some time between December 25th, 1911, and the month of April, 1913, and devising and disposing of his estate, as alleged in said petition, in substance, as follows: That his antenuptial agreement with Martha E. Triggs of date April 4th, 1910, should be carried out; that his debts and funeral expenses should be paid; that his grandchildren, Richard M. Sellwood, Jr., Joseph G. Sellwood and Francis Sellwood, should have Five Thousand Dollars ($5,000) each, and that his grandchildren, Leslie S. Leithhead and Jim Leithhead, should have Fifty Thousand Dollars ($50,000) each; that his nephew, Joseph Sellwood, Jr., should have Twenty Thousand Dollars ($20,000), to be paid him on reaching forty years of age, and in the meantime the income therefrom, amounting to One Hundred Dollars ($100) per month; that his niece, Lucy Sellwood, should have One Thousand Dollars ($1,000), and the residue of his estate he gave, bequeathed and devised equally between his son, Richard M. Sellwood, his daughter, La Rue S. Mershon, and the petitioner, his daughter, Ophelia S. Leithhead, and alleging that said lost or destroyed will was the last will and testament of said deceased;

NOW, THEREFORE, by reason of the facts aforesaid, it is ordered, that the hearing set for this day upon the petition of said Richard M. Sellwood be and the same hereby is adjourned to May 4th, 1914, at two o'clock in the afternoon, and that the hearing upon the objections of said Ophelia S. Leithhead to the allowance of said purported will, and upon her petition for the allowance of said alleged lost or destroyed will, be heard before this court at the Probate Court Rooms in the Court House, in Duluth, in said County, on Monday, the 4th day of May, 1914, at two o'clock P. M., at which time and place proofs shall be taken upon both of said purported wills and objections, and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to appear and be heard.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald, according to law, and that a copy of this Order be served on the County Treasurer of St. Louis County, not less than ten days prior to said day of hearing, and by mailing a copy of said notice to each heir, devisee, legatee or interested party at least fourteen days before said day of hearing.

Dated at Duluth, Minn., April 7th, 1914.

By the Court,
S. W. GILPIN, Judge of Probate.
Attest: A. R. MORTON,
Clerk of Probate.
Seal, Probate Court, St. Louis Co., Minn.
D. H., April 8, 15, 22, 1914.

POULTRY, EGGS

and BABY FOWLS ARE WANTED!

S. C. RHODE ISLAND REDS: 1st Cock, J. W. Nelson.

THERE are a large number of people in Duluth and vicinity who will buy breeding stock, eggs, baby fowls or chickens for laying this season. Some one will gladly purchase what you wish to sell. Herald want ads are the best poultry salesman available.

CIRCULATION GREATEST —RATES LOWEST

The Duluth Herald has the greatest circulation of any newspaper in the world in a city the size of Duluth. Its rates for classified advertising are less per thousand circulation than those of any other paper in Minnesota. Best results are gained from ads when definite information is given. When information is lacking the presumption is that desirable features are lacking. Information as to contract rates and the probable amount of space your ad would take gladly given.

ADDITIONAL WANTS ON PAGES 18 AND 20

ALL ENERGIES OF THE ADMINISTRATION ARE BENT ON PLANNING OPERATIONS IN MEXICO

PLUCKY FIGHT MADE BY AMERICAN JACKIES IN SEIZING VERA CRUZ

Hot Fire Poured Into Advancing Americans From Naval College.

Eight Americans Killed and Thirty Wounded in the Conflict.

Mexicans Suffer More Severely But Number of Casualties Unknown.

Vera Cruz, Mex., April 23.—Early yesterday afternoon the city of Vera Cruz was in undisputed possession of the American invading forces.

Although no organized force was used against them and the snipers were less in evidence than at any time during the fighting, eight Americans were killed and some thirty wounded. While the Mexicans suffered more severely, the number of their casualties has not been ascertained, but the best estimates obtained by Capt. William R. Rush of the battleship Florida indicated that in the engagements of Tuesday and Wednesday their dead amounted to about 150. No person knows how many Mexicans fell wounded, as a large part of them were taken away and hidden by friends.

Bodies Lying in Streets.

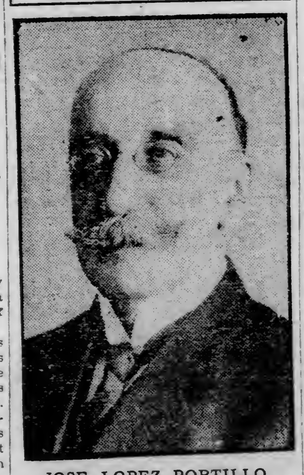
In the streets about the plaza Wednesday afternoon lay fifteen or twenty bodies, a majority of them attired in citizens' clothing. Some evidently had been dead since the engagement of Tuesday.

At 10 o'clock Wednesday morning

(Continued on page 15, third column.)

FOREIGNERS TAKEN OUT OF TAMPICO

Captains of German and British Cruisers Lend Aid.



Washington, April 23.—Reports from Admiral Badger to the navy department today declared that American and foreign refugees at Tampico had been taken off from the city, "through the courtesy of British and German cruisers."

The admiral reported all quiet at Vera Cruz.

Rear Admiral Mayo sent this report to the navy department today from Tampico:

"By courtesy and energy of the captains of the German and British cruisers, there now are on board our ships about 1,200 American refugees. More are expected tomorrow, coming from outside points. Merchant ships taking men on board."

IS STRIKING MEXICAN FIGURE IN THE CRISIS

JOSE LOPEZ PORTILLO.

Jose Lopez Portillo (y Rojas) is the most striking Mexican figure in the present crisis. He stands second in interest only to Huerta. He succeeded Moheno two months ago as minister of foreign affairs of Mexico, and it was through him that Huerta communicated certain proposals to the United States agent, John Lind, just before his return to the United States.

TUGS AND BARGES AVAILABLE FOR USE.

New Orleans, La., April 23.—Twenty tugs and barges for government use in the Mexican campaign are available here and can be at Vera Cruz in eight days. This is the report that Capt. W. O. Smith, United States quartermaster at New Orleans, submitted to Washington authorities today. Capt. Smith inspected harbor craft under instructions from Washington.

It is understood that government agents also have inspected the British steamer Burmese Prince. According to information here, the United States naval authorities already are negotiating with British owners for the purchase of this vessel.

DESTROYER FLOTILLA ARRIVES AT TAMPICO.

Washington, April 23. — The navy department announced today that the torpedo boat destroyer flotilla sent from Vera Cruz by Admiral Badger had reported its arrival at Tampico.

SITUATION IN SOUTHERN COLORADO MORE CRITICAL

Fate of Thirty Refugees in Empire Mine Stope Doubtful.

Eleven Reported Killed in Wednesday's Fighting and Score Missing.

Trinidad, Colo., April 23.—With the toll of yesterday's fighting still unknown, three mining properties burned to the ground, others reported destroyed, the fate of thirty refugees of the Empire mine who took refuge in the stope still in doubt, and a rapidly increasing number of armed men still active, the situation in Southern Colorado today was more critical than at any time during the strike.

Eleven are said to have been killed yesterday in the fighting near Aguilar, and a score are reported missing. Property damage is estimated at $299,000. The fate of the Southwestern mine is unknown.

The time of the arrival of state troops is indefinite and there is no immediate prospect of relief from the conditions that have existed in the strike district since early Monday.

May Not Quell Disorders.

Even the arrival of state troops may not serve to quell the disorders. Large bodies of armed men are reported near the railroad approaches to the Aguilar

(Continued on page 16, fifth column.)

DEAD AND WOUNDED IN WEDNESDAY'S FIGHTING

Washington, April 23.—At 3:15 a. m., the navy department issued this official list of casualties of Americans at Vera Cruz, April 22:

Dead: R. Percy, private marine corps; L. O. Fried, ordinary seaman; W. I. Watson, ordinary seaman; F. P. Delowry, seaman; A. S. Stream, ordinary seaman; C. A. Smith, ordinary seaman; C. G. Defabir, gunner's mate, third class; Frank Devorick, ordinary seaman.

Seriously wounded: H. Pullion, fireman, first class; G. M. Guilloan, ordinary seaman; M. Fitzgerald, sergeant marine corps; J. Peoples, private; W. Ponkowski, ordinary seaman; H. J. Kapplen, ordinary seaman; W. M. Bass, seaman; C. L. Nodsick, ordinary seaman; J. L. Bennett, coxswain; K. Christy, seaman; A. G. Ebel, private; H. E. Holsinger, private; H. E. Boyle, ordinary seaman; Robinson, ordinary seaman; J. Cantwell, no rating; A. E. Doe, ordinary seaman; L. W. Taylor, no rating; E. N. Kalmers, no rating; G. Rainey, private; E. P. Peterson, private; J. McMillan, private; F. Manz, orderly seaman; C. R. Parseborger, ordinary seaman; H. M. McKerson, boatswain's mate, second class; J. L. Kwapick, seaman; N. Schwartz, ordinary seaman.

Slightly wounded: Lieut. J. P. Lannon, ordinary officer, battleship New Hampshire; G. M. Davidson, private; R. Shaker, private; H. J. Reed, private; H. J. Leahy ordinary seaman; C. D. Caron, ordinary seaman; J. F. Place, seaman; C. Gisburne, electrician; J. A. Anderson, seaman; W. M. Schmidt, seaman; J. C. McCloy, boatswain's mate; J. R. Gilbert, seaman; E. G. Rickard, electrician; J. H. Copeland, seaman; W. H. Mangles, ordinary seaman.

WOULD RAISE WAR REVENUE

Plans Prepared in Case Army Has to Go Into Mexico.

Stamp Taxes Similar to Those During Spanish-American War.

Washington, April 23.—Administration leaders today laid plans for raising war revenue in case the army has to go into Mexico. Secretary of the Treasury McAdoo discussed plans for raising revenue with Commissioner of Internal Revenue Osborne and signified his intention of taking it up later with Chairman Underwood of the house ways and means committee and Senator Simmons, chairman of the senate finance committee.

The first measure planned would impose a stamp tax on checks and legal documents, similar to that invoked during the Spanish-American war; another measure would tax sweet wine and fortified brandies and probably beer. According to the estimate this measure would net the treasury about $116,000,000 a year, and if the situation demanded a tax would be imposed on cigarettes, cigars and tobacco.

No Tariff Changes.

It is not the present intention in any way to alter the present tariff law, although such legislation might be found necessary in future.

The treasury department, under existing law, has authority to issue without further action by congress $100,000,000 worth of Panama canal bonds, and it is probable that this means will be taken at once to raise money in case of eventualities. Adoption of this plan would give congress a better opportunity to discuss a war revenue measure carefully before passage.

CHARGE ALGARA IS GIVEN PASSPORTS

Will Turn Over Situation to the French Embassy.

Washington, April 23.—Charge Algara, after conferring with Secretary of State Bryan, said that he had made formal demand for his passports and expected to receive them late today. He said he would leave Washington tonight and probably would go to Europe.

Algara said that no foreign representatives here had yet been designated to handle Mexican affairs, but that the situation probably would be turned over to the French embassy.

The passports were delivered to Charge Algara late today. He then said that he would leave the city either tonight or tomorrow morning.

PLAN OF THE MILITARY CAMPAIGN IS LIKELY TO BE ENTIRELY CHANGED

Northern Border of Mexico Must Be Given Protection.

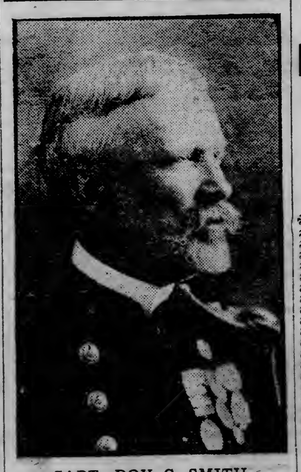
Mexican Internes Are Now to Become Prisoners of War.

Washington, April 22.—A complete change in the plan of military campaign in Mexico may be necessitated by the menacing attitude of the Constitutionalists, and that subject now is under discussion by the joint board of the army and navy, and the secretaries of the two military departments. Predicated upon the belief that the Constitutionalists would observe an attitude of strict neutrality during the settlement of the issues between the United States government and Gen. Huerta, no arrangements have been made in regard to the disposition of American military forces on the northern border, beyond those necessary to meet possible small local disturbances.

Late reports, however, from Consular Agent Carothers, indicate growing turbulence and the development of anti-American feeling in the north of Mexico, and particularly in the neigh-

(Continued on page 15, fifth column.)

AMERICANS ARE IN GRAVE PERIL



Mobs of Mexicans Forming in Mexico City, Making Threats.

Washington, April 23.—Private advices reaching here today in code from Mexico City disclosing that Americans there were in danger have been communicated to government officials.

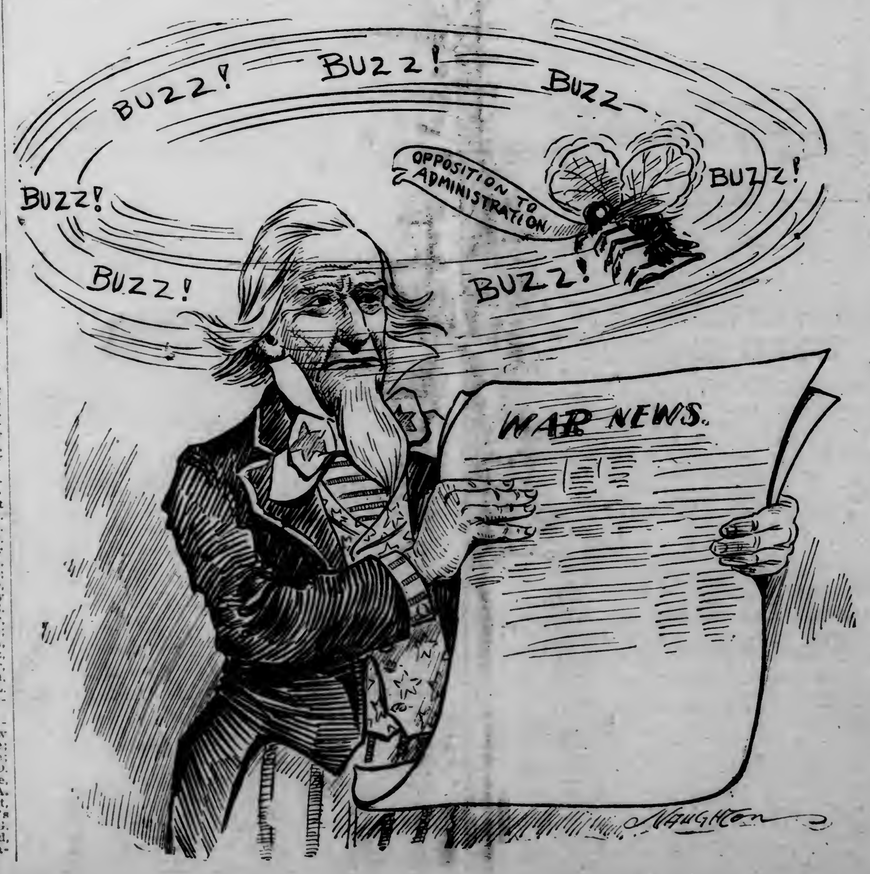
The dispatches, which were from a source of unquestioned trustworthiness and bore date of today, set forth that mobs of Mexicans were forming for anti-American demonstrations; that Americans on the streets had been menaced and threatened with violence and that they were concentrating at the embassy for mutual protection.

The department announced that the last message from Charge O'Shaughnessy said he expected to leave Mexico City tonight or tomorrow morning. He could by no means have reached Vera Cruz today, it was stated.

COMMANDS FLAGSHIP OF ADMIRAL BADGER

CAPT. ROY C. SMITH.

Capt. Smith is in command of the dreadnaught Arkansas, which led the fleet on the rush to Mexican waters. She is the flagship of Admiral Badger.



HUERTA PLANNED TO FORCE INTERVENTION

Washington, April 23.—That Gen. Huerta deliberately planned the arrest of American bluejackets at Tampico and other offenses against the United States, with a view to bringing on armed intervention and uniting all the Mexican factions behind him, was the substance of a letter received by a high government official yesterday from an authoritative source in Mexico City.

UNITE TO OPPOSE AMERICAN FORCES.

Washington, April 23.—Word reached the war department here today that the Constitutionalists and the Huertistas at Tampico have united to oppose any American operations.

SWAT THE FLY!

WILL DEAL WITH ALL SUPPORTING HUERTA

President to Enforce Reparation Wherever the Dignity of the United States Is Flouted.

Revolutionists Unite With Huerta Troops to Withstand Attack on Tampico By American Forces.

CONSTITUTIONALISTS MORE FRIENDLY

Washington, April 23.—Secretary of State Bryan and Secretary of Navy Daniels were called to the White House late today. Prior to the conference, the secretary of state had communicated with the representative of the Mexican Constitutionalists, and it was reported that indications had been received of a more friendly attitude on the part of the Constitutionalists than that expressed in the Carranza note last night.

Washington, April 23.—After issuing a statement declaring the intention of the United States to enforce reparation "whenever and wherever the dignity of the United States is flouted," President Wilson bent all the energies of the administration today to planning for operations in Mexico.

The president's statement, issued after a cabinet conference, in reply to the message received from the Constitutionalist chief, Carranza, declared that "we now are dealing only with those whom Huerta commands, and those who come to his support."

From dawn today the wearied chiefs of the war and navy departments, Secretary of State Bryan and the other cabinet officers, hurried from conference to conference.

Suggestions were made that before any extensive army movement could be ordered, the militia would have to be called out by congressional action and more money supplied for the mobilization of a large army.

Word was received at the navy department that the destroyer flotilla from Vera Cruz had reached Tampico, and another report said that the revolutionists' troops about Tampico had formed an alliance with the Huerta forces in the city to withstand any attack by the American forces. The department staff conferred as to conditions at Vera Cruz and it was understood that the next move by the forces under Admiral Badger would be the seizure of the railroad from Vera Cruz to Mexico City.

Carranza's Request Disturbs.

Carranza's request for the withdrawal of the American forces from Vera Cruz on the ground that "it was a violation of the national sovereignty of Mexico," and a hostile act to the Mexican nation, gave the president and his cabinet advisers, with whom he was in conference, much concern. In consequence the White House statement was issued to inform Gen. Carranza that the United States could not recognize him or seek reparation from him as he requested, but must deal with the authorities in control of the territory where offenses were committed. This has been the consistent course of the Washington government during the present administration.

O'Shaughnessy Gets Passports.

The fact that Charge O'Shaughnessy had been handed his passports by Gen. Huerta added an acute aspect to the situation, but had been more or less expected. The interests of the United States will be looked after by one or two of the other foreign legations as was the case in Spain during the last war.

Secretary Bryan said that the mere withdrawal of the charge d'affaires did not necessarily mean war. He referred to the fact that precedents showed instances where war did not follow the departure of a minister or a charge with his passports.

Reports that Mr. O'Shaughnessy had reached Vera Cruz were not credited by the state department. It was stated that he had not had time to reach the coast.

The department said that from 800 to 1,000 Americans were in Mexico City and that they would be protected by the guards of other legations, numbering about 100 soldiers. No American marines are in the Mexican capital.

Senator Shively, acting chairman of the foreign relations committee of the senate, conferred with the president about noon. Afterwards he said that the aggressive policy in Mexico would not be abandoned.

ARMS EMBARGO RE-ESTABLISHED

Troops on Border to Be Notified and Order Enforced.

San Antonio, Tex., April 23.—Headquarters of the Southern division, United States army, received instructions early this morning to re-establish at once the embargo on arms and ammunition into Mexico. This statement was made at Fort Sam Houston.

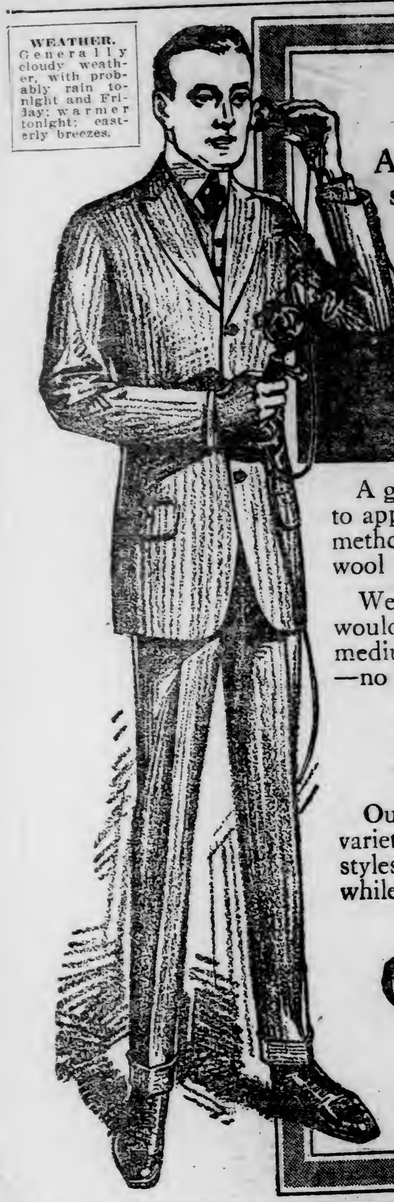
The order came from the war department and was issued here early today. At department headquarters Lieut.-Col. J. W. Heard, adjutant general, said the order would be enforced just as soon as troops on the border could be notified.

PRESIDENT WILSON'S COMMENT ON THE CARRANZA STATEMENT

Washington, April 23.—President Wilson issued the following comment on the Carranza statement:

"I wish to reiterate with the greatest earnestness the desire and intention of this government to respect in every possible way the sovereignty and independence of the people of Mexico.

"The feeling and intention of the government in this matter are not based upon politics. They go much deeper than that. They are based upon a genuine friendship for the Mexican people and a profound interest in the re-establishment of their constitutional system.



"Whatever unhappy circumstances or necessities may arise, this object will be held steadily in view and pursued with consistent purpose, so far as this government is concerned.

"But we are dealing with facts. Wherever and whenever the dignity of the United States is flouted, its international rights or the rights of its citizens invaded, or its influence rebuffed, where it has the right to attempt to exercise it, this government must deal with those actually in control. It is now dealing with Gen. Huerta in the territory he now controls. That he does not rightfully control it does not alter the fact that he does control it. We are dealing, moreover, only with those whom he commands and those who come to his support. With these we must deal. They do not lawfully represent the people of Mexico. In that fact, we rejoice, because our quarrel is not with the Mexican people and we do not desire to dictate their affairs. But we must enforce our rightful demands upon those whom the existing authorities at the place where we act, for the time being, represent."

After issuing his statement, declaring that action in Mexico would be directed solely against Gen. Huerta, the president cancelled routine engagements for the day to devote his attention to the Mexican situation.

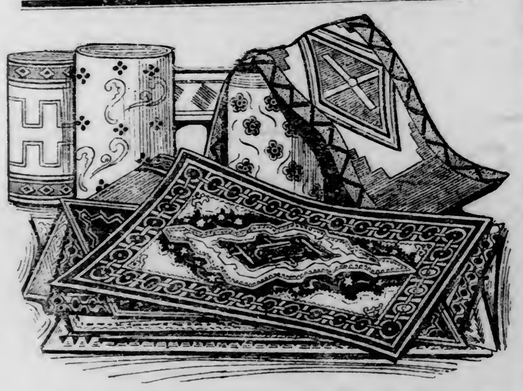
GODFREY IS GIVEN VERDICT OF $70

Grand Rapids, Minn., April 23.—(Special to The Herald.)—The district court jury in the case of George Godfrey vs. S. D. Seavey, this morning returned a verdict of $70.56 in favor of Godfrey.



Godfrey was suing for $450 claimed to be due from Seavey for wood products delivered to Seavey by Godfrey, and Seavey asked for $500 as his commission for financing Godfrey's logging operations. The jury went out about 8 o'clock this morning. Court held a late night session last night, working until almost 1 o'clock this morning.

The case under consideration was a court case, the issue being an election contract between the candidates on two tickets for village president, three trustees and treasurer of the village of Calumet, twenty miles northeast of here, in the mining country.

Calumet Election Contest.

The contestants are Carl Gross vs. Gabriel Crottier, for village president; J. J. Ardolph vs. L. E. Robertson for village recorder; Louis Caeci vs. Carl Murmi, for village treasurer, and Tom Meloy, Knut Benson and John Swanson vs. Robert Johnson, Frank Kerace and Dan Scamuell for trustees. The contestants claim among other things that the contestees with one or two exceptions cannot talk English and were elected with illegal votes. There are only thirty-two people in the village and there were thirty-two votes cast, and it is claimed that many of them were illegal. The offices for which the men are fighting pay $10 per year, except that of the treasurer, which pays 2 per cent of the moneys handled. The village has a bonded indebtedness of $26,000; a floating indebtedness of $8,000, and practically no resources. The mining properties surrounding the village being all outside of the incorporated limits of the town.

ALL THE CAPTIVES PROBABLY ALIVE

Refugees in the Empire Mine Offered Chance to Surrender.

Trinidad, Colo., April 23.—A long distance telephone message from the Empire mine, where from twenty to thirty men, women and children have been imprisoned for twenty-four hours, said that a party of strikers approached the mine shortly before noon today and offered the prisoners a chance to surrender and be conducted safely out of the strike district.

E. N. Snyder, a union organizer who telephoned the message, said that all the captives were believed to be alive, although no signs of life had been observed during the morning. He said the last shots from the mine were fired about 6 o'clock last evening. Snyder admitted that both entrances to the mine had been blocked by dynamite blasts and that the fan was out of commission. He said there was no danger of suffocation, however, and that a party of miners was on the way to rescue the prisoners.

Primrose Dynamited.

Messages received at the Colorado Fuel & Iron company's offices from Rouse said that Primrose was being dynamited. All of the inhabitants were believed to have left camp. Messages expressing fear of attack have been received from numerous camps in Huerfano county. Al Cameron all of the women and children have been placed in the basement of the company store.

A telephone message from the military camp at Ludlow to Tabasco stated that armed men were entering the canyon.

FUNERAL OF JOHN SULLIVAN

The funeral of John Sullivan, aged 72 years, who died Tuesday at the home of his son, Francis W. Sullivan, 1028 East First street, was held at 9 a. m. today from the cathedral. Interment was at Calvary cemetery.

WOOD EXPECTS TO BE SOON ACQUITTED

Grand Rapids, Minn., April 23.—(Special to The Herald.)—The trial of George Woods of Hibbing and Joseph Cummings, who were indicted by the last grand jury on a charge of burglarly for breaking into the shack of J. E. Cameron, in the Bear River country on Nov. 18 last, will come up in district court some time this afternoon. Mr. Woods is sanguine that the trial will not result seriously for him and that the indictment will in all probability be quashed. Wood and Cummings were seeking evidence of the violation of the law against killing deer out of season when the alleged house-breaking occurred.

HEINO CASE TO THE JURY

Attorneys Present Closing Arguments—Perjury on One Side.

The Heino adultery case will go to the jury late this afternoon. The closing arguments on the part of the prosecution were presented by County Attorney Warren E. Greene this morning, and this afternoon attorneys addressed the court for the defense.

Mr. Greene pointed out to the jury that perjury had been committed in the case—that witnesses on one side of the case or the other had been lying—and appealed to their "common sense," as he put it, on the proposition of figuring out who it was apt to be.

The county attorney declared that witnesses for the state had no motive in perjuring themselves, and argued that in determining who perjured themselves they should take into consideration the interest John R. Heino has in the outcome of the case.

"You may have some feeling for Heino," said Mr. Greene during the course of his argument. "I don't know. Some people sometimes get the idea these things are the fault of the woman and they don't want to punish the man. We will attend to the woman. Don't you worry about her. This case concerns Heino. It has nothing to do with her. It has nothing to do with her case; not a bit.

"If you find that all of the state's witnesses have committed perjury—well, all right—turn this defendant loose. Turn him loose and let him go and brand all the rest as perjurers in what I say is the most damnable plot that was ever conceived in this town. Brand them as such if you will. You have your choice."

The state sprung a surprise yesterday afternoon when it called Lydia White, aged 20, as a witness in rebuttal. She testified that she was in the Sellwood building on the afternoon of Jan. 21 shortly before the officers raided Heino's office. She was making a canvass of the building in an effort to raise funds for striking copper miners.

The girl testified that she tried both doors to Heino's office but could not get in until after he had opened the door and had given her a dollar. Heino's testimony was that the girl had entered his office through an open door and that he had purchased a tag from her. The girl's testimony also contradicted that of Mrs. Gran and Heino in other particulars.

CITY BRIEFS

Tamper With Auto.

P. Eimon of 1616 John avenue, Superior, reported to the police last evening that some boys had tampered with his automobile while it was standing in front of a residence at Fifteenth avenue east and First street, between 8 and 10 o'clock. The air had been let out of the tires and the license tag had been broken off, he said.

Larceny Suspects.

John Waennas, 33, and Woitto Sandelin, 18, who were arrested last night as larceny suspects, were released following an investigation by the police. They were accused of having stolen a suit of clothes from Arvid Maki.

Gray's April Silk Sale

Began this morning with crowds. Did you get your share? Then come tomorrow.

Gun Club Shoot.

The members of the Central Gun club will hold their first shoot for the season at their grounds at Twentieth street and the lake shore, Minnesota point, next Sunday afternoon. Several attractive merchandise prizes will be hung up and it is expected that a large number of the local cracks will unlimber their artillery. Duluth shooters are hopeful that some one from this city will land the state championship this year. Several are planning to enter the state shoot to be held in Minneapolis June 19, 20 and 21.

Will Attend St. Paul Meeting.

Mayor W. I. Prince will leave for St. Paul tonight to attend the meeting to be held tomorrow to select directors who will have charge of the Federal reserve bank district, which includes Minnesota. Several Duluth bankers and business men will be present.

A Great Silk Season

And a great silk sale. Come to Gray's tomorrow. Crowds here today.

Left $8,000 Estate.

Peter Johnson, who died at Eveleth, Jan. 2, left real and personal property worth $8,625 for his heirs, a widow and three children. Mrs. Hilda Johnson, widow, yesterday petitioned the probate court for letters of administration on his estate.

Phillip Is Candidate.

P. G. Phillips, 5219 Ramsey street, filed with County Auditor Odin Halden yesterday for the office of state senator from the Fifty-ninth legislative district. He will be a candidate against George M. Peterson at the June primaries. Mr. Phillips was elected on the Socialist ticket and was serving in the city council at the time the commission form of government was adopted.

New Mining Company.

The Merrimac Mining company, capitalized at $230,000 filed articles of incorporation today with Register of Deeds Charles Calligan. The incorporators and officers are: W. D. Bailey, president and treasurer; A. M. Washburn, vice president, and C. M. Van Norman, secretary.

Case Goes to Jury.

The personal injury suit brought by Ole Oleson against the Duluth Brewing & Malting company, and Charles Danielson and Louis Ramstad, contractors, for $5,729 damages, was given to the jury in Judge Ensign's division of the district court this afternoon at 2:30 o'clock. Oleson claimed that while walking along Twentieth avenue west on the evening of Oct. 24 last he fell into an unprotected excavation and sustained a broken leg. The hole, he claimed, had been dug by contractors who were erecting the Rex hotel for the brewing company.

Do Not Want Sewer.

Commissioner Murchison will ask the council to discontinue the construction of a part of the Duluth Heights sewer. It is claimed that some of the property owners have no need for it and that others cannot afford to pay for it at this time.

Temple Services.

Rabbi Maurice Lefkovits of Temple Emanuel will preach at the regular services tomorrow evening on "The Life of the Tree and the Tree of Life." The services will begin at 8 o'clock and are open to the public.

Baptists Amend Bylaws.

The Duluth Baptist Union has filed amended articles of incorporation with the register of deeds changing the name of the corporation to the Baptist Union of Duluth, and altering a number of the bylaws. W. B. Patton is president and A. C. Ritchie is secretary. The changes were authorized at a meeting held Feb. 27.

Makes Lawns.

There are many cheaper lawn grass mixtures on the market, but Cleveland's mixture makes lawns. Prepared by Tessman Bros. company.

Housecleaning Supplies; Buy Here Now

Our April Silk Sale Opened With a Rush This Morning!

And the rush will keep up until closing time Saturday night! That's sure—for you certainly won't miss your chance to buy choice silks at such radical reductions. Remember these four facts:

Not all our silks are on sale in these lots—

But all the silks in the sale are from regular stocks.

No approvals! No lay-bys! No samples sent!

Unsold silks go back to regular prices Monday morning. Last night's Herald listed various silks included in the sale—the selling is too great today to promise just what you'll find tomorrow—we simply quote the prices included in the various lots:

Lot 1 — **59c** — for silks that were 85c, $1 and $1.25.

Lot 2 — **89c** — for silks that were $1.25, $1.50, $1.75, $2

Lot 3 — **$1.19** — for silks that were $1.50, $1.75, $2, $2.50

Lot 4 — **$1.49** — for silks that were $2, $2.50 and $3.00.

This is a great silk season—and this is a great silk sale!

The White Goods Department Also Offers Some Week End Specials

Here are goods demanded by coming fashions. Brides, Girl Graduates and Confirmants are especially interested in the following offerings. France has contributed two of the very attractive offerings mentioned below.

Beautiful White French Crepes 50c the Yard

An exquisite quality, 36 inches wide. You will want some of it when you see it and you will buy it **50c** Friday or Saturday at 50c the yard, for regularly you would find it 75c.

89c for 45 Inch $1.25 French Voiles

Some may say it is too sheer and too fine, but fashion says it is just right for filmy transparent garments of the coming season..... **89c**

Here Are Linweaves of Medium Weight for Waists and Morning Dresses

Not the sheer quality, but a medium weight that is very practical, it does not soil readily and though 36 **25c** inches wide and having the appearance of $1.00 linens, our price is but 25c the yard.

19c for Many 25c and 35c White Goods

Dainty rice cloths, crepes, voiles, crepe-voiles and many other fancy weaves. Very special at 19c the yard. You see these regularly selling at 25c and 35c yd. **19c**

Bargain Square No. 1

Dainty white goods at 15c the yard. Fancy white goods—lace stripe, crepe voiles and fancy checks. A varied assortment of goods most of which sold regularly at about 25c the yard, though some of it sells for 35c. Take your choice. Pick out the best of it at 15c the yard.

12½c for 18c and 20c White Goods

Another lot of checks and stripes for children's aprons and dresses. Goods most of which sell at 18c to 20c, special on the Bargain Square at 12½c the yard.

5c a Yard for White Cross-bar Dimities

Don't miss this great snap.

15c for 25c White Piques

These are very stylish and they are 36 inches wide. A saving of 10c a yard will surely appeal to you.

ALARM WRONG; HOUSE BURNS

Cummings Home Destroyed With Firemen on Wild Goose Chase.

Call Over 'Phone Is Misunderstood; Loss Is About $1,200.

Misinformation as to the locality of a fire last night proved disastrous to Thomas Cummings, 6202 Nashua street. The fire starting from an overheated cookstove had spread throughout the building when the department arrived nearly twenty-five minutes after the first alarm was given.

Mrs. Cummings, who was in the house alone with her six children, all of whom had gone to bed, managed to get out without injury. Assistance from neighbors enabled the family to carry out much of the furniture and clothing.

The fire started shortly after 10:30 o'clock. Mrs. Cummings had early in the evening put wood in the stove and after it had given indications of going out, she had gone to bed. It was probably an hour after she had retired that the fire started.

A telephone call was given to the police station and this was understood to be from 5202 Nicollet street. The department went to this point and after finding no fire returned to the station and were told by a patrolman that the fire was at 6202 Nicollet street. It was after the department had returned from there to the fire hall and a box alarm had been turned in that the right alarm was given.

In the meantime truck from No. 2 and hose cart from headquarters were on the way out in response to the box call. After arriving at the fire the department was again handicapped by lack of water pressure. The best pressure that the department could get would throw the water only eight feet from the end of the nozzle.

The Cummings home is an entire loss. Only $600 insurance was carried on the house, with no insurance on the contents. The loss is estimated to be about $1,200. Mr. Cummings was expected to arrive this morning from the range, where he had been on business for several days.

The fire was one of the most spectacular seen on the hillside for a number of years. The blaze cast its flames high in the air.

DROPS DEAD ON WAY TO CABIN

John Baker's Body Found Lying Face Downward in Road.

The body of John Baker, 50 years old, was found yesterday by his two companions about half way between the Thomson road and their cabin, six miles from there, where he is believed to have dropped dead last Saturday while on his way home. The cause of death will be ascertained this afternoon at an autopsy to be held at Richter's undertaking rooms under the direction of Coroner McComb.

Baker had been in West Duluth Saturday morning and purchased supplies for himself and his two companions, Gust Mattson and Peter Isaacson. On leaving West Duluth Saturday afternoon he rode out with Adolph Letho as far as the latter's place, six miles out on the Thomson road. At this place he branched off the main highway for his cabin, about six miles southwest of that point. He had proceeded about three miles when he dropped dead.

The body was lying face downward and injuries to the face indicate that he had a bad fall. Whether the fall rendered him unconscious or caused his death will probably be determined this afternoon.

Baker had been "batching" with his two companions at the cabin for some time. He is said to have a widow living in Finland and also a son in this country. Mattson and Isaacson had become worried about the non-appearance of Baker and started out yesterday forenoon to look for him.

PROTEST AGAINST SUBWAY ROUTE

West Duluth Club Wants the Present Intersection Used.

Members of the West Duluth Commercial club are planning an indignation meeting Friday evening because of the recommendations made yesterday at the meeting of the city commission regarding the route for the subway under the Northern Pacific railroad at Smithville. The members say that the residents of the western suburbs have shown that they want the subway to be located at the present intersection of the old county road and the railroad.

"Is the commission determined to save the railroad money in this matter at the expense of the city?" asked Thomas Olafson this morning. "The railroad is aware that it has to build the subway and is now seeking the cheapest method of doing it, and our commissioners appear to have fallen in line with the railroad officials.

"In case the Gogebic street route is chosen the city will have to condemn parts of six lots on the upper side of the railroad in order to get under. It will also have to condemn lots on the lower side if it wishes to avoid a number of sharp turns. The city will have to pay for these parts of lots and not the railroad. If this route is chosen it is probable that the other will be vacated, and then the city will have to pay damages to property owners above the railroad between the school house and Gogebic street. This will place the city in a position of making an outlay of several thousands of dollars for damages.

"The subway under the tracks on the old county road will cost nothing but the price of approaches. There will be no damages to pay. The dirt to be removed can be utilized for filling the street a block below the tracks. Many unnecessary turns will also be avoided. There is no reason why the city should try to save the Northern Pacific any money, the road has never gone out of its way to do so for the city."

BACK IS BROKEN.

Structural Iron Worker Victim of Accident Which May Prove Fatal.

William English, structural iron worker employed at the Universal Portland Cement plant had his backbone broken in an accident at the plant at 7:30 o'clock this morning. He was taken to St. Mary's hospital where it is not believed he can recover.

The accident occurred while he was assisting in the placing of a boiler for the company's hoisting engines. A steel cable broke dropping the heavy boiler on the man.

English had been working at the plant for several months. He is believed to have relatives in Hammond, Ind. He is about 30 years old. His fellow employes do not know whether he is married or single. His employers are making attempts to locate his relatives in order that they may be notified of the accident.

Keehan-Krouse.

The wedding of Miss Irene Keehan, daughter of Mr. and Mrs. James L. Keehan, 4709 West Sixth street, to Walter Krouse of Chisholm, will take place Saturday morning at 9 o'clock at the St. James' Catholic church. Rev. D. W. Lynch will read the ceremony.

Mr. Krouse is a well known merchant of Chisholm. Following the wedding they will spend two weeks on a honeymoon trip and be at home after May 10 at Chisholm.

P. A. T.

Are you going on the special train to help institute the new Proctor Moose lodge, Monday evening, April 27. If so leave your name with Perly.

Will Give Cantata.

Pupils of the Merritt school will appear in a cantata, "Welcome to Spring," at the school tomorrow afternoon and evening. The program has been prepared under the direction of the teachers.

Nearly every room in the building will be represented on the program. A small admission fee is to be charged and the receipts will be used for the purpose of purchasing a musical instrument for the school.

West Duluth Briefs.

Haymakers' tribe, No. 25½, I. O. R. M., has planned a dancing party for next Tuesday evening at the Great Eastern hall. The committee in charge consists of James E. Foubister, John Connolly, Joseph Lauermann, T. Fitzgibbons and Ed Sugars.

Miss May Larrive, 620 North Fifty-sixth avenue west, was operated on yesterday at St. Mary's hospital. Her condition is reported as favorable.

The body of Bertram W. Roberts, who died of hemmorhage of the lungs Monday evening was taken last evening to Minneapolis where the funeral will be held today. Mrs. Roberts accompanied the body.

Watch repairing, Hurst, West Duluth.

The Ladies' Aid Society of the Westminster Presbyterian church will entertain this evening at the home of Mrs. G. L. Shoup, 122 North Fifty-third avenue west. The program will include musical and literary selections.

REWARD

$10.00 reward will be paid for information leading to the recovery of Smith Premier No. 2 Typewriter taken from this office on the night of April 17.

Brooks Lumber Co.

Marine

ICE ON THE LAKES IS DISAPPEARING

Whitefish Bay and St. Mary's River Will Soon Be Cleared.

According to the ice reports just issued by the United States department of agriculture, ice on the Great Lakes, bays, rivers and harbors is fast disappearing and will soon offer no obstacles to mariners. A passage of St. Mary's river is reported possible and at Whitefish point a southwest wind would move the ice out. No ice is visible in the lake at Duluth and only a little in the harbor. This is about the docks at Superior. The summary of conditions follows:

"The reports from the regular and display stations of the weather bureau and the meteorological service of Canada indicate that the west and central portions of Superior are practically free of ice fields. The fields over the extreme eastern portion are broken and moving with the winds. The ice in Whitefish bay is intact but is softening and the indications are that a strong wind from the southwest would move the ice out. The latest reports from St Mary's river state that there is open water from Point Iroquois south to upper Mud lake; the ice at Sweet's point is eighteen inches in thickness; the warm weather of the latter part of the week softened the ice, but the cold of April 19 and 20 stiffened the ice to some extent. It is believed that a passage can be forced without great difficulty. The ice in Green bay has broken up and has mostly disappeared over the southern and central portions and is ready to move out over the extreme northern portion. In Michigan no ice fields were reported south of Harbor Springs and the report from Mackinaw states that the ice moved out during the week and that vessels were passing up and down through the straits on April 20. The field over the extreme southern portion of Huron was driven northeast by the winds on April 17 and 18, and no ice was visible from Port Huron on April 19. The ice that moved down the St. Clair river on Thursday and Friday disappeared on Saturday. In Lake Erie the fields are confined to the extreme eastern portion. This field is broken and the ice is soft and offers no serious obstruction to navigation. In Ontario the fields have disappeared and the harbors are open.

"In comparison with the same period last year there is less ice in Lake Superior and about the same amount in the other lakes.

"As general navigation has been resumed, this will be the last ice report of the season. The movement of the ice out of Whitefish bay will open the last channel for passage of vessels into or from Lake Superior.

"The display of storm warnings on the lakes was resumed on April 16."

ITCHY SALT RHEUM

Sometimes Called Eczema---Removed By Hood's Sarsaparilla.

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. How it reddens the skin, itches, oozes, dries and scales, and then does this all over again! Sometimes it covers the whole body with inflamed, burning patches and causes intense suffering.

Salt rheum comes from humors in the blood. This is why local applications do so little good. It will continue to exist, annoy, pain and perhaps agonize, until these humors have been removed.

Ask your druggist for Hood's Sarsaparilla. It goes to the source of the trouble. It cleanses the blood of the humors that cause salt rheum. It has given perfect satisfaction in thousands of cases. Get it today.

GAINED POSSESSION OF VERA CRUZ BREASTWORKS

American Forces Hold Position on Railroad to Mexico City.

Mexicans May Make Attack on Vera Cruz With Reinforcements.

Washington, April 23.—American marines and bluejackets today gained possession of the breastworks three miles inland from Vera Cruz. This position is on the railroad to Mexico City and had been in possession of Huerta soldiers since the United States forces took possession of the city.

Mexicans May Attack.

Vera Cruz, Mex., April 23.—Gen. Gustavo Maas, former Mexican commander at Vera Cruz, was reported today to be intending to move against the city with strong reinforcements brought up from Puebla.

Federals Get Busy.

Eagle Pass, Tex., April 23.—After destroying machinery in railroad shops, blowing up railroad switches and removing instruments from the telegraph offices in Piedras Negras, Mex., opposite this place, early today, a party of Mexican Federals was prevented from blowing up the Mexican end of the international bridge when the American border patrol arrived.

Escaped the Embargo.

El Paso, Tex., April 23.—Four Mexican troop trains and one train loaded with horses and ammunition are said to have left Chihuahua last night for Juarez, across the river from here. The forces, it is said, are commanded by Gen. Toribio Ortega. The news was telephoned to Col. Hatfield, commanding at Fort Bliss, and he sent the information with a request for instructions to the war department.

At Juarez every effort was made to conceal news of the trains. The bare facts as given, however, were coaxed from an apparently authentic source. Col. Hatfield today put into effect the order restoring the embargo on arms and ammunition consigned to Mexico.

Marine Killed by Mistake.

Vera Cruz, Mex., April 23.—The first proclamation issued in this city by Americans since the last war between the United States and Mexico, ended in 1848, was posted on the walls today and was read with interest by the Mexican inhabitants.

Rear Admiral Fletcher had had printed his original statement assuring the citizens that he and his force of bluejackets and marines purposed to assist them in the restoration of civil government. He added that the armed forces would hold the city, but that Mexican officials were invited and urged to return to their posts.

One of the American marines was killed during the night by a young bluejacket. The sailor was on sentry duty and became excited when he saw a figure move towards him out of the darkness. He forgot his instructions to challenge three times and fired immediately, the marine falling dead.

Rioting at Puerto Mexico.

Galveston, Tex., April 23.—Wireless messages received here today from Puerto Mexico, 120 miles south of Vera Cruz on the Mexican gulf coast, where Mexicans rioted yesterday against foreigners, indicated that probably there had been no loss of life.

L. P. Boone, superintendent of the National Tehuantepec terminals at Puerto Mexico, asked that his mother at Fort Sam Houston be notified that he was safe aboard the steamship Texan in the harbor.

Dr. George R. Tabor of the United States marine hospital service reported he was safe aboard the steamer Dakota in Puerto Mexico harbor.

LUMBER WILL BE MOVING SOON

Orders Are Already Taken and Season's Outlook Is Good.

Within ten days or two weeks the lumber movement down the Great Lakes will begin. Several orders from Eastern concerns have been booked and the inquiry for lumber is reported good, but no vessels have yet been loaded.

The output at Duluth mills is not overly heavy this spring, and it is doubtful if the mills can be kept running all summer because of the shortage of logs. Three mills are running at present. These are the Scott-Graff mill, Alger-Smith and Mullery-McDonald. One of the Mullery-McDonald mills has not opened yet, and probably will not open for some time if it does at all this season.

This shortage of logs at the Head of the Lakes is laid to the weather. The logging season was cut short at both ends, making the winter cut small, and the early breaking up of weather in March handicapped hauling in the woods so that the available supply of logs for shipping to the mills is small. Considerable lumber, however, remains from last season, and this will be sent out in the first lake shipments, being in the best condition for building purposes.

According to lumbermen in Duluth the prices of lumber will be better this year owing to the raise in the prices of the Southern product, the curtailment of logs during the winter and the better inquiry this spring.

TWO BOATS START VOYAGE.

Two more big freight vessels started on their first down-lake voyage of the season today. These were the Mary C. Elphicke, which departed at 1 a. m., and the W. G. Pollock, which left some time during the forenoon. Both were loaded with grain.

The Elphicke is a steamer with 4,998 tons gross tonnage and the Pollock 4,872.

Both vessels were to have left port yesterday afternoon, but remained over because of ice conditions at Whitefish Point and the Soo. Conditions at those places are reported more favorable today.

AMERICA STARTS ON SECOND TRIP

The freight and passenger steamer America, owned and operated by the United States & Dominion Transportation company, departed at 10 o'clock this morning for Grand Marais, Port Arthur, Isle Royale and intermediate points. Capt. E. C. Smith reported considerable floating ice along the route, but feels assured of a safe and successful voyage. The America returned from her first trip of the season at 11 a. m. yesterday.

Detroit Passages.

Detroit, Mich., April 23.—(Special to The Herald.)—Up: Fitch, Maitland, 3:40 a. m., Thursday; big Huron,, 4:40; Turrett Cape, 7; La Salle, Owego, 7:30; Wawatom, 8:30; Emma Thompson, 9:40; Midland Prince, 10; Osler, 11:30. Down:

ADMINISTRATION ASKED.

Three petitions for administration were filed today in probate court.

Edgar Prochnik, Austrian consul, asks for the appointment of Moritz Heim as administrator of the estate of Luka Vrban, who was killed in a mine accident at Hibbing on Oct. 5, 1912. The estate consists of $50 in cash and a claim against the man's employers. Vrban's only heir is a father in the old country.

Larry Chopp of this city wants to be administrator of the estate of his late brother, Phillip Chopp, who was killed in an accident at Tower, March 2, last. The estate consists of a claim for wrongful death. The heirs of the estate are a father and mother in Austria.

Nick Matara, who died April 13 at Chisholm, aged 23, leaving an estate of about $1,100 is survived by a 17-year-old widow, Eva Matara. A petition to administer his estate was filed today.

Do You Suspect Your Kidneys?

If So, Warner's Should Be Taken at Once

Pains in the back are not the only symptoms of kidney trouble. A much more frequent indication is general weakness—while other common symptoms are furred tongue, distaste for food, headache and general depression of spirits. When the kidneys fail in their work, from inflammation or Bright's disease, the impurities inevitably return to the blood and that is the beginning of impaired digestion and failing health, with nervous irritability and a dropsical condition. For 37 years Warner's Safe Kidney and Liver Remedy has been restoring health to sufferers in all stages of kidney complaint, and here's another man who appreciates the immense amount of good it has accomplished in his case: "About 7 years ago I was so weak and worn out that I could hardly work. After trying other things without relief, I tried Warner's Safe Kidney and Liver Remedy. In a short time the pain left me, my urine cleared up and the rheumatism and dyspepsia vanished. We have used Warner's ever since with great success in our family."—O. F. Rose, Burtonville, Ky. Warner's Safe Kidney and Liver Remedy is sold everywhere by druggists in 50c and $1.00 sizes. Don't put it off until tomorrow; get it today. Write for free sample and other valuable information to Warner's Safe Remedies Co., Dept. 375, Rochester, N. Y.

ECZEMA

Salt Rheum, Pimples All Skin Diseases Cured

By a rational method of treatments, we heal these diseases completely in the average time of two months. The application of our **treatments brings immediate relief**, and many cases are completely healed within a few weeks' time.

No confinement from work, no dope. **Nature's Remedies applied scientifically bring wonderful results.** We invite you, kind reader, to come and investigate, and examine the pictures of patients we have cured. Many years of experience in the city of Duluth gave us the chance to cure many hundred people from these diseases.

You must come to our office personally for the treatment of these diseases. It's no "mail order proposition" nor a "home treatment." We have only Honest Treatment to offer you, such that results in a permanent cure.

If we can't cure you, we will not take your case. **You pay for results only.** All Blemishes of the Skin disappear within a short time, never to come back again.

APPLEBY SETTLES WITH BARONESS.

London, April 23.—An amicable settlement was reached yesterday in the countersuits between Ernest Villiers Appleby, formerly of the University of Minnesota, and Baroness May De Pallandt, an American woman. Dr. Appleby had claimed $20,000 for a pearl necklace which he purchased for the baroness.

HUBBELL FIREMEN HAVE EASY TASK.

Hubbell, Mich., April 23.—(Special to The Herald.)—Seven years ago Hubbell was the scene of a blaze that destroyed the business district of the village. Since that time fires have been so few that the members of the fire department are out of practice. During the fiscal year recently ended the men responded to only one alarm, and that was on account of a fire outside the village limits so far that it was necessary to stretch 1,500 feet of hose to reach it.

Williams County Fair.

Williston, N. D., April 23.—(Special to The Herald.)—At the annual meeting of the Williams County Fair association, Sept. 2, 3 and 4 were fixed as dates for this year's fair. John Bruegger was elected president, John Heffernan was made vice president, and J. A. Cunningham was elected secretary.

DANDRUFF SURELY DESTROYS THE HAIR

Makes It Dull, Brittle, Lifeless and Causes It To Fall Out.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

West End

LECTURES ON BABIES' CARE

Course of Instruction to Classes of Girls Begun.

First Lecture By Miss Ruth Beckman With Demonstration.

The care of babies, bathing, feeding, clothing and every other detail connected with the raising of an infant will be included in a course of eight lessons to be given a class of girls called "Little Mothers' clubs," organized yesterday afternoon at the Bryant school and another which will be organized this afternoon at the Irving school.

While it was intended to limit the number in a class to twelve the class organized yesterday had fifteen girls from the seventh and eighth grades. Miss Ruth Beckman of the health department, who will have charge of the classes, gave the first general lecture yesterday.

The first lecture included general sanitation of the home. She touched on superfluities of the house, such as overcrowding with pictures, furniture and nicknacks which only tended to gather dust and vermin, and also on the general cleanliness of the yard and home surroundings. Pure air, good ventilation without drafts and the importance of fresh air in the sleeping rooms were also touched on.

Following the lecture Miss Beckman gave a demonstration of bathing and clothing of a baby, using a life size doll in her demonstration. She showed the necessity of using proper care in the preparation of the infant's bath, the requirement of having all articles handy or within reach in order that the child might not be subject to cold drafts after bathing. She also demonstrated the need of having warm towels at hand for drying the baby.

Among the subjects to be lectured on, many of which will be with actual demonstrations, will be the handling of the baby. This will include a lecture on anatomy, causes of deformities, necessity for changing the child's position, the supporting of the head and the ill effects of handling the child after it has been fed. The child's bed in relation to warmth, ventilation, light, bedding, cleaning and making will also be discussed. Its clothing will be given consideration as to materials, cost, patterns and serviceability.

The lectures as planned will include also the subject of feeding, the advantages of natural feeding and regular feeding as well as the dangers of overfeeding. The course will include instruction on artificial feeding, cow's milk and the source of supply, sterilization and pasteurization of milk as well as the boiling of water.

The summer care of infants, causes of high death rate in summer, how to detect signs of illness and also the development of the child will furnish subjects for the lectures.

MRS. JANZIG DIES.

Aged Resident of Hermantown Succumbs After Long Illness.

Mrs. Henrietta Janzig, 87 years old, a resident of Hermantown for more than a quarter of a century, died yesterday afternoon after an illness of several months at the home of her daughter, Mrs. Herman Briesemeister of Hermantown. Mrs. Janzig came to Minnesota with her husband forty years ago.

She leaves four sons and three daughters. The funeral will be held Monday afternoon from her daughter's home with burial in the Hermantown cemetery.

LAST APPEARANCE OF "TRAMP ORCHESTRA."

The "tramp orchestra" composed of members from the Sons of Sweden lodge, No. 170, Vasa order, will make its final appearance in a concert and entertainment to be given tomorrow night for members and friends of the lodge at the Woodmen hall, Twenty-first avenue west and First street. The orchestra was organized about two years ago and owing to a number of its members intending to leave the city in the near future it will disband.

The program for the evening will include an address of welcome by Gust Landin, musical numbers given by individual members of the band, and selections by the full orchestra. There will also be addresses boosting the midsummer festival to be held by the Swedish organizations in June and at the close of the program there will be dancing.

Will Preach in English.

"The Wooing of the Holy Spirit," will be the subject of a sermon given in English by Rev. Gust F. Johnson of Minneapolis at the Swedish Mission church, Twenty-first avenue west and Second street, tonight. The sermon will be the only one of the series given in the English language. This afternoon, Rev. Mr. Johnson will conducts a special meeting in the church.

Larson-Rasmussen Wedding.

Miss Anna M. Larson and Louis E. Rasmussen were married last evening at the parsonage of the Central Baptist church, 502 North Twenty-fifth avenue west. Rev. Milton Fish conducted the service. Mr. and Mrs. Rasmussen left last night for a short wedding trip to the Twin Cities, and will make their home in this end of the city after May 1.

Will Tell of Convention.

Mrs. Milton Fish, who recently returned from the meeting of the Foreign Missionery Societies of the Northwest at Minneapolis, will give an account of the affair at the midweek meeting at the Central Baptist church, Twentieth avenue west and First street, this evening. The gathering is said to have been one of the largest in the history of Baptist missionary societies in the Northwest.

West End Briefs.

Rev. E. H. Rasmussen, state evangelist for the Minnesota Baptist churches will conduct a series of revival meetings in the Central Baptist church beginning next week.

The confirmation class of the First Norwegian Danish M. E. church, Twenty-fourth avenue west and Third street, will entertain at a social and reception in the church this evening.

The Allen Bible class of the Grace M. E. church has arranged to repeat its "Scenes at the Union Depot," at the Columbia hall, tomorrow night.

The Rebekah Guild of St. Peter's Episcopal church was entertained this afternoon at the home of Mrs. Adolph Olson, 429 North Twenty-sixth avenue west.

Rev. Swaney Nelson, pastor of the First Swedish Baptist church will leave tomorrow for Brunswick, Minn., where he will take part in a series of revival meetings.

HOW TO SAVE YOUR EYES

Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye trouble to disappear as if by magic? Try this prescription: Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with water, drop in one tablet and allow to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes, and you will thank us as long as you live for publishing this prescription.

EMPLOYES PRAISE STEEL CORPORATION

Labor Conditions Greatly Improved, According to Reports at Annual Meeting.

Many interesting points were brought out in the reports and during the discussions at the thirteenth annual meeting of the United States Steel corporation, held at Hoboken, N. J., on Monday.

The rate of wages now being paid to employes of the corporation is the highest in the history of the iron and steel industry, according to the report of the committee appointed to investigate general labor conditions among employes. The payroll for 1913 reached a total of $207,206,176. The average daily wage, exclusive of administrative and selling forces was $2.85. The advance in wages of some classes of employes made in February, 1913, involved an increased expenditure of $12,000,000 annually.

In 1913, $2,564,839 was paid to injured workmen. Much work has been done towards lessening and preventing accidents to workmen, $660,593 having been expended in safety work during the twelve months. Serious accidents per 1,000 employes are now 33¼ per cent less than in 1906, when that work was first taken up.

Subscriptions by employes for stock under the corporation's profit-sharing plan last January totaled 90,606, divided among 46,498 men.

There were 425 pensions granted last year, bringing the total number of pensioners up to 2,092, who receive $422,815 annually.

Employes of the corporation present lauded the management for the consideration shown in the treatment accorded the men at the various plants. The statement that working conditions in the mills have improved 100 per cent since the corporation was organized, was made by an Ohio man.

MAYOR FINALLY WINS.

Grand Forks Executive Gets His Appointments Confirmed.

Grand Forks, N. D., April 23.—(Special to The Herald.)—Unsuccessful Tuesday evening in obtaining confirmation of his appointment by the city council, Mayor James A. Dinnie called the aldermen to a special session late yesterday and secured the confirmation of all of the appointments proposed.

Charges that an organized movement has been fostered in the council, designed at preventing the appointment of certain men to city office, were rife after Dinnie's failure to obtain confirmation.

Mayor Dinnie's appointments confirmed yesterday include, police matron, Miss Pearl Blough, formerly of Minneapolis; chief of police, J. W. Lowe; city auditor, W. H. Alexander; street commissioner, Charles L. Van Alstine; food inspector, Mrs. R. A. Sprague.

MAY BUILD LOOP.

Electric Line Contemplated in North Dakota to Reach Railroad.

Ray, N. D., April 23.—(Special to The Herald.)—An electric line ninety miles in length in the form of a loop may be constructed by the farmers of Williams county. The irrigated sections of the county are not close to the railroad. As a result the farmers have a long haul on all products. The agents for the Better Farming movement have organized many farmers' clubs in that territory and the members are enthusiastic over a co-operative plan to organize and construct the road. By placing the power house in the center of the lignite coal belt power could be cheaply secured. The grades would not be heavy and the roadbed would not be an extensive proposition. The ninety-mile loop would take in the best farming country in the county and insure an increased population.

HORSE THIEF WAITS.

Conceals Self in Stall and Steals Animal Placed Therein.

Driscoll, N. D., April 23.—(Special to The Herald.)—A horse thief, hidden in a stall, awaited the return of A. P. Rosvold from Driscoll, at his farm four miles from here in the evening, then later stole a pet mare, rode the animal to Robinson, where he evidently became frightened, and abandoned her. Mr. Rosvold believes the thief was concealed in the stall when he drove the mare home.

RED AND INFLAMED WATERY ERUPTION

On Child's Ear. Itched and Burned Badly. Cross and Fretful. Could Not Lie on Ear at All. After Using Cuticura Soap and Ointment No Trace of Trouble Remained.

R. F. D. No. 17, Owensville, Ind.—"When my little girl was about two years old small watery pimples came on her ear. They got worse all the time. They itched and burned so badly she would scratch them and cause them to spread until her whole ear was one large sore. Small pimples came all over her head. This trouble caused much itching and burning and she could not sleep and was very cross and fretful and she could not lie on her ear at all. The places broke out all through the hair which caused it to fall out by the handful. The spots were very red and inflamed and watery.

"I sent and got a sample of Cuticura Soap and Ointment and decided to try these. After using the sample her ear and scalp did not cause so much pain and itching and did not look so inflamed so I bought the full-sized cake of Cuticura Soap and the Cuticura Ointment. In a short time it began to heal and the inflammation was gone. She could sleep at night and in a week's time not a spot or pimple or a trace of the trouble remained and not since then has it returned." (Signed) Mrs. Lulu Reed, March 26, 1913.

Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

☞Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

Do You Suspect Your Kidneys?

If So, Warner's Should Be Taken at Once

Pains in the back are not the only symptoms of kidney trouble. A much more frequent indication is general weakness—while other common symptoms are furred tongue, distaste for food, headache and general depression of spirits. When the kidneys fail in their work, from inflammation or Bright's disease, the impurities inevitably return to the blood and that is the beginning of impaired digestion and failing health, with nervous irritability and a dropsical condition. For 37 years Warner's Safe Kidney and Liver Remedy has been restoring health to sufferers in all stages of kidney complaint, and here's another man who appreciates the immense amount of good it has accomplished in his case: "About 7 years ago I was so weak and worn out that I could hardly work. After trying other things without relief, I tried Warner's Safe Kidney and Liver Remedy. In a short time the pain left me, my urine cleared up and the rheumatism and dyspepsia vanished. We have used Warner's ever since with great success in our family."—O. F. Rose, Bartonville, Ky. Warner's Safe Kidney and Liver Remedy is sold everywhere by druggists in 50c and $1.00 sizes. Don't put it off until tomorrow; get it today. Write for free sample and other valuable information to Warner's Safe Remedies Co., Dept. 375, Rochester, N. Y.

APPLEBY SETTLES WITH BARONESS.

London, April 23.—An amicable settlement was reached yesterday in the countersuits between Ernest Villiers Appleby, formerly of the University of Minnesota, and Baroness May De Pallandt, an American woman. Dr. Appleby had claimed $20,000 for a pearl necklace which he purchased for the baroness.

HUBBELL FIREMEN HAVE EASY TASK.

Hubbell, Mich., April 23.—(Special to The Herald.)—Seven years ago Hubbell was the scene of a blaze that destroyed the business district of the village. Since that time fires have been so few that the members of the fire department are out of practice. During the fiscal year recently ended the men responded to only one alarm, and that was on account of a fire outside the village limits so far that it was necessary to stretch 1,500 feet of hose to reach it.

Williams County Fair.

Williston, N. D., April 23.—(Special to The Herald.)—At the annual meeting of the Williams County Fair association, Sept. 2, 3 and 4 were fixed as dates for this year's fair. John Bruegger was elected president, John Heffernan was made vice president, and J. A. Cunningham was elected secretary.

DANDRUFF SURELY DESTROYS THE HAIR

Makes It Dull, Brittle, Lifeless and Causes It To Fall Out.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

West End

LECTURES ON BABIES' CARE

Course of Instruction to Classes of Girls Begun.

First Lecture By Miss Ruth Beckman With Demonstration.

The care of babies, bathing, feeding, clothing and every other detail connected with the raising of an infant will be included in a course of eight lessons to be given a class of girls called "Little Mothers' clubs," organized yesterday afternoon at the Bryant school and another which will be organized this afternoon at the Irving school.

While it was intended to limit the number in a class to twelve the class organized yesterday had fifteen girls from the seventh and eighth grades. Miss Ruth Beckman of the health department, who will have charge of the classes, gave the first general lecture yesterday.

The first lecture included general sanitation of the home. She touched on superfluities of the house, such as overcrowding with pictures, furniture and nicknacks which only tended to gather dust and vermin, and also on the general cleanliness of the yard and home surroundings. Pure air, good ventilation without drafts and the importance of fresh air in the sleeping rooms were also touched on.

Following the lecture Miss Beckman gave a demonstration of bathing and clothing of a baby, using a life size doll in her demonstration. She showed the necessity of using proper care in the preparation of the infant's bath, the requirement of having all articles handy or within reach in order that the child might not be subject to cold drafts after bathing. She also demonstrated the need of having warm towels at hand for drying the baby.

Among the subjects to be lectured on, many of which will be with actual demonstrations, will be the handling of the baby. This will include a lecture on anatomy, causes of deformities, necessity for changing the child's position, the supporting of the head and the ill effects of handling the child after it has been fed. The child's bed in relation to warmth, ventilation, light, bedding, cleaning and making will also be discussed. Its clothing will be given consideration as to materials, cost, patterns and serviceability.

The lectures as planned will include also the subject of feeding, the advantages of natural feeding and regular feeding as well as the dangers of overfeeding. The course will include instruction on artificial feeding, cow's milk and the source of supply, sterilization and pasteurization of milk as well as the boiling of water.

The summer care of infants, causes of high death rate in summer, how to detect signs of illness and also the development of the child will furnish subjects for the lectures.

MRS. JANZIG DIES.

Aged Resident of Hermantown Succumbs After Long Illness.

Mrs. Henrietta Janzig, 87 years old, a resident of Hermantown for more than a quarter of a century, died yesterday afternoon after an illness of several months at the home of her daughter, Mrs. Herman Briesemeister of Hermantown. Mrs. Janzig came to Minnesota with her husband forty years ago.

She leaves four sons and three daughters. The funeral will be held Monday afternoon from her daughter's home with burial in the Hermantown cemetery.

LAST APPEARANCE OF "TRAMP ORCHESTRA."

The "tramp orchestra" composed of members from the Sons of Sweden lodge, No. 170, Vasa order, will make its final appearance in a concert and entertainment to be given tomorrow night for members and friends of the lodge at the Woodmen hall, Twenty-first avenue west and First street. The orchestra was organized about two years ago and owing to a number of its members intending to leave the city in the near future it will disband.

The program for the evening will include an address of welcome by Gust Landin, musical numbers given by individual members of the band, and selections by the full orchestra. There will also be addresses boosting the midsummer festival to be held by the Swedish organizations in June and at the close of the program there will be dancing.

Will Preach in English.

"The Wooing of the Holy Spirit," will be the subject of a sermon given in English by Rev. Gust F. Johnson of Minneapolis at the Swedish Mission church, Twenty-first avenue west and Second street, tonight. The sermon will be the only one of the series given in the English language. This afternoon, Rev. Mr. Johnson will conducts a special meeting in the church.

Larson-Rasmussen Wedding.

Miss Anna M. Larson and Louis E. Rasmussen were married last evening at the parsonage of the Central Baptist church, 502 North Twenty-fifth avenue west. Rev. Milton Fish conducted the service. Mr. and Mrs. Rasmussen left last night for a short wedding trip to the Twin Cities, and will make their home in this end of the city after May 1.

Will Tell of Convention.

Mrs. Milton Fish, who recently returned from the meeting of the Foreign Missionery Societies of the Northwest at Minneapolis, will give an account of the affair at the midweek meeting at the Central Baptist church, Twentieth avenue west and First street, this evening. The gathering is said to have been one of the largest in the history of Baptist missionary societies in the Northwest.

West End Briefs.

Rev. E. H. Rasmussen, state evangelist for the Minnesota Baptist churches will conduct a series of revival meetings in the Central Baptist church beginning next week.

The confirmation class of the First Norwegian Danish M. E. church, Twenty-fourth avenue west and Third street, will entertain at a social and reception in the church this evening.

The Allen Bible class of the Grace M. E. church has arranged to repeat its "Scenes at the Union Depot," at the Columbia hall, tomorrow night.

The Rebekah Guild of St. Peter's Episcopal church was entertained this afternoon at the home of Mrs. Adolph Olson, 429 North Twenty-sixth avenue west.

Rev. Swaney Nelson, pastor of the First Swedish Baptist church will leave tomorrow for Brunswick, Minn., where he will take part in a series of revival meetings.

HOW TO SAVE YOUR EYES

Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye trouble to disappear as if by magic? Try this prescription: Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with water, drop in one tablet and allow to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes, and you will thank us as long as you live for publishing this prescription.

EMPLOYES PRAISE STEEL CORPORATION

Labor Conditions Greatly Improved, According to Reports at Annual Meeting.

Many interesting points were brought out in the reports and during the discussions at the thirteenth annual meeting of the United States Steel corporation, held at Hoboken, N. J., on Monday.

The rate of wages now being paid to employes of the corporation is the highest in the history of the iron and steel industry, according to the report of the committee appointed to investigate general labor conditions among employes. The payroll for 1913 reached a total of $207,206,176. The average daily wage, exclusive of administrative and selling forces was $2.85. The advance in wages of some classes of employes made in February, 1913, involved an increased expenditure of $12,000,000 annually.

In 1913, $2,564,839 was paid to injured workmen. Much work has been done towards lessening and preventing accidents to workmen, $660,593 having been expended in safety work during the twelve months. Serious accidents per 1,000 employes are now 33¼ per cent less than in 1906, when that work was first taken up.

Subscriptions by employes for stock under the corporation's profit-sharing plan last January totaled 90,606, divided among 46,498 men.

There were 425 pensions granted last year, bringing the total number of pensioners up to 2,092, who receive $422,815 annually.

Employes of the corporation present lauded the management for the consideration shown in the treatment accorded the men at the various plants. The statement that working conditions in the mills have improved 100 per cent since the corporation was organized, was made by an Ohio man.

MAYOR FINALLY WINS.

Grand Forks Executive Gets His Appointments Confirmed.

Grand Forks, N. D., April 23.—(Special to The Herald.)—Unsuccessful Tuesday evening in obtaining confirmation of his appointment by the city council, Mayor James A. Dinnie, called the aldermen into a special session late yesterday and secured the confirmation of all of the appointments proposed.

Charges that an organized movement has been fostered in the council, designed at preventing the appointment of certain men to city office, were rife after Dinnie's failure to obtain confirmation.

Mayor Dinnie's appointments confirmed yesterday include, police matron, Miss Pearl Blough, formerly of Minneapolis; chief of police, J. W. Lowe; city auditor, W. H. Alexander; street commissioner, Charles L. Van Alstine; food inspector, Mrs. R. A. Sprague.

MAY BUILD LOOP.

Electric Line Contemplated in North Dakota to Reach Railroad.

Ray, N. D., April 23.—(Special to The Herald.)—An electric line ninety miles in length in the form of a loop may be constructed by the farmers of Williams county. The irrigated sections of the county are not close to the railroad. As a result the farmers have a long haul on all products. The agents for the Better Farming movement have organized many farmers' clubs in that territory and the members are enthusiastic over a co-operative plan to organize and construct the road. By placing the power house in the center of the lignite coal belt power could be cheaply secured. The grades would not be heavy and the roadbed would not be an extensive proposition. The ninety-mile loop would take in the best farming country in the county and insure an increased population.

HORSE THIEF WAITS.

Conceals Self in Stall and Steals Animal Placed Therein.

Driscoll, N. D., April 23.—(Special to The Herald.)—A horse thief, hidden in a stall, awaited the return of A. P. Rosvold from Driscoll, at his farm four miles from here in the evening, then later stole a pet mare, rode the animal to Robinson, where he evidently became frightened, and abandoned her. Mr. Rosvold believes the thief was concealed in the stall when he drove the mare home.

APPLEBY SETTLES WITH BARONESS.

London, April 23.—An amicable settlement was reached yesterday in the countersuits between Ernest Villiers Appleby, formerly of the University of Minnesota, and Baroness May De Pailandt, an American woman. Dr. Appleby had claimed $20,000 for a pearl necklace which he purchased for the baroness.

HUBBELL FIREMEN HAVE EASY TASK.

Hubbell, Mich., April 23.—(Special to The Herald.)—Seven years ago Hubbell was the scene of a blaze that destroyed the business district of the village. Since that time fires have been so few that the members of the fire department are out of practice. During the fiscal year recently ended the men responded to only one alarm, and that was on account of a fire outside the village limits so far that it was necessary to stretch 1,500 feet of hose to reach it.

Williams County Fair.

Williston, N. D., April 23.—(Special to The Herald.)—At the annual meeting of the Williams County Fair association, Sept. 2, 3 and 4 were fixed as dates for this year's fair. John Bruegger was elected president, John Heffernan was made vice president, and J. A. Cunningham was elected secretary.

DANDRUFF SURELY DESTROYS THE HAIR

Makes It Dull, Brittle, Lifeless and Causes It To Fall Out.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

West End

LECTURES ON BABIES' CARE

Course of Instruction to Classes of Girls Begun.

First Lecture By Miss Ruth Beckman With Demonstration.

The care of babies, bathing, feeding, clothing and every other detail connected with the raising of an infant will be included in a course of eight lessons to be given a class of girls called "Little Mothers' clubs," organized yesterday afternoon at the Bryant school and another which will be organized this afternoon at the Irving school.

While it was intended to limit the number in a class to twelve the class organized yesterday had fifteen girls from the seventh and eighth grades. Miss Ruth Beckman of the health department, who will have charge of the classes, gave the first general lecture yesterday.

The first lecture included general sanitation of the home. She touched on superfluities of the house, such as overcrowding with pictures, furniture and nicknacks which only tended to gather dust and vermin, and also on the general cleanliness of the yard and home surroundings. Pure air, good ventilation without drafts and the importance of fresh air in the sleeping rooms were also touched on.

Following the lecture Miss Beckman gave a demonstration of bathing and clothing of a baby, using a life size doll in her demonstration. She showed the necessity of using proper care in the preparation of the infant's bath the requirement of having all articles handy or within reach in order that the child might not be subject to cold drafts after bathing. She also demonstrated the need of having warm towels at hand for drying the baby.

Among the subjects to be lectured on, many of which will be with actual demonstrations, will be the handling of the baby. This will include a lecture on anatomy, causes of deformities, necessity for changing the child's position, the supporting of the head and the ill effects of handling the child after it has been fed. The child's bed in relation to warmth, ventilation, light, bedding, cleaning and making will also be discussed. Its clothing will be given consideration as to materials, cost, patterns and serviceability.

The lectures as planned will include also the subject of feeding, the advantages of natural feeding and regular feeding as well as the dangers of overfeeding. The course will include instruction on artificial feeding, cow's milk and the source of supply, sterilization and pasteurization of milk as well as the boiling of water.

The summer care of infants, causes of high death rate in summer, how to detect signs of illness and also the development of the child will furnish subjects for the lectures.

MRS. JANZIG DIES.

Aged Resident of Hermantown Succumbs After Long Illness.

Mrs. Henrietta Janzig, 87 years old, a resident of Hermantown for more than a quarter of a century, died yesterday afternoon after an illness of several months at the home of her daughter, Mrs. Herman Briesemeister of Hermantown. Mrs. Janzig came to Minnesota with her husband forty years ago.

She leaves four sons and three daughters. The funeral will be held Monday afternoon from her daughter's home with burial in the Hermantown cemetery.

LAST APPEARANCE OF "TRAMP ORCHESTRA."

The "tramp orchestra" composed of members from the Sons of Sweden lodge, No. 170, Vasa order, will make its final appearance in a concert and entertainment to be given tomorrow night for members and friends of the lodge at the Woodmen hall, Twenty-first avenue west and First street. The orchestra was organized about two years ago and owing to a number of its members intending to leave the city in the near future it will disband.

The program for the evening will include an address of welcome by Gust Landin, musical numbers given by individual members of the band, and selections by the full orchestra. There will also be addresses boosting the midsummer festival to be held by the Swedish organizations in June and at the close of the program there will be dancing.

Will Preach in English.

"The Wooing of the Holy Spirit," will be the subject of a sermon given in English by Rev. Gust F. Johnson of Minneapolis at the Swedish Mission church, Twenty-first avenue west and Second street, tonight. The sermon will be the only one of the series given in the English language. This afternoon, Rev. Mr. Johnson will conducts a special meeting in the church.

Larson-Rasmussen Wedding.

Miss Anna M. Larson and Louis E. Rasmussen were married last evening at the parsonage of the Central Baptist church, 502 North Twenty-fifth avenue west. Rev. Milton Fish conducted the service. Mr. and Mrs. Rasmussen left last night for a short wedding trip to the Twin Cities, and will make their home in this end of the city after May 1.

Will Tell of Convention.

Mrs. Milton Fish, who recently returned from the meeting of the Foreign Missionery Societies of the Northwest at Minneapolis, will give an account of the affair at the midweek meeting at the Central Baptist church, Twentieth avenue west and First street, this evening. The gathering is said to have been one of the largest in the history of Baptist missionary societies in the Northwest.

West End Briefs.

Rev. E. H. Rasmussen, state evangelist for the Minnesota Baptist churches will conduct a series of revival meetings in the Central Baptist church beginning next week.

The confirmation class of the First Norwegian Danish M. E. church, Twenty-fourth avenue west and Third street, will entertain at a social and reception in the church this evening.

The Allen Bible class of the Grace M. E. church has arranged to repeat its "Scenes at the Union Depot," at the Columbia hall, tomorrow night.

The Rebekah Guild of St. Peter's Episcopal church was entertained this afternoon at the home of Mrs. Adolph Olson, 429 North Twenty-sixth avenue west.

Rev. Swaney Nelson, pastor of the First Swedish Baptist church will leave tomorrow for Brunswick, Minn., where he will take part in a series of revival meetings.

HOW TO SAVE YOUR EYES

Try This Free Prescription

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription which has benefited the eyes of so many may work equal wonders for you. Use it a short time. Would you like your eye trouble to disappear as if by magic? Try this prescription: Go to the nearest wide-awake drug store and get a bottle of Optona tablets; fill a two-ounce bottle with water, drop in one tablet and allow to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes, and you will thank us as long as you live for publishing this prescription.

EMPLOYES PRAISE STEEL CORPORATION

Labor Conditions Greatly Improved, According to Reports at Annual Meeting.

Many interesting points were brought out in the reports and during the discussions at the thirteenth annual meeting of the United States Steel corporation, held at Hoboken, N. J., on Monday.

The rate of wages now being paid to employes of the corporation is the highest in the history of the iron and steel industry, according to the report of the committee appointed to investigate general labor conditions among employes. The payroll for 1913 reached a total of $207,206,176. The average daily wage, exclusive of administrative and selling forces was $2.85. The advance in wages of some classes of employes made in February, 1913, involved an increased expenditure of $12,000,000 annually.

In 1913, $2,564,439 was paid to injured workmen. Much work has been done towards lessening and preventing accidents to workmen, $660,593 having been expended in safety work during the twelve months. Serious accidents per 1,000 employes are now 33¼ per cent less than in 1906, when that work was first taken up.

Subscriptions by employes for stock under the corporation's profit-sharing plan last January totaled 90,606, divided among 46,498 men.

There were 425 pensions granted last year, bringing the total number of pensioners up to 2,092, who receive $422,815 annually.

Employes of the corporation present lauded the management for the consideration shown in the treatment accorded the men at the various plants. The statement that working conditions in the mills have improved 100 per cent since the corporation was organized, was made by an Ohio man.

MAYOR FINALLY WINS.

Grand Forks Executive Gets His Appointments Confirmed.

Grand Forks, N. D., April 23.—(Special to The Herald.)—Unsuccessful Tuesday evening in obtaining confirmation of his appointment by the city council, Mayor James A. Dinnie called the aldermen into a special session late yesterday and secured the confirmation of all of the appointments proposed.

Charges that an organized movement has been fostered in the council, designed at preventing the appointment of certain men to city office, were rife after Dinnie's failure to obtain confirmation.

Mayor Dinnie's appointments confirmed yesterday include, police matron, Miss Pearl Blough, formerly of Minneapolis; chief of police, J. W. Lowe; city auditor, W. H. Alexander; street commissioner, Charles L. Van Alstine; food inspector, Mrs. R. A. Sprague.

MAY BUILD LOOP.

Electric Line Contemplated in North Dakota to Reach Railroad.

Ray, N. D., April 23.—(Special to The Herald.)—An electric line ninety miles in length in the form of a loop may be constructed by the farmers of Williams county. The irrigated sections of the county are not close to the railroad. As a result the farmers have a long haul on all products. The agents for the Better Farming movement have organized many farmers' clubs in that territory and the members are enthusiastic over a co-operative plan to organize and construct the road. By placing the power house in the center of the lignite coal belt power could be cheaply secured. The grades would not be heavy and the roadbed would not be an extensive proposition. The ninety-mile loop would take in the best farming country in the county and insure an increased population.

HORSE THIEF WAITS.

Conceals Self in Stall and Steals Animal Placed Therein.

Driscoll, N. D., April 23.—(Special to The Herald.)—A horse thief, hidden in a stall, awaited the return of A. P. Rosvold from Driscoll, at his farm four miles from here in the evening, then later stole a pet mare, rode the animal to Robinson, where he evidently became frightened, and abandoned her. Mr. Rosvold believes the thief was concealed in the stall when he drove the mare home.

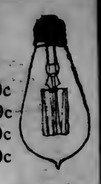
RED AND INFLAMED WATERY ERUPTION

On Child's Ear. Itched and Burned Badly. Cross and Fretful. Could Not Lie on Ear at All. After Using Cuticura Soap and Ointment No Trace of Trouble Remained.

R. F. D. No. 17, Owensville, Ind.—"When my little girl was about two years old small watery pimples came on her ear. They got worse all the time. They itched and burned so badly she would scratch them and cause them to spread until her whole ear was one large sore. Small pimples came all over her head. This trouble caused much itching and burning and she could not sleep and was very cross and fretful and she could not lie on her ear at all. The places broke out all through the hair which caused it to fall out by the handful. The spots were very red and inflamed and watery.

"I sent and got a sample of Cuticura Soap and Ointment and decided to try these. After using the sample her ear and scalp did not cause so much pain and itching and did not look so inflamed so I bought the full-sized cake of Cuticura Soap and the Cuticura Ointment. In a short time it began to heal and the inflammation was gone. She could sleep at night and in a week's time not a spot or pimple or a trace of the trouble remained and not since then has it returned." (Signed) Mrs. Lulu Reed, March 26, 1913.

Cuticura Soap 25c. and Cuticura Ointment 50c. are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."



☞Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

MILITIA AND RESERVES ARE EXPECTING THE CALL TO ARMS

COMMANDER GUY EATON.

Although no orders have come from the governor to the Duluth Naval Militia and the Minnesota National Guard at Duluth and on the range, preparations are being made to get both commands ready for action in the quickest possible time. Troops are being enlisted to bring the companies up to the full peace quota. Both the naval and land forces expect to be called out within a few days.

In speaking of the situation today, Col. F. E. Resche, commander of the Third regiment, M. N. G., said: "I should not be surprised if a call were issued at any time for the militia and in that case we would go to Fort Snelling the state rendezvous for the troops. The Third regiment is in good condition, although the number of men is considerably below war strength."

Col. Resche said he had received no orders for recruiting the regiment up to war strength, but that each company could at any time enlist men up to the maximum allowed in time of peace. The maximum number in peace is seventy-six men and three officers for each company and the war strength 108 and officers. The companies now, five in all, average about sixty men and two officers each.

These companies, A, C and E of Duluth and F and M on the range, are under the command of Col. Resche and Lieut.-Col. H. V. Eva. The company commands follow: A, Capt. Robert K. Lee; C, Capt. Walter O. Flodin; E, Capt. George W. Stiles; F (Eveleth), Capt. J. C. Hartness; M (Hibbing), Capt. Edward C. Junker.

The naval militia, which consists of three divisions, is under the command of Guy Eaton. C. W. Kelly is executive officer; N. F. Hugo, engineer officer; H. A. Swenson, navigation officer; R. T. Hugo, equipment officer; Dr. Fred Patton, surgeon; Fred Engels, paymaster; Ed. Erickson, pay clerk.

The divisions are commanded as follows: First (Duluth), Lieut. E. G. Smith; Second (Duluth), Lieut. Joseph Carhart, Jr.; Third (Pine City), Lieut. Robert Wilcox.

There are now 220 men besides officers in the Naval Militia. This leaves room for about forty more men.

COL. F. E. RESCHE.

GOMEZ RETIRES AS PRESIDENT

Gen. Bustillos Is Chosen Provisional President of Venezuela.

Caracas, Venezuela, April 23.—Gen. V. Marques Bustillos, secretary of war, has been chosen provisional president of Venezuela in place of President Juan Vicente Gomez, who becomes commander-in-chief of the army.

It is said that after a year Gen. Gomez will again stand for the presidency, having complied with the Constitution, which does not allow a president to serve two consecutive terms.

Dr. Jesus Rojas Fernandez was elected vice president of the republic.

Plenipotentiaries still are in session for the framing of a new Constitution.

German Cruiser To Start.

Berlin, April 23.—The small German cruiser Karlsruhe, which was recently put in commission, has been ordered to proceed to Mexican waters to relieve the cruiser Dresden.

Huerta Partisan Beaten Up.

La Crosse, Wis., April 23.—William J. Brayman, a local Huerta sympathizer, was severely beaten in a barber shop last night by H. B. Sayre, a Northwestern railroad engineer, for saying, "I wouldn't go into Mexico and fire one shot for the dirty rag."

SHORE LEAVE CUT SHORT

Lieut. George Joerns Ordered to Report for Duty at Once.

The Mexican outbreak has cut short the shore leave of Lieut. George Joerns, the son of W. G. Joerns, of this city. He received orders this morning to proceed at once to Boston and to report for duty aboard the North Carolina, one of the big warships.

Lieut. Joerns will be the only Duluthian likely to see active service at Mexico as an officer unless conditions necessitate the calling of the militia or volunteers.

Lieut. Joerns came to Duluth about two weeks ago and expected to have two years of shore duty, part of which he could spend with his father in this city. He had been at sea seven years on board the Buffalo. The last year was spent in Central American waters.

Mrs. Joerns will accompany her husband to Albany, whence he will report at Boston and she will proceed to New York city, where she will join other members of her family.

Lieut. Gerald Howze is now at Vera Cruz. Mrs. Howze is at the home of her parents, Mr. and Mrs. W. E. Richardson.

BRIGHT FEATURES AT "GYM" BANQUET

More Than 100 Gather Around Table at Y. M. C. A. Spread

Replete with interesting features and addresses together with an elaborate menu and a large attendance, the annual banquet of the Y. M. C. A. athletic department given at the "Y" gymnasium last night was a big success. More than 100 guests sat at the table, all of whom were either directly or indirectly connected with the athletic work.

The athletic banquet has been given each year for some time, and always brings out a large attendance. Coming at the close of the winter season, it is given in the nature of a get-together affair for those who have been in gymnasium classes. Director Olson is particularly well pleased with this year's banquet.

The decorations, supervised by Lawrence Gordon, were right up to the minute, being of a patriotic nature. "Old Glory" was in a conspicuous place and was kept floating with an electric fan. A camp scene was another interesting feature.

Music was furnished during the banquet by a six-piece orchestra, directed by Mr. Denny. Music by a male quartet and a tenor solo by Sidney Mortenrud brightened the program. Hon. H. W. Cheadle with his customary humor acted as toastmaster.

One of the hits of the program was a "Moving Talk on Pictures" by Lane McGregor, who threw upon the screen the pictures of volley ball stars, making appropriate comments upon the players.

"Hits and Misses of Baseball," was subject of a talk by Bert Wheeler; "Volley Ball Echoes," M. F. Jamar, Jr.; "As Seen from the Gallery," George Wilson; "Handball," I. K. Lewis; "Message from the President," W. S. Moore; "The 1914 Crews," James Ten Eyck; impromptu speech, B. C. Wade.

ONLY 4 Days Sick

Mr. Frank Bauer, of Minneiska, Minn., gives the following account of an attack of grip and how he got cured. He says:

"I was attacked with the grip. Had a terrible cough. Asked my wife to get me a bottle of PE-RUNA. My lungs felt as if knives were sticking in them. She got the Peruna for me. I took it four days. On the fifth day I took an axe on my shoulder and went out into the woods to chop wood. Perfectly recovered. My doctor bill was therefore exactly **$1.00**

a great saving in time and money."

WILL ASSESS STEEL PLANT

City and County Officials Will Accompany Tax Commissioner.

Several city and county officials will accompany J. G. Armson of the state tax commission, to the steel plant next Monday, if present plans are carried out. The party will include County Auditor Odin Halden, Attorney C. E. Adams, special counsel for the county board, City Assessor J. Allyn Scott and most of the members of the city council. Mr. Armson's visit will be primarily to view the property with a view to its valuation for taxation purposes. The other members of the state commission are expected to be in Duluth Tuesday but they will spend the whole day in conference with the assessors of the county. The last legislature made several important changes in the law and these will be fully explained to the men who are charged with making the assessments.

TISSUE BUILDING

Tissue is the doctor's name for body cells.

It is to our bodies what coal is to an engine.

Every day we burn up a certain amount of tissue.

Therefore new tissue must be built to take the place of the lost fuel.

The food we eat makes this new tissue and in a healthy person gives enough fuel to replace the loss.

People get thin and "run down" because they do not get enough nourishment from their food to supply the needed fuel.

When the weakened system does not do its duty you must have a "tissue builder." Father John's Medicine is a real tissue builder because it actually makes new flesh and tissue.

When you take Father John's Medicine, the actual food elements of which it is composed give you new strength, and enable the organs of the body to resume their work.

Father John's Medicine soothes and heals throat and lungs, treats colds, bronchitis, asthma.

People gain weight steadily while taking it.

Father John's Medicine is for sale in Duluth by William A. Abbett, 205 West Superior street, 101 West Fourth street, 932 East Second street, also Boyce Drug Store, 331 West Superior street; Wirth Drug Store, 13 West Superior street, and practically all other drug stores in the city. If you have any difficulty in getting Father John's Medicine from your druggist, write to Father John's Medicine, Lowell, Mass., enclosing $1 for a large bottle by express, prepaid.

HOOPER NAMED FOR GOVERNOR

Republican Is Nominated By Independent Democrats in Tennessee.

Nashville, Tenn., April 23.—The state Democratic executive committee met here yesterday and nominated Ben W. Hooper, Republican, for governor, and W. G. Sadler, an independent Democrat, for railroad commissioner. A separate convention indorsed Judge Sam C. Williams, Republican nominee for supreme court judge. The convention indorsed the action of Secretary Daniels in prohibiting the use of liquor in the navy.

Destroyer Launched.

Bath, Me., April 23.—The torpedo boat destroyer McDougal was launched here yesterday. She will be ready for trial next month.

JAPANESE PAPERS MODERATE IN TONE.

Tokio, April 23.—Most of the leading newspapers of Japan are moderate and reserved in their attitude regarding the Mexican situation. One or two of the less responsible journals, however, today suggest that advantage should be taken of the present embarrassment of Washington to press the issues outstanding between Japan and the United States.

BOTH WERE SLAIN.

Coroner's Jury Upholds Murder Theory in South Dakota Tragedy.

Geddes, S. D., April 23.—The coroner's jury, which has been holding an inquest over the bodies of W. H. Menzie and Miss Signal since Monday, has brought in a verdict holding that both were killed, Menzie by being shot and Miss Signal by a blow on the head from a blunt instrument. The jury was unable to connect any one with the double crime.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS---25 CENT DANDERINE

Save Your Hair! Make It Soft, Fluffy, Lustrous and Beautiful.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all.

ACCIDENT SHOCK PROVES FATAL

"Grandma" Kenyon, Aged 86, Is Struck By Soo Passenger Train.

Four hours after she was struck by the St. Paul flyer on the Soo railroad, Mrs. E. J. Kenyon, 86 years old, a well known resident of South Superior, died at her home. The accident occurred at the railroad crossing over Hughitt street at 2 p. m. yesterday.

Mrs. Kenyon was hurrying on her way to attend a meeting of a Ladies' Aid society, and when crossing the tracks did not notice or hear the passenger train approach. The edge of the engine pilot struck her and threw her several feet into a ditch. She was picked up apparently uninjured, and she was taken to the home of her son, R. E. Kenyon, 6017 John avenue. She died there at 6 p. m. from the shock of the accident.

Mrs. Kenyon was known to the residents of South Superior as "Grandma" Kenyon. She resided there for many years. She leaves three sons, Frank, R. E., of South Superior, and Grant of Canton, Minn. She also leaves a daughter, Mrs. S. W. Johnson of Camp Douglas, Wis.

The funeral will be held tomorrow afternoon from the Fifty-ninth street M. E. church. The body will be taken to Frederick, S. D., for burial.

"Others are Imitations"

The Food-Drink for all Ages

Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the whole body. Invigorates nursing mothers and the aged. More healthful than tea or coffee.

Take no substitute. Ask for HORLICK'S

ELECTED "VICE MAYOR."

Mayor Konkel Thinks an Heir Apparent Is Necessary.

The city commissioners had their first disagreement in some time yesterday afternoon. The difference of opinion resulted from the election of a vice mayor.

"In case something happens to me, we should have a vice mayor," said Mayor Konkel. Commissioners O'Hare and Tomlinson looked at each other. O'Hare was the first to speak.

"I nominate Commissioner Tomlinson for the position," said he.

"Nothing doing," said Tomlinson.

"Put the question," said the mayor.

The votes were: Konkel, aye; O'Hare, aye, and Tomlinson with a loud "no." Mr. Tomlinson was declared elected to the position.

WITNESSES FORGET.

For That Reason Saloon Keeper Draws a Discharge.

Lack of memory on the part of two witnesses was sufficient to secure the discharge of Peter Nelson of Lake Nebagamon on the charge of keeping his saloon open on Sunday. Two men, both of whom are said to have been drunk on that day, were called as witnesses for the state, but were unable to say whether they got the drinks from Nelson or not.

"Guess I was drunk, all right," said one of them, "but I can't say whether Pete gave me the liquor or not."

CONDITION IS NOT SO SATISFACTORY.

Vienna, April 23.—The condition of Emperor Francis Joseph was not so satisfactory today.

The doctors' report this morning said:

"His majesty's rest last night was disturbed by fits of coughing. The catarrhal symptoms showed no signs of abatement, but the patient's strength and appetite were satisfactory."

FEEL VICTORY IS DULUTH'S

Local Traffic Men Scored at Lake and Rail Hearing.

Twin City Interests Entirely at Sea in Rate Case.

The members of the Duluth traffic commission who have been attending the hearing at St. Paul before Richard T. Eddy, examiner for the interstate commerce commission, in the now famous lake and rail case, returned this morning, well pleased with the outcome and confident that the belligerent Twin City commercial bodies, who seek to reopen the whole matter, have failed to make a case. The Duluth men who were in attendance are: Julius H. Barnes, chairman of the Commercial club's traffic commission; G. Roy Hall, secretary of the commission; George W. Welles, sales manager of the Kelley-How-Thomson Hardware company; C. F. Rowe, traffic manager for the Marshall-Well Hardware company; Bruce Ter Bush, traffic manager for the Stone-Ordean-Wells company; George R. Reid, traffic manager for Gowan-Lenning-Brown; F. O. Davison, traffic manager for the Kelley-How-Thomson Hardware company, and E. A. Risdon, traffic manager for the F. A. Patrick company.

Mr. Hall declared this morning that the outcome of the hearing, which has been indefinitely continued, was distinctly disconcerting to the Twin City interests which have been fighting for a reduction of the spread in the lake and rail rate, which was established by the railroads some months ago, but which has been suspended owing to the application of the Twin City interests for a rehearing.

It will be remembered that formerly there had been a spread of only 15 cents between the Head of the Lakes and the Twin Cities. The interstate commerce commission, after the original hearing had been held in Washington, ordered a reduction in the Duluth rates from New York by lake and rail, making the new spread 21 cents. In its order the commission said that while it did not feel that it was justified in ordering a higher rate to the Twin Cities via Duluth at that time, it felt that the rate was too low. The lines took the hint and put in a 90-cent rate on first class freight, and proportionately in the other classes, making the spread 28 cents.

The Twin Cities started the fight against this latter feature, but in the hearing just ended sought to introduce the record of the 1910 Duluth rate case as part of the record in this proceeding. This would reopen the whole case and the attorneys for the roads involved objected, backed by the Duluth interests, for the reason that the representatives of the lines had not come prepared to introduce evidence in that portion of the affair, but merely in regard to the increased spread of 7 cents.

Examiner Eddy said that the record might be accepted, subject to the objection of the defendants' objection, but the latter claiming that the introduction of the record would alter their plans for producing evidence, declined to call witnesses. Mr. Eddy will lay the facts before the interstate commerce commission next Monday and the commission will likely set the date for the resumption of the hearing.

"Our contention," said Mr. Hall today, "was that the lines could not be called defendants in the case further than that concerning the extra 7-cent spread, because of the fact that they were simply obeying the order of the interstate commerce commission to increase their rate; therefore the record in the Duluth case had no part in this hearing. We will win on that too. The Twin City interests were entirely at sea."

STRIKE OF MINERS IN WEST VIRGINIA.

Charleston, W. Va., April 23.—Five hundred miners employed in the mines of the Four States Coal company at Dorothy struck today because the mine superintendent did not attend the wage conference at Charleston. Dorothy is in the Cabin Creek district.

St. Cloud Woman Sentenced.

St. Cloud, Minn., April 23.—An indeterminate term in state's prison was the sentence imposed by Judge John A. Roeser upon Mrs. Nellie Staples, recently convicted of manslaughter in the second degree. The maximum sentence is fifteen years and the minimum seven. The woman killed her infant child, which was found in a tin pail lying in a ravine in this city.

DULUTH SOON TO HAVE A 'HALLMARK' STORE

CASSIUS H. BAGLEY.

Will Be Affiliated With United Jewelers Company, $1,500,000 Corporation.

Duluth is soon to have a "Hallmark" jewelry store.

The store will be affiliated with the United Jewelers' company of New York city, recently incorporated under the laws of New York with a capitalization of $1,500,000, of which Cassius H. Bagley of Duluth is a director.

While the principal offices of the company will be located in New York city it is the plan of the officials of the concern to secure the leading retail jeweler in every large city in the United States as a member of their association. Each member will be privileged to buy stock in the parent association. The money subscribed will be used to buy marchandise in large quantities and to import and manufacture a line of jewelry specialties all to bear the trademark of the Hallmark company.

Forty-six jewelers from all parts of the United States joined the corporation at its organization as charter members. A board of 12 directors was elected and one of them is Mr. Bagley. It was due to his connection in the new concern that it was decided to locate one of the first stores established by the new company in Duluth.

THE DAY IN CONGRESS

HOUSE.

Debate on naval appropriation bill resumed.

Representative Sabath, Illinois, eulogized the Jew in the army and navy, in calling attention to the death of Samuel "Martin" Misenberg of Chicago at Vera Cruz.

Merchant marine committee considered seamen's bill.

"Mother" Jones, Colorado strike leader, testified before mines committee.

SENATE.

Appropriations committee reported favorably bill appropriating $500,000 asked for by the president to get Americans out of Mexico.

Former Senator Foraker opposed repeal of Panama canal tolls provision before committee on inter-oceanic canals.

Minot Youth Held

Minot, N. D., April 23.—(Special to The Herald.)—James Davis, the local boy arrested on the charge of stealing from the postoffice approximately $15,000 worth of drafts addressed to the Second National bank of Minot, was bound over to the federal grand jury and is held in default of bail.

"MOTHER" JONES HEARD BEFORE COMMITTEE

Washington, April 23.—"Mother" Mary Jones, strike leader, today appeared before the house mines committee and described conditions in the strike district in the Colorado coal fields. "Mother" Jones said that "if she were president" she would order the governor of Colorado to have the "imported gunmen" with their machine guns taken out of the district. Conditions in Colorado, she said, had led to "government by gunmen."

BOYLE-FOR-CONGRESS LUNCH WELL ATTENDED

A very enthusiastic weekly meeting of the Boyle-for-Congress club was held at a noonday luncheon at the St. Louis hotel today. Fifty of the more than 300 members were present.

In addition to an interest talk by Senator Boyle, three committees were appointed, as follows: A general campaign committee of the club, a committee to arrange speaking appointments for Mr. Boyle and a committee to complete arrangements for the Boyle-for-Congress club banquet, which will be held the latter part of May.

In addition to the regular club meeting next week, Mr. Boyle will speak at the Endion club at its May meeting and to the Retail Grocers association at its banquet in the Spalding hotel on next Wednesday.

CELEBRATE FOUNDING OF ODD FELLOWS

Local Members to Attend Church in a Body on Sunday.

Next Sunday morning the Odd Fellows and Rebekahs of Duluth will attend service in a body at the First Presbyterian church and will listen to a special sermon by Rev. Robert Yost, the pastor. This is according to a proclamation of Grand Master A. W. Annes.

It so happens that Sunday is the anniversary of the founding of the order of Odd Fellows, which took place on April 26, 1819, and this will be in the form of an observance of the anniversary. The members of the two orders will gather at Odd Fellows hall, 18 Lake avenue north, at 9:45 Sunday morning and will march to the church, leaving the hall promptly at 10 o'clock. The committee in charge consists of A. A. Ulsrud, J. A. Braff and W. J. McDonald.

Gray's April Silk Sale

Began this morning with crowds. Did you get your share? Then come tomorrow.

Oslo Man Injured.

Oslo, Minn., April 23.—(Special to The Herald.)—Alger Oseth was badly burned about the hands and face, when the can of wood alcohol, which he was using in lighting the gasoline lamps in the Oslo Co-operative store, exploded. He will recover.

A Great Silk Season

And a great silk sale. Come to Gray's tomorrow. Crowds here today.

D. H., 4-23-14.

Woman's Realm

Parks would be well supplied with trees if every city had women as far seeing and public spirited as two club women of Boise, Idaho.

About four years ago a citizen of Boise gave some wild land along the river to the city for a park named in honor of his wife. Two members of the Columbian club of that city, knowing it would be years before there would be enough money to convert the land into a park, planted trees in their own back yards and now when the park is ready for trees there are many four-year-old trees of walnut, chestnut, elm and maple ready to set out.

The civic department o fthe Boise club is not the only one doing excellent work, for the social economics section has made gingham dresses to be given away by a member who is connected with the Associated Charities to girls from 10 to 12 years old. It is hoped the dresses will not only enable those who receive them to be neatly clad, but that they will be an incentive to neat sewing. This section of the club hopes to have a class to teach young girls how to make their own clothes neatly.

The club has a loan bureau. Typed papers, on subjects from housekeeping to the fine arts, are kept on file to be lent to clubs throughout the state.

Club Entertained

Miss Magdaline Kaiser entertained her club at the institute on East Third street Monday evening. A luncheon was served to the following guests:

Misses—
Rose Hitzel, Estella Brown,
Marie McCullum, Anna Sabrowski,
Clairie Hauser, Ella Hauser,
Hattie Sabrowski, Josephine Tieral,
Mabel Swenkofski, Anna Weber.
Veronica Irvin,

Birthday Party

Mrs. C. F. Barncard of 2723 West Fourth street entertained eight at a luncheon today in honor of her birthday. The table was decked with a centerpiece of pink carnations.

St. James' Guild.

The management of the Rex theater has turned the house over to the St. James guild for May 13. The proceeds of the entertainment will be used for the St. James' orphanage. The film "The Message From Mars," will be be shown and Miss Theresa Lynn, organist of the Sacred Heart cathedral, will furnish the organ music. Mrs. Leo Ball and Mrs. A. A. Deslauriers will give vocal solos. Many box parties are being planned for the entertainment.

At the meeting of the guild held yesterday Miss Katherine Kenny and Miss McConnell played a piano duet, Miss Trombley of Superior gave a vocal solo. Miss Agnes Nunan a reading and Mrs. E. F. Kelley made an address. After the business meeting and program there was a social hour for which the hostesses were Mrs. Benedict T. Vail, Mrs. E. F. Kelley, Mrs. J. C. Rogers and Mrs. A. T. Cyr. The next meeting of the guild will be held Friday afternoon, May 8.

For Bride-Elect.

Mrs. P. J. Chinnick of 1809 Jefferson street entertained at an informal tea this afternoon for Miss Lelia Sparks whose marriage to Walter F. Schwedes will take place next Wednesday.

Tomorrow Mrs. J. Zuger of 417 Twenty-first avenue east will entertain at bridge for Miss Sparks, and Saturday Miss Beatrice Bolton of 2130 East Superior street will give a luncheon in her honor.

Ladies' Aid Entertained.

Mrs. L. H. Merritt of 2105 East Second street entertained the Ladies' Aid Society of Merritt Memorial church yesterday afternoon. Plans were made for the supper and sale to be given Thursday evening, May 7, at the church, Forty-sixth avenue west and Halifax street. The tables will be in charge of Mrs. Charles Boyden, Mrs. L. H. Merritt, Mrs. L. L. Gilpin, Mrs. O. L. Holmes, Mrs. C. W. Swanstrom, Mrs. Fred Knight, Mrs. Bert M. Wheeler, and Mrs. J. Gibson. The members of the reception committee will be Rev. Grant Fritz, Mr. and Mrs. H. B. Randall and Mr. and Mrs. S. H. Warren. In the serving room will be Mrs. Edwin Ward and Mrs. John Stewart.

Quaker Literary Club.

The Quaker Literary club met last evening at the home of Mrs. Leigh Gunther, 2905 West Third street. George Deatheridge was the leader for the discussion, "The Mexican Situation." The members of the club are:

Misses—
Mildred Lowe, Ruth Glover,
Marian Lowe, Arila Glover.
Irma Baillie,

Messrs—
Lloyd Currie, Leigh Gunther,
Earl Mitchell, Albert Glover.

George Deatheridge is president of the club and Miss Arila Glover, secretary and treasurer.

Teachers' Association.

There will be a social for the members of the Duluth Teachers' association tomorrow evening at 8 o'clock at the Salter school. The following program will be given:

Vocal solo ..... Miss Mildred Downey.
Reading ..... Miss Diehl.
Violin solo ..... Miss Louise Murchison.
Vocal solo ..... Norman C. Johnstone.
Reading ..... Miss Mae Spencer.
Selection ..... Male Quartet.

Central W. C. T. U.

The Central W. C. T. U. will meet tomorrow afternoon at 2:30 o'clock in the Y. W. C. A. auditorium. Dr. A. T. Ishkanian will speak on "Woman's Political Influence." Members and others who are interested are invited to attend the meeting.

Woodland Echo Club.

The Woodland Echo club will be entertained tomorrow evening by Miss Elsie Daeda and Miss Lydia Arndt at 711 East Fourth street.

"The Truth."

Miss Mary Shesgreen will read Clyde Fitch's play, "The Truth," this evening in the auditorium of the Lakeside school under the auspices of the Lakeside Catholic Ladies' Aid society.

Dormedy-MacDonald.

Mrs. M. J. Dormedy of 905 East Second street announces the marriage of her daughter, Miss Irene Dormedy, to Murdo MacDonald. The ceremony was performed Monday afternoon by Rev. Hugh A. Floyd at the parsonage of the Sacred Heart cathedral. Mrs. E. Dormedy, sister-in-law of the bride, was the matron of honor and F. Dormedy, brother of the bride, was the best man. Mr. MacDonald is connected with the Zenith Telephone company.

Bridge Luncheon.

Mrs. Wellington Vince of 1105 East Fourth street entertained six tables at a bridge luncheon yesterday in honor of her sister, Mrs. Harry E. Baker, who left today for her home in Detroit after a two weeks' visit in the city. Favors were won by Mrs. Frank McCormack, Mrs. Gust Milek and Mrs. Elbert Dresser. Jonquils were used for decorating the rooms.

Executive Board.

A special meeting of the executive board of the Twentieth Century club will be held tomorrow morning at 10 o'clock in the library club room. Final arrangements will be made for the play to be given soon by the juvenile drama class.

Aftenro Society.

An entertainment will be given tomorrow evening by the Aftenro Society at the Norwegian-Danish Methodist church, Twenty-fourth avenue west and Third street. The following program will be given: Song, choir of Norwegian-Danish Methodist church; talk, "The Home for Aged People," Mrs. J. J. Moe; piano solo, "Wedding Day" (Grieg), Dr. Thomas Morck; vocal solo, "A Bowl of Roses," Miss Mabel Fulton; violin solo, "Romance" (Wieniawski), Mrs. Valborg Gunderson Finkelson; address, "The Fountain of Youth," John Heitmann; vocal solo, "Morning," Miss Mabel Fulton; piano solo, "Polonaise" (Chopin), Dr. Thomas Morck; violin solo, "Cavatina" (Raff), Mrs. Valborg Gunderson Finkelson; song, choir of Norwegian-Danish church. Refreshments will be served after the program.

Lodge Notes.

Greysolon Camp No. 627, Royal Neighbors of America, will give a card party tomorrow evening at Woodman hall, Twenty-first avenue west.

* * *

Companion Court, Pride of Duluth, No. 208, Independent Order of Foresters, will entertain at a dancing party tomorrow evening at Foresters' hall, Fourth avenue west and First street.

* * *

The Odd Fellows and Rebekahs of the city will attend services at the First Presbyterian church Sunday morning in commemoration of the founding of the Independent Order of Odd Fellows April 26, 1819.

* * *

Duluth hive, No. 1, Lady Maccabees, will give their regular card party tomorrow afternoon at 2:30 o'clock at Maccabee hall, 21 Lake avenue north. Five hundred will be played. The members of the committee are Mrs. C. A. Stang, Mrs. Clara Macier, Mrs. Mary Poye and Mrs. Harry Gladman.

ACTRESS LOOKS FETCHING IN RIDING BREECHES AND PAJAMAS

—Copyright by Charles Frohman.

BILLIE BURKE.

Billie Burke has a play called "Jerry" in which she appears in riding breeches and pajamas and other costumes appropriate to a tomboy. This is the kind of part in which Miss Burke's admirers delight to see her. Recently Miss Burke married Florenz Ziegfeld, who was for a period of time the husband of Anna Held.

Mr. and Mrs. J. L. Strong, 1825 Greysolon road, are in the Twin Cities attending the opera.

* * *

Mr. and Mrs. Harold Garnee will leave next week for Rochester, to be gone a week.

* * *

Mr. and Mrs. C. H. Bailey, 1929 East Superior street, have returned from the East after an absence of three weeks. They were in New York for Easter.

* * *

Mr. and Mrs. M. Wagner Powell of Pasco, Wash., formerly of Duluth, are the parents of a little daughter, Gertrude Charlotte, born April 16 at Pasco.

Y. W. C. A. NOTES

The Camp Fire groups of Longfellow and Ely schools held a joint ceremonial meeting Monday evening at the West Duluth library club room. The girls wore their Indian costumes and were awarded honor beads. The honors were conferred for such achievements as making dresses, keeping house two weeks, not missing school, attending Sunday school and church for three months, not borrowing money or wearing apparel for two months, walking forty miles in ten days, keeping account of allowance money, taking care of small children and taking part in patriotic plays. The girls of Ely school gave folk dances and the girls of Longfellow gave a dramatization of "Cinderella." The guests were the mothers and teachers.

* * *

Under the auspices of the extension department of the Y. W. C. A. noon candy pulls have been given at the F. A. Patrick factory, Patrick-Duluth Woolen mills, Christensen-Mendenhall-Graham company and the Union Match factory. The girls are supplied with quarter pound packages of candy ready to be pulled.

The management of the woolen mills has furnished a basket ball equipment and given the use of the top floor.

* * *

The extension girls are preparing two plays, "The Trouble at Satterley's" and "The Fallen Idol." Miss Lydia Nelson is coaching the members of the casts. The proceeds of the entertainment will be used to send a delegate to the summer conference of the Y. W. C. A. at Lake Geneva, Wis.

* * *

The members of the basketry class of the F. A. Patrick factory are doing excellent work, under the direction of Miss Marie Ceska. An exhibition was held at the factory last week and it is probable the baskets will be shown later at the Y. W. C. A.

* * *

Last Sunday evening in the lobby of the Y. W. C. A. building stereopticon slides were shown of some of the district conferences of the association held last summer. Among them were those at Gearhart park, Or.; Ocean Grove, Cal.; Blue Ridge, S. C.; Estes Park, Col.; Lake George, N. Y.; Lake Geneva, Wis. and Eagles Mere, Pa. The slides showed pageants, sports and the grounds where the conventions were held.

The Y. W. C. A. of Duluth had six delegates at the Lake Geneva conference last summer and hopes to be represented by two tents full this year. A tent accommodates eight.

At the eleven conferences held last summer there was an attendance of 4,130. This number represented 253 student associations and 191 city associations. The 1,200 members of city associations represented fifty-eight occupations and sixty-four denominations.

SENSATIONAL HAT SALE

Starting Thursday morning in our annex. We have purchased a sample line of trimmed hats, 200 to select from; values as high as $8, for $2.00, while they last.

FITZPATRICK
502 and 504 East Fourth Street.

Amusements

TONIGHT'S ATTRACTIONS.

LYCEUM—"The Blue Bird."
ORPHEUM—Vaudeville.
EMPRESS—Vaudeville.

Amusement Notes.

If it had not been for Georgette Le Blanc, the beautiful and intelligent wife of Maurice Maeterlinck, "The Blue Bird," playing this week at the Lyceum, would probably now be gathering dust in one of the nooks and crannies of the old Norway abbey of the Benedictines at Saint Wandrille, Normandy. In outlining it, Maeterlinck believed it too fantastic for play form, but Mme. Maeterlinck, who is a famous actress and accomplished stage directress, immediately saw in it tremendous dramatic possibilities. She turned Maeterlinck's first idea of making it merely a story into the design which he has so successfully followed. Even when it was finished, Maeterlinck threw up his hands and exclaimed: "Why, those scenes can never be presented. They are dream scenes and I have let my fancy do the impossible." But Mme. Maeterlinck, with her cheerful smile, answered: "Nothing is impossible on the stage."

The play was published in book form and had already passed into ten editions when the group of ambitious directors who control the destinies of the little Theater Artistique, in Moscow, Russia, were persuaded to experiment with the piece. The poet's wife went to Moscow, her portmaneau full of designs for scenery and costumes that she herself had made. Those of the directors who had been the least bit timid previously were so fascinated by her conception of how the poem play might be realized that they resolved to go ahead regardless of expense, though compromising to an extent by elliminating three or four scenes.

The history of the play in Russia is well known. The production, which had been looked upon as doubtful at the Theater Artistique, ran for more than two years and so overwhelming was its success that fifty-two provincial companies were organized, with much more simple scenery, to tour with it throughout Russia.

* * *

If you have any desire toannex a partner and qualify for a stage career, watch Bronson and Baldwin at the Duluth Orpheum this week from the wings. It is not a life of bubbles. No overworked business employe ever worked harder than they do these two to keep their audience amused. After they had concealed their weariness as best they could, acknowledging the audience's applause, they leaned against the iron stairway that leads to the dressing rooms, absolutely exhausted last evening while the curtain went up on the next act. Percy Bronson's hair was rumpled, a cuff button was missing, he gasped for breath and his general appearance was far from happy, while Winnie Baldwin strove to keep up a coiffure whose permanency every movement threatened.

"This is our second setson in vaudeville," said Bronson, "and we like it immensely, although we are conscious of the fact that there are an unusual number of song-and-dance teams. Almost any boy who has sung in cabarets can put on evening clothes, find a girl partner and, regardless of whether or not he has talent—not to speak of breeding or refinement—can 'get away with it.'"

Bronson and Baldwin have shared with such teams as Cecil Lean and Cleo Mayfield, Harry Fox and Yancsi Dolly, and Cross and Josephine, the honors of being the most popular "team act" ever seen at the Duluth Orpheum.

Tehauntepec Road Closed.

Washington, April 23.—The Tehauntepec railway across Mexico has been closed. The Hawaiian Steamship company has given notice that they have diverted their ships to Panama.

BREEDERS TO MEET IN JUNE

Two Gatherings in Duluth Will Be of Unusual Importance

Many Experts Will Address Two Conventions June 25 and 26.

An effort will be made to make June 25 and 26 red letter days in Northeastern Minnesota's dairying history.

Members of the agricultural committee of the Commercial club got together yesterday afternoon and made tentative plans for the gathering here at that time of the Northeastern Minnesota Guernsey Breeders' association, and the sectional meeting of the Minnesota Live Stock and Breeders' association, which will be held on those dates here. C. P. Craig, chairman of the committee, and also president of the Guernsey Breeders' association, has already taken active steps toward making the affair a big success, and has written several men who are regarded as world leaders in the livestock and dairying matters. He expects to know soon whether or not they can attend.

He has already learned that W. H. Caldwell, secretary of the National Guernsey Cattle Breeders' association, will come here from his home at Peterborough, N. H., to address the two conventions. Mr. Craig feels that his visit here alone will ensure an immense attendance of breeders throughout the state. Invitations have been sent out to Former Governor Hoard of Wisconsin, who made such a strong impression at a convention held here some time ago; Henry Wallace, stock-raising expert of Des Moines, Iowa, and others of equal prominence.

It is the desire of the Duluthians who are making the arrangements to have these men here not only that those who are taking up dairying and cattle raising in Northeastern Minnesota may hear the experts and profit by their advice, but that the experts themselves may be shown what a wonderful dairying and cattle-raising country this part of the state is.

The Program.

The first day will be devoted to the sectional meeting of the Minnesota Live Stock and Breeders' association, and this will be addressed by various members of the association and experts from the state agricultural school. The second day will be taken up by the Guernsey Breeders' association, and this will be addressed by several leading experts, the principal address being that by Mr. Caldwell. It is likely also that Mr. Caldwell may address the state association on the first day.

With the sectional meting of the state association, the annual meeting of the Guernsey Breeders' association and the visit of Mr. Caldwell all combined, it is believed that the importance of the gathgering cannot be overestimated.

"Such a gathering," said Mr. Craig today, "will be sure to result in much greater activity in stock raising and dairying in this section of the state. I consider it vital to this part of the country, and I believe that it will do more to make the country hereabouts a great cattle raising center and producer of dairy products than anything else could. Our people already engaged in the business and those contemplating it will receive advice that money could not buy, and will learn things that will be of inestimable value to them. On the other hand, when these experts see the splendid land and conditions we have for stock raising they are bound to give us advertising on their return home and at the meetings where they will speak that will be of untold value to Duluth and Northeastern Minnesota."

Of course, as yet, all plans are in embryo, but when it is learned who will attend and how many may be expected, the committee will give them form.

DIES IN FALLS CITY.

Former Resident of Brainerd Expires at International Falls.

International Falls, Minn., April 23.—(Special to The Herald.)—The body of Mrs. Alvin O. Bowers, who died at a local hospital early yesterday, has been taken to Brainerd, her former home for interment. She was 38, a native of Indiana and had been married to Mr. Bowers nineteen years. Seven years ago the couple lost a son who was drowned at Brainerd. The funeral will be held at Brainerd, Sunday, at 2 p. m.

James Brennan of Ranier has let the contract to Schroeppfer & Johnson for the construction of a basement under his business block in that city. It will be 24 by 100 feet in dimensions.

While here this week John Stone of Duluth let the contract for the construction of a basement under the rear of the International hotel, which will make a full basement for the structure.

Everyday Needs in Housefurnishings
For Friday and Saturday

Our daylight Housefurnishing Department as usual offers for Friday and Saturday's specials articles that every housekeeper uses in their every day duties—and this is an opportune time to replenish the daily needs.

Toilet Paper of good quality, 8 rolls to each customer, for..... **25c**

Cable Clothes Line that will outlast any rope line you have ever used—75 feet of this strong cable, special at..... **18c**

OBSERVATIONS

By PEGGY PEABODY

Men Are More Adept as "Double Dealers" Than Women.

"When one woman is kind to another, you can bet it isn't for nothing."

A little actress delivers this line with telling force in what many people have chosen to call one of the best plays the stage has seen in many days. It received a hearty laugh at every performance. It is a bit of a cynicism calculated to stir the mirth of the unthinking and besides it follows a theory as ancient as the hills.

It has been claimed for women, probably since the second woman was created, that they can be more disagreable, one to the other, than men; also that they have a "nice way" of doing it, which makes it more reprehensive and the more maddening to whoever happens to be the victim. Like any other old saw that has been played upon for generations, even centuries, we have come to believe and take literally the observation handed down from antiquity, that women are not as loyal to their own sex as the superior one takes credit to itself for being.

I think it may be allowed, to save argument, that women resort to what seem pettier means, though none less straight forward, in worsting an enemy or gaining a point, but that they have fewer scruples about it, I have failed to observe. Any moderately intelligent woman who has spent a few years in the business world and come in contact with men in their business and other relations with men, will not accuse her kind of being the worst offenders when any personal advantage is to be gained.

Probably, if she is honest, she will admit that she does not see much difference between them, and that the proclivity to take advantage is evenly distributed between the two sexes as far as she can determine.

Judged by the standard of gentleness and all other womanly qualities, it may possibly seem worse for a woman to take advantage of a sister than for a man to entrap his brother. Actually it isn't a bit worse. The same spirit seems to influence both, and it is a mean and a contemptible one, no mater how we may attempt to square it with our consciences by remarking that it is a "survival of the fittest," and that "to the victor belong the spoils."

There is another reason why the catlike advantage that one woman will take of another, while she is pretending undying friendship, hurts our sensibilities more in the female than in the more brutal exemplification of this spirit in the male. Men have always done the fighting for power and supremacy.

Look into the matter and you will find that woman do not affect friendship that shall redound to their advantage any more often than men do.

A Skin of Beauty is a Joy Forever.

DR. T. FELIX GOURAUD'S Oriental Cream or Magical Beautifier.

Removes Tan, Pimples, Freckles, Moth Patches, Rash and Skin Diseases, and every blemish on beauty, and defies detection. It has stood the test of 64 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut on (a patient): "As you ladies will use them, I recommend 'GOURAUD'S CREAM' as the least harmful of all the skin preparations." For sale by all druggists and Fancy Goods Dealers in the United States, Canada and Europe.

PURIFIES as it BEAUTIFIES the skin. No other will do it.

Subscriber will confer a favor by making known any complaint of service.

When changing the address of your paper, it is important to give both old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guaranty that it has the largest circulation in Minnesota outside the Twin Cities.

The Herald will be glad to have its attention called to any misleading or untrue statement which may appear in its news, editorial or advertising columns.

MUST IT BE PACIFICATION?

The Mexican situation grows more serious day by day.

The state of mind among the Constitutionalists which has made it necessary to restore the embargo on arms along the northern border is the greatest complication that could have come about: though it is, of course, precisely the complication Huerta has counted upon.

With the two embattled factions both against us, and with our troops now on Mexican soil, we may still hope that the affair may have a nearby ending; but that hope is slender.

The most difficult thing that confronts this country now is to avoid the necessity of a thorough pacification of Mexico: for if it falls upon us to accomplish that, it will mean nothing short of conquest and the disarming of both factions. That will involve plenty of hard fighting, and with the facilities Mexico offers for sustained guerrila warfare, it is not impossible that it will take years and cost many lives.

The twelve American lives already sacrificed are more precious than the whole Mexican nation; yet they had to be lost, and if more have to be lost to sustain the American cause they will be sacrificed, too. Having set foot in the path that leads no man knows where, we must follow it to the end, whatever that end may be.

Carranza seems misguided in taking the stand he does. He should have hoped that American intervention meant the wiping out of Huerta, which is what he professes to seek. He must know that it would not mean conquest and permanent occupation. Yet, on the other hand, no doubt he realizes that invasion will strengthen Huerta's forces, and resents it accordingly.

The significant formality of handing passports to diplomatic representatives is not surprising. Huerta had the choice between submission, which meant destruction, and resistance, a desperate last resort by which he might hope to unite Mexico around his standard. Of course he would choose resistance. There is more than a possibility that he deliberately invited chastisement for this very purpose; and it is now a moral certainty that he cunningly prolonged the negotiations over his apology only in the hope of getting the arms and ammunition that were coming to him in a German ship. Only the president's prompt action prevented the success of that scheme.

This country has no war with the Mexican people, nor any quarrel with them. It did not want to fight them; it does not want to fight them now. Whether it must fight them depends wholly upon the Mexicans and their leaders; but the present action of these leaders leaves little doubt that fight we must.

This country will of course avoid a dispute with the Constitutionalists if it can. If it can't, it will perform whatever duties fall to it. If it becomes necessary to pacify Mexico with the sword, and rear a new government on the ruins of the present conflict, it will be only because Mexico makes any other course impossible.

If anybody doubted that the American packers have obtained a hold in Argentina, he must be convinced by the news that sausage-making machines have been introduced in that country.

THE TRAMP DOG.

Says the Southern Farmer: "The depreciation of farm values through the curse of the roaming dog easily amounts to a hundred million dollars."

And the Cleveland Plain Dealer adds: "A vagrant dog is a nuisance, in country or town. Even the friends of dogs—and most people are their friends—can wish no better fate for those without home or master than that they be exterminated."

We suppose that's all so. Indeed, it must be so since states have enacted laws about it. The state of Virginia lately enacted a law against the vagrant dog. Minnesota will vote this fall on a constitutional amendment taxing dogs for the aid of farmers harmed by dogs.

And cities have dog taxes, and dogs without owners and license tags are apprehended and killed.

A vagrant dog isn't much use to himself or anybody else, and no doubt he does much damage in his friendless, hopeless quest for a living.

But it isn't easy to feel vindictive and ugly about it when you remember the capacity for loyalty, gratitude and affection that every dog has—even the dog that is disinherited like the tramp and has no home or master.

Economically, the destruction of the vagrant dog is undoubtedly wise. If you have sheep to be killed by them, or cows to be chased, you will be sure it is wise.

But when you think of the ecstatic love and devotion of the dog, when you think that even these hunted outcasts have all the capacity for affection and loyalty that your dog has when he leaps up, wagging his tail so his whole body responds, on your return home in the evening, it's rather hard to be as severe about it as you are, say, when you shout "swat the fly!"

What's the batting average of the Mexican league?

PEANUT STATESMANSHIP.

There is a type of statesmanship—save the mark!—which is guided and inspired by a very simple rule.

"Put the other fellow in a hole" is the height, breadth and depth of the political thinking of a certain class of men who somehow land in public life.

In one aspect it is amusing because it is so blindly selfish, so imbecile.

But in another aspect it is menacing and fearful—because in putting an administration "in a hole" it may happen that the nation or state itself may be put in the hole also.

Yet there is one good thing about it. It helps to discredit and destroy empty partisanship; and that is a job, already pretty well forward, that needs to be completed.

It appears that cork dust is used in packing certain fruits in Spain. One would suppose these corks must be extra dry.

JUSTICE IS NOT FOR SALE, BUT—

Justice in this country is not a matter of barter and sale, as it is in some countries.

It is hard to imagine an easier way for a man to get himself into a peck of trouble than to offer a bribe to a judge.

Yet—

Nicolo Gavrilovitch is due to be hanged tomorrow in Madison county, Illinois, because he lacks eighty dollars.

This man was convicted of wife-murder. Very likely he is guilty. Doubtless he deserves hanging, if the state is to continue the practice of legal murder. But if he had eighty dollars probably he would not be hanged tomorrow, and maybe not at all.

No appeal has been taken in his case. It costs a hundred and thirty dollars to take an appeal. His lawyer at last accounts had raised fifty dollars, and was eighty dollars short of enough to postpone the hanging.

Says the Cleveland Plain Dealer, which tells the story: "Nicolo Gavrilovitch is a damaging object lesson. Eighty dollars would postpone his death—perhaps save his life. Had he command of eighty million dollars he would not be executed for years, and probably never. There is something wrong with such a scheme of justice. Old fogy Britain, bound as she is by tradition in many things, deals impartially with her murderers, and hangs them when they are guilty. She hangs them without delay and without fuss. She hangs them regardless of their social or financial standing. The poor man destined for the gibbet stands an equal chance with the man of affluence. But the American democracy speedily extinguishes the culprit who cannot find eighty dollars, while it dallies forever with the murderer who commands the service of millions."

Thaw doubtless would have been dust long ago if he had not been able to command millions for his defense.

Justice is not purchasable in this country—but neither is it free.

And things that are not free are beyond the reach of the poor man.

Canned grapes are the latest in California. Will these be admitted as freight on the proposed naval commercial lines?

Advised as to Disposition.

Pittsburg Chronicle Telegraph: During a concert tour of the late Theodore Thomas and his orchestra, one of the musicians died, and the following telegram was immediately dispatched to the parents of the deceased:

"John Black died suddenly today. Advise by wire as to disposition."

In a few hours the answer was received, reading as follows:

"We are broken-hearted; his disposition was a roving one."

Essentials First.

Livingston Lance: "What would you do when first employed to bring an action?" asked an examiner of a young candidate for the legal profession.

"Ask for a retaining fee," was the prompt reply. He passed.

The Humorous Side of Huerta's Army

Franklin Fyles, Mexican correspondent of the London Times, in "The Real Mexico," published by McBride, Nast & Co.

In Vera Cruz as well as in the capital the press gang had been busy, seizing men off the streets to be soldiers, so that the army might be brought up to something like its nominal strength. It is because he is obliged to resort to such a method of recruiting that Gen. Huerta has failed to make his position good. He showed his unfitness to govern by not realizing that he could do nothing without a real army. It would have paid him to let the revolutionists alone for six months while he trained a certain number of troops with the help of American or European instructors and sergeants. Then he could have wiped out the rebel forces in one or two engagements, and the rest would have melted away. Let me give an example of what happens now.

On a Sunday at the beginning of November—to be accurate, the second of the month—I was watching Gen. Velasco's brigade entrain at Saltillo for Torreon. I asked the general if he meant to start that day. No, not that day. Very shortly. Perhaps tomorrow. It made no difference that the troops were in their cars and vans. They are accustomed to live in trains. Their wives are taken along, too, to act as army service corps. They would never be in any hurry to start. They enjoy the lazy side of soldiering, but they dislike fighting as much as they dislike work.

Torreon, the prosperous center of the cotton growing district, was taken by the revolutionists in September. After denying for a week that it had fallen, the war office admitted the truth, but said that it would be retaken in a few days. For a month or so nothing happened. Then it was announced that "a blow would be struck." Gen. Velasco would start at once and the rebels would be driven out of Torreon. The government had been urged to act vigorously, because in the cotton district a record crop was in need of being picked. They responded by putting a new tax on cotton "to meet the cost of warlike operations," and by doing—nothing.

For six weeks after I saw Gen. Velasco's brigade in its five trains, Torreon remained in the hands of the rebels. The forces which were to retake it advanced and retreated, marched this way and marched that. Gen. Velasco was frequently reported to be, not with his command, but in Saltillo. Not until Dec. 10 was Torreon retaken, and then only because the rebels had drawn off and left the garrison very weak.

I have mentioned before the absence of any fire discipline. Large numbers of men do not even raise their rifles to the shoulder. They fire from the hip—into the air. They scarcely ever charge. They are never put through tactical exercises. Some of the regiments which are kept in the capital, such as the Twenty-ninth, upon which the government confidently leans, have a few non-commissioned officers who understand their duties. Among the company officers there are some who know that everything is wrong. They do their best with their own men, but what are they among so many who neither know nor care?

The Mexican idea of making a soldier is to cram him into a uniform, give him a rifle and let him fight as best he can. Even if the men were willing to serve, this plan would be disastrous, seeing that most of them are Indians from the fields, very low in the intellectual scale. But when we consider that soldiering is looked down upon as disgraceful, that the Federal ranks are recruited by the press gang, and that many crimtnals are turned out of prison into the army, we see at once what a tragic farce the civil war in Mexico is.

After the evacuation of Torreon by the Federals Gen. Mungula was tried by a court of inquiry. The intention was to shoot him. This was his defense: "How could I meet the rebels in the open?" he asked. "They fight in loose formation. I was obliged to keep my troops together. If I did not they would melt away. Desertion is the idea uppermost in almost every soldier's mind. Again, how could I order my officers to lead their men to the attack? I knew their men would shoot them down as soon as they got the chance."

The best generals would find it hard to do anything with such an army as this until they had disciplined it and discovered a certain number of men whom they could trust. Mexican generals have unfortunately very little talent for war, and they make, as a rule, no attempt to "lick their own men into shape." Officers in command are to our minds incredibly slack. At a small battle in the state of Morelos the Federals, by use of machine guns, forced the rebels to retire. The nature of the country made it easy for their retreat to be cut off. But the Federal colonel looked at his watch.

"It is time for dinner," he said, and told his bugler to sound "Cease fire." The rebels leisurely went away.

That kind of incident, which happens daily, helps to keep current the belief that Federal officers do not wish to bring the war to an end. They do not take soldiering seriously. At some gun trials near the capital the general's daughter came forward to fire a charge; then his wife was urged to show her courage; then his son must do likewise! It was more like an afternoon tea party than a serious piece of military business. Naturally when guns go into action they are handled very often without any effect. At Tuxpam, in the oil district, a barge-load of women and children left suddenly one afternoon for a safer spot. As the barge went down the river the Federal artillery opened fire across it. Shells could be seen exploding over Federal positions. If the gunners did any harm at all, it was to their own side.

The Mexican army has no army service corps, no medical department to speak of. It carries no camp equipment, no supplies. Watch a field force break camp at dawn. First there go pattering a horde of women laden with pots and pans, blankets, sometimes babies. These are the soldaderas, the camp followers, the commissariat of the force. That they move as quickly as they do is a miracle. Whatever the day's march may be, they are always on the camping ground before the men arrive. They rig up shelters, they cook tortillas and frijoles, they make coffee. You see them mending their husbands' coats, washing their shirts, roughly tending flesh wounds. Without these soldaderas the army could not move. While President Huerta was seizing hundreds of men by night in the City of Mexico and other cities in order to swell his forces to a hundred thousand, he also had women "pressed" to go with the new soldiers and take care of them. Criadas (maid servants) were positively afraid to go out after dark.

The stratagems of an active general like Villa, who is the best soldier the rebels have, are resented. He is not considered to be "playing the game." In a club one day a Mexican complained to me of the trick by which Juarez was taken as "shameful." Villa seized the railway, piled his men into trains, forced the telegraph operators to announce these as freight trains, and turned his troops out in the city before the authorities had any suspicion that they were on the way. "Shameful!" my Mexican acquaintance declared. "Another day I asked a Mexican war correspondent, who had been present at a small fight whether the Federal loss was heavy.

"Very," he said and then, in horrified tone, added: "They killed a colonel!"

Tales of the Old-Timers

Lem A. Woods in the Kansas Editor:

W. H. Jones, editor of the old Kalida Advocate, sat in a saloon one time in Burlington eating a pig's foot, when Harry McComas, an old-time tramp printer, came in and bawled out: "I'm the wild boar from Fort Scott!"

"Yes," said Jones, "and I'm eating one of your paws."

The laughter was too much for Harry, and he left the house without a fight.

Milt Reynolds, one of the old-time newspaper men of Kansas, said one time, when he was reporter on a St. Louis paper, that he saw a hearse standing in front of a church, and as he went up the steps the old sexton came out of the building.

"Who's dead?" Milt asked.

The old man gave the name.

Continuing, he asked: "What complaint?"

The old man wiped the perspiration from his forehead and said:

"No complaint. Everybody's satisfied."

Capt. George B. Jenness, who was for years editor of the Ottawa Republican, was an aristocrat. During the war he took a fancy to a young colored fellow and hired him for his servant. Jenness had just got a new uniform, and after putting it on he said to Sam:

"How do I look?"

"Elegant, Cap; you look as bold as a lion."

"Bold as a lion? How do you know? You never saw a lion."

"Yes, indeedy, Cap; that place we was at t'other day, that man had one," insisted Sam.

"You are crazy, nigger; that was not a lion; that was a jackass."

"Can't help it, Cap; you look just like him," replied Sam.

When any of Ben's old comrades wanted to hear him swear they used to tell this on him.

One time Col. D. R. Anthony, editor of the Leavenworth Times, went into a clothing store in Leavenworth, and walking up to the clerk, in that peculiar way of his, said:

"I want to see some underwear."

The clerk immediately brought down a box of the very finest, and was lifting out an undershirt to show Anthony when the old man wanted to know the price.

"This is $7 a suit," replied the clerk.

"Hell!" said Anthony, "I can't afford that!"

"Why," said the clerk, "it is the same kind we sold your son, Dan, the other day."

"He has a rich father," replied Anthony; "that is the reason he can afford it; but I can't."

Charley Heywood, who used to be associated with P. P. Elder in the publication of a weekly paper at Ottawa, one time, when about three sheets in the wind, went into a barber shop, and getting into the first chair he came to, said: "Cut my hair and be sure you let it run down the back of my neck," referring to the kind of cut he wanted.

After clipping away for a few minutes the barber concluded the hair was not going down the customer's neck fast enough, although he couldn't understand why he wanted it to run down at all, and he just shoved down a good-sized handful with the handle of his brush.

Heywood was about half asleep, and the barber repeated the performance of putting down a fresh lot, when Charley woke up and with a swing of both arms blurted out: "What the devil you doing?"

"Why," said the barber apologetically, "it didn't seem to run down, and so I crammed it down with the brush."

When the fight ended there was scarcely anything in the way of furniture, bottles or windows left in the shop.

The "Flying Dutchman's" Review.

Where the mid-Atlantic currents in their foam-fleck'd surges sweep,
Ho, all ye craft that sleep beneath the blue!
The shades of all the ships that ever sank beneath the deep
Meet once a year at midnight for review:
The war-triremes of Athens, the galleys oared of Rome,
The sea-wolves of the Norseman and the rovers of the Dane,
Their ghosts from deeps unsounded, where their hulks lie century-grounded,
To keep the tryst of ages rise again.

And in endless ranks extended, mann'd by wraiths of wave-worn dead,
Ho, all ye craft that sleep beneath the blue!
They hoist their phantom anchors, and their phantom sails they spread
To catch the spindrift's stinging breath anew;
The privateers and pirates, the Salley brigantines,
The men-of-war of England and the galleons of Spain,
By grape and round-shot shatered, with their banners torn and tattered,
Once more aligned they ride the heaving main;

Till a phosphorescent ocean round the navies of the dead,
Ho, all ye craft that keep the rendezvous!
In milky fire upboiling shows 'neath blood-red sails outspread,
The "Flying Dutchman," admiral of the blue:
And every ghostly vessel dips its flag to him once more,
As silent, she drives past him in review,
Into oblivion sailing with her time-gnawed ensigns trailing,
In deeps unplumb'd to bide the call anew!

—Frederick H. Martens in Lippincott's.

How Gallantry Fades.

Correspondence London Saturday Review: Here is an end of the Rokeby Venus—for my part I should not attempt to restore it * * * Keep the thing as it is as an illustration of the degeneracy of man and the supremacy, intellectually, morally and physically of the modern woman. She has got sharper wits, bigger and sharper teeth, flatter and uglier feet. She deserves her position and has got it.

—WILLIAM EDEN.

Domestic Problems.

Milwaukee Sentinel: Next to obtaining garden seeds that will grow, perhaps the most difficult task on the hands of the citizen of domestic tastes is to find a setting hen that will stay set.

Statesmen, Real and Near

By Fred C. Kelly.

Washington, April 23.—(Special to The Herald.)—As he was walking about the streets of Chicago one day in a jocular mood, Samuel G. Blythe found himself face to face with the big Marshall Field department store. He entered the place and, being in a jocular mood, he was greatly impressed by the appearance of the floor-walker, whom he regarded as unnecessarily dignified. Desiring to ascertain if it were possible to ruffle the man's ambassadorial dignity, Sam walked up to him and said:

"Beg pardon. Can you tell me how to get to the Marshall Field store?"

The scheme worked nicely, for the man nearly threw a fit right there.

* * *

Ever since he became the youngest assistant secretary of war on record—he was just 26 when appointed—Henry S. Breckinridge has felt that the fates have at last let up on him and permitted him to have a little sport out of life. Heretofore Breckinridge has constantly been shunted off from doing what he desired to do. He has always had a hankering after military affairs. When he was a small boy every male member of his family older than himself was entitled to wear a uniform, and it was little wonder that he, too, yearned to tote a gun. He had a father who was a major general in the regular army, two brothers also in the army, another at West Point and another in the navy.

* * *

So one day Breckinridge announced that he was going to bend his young energies from then on toward preparing for West Point and becoming a military man like the rest of the folks.

But all his relatives immediately jumped on him, saying in substance:

"Henry, you know very well that the military business has been done to death in our family here of late. If we keep on at this rate we'll be in a rut. Do not, oh, do not, become a soldier."

Being an obedient young man, Henry yielded to this urgent persuasion and instead of going to West Point he went to Princeton. From there he went to Harvard law school and presently became a regular lawyer. Imagine the plight of a young man whose soul thirsts to mix up with the soldiery, having to retire to a law office in Lexington, Ky., and set himself to hunting for flaws in musty old deeds. It would be almost as bad as the case of a small boy called in from the back lot right at the critical innings of a ball game to take a lesson on the violin. Every little while Breckinridge chafed under the legal yoke and once, while he was still in law school it was all arranged that President Taft should give him a civilian appointment to the army. But his wife was taken ill just then and he changed his plans.

* * *

When he was offered the chance to be assistant secretary of war, Breckinridge recognized that at last his lifetime of hard luck was taking a turn for the better and he grabbed the place like a man leaping for the tail end of a 7:15 train.

"Won't your law practice suffer while you're in Washington?" a friend asked young Breckinridge.

"It's time something was suffering besides me," Breckinridge replied. He was too busy chuckling over having a congenial occupation to be fretting himself about the status of a mere law practice.

* * *

If we should ever be plunged into war with any foreign power, the first thing to do will be to have Henry S. Breckinridge go and shake hands with each member of the opposing army. After that every one will be too crippled to handle a gun. For he has a grip like a quick-action, self-cocking monkey-wrench, and shakes hands about the way we imagine a lion would like to shake hands. He isn't one of those smart Alecks, understand, who love to hear the low crunch of bones in the hands of a stranger; he simply has a hearty shake—extremely hearty. It is such a hearty shake, in fact, that his victim half unconsciously looks down to see if his shoes aren't being shaken off.

* * *

It was while at Princeton university that young Breckinridge impressed himself on Woodrow Wilson in a manner that led to his present place. Wilson was trying to democratize Princeton and Breckinridge, though born with at least a Rogers Bros.' spoon in his mouth, the child of aristocracy, was the student leader of Wilson's efforts toward the complete stamping out of college caste. He made a great hit with Wilson, and when the former Princeton head got into the pre-nomination fight for the presidency, Breckinridge was placed in charge of the Kentucky campaign. He had been out of law school then only a year or two and about the only comments he brought forth when he first stepped to the bat was:

"Which one of the Breckinridge boys is it?" Or—

"Well, the lad has his nerve with him."

* * *

Close friends of the president say that Mr. Wilson would as soon have Breckinridge's view on certain kinds of things as anybody's.

"I must ask Henry Breckinridge about that," is a remark frequently heard at the White House.

And having been asked for an honest opinion, young Breckinridge would just as soon disagree with the president as he would with his barber.

* * *

Though he is now only 27, after being the youngest assistant secretary of war for more than a year, Breckinridge would not be suspected at first glance of quite such precocity. This is because of premature streaks of gray in his hair, which make him look like a person well along toward 34.

Already Informed.

New York Globe: Two ladies made a formal call on a distant acquaintance. The maid asked them to wait until she ascertained whether the person inquired for was in. Presently she tripped down stairs and announced that "the lady was not at home." One of the ladies, finding that she had forgotten her cards, said to her friend:

"Let me write my name on your card?"

"Oh, it isn't necessary, miss," put in the maid, cheerfully. "I told her who it was!"

Life.

Harper's Weekly: In certain of its essential aspects, a madhouse; in others, a pageant; in still others, a commonplace succession of humdrum incidents. At times you are quite sure it is all a gray monotony; again it begins to arise and spread itself like an Arabian Night. And the unexpected breaks loose—a series of strange encounters, flashes of vivid color, bright eager personalities jostling and strutting in excess of vitality.

Elect a Legislature Pledged to Action

State Press on the need of economy in state affairs.

More Important Than Usual.

Sauk Center Herald: In view of the near approach of the primaries the Herald feels it incumbent to call the attention of the voters to the paramount importance of the necessity of selecting men of the highest and best character to fill the legislative positions.

In the excitement attendant upon the selection of state officials this is a matter that is liable to be overlooked, and yet as important as the selection of state officers is, the selection of legislative candidates is of transcendently greater moment.

In the coming session of the legislature an attempt will be made to entirely revise our system of state government, and in this revision the legislature will have the final say and from this decision there can be no appeal. In every such revision the people always lose out unless it is performed by men of understanding, ability, experience and absolute incorruptibility.

Every effort will be made by the interests to increase their power and control of public affairs, not openly and brazenly, but by trickery and indirection, and unless the legislature is able and experienced, as well as honest, the people at large will be euchered at the game.

It is not a matter of supreme importance who is chosen governor, auditor, state treasurer and other state officials, but it is a matter of gravest concern who will make the laws next winter.

Let the watchword of the voter be: "Put none but able, experienced, honest men on guard in the halls of legislation."

Conserve; Don't Waste.

Albert Lea Standard: The Anoka Union tearfully remarks: "Would that the legislature would make the state university a poor boy's institution." If a small proportion of the vast sums appropriated every session for useless boards and for unnecessary improvements and new buildings in state institution towns like Anoka, was conserved, and a fund established to assist the worthy poor boys of the state who would like to attend the university, then the Union might have its wish gratified.

Pledge 'Em.

Cambridge Independent-Press: The Democrats had an elimination convention in St. Paul and side-tracked a certain undesirable candidate for governor. What's the matter with having one in this legislative district? Of course we would invite all prospective candidates to attend and give an account of their past history, their present affiliations and their future plans. Not a bad idea at all. Think it over.

The Governor Is Not Omnipotent.

La Porte News: In spite of the heated contest that will be waged over the office of governor, it is hoped the voters will not lose sight of candidates for the legislature. The governor may recommend and honestly work for "economy and efficiency," but the members of the legislature have the votes, and that is what counts when new laws are introduced.

Remember the Watchword.

Chaska Herald: Our state taxes have increased so rapidly of late that that the people demand a halt and will commence by electing members to the legislature pledged to economy of state government. Economy in state affairs is really the "watchword" in this campaign, and mere promises will not be accepted from those whose past performances warrant an opposite view. The people and not the officeholders are the real taxpayers and have a right to "butt in" on affairs of this nature.

See to It That It Does.

Gheen Record: The efficiency commission has certainly demonstrated that the state must reorganize its business on good business methods and the next legislature will be duty-bound to give the state efficiency of administration.

The "Waste Basket"

Omaha World-Herald: A correspondent complains that he wrote a communication to the paper and that "it went into the waste basket." He is in the same boat as every newspaper man and should not feel sad over the matter. That is the end of all writing that a newspaper man does. Of course it is printed, but the paper is thrown away as soon as it is read and never thought of afterward. The furnace, the waste paper boxes on the street corners, the old sack of the street rag picker, is the "waste basket" where all of his articles are thrown, and it matters not how much study and thought has been devoted to their preparation. That is the end of them all, but the newspaper man never frets over the fate to his creations, although he may have spent long years in reading and study that he might be able to write them.

The worst thing about it is that the reading and study never comes to an end. He must keep it up as long as he writes. He must know every leading character in the world, whether in government, literature or science. He must know the form of every government, the tenets of every important political party. He must have an understanding of the science of banking, of production and distribution in the commercial world, and of the different forms of agriculture in every state in the Union and every nation in the world. He must have a knowledge of the different religions and of the various cults in philosophy. He must keep pace with the advance in medicine, in physics and chemistry, and never let a current event of importance escape him.

Having done all that and prepared his articles from a vast scope of daily reading, he must be resigned to the fact that all his work will go to the "waste basket" within twenty-four hours after it is printed. The occasional writer whose article goes to the "waste basket" before it is printed has no greater grievance than all the newspaper men.

It Ain't.

She wants the parlor papered
And the ceilings kalsomined;
She's pleading with me nightly
For a den that's burlap lined.
The bedrooms must be tinted,
And the kitchen floor needs paint;
To own a home is cheaper,
So they told me, but it ain't.

She must have screened-in porches
Now that spring is on the way;
And she thinks a bill for awnings
Very gladly I should pay.
Now I understand exactly
Our old landlord's one complaint;
To buy the home is cheaper,
So they told me, but it ain't.

—Detroit Free Press.

Twenty Years Ago

From The Herald of this date, 1894.

***The state supreme court today handed down a decision reversing the St. Louis county district court in the case of E. P. Alexander vs. The City of Duluth and declaring that the act authorizing the construction of a tunnel under the ship canal to Park Point is unconstitutional and void.

***Governor Nelson has written a letter to President Hill of the Great Northern railway asking that the trouble with the striking railway employes be submitted to arbitration. Mr. Hill agreed on condition that the men return to work at once, in order that business might not be interfered with while the arbitration was going on. President Debs of the Railway Men's union has not yet accepted the plan.

***William D. Hammond of Duluth has filed an application at the treasury department for appointment as clerk to the local inspectors of steam vessels.

***At a meeting of the Phoenix Investment company at West Duluth, W. J. Holmes, H. H. Myers and E. W. McCormick were elected directors to fill vacancies.

***J. N. Cushner has opened the Saratoga restaurant at 9 East Superior street.

***The organization of the St. Louis County Republican club has been completed. H. M. Myers was elected vice-president and Judge J. R. Carey treasurer.

***Ralph Marble will be Representative Baldwin's choice for the appointment to the Annapolis Naval academy. He passed highest in the educational examination and has passed the physical test. Charles Morris is named as alternate.

***Levi Deetz has leased his main slate quarry in Carlton county to Francis Omeis, stone worker, of Duluth. It is a 25-year lease upon a basis of 12½ per cent of the net profits of the enterprise. Mr. Omeis has a crew of six men already at work.

***W. J. Merchant left today for his home in Sharon, Pa. He has been ill for some time. Rev. Dr. Thoburn, his brother-in-law, accompanied him.

***M. P. Mason of Carthage, N. Y., a large property owner in Duluth, is visiting here.

***Jerry Simpson, the Populist congressman from Kansas, is seriously ill at Washington.

***Vice-President Robert Harris of the Northern Pacific railroad, is dead at Rochester, N. Y.

***Capt. Campeau, who will be in command of the Great Northern passenger boat, the North West, has selected Frank D. Welcome as chief officer, John Tyrney as second officer, and R. McDermott as third officer.

Seek Opportunity, Don't Make It Seek You.

The Living Church: A Chicago man, a leader in the commercial life of that city, is quoted as saying: "Among the men I hire, nine out of ten are better workers at 45 years of age than are the men of 25 or 30." This man firmly believes that the man of 45 or thereabouts is at the prime of life, physically and mentally. He also holds that men of mature years are more reliable and less apt to become restless after a year or two in a position and to seek new fields. The average young man, he says, is seeking a "soft snap," and is not the sort of employe who will stick by his employer through thick and thin until his services become highly valuable and, in many cases, indispensable. We often hear young men complain of their inability to get settled. That is largely because they do not settle, do not seek to adjust themselves to their work and make the most of their opportunity. Opportunity seldom knocks at our doors. We must knock at the door of opportunity and be prepared to push the door a little if necessary.

The Way It Works.

Louisville Courier-Journal: "How long shall I arrange my house party for?"

"Depends on the results you want."

"What do you mean?"

"If you want 'em all engaged to one another, make it a week; if you want 'em all mortal enemies for life, make it two weeks."

Saved.

Town Talk: Millie—So you loved and lost, did you?

Willie—Oh, no, indeed. She returned all my presents.

DEFECTIVE PAGE

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest, but discussions of sectarian religious differences are barred. Letters must not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer though these need not be published. A signed letter is always more effective, however.)

SIMPLE EQUATION.

To the Editor of The Herald:

Not seeing an answer in The Herald this evening to the boat trading problem giving in the Open Court of Friday's Herald, I submit the following solution of same:

Let X represent value of boat.

Then (X plus 16 X) will represent value of tannery, and (X plus 16 X)-(X plus 16 X).04 value of brewery.

Now if boat was traded for 75 per cent of brewery at $103 low, then X-[(X plus 16 X)-.04(X plus 16 X)] .75 plus 103, or X=.852X plus 103. Transposing .148 X=103. X=$625, value of boat; (X plus 16 X)-$725, value of tannery, or answer to problem; (X plus 16 X)-(X plus 16 X).04=$696, value of brewery. Yours truly,

M. B. B.

Duluth, April 20.

SOLUTIONS TO HAT PROBLEM.

To the Editor of The Herald:

In answer to the question I would say that the clerk loses $40. The hat costs $10. The clerk is $10 ahead, or his profit is $10. Then the druggist tells him the bill is counterfeit and that he, the clerk, must give him, the druggist, $50 and the clerk gets the $50 counterfeit bill. The clerk loses $50 on the bill but earns $10 on the hat, so that $50—$10=$40 is clerk's loss. PHILIP GOFEN.

Duluth, April 22.

To the Editor of The Herald:

In answer to the Open Court problem signed H. D., I should say that the clerk's loss was $100.

HERBERT TURNBULL.

Duluth, April 22.

To the Editor of The Herald:

My solution for the hat problem in the Open Court is: The clerk lost $100. He was out $10 for the hat and the $10 of his own money obtained from the drug store and also the $50 that he had to pay the drug store man for the counterfeit bill. Respectfully yours,

RAY LYNOTT,
Cathedral High School.

Duluth, April 22.

WANTS POLICE PROTECTION.

To the Editor of The Herald:

As I am a constant reader of your valuable journal I would like to speak a few words to the citizens of Duluth and the round about vicinity about a very interesting subject, on which I wish to express a little of my opinion.

In speaking of public safety, please permit me to ask this question: "What part of this city is most entitled to a police service?" I find that this is a question which sadly passes on unheeded, as if it were a matter of slight or no importance at all.

For instance, we will go no further than Eleventh avenue west and First street to prove that there are districts in our city that lack police protection. This is what I and many with me would call a discredit to the city and the taxpayers and residents of said neighborhood no doubt feel unjustly dealt with.

They are, in my opinion, entitled to a just and equal deal, the same as those who reside on Superior street; and I don't see why our city authorities, seeing to the welfare of the city, will not give this subject and the district in question a moment's consideration.

Really and truly, it seems as if Eleventh avenue west and First street is left more as a playground for mischievous children than it should be, and which makes it very inconvenient to the people who reside there.

The hall passage at 1101 West First street is mostly always occupied (my place is in flat 2 of said block.) Children take the privilege of going in and out as they please and playing, rough and tumble. This is no doubt the result of the lack of police protection, and this can no longer be endured. Trying to prevent the children from going into said hall is useless, as they will not heed our word. Please get action. Thanking you for the space, yours respectfully,

ELMER DAHLGREN.

Duluth, April 21.

THE HOUSING CODE.

To the Editor of The Herald:

Having seen several articles in your Open Court about our housing ordinance and having heard much talk about the same, I would ask you to give me a little space in your valuable paper and thank you in advance for the same. I am very much interested in this new ordinance, having built and sold several first-class cottages in my neighborhood under the old council and was about to build some more. When I began to look into the matter, and the more I look, the more I see my ambition to build fade away.

I admit the building laws under the old council were a joke. But this new ordinance is a very serious matter and if not modified soon, will prove the more disastrous of the two. It not only puts the small lot owner out of business, but will force him into paying high rent and taxes on a piece of ground that is of no use to him. The burden is going to fall on the would-be home owner, the man with an income of less than $900 per year, and while I and others agree that a housing ordinance is a good thing, I have heard nothing but a general complaint of our present one. I would like to say lots more on this subject, but wish to look into the matter a little more first. Respectfully yours,

W. T. CONNER.

Duluth, April 22.

A REAL PROBLEM.

To the Editor of The Herald:

I have read with interest the problems in the Open Court. Many of them would be more interesting if they were more real. There are many natural and practical problems about us whose solution will prove to be interesting and instructive.

I submit the following to the school boys and girls:

The top of the aerial bridge is 185 feet above the water. How far out is a vessel when those on deck see the top of the bridge sink below the horizon, the deck being thirty feet above the water. G. W.

Duluth, April 21.

THAT CRIBBAGE HAND.

To the Editor of The Herald:

In answer to M. C. Greenfield's inquiry as to what constitutes a twenty-six hand in cribbage, any tenth card other than a jack and four fives will count the twenty-six.

A CRIBBAGE PLAYER.

Duluth, April 22.

This would make twenty-eight. The four fives counted separately with the ten would make fifteen-eight. The four fives would count twelve, making twenty in all. From the combinations of the four fives, fifteen-eight would be possible, as follows: 1, 2, 3; 1, 2, 4; 1, 3, 4; and 2, 3, 4. —The Editor.

CAN'T BE MADE.

To the Editor of The Herald:

In answer to cribbage question will say: Twenty-six cannot be made nor can 25, 27 or 19. Yours, E. A.

West Duluth, April 22.

A BRAIN TWISTER.

To the Editor of The Herald:

Have taken considerable interest in the part of this column that has recently been devoted to mathematics, and would like to submit for some of the nut-crackers the following:

"A Chicago man wanted to give a small Christmas dinner party, so he invited his father's brother-in-law, his brother's father-in-law, his father-in-law's brother, and his brother-in-law's father."

Could someone tell the exact number at the party? Yours truly,

A READER.

Cloquet, Minn., April 22.

Coming to Duluth

DR. J. E. DORAN

SPECIALIST

Will Be at the

LENOX HOTEL

FRIDAY, APRIL 24

AND WILL REMAIN

One Day Only

Hours: 9 a. m. to 9 p. m.

OFFERS HIS SERVICES FREE OF CHARGE.

Dr. Doran licensed by the state of Minnesota for the treatment of deformities and all nervous and chronic diseases of men, women and children, offers to all who call on this trip consultation, examination, advice free, except the expense of the medicine. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that his treatment is reasonably sure and certain in its effect.

According to his system no more operations for appendicitis, gall stones, tumors, goitre or certain forms of cancer.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys or bladder, catarrhal deafness, rheumatism, sciatica, malaria, bed-wetting, leg ulcers, weak lungs and those afflicted with long standing, deep-seated chronic diseases, that have baffled the skill of the family physicians, should not fail to call.

If you have kidney or bladder trouble bring a two ounce bottle of your urine for examination.

No matter what your ailment may be, no matter what others have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see him at once. Have it forever settled in your mind. If your case is incurable he will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself and friends or relatives, who are suffering because of your sickness, as a visit at this time may stop the disease and save your life.

Remember, this free offer is for one day only.

Married ladies must be accompanied by their husbands and minors with their parents.

Dr. J. E. Doran, Boston Block, Minneapolis, Minn.

CARING FOR UNEMPLOYED

Bethel Provides Lodging and Breakfast for 200 Men Daily.

The Bethel is making an unprecedented record this spring in caring for the unemployed. More than 200 men are cared for daily free of charge. Rev. W. N. Payne of St. Paul, formerly of the Lake Superior mission, has been secured to help carry on the work during the rush.

Those who lodge at the Bethel are treated to a breakfast at 5 o'clock in the morning and a religious service is held at 5:30. Meals are served early so as to get the place cleared before the regular breakfast is served. Evening religious services are held daily at 7:30. Dr. John W. Hoffman, pastor of the M. E. church, was the speaker last night.

Rev. Mr. Payne says the men are not "bums," but are an unusually intelligent and orderly lot. Very little intemperance has been noted among them. As a rule they consist of two classes—sailors, who are awaiting employment on the lakes, and others who are waiting for work on the railroads to open up.

WAGON DRAGS HORSE NEARLY TWO BLOCKS.

Neither driver nor horse was injured in a peculiar accident which occurred yesterday afternoon on Eighth avenue west when a whiffle tree on a rig belonging to the Baxter Sash & Door factory broke and the wagon made a two-block descent of the hill.

The rig was between Fourth and Fifth streets when the accident happened. When the whiffle tree broke, the rig started downward, pulling the horse with it. A short distance below Fourth street the outfit tipped over. The horse was not injured. The driver was not in the rig at the time of the accident. He was walking beside it.

A FILIBUSTER

By SAVOYARD

Washington, April 23.—(Special to The Herald.)—In these days when statesmen in congress set about a filibuster they resort to "hearings" before the committee having the matter in charge, and interested parties appear to tell the committee what it must do with the measure. The "hearings" on the tariff question would make enough volumes to fill a large library, and most of them are the pleas of manufacturers for protection and privileges, conferring upon them the power of taxation for special interests. "Hearings" are for two or three purposes—to cajole congress, to bully congress, to delay congress.

* * *

The "hearings" appointed for the bill to repeal the ship subsidy are for delay. No senator is going to change his opinion about the bill, but it is a costly proceeding and the people will foot the expense. The ship trust is spending great sums in the endeavor to manufacture public opinion. Newspapers are corrupted and false intelligence sent hither and thither. The president is slandered and villified and this subsidy, wrapped in the flag, is playing yeggman with the people's strongbox.

* * *

It recalls the first real filibuster I ever witnessed, and that was a filibuster as was a filibuster. It was the Forty-sixth congress, and Sam Randall, a protection Democrat, was speaker. The Democratic national convention had been called to assemble at Cincinnati in June, 1880. Randall, ostensibly for Tilden, was a candidate for the nomination himself and he had no intention to allow the tariff question to get on the hooks. He was a man of powerful and imperious will—a tremendous personality, and had he been a real Democrat and not an old Whig, he would have been president. There is another Whig very prominent in the Democratic party right now.

Dick Townsend was a Democratic congressman from Illinois and a follower of "Old Bill" Morrison, a sure-enough Democrat. Dick was what we call "a bright fellow." Good looking, ready, fluent, garrulous, he was a rather showy man. He was chairman of the committee on revision of the laws, and one day he introduced a bill the title of which was to amend certain sections of a certain law and the speaker promptly referred the bill to Dick's committee. He had packed the committee on ways and means and felt secure regarding the tariff, though he could not prevent the brilliant and eloquent Frank Hurd from making one of the greatest pleas for free trade the American congress ever heard. It is a curious fact that that speech was never printed in the Congressional Record.

* * *

Well, one day Dick Townsend reported his bill and it went to the calendar, and behold when it was reached for consideration it was found that it transferred wool, salt and lumber to the free list. When the bill was read it broke loose in congress as they say it sometimes does in Georgia. The speaker was speechless with astonishment and convulsed with rage. But he rallied his forces—that Pennsylvania set, Converse and Warner of Ohio and other Democrats from other quarters who held that it was right to tax one man and bestow the graft on another man.

But he would have been engulfed had not "Pig Iron" Kelley, Tom Reed, Julius Caesar Burrows, Garfield, McKinley, and the entire Republican side come to the rescue just as Mann and Murdock led the cohorts to the support of Champ Clark the other day when he spoke to a bill involving the identical principle—the taxing of the Mississippi valley to bestow the swag upon an opulent and bloated ship trust.

* * *

Of course it was absurd for Dick Townsend's committee to assert jurisdiction over the tariff and nowdays—since Tom Reed performed a parliamentary operation on congress—the bill would be withdrawn and sent to ways and means instanter. But they ordered things different in 1880. It was the palmy day of the filibuster. At least 80 per cent of the Democrats rallied to Dick to oppose reference to ways and means. Joe Blackburn, as good a parliamentarian as Randall himself, was in the middle of it. Hurd, Proctor Knott, "Sunset" Cox, Mills and others supported them. I am sure Morrison was with them, and I believe Carlisle himself, the ablest parliamentarian any congress ever saw, was with them.

When the Randallites and Republicans were pressing hard Dick Townsend would move to adjourn. Then Joe Blackburn, in that sonorous and commanding voice, would rise: "Mr. Speaker, I move you, sir, that when the house adjourns today it be to meet on Thursday next." That made two roll calls and it was done a score of times. Often there were points of no quorum, fot the thing was not disposed of and the bill sent to ways and means till after a tremendous continuous session, night and day, of more than sixty hours.

* * *

But even under the old rules of that day it was possible to force a vote by the majority if they could keep their men together long enough, and it was done on this occasion. Some years earlier old Ben Butler thought he had succeeded in compelling a vote on his force bill, the filibuster against which was led by that same Randall and Beck of Kentucky.

Blaine, then speaker, was opposed to the bill and conveyed word to Randall that the journal of the last preceding legislative day had not been read. Here was a matter of privilege that gave ammunition for a filibuster for a week. It was the second of March before the death of that congress the following fourth of March, and Butler in a great rage surrendered with a blow like this: "I know from whose quiver that shaft came, O, Mr. Speaker; would it be in order to raise a committee to investigate the workings that secured the subsidy to the Fort Smith & Little Rock railroad?" Blaine was not whiter in his coffin than he turned then. It was notice that the old devil had read the "Mulligan Letters," and the "Mulligan Letters" defeated James G. Blaine for president of the United States.

WHOLESALERS WELL PLEASED

Satisfied With Volume of Trade and Outlook for Summer.

Business Is Better Here Than in Any Other District.

While the unusually cold weather conditions this week exercised a somewhat dampening influence, Duluth wholesalers and manufacturers express themselves as gratified over the volume and variety of business being taken by them over this territory. The best information at hand is that trade is relatively better at Duluth and over the Northwestern ground than in other sections of the country. That is attributed partially to the flow of settlers now coming this way as a result of the development work inaugurated by the railroads and land companies.

The final outcome of seeding operations is now being awaited with interest by jobbers.

Grocery Staples Firm.

Trade in groceries is good, so local jobbers agree, and as quotations are now steadier than in months back, retailers are showing greater inclination to replenish their stocks in staples.

Sugars are stronger, with quotations up in raws and the demand is showing some improvement. It is noted that some of the large jobbers are buying freely, according to the Rust-Parker-Martin company. The situation in coffees has also turned firm under the influence of better buying, dealers being of the opinion that prices are reasonably low.

The market in dried fruits shows an advancing tendency all the way through the list. A heavy demand is reported in prunes, and the situation is especially strong in futures, which have advanced a cent a pound this week. Advices from California are to the effect that the fruit is sustaining considerable damage through weather conditions, and the production in the state for the season is placed at around 110,000,000 pounds, or not much more than a 50 per cent yield. Last year's crop was even worse, so that with no surplus to draw upon this year, high prices in the fruit are regarded as certain. Canned fruits and vegetables are also being firmly held. In cereals, rice is up ¼@½c a pound in the Japan grades.

A Local Market for Wool.

Current business in drygoods is reported steady by F. A. Patrick & Co. Future orders are satisfactory on the whole and compare favorably with last year. A sharp increase in sales of mackinaws and northern wool products is noted by the house, resulting in its factories working to capacity in all departments.

The importance of the local industry to sheep raisers in Northern Minnesota and North Dakota is to be judged from the statement that with the Patrick-Duluth factories running on their present basis of production, the fleece of 20,000 sheep is consumed monthly. In spite of the removal of the duty the market in raw wool is now 2 cents a pound higher than last year.

Shoe Trade Improves.

F. E. Church, sales manager of the Northern Shoe company, averred that business being placed in the factory's distinctive shoe lines is showing steady improvement. Indications from over North Dakota and Montana are now very promising, attributable to the fact that progress in seeding operations has been made during the last few days. Fair bookings are now being made in Southern Minnesota and Northern Michigan. Mail and sorting up orders are coming to hand in good volume.

Harness Factory Busy.

Substantial trade in harness and horse collars was advised by the Schulze Brothers company. With its factory in these lines operating to the limit, no stocks are being accumulated. Shipments of summer horse goods are going out in liberal value. The company is employing many operatives in its glove factory in manufacturing working and harvesting mitts.

Good Furniture Shipments.

An increase of late in furniture orders from Northern Michigan was commented upon by the De Witt-Seitz company. This is as a result of the collapse of the copper miners' strike. A satisfactory showing was also noted in business being taken from Northern Minnesota through merchants covering the balance of their spring and summer requirements. Overtime operations are still the rule at the company's mattress factory.

Demand for Building Papers.

Preparations for active building operations this season are denoted in the strong call for building and roofing papers and wall boards, reported by the Peyton Paper company. A gratifying increase over last year in the company's aggregate trade for the present month was noted.

USE "TIZ" IF FEET ACHE, BURN, PUFF UP

Can't Beat "TIZ" for Sore, Tired, Sweaty, Calloused Feet or Corns.

"Sure! I use 'TIZ' every time for any foot trouble."

You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, calluses and bunions.

As soon as you put your feet in a "TIZ" bath, you feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "TIZ" is grand. "TIZ" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet.

Get a 25 cent box of "TIZ" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

NEWSPAPERS AND EMPLOYES AT PEACE.

New York, April 23.—American newspaper owners and their trade union employes are at peace and there appears to be no prospect that difficulties will arise which cannot be settled by arbitration, according to reports read before the American Newspaper Publishers' association, which is holding its twenty-eighth annual meeting here.

Of 345 publishers represented 290 have arbitration contracts, H. N. Kellogg of Indianapolis, chairman of the special standing labor committee, set forth in a report.

NO BETTER TIME THAN TODAY!

The distribution of People's $12 Cyclopedia for less than one-sixth of its regular price now being made by the Glass Block Store comes at the most opportune time. Where is the man, woman or child who would not appreciate this wonderful 5-vol. set on the sensational terms offered to Duluth Herald readers?

You may never again have an opportunity like this. The sets are going fast. They may not last till Saturday—ACT NOW!

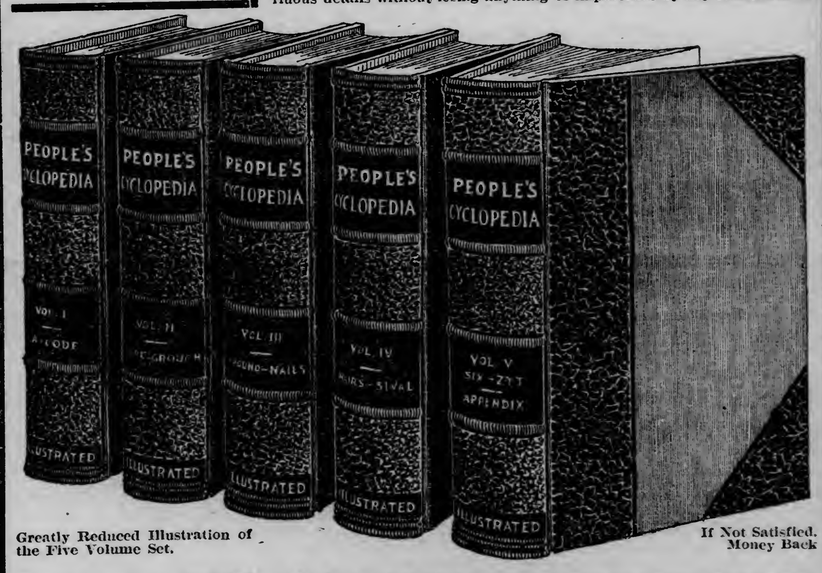
People's $12 5-VOLUME Cyclopedia

RIGHT NOW for

$1.98

Clip the Coupon (Printed Below) *and present it at* The Glass Block Store

Fathers and mothers, get this useful set for the children.



Let the boys know that reference thereto leads to success.

Last Two Days

FRIDAY AND SATURDAY ARE POSITIVELY THE LAST DAYS

SCHOOL TEACHERS OF DULUTH

Teachers in the public schools everywhere have found People's Cyclopedia to be an invaluable reference work for quickly getting at the vital and important facts of every subject. You do not have to search laboriously through a lot of big, cumbersome volumes to get the main points of any subject about which you may want information. This cyclopedia contains all the essential facts of the big sets, omitting all superfluous details without losing anything of importance by the condensation.

Greatly Reduced Illustration of the Five Volume Set.

If Not Satisfied, Money Back

Regularly Selling at $12.00

ORDERS BY MAIL

MONEY REFUNDED IF NOT SATISFACTORY

By parcel post include EXTRA 14 cents within 150 miles; 24 cents 150 to 300 miles; for greater distances ask your postmaster amount to include for 10 pounds. Send coupon and remittance to Glass Block Store, Duluth, Minn.

THE HERALD COUPON

For $1.98

I agree to show this set to my friends and explain how I got it.

This coupon, when presented with $1.98 at THE GLASS BLOCK STORE, entitles the holder to a five-volume set of People's Cyclopedia (regularly selling at $12.00).

THIS COUPON WILL BE REDEEMED AT

The Glass Block Store

2nd Avenue West and Superior St.

FEW DAYS MORE OF BOOK BARGAIN

By Clipping the Coupon You Can Get $12 Set for $1.98.

There are now only a few days left in which to take advantage of the big book bargain distribution now being conducted in Duluth by the Glass Block store. For the past week merry throngs of newspaper coupon clippers have tested the facilities of the Glass Block store, where these wonderful reference sets are being given out.

People's Cyclopedia is the most useful set of books on earth. It consists of five octavo volumes, bound in English cloth, magnificently illustrated throughout, and regularly sells for $12. During this week $1.98 and one coupon clipped from this paper will get the complete set. Surely this is an unusual book bargain.

Clip the coupon printed in the cyclopedia announcement in another column of this issue and present it any time this week, but don't put it off too long, as the allotment of sets for Duluth is rapidly diminishing, and the supply may be exhausted at any time.

Coupons will be redeemed at the Glass Block store and mail orders will be filled by them as explained in the announcement.—Advertisement.

How You Can Remove Unsightly Hair or Fuzz

(Boudoir Secrets)

By having a small package of delatone handy, you can quickly banish ugly, unsightly hairs wherever they may appear. Just enough paste to cover the hairy surface is made with some of the powdered delatone and water. This is applied for about 2 minutes, then removed and the skin washed. This simple method not only banishes every trace of hair or fuzz, but leaves the skin firm, smooth and free from blemish.

DULUTH RETAILERS ARRANGE WORK

Association Discusses Plans and Names Standing Committees.

Directors of the Duluth Retail Merchants' association met yesterday afternoon at the Commercial club and discussed plans for the coming year's work in the organization and selected standing committees to serve for the ensuing twelve months.

The committees to which the work of the association for the coming year was left, were named as follows: Membership, A. K. Squier, A. O. Anderson, B. Blumenthal, A. C. Pearson, S. W. Hill and Joe Gidding; good roads, William Burgess, M. K. Stack and A. Kenny; legislation and insurance, George A. Gray, E. P. Kreimer, T. A. Reynolds, W. N. Hart and B. Silberstein; investigation and law enforcement, Frank Williamson, I. Freimuth and C. H. Bagley; entertainment, A. L. Ahlen, A. B. Siewert, and A. H. Moe; conventions and transportation, W. B. Brinkman, B. P. Neff and M. Koneczny; advertising, E. A. Silberstein, J. A. Sicard and Felix Seligman; safety valve, W. N. Hart, Edward Mendenhall and S. W. Hill; public markets and farmers' clubs, William Blistein, William Burgess and A. B. Siewert.

Brainerd Bank Sale.

Brainerd, Minn., April 23.—J. P. Ernster has sold his interests in the Brainerd State bank to L. M. Depue, the president of the organization. The present officers of the bank are: President, L. M. Depue; vice presidents, Fritz Koop and Carl Zapffe; cashier, H. E. Kundert. The bank at present has a capital of $25,000 and surplus of $2,000.

Quick Results Astonish Duluth

There is astonishment in Duluth at the QUICK results received from simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, the remedy which became famous by curing appendicitis. This simple mixture drains such great amounts of foul matter from the body that A SINGLE DOSE relieves constipation, sour stomach and gas on the stomach almost IMMEDIATELY. The speedy action of Adler-i-ka is surprising. W. A. Abbett, druggist, 205 West Superior St.

Bent Bones That Were Bent by Pointed Shoes

Straight Bones That Grew Straight in Educator Shoes

Women's Dull Calf Blucher Oxford Educator

Remove the *Pressure*

CORNS, bunions, bent bones, ingrowing nails, flat feet and tired feet are all made by the pressure of tight, pointed shoes.

Go bare-footed—or go in Educator Shoes. Either will remove the pressure and thereby relieve or free your feet from all foot blemishes. Remove the pressure and you remove the corns.

Get your whole family (men, women and children) into roomy, good-looking Educators today. $1.55 to $5.50.

See that EDUCATOR is branded on he sole. That name guarantees you the correct orthopædic shape, which lets your feet grow as nature intended.

Good shoe stores everywhere sell Educators. If you have any trouble finding them write us.

OFFICERS OF THE ASSOCIATED PRESS.

New York, April 23.—The board of directors of the Associated Press yesterday elected officers as follows:

President, Frank B. Noyes, Washington Star; first vice president, Charles H. Grasty, Baltimore Sun; second vice president, D. D. Moor, New Orleans Times-Picayune; secretary, Melville E. Stone; assistant secretary, Frederick Roy Martin; treasurer, J. R. Youatt.

Members of the executive committee: Frank B. Noyes, Washington Star; W. L. McLean, Philadelphia Bulletin; Adolph S. Ochs, New York Times; Victor F. Lawson, Chicago Daily News; Charles A. Rook, Pittsburg Dispatch; Charles Hopkins Clark, Hartford Courant, and Charles W. Knapp, St. Louis Republic.

SAY SUICIDE WAS EMBEZZLER.

Lansing, Mich., April 23.—According to a statement issued by the directors of the City National bank, Fred J. Hopkins, cashier of the institution, who committed suicide Tuesday, had embezzled approximately $57,000 of the bank's funds.

WERE FIRED UPON BY MEXICAN GUNBOAT.

Galveston, Tex., April 23.—American sailors were fired upon by a Mexican gunboat at Tampico on two or three different occasions and once German and English sailors were fired upon, according to Chief Engineer Murray of the steamer Herbert G. Wylie, which arrived here yesterday from Tampico.

Murray said he had seen the Mexican gunboat Vera Cruz take pot shots at cutters flying the United States flag.

Anti-American Feeling.

Naco, Ariz., April 23.—Anti-American sentiment is believed to be developing rapidly along the border despite efforts made by Constituttonalist officers to check it. Numerous meetings were held yesterday at which incendiary speeches were made. No newspapers were permitted to go to Cananea.

Red Men Volunteer.

Portland, Or., April 22.—Frank G. Micelli, grand sachem of the Improved Order of Red Men of Oregon, telegraphed to President Wilson yesterday an offer of 2,500 members of the order for service in Mexico.

Veterans Ready to Go.

Pittsburg, Pa., April 23.—Members of Capt. Alfred E. Hunt Camp No. 1, United Spanish War Veterans, at a meeting last night, decided unanimously to offer the services of 350 members to President Wilson for use in Mexico.

Yale Troop of Cavalry.

New Haven, Conn., April 23.—Preliminary steps were taken last night for the organization of a Yale troop of cavalry to go to Mexico if called upon. Four hundred students attended a rousing meeting.

Emergency Hospital.

Key West, Fla., April 23.—The equipment building of the naval station here is being prepared as an emergency hospital for receiving the wounded American marines from Vera Cruz.

HALE UPHOLDS THE MEXICAN POLICY OF THE PRESIDENT

Has Given United States New Character Among the Powers.

Forces Will Be Ordered Home When Order Is Restored.

New York, April 23.—William Bayard Hale, President Wilson's unofficial investigator of affairs in Mexico, has contributed to the forthcoming number of the World's Work, an article upholding the president's Mexican policy and pointing out an important development in the character of American diplomacy. This, he explains, is an interpretation of the Monroe doctrine, that establishes the suzerainty of the United States only as an effective source of moral inspiration over the nations of Central America and the West Indies.

"The press and people of America," he says, "have not yet awakened to the fact that the first year of the Wilson presidentiad has given the United States a new character among the powers of the world. Before Mr. Wilson had been in office a week, he had given the Monroe Doctrine an interpretation the implications of which go far beyond anything voiced by Jefferson, Madison, Monroe, Quincy, Adams, Polk, Webster, Grant or Olney. Before Mr. Wilson had been in office a year the powers of other continents had yielded to the principle of our domination in the Western hemisphere. It is not fantastical therefore to speak of our moral empire in America."

"Our Moral Empire in America" is the title of the article. The magazine editors point out that Dr. Hale desires to make it clear that he writes simply as a private student of affairs. Nevertheless, they assert that no one except the president himself is entitled to speak with greater authority upon the problems of Latin America.

Intervention in Mexico.

Discussing the possibility of intervention in Mexico (the article was written before the fleet was ordered to Tampico), Dr. Hale says: "An American army would have no physical difficulty in getting back out of Mexico; nobody would use it up before it got away; the difficulty would be that greed and a false sense of national honor would do their utmost to keep us there permanently in occupation."

We do not want Mexico, he declares; especially we do not want her because we do want the good will of the rest of Latin America. "It would be a fool's act indeed to barter the confidence of a hemisphere for all we could gain by annexing Mexico."

If armed intervention should be forced upon us, he continues, "I predict that our forces will be ordered home just as soon as constitutional order has been restored; and that, so far as the power and influence of President Wilson can bring it to pass, nothing in the nature of an indemnity, either in money or land, will be asked or will be accepted. But nobody can predict how far the influence of the vast American investments in Mexico, which would be multiplied in value by being brought under the American flag, might go toward rendering withdrawal possible. What we do want in Mexico, and throughout Central America, is—order."

Revolutions "Promoted."

"The trouble with Central America, Dr. Hale asserts, is its proclivity for revolution. But, he says, most Central American revolutions are "promoted" from Europe in a regular way of business, exactly as a real estate scheme is promoted in America. The duty of the United States is to scrutinize each revolution by itself and to judge whether it be or be not "morally justifiable."

"That duty the United States has now assumed. When Mr. Wilson took steps to inform himself of the facts regarding the Huerta coup d 'etat, with a view to passing a moral judgment upon the rightfulness of the de facto government in Mexico City, he took, it seems to me, the most far-reaching and fateful step which the Monroe Doctrine has inspired in all the process of its evolution.

"In the case of Mexico, judgment was easy. The coup d'etate that overthrew Madero in February, 1913, was in no way a revolution. It was a barracks plot, a conspiracy of a few army officers, financed by Cientificos living in exile and a few Spanish reactionaries. It was attended by circumstances of treachery so execrable, of villiainy so fantastic, of cruelty so barbarous, that the story is one which the mind has difficulty in accepting as credible.

Huerta's Seizure of Power.

"The chief actor, Huerta, an apelike Indian, aged, one-eyed, subsisting on brandy, when the moment of his triumph was fully come, rose from breakfasting with the president's brother, beckoned a file of soldiers, arrested him, had him carried away to be shot to death and his body thrown into a hole; went to the palace, embraced the president whose chief commander he had become through protestations of faithfulness to death, and signalled in guards to arrest him. By promises of safe conduct out of the country, the treacherous general secured the signatures of President Madero and Vice President Pino Suarez to deeds of resignation; hastily gathered less than a quorum of congressmen in a chamber filled with soldiers and commanded by artillery; had himself acknowledged as president; carried Madero and Pino Suarez out into the night and had them shot to death behind the prison.

Could Not Be Recognized.

"Perhaps this is enough to suggest that there could be no question of recognizing Huerta as the head of a lawful government—once it had been resolved to scrutinize revolutions. But indeed it would surely have been impossible for tragic romance to have imagined a character so hideously villainous as Victoriano Huerta, or a career so completely justifying the refusal to recognize him.

"Other powers made no scruples of giving the assassin and usurper immediate recognition. Very well; the United States is not a follower of other powers. It is, it has been from the beginning of its history, the moral leader of the world. . . . It is the mere fact that great powers have no consciences—but the United States has a conscience. We are simple people, unable to rid ourselves of a prejudice against murder. . . . This is hypocrisy, sentimentalism, Quixoticism, offensive moral superiority, so the British journals say. No, it is not sentimentalism; it is a plain sturdy morality, to which, unfortunately, the foreign politics of too many other nations are strangers.

"And it is a very practical morality."

QUICK ACTION BY PRESIDENT WILSON

How He Ordered Seizure of Vera Cruz Customs House.

Washington, April 23.—The story of how President Wilson ordered the customs house at Vera Cruz to be seized was revealed yesterday.

The president had gone to bed Monday night after having read his message to congress. The senate was debating the joint resolution to approve the use of the army and navy and the president had determined to withhold action until the resolution passed, although feeling that in an emergency the executive had ample authority to act.

At 4 o'clock Tuesday morning Secretary Bryan received a cablegram from Consul Canada telling of the approach of a German vessel with a tremendous cargo of ammunition for Huerta. A number of locomotives and many cars were in readiness to rush the arms to Mexico City.

Mr. Bryan telephoned Secretary Tumulty, who decided to awaken the president. He telephoned the White House. The servants were timid, but Mr. Tumulty insisted. Finally the president came to the telephone and while Secretary Tumulty was explaining the situation, Secretary Daniels called up and was put on the same line. He, too, had a dispatch about the ammunition.

Rear Admiral Fletcher had sent a wireless that 15,000,000 rounds of ammunition and 250 machine guns would be landed from the German vessel by noon that day. The president listened in silence.

"What shall we do?" asked Secretary Daniels.

"Tell Fletcher to seize the customs house," replied the president without hesitation.

"Good night," said the secretary.

The telephone conference ended, and in a few minutes wireless dispatches were on their way to Rear Admiral Fletcher. He received the message at 10 a. m., and an hour later American marines had landed and taken possession of the customs house. The ammunition will go back to its shippers in Germany.

REVENUE CUTTERS HELD IN READINESS

Nine Vessels Ready to Proceed to Mexican Vessels.

Washington, April 23.—Nine vessels of the revenue cutter service are held in readiness to proceed to Mexican waters to participate in the blockade of that coast which already practically has been established. Treasury officials said that the ships might be ordered to Mexico any hour and every one of them was prepared to start on thirty minutes' notice.

It is understood to be the purpose to utilize the revenue cutters to do patrol duty along the coast, to act as dispatch boats and to carry marines or other forces to points ashore that cannot be reached by the large naval vessels.

The cutters available for Mexican service include the Algonquin, at San Juan, Porto Rico; Androscoggin, at Portland, Me.; Apache, at Norfolk, Va.; Gresham, at Boston; Itasca, at New London, Conn.; Mohawk, at New York; Onondaga, at Norfolk; Seminole, at Wilmington, N. C., and Yamacraw, at Savannah, Ga.

Each of the vessels carries a battery of three or four six-pounders, which easily may be increased, and a crew of about 100 men fitted for any duty.

PLEDGE LOYALTY TO THE PRESIDENT

American Peace and Arbitration League Stands With Wilson.

New York, April 23.—The American Peace and Arbitration league sent a letter to President Wilson last night through its president, Henry Clews, extending sympathy and aid in the Mexican crisis. "Our league is an ardent peace organization, but not of the 'peace at any price' kind," Mr. Clews wrote.

"We have stood by you loyally in your splendid efforts to preserve peace and avoid war," the letter said. "We now uphold your hands in the regrettable necessity, and unavoidable obligations of prompt action in the interests of the United States and Mexico itself. It remains only to convince the world that this action is not for vengeance or aggression, but of necessity to maintain our position among the nations of the world and restore national life, liberty and constitutional government to the people of Mexico."

Five hundred members of the Merchants' Association of New York, at a luncheon yesterday, gave a rising vote to express their support of President Wilson in the Mexican crisis. A telegram was sent to the president pledging loyalty in whatever course he shall determine necessary "to protect the honor and dignity of the United States and to restore peace, order and a stable government in the republic of Mexico."

BURNED RAILROAD BRIDGES BEHIND THEM.

Eagle Pass, Tex., April 23.—After destroying the main fortifications at Piedras Negras, the Federal garrison yesterday retreated southward, burning the railroad bridges behind them. Gen. Guarjardo, the Federal commander, is withdrawing to Saltillo, where he will join the force under Gen. Joaquin Maas.

Piedras Negras last night was almost deserted and without police or fire protection. Most of the inhabitants have crossed to the American side and Eagle Pass is crowded with refugees. Preparations are being made to establish a camp to care for them.

PROFOUND SORROW OF PRESIDENT

Letters Written to Parents of Marines Killed at Vera Cruz.

Washington, April 23.—Letters expressing the profound sorrow of President Wilson and Secretary Daniels at the death of the four marines at Vera Cruz Tuesday were dispatched by the secretary of the navy to the parents of the men.

The letters were addressed to William Poinsett of Philadelphia; Mrs. Isabella McKinnon of Brooklyn, N. Y., mother of Coxswain Schumaker; Martin Martin of Chicago and Michael Haggerty of Cambridge, Mass.

Mr. Daniels wrote to each:

"This morning's dispatches from Vera Cruz conveying the distressing news that your son was in the first line to give his life for his country, saddens all America as the tragedy brings gloom into your home.

"My feeling and the feeling of the president to you in this sad hour was expressed by President Lincoln when on Nov. 21, 1861, he wrote to Mrs. Bixby of Boston, whose five sons gave their lives fighting under the American flag:

"'I feel how weak and fruitless must be any words of mine which should attempt to beguilt you from a loss of so overwhelming a nature. I refrain from tendering you the consolation that may be found in the thanks of the republic to those who have died. I pray that our Heavenly Father may assuage the anguish of your bereavement and leave you only the cherished memory of the loved and lost and the solemn pride that must be yours to have laid such a costly sacrifice on the altar of freedom.'"

PROVISIONS FOR TWO MONTHS TAKEN

Eight Hundred Coffins Also Put Aboard Army Transports.

Galveston, Tex., April 23.—Eight hundred coffins yesterday were taken aboard the army transports here which are stocked and ready to carry the Fifth brigade of the United States army to Mexico if the war department so orders. It was learned that the transports carry two months' subsistance for the 4,500 men of the Fifth brigade, the store of provisions having been included at the last moment. At first plans were made to put aboard only thirty days' provisions.

It was stated that from eighteen to twenty-four hours would be required to make the transports ready to sail.

Three torpedo boat destroyers, Flusser, Compton and Reid, coaled yesterday. The destroyers are to convoy the transports.

Evidence of the watchfulness of army headquarters here for emergencies was seen during the day in orders to steamships here or inquiries about their availibility for war service.

PRESIDENT TAKES NAP IN OFFICE

Physician Orders Him to Play Golf in Virginia Hills.

Washington, April 23.—President Wilson's sleepless nights, interrupted by telephone calls from state and navy department officials, his worry over the general situation and the responsibilities of the present crisis wore him out so completely yesterday that he took a nap in his office.

A member of the foreign relations house committee found him slumbering on a couch. The president awoke and they talked about Mexico. Presently Mr. Wilson's physician dropped in. He ordered a game of golf in the Virginia hills. The president went reluctantly. He did not want to be playing golf while the Mexican situation was acute, but Secretary Tumulty insisted.

The president went and Secretary Tumulty, who has averaged about five hours' sleep during the last few nights, himself, stayed on watch at the White House for emergency developments in the situation.

TRAINED MEN TO PREPARE FOR CALL

Commander of Army and Navy Union Issues Order.

Washington, April 23.—The organization of the reserve of trained and disciplined men, to respond to any call for volunteers for service in Mexico, was ordered yesterday by Gen. H. Oden Lake, national commander of the Army and Navy union. A general order to officers of the union, which is an organization of honorably discharged soldiers, sailors and marines, read:

"You will at once call a meeting of all the honorably discharged soldiers, sailors and marines in your jurisdiction, consider the present emergency with them, enroll such as are willing to respond to any call of the president for volunteers and immediately report the same to the headquarters.

"By acting promptly and energetically, you will give great confidence to the president and people as to our nation's ability to meet the emergency. You will give our comrades in active service assurance of your proper support. At the first call we can present within ten days at least one full brigade of trained and seasoned men, with more to follow."

LONDON PAPERS SAY WAR IS INEVITABLE.

London, April 23.—The editorial view of a majority of the London papers is that the United States is now committed to war with Mexico, and that it will be impossible to localize the war against Huerta.

The Daily Chronicle says:

"We cannot suppose that President Wilson is asking his countrymen to spend money and shed their blood merely to replace a villain like Huerta by a villain like Villa."

All the papers recognize the magnitude of the possibilities opened up by the happenings at Vera Cruz.

MINNESOTA GUARDS ARE READY TO START.

Minneapolis, Minn., April 23.—Adjt. Gen. F. B. Wood of the Minnesota National Guard late yesterday requested Dr. R. H. Mullin, director of the laboratory of the state board of health, to at once prepare anti-typhoid prophylactic for 3,000 men. Gen. Wood said that this would supply more than half the present force of the state guard, who, he declared, are prepared to leave for the front on short notice.

POINSETT LAUDED ON FLOOR OF HOUSE.

Washington, April 23.—George Poinsett of Philadelphia, the seaman on the Florida killed at Vera Cruz Tuesday, was eulogized in the house yesterday as "the Worth Bagley of the Mexican trouble."

Representative Moore of Pennsylvania, in calling attention to the fact that Poinsett was the first man killed in the intervention in Mexico, declared that "whether we have entered upon this war wisely or unwisely, at least we have demonstrated our wisdom as a nation in being prepared for war."

He added: "A father who yielded to his boy's desire to serve his country, has been bereft of a son, but the nation has added the name of that boy to its roll of heroes."

Mexicans Asked to Behave.

El Paso, Tex., April 23.—A proclamation calling upon Mexican residents here to comport themselves with decorum and reserve because of the delicate state of affairs existing between the Huerta government and the United States was issued last night by the Huerta consul here, Enrique de la Sierra.

Canada Takes Action.

Ottawa, Ont., April 23.—Premier Borden stated in the house of commons yesterday that the Canadian government would take steps to insure the safety of lives and property of Canadians in Mexico during the present troubles.

MINNEAPOLIS WOMAN ESCAPES DANGEROUS SURGICAL OPERATION

Mrs. Sinclair Finds Wonderful Stomach Remedy in Time to Avoid Knife.

Mrs. Sadie E. Sinclair of 418 East Lake street, Minneapolis, suffered from stomach derangements for more than six years. She became despondent and hopeless. She feared she would have to undergo an operation. Her complexion suffered along with her general health.

Then she discovered Mayr's Wonderful Stomach Remedy and took a course of treatment. The first dose brought results. She wrote:

"Only one dose and I slept like a log. And I felt relieved right away. If I should need any more medicine, you may be sure I will send for it. It is a wonder one can be rid of such conditions without pain. And my complexion is clearing; they all speak of it—I was so yellow and brown before."

Mayr's Wonderful Stomach Remedy works quickly and safely. It clears the digestive tract of mucoid accretions and removes poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and digestive tract. Many declare it has saved them from dangerous operations; many are sure it has saved their lives.

The remarkable success of this remedy has caused many imitators, so be cautious. Be sure it's MAYR'S. Probably it is known among your own neighbors. Ask them. Go to your nearest druggists and ask about the wonderful results it has accomplished—or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting street, Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its remarkable effects.

How American Women May Keep Faces Young

"The American smart woman ages early, far earlier than the English woman," says Christian Miller, F. C. I., the famous English health expert. She adds that our climate "so exhilarates that you over-exert yourselves and grow old before you know it. That same exhilarating air dries the skin. The skin that lacks moisture grows pale and withered looking and soon forms wrinkles.

"The American complexion," is best treated by "applying pure mercolized wax, which causes the faded, lifeless cuticle to flake off in minute particles, a little each day, until the fresh, young skin beneath is wholly in evidence. Every druggist has this wax; one ounce is sufficient. Spread on at night like cold cream, washing it off next morning.

For wrinkles, dissolve an ounce of powdered saxolite in a half pint witch hazel; bathe the face in this. Immediately every wrinkle is affected, even the deepest lines. Both treatments are remarkable facial rejuvenators. —Advertisement.

The DOCTOR'S ADVICE

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Lewis Baker, College Bldg., College-Elwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

"Nellie G." writes: "Can you prescribe a good treatment for catarrh? I suffer with pain above my eyes, and my breath is offensive."

Answer: Catarrh is very annoying and dangerous is neglected. The best treatment can be had by the use of antiseptic vilane powder. Obtain in two or eight-ounce package or box and use as per directions accompanying same.

* * *

"Maud" writes: "Can anything be done for an itching scalp? My scalp is covered with dandruff and I am in great distress."

Answer: You can very easily be cured of an itching scalp, also dandruff, if you will get a 4 oz. jar of plain yellow minyol and use according to the directions given on the jar. Two or three applications have been known to cure. Try it fairly and you will advocate its use to your friends.

* * *

"Ellen K." writes: "I am not fleshy enough. I should weigh 20 pounds more. I am ashamed of my thinness and wish to become plump and attractive. Can you help me?"

Answer: Yes, I can help you, "Ellen K." and many others in the same plight. A thorough course of treatment with three-grain hypo-nuclane tablets will gradually give you more red and white blood corpuscles, adding to your weight, health and color, giving you pink cheeks, red lips and sparkling eyes. These tablets are packed in sealed cartons with directions. Do not expect results too quickly. It takes time to change the cells and tissues of the body, but you can depend on gaining weight if you are persistent.

* * *

"D. E. F." writes: "If you know of anything that I could take to cure my rheumatism, please tell me, as I suffer all the time. Am getting worse all the time."

Answer: Take the following and you will soon be relieved of your rheumatism. This is the best remedy that I have ever known for this trouble. Iodide of potassium, 2 drams; sodium salicylate, 4 drams; wine of colchicum, ½ oz.; comp. essence cardiol, 1 oz.; comp. fluid balmwort, 1 oz. and syrup sarsaparilla comp. 5 ozs. Mix by shaking well and take one teaspoonful at meal times and again at bed time.

* * *

"Helen" writes: "Can you give me a reliable remedy for coughs and colds? My cough is so tight that I am afraid of pneumonia."

Answer: The tightest cough can be loosened in one hour by using the following: Get from your druggist a 2½ oz. package of essence mentho-laxene and make according to directions on bottle. This will break up any cold and loosen the tightest cough and soon cure it by its laxative tonic action.

* * *

"Miriam G." writes: "I am afflicted with stomach and bowel disorders and am fearful that it will result in appendicitis. Please advise me."

Answer: Undoubtedly a great many people could prevent appendicitis by using precaution, and overcoming stomache and bowel disorders in time. I advise that you take tablets triopeptine.

* * *

"Carpenter" writes: "I have pains in my spine and frightful headache in back of head, fainting spells, twitching and trembling, nervousness, sleeplessness, loss of appetite and strength, and in fact am 'a has been,' when it comes to performing accustomed work and duties. Please advise."

Answer: In all such cases the assimilative functions have not kept pace with waste functions and a powerful, harmless tonic treatment is needed. I find three grain cadomene tablets unexcelled and astonishly beneficial in such cases and advise them for you.

* * *

"Mrs. W. C." asks: "Is it safe to reduce one's weight when it is excessive? I have often wanted to take something but have been afraid that it might do more harm than good."

Answer: Some remedies might not be safe, but I prescribe one which is both safe and effective. Ask any well stocked pharmacy for 5-grain arbolone tablets, packed in sealed tubes, with full directions for home use. They will usually reduce at the rate of a pound a day.

* * *

"Geraldine" writes: "I am troubled a great deal with headache, dizzy spells, dark spots before my eyes, twinges of rheumatism. Can I be helped at all?"

Answer: You can not only be "helped" but you can be freed of all the troubles you mention. You need three-grain sulpherb tablets (not sulphur) which are packed in sealed tubes and contain full directions for use. They are made of sulphur, cream of tartar and herb medicines. If these are taken regularly they purify the blood, stimulate the liver and bowels into healthy action and will gradually effect a cure.

* * *

Mr. C. P. writes: "What should I do to relieve a severe case of kidney and bladder disease? Urine is dark, foul of odor, and passage is irregular, painful, etc. Have depression, fever, chills, pains like rheumatism, and soreness in region of bladder."

Answer: For such symptoms as you describe, I prescribe my favorite formula under the name of balmwort tablets. This is a splendidly efficacious remedy for such abnormal conditions. Begin their use at once as per directions on each sealed tube.

* * *

"Mother"—Bedwetting in children is usually a disease which can be corrected by the use of the following: Tincture cubebs, 1 dram; tincture rhus aromatic, 2 drams; comp. fluid balmwort, 1 oz. Mix and give the child 10 to 15 drops in water one hour before each meal.

TRIED TO GET BETTER HEALTH AND FAILED

BECAUSE OF WRONG METHODS

In the face of failure with strong drugs and a strong appeal to her to submit to an operation if she wanted to live, she felt that there was a better way for her to get well, than to take a half chance on the operating table. This is what Mrs. T. S. Butterfeld of 1924 West Michigan street said when she came to consult the Electro Medical Doctors. After she began to use Natural Methods she experienced relief at once and two weeks later she wrote the following testimonial:

"Duluth, March 20.—I thank you Doctors for the good work you have done for me, after having used drugs for years and steadily getting worse. The doctors said that only an operation would save me from death. Now compare that with your simple, painless treatment, without any risk to life whatever. Only two weeks and all my excruciating pain is gone. I hope that other people who suffer like I did will read this and investigate your treatment." (Signed) Mrs. T. S. Butterfield, 1924 West Michigan St.

Natural Methods cure large abdominal tumor. Lady from Michigan writes the following:

"Electro Medical Doctors, Duluth, Minn.—Dear Sirs: I write to tell you that the tumor has entirely disappeared and I feel no symptoms of its presence." She writes further: "I had an injury to my eye recently and a Milwaukee Specialist tells me I must have an operation to prevent blindness. Can you save me once more from an operation?"

Natural Methods Cure Tuberculosis of Neck Glands.

Mrs. Mary Lustin of Eveleth had the above disease when she consulted us, with a deep hole eaten into the sternum (breast bone). Within reasonable time the wound is completely healed and the swelling reduced. She writes: "I am feeling fine and get stronger right along."

Natural Methods Cure Goiter.

Goiters have been cured by Electro Medical Methods. Patients living right here in Duluth. Name and address will be given to inquirers.

Rheumatism Cured By Natural Methods.

Mrs. Scougale of Hibbing, whose fingers were badly deformed and enlarged, was told by local doctors that if any doctor would cure her condition, his fortune would be assured. Today her hands are normal. Electro Medical Methods did the work. The Electro Medical Doctors are Special-ists in Chronic Stubborn Diseases, and the above testimonials should convince the most skeptical of the merits of their healing system.

ALL CONSULTATIONS FREE AND STRICTLY CONFIDENTIAL.

NO. 26 WEST SUPERIOR STREET, DULUTH.

This Week's Sunday School Lesson

Written for The Herald By Rev. J. S. Kirtley, D. D.

SUNDAY SCHOOL LESSON: APRIL 26.

Luke xv, 1-10: The Lost Sheep and the Lost Coin.

CONNECTION.

The Master is still over in Perea and the situation is intense. His enemies are there watching as usual for an opportunity to trip Him up in His words or bring discredit on Him. There is a group of publicans, the tax gatherers for the Roman government, and sinners, or outcasts as we would phrase it and there is the group of proud, selfish, cruel Pharisees. These three parables of lost things are addressed to them. That gives a specific point to them.

THE LESSON.

I.

The Inhuman Way. 1-2.

"Now all the publicans and sinners were drawing near unto Him to hear Him. And both the Pharisees and the scribes murmured, saying, this Man receiveth sinners, and eateth with them."

1. LOSS.—There were two classes according to the Pharisees, the good and the bad, the derelict and the dutiful, in other words themselves and the rest of mankind. It must be confessed that the others were bad enough and there they were, "publicans and sinners," those who were so disloyal to their own nation as to become officers of the Roman regime to collect taxes and so dishonorable as to get the taxes by unjust means, and those who were the outcasts by the verdict of all. These people were a loss not only to the nation but to the Pharisees and to their own selves. It was a distressing thing, the degeneration of these people till they were broken fragments of humanity.

2. SYMPATHY.—Jesus had sympathy for them because He was as good as He was; not to condone their sins but to cure them. So great was His sympathy He talked to them as brothers and friends and He even ate with them, though the publicans were disreputable because of their callings and the others on account of their characters, and He contravened the customs and usages of the dominant element in society when He did it. So powerful was His influence over them they "drew near" from everywhere, drawn to His sincerity and goodness and kindness.

3. HATRED. — The way those Pharisees hated the other two classes was far more bestial than the sins of the latter. Their religion was external and within they were worse than the others. It is natural for one to seek what is lost and recover it. They were unnatural in not wanting to get back these lost fellow human beings. They felt contaminated by the very sight of them. They hated Jesus for associating with them; it was another sign that He could not be the Messiah. Religious externalism always means inner infernalism. The more they "murmured" with their surly growling the more attractive His way was with the unfortunates. He understood, loved and sought to help them. That made His enemies more vicious. His course was exactly opposed to the notions of the Pharisees. With these stories about lost things He showed them that they were inhuman, acting on principles that nature repudiates in practical life.

II.

The Humane Way. 3-10.

"And He spake unto them this parable, saying: "What man of you, having a hundred sheep, and having lost one of them, doth not leave the ninety and nine in the wilderness, and go after that which is lost, until he find it? And when he hath found it, he layeth it on his shoulders, rejoicing. And when he cometh home, he calleth together his friends and his neighbors, saying unto them, rejoice with me, for I have found my sheep which was lost. I say unto you, that even so there shall be joy in heaven over one sinner that repenteth, more than over ninety and nine righteous persons, who need no repentance.

"Or what woman having ten pieces of silver, if she lose one piece, doth not light a lamp, and sweep the house, and seek diligently until she find it? And when she hath found it, she calleth together her friends and neighbors, saying, rejoice with me, for I have found the piece which I had lost. Even so, I say unto you, there is joy in the presence of the angels of God over one sinner that repenteth."

1. LOSS.—Jesus didn't hesitate to say these people were lost and for the moment took the Pharisees at their own valuation of themselves, just to show them up. In the two parables there is one common experience of loss, in the one case a sheep, in the other a piece of money. The loss was due to the stupidity of the sheep led on by the attractive grass, as these sinners followed their unreasoning impulses from one sin to another till they were "afar off;" the money rolled down of its own weight as sinners follow their moral gravity so often, the line of least resistance, and are gone. There were three things that made the owners feel the loss keenly —the intrinsic worth of the lost thing, violated ownership and sentiment, in the case of the sheep a personal affection between the shepherd and his sheep, in the case of the money almost surely some sentiment or association.

"The probable interpretation is that the ten drachmas were the ten coins worn as a frontlet by the woman of the East. This frontlet was given by the bridegroom to the bride at the time of marriage, and like the ring of Western life, it was invested with a kind of sanctity. It must be worn on all public occasions and guarded with a jealous sacred care; for should one of its pieces be lost it would be regarded as an indication that the possessor had not only been careless, but also that she had been unfaithful to her marriage vow."

The sheep and coin were out of the sight and knowledge of their owners, but the sinner is just as lost to God though he is under His eye every minute, day and night, for God cannot own him till he owns God as Lord and Father. Sin is tragical, for it makes tragical situations. As the owners suffered from the loss of something with intrinsic value and from violated ownership and from wounded affection and sentiments, so God feels His loss and Jesus is feeling it; not to do so would be unnatural. The Pharisees were so far abnormal, untrue to moral instinct, as unnatural as if the shepherd had said, "Let him go; I've ninety-nine more left," or the woman had said, "That's nothing; I've got as much as I care for, anyhow."

2. SEARCH.—It had no right to be lost, and the owner will never rest till it is back in his or her possession. The search goes on to the end, for the loss to the owner is more than to the lost thing. God is the real sufferer from the sins of men, however much they may suffer. Another sheep just like it, or another piece of money of equal value, would not suffice, because this one was owned and prized for the various reasons. The shepherd feels for the sheep, feels its lostness; gives more attention to it than to all the others; goes to trouble, endures hardships, climbing sharp mountains, going through thorns that pierce his hands and feet, facing wintry winds or summer suns, enduring drenching rains, sleeping out under darkened skies, and he keeps this up till something comes of it. The woman concentrates all on the search for the money; it was natural to do so. It is also natural that Jesus should care for these lost people, feel their lostness, suffer from their sins, and if the Pharisees had not become dehumanized, they too would have been too troubled about these sinners to rest.

3. JOY.—There is no chiding, no punishment. The owner is too glad to get back the lost to feel like that and the lost are too glad to get back in and too penitent to require it. The joy is threefold, recovering property which was far better than finding a substitute, getting real worth, satisfaction to worthy sentiments. And the sinner that repents excites joy all over heaven. If these gentlemen who claimed to have all the resources of heaven at hand had anything heavenly in them they would have been glad that He ate with them and taught them if that would only recover them to God.

WHAT THE MASTERS SAY.

The center of the universe is a heart in which the sense of ownership and the affection of love are the same. God really loses us when we stray from Him, and some wave of gladness lifts the face of the great deep when the lost is found. Nor is that wondrous conception of the divine nature all that is here taught, but the other human feeling of need of sympathy in deep emotion has something akin to itself even in his heart. He, too, has a cup of joy filled full by others drinking of it.—McLaren.

It is all very well to have pity on brutes, because they have feelings that can be hurt and because they are God's creatures, but we are linked to them by no such ties as those which bind us to the brotherhood of man and which are second only in sacredness to those which bind us to the throne of God.—Henson.

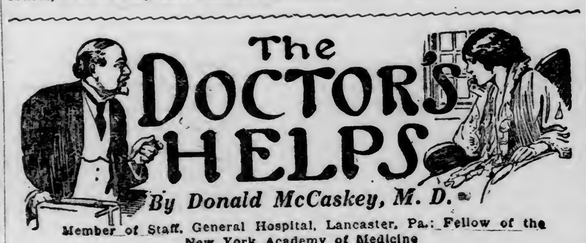
PERTINENT QUESTIONS.

1. What should be done with the "dog in the manger?"
2. How much trouble did you put the Master to before He found you?
3. How much have you helped Him in His search for the lost?
4. What are the reasons that men wander away from God?

RAISIN DAY--APRIL 30

California Raisin Growers Want Everybody to Eat Raisins on That Date.

The California Raisin-Growers' association, comprised of 90 per cent of the raisin-growers of California, has proclaimed Thursday, April 30, raisin day throughout our land. These growers or farmers feel that the salvation of their future and their homes depends almost entirely on the popularity of their product with the Eastern consumer. They want the consumer to become more familiar with the nutritious food value of raisins and to bring them into the daily consumption of the average family.



Expert analysis has proven that raisins present the very highest food properties, and comparative food values represent one pound of raisins as equal to one and one-third pounds of beef, four and three-quarter pounds of fish (edible portions), two pounds of eggs, four and one-quarter pounds of potatoes, four pounds of milk, six pounds of apples and five pounds of bananas. In addition to their nutritious properties the United States department of agriculture in its Bulletin No. 142 referred to their laxative effect as an important medicinal value.

The growers of this important product have arranged a public holiday in their section of California on Thursday, April 30, on which date they will all get together and talk over the betterment of their product and the necessity of getting the consumer more interested in this important food. They have secured the consent of Governor Johnson of California to spend this day with them, and he has agreed to address the different communities, and to use his influence to promote the interests of their lands and their products.

They have had distributed in all the important cities of the United States some very attractive display advertising matter announcing that Thursday, April 30, will be raisin day, and they want everyone to eat raisins in some form on that date, and to demonstrate the value of raisins as a confection to be eaten in their natural state, they have placed on the market a very attractive little package of edible raisins under the Bear brand that will be sold to the consumer at 5 cents, which puts them within the reach of all. They want every man, woman and child to consume at least a nickel's worth of raisins on April 30.

Oil Company Sold.

Los Angeles, Cal., April 23.—The sale of $15,000,000 of the treasury stock of the Union Oil company of California to Andrew Weir and H. Tilden Smith, capitalists and ship owners of Liverpool, England, was announced late yesterday.

The DOCTOR'S HELPS

By Donald McCaskey, M. D.

Member of Staff, General Hospital, Lancaster, Pa.; Fellow of the New York Academy of Medicine

PAIN, GAS AND OTHER DIGESTIVE DISORDERS

My mail has been heavy during the last few months with letters of inquiry from the readers of these medical articles suffering from various forms of indigestion. In so far as each inquirer has gone into detail in his or her letter, I am always glad to work to the limit to find a prompt and effective solution to the various medical problems which are put before me. It is utterly impossible, however, in the short newspaper space allotted to me to make reply to each individual case through these columns. I shall, however, attempt to reiterate some of the simple principles of eating and general living, which will afford relief from digestive troubles. In many cases a cure can be effected by conscientiously carrying out the principles described in these articles.

"What can be done for gas which lodges around the chest and expands to such an extent as to cause intense pain?" "I would greatly appreciate your courtesy if you would advise as to how I can cure inflammation of my stomach. I have a heavy feeling after eating. Quite frequently a whitish mucus. My tongue is always coated and I have catarrh in my head, stomach and bowels, pains in the back of my neck, and have no ambition. I live on a farm, have always worked hard, but it seems especially hard for me now. My arms and legs get so weak that I get dizzy. A year ago I had a tapeworm. I am not lazy, and I want to do the right thing, but there is something the matter with me somewhere, and I believe you can help me."

One inquirer states that she and her husband are vegetarians and try to make a balanced meal of the vegetables and of meat foods. In spite of all their studies, "please tell me if tomatoes are good for me," asks "Mrs. J. K."

All patients should have their urine thoroughly analyzed. There may be absolutely no kidney trouble. There will be found most likely a marked evidence of poison which has been drawn away from the blood by the kidney. Many of these poisons belong to what is called uric acid poison, others from other chemical groups which are of prime importance. In an analysis, "what is one man's meat is another's poison" in the matter of diet. If the principles laid down in these articles are closely followed, in previous articles which bear on these digestive troubles, each reader of this can learn what is best in his or her particular form of indigestion.

So long as the stomach is disordered it should have a thorough cleansing once each week, say every Friday or Saturday afternoon. Take five grains of powdered calomel, followed in two hours with two ounces of castor oil. This simple weekly treatment will eliminate a tremendous lot of irritating poison. Each patient, once his urine is analyzed, must then be advised as what particular food he shall eat for awhile until the digestive apparatus regains its vigorous health. Each patient is a separate law unto himself. Oftentimes after a physic of a big dose of castor oil the bowel movement should be thoroughly examined by the doctor. This will reveal the character of the digestive power.

One writer asks about tomatoes, "whether they are good or bad for her." Tomatoes are first rate, eaten raw and well seasoned with vinegar, salt and pepper. When eaten cooked, and heavily seasoned with sugar, they frequently disagree, chiefly because the sugar possesses acid-producing tendencies.

YES; TUBERCULAR GLANDS IN INFANTS CAN BE CURED.

"Would you please tell me if tubercular glands in a child 6 years old can be cured? She has had them about four months. There is no tuberculosis on either side of the family."

Yes. Tuberculosis in a child's glands can be cured. It cannot always be an absolute, ineradicable cure which will never permit the diseaso to return, but the disease can be checked and a healthy condition restored again, which can be maintained provided the patient lives under suitable anti-tubercular conditions. The usual condition in a tubercular focus of germs in the glands is that the actual state of the little patient is not recognized soon enough by the parents, and the infected glands rapidly grow from bad to worse. They promptly swell and grow hard. If this latter condition persists, it is but a matter of a few weeks until the inner substance of the swollen hard glands begins to break down into a soft, cheesy substance, developing a "cold abscess" in many instances. The safest thing for you to do is to pick out the best doctor in whom you have confidence and have him advise and treat your child. Different children need different forms of treatment. One child may thrive better on local applications of iodine to the swollen glands. Another child may do better on the gentler procedure of frequently repeated hot wet towels applied to the swollen surface. All children absolutely must have sunshine, fresh air and such vitality-making foods as peanut butter, milk, eggs, wheat, bran, meat. At bedtime they should be kept close to the window and sleep there all night. Their heads, in fact, should rest right on the window and their bodies should be wrapped in a regular canvas or blanket sleeping bag. This avoid chills. During the daytime they should be in the sun and open air ALL THE WHILE. This is the only safe and sure way to win out.

Electric Repair Shop

We have the leading Shoe Hospital of the city. **Rush Orders** and waiting jobs a pleasure.

At all Druggists, 25 and 50 cents, or mailed on receipt of price by the GOOS-OLENE COMPANY, Superior, Wis. TAKE NO SUBSTITUTE.

ITS FIRST LESSON IN GARDENING

Duluth High School Agricultural Class Spades and Rakes Plot.

It took only thirty minutes yesterday afternoon for a class of forty-one boys to spade up and rake a garden plot 100 feet square. The agricultural class of the Duluth Central high school accomplished the feat in connection with the first lesson in gardening.

The plot used for the experiment is located on the northeast corner of First avenue east and Second street, directly across the avenue from the school. Half the vacant plot at this place will be devoted to a private garden and the remainder will be used for experimental purposes by the agricultural class, which yesterday received its first lesson in practical farming.

It is planned to grow alfalfa, red clover, cowpeas, field peas, sweet clover and winter vetch, in small plots for the benefit of the class when it studies the feeding of dairy cows next fall. A number of contests will be arranged for among the students.

REAL MURDERERS A GANG OF THIEVES.

New York, April 23.—Witnesses now living in New York state have been found to the circumstances of the murder of Andrew Yushinsky at Kiev, Russia, on March 12, 1911, and sworn statements obtained from them, according to an announcement made here by Nicholas Krasovsky, witness in the trial at which Mendel Beiliss was acquitted of the charge of murdering the boy Yushinsky. Krasovsky said the real murderers, he is convinced, were a gang of thieves headed by a woman called Vera Tcheberiak.

ANNUAL ARMY BILL GOES TO PRESIDENT.

Washington, April 23.—Quick action on the annual army appropriation bill followed yesterday when Chairman Hay of the military affairs committee explained that, on account of the Mexican situation, the house conferees had agreed to all senate amendments. The house at once concurred in the amendments and the measure went to the president. It carries a total of approximately $100,000,000, $6,000,000 having ben added by the senate.

Make this your "Meat"

A nourishing, satisfying strengthening dish that tempts the palate and gives stomach comfort after the digestive organs have wrestled with high-proteid foods—

Shredded Wheat Biscuit

With Strawberries

Nothing so delicious, nothing so easily digested, nothing so easy to prepare. The only breakfast cereal that combines naturally with berries and other fruits.

Heat one or more Biscuits in the oven to restore crispness; then cover with berries or other fresh fruit; serve with milk or cream and sweeten to suit the taste. Better than soggy white flour "short-cake"; contains no yeast, no baking powder, no fats, no chemicals of any kind—just the meat of the golden wheat, steam-cooked, shredded and baked.

The Shredded Wheat Company, Niagara Falls, N. Y.

WOULD GO TO FRONT AGAIN

Spanish War Veterans Tender President Their Services.

The members of Camp John G. McEwen, United Spanish War Veterans, last night sent a telegram to President Wilson volunteering their services should a war with Mexico necessitate the enlistment of a volunteer army.

The telegram stated that the Spanish war veterans favor peace, but not at the price of insults to the flag. The resolution directing the sending of the wire was adopted amid rounds of enthusiastic applause and cheering. The same action will probably be taken by Maj. Diggles camp at its next meeting.

The Spanish war veterans of Duluth and neighboring cities met at Memorial hall last night to celebrate the annual muster day, on which occasion they renew their allegiance to the country and flag. The feature of the services was the unveiling of the Maine Memorial tablet by C. L. Hood, assisted by Misses Maude and Verna Leonard. The tablet was presented to the camp by the government and is made of material recovered from the ill-fated battleship Maine. This was followed by a short progress of music and patriotic addresses.

WE DO EXTRACT AND FIX TEETH WITHOUT PAIN OR DANGER

No better offices are to be found in the West. Our pleased patients are increasing at the rate of 1,000 per month. Think of what this means to us in a business way! "Talks on Newspaper Advertising"

By Truman A. DeWeese.

How to Kill a Town.

I have selected this caption because it will attract more attention than if I wrote it "How to Keep a Town Alive." Everybody thinks he knows how to keep a town alive—but how to kill a town—that's another question. The average man wouldn't know exactly how to go about it. "What do I want to kill a town for, anyway?" he would ask.

Towns are an abnormal excrescence on the body politic. Cities and towns are the breeding grounds of vice and crime. They attract all that is ugly and unlovely in communal life. At the same time, they organize and consolidate activities that uplift and refine the race. They present advantages in culture and education which the country cannot supply. While the country gets you close to Nature, it lacks the advantages of big libraries, art galleries, schools and highly organized merchandizing. The city is a necessary evil. It is an evolution from the commercial and social necessities of the race. "Therefore," you ask, "What is the use of trying to destroy it?"

No use at all. It is best to keep it alive with honest enterprise, social uplift and religious and educational activity. But it is very easy to kill a town, and when you see how easy it is to kill it you will know how to keep it alive.

Here is a woman who gets the "catalogue habit." She falls a victim to the lure of printers' ink. The picture of a rug or piece of furniture looks so much more attractive in the catalogue than it does in the local store in her own town. One of these pictures caught her eye and she sent in an order. It was a novel experience—this shopping by mail. When a neighbor woman called she displayed her "bargain." The news of her "bargain" spread from one home to another until the whole community was infected. There is a strange fascination about "long distance shopping" which no woman wants to enjoy alone. Connections with catalogue houses soon were established by a hundred women. The germ spread with great rapidity and soon put a crimp in the business of every merchant in town. A constant stream of money going out to mail-order houses year after year soon sapped the life blood of the town. And this woman who inoculated her neighbors with the catalogue habit had no though of killing her town. She wonders why her boys finally left the town and yielded to the lure of the big city and its sky-scraper mail-order houses. Responsibility for the decay of her own community and for the loss of her boys is farthest from her thoughts.

There is just one cure for the catalogue germ that worms its way with serpentine secrecy into the brain of a community—and that is newspaper advertising. Surely the merchant can print just as attractive pictures as the mail-order houses can print in their catalogues. Surely the local merchant can describe his wares just as convincingly as they are described in a catalogue. If he can't he should employ an expert—a man who can combine the lure of wordcraft with the skill of a salesman. With printers' ink he can pull a town out of the "slough of despond." He can match the personality, acquaintance and reputation of the local merchant against the lure of long-distance shopping. The right kind of newspaper advertising will stop the ravages of the catalogue house and will keep at home the brain and brawn and enterprise that are necessary to keep a town from falling into decay.

A Message to Thin, Weak, Scrawny Folks

An Easy Way to Gain 10 to 30 Lbs. of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh-building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Boyce Drug store and other good druggists have Sargol, or can get it from their wholesaler, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution:—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh-builder.

PARK POINT MISSION ELECTS TRUSTEES.

J. C. Gude, G. H. Durbrow, George M. Paulus, J. W. Redmayne and Mrs. E. M. Bartlett were elected as a board of trustees for the Park Point Mission chapel at the annual meeting held Monday evening. Reports of the ladies' guild, the Sunday school, the young people's society, which was recently organized, and of the mission work in general showed that the Park Point mission has been making steady progress and is doing good work among the people it serves. Charles A. Knippenberg is superintendent.

ADDITION TO BISBEE DESTROYED BY FIRE.

Bisbee, Ariz., April 23.—Fire practically wiped out the section known as the Johnson addition to Bisbee in less than two hours yesterday. The homes of 150 families were destroyed with a loss estimated at more than $100,000. A committee has already raised $5,000 for the relief of the homeless.

The fire was started by two children playing with matches. The flames, aided by a high wind, swept up the canyon and soon enveloped the closely packed dwellings on the hill.

End All That Eczema Misery

Stop All That Awful Itching and Burning Instantly by Using This Remarkable Skin Remedy — ZEMO.

Get a 25c Bottle Today and Prove It.

ZEMO is really a new wonder—a clean, antiseptic liquid that is guaranteed to stop itching and that has proved itself over and over. Eczema simply cannot exist where this remarkable, scientific remedy is used, and it only costs you 25c to prove this to your own satisfaction.

It's Wonderful How Quickly ZEMO Removed All Those Eczema Blotches from My Face.

Don't take anybody's word for it but see for yourself. Try a 25c bottle this very day and then decide. You're sure to find it just what you have waited for so long—a blessed, instant relief.

ZEMO is sold and guaranteed by druggists everywhere, and in Duluth by Wirth's drug store, 13 West Superior street.

HAD "DEED OF SEPARATION"

Mrs. Ida Baller Thought She Was Legally Divorced From Husband.

Married Again and Court Declares Ceremony Null and Void.

When Mrs. Ida Baller became the bride of Monese Levine, widower with five children living at 722 East Third street, last July, she believed that she had secured a legal divorce from her first husband, Isaac Baller, who now resides in Winnipeg, and that no legal impediment existed to the second marriage.

Her supposition, however, was erroneous. In district court yesterday afternoon Judge Bert Fesler untied the knot which bound Levine to Mrs. Baller and declared the second marriage of the woman null and void. The suit for the annulment of the marriage was brought by Levine.

Mrs. Baller and her first husband, Isaac Baller, were married Nov. 1, 1908 in New York, the woman explained to the court yesterday when called as a witness in the annulment case. Six months after their marriage, the Ballers separated, Mrs. Baller came to St. Paul to live and Baller remained in Canada.

During the fall of 1909, Baller wrote from Toronto, Can., that he desired to make some arrangements for the support of their child, now aged 6. An agreement, which was labeled, "deed of separation" was drawn up and signed by both parties.

The "deed of separation" was believed by Mrs. Baller to be a divorce, she told the court yesterday and she was under that impression when she married Levine in this city last July, she said.

A copy of the agreement was shown to the court and was made an exhibit which was received in evidence in the case.

"Deed of Separation."

The agreement provides that "whereas differences have arisen between the said Isaac Baller and Ida Baller, have agreed to live separate from each other in the future and to enter into the arrangements herinafter expressed" in consideration of the sum of $50, paid by Baller to his wife, it was agreed that neither of them take proceedings against the other for the restitution of conjugal rights or "molest or annoy or interfere with each other in any manner whatsoever."

The "deed of separation" conveniently released "the said Isaac Baller from all marital and all other obligations" and provided that she be responsible for the maintenance and support of their child. It was mutually agreed that she should have the "sole control, management, maintenance and guardianship of the child during its minority."

Mrs. Baller believed this to be a divorce and it was not until after she had been married three weeks that she learned otherwise. About this time she exhibited the "deed of separation" to her second husband and he figured out that he had married a married woman. The marriage took place on July 20, 1913. As soon as Mrs. Baller discovered her mistake she brought suit for divorce on the grounds of cruelty.

When the case came on for a hearing before Judge Cant on Aug. 23 last on her application for temporary alimony, Levine appeared in court with his attorney, Charles V. McCoy, and objected to paying any temporary alimony, setting up that she had another husband living in Canada. The court continued the case until the matter could be investigated.

It was learned by Levine's attorney after some considerable trouble that no divorce had been granted the Ballers in Canada. Getting a divorce in Canada is not an easy matter, as it ordinarily requires an act of parliament.

Mrs. Levine dropped her divorce action in which she charged that her husband was miserly and stingy and had failed to support her properly during their short matrimonial career, and soon afterwards was made defendant in an action brought by Levine in which he sought the annulment of his marriage.

Levine is a peddler, 45 years old. His five children range in age from 18 to 5 years. Mrs. Levine claimed that she resided eighteen months in St. Paul before coming to Duluth. While visiting relatives in this city last July she met Levine, who made love to her. She claims that he told her that he was a prosperous merchant and operated a profitable business.

MINNESOTA VETERANS OF THE MEXICAN WAR

From The Herald Washington Bureau.

Washington, April 23.—The fact that several survivors of the Mexican war of seventy years ago still survive and reside in Minnesota was disclosed today when the pensio noffice made public a list of the Mexican war veterans, all of whom are on the pension rolls. They are John P. Brooks of White Bear lake, John S. Pratt of Prior lake, John Rickert of Herrick, William Martin of Minneapolis, and Matthew Markham of Rochester.

All Shipments Stopped.

Washington, April 23.—At the war department it was reported that officers at Fort Sam Houston had been ordered to stop all shipments of arms consigned to the Mexican Federal troops at Piedras Negras, across the border.

ONE DULUTHIAN IN GOVERNORSHIP RACE; ANOTHER MAY ENTER

One Duluthian has filed for the governorship nomination in Minnesota, and another one is said to be threatened.

The man who filed is Edward L. Raab. Mr. Raab is a mining prospector and lives at the Sherwood apartments at 320 West First street. He is a widower. He filed his papers with Secretary of State Julius A. Schmahl yesterday, and is after the Republican nomination. A few years ago he ran for senator in the old Fiftieth district. This makes three candidates for the Republican nomination — Governor Eberhart, William E. Lee and Mr. Raab.

The Duluthian who is threatened is O. J. Larson. Mr. Larson is one of the leading Bull Moosers of the state and news from the Twin Cities says that the conference of that party to be held tomorrow in St. Paul will choose for governor either Mr. Larson, Milton D. Purdy of Minneapolis or Hugh T. Halbert, the Minnesota head of the party. Mr. Larson is in St. Paul today so an expression of his desires in the matter could not be obtained. He has been talked of for the draft for a congressional run; but has not yet given his consent for that.

E. L. RAAB.

ARE YOUR KIDNEYS WELL?

Many Duluth People Know the Importance of Healthy Kidneys.

The kidneys filter the blood.
They work night and day.
Well kidneys remove impurities.
Weak kidneys allow impurities to multiply.
No kidney ill should be neglected.
There is possible danger in delay.
If you have backache or urinary troubles,
If you are nervous, dizzy or worn out,
Begin treating your kidneys at once;
Use a proven kidney remedy.
None endorsed like Doan's Kidney Pills.
Recommended by thousands.
Proved by Duluth testimony.

Mrs. Julia Hauser, 4317 East Superior street, Duluth, Minn., says: "I had kidney complaint in a bad form. My back ached and I was lame and seemed to ache all over. Doan's Kidney Pills cured me and I have told other people about them. I am pleased to publicly recommend Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hauser had. Foster-Milburn Co., Props., Buffalo, N. Y.

FOR DRAINAGE OF INDIAN LANDS

Miller Introduces Bill Permitting State to Assess Charges.

From The Herald Washington Bureau.

Washington, April 23.—Representative Miller today introduced a bill permitting the state of Minnesota to assess drainage charges against Indian lands. Because of the inability of the state to assess any kind of a charge against Indian lands, drainage improvements are being held up, and the purpose of the Miller bill is to permit these projects to be constructed for the benefit of land belonging to whites and Indians.

BANQUET FOR SCHULENBERG.

Duluth Retail Grocers Will Honor the New State President.

The Duluth retail grocers and their wives will give a banquet at the Spalding hotel the night of April 29, in honor of George H. Schulenberger, recently elected president of the state grocers' association.

C. L. Laird will sing and among those who will deliver addresses are W. E. Greene, Senator J. P. Boyle and W. E. McEwen. The committee in charge of the arrangements consist of John Logan, M. R. Bush, Edward Strange, A. M. McEwen and George M. Peterson.

A number of grocers, wholesalers and manufacturers from the Twin Cities will attend.

HAMMOND AGAINST ANY STAMP TAX

Hopes to Raise War Funds in Some Other Way.

From The Herald Washington Bureau.

Washington, April 23.—Representative Hammond of Minnesota, a member of the committee on ways and means, today indicated that he disliked the idea of raising money to meet extra military expenses through the imposition of a stamp tax. "Taxes are vexatious and annoying to the people," said Mr. Hammond. "The people are willing to help to the extent of their means in time of danger, and their patriotic feelings do not impel them to quibble over the means. Nevertheless I hope that funds to meet extraordinary expenses will be raised in some other way."

Mr. Hammond indicated that congress might increase the income tax rates and that it might increase the custom rates on some commodities and impose them on articles of wide consumption, such as tea and coffee. The stamp act of 1898 increased the internal revenue tax on beer to $2 a barrel, and the indications are that such an increase will be made in any extraordinary revenue measuro that may be passed.

LEADING METHODIST LAYMAN IS DEAD

Cincinnati, Ohio, April 23.—Robert T. Miller of this city, philanthropist and one of the most prominent laymen of the Methodist Episcopal church in the United States, died at his home here today, aged 80.

Mr. Miller had the most complete library in the United States of the rules and disciplines of the Methodist Episcopal church. Mr. Miller was a thirty-third degree, Scottish Rite Mason.

SUES CITY FOR $209.25.

Mrs. Gillis Asks Damages for Fall on Sidewalk.

Alleging that she slipped on the icy sidewalk in front of the West Duluth police station on March 7, 1913, causing injuries that kept her in bed for some time, Mrs. Jane Gillis, through her husband, John Gillis, this morning filed suit in municipal court for $209.25 damages.

The plaintiff alleges that she made a claim with the city clerk for damages, but that the money was refused. She is represented by John Jenswold, attorney.

The suit will come up during the May 4 term of the municipal court.

Dandruff

Afraid to use anything? Don't know what to do? Then why not consult your doctor? Isn't your hair worth it? Ask him if he endorses Ayer's Hair Vigor. Does not color the hair.

J. C. Ayer Co., Lowell, Mass.

NOT THAT KIND OF NAVY.

"Gimme a job in your navy."

This is the way a seedy looking individual addressed Chief Quartermaster Erickson at the local navy recruiting station this noon, when he applied for a position as recruit. He was very much intoxicated and had been apparently also beome fired with a desire to join in the attack on Vera Cruz.

He was not only denied admission, but was thrown out of the office.. He was told that "our navy is not that kind of a navy."

TAYLOR, N. D., IS BIG FIRE LOSER

Some Stores, Hotel, Bank and Phone Exchange Destroyed.

Dickinson, N. D., April 23.—(Special to The Herald.)—Fire at Taylor nearly wiped out the entire business district last night, causing about $50,000 loss. A high wind drove the flames from a shed adjoining the Farmers' elevator across the street, where they burned the Taylor Drug company, How & Co.'s store, the Farmers' hotel, the Taylor Hardware company, the Merchants' & Farmers' bank, the telephone exchange, Smith's pool hall, a blacksmith shop and three residences. The Dickinson fire department was called to aid, but arrived after the wind had changed, saving the rest of the town from destruction. The Richardton department assisted.

MONEY IS VOTED BY THE SENATE

President Given $500,000 to Remove Americans From Mexico.

Washington, April 23.—The senate late today, after considerable debate, passed the emergency resolution giving President Wilson $500,000 to be used in his discretion for the removal of American citizens from Mexico. The resolution which passed the house yesterday will go at once to the president for his signature.

WISCONSIN GUARDS WILL BE INCREASED

Madison, Wis., April 23.—Adjt.-Gen. Orland Holway, Wisconsin National Guard, has taken time by the forelock in preparing to have the guard ready for active duty on short notice, as was indicated today when he said he had sent word to the officials that the number of men enlisted in the companies might be temporarily increased to 108.

Tug and barge Culver, 11:40 p. m., Wednesday; Duneim, 8:40 a. m., Thursday; Shrigley, 9:30; Empress, Ft. William, 10:50.

COMPLETING GRADE TO WATFORD, N. D.

Arnegard, N. D., April 23.—(Special to The Herald.)—Riley & Guthrie, railway contractors, are working on the completion of the Great Northern grade between here and Watford. This is on the main survey between Lewistown, Mont., and New Rockford, but the company will abandon the survey beyond Watford and make that town the terminal for some time. The grading was roughly done on a part of the line beyond this point last fall and the steel laid thus far. The grade will be completed and the steel extended into Watford the latter part of next month.

Dont' Fuss With Mustard Plasters!

There's no sense in mixing up a mess of mustard, flour and water and getting everything all mussed up when you can so easily relieve that pain or soreness with a little clean, white MUSTEROLE.

MUSTEROLE is made of pure oil of mustard and other helpful ingredients, combined in the form of a pleasant white ointment. It takes the place of the out-of-date mustard plaster, and will not blister!

MUSTEROLE WILL NOT BLISTER

MUSTEROLE gives instant relief from Sore Throat, Bronchitis, Tonsilitis, Croup, Stiff Neck, Asthma, Neuralgia, Headache, Congestion, Pleurisy, Rheumatism, Lumbago, Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chilblains, Frosted Feet, Colds of the Chest (it prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for $2.50.

Accept no substitute. If your druggist cannot supply you, send 25c or 50c to the MUSTEROLE Company, Cleveland, Ohio, and we will mail you a jar, postage prepaid.

MISS C. BLEADINGHIZER, Nurse, Washington, Pa., says: "Have used Musterole on patients and consider it fine." (71)

CUYUNA

If you want an investment that is certain to make you some money, let us tell you about CUYUNA.

LOCKER-DONAHUE COMPANY
503-6 Lonsdale Building.

BLOOD POISON

Pimples, spots on the skin, sores in the mouth, ulcers, falling hair, bone pains, catarrh, etc., are symptoms. Delays are dangerous. Send at once to Dr. Brown, 695 Arch St., Philadelphia, for BROWN'S BLOOD TREATMENT. Convincing proof in a $2.00 bottle—lasts a month.

Sold in Duluth by Max Wirth, 13 West Superior street, and by all druggists.

SCOOP THE CUB REPORTER — **Snoop Puts a Lucky One Over on Scoop** — By "HOP"

NEWS OF THE NORTHWEST

STATE HOUSE IS AFFECTED

War Call Would Take Several From North Dakota Capitol.

Two Fathers Officers in Regiment Containing Their Sons.

Bismarck, N. D., April 23.—(Special to The Herald.)—If the North Dakota National Guard is called into the service in Mexico, Lieut. Col. T. H. Tharalson of this city will go to the front with his two sons as members of one of the companies under him. It will be Mr. Tharalson's second war, as he served in the Philippines. The same may be said of Col. J. H. Fraine, speaker of the house of representatives, who saw service in the Philippines, and whose only son is a member of the Grafton company, under Mr. Fraine's command.

While Brig. Gen. W. C. Treumann of Grafton, former adjutant general, and a veteran of the Spanish-American war, probably would not be called into the service, his two sons would be.

Would Deplete State House.

The state house would be depleted should the state guard be called out, as the state militia includes Capt. Henry, state land commissioner; Lieut. Col. Tharalson, deputy state treasurer; Sergt. Miller of the office of the attorney general; Corporal Fisher and Private Patten of the state land department, and Supreme Court Librarian Wing, member of Company A.

The North Dakota guard would muster about 1,000 men, and includes the newly organized machine gun company at Grand Forks; the hospital corps and regimental band at Lisbon, and companies at Bismarck, Fargo, Valley City, Jamestown, Wahpeton, Hillsboro, Grafton, Devils Lake, Minot, Williston, Mandan and Dickinson.

THIEF RIVER FALLS HAS BIG CONFERENCE

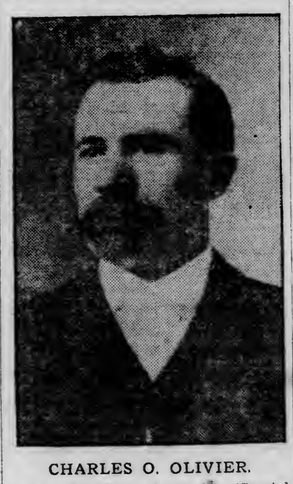
Park Region German Lutheran Synod Is Being Held There.

Thief River Falls, Minn., April 23.—(Special to The Herald.)—The Park Region special conference of the Evangelical Lutheran synod of Missouri, Minnesota, Ohio and other states, opened its spring session here Tuesday morning in St. John's Evangelical Lutheran church.

The Park Region district, representing a constituency of over 1,000 voting members and 15,000 adherents, is the largest district in the German Lutheran church of Minnesota. Representative pastors from every part of the state north of the Twin Cities are in attendance at the conference.

The Rev. F. J. Seltz, resident pastor of the local church, opened the session with a scripture reading and prayer.

Treatises prepared for discussion at the meeting are: "Exegesis," 1 Cor. 11, F. J. Seltz; "De Philosophia," J. Dawidowski and Augustin C. Rease; "Difference Between the Ban and Self Exegesis, 1 Cor. 12; H. Am End; Communication of Attributes, C. Roehrs.



Discuss Woman Suffrage.

Timely interest was taken in the exegetical work on 1 Cor. 11, in which woman's suffrage came up for discussion on account of the bearing of that special portion of scription on the conduct of women.

Rev. J. Dawidowski, former member of the Roman Catholic priesthood, now representing the largest Polish Lutheran church in America, gave an interesting Latin treatise on "De Philosophia."

The meetings will be concluded today with a special service at which the Lord's supper will be administered after special addresses have been delivered by prominent men in the German Lutheran connection.

TO GRADUATE FROM LAW SCHOOL AT 49

CHARLES O. OLIVIER.

Hancock, Mich., April 23.—(Special to The Herald.)—Among the members of the law class at the University of Michigan who will graduate next June is Charles O. Olivier, former justice of the peace at Hancock. "Judge" Olivier, as he is still known to his friends here, entered the university four years ago at the age of 45 and has successfully passed through the by no means easy course of study and training to equip him for the pursuit of the legal profession.

Mr. Olivier was justice in Hancock for fifteen years, his last term ending in 1910 when he was defeated at the Republican convention for nomination by J. J. Eichkern. During his long term he acquired a considerable knowledge of the law that has aided him greatly in his studies at the university.

MINOT SOCIALISTS ARE AGAINST WAR.

Minot, N. D., April 23.—(Special to The Herald.)—Minot Socialists are against a war with Mexico, making their position known in a telegram to President Wilson.

"If the capitalists want blood, let them cut their own throats," they declare.

BORDER CITY OFFICIALS.

All International Falls Officers Are Reappointed.

International Falls, Minn., April 23.—The former city officers have been reappointed by the new city council as follows:

Chief of police, John Lawless; patrolmen, Daugherty and Kirkpatrick; assessor, P. S. Pendergast; engineer, C. W. Kibbey; attorney, F. J. McPartlin; fire warden and chief, Joseph Riley; department driver, Dave McFarland; dog catcher, W. G. Landon.

In organizing the council made the selection of L. W. Wilson as president and R. F. C. Iltis as vice president. The committee appointments were as follows:

Sidewalks and buildings, John Doran; lights, Edgar Zimmerman; streets, Frank Keyes; docks, L. W. Wilson; finance, R. F. C. Iltis; water and sewers, H. J. Miner; city hall and purchasing, R. C. Fraser.

ENGINEER INJURED WHEN PIPE EXPLODES

Accident Prevents Thief River Falls Mill Starting on Time.

Thief Rover Falls, Minn., April 23.—(Special to The Herald.)—The Thief River Falls Lumber company's sawmill here would have commenced its season's run yesterday if it had not been for a slight accident that will delay the opening of the mill a few days longer. The mill crew were all on hand at 7 a. m. yesterday morning waiting for the whistle rending the air, when one of the steam pipes exploded.

Frank Horejsi, chief engineer, who happened to be closest to the break in the pipes, became slightly scalded with the steam and had to be dragged from the dangerous position in which he was trapped, by one of his mates.

Apart from the delaying of the opening of the mill, no serious damage was done.

DISCOVERS SOME GAS IN HIS WELL

Inquisitive Farmer Lights Match and Explosion Follows.

Argyle, Minn., April 23.—Special to The Herald.)—While down in a small well on his farm, digging for water, Frank Nowacki discovered what aptpared to be smoke issuing from a hole. He struck a match, causing an explosion which hurled him to the ground above. The well was a mass of flames, and his assistant had his head and face quite badly burned. The fire which was caused by gas, was put out by throwing in dirt.

BIDS ALL TOO HIGH.

So Cook County Board Will Build Road By Day Labor.

Grand Marais, Minn., April 23.—Bids for the construction of two miles of the Lake Shore road at the west end of Cook county were opened by the county board. There were only two bidders, William C. Smith of Schroeder and J. D. O'Connell of Duluth. The bids were so largely in excess of the estimate of the engineer that both were rejected and it was decided to do the work by day labor. An extra crew will be put on to do this work, and Mr. Smith was offered the position of foreman. The board made other plans for the continuance of work on this road. The main crew will be put on at Tofte to extend the road eastward towards Grand Marais, and another crew will be placed at the east end to build the road westward from the reservation, it being the intention to keep these two latter crews at work throughout the season and push the work as far as possible.

PRODUCER OF SWEETS.

Crystal Falls, Mich., Clergyman Big Maple Sugar Producer.

Crystal Falls, Mich., April 23.—(Special to The Herald.)—Rev. William Poyseor, a local Episcopal clergyman, is the largest producer of maple syrup in Upper Michigan. His output this season will approximate 3,000 gallons, each gallon weighing eleven pounds. Mr. Poyseor started on a small scale several years ago. Now he taps 2,500 trees on his own land and hundreds on an adjoining tract which he rents, and his manufacturing plant is said to be the largest in the state. The syrup is marketed to consumers in fourteen states in the Union.

MAYOR INVITES KICKS.

Deaf Marquette Executive Welcomes Raps of the Knockers.

Marquette, Mich., April 23.—(Special to The Herald.)—Mayor F. H. Begole of Marquette, probably the only chief executive of a city in the United States who is totally deaf, thinks "knockers" are good for a town. "We have enough boosters in Marquette, most of them men," he said in an address to the members of the Women's Welfare club. "What we want now is a few good knockers. You ladies go out and do some knocking—knock hard enough to be heard. Knock anything and everything that is wrong. Make a critical survey and study of the social and physical conditions of this city, and when you demonstrate the necessity for it, I believe our commission will be prompt in taking governmental action. If you succeed in reducing the cost of living, in lowering the city's death rate and in improving living conditions, with special reference to bringing up boys and girls, you will have performed your proper function, as I see it."

MULES UNDERGROUND.

Calumet & Hecla Trying Animals in Mines for First Time.

Calumet, Mich., April 23.—Mules are being tried underground in the mines by the Calumet & Hecla for the first time. Some of the animals were taken below Sunday and more are being sent down daily. It is being tried as an experiment, and if they prove satisfactory, and can do the work as expected, a large shipment will be sent for in the near future to be placed underground to lighten the work of the trammers, who find it quite hard to push tram cars from the ends of the levels to the shaft, as some of the end drifts are some 1,300 feet from the shaft—that is the main shaft. Two mules were taken down into No. 13 shaft. There is one hard feature relative to taking the mules underground, and that is the shafts are on the slant and not straight. In the case where the shaft runs straight down, or the mine enters a side of a cliff, so that the matter of taking the mules into the shaft is an easy proposition, but here it is a little more difficult.

NEWBERRY MAN HAS STRUCK OIL.

Newberry, Mich., April 23.—(Special to The Herald.)—B. Mulvaney of Newberry has prospects of soon being classed with the "idle rich." Mr. Mulvaney owns a West Virginia farm on which oil and gas have been discovered. He has been receiving royalties from the gas for some time, and recently a flow of oil was tapped. The well has an excellent flow. Other borings are being made and it is expected additional wells will be producing shortly. Mr. Mulvaney received a royalty upon every gallon of oil barreled and sold, the net revenue already amounting to a snug sum yearly.

Ironton Injunction Hearing.

Brainerd, Minn., April 23.—The injunction case of John H. Hill against several mining companies restraining them from caving in the north road entering Ironton has been set for hearing before Judge W. S. McClenahan on April 24.

WISCONSIN BRIEFS

Chippewa Falls—James C. Dunn, charged with assault regardless of human life upon the person of Steve Brick was found guilty of unlawful assault which is punishable either by fine of not more than $100 or sentence in the county jail not to exceed ninety days.

Madison—Circuit Judge E. Ray Stevens spent but $6.39 in his campaign for re-election as judge of the ninth judicial circuit, according to his expense account filed with the secretary of state. He was unopposed.

La Crosse—Word was received here from Secretary of State Bryan that Mark Matthiesen, 35 years old, manager of the Gulf Oil company at Tampico and a brother of Ralph Matthiesen, La Crosse, was shot accidentally there on April 14. The dispatch from the state department gave no details other than that he will recover.

Fort Atkinson—All efforts to locate the relatives or friends of C. Freschke, lumberjack, who came here to seek employment and was found dead April 21 by Chief of Police Rose, have been to no avail. A coroner's jury pronounced death due to angina pectoris.

Milwaukee—The steamer S. M. Clement was the first coaler to arrive in Milwaukee this season. She arrived April 20 with a cargo of 9,000 tons of coal from Buffalo, whence she sailed April 17. The E. L. Wallace arrived a few hours later with a cargo of flax and coal for the Milwaukee Coke & Gas company. But little ice was encountered.

Antigo—A special train under the care of instructors from the state college of agriculture and the Potato Growers' association left here on Monday on a five-day journey through Central Wisconsin to demonstrate potato culture.

Oconto—The St. Joseph's Catholic school was formally opened Monday. The school was dedicated Sunday by Bishop Fox of Green Bay.

Fond du Lac—The body of John Kuehn, 65 years old, Princeton, father of James, Frank and Anton Kuehn of Milwaukee, was taken from the Fox river at Princeton Tuesday. He had been missing four weeks and the sons had made a prolonged search at Princeton, Fond du Lac and Milwaukee.

Racine—Racine's first "Fourth of July accident" occurred on Sunday, when Leo Schiltzen, 15 years old, blew off three fingers when a toy pistol exploded.

Marinette—Mrs. Pauline Saveland Nichols, wife of Attorney Charles Nichols, Marinette, charter member and first president of the Y. W. C. A. in Milwaukee, died at her home here on Monday from anaemia. Mrs. Nichols was 51 years old.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications. Agent, Wirth's Red Cross drug store, 13 West Superior street.

PENINSULA BRIEFS

Menominee—The National hotel here was entered by thieves the other night and the barroom till was rifled. Ten dollars and two boxes of cigars were taken.

Negaunee—Mrs. John Dunstone and son, John, of Gwinn, were tried in Judge Ver Ran's court on a charge of slander preferred against them by Bert Balcom of Gwinn. Mrs. Dunstone and her son had charged Balcom with poisoning her cow and it was asserted the cow got into Balcom's barn and ate so much bran and other feed that it died. Mrs. Dunstone paid the costs of court.

Calumet—The annual meeting of the Copper Country Ministerial association was held Monday afternoon. The following officers were elected: President, Rev. S. Romsdahl of the Calumet Norwegian Lutheran church; vice president, Rev. W. S. Colycott, Osceola M. E.; secretary-treasurer, Rev. P. W. Peterson, Norwegian-Danish M. E., Calumet.

Hancock — The last of the Waddell men who were brought here at the outbreak of the strike left Monday night in the persons of Joseph Hild and Charles Wilson. For the past several months these men were acting as special agents for the Quincy Mining company.

Calumet—Vincent Valro, the former postmaster of Laurium, who vacated his position in the postoffice Monday morning to be superseded by Christopher Lowney, has decided to enter the contracting business.

Hancock — John Lampsa, charged with shooting Albert Salo, was brought before Justice of the Peace C. O. Jackola Tuesday and bound over for trial in the circuit court under $7,000 bonds on a charge of second degree murder.

Calumet — A party consisting of nine Hungarians left Calumet this week for Hungary, where they will spend the summer.

Hancock — Senator W. Frank James of Hancock, candidate for the Republican nomination for congressman, has accepted an invitation from Court North Star, No. 11, Foresters of America of Red Jacket, to attend a social session of the order next Saturday evening.

Marquette — Word has been received at the Duluth South Shore dock office that the first ore carrier of the season will leave the Soo April 25, and arrive at the Marquette dock April 27.

Ishpeming — Frank Scimoneau died April 20 at the home of his sister, Mrs. Michael Decalre, after an illness of about six months. Mr. Scimoneau was 58 years old and has resided in this vicinity for the last thirty years, coming here four years agao from Greenwood after the death of his parents. He had resided in Greenwood for twenty-five years.

Negaunee — The work of tearing down the old city hall building, preparatory to erecting the new one, will begin shortly and temporary headquarters will be provided for the city officers.

DAKOTA BRIEFS

Valley City, N. D.—Valley City hopes to secure better service from the Soo railroad. It is declared that the Soo, which operates an electric car line between the city and its present station, about two miles out of the city will rebuild the short line, and that, within two or three years, the Soo trains, or at least a part of them, will be running directly into the city.

Dickinson, N. D.—Plans are being laid by pioneer settlers of this district for a big celebration of the fiftieth anniversary of the battle of the Killdeer mountains, northwest of here. G. S. Cryne, historian of the Stark County Old Settlers' association, together with many others, is interested in the movement.

Fargo, N. D.—The personnel of the team to represent Fargo and Moorhead in the Northern league this season is being eagerly awaited by the fans of the two towns. All local arrangements have been completed at this end and the fans are anxious to see the bunch in action when they arrive May 1.

Steele, N. D.—S. A. Hogue, aged 69, one of the earliest settlers here, was buried April 20. His death occurred Saturday from acute pneumonia, at the home of his son, George M. Hogue. W. F. Hogue of Tyler, editor of the Herald there, and his oldest son, was here for the funeral.

Bismarck, N. D.—Within the next few weeks work will be commenced on the new St. Alexius hospital, that is to be erected here this summer, and which is to cost $100,000.

Yankton, S. D.—Mrs. M. M. Matthiesen of Yankton, has been notified by Secretary of State Bryan that her son, Mark Matthiesen, had been accidentally shot at Tampico, but was doing well, and hopes were entertained for his recovery.

Grand Forks, N. D.—Funeral services for Mrs. Ella Lynch, who died in St. Paul last week of Bright's disease, were held Tuesday morning at St. Michael's Catholic church in this city. The funeral sermon was preached by Rev. Father McDonald of Michigan City.

Bismarck, N. D.—The railroad commission ordered depots built at Karnak and Clifton on the Surrey cutoff; stock yards at Hatton and Kempton repaired; side track and loading platform built at a point between Vance and Prosper on the Surrey cutoff; waiting room built at Marley siding; new station house at McGregor; stock yards at Williston.

Grand Forks, N. D.—At the regular meeting of the Presbyterian Brotherhood of the local church, the following officers were elected for the ensuing year: President, Frank Gilby; vice president, L. H. Schnaable; secretary, R. D. Cary; treasurer, S. Torgerson.

MINNESOTA BRIEFS

International Falls—Eddie Bancroft announces that his summer resort burned at Crystal Beach will be rebuilt in time for the opening of the season's business. Mr. Bancroft's loss approximated $3,000 and he carried no insurance.

Moorhead—Work on Moorhead's new Federal building is being pushed rapidly by Contractor Miller and the red brick walls are beginning to rise.

St. Cloud—Frank Minette of Sauk Center filed April 21 as a candidate for the house of representatives from the First district of the Forty-sixth legislative district. Fred C. Nehring of Paynesville has already filed for the same office.

Little Falls—Fred Krystosik, the youth residing on a farm a few miles from Royalton, who was accidentally shot a few days ago with a .38-caliber revolver, which he and a companion were cleaning, died at the hospital here Monday.

St. Cloud—The county commissioners have voted to spend $5,000 on State Road No. 1, between Avon and Freeport, running through Albany, and $2,000 from Albany to Freeport. This should put this road in excellent condition.

Grand Marais—C. C. Monker has filed as a candidate before the primaries for register of deeds. Mr. Monker is the first filing of the campaign.

Angus—Otto Olson and Lars Hoff, who have been drilling for water at Farnesworth's farm in section 8, town of Brandt, four miles east of Angus, have been successful in getting water. The flow is no doubt one of the largest over ground flowing wells in the Northwest, the stream being a two-inch pipe full, thirteen feet above the ground.

Baudette—C. E. Harris, formerly of Crookston, but now a resident of Bemidji, has been here looking for six or seven homestead locations with the idea of starting a colony in the country around Bemidji.

Crookston—The county commissioners Tuesday passed a resolution asking for the sale of bonds to the amount of $16,000 for the road ditch work to be done in the town of Chester the coming summer for which a contract has already been awarded.

Brainerd—Osborne Peterson, aged 4, son of Mr. and Mrs. John Peterson, died of scarlet fever at the home of the family, eleven miles west of Sylvan. The funeral was held Tuesday afternoon at Sylvan.

Little Falls—J. M. Totten, manager of the Milo theater, is having changes made in the seating arangements of the house which will increase the capacity to over 400, as fifty new seats are being installed.

NEWS OF THE NORTHWEST

STATE HOUSE IS AFFECTED

War Call Would Take Several From North Dakota Capitol.

Two Fathers Officers in Regiment Containing Their Sons.

Bismarck, N. D., April 23.—(Special to The Herald.)—If the North Dakota National Guard is called into the service in Mexico, Lieut. Col. T. H. Tharalson of this city will go to the front with his two sons as members of one of the companies under him. It will be Mr. Tharalson's second war, as he served in the Philippines. The same may be said of Col. J. H. Fraine, speaker of the house of representatives, who saw service in the Philippines, and whose only son is a member of the Grafton company, under Mr. Fraine's command.

While Brig. Gen. W. C. Treumann of Grafton, former adjutant general, and a veteran of the Spanish-American war, probably would not be called into the service, his two sons would be.

Would Deplete State House.

The state house would be depleted should the state guard be called out, as the state militia includes Capt. Henry, state land commissioner; Lieut. Col. Tharalson, deputy state treasurer; Sergt. Miller of the office of the attorney general; Corporal Fisher and Private Patten of the state land department, and Supreme Court Librarian Wing, member of Company A.

The North Dakota guard would muster about 1,000 men, and includes the newly organized machine gun company at Grand Forks; the hospital corps and regimental band at Lisbon, and companies at Bismarck, Fargo, Valley City, Jamestown, Wahpeton, Hillsboro, Grafton, Devils Lake, Minot, Williston, Mandan and Dickinson.

THIEF RIVER FALLS HAS BIG CONFERENCE

Park Region German Lutheran Synod Is Being Held There.

Thief River Falls, Minn., April 23.—(Special to The Herald.)—The Park Region special conference of the Evangelical Lutheran synod of Missouri, Minnesota, Ohio and other states, opened its spring session here Tuesday morning in St. John's Evangelical Lutheran church.

The Park Region district, representing a constituency of over 1,000 voting members and 15,000 adherents, is the largest district in the German Lutheran church of Minnesota. Representative pastors from every part of the state north of the Twin Cities are in attendance at the conference.

The Rev. F. J. Seltz, resident pastor of the local church, opened the session with a scripture reading and prayer.

Treatises prepared for discussion at the meeting are: "Exegesis," 1 Cor. 11, F. J. Seltz; "De Philosophia," J. Dawidowski and Augustin C. Rease; "Difference Between the Ban and Self Exegesis, 1 Cor. 12; H. Am End; Communication of Attributes, C. Roehrs.

Discuss Woman Suffrage.

Timely interest was taken in the exegetical work on 1 Cor. 11, in which woman's suffrage came up for discussion on account of the bearing of that

TO GRADUATE FROM LAW SCHOOL AT 49

CHARLES O. OLIVIER.

Hancock, Mich., April 23.—(Special to The Herald.)—Among the members of the law class at the University of Michigan who will graduate next June is Charles O. Olivier, former justice of the peace at Hancock. "Judge" Olivier, as he is still known to his friends here, entered the university four years ago at the age of 45 and has successfully passed through the by no means easy course of study and training to equip him for the pursuit of the legal profession.

Mr. Olivier was justice in Hancock for fifteen years, his last term ending in 1910 when he was defeated at the Republican convention for nomination by J. J. Eichkern. During his long term he acquired a considerable knowledge of the law that has aided him greatly in his studies at the university.

special portion of scription on the conduct of women.

Rev. J. Dawidowski, former member of the Roman Catholic priesthood, now representing the largest Polish Lutheran church in America, gave an interesting Latin treatise on "De Philosophia."

The meetings will be concluded today with a special service at which the Lord's supper will be administered after special addresses have been delivered by prominent men in the German Lutheran connection.

MINOT SOCIALISTS ARE AGAINST WAR.

Minot, N. D., April 23.—(Special to The Herald.)—Minot Socialists are against a war with Mexico, making their position known in a telegram to President Wilson.

"If the capitalists want blood, let them cut their own throats," they declare.

BORDER CITY OFFICIALS.

All International Falls Officers Are Reappointed.

International Falls, Minn., April 23.—The former city officers have been reappointed by the new city council as follows:

Chief of police, John Lawless; patrolmen, Daugherty and Kirkpatrick; assessor, P. S. Pendergast; engineer, C. W. Kibbey; attorney, F. J. McPartlin; fire warden and chief, Joseph Riley; department driver, Dave McFarland; dog catcher, W. G. Landon.

In organizing the council made the selection of L. W. Wilson as president and R. F. C. Ittis as vice president. The committee appointments were as follows:

Sidewalks and buildings, John Doran; lights, Edgar Zimmerman; streets, Frank Keyes; docks, L. W. Wilson; finance, R. F. C. Ittis; water and sewers, H. J. Miner; city hall and purchasing, R. C. Fraser.

ENGINEER INJURED WHEN PIPE EXPLODES

Accident Prevents Thief River Falls Mill Starting on Time.

Thief Rover Falls, Minn., April 23.—(Special to The Herald.)—The Thief River Falls Lumber company's sawmill here would have commenced its season's run yesterday if it had not been for a slight accident that will delay the opening of the mill a few days longer. The mill crew were all on hand at 7 a. m. yesterday morning waiting for the whistle rending the air, when one of the steam pipes exploded.

Frank Horejsi, chief engineer, who happened to be closest to the break in the pipes, became slightly scalded with the steam and had to be dragged from the dangerous position in which he was trapped, by one of his mates.

Apart from the delaying of the opening of the mill, no serious damage was done.

DISCOVERS SOME GAS IN HIS WELL

Inquisitive Farmer Lights Match and Explosion Follows.

Argyle, Minn., April 23.—Special to The Herald.)—While down in a small well on his farm, digging for water, Frank Nowacki discovered what aptpared to be smoke issuing from a hole. He struck a match, causing an explosion which hurled him to the ground above. The well was a mass of flames, and his assistant had his head and face quite badly burned. The fire which was caused by gas, was put out by throwing in dirt.

BIDS ALL TOO HIGH.

So Cook County Board Will Build Road By Day Labor.

Grand Marais, Minn., April 23.—Bids for the construction of two miles of the Lake Shore road at the west end of Cook county were opened by the county board. There were only two bidders, William C. Smith of Schroeder and J. D. O'Connell of Duluth. The bids were so largely in excess of the estimate of the engineer that both were rejected and it was decided to do the work by day labor. An extra crew will be put on to do this work, and Mr. Smith was offered the position of foreman. The board made other plans for the continuance of work on this road. The main crew will be put on at Tofte to extend the road eastward towards Grand Marais, and another crew will be placed at the east end to build the road westward from the reservation, it being the intention to keep these two latter crews at work throughout the season and push the work as far as possible.

PRODUCER OF SWEETS.

Crystal Falls, Mich., Clergyman Big Maple Sugar Producer.

Crystal Falls, Mich., April 23.—(Special to The Herald.)—Rev. William Poyseor, a local Episcopal clergyman, is the largest producer of maple syrup in Upper Michigan. His output this season will approximate 3,000 gallons, each gallon weighing eleven pounds. Mr. Poyseor started on a small scale several years ago. Now he taps 2,500 trees on his own land and hundreds on an adjoining tract which he rents, and his manufacturing plant is said to be the largest in the state. The syrup is marketed to consumers in fourteen states in the Union.

MAYOR INVITES KICKS.

Deaf Marquette Executive Welcomes Raps of the Knockers.

Marquette, Mich., April 23.—(Special to The Herald.)—Mayor F. H. Begole of Marquette, probably the only chief executive of a city in the United States who is totally deaf, thinks "knockers" are good for a town. "We have enough boosters in Marquette, most of them men," he said in an address to the members of the Women's Welfare club. "What we want now is a few good knockers. You ladies go out and do some knocking—knock hard enough to be heard. Knock anything and everything that is wrong. Make a critical survey and study of the social and physical conditions of this city, and when you demonstrate the necessity for it, I believe our commission will be prompt in taking governmental action. If you succeed in reducing the cost of living, in lowering the city's death rate and in improving living conditions, with special reference to bringing up boys and girls, you will have performed your proper function, as I see it."

MULES UNDERGROUND.

Calumet & Hecla Trying Animals in Mines for First Time.

Calumet, Mich., April 23.—Mules are being tried underground in the mines by the Calumet & Hecla for the first time. Some of the animals were taken below Sunday and more are being sent down daily. It is being tried as an experiment, and if they prove satisfactory, and can do the work as expected, a large shipment will be sent for in the near future to be placed underground to lighten the work of the trammers, who find it quite hard to push tram cars from the ends of the levels to the shaft, as some of the end drifts are some 1,300 feet from the shaft—that is the main shaft. Two mules were taken down into No. 13 shaft. There is one hard feature relative to taking the mules underground, and that is the shafts are on the slant and not straight. In the cool mines the shaft runs straight down, or the mine enters a side of a cliff, so that the matter of taking the mules into the shaft is an easy proposition, but here it is a little more difficult.

NEWBERRY MAN HAS STRUCK OIL.

Newberry, Mich., April 23.—(Special to The Herald.)—B. Mulvaney of Newberry has prospects of soon being classed with the "idle rich." Mr. Mulvaney owns a West Virginia farm on which oil and gas have been discovered. He has been receiving royalties from the gas for some time, and recently a flow of oil was tapped. The well has an excellent flow. Other borings are being made and it is expected additional wells will be producing shortly. Mr. Mulvaney received a royalty upon every gallon of oil barreled and sold, the net revenue already amounting to a snug sum yearly.

Ironton Injunction Hearing.

Brainerd, Minn., April 23.—The injunction case of John H. Hill against several mining companies restraining them from caving in the north road entering Ironton has been set for hearing before Judge W. S. McClenahan on April 24.

WISCONSIN BRIEFS

Chippewa Falls—James C. Dunn, charged with assault regardless of human life upon the person of Steve Brick was found guilty of unlawful assault which is punishable either by fine of not more than $100 or sentence in the county jail not to exceed ninety days.

Brainerd—Osborne Peterson, aged 4, son of Mr. and Mrs. John Peterson, died of scarlet fever at the home of the family, eleven miles west of Sylvan. The funeral was held Tuesday afternoon at Sylvan.

Little Falls—J. M. Totten, manager of the Mlo theater, is having changes made in the seating arangements of the house which will increase the capacity to over 400, as fifty new seats are being installed.

DAKOTA BRIEFS

Valley City, N. D.—Valley City hopes to secure better service from the Soo railroad. It is declared that the Soo, which operates an electric car line between the city and its present station, about two miles out of the city will rebuild the short line, and that, within two or three years, the Soo trains, or at least a part of them, will be running directly into the city.

Dickinson, N. D.—Plans are being laid by pioneer settlers of this district for a big celebration of the fiftieth anniversary of the battle of the Killdeer mountains, northwest of here. G. S. Cryne, historian of the Stark County Old Settlers' association, together with many others, is interested in the movement.

Fargo, N. D.—The personnel of the team to represent Fargo and Moorhead in the Northern league this season is being eagerly awaited by the fans of the two towns. All local arrangements have been completed at this end and the fans are anxious to see the bunch in action when they arrive May 1.

Steele, N. D.—S. A. Hogue, aged 69, one of the earliest settlers here, was buried April 20. His death occurred Saturday from acute pneumonia, at the home of his son, George M. Hogue. W. F. Hogue of Tyler, editor of the Herald there, and his oldest son, was here for the funeral.

Bismarck, N. D.—Within the next few weeks work will be commenced on the new St. Alexius hospital, that is to be erected here this summer, and which is to cost $100,000.

Yankton, S. D.—Mrs. M. M. Matthiesen of Yankton, has been notified by Secretary of State Bryan that her son, Mark Matthiesen, had been accidentally shot at Tampico, but was doing well, and hopes were entertained for his recovery.

Grand Forks, N. D.—Funeral services for Mrs. Ella Lynch, who died in St. Paul last week of Bright's disease, were held Tuesday morning at St. Michael's Catholic church in this city. The funeral sermon was preached by Rev. Father McDonald of Michigan City.

Bismarck, N. D.—The railroad commission ordered depots built at Karnak and Clifton on the Surrey cutoff; stock yards at Hatton and Kempton repaired; side track and loading platform built at a point between Vance and Prosper on the Surrey cutoff; waiting room built at Marley siding; new station house at McGregor; stock yards at Williston.

Grand Forks, N. D.—At the regular meeting of the Presbyterian Brotherhood of the local church, the following officers were elected for the ensuing year: President, Frank Gilby; vice president, L. H. Schnaable; secretary, R. D. Cary; treasurer, S. Torgerson.

The Herald Sporting Gossip Is Reliable

Just Between You and Me

By BRUCE

SENATOR JIM BOYLE was a pitcher on the University of Indiana baseball team at the time when Mordecai Brown broke into the real game. Brown came from a small mining town and possibly not more ten real baseball men in the world had even heard of the miner.

The pitcher who later was to figure in the winning of four pennants for the famous Cub machine and who figured largely in the winning of two world's championships, was simply a raw rookey from the mines, apprehensive of the wiles of the big world and ready to start at his own shadow.

Jimmy Boyle pitched that day for the University of Indiana and he today holds the honor of winning a victory over the pitcher who later scaled the Olympian heights of fame and became recognized throughout the baseball world as one of the greatest of all twirlers.

"We hit Brown all over the lot," said the senator yesterday, in relating the incident. "Just a raw recruit, one of the greenest looking specimens of humanity you ever saw, the boys gave him the hoot and made all kinds of fun of him. This seemed to get the goat of Brown and he was easy for us.

"It must have been that Brown was nervous and clear off his game. Just three months after that game, three months to a day, he was drafted by the St. Louis Cardinals. It was later that Brown figured in the deal that took him to the Cubs.

"And what's more, as I recall it, the pitcher who was later to become famous did not lose more than one or two games that season.

"It just happened that our college ways and some of that kidding rah rah stuff got the goat of this green fellow from the mines. One thing about Brown, he was good natured about it all."

There Is a Question Here.

PEOPLE espousing the cause of morality claim a fine example in the case of Branch Rickey, the manager of the St. Louis Browns.

Rickey does not attend a ball game on Sunday. Think of that. Some of the close students of the game are vaguely wondering whether the team he is managing has not something to do with this.

Shouldn't Blame the Boat.

A NEWS item in an obscure portion of a sporting page declares that the Yale crew is to have a new shell.

But why blame it on the boat?

Pretty Fair for a Wreck.

TWO YEARS ago the students of billiards were genuinely alarmed over the reports that Willie Hoppe was clear off his game and was virtually a nervous wreck.

After lamping the score of the green cloth fracas between Willie and the cultured and stately Oro Morningstar, we are inclined to the belief that Hoppe is pretty fair for a nervous wreck.

We for one would like to behold Willie when robust of health and in the full stride of his game.

It Has Become a Habit.

READING in one of the sprightly and highly interesting London sporting sheets that genial Tom Lipton has come out and predicted a win from Shamrock IV., we are moved by the very intensity of our belief to state that the prediction has become a habit with Sir Thomas.

Adolph the Blue Ribboner.

FROM Cadillac, Mich., harmless and unheard of before the fighting days of Ad Wolgast, comes the report that in the recent municipal clash between the wets and drys, little Ad buckled on his armor and went forth and fought side by side with the drys.

It must be that Adolph is nearly through with the fight game. Thus it is that when a man gets through with the fighting game he sometimes conceives the opinion that demon rum is a very naughty companion.

During his ring days Ad has never been noted for his strict and impartial adherence to the training rules of the game. There are some of the opinion that it was the free and easy mode of living that aided William Randolph Ritchie in the acquirement of the title he proudly lugs around the country at the present time.

Hope Is Ever Present.

SOME of the fans of St. Louis are already claiming the pennant for the St. Louis Federals, said Feds having won two or three games. Thus do we see that the hope left in the mystery of Pandora, after the escape of mischief and some of the other ailments of the world, will really accomplish miracles if left alone for a few moments and given a real chance.

The Real Need is Different.

IT IS stated in Indianapolis that competent physicians will examine each of the entrants to the world championship 50-mile automobile race.

What is really needed in this case is several lawyers and a probate judge.

According to Frank Chance.

THE whilom Peerless Leader of the Chicago Cubs comes to the front with the assertion that his team will have something to do with deciding what teams are going to fight it out for the first division honors of the American league.

If Frank were only in the National with his team there might be more truth than poetry in his assertion. This is what the Cub says at least.

Garry thinks different—but you know Garry is prejudiced.

There are a lot of rooters in this section of the country who are rooting for a good finish and a high place for the Yanks.

NATIONAL LEAGUE

Reds 4; Cubs 3.

Chicago, April 23.—Chicago lost the opening game of the National league season here yesterday to Cincinnati, 3 to 4. A home run drive into the bleachers by Niehoff, which scored a man ahead of him, gave the visitors the lead. They cinched the game when Hobiltzel stole home after reaching third on a single, a sacrifice and an infield out. Score: R. H. E.
Cincinnati .....0 0 0 3 0 0 1 0 0—4 3 2
Chicago .....0 0 0 1 0 0 0 1 1—3 5 1
Batteries — Benton and Clark; Pierce, Koestner and Archer. Umpires—Rigler and Emslie.

Phillies 3; Braves 1.

Philadelphia, April 23.—Rudolph had one bad inning, the sixth, yesterday, when Philadelphia put together enough runs to win the game from Boston, 3 to 1. Score: R. H. E.
Boston .....0 0 1 0 0 0 0 0 0—1 5 1
Philadelphia ....0 0 0 0 1 2 0 0 x—3 6 1
Batteries — Rudolph and Gowdy; Alexander and Killifer. Umpires—Eason and Quigley.

AMERICAN LEAGUE

Second Tie Game.

Boston, Mass., April 23.—Boston and Philadelphia played another tie game yesterday, the score being 9 to 9, when time was called in the eighth inning by previous agreement to allow the teams to catch a train.

A batting rally in the last inning when Speaker's two-base hit drove in three of the four runs saved the game for Boston. Twenty-seven players took part in the game, Boston using four pitchers and the visitors three in efforts to stop slugging.

Houck was taken out after the fourth inning when the Red Sox piled up a lead of four runs. The Athletics came back in the next inning, tieing score by heavy hitting, which sent Bedient to the bench. More slugging in the seventh gave Philadelphia four runs, but Boston knocked Wyckoff out of the box and tied the score in the eighth. Yerkes was put off the field for objecting to a decision by Umpire Connelly. Score: R. H. E.
Philadelphia ....1 0 0 0 4 0 4 0—9 11 5
Boston .....0 0 1 4 0 0 0 4—9 9 2
Batteries—Houck, Wyckoff, Plank and Schang; Bedient, Coumbe, Foster, Kelly and Cady. Umpires—Dineen and Connolly.

Washington 2; New York 1.

New York, April 23.—Washington took the deciding game of the series with New York yesterday, 2 to 1. Warhop pitched shut-out ball for the locals, errors figuring in both of Washington's runs. Score: R. H. E.
Washington ....0 1 0 0 1 0 0 0 0—2 5 1
New York .....0 0 0 0 0 0 1 0 0—1 8 4
Batteries—Ayres, Engel and Henry; Warhop and Sweeney. Umpires—Evans and Egan.

Detroit 4; St. Louis 2.

St. Louis, Mo., April 23.—The local American season opened here yesterday with a victory for Detroit, 4 to 2. After St. Louis had scored two runs in the opening inning on a single by Austin, Pratt's two-base blow and a sacrifice fly by Gus Williams, the Detroit players landed on "Jumper" Hamilton for five hits in the third, which netted them three runs. With Kavanaugh on first, Cobb singled. Crawford also singled, scoring Kavanaugh and sending Cobb to third. Veach's double drove in both Cobb and Crawford. Burns also singled. On the attempted double steal Veach was out at the plate.

In the fifth inning Cobb was passed and Crawford singled to center. On Shotton's throw-in Pratt fumbled and Cobb raced home with the visitor's last tally. St. Louis had men to third base on several occasions but could not get over the necessary hit. Score: R. H. E.
Detroit .....0 0 3 0 1 0 0 0 0—4 8 0
St. Louis .....2 0 0 0 0 0 0 0 0—2 10 2
Batteries—Dauss and Stanage; Hamilton and Crossin. Umpires—Chill and Sheridan.

Cleveland Loses Again.

Cleveland, Ohio, April 23.—Cleveland lost its eighth straight game yesterday, playing the opening home contest of the season with the Chicago leaders. Score: R. H. E.
Chicago .....0 0 2 0 0 3 2 0 0—7 6 1
Cleveland .....0 0 0 0 0 0 0 0 0—0 6 5
Batteries—Russell, Scott and Schalk; Blanding, Collamore and Billings, Carisch: Umpires—O'Laughlin and Hildebrand.

FEDERAL LEAGUE

Buffalo 9; Pittsburg 6.

Pittsburg, Pa., April 23.—Howard Camnitz pitched for the local Federal league team yesterday against Buffalo for four innings. The visitors won 9 to 6. Camnitz allowed seven hits and six runs were scored before he was relieved by Walker. Score: R. H. E.
Buffalo .....0 2 3 1 1 2 0 0 0—9 10 2
Pittsburg .....0 0 0 3 0 2 0 1 0—6 11 5
Batteries—Moran, Ford and Blair; Camnitz, Walker and Berry.

Baltimore 9; Brooklyn 8.

Baltimore, Md., April 23.—Seaton pitched fine ball for Brooklyn for four innings yesterday while Smith was hit hard. Then Baltimore facing a lead of 7 to 0, won the game by a score of 9 to 8. Score: R. H. E.
Baltimore .....0 0 0 0 4 0 3 2 x—9 11 3
Brooklyn .....0 1 5 0 1 0 1 0 0—8 16 3
Batteries—Smith, Sugrs, Wilhelm and Jacklitsch; Seaton and Owens.

St. Louis 5; Chicago 4.

St. Louis, Mo., April 23.—The St. Louis club hit McGuire hard yesterday winning from Chicago 5 to 4, and making a clean sweep of the series with Tinker's men. Score: R. H. E.
St. Louis .....1 0 0 0 3 0 0 1 x—5 12 1
Chicago .....0 0 2 0 0 1 0 0 1—4 5 1
Batteries—Crandall and Hartley; McGuire and Wilson.

Kansas City 4; Indianapolis 3.

Kansas City, Mo., April 23.—Mullin for Indianapolis and E. Packard for Kansas City each yielded ten hits yesterday but Kansas City's hits were bunched and Indianapolis was defeated 4 to 3. Kansas City scored three runs in the second inning, but went to bat the last half of the ninth with the score tied, Indianapolis having obtained one in the first, one in the seventh and one in the ninth. Kentworthy's double and Perring's single won the game. Score: R. H. E.
Indianapolis ...1 0 0 0 0 0 1 0 1—3 10 1
Kansas City ..0 3 0 0 0 0 0 0 1—4 10 1
Batteries—Mullin and Texter; E. Packard and Easterly. Umpires—Kane and Cusack.

CLARK GRIFFITH.

GRIFFITH'S TEAM IS SHOWING GREAT FORM

ENLIST NOW

Second Division, Minnesota Naval Militia, will recruit up to war strength. Apply to Recruiting Officer at the Armory Friday evening.

MEETING OF GAME LEAGUE

George A. Flinn Is Elected President at Annual Gathering.

At the annual meeting of the Northeastern Minnesota Game and Fish Protective association, held at the Commercial club last evening, George A. Flinn, an ardent sportsman and a man who has worked diligently for the protection of game and fish, was elected president, with John Foreman, vice president; secretary-treasurer, J. A. Lawrie, and the following directors: Dr. J. D. Budd of Two Harbors, A. K. Squier, Robert Wells, Guy E. Warren and Thomas McGilvray of Duluth.

The meeting was an enthusiastic one and it was the sense of those present that this year would find the association much more active than in the past.

Plans were formulated for aggressive action in fish and game matters, which, when fully perfected, promise to materially improve conditions for the sportsmen. At the next meeting, which will be held about May 6th, and which will be definitely announced later, it is desired and expected that a large attendance may be had, as there will be much of interest to the members on that occasion.

COMMERCIAL LEAGUE TO HOLD MEETING.

There will be a meeting of the managers of the Commercial Baseball league in room 31 of the Mesaba building this evening. As there are many important matters to come before the various managers, it is of the utmost importance that every team of the league have a representative present.

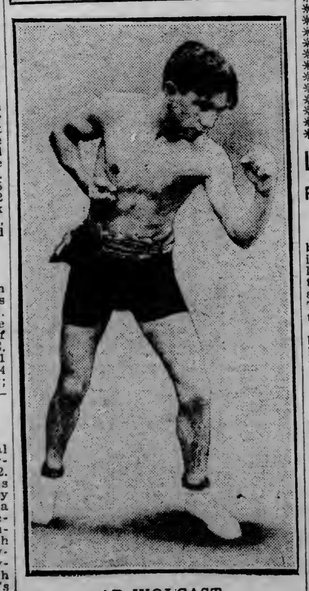
It is stated that the league will be stronger than ever this season. It is also stated that the league will play under the head of the Duluth Amateur Baseball association.

The meeting of this evening is scheduled for 8 o'clock.

LEADERS PLAY AT HOME.

Pirates Meet St. Louis and Have Balie Adams Pitching.

Pittsburg, Pa., April 23.—The Pittsburg Pirates, occupants of first place in the pennant race of the National league, will open their home season today at Forbes field with St. Louis as their opponents. Governor J. K. Tener of Pennsylvania, president of the league, will throw the first ball. Adams is slated to pitch for Pittsburg, while Manager Huggins will have either Perritt or Griner on the mound for St. Louis.



Cheney Won't Jump.

Chicago, April 23.—Larry Cheney, pitcher will remain with the Chicago Nationals, having signed a three-year contract yesterday with President Thomas.

College Athlete Dies.

Princeton, N. J., April 23.—Henry H. Barnett, a member of the Princeton four-mile relay team whose illness caused the withdrawal of the Tiger runners from that event in next Saturday's relay championships at the University of Pennsylvania, died yesterday from blood poisoning due to the inward breaking of a boil.

CADILLAC BOY TO MIX WITH TILLMAN

AD WOLGAST.

FIRST TRIP TO STREAMS

Many Fishermen Will Head for the Woods Saturday.

Weather Conditions Have Not Yet Favored Trout Fishing.

The fishing season opened legally more than a week ago, but the coming Saturday and Sunday will probably mark the real opening.

The week-end will undoubtedly see many fishermen with their rods and lines and reels and creels and boots and bait (both kinds) boarding various trains out of the city. Always provided, however, that the weather doesn't suddenly go on a tantrum and spoil carefully laid plans.

Fishermen will easily recall the state of the weather last week. In fact they don't have to remember it; they know it without thinking about it. For all except the ultra enthusiastic, the "genuinest" genuine dyed-in-the-wool disciples of Izaak Walton, it was too wet and cold and miserable, especially on Saturday and Sunday, to indulge in their favorite outdoor pastime.

Of the few who did go, some returned with nothing to show for their pains. But that only whetted their appetites to win out in another battle of wits with the speckled beauties, while at the same time it served to take the sting from the spring fever itch to get out into the open for a day's tramp. Several nice catches, however, were made in the streams tributary to Duluth. They weren't numerous and those who made them haven't been heralding the event with a brass band—they figure on going back to the same places Saturday and Sunday. Leave it to the old and wise fisherman to keep the good things to himself. Much of the time he'll deny that he had any luck worth mentioning and if he gets a feeling in his bones that somebody may be trying to spy out his particular grounds he'll dodge and back-track and deploy so that a bloodhound would have a hard job following him. All fishermen get there sooner or later.

One gray-haired veteran of the piscatorial art who was among the few who were able to show a mess asserted that he never knew the trout to bite as viciously so early in the year as they did Saturday. He is authority for the statement that two other fishing "fans" who were on the same stream landed bigger catches than he did. Where was he? Well, he said that he was quite a distance from the city.

For most of the next two months the angler will be obliged to limit his attentions to trout. The legal season for wall-eyed pike does not open until May 15 and that for black bass opens June 1.

LEAGUE WILL HOLD MEETING

Directors Will Be Chosen and Committees Will Be Appointed.

There will be a meeting of the managers of teams in the Duluth Amateur Baseball association at the Kelley Hardware company's store on Monday evening.

As this meeting is for the purpose of electing a board of directors and the appointment of various committees, it is very important that every manager of any team that is in the league or contemplates joining the league, be present and lend his assistance to electing a representative board of directors.

The constitution of the league provides for a director from each of the classes or divisions of the league, and to secure a board that will represent the interests of the league as a whole it is vitally important that each division of the league be represented at the Monday meeting.

It is the desire of the officers and members of the league to open the season very soon, and with this idea in view it is important that the board be elected and the business of the league be under way as soon as possible.

Sutton Takes Game.

New York, April 23.—George Sutton scored his first winning bracket in the world's championship 14.1 balk line billiard tournament when he defeated Harry P. Cline of Philadelphia here yesterday 400 to 295. The other winner, Calvin Demarest of Chicago, outplayed George F. Slosson, the veteran cueist of this city, 400 to 128.

College Baseball.

Minneapolis, Minn., April 23.—In yesterday's baseball game the score was: University of Minnesota, 3; Hamline, 0. No hits were made off Pitcher Rohn for the Gophers, and only two off Timm for Hamline.

New Haven, Conn., April 23.—Yale, 8; Columbia, 3, yesterday.

DULUTH MAN GOLF LEADER

R. S. Patrick's Name in Handicap List of National Association.

Is in Five Stroke Group in Championship Tournament.

New York, April 23.—The handicap list for this year, issued by the United States Golf association contains the names only of those players who are eligible for competition in the national championship tournament with handicaps of five strokes or better. Last year the eligible list included those who were allowed six strokes and there were 442 on the list. The new rule, which was adopted at the annual meeting last January, limiting the eligible to five strokes, has reduced the number to 227.

Jerome D. Travers, the national champion, and Francis Ouimet, national open champion, are placed together on scratch; Charles Evans, Jr., stands alone with a handicap of one; J. G. Anderson, with W. J. Travis is rated at two strokes. In the next division with three strokes each are four former champions, E. M. Byers, H. G. Egan, W. C. Fownes, Jr., and R. A. Gardner. Findlay S. Douglas is rated at four strokes and L. M. James has a rating of five. In all there are 62 with four strokes or better and 165 with five strokes each. Following is a partial list:

Four strokes—E. P. Ellis, III, Milwaukee G. C., Wisconsin; Richard Kavanaugh, Kenosha C. C., Wisconsin; H. G. Lee, Jr., Detroit C. C., Michigan; H. G. Legg, Minikahda C. C., Minneapolis, Minn.; J. B. Schlottmann, Detroit, Mich.; J. D. Standish, Jr., Detroit, Mich.

Five strokes—John Dwight, Racine, Wis.; R. S. Patrick, Northland C. C., Duluth, Minn.; Gordon Yule, Kenosha, Wis.

SCANDINAVIAN GROUP LARGEST

Mother Tongue of Foreign White Stock of Minnesota.

Washington, April 23.—The Scandinavian group (including Norwegian, Swedish, and Danish) was the largest among the 1,484,146 persons of foreign white stock in Minnesota in 1910, who represented 72 per cent of the total white population of that state, according to the mother-tongue bulletin which has been issued recently by Director William J. Harris of the bureau of the census, department of commerce. By mother tongue is meant the native language, or that spoken before immigration, and the report covers all white persons of foreign stock, including the foreign born and also the natives, one or both of whose parents were foreign born.

As thus reported the total foreign white stock whose mother tongue was Scandinavian numbered 610,703.. This number represented 30 per cent of the total white population of Minnesota, which was 2,059,227; the Scandinavian group included Norwegian, 286,884, or 13.9 per cent; Swedish, 282,037, or 13.7 per cent; and Danish, 41,782, or 2 per cent. The German group numbered 403,117, or 20 per cent of the total white population of the state; the English and Celtic (including Irish, Scotch, or Welsh) group numbered 212,344, or 10 per cent; the Polish, 49,142, or 2.4 per cent; the Finnish, 43,719, or 2.1 per cent; the French, 43,570, or 2.1 per cent; and the Bohemian and Moravian, 33,247, or 1.6 per cent.

The number of persons in Minnesota of foreign white stock reporting other principal mother tongues were: Yiddish and Hebrew, 17,877; Italian, 13,592; Dutch and Frisian, 11,418; Slovenian, 10,661; Serbo-Croatian, 7,901; Slovak, 2,740; Magyar, 2,374; Greek, 2,076; Flemish, 2,008; and Russian, 1,517.

MAHONEY PLEADS "NOT GUILTY."

New York, April 23.—Michael P. Mahoney, who attempted to assassinate Mayor Mitchel, pleaded not guilty yesterday. A commission to inquire into his sanity was appointed by the court,

THE OLD TAR AND THE GOOD JUDGE

ONE KILLED AND ONE WOUNDED IN PISTOL DUEL FOLLOWING PARTNERS' QUARREL

Joseph Rich Kills His Brother-in-Law, Frank Carlo.

Eleven Shots Fired—Rich Claims He Fired in Self Defense.

Stray Bullet Wounds Customer in Store Owned By Partners.

Eleven shots fired in a pistol duel precipitated by the disagreement over money matters between Joseph Rich and Frank Carlo, brothers-in-law, in their confectionery store at 511 West Michigan street, about 11:20 o'clock last evening, resulted in the death of Carlo, the wounding in the left leg of Miles T. Frink, a bystander and eye-witness, and the arrest of Rich after the shooting on a charge of murder.

Rich, who is 50 years old, is one of the pioneer members of the Italian colony in Duluth, and has been in partnership with Carlo in the confectionery stores at 1029½ West Michigan street and at 511 West Michigan street, where the shooting took place. They have been partners for seven years. Rich married a sister of Carlo in Italy about thirty years ago.

Rich was formally arraigned in police court this morning on a charge of murder in the second degree. He asked for a hearing and the examination was set for 2 o'clock next Tuesday afternoon.

The prisoner tells a connected story of the shooting, the incidents preceding it and his past connections with Carlo, the man he claims he killed in self-defense. A complete statement from the prisoner was taken this morning by Chief of Police C. H. Troyer and his secretary, John Connelly.

Argument Over Money.

According to his own story to Chief Troyer and those of Miles T. Frink and Joseph Stringer, who were both in the store at the time the shooting took place, the two partners had begun an argument over a mistake, which the murderer claims he found in the two cash registers. He admits having charged his partner with "knocking down" some of the receipts and says that Carlo immediately opened fire on him.

Both Frink and Stringer told Chief Troyer, who conducted an investigation of the shooting immediately after he was notified last evening, that the charges made by Rich continued into a heated argument between the two partners and finally ended in the pistol duel, during which both men emptied their revolvers.

Frink, who is an expressman, lives with his family at 316 Commerce street, and was shot in the calf of his left leg while endeavoring to get out of the confectionery store. He was intoxicated when arrested, the police say, and they were unable to get a connected story from him. He is 55 years old. He pleaded guilty to being drunk when brought into police court this morning. Sentence was suspended.

Stringer lives with his parents at 321 West Second street and was making a purchase when the argument between the two partners began. In his story to Chief Troyer, Stringer says that he started to run just as the argument was terminated by the firing of a revolver. He claims that Carlo fired first, while Frink also thinks that the murdered man was the aggressor.

Says Carlo Fired Twice.

Rich is unable to tell how many times Carlo fired at him before he attempted to defend himself, according to his statement made to Chief Troyer this morning, but is positive there

FRANK CARLO AND HIS FAMILY.

were at least two shots. They both missed him, he claims, and he then opened fire on his partner, using his .32-caliber Colt. The murdered man emptied his .32-caliber Smith & Wesson revolver, using five cartridges, while Rich fired six times.

None of the shots fired by Carlo struck Rich, while the latter hit his adversary three times, once in the heart, this wound resulting in his death. The other wounds were in his left shoulder and on the right side of his abdomen.

Egdahl Interferes.

Although seriously wounded, Carlo attacked Rich with a stove poker, after they had both emptied their revolvers and it was while the former was striking Rich on the head that Adolph Egdahl, who had heard the shooting from his room over his saloon at 509 West Michigan street, rushed into the confectionery store. Rich then seized a bottle and struck Carlo over the head. At this point Egdahl succeeded in separating the two men and he led Rich out of the store into the union station across the street.

Patrolmen Le Beau and Montgomery were the first officers to reach the scene of the shooting, where they found Carlo lying unconscious on the floor. Rich's revolver was found near him, while Carlo's revolver had been taken away by Rich in the struggle and it was found in the prisoner's pocket shortly after. The two officers called the police ambulance and the dying man and the prisoner were placed inside, Patrolman Westerlund having arrived with the patrol to assist the officers. Frink, who had been shot in the leg, was also taken along, and the three men were taken to St. Luke's hospital, where Carlo died a few minutes after arriving, without regaining consciousness. On the way to the hospital the officers stopped at the residence of Police Surgeon Murphy, who declared after an examination that there was no hope for Carlo.

Wounds Not Serious.

The wounds of Rich and Frink were not considered serious and after being dressed, the two men were taken back to police headquarters, where they were locked up. Frink was charged with drunkenness, while a charge of murder was placed against Rich. This morning Chief Troyer swore out a warrant charging him with murder in the second degree. Rich suffered three scalp wounds as a result of being struck with the stove poker. Eight stitches were taken at the hospital.

After telling his story to Chief Troyer last evening, Stringer was allowed to go, but he will be subpoenaed as a witness for the state next week. Frink was allowed to go after he told his story this morning. He will also be used as a witness.

Carlo was 40 years old and came to this country when but 11 years old. His father and his brother, Peter Carlo, who lives at 1606 West First street, were the first of the family to leave Italy. About six months after Peter and his father came to New York, the latter died and Peter was left alone here at an age of eleven years. A few years later he sent for his widowed mother and three brothers, who came to New York, where they lived for a short time before coming to Duluth about twenty-four years ago. Their sister, Mrs. Rich, married the prisoner in Italy about thirty years ago. They have been in Duluth twenty-seven years. Carlo's mother died here in 1896.

Eight Children.

Besides a widow, Carlo is survived by eight children, the oldest of whom is 17 years of age and the youngest, five years old. They are: Rose, 17; Anna, 16; Ambrose, 14; Nicholas, 12; Jennie, 10; Josephine, 8; Tony, 7, and Grace, 5. They live at 1001 West Third street. Besides his family, he is survived by three brothers and one sister. They are: Peter Carlo of Duluth; Tony Carlo, New Jersey; John Carlo, Colorado, and Mrs. Joseph Rich, Duluth.

Rich lives with his family at 8 South Eleventh avenue west. There are four children: Frank, who is married and lives at 1017 West Fifth street, and Tony, Nona and John, who live with their parents.

The body of Carlo was early this morning removed to the Grady & Horgan undertaking rooms, where the funeral arrangements will not be made until tomorrow. Peter Carlo, the brother of the dead man, is endeavoring to locate his other brothers before completing the arrangements. It is probable the funeral will be held Saturday morning. An autopsy will be held this afternoon.

Rich, who is charged with having murdered his partner, is one of the best known members of the Italian colony in Duluth. He and Carlo started their partnership about seven years ago and for some time past, it is claimed, he has been charging the later with "holding out" money.

Mrs. Carlo said this morning that Rich began charging her husband with "knocking down" the receipts the first of last December.

The widow added that Rich has been

JOSEPH RICH,
Who Pleads Self-Defense.

coming to the Michigan street store every night, just before closing time at midnight, and there adding the receipts for the day and checking up on the amount shown in the registers. It was after completing this work last evening that he again brought the charge of the disappearance of the money, which argument finally ended in the fatal pistol duel.

The murder last night is the second this month, Charles Patrick Lawler having killed his sister-in-law, Mrs. Mary Lawler, in the Astoria hotel on the night of April 10. Lawler attempted to kill himself at the time and owing to his weakened condition, the state has been unable to conduct the hearing, which has already been continued twice from the original day set by the court. It is expected the examination will be held Friday morning, the date set by the court when the case was called last Friday. Lawler is charged with murder in the first degree.

PLUCKY FIGHT MADE BY AMERICAN JACKIES

(Continued from page 1.)

the Americans were in undisputed possession of all the city except the southwest quarter, in which the barracks are situated, and a few outlying districts. At noon they had taken the barracks.

The most spirited action of Wednesday was the taking of the naval academy. Aside from that fight, no definite organized opposition was encountered by the Americans. A hot fire was poured into the advancing Americans from the naval college, which for a time held them back, but a few well-directed shots from the cruisers Chester, San Francisco and Prairie tore gaping holes in the stone walls and silenced the rifle fire of the Mexicans inside. The bluejackets then were enabled to proceed with the task they had in hand.

Jackies Fight Pluckily.

The jackies stood their ground pluckily. Some of them huddled close to the wall to avoid the rain of steel-jacketed bullets from above, while some dashed across a small open space directly in front of the building.

These bluejackets dropped on their stomachs and lifted their rifles high in order to get a range on the windows above. Finally the American officers hustled their men either forward or backward until they were in shelter of nearby buildings.

The jackies in front held their places, however, and the Prairie sent shell after shell from her three-inch battery into the windows of the college, huge columns of red dust leaping upward as each shot went home. The Chester also joined in, and with a roar her six-inch shells tore great gaps in the roof of the college. Far to the right in the harbor the mine ship San Francisco opened with her five-inch guns, and taking the front of the college, shot out window by window, planting the shells with the precision of target practice.

Pushed Ahead Again.

After fifteen minutes of firing the Prairie and the San Francisco ceased, and the column of jackies formed again and pushed ahead, deploying around the front of the college. A few shots were directed at them, but none came from the college. The Chester continued hurling shells into any building where snipers lurked and also far out into the suburbs.

The jackies went steadily ahead without faltering, spreading out through the water front sections, seizing the highest buildings and organizing squads of guards at street intersections.

In the Diligencia hotel there were forty Americans, most of them women, who had been there since the commencement of hostilities. When the square was taken they were immediately notified that they might go to other places if they so desired, but that they probably would incur no further danger by remaining in the hotel.

Some Fought to Last.

It was not until late Tuesday that the last of Gen. Maas' men on top of the hotel received written orders from outside the city to vacate their position. The order was obeyed by a portion of the 100 men who were occupying the roof and vantage points in the interior, but a small portion of the band determined to disobey the orders of their superiors and fight to the last. These men, however, surrendered Wednesday morning.

None of the American women was mistreated by the Mexicans during their occupation of the building. A few of the women assisted the Mexicans in caring for their wounded.

CARRANZA SAYS TAKING OF VERA CRUZ IS HOSTILE TO THE MEXICAN NATION

Claims the United States Erred in the Action Taken.

Invites Suspension of Operations and Withdrawal of Forces.

Says Constitutionalist Government Should Be Asked for Reparation.

Washington, April 23.—Gen. Carranza's note to President Wilson declaring the seizure of Vera Cruz by American forces a violation of the national sovereignty of Mexico, inviting the United States to suspend hostile operations and withdraw its forces, and suggesting that the Constitutionalist government should receive demands for reparation for offenses committed by Huerta, stirred the Mexico situation to a new and acute crisis.

The opposition to the American action, coming from unexpected quarters after the Washington administration had hoped for a position of neutrality and passive observation from the Constitutionalists, brought the government face to face with possible hostility from the great body of Mexican forces lying in proximity to the southern tier of the United States.

Chihuahua, Mex., April 23.—Replying to a telegram from Secretary Bryan at Washington, Gen. Carranza yesterday telegraphed that the United States is not justified in occupying Mexican territory.

"The invasion," says the letter, "will drag us (Mexico) into an unequal war with dignity, but which until today we desired to avoid." The unofficial translation of the text of the letter follows:

"United States Consul J. C. Carothers: In answer to the message of Mr. Secretary of State Bryan, which was communicated to me through you please transmit to the said Mr. Bryan the following note addressed to Mr. President Wilson:

"Awaiting the action of the American senate on your excellency's message directed to said body caused by the lamentable incident which occurred between a crew in a whaleboat of the Dolphin and soldiers of the usurper, Huerta, certain acts of hostility have been executed by the naval forces under command of Admiral Fletcher of the port of Vera Cruz, and in the face of this violation of national sovereignty, which the Constitutionalist government did not expect from a government that had reiterated its desire to maintain peace with the Mexican people, it comply with the duty of elevated patriotism in directing this note to you with a view to exhausting all honorable means before two friendly nations sever the pacific relations that still unite them.

Huerta Not Recognized.

"And the Mexican nation, the real people of Mexico, have not recognized as its executive a man who, pretends to launch a blemish upon its national integrity, drowning in blood its free institutions, consequently the acts of the usurper, Huerta, and obligations do not constitute real public functions of interior and exterior relations and much less do they present the sentiments of the Mexican nation, which are of co-fraternity toward the American people.

"The lack of representative character of Gen. Victoriano Huerta, as concerning the relations of Mexico with the United States, as well as the Argentine republic, Chile, Brazil and Cuba, had been clearly established with justifiable attitude of these nations who have refused to recognize the usurper, in this way lending a valuable moral support to the noble cause I represent.

"The usurped title of the president of the republic cannot invest Gen. Huerta with the right to receive demand for reparation on the part of the United States, nor the right to grant a satisfaction as due.

Only One Government.

"Victoriano Huerta is a culprit who is amenable to the Constitutionalist government, today the only one under the abnormal circumstances of our nation which represents the national sovereignty in accord with article 128 of the political Constitution of Mexico.

"The acts committed by the usurper, Huerta and his partisans and those which they may yet perpetrate, be they of an international character as those which recently occurred at the port of Tampico, or of a domestic character, shall be tried and be punished with inflexibility and promptness by the tribunals of the Constitutionalist government.

"The individual acts of Victoriano Huerta never will be sufficient to involve the Mexican nation in a disastrous war with the United States, because there is no solidarity whatsoever between the so-called government of Victoriano Huerta and the Mexican nation, for the fundamental reason that he is not the legitimate organ of our national sovereignty.

Violation of Rights.

"Moreover, the invasion of our territory and the permanency of your forces in this port of Vera Cruz are a violation of the rights that constitute our existence as a free and independent sovereignty and will drag us into an unequal war with dignity, but which, until today, we desired to avoid.

"It not being on the other part, the usurper, who, in all cases should have the right to constitute a reparate, I direct the sentiment of a great majority of the Mexican people which is so jealous of its rights and respectful of foreign rights, I invite you solely to suspend the hostile acts already initiated, ordering your forces to evacuate all places which they hold in their power in the port of Vera Cruz, and to formulate before the Constitutionalist government, which I represent, the demand on the part of the United States for the acts which originated at the port of Tampico in the security that the demand will be considered in a spirit of elevated justice and conciliation.

"The Constitutionalist governor of the state of Coahuila and first chief of the Constitutionalist army,

"V. CARRANZA."

PLAN OF THE MILITARY CAMPAIGN IS LIKELY TO BE ENTIRELY CHANGED

(Continued from page 1.)

borhood of Chihuahua, where many Americans have elected to remain in charge of their own business interests and in disregard of preceding warnings from the American consular officers, relying upon the supposed good will of the Constitutionalists.

Danger at Fort Bliss.

A danger spot has developed rapidly at Fort Bliss, where, owing to the diversion of a large proportion of the American garison to other border points, the 5,000 Mexican internes, composed of the Federal soldiers and their wives, who fled from Ojinaja some months ago, are within a barbed wire enclosure, insufficiently guarded. The status of these internes is likely to be changed very soon to that of prisoners of war, and it is the intention of the war department to take them to a point sufficiently distant from the border to insure their safekeeping, as soon as the necessary funds are forthcoming.

Protect Northern Border.

Plans of campaign are being arranged on the lines of immediate establishment of a sufficient protection along the entire northern border of Mexico for the American inhabitants in Texas and the other border states. Following that will develop the details of the original plans of a campaign against Mexico City by land via the railroad lines from El Paso south through Chihuahua, which so often has been traversed by the contending Mexican factions within the last three years.

This is dependent upon a decision by the administration that a state of actual war exists which is supposed to be forecast by the re-establishment of the embargo on the exportation of arms across the line into Mexico.

Gen. Wood is awaiting orders at the war department. No call has yet been issued for the militia, and it is said that nothing could be done in that direction until congress had acted by authorizing the movement and by providing the large amount of money necessary for the concentration of the militia forces at the various camps which already have been selected in the respective states.

SPANISH PAPERS QUITE FRIENDLY

Believe Mexican Independence Will Be Respected By United States.

Madrid, April 23.—The leading newspapers of Spain have adopted a well balanced and even friendly attitude toward the United States in commenting on the Mexican situation.

El Liberal expresses the belief that Mexican independence will be respected by the United States, "although Gen. Huerta brought intervention upon himself."

It says: "It would be well for the United States to intervene also in the Mexican provinces where Carranza and Villa exercise authority."

El Imparcial says: "The Monroe doctrine now is being modified to mean 'America for the North Americans.' The war will end in the adoption of an imperialistic policy by the United States."

ANXIOUS OVER MISSIONARIES

Word From Fifty Going to Mexico City Awaited.

New York, April 23.—At the several church mission headquarters in New York today word from fifty American missionaries en route from Mexico City to Vera Cruz, was anxiously awaited.

A Methodist Episcopal board of foreign missions received a cablegram today stating that all its missionaries in the cities of Pachuca, Puebla and Guanajuato were safe. From this message it was inferred that these missionaries had not started for the coast, as stated in a previous message.

News of the safety of the ten Episcopal missionaries in Mexico under Bishop Henry D. Aves, also was received today. Five of these missionaries are women and they have been advised to leave the country.

WILL SEIZE ROAD TO MEXICO CITY

Plans Are Made By the Navy and War Departments.

Washington, April 23.—It was learned early today that the navy and war departments had made plans for the early seizure of the railroad from Vera Cruz to Mexico City. A reconnoitering party has reported still intact two bridges on the railroad, one ten miles and one eighteen miles from Vera Cruz. Officers at Vera Cruz reported that these bridges must be protected if Vera Cruz is to be a base of further operations, because they could not be readily rebuilt, if destroyed.

WATER SUPPLY IS NEED OF IRONWOOD

Mayor Rowe Tells New Council It Is Important Matter.

Ironwood, Mich., April 23.—(Special to The Herald.)—At the first meeting of the new city council Tuesday evening Mayor Rowe, who succeeds himself, spoke of the health of the city being improved last year by the construction of the Pine and the Lake street sewers and recommended a sewer system for the village of Jessieville which adjoins this city.

He urged the council to do something towards furnishing the city with pure water, declaring that the water now furnished by the Ironwood Water Works company is unsatisfactory.

"The system recently installed by this company for filtering and purifying the water seems to be the right system," the mayor said, "but the report of our city engineer submitted to the former council shows that the settling tanks are insufficient in size to accomplish their purpose. The franchise of the water company has but a few years to run. The question of furnishing a wholesome supply of water for domestic purposes, not only at the present time but for the future, should receive the careful and continued attention of this council.

Telephone Poles Remain.

"During the last year we accomplished much by having the unsightly telephone poles removed from the business part of the city. The conditions should further be improved by the removal of the wooden poles of the electric light company, and this matter the council should take up in a business-like way with the company and begin negotiations looking for the removal of the wooden trolley poles as well as the other wooden poles carrying the electric light wires, and the installation of iron poles of approved design.

"The work of improving the highways and sidewalks of the city should also continue and as much be expended for these purposes as the finances of the city will permit.

"In carrying out these various public improvements I shall endeavor to fully perform my duty as mayor of this city, and I trust and know that during the ensuing year the council will give me the same support in these matters as it did last year, and that we may so conduct the affairs of the city as to meet the approval of its citizens and the confidence which they have reposed in us."

Those Given Positions.

The mayor then read the appointments which were approved by the council as follows: Mayor pro tem, F. J. Alexander; city attorney, C. M. Humphry; marshal, Nick Frank; assessor, Peter Lofberg; street commissioner, I. F. Stabler; sanitary inspector, Arthur Sutherland; health officer, Dr. Conley; chief of fire department, James Oxman; janitor, John Malm; patrolmen, Swan Holt, Nick Anderson, John Kazwinsky, John Burt.

The following committees were appointed: Finance, Alexander, Speare, Best, Stevens, Dear; streets and highways, Speare, Mueller, Best; fire and water, Mueller, Olson, Peterson; ordinances, Peterson, Harrington, Jennings; city parks, May, Stevens, Olson; cemetery, May, Stevens, Moon, Richards, Alexander; sewers, Tolan, Jacquart, Alexander; police, Dear, Jacquart, Mildren; buildings, Olson, Speare, May; printing, Jacquart, Moon, Jennings; judiciary, Stevens, Tolan, Mildren; license, Richards, Tolan, Mueller; lighting, Harrington, Richards, Peterson; sanitary, Best, Dear, Harrington, Mildren, Jennings; firemen, Touman and city weigher, Wilbur Boyer, George King, Thomas Williams, Alex Olson, Oscar Lund, Walter Du Chien; pound master, Paul Slyvniski.

Oil Operator Dead.

Pittsburg, Pa., April 23.—Wesley S. Guffey, aged 73, a well-known operator in the oil fields of West Virginia, Pennsylvania, Texas and Oklahoma, died her last night. He and his brother, J. M. Guffey, former Democratic national committeeman from Pennsylvania, were leaders of independent oil producers in Pennsylvania and Oklahoma.

Oppose Tolls Repeal.

Washington, April 23.—A delegation from New York, representing the Association for the Preservation of American Rights in the Panama canal, appeared today before the senate committee on interoceanic canals opposing repeal of toll exemption for American vessels. W. Bourke Cockran was the speaker.

Send the Coupon. It will bring you, free, a box of NESTLE'S FOOD—enough for 12 feedings—and a Book about the babies by Specialists.

Why Cow's Milk is Bad for Your Baby

SO many of our babies were slipping away because of bad food—that the great State of New York set out to find out where the trouble lay. They found it. And that tale of New York tells you mothers this:—

That **one cow in every three** in that state—where the laws are strict—has consumption.

And doctors tell you mothers that your babies get summer complaint—and sickness of all kinds—yes, they even get consumption—from such cow's milk. And they tell you that you have no way of knowing whether the milk you give your baby comes from such a cow.

But scientists and doctors have found a way to get all the good in cow's milk for your baby without the dangers.

For three generations, countless thousands of mothers who could not nurse their babies, have profited by this discovery, and have raised their babies to happy and healthy childhood on

Nestlé's Food

They have seen them grow sturdy and strong—without any of the trouble that comes from raw cow's milk, that may be good today and bad tomorrow.

In Nestlé's every chance of sickness has been taken out—clean dairies, healthy cows, clean milking—and then an extra purifying and packing in an air tight box—so it reaches your baby fresh and pure as mother's milk itself. You add clear, fresh water—boil—and it's ready for the baby—with all the good of milk left in it, all the bad changed—and everything added that your baby needs for a healthy little body.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets.

The secret of keeping young—is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle.

Your doctor will tell you ninety per ceat of all sickness comes from inactive bowels and liver. Dr. Edwards, a well known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. The Olive Tablet company, Columbus, Ohio. All druggists.

Corns Go, Sure Pop, If You Use "Gets-It"

Simple As A B C. It's the New Way of Curing Corns and Calluses.

If you have corns now, the chances are you have never used "GETS-IT," the biggest seller among corn cures ever known. It is the new way, does away with all trouble, pain and fussing in treating corns. Thousands who have

Get the Corns Off Your Feet, and the Corn Wrinkles Off Your Face. Nothing Can Do It Like "GETS-IT."

puttered with old corns for years, have gotten rid of them right off, with a few drops of "GETS-IT," applied as quick as you can spell your name. Corns just love to be cut, picked, filed, gouged and pulled. Quit it. You've tried cotton rings that cause shooting corn pains, greasy salves that spread the corn over the toe and make it raw and tape that sticks to the stocking—now try "GETS-IT." It has none of the drawbacks of the old style corn cures, eases pain and never fails on any corn or callus.

"GETS-IT" is sold by all druggists, 25c a bottle, or sent direct, by E. Lawrence & Co., Chicago.

The Home Beauty Parlor
By Betty Dean

Vera B.: Your skin will grow soft, clear and smooth after a few applications of a plain almozoin jelly-cream, made at home as follows: Put 4 tablespoonfuls glycerine into ½ pint water and in this dissolve 1 ounce almozoin (which you can buy at your druggist's). Apply a thick coat of this to the skin before retiring, then wash off in the morning and use more of the jelly-cream for massaging. This gradually dispels the wrinkles and lines and banishes pimples, blackheads and the "muddy," oily look. The almozoin jelly-cream is greaseless and will not grow hair.

Mrs. A. T.: You may not require glasses. Get from your druggist 1 ounce crystos and dissolve in 1 pint water. Then put a few drops in the offending eye several times a day until inflammation and soreness have vanished. This crystos eye-tonic is especially good for granulated eye lids and using it strengthens the eyes and gives them a youthful sparkle.

Adeline: The reason for that dryness of hair after your shampoo is because that kind of soap irritates the scalp's tissues and makes them over-sensitive. Canthrox will correct this, for it is a tonic as well as cleanser and is so stimulating to the blood-vessels and scalp-tissues that the danger is entirely eliminated. To prepare your shampoo, dissolve a teaspoonful of canthrox in a cup of hot water, then pour it slowly on the head as you rub briskly. This dissolves every trace of dust, dandruff and excess oil, and after rinsing, the hair will dry quickly and evenly.

Lucy G.: Loss of weight is a serious matter and calls for prompt action. Get from your druggist 1 ounce kardena and put it, together with ½ cupful sugar, into ½ pint alcohol, then add hot water to make a full quart. Take a tablespoonful before each meal. This simple, home-remedy increases your appetite and gently cleanses the system of impurities, restores a healthy condition to the vital organs. When this is done your weight will be normal and the glow of health will be upon your cheeks.

Mrs. A. R. J.: I make a good lotion that is very helpful to my skin by dissolving 4 ounces spurmax in ½ pint witch hazel or hot water, to which is added 2 teaspoonfuls glycerine, which will soon correct that oily, sallow, "wornout" appearance of your complexion. This sumple lotion is soothing and healing and imparts a velvety smoothness and natural loveliness to the complexion not possible with powder and rouge. You will like the spurmax lotion because it is easily applied and cannot be detected when on.

Lucille: I always use a plain quinzoin hair tonic, made at home by pouring 1 ounce quinzoin into ½ pint alcohol, then adding ½ pint water. Rub a little well into the scalp twice a week and you will soon rid the scalp of dandruff and restore hair roots to health. The regular use of the quinzoin tonic will restore the former gloss and even color to the hair and make it soft, long and fluffy.

Mrs. M. N. T.: Your excess weight can be easily and quickly reduced by taking this parnotis treatment, made at home, as follows: Put 4 ounces parnotis (which you can get at your drug store), in 1½ pints hot water and strain when cool. Take a tablespoonful before meals until weight is where you want it. No harm results from the use of the parnotis treatment, and the flesh is left solid and the skin soft and smooth.

DEFECTIVE PAGE

ON THE IRON RANGES

HIBBING FIREMEN WILL BE RETAINED

No Changes Are Anticipated Among the Police Either.

Hibbing, Minn., April 23.—(Special to The Herald.)—Hibbing will continue to have the same efficient fire protection as Chief Charles McIlhargy announced today that he will make no changes in his force.

The local fire department has been well organized and well trained and with the equipment that is not surpassed outside of the three big cities in the state, have done excellent work.

The firemen receive from $95 to $110 a month. Chief McIlhargey receives $175 a month, Assistant Chief Brown $110, Capt. Bretto $106, the electrician $106, the drivers $99, the lieutenants $97, and the pipemen $95.

The list of the men now employed is as follows:

Fire Hall No. 1.

Fire hall No. 1, equipped with combination hose and chemical wagon, horse drawn; combination chemical and ladder truck, horse drawn, and chief's roadster, Velie "40;" Dominic Bretto, captain; Chester Brockway, lieutenant on hose; William O'Connor, first pipeman; Neilo Dedischi, second pipeman; Ed Mobile, third pipeman; M. J. Kelly, fourth pipeman; Joseph Lauber, driver; Charles Hughes, lieutenant on truck; Joseph Renz, first truckman; James McDonald, truckman; Del St. Jullen, driver.

The chief makes his headquarters in No. 1 fire hall.

No. 2 Fire Hall, 207 Superior Street.

This company is equipped with a combination hose and chemical automobile. Edward Brown, assistant chief; Richard Brookins, lieutenant; Lawrence Adams, first pipeman; James Hurley, second pipeman; Joseph McDermott, third pipeman; Hiram Byer, driver.

No. 3 Fire Hall, Alice.

Equipped with combination hose and chemical wagon, horse drawn; Edward Nicholsen, lieutenant; Carl Johnson, first pipeman; Jerry Archambeau, second pipeman; Edward Stone, driver.

No Police Changes.

There will be no changes at present in the police department, according to Chief of Police Archie McFayden, who was reappointed. Bert Quayle will be added to the force as a motor cycle policeman, to work shifts with Frank Haben, who was first appointed as the man to watch the auto speeders.

Work Eight Hour Shifts.

Under the system that has been in force in the village the policemen in the main part of the village work in three eight-hour shifts, while the suburban and special officers are on from 6 in the morning to 6 in the evening. The traffic and suburban policemen receive $90 a month and the patrolmen $100, after they have been on the force for six months. The desk sergeants receive $105 a month and the chief $175. The shifts change each month as to hours, with the exception of the special policemen and sergeants.

MINE RESCUE WORK CAR AT VIRGINIA

Will Remain Until May 2, Giving First Aid Pointers.

Virginia, Minn., April 23.—(Special to The Herald.)—The Lake Superior district car of the United States bureau of mines, which has been giving instruction at Eveleth, arrived here yesterday and will remain until May 2. "Frank" and "Krog," little canary birds, are two important members of the party of experts in charge of the car. The birds are used to sample the air in the mines. They are susceptible to gas and are affected by one-tenth of the amount that it takes to affect a human being. The canaries are particularly valuable in determining whether there is carbon monoxide in the mines. This gas is odorless and tasteless and the miner never knows that he is affected by it until he has breathed enough of the foul air to be overcome.

The Equipment.

A part of the equipment consists of thirteen mouth-breathing type, two-hour machines, eleven of which are of the Floto-Fleuss make. The other machines are the Draeger and Westphalia makes. The rest of the equipment consists of a high filling pump to compress the air from the storage tanks at a pressure of twenty-two pounds, Davey safety lamps for testing gas in the coal mines, and a shaft-signaling device, which allows the wearer to enter a mine to the depth of 1,000 feet and keep in communication with the outside world by a code of bell signals. The car also is equipped with first-aid material, doctors' emergency chests and army and navy stretchers.

The Day's Work.

The training work begins at 8 a. m. each day. The forenoon is given over to rescue work at the Alpena mine, where the public may come and make observations. In the afternoon first aid work is taken up between 2 and 4 o'clock at the Mohami club at Oliver headquarters.

A. A. Krogdahl, in charge of the first aid work, talked yesterday afternoon on the circulatory system, bones of the body, and treatment of wounds. This afternoon he will lecture on shock and dislocation, and conduct a practical demonstration. Tomorrow afternoon Mr. Krogdahl will give general directions in rendering first aid and treatment of fractures. Saturday afternoon he will discuss artificial respiration and transportation of patients.

A class of ten men will take the rescue work in the Virginia district this week and thirty-five men will take the instruction in first aid. They will complete their course next Monday.

"The published statement that the bureau of mines rescue car is demonstrating the pulmotor is a mistake," said W. W. Sullivan, foreman in charge of the car. "The bureau of mines has discontinued the use of the pulmotor and has substituted the manual method of resuscitation, getting away from the mechanical and automatic features of life-saving as much as possible."

EVELETH PROPOSES TO ACQUIRE PLANT

Owners and City Get Together on Matter of Appraisement.

Eveleth, Minn., April 23.—(Special to The Herald.)—The city council has reached an agreement with the Home Electric & Heating company for the purchase of the power plant. It was decided to submit the matter to one appraiser and to deal on the basis of his figures. A written agreement was entered into to that effect.

The Burns-McDonald company of Kansas City, Mo., will make the appraisal for $1,200, of which sum half will be paid by the city and half by the owners of the plant. Mr. McDonald offered to have a corps of appraisers and engineers at work on the plant next week to make a careful valuation.

The proposition will have to be submitted to a vote of the people before bonds can be issued and the deal closed.

RANGE SOLDIERS WILL BE READY

Orders Are Received for All Militiamen to Report.

Virginia, Minn., April 23.—(Special to The Herald.)—Members of the two companies of state militia on the Mesaba range are taking the keenest interest in the news from Mexico. Thirty Virginia members of Company F have been notified that no excuses would be accepted for failure to report at the Eveleth armory tonight.

Capt. Hartness has received orders from Col. Resche, commanding the Third regiment to have every man in the company report.

Similar orders were issued to the captain of the Hibbing company. There is a general air of expectancy among the soldiers.

VIRGINIA CLASS PLAY SELECTED.

Virginia, Minn., April 23.—(Special to The Herald.)—The senior class play will be presented in the Roosevelt school auditorium May 1.

"Betty Sharpe," with apologies to Thackeray and "Becky Sharpe," is the title.

Twenty-six students will appear in the cast. A feature of the production will be the scene in which five well-known senior boys will appear, dressed as girls and will attend a party.

The play is replete with bright situations and happy lines.

CHISHOLM AS HOST.

Will Be Called on to Entertain League of Postmasters.

Chisholm, Minn., April 23.—(Special to The Herald.)—A. J. Buchman appeared before the village council yesterday afternoon and urged that steps be taken to properly entertain the postmasters when their league meeting is held here next month. The council will take such action.

A resolution was passed making eight hours a legal day for all employes of the village after May 1.

Supt. of Complaints and Statistics Harry O'Brien, reported 607 applications for work in the different departments; 176 were men with families living here, and 138 married men with families in Europe. Work was provided for twenty.

Bids were called for furnishing the detention hospital, and also for lumber for repairing Longview lake bridge. The health officer was instructed to name a general street and alley cleaning day.

Moving to Duluth.

Virginia, Minn., April 23.—Mr. and Mrs. B. F. Doughty will this week remove from Virginia to Duluth, where Mr. Doughty has accepted a fine position with one of the railroad companies in the West End.

Jack Mattson was overcome yesterday afternoon and fell in an epileptic fit on Chestnut street near Eddy's livery. He was revived with difficulty, owing to a crowd that gathered about him, and kept medical attention from reaching him promptly. Later he completely recovered.

President Joseph Backus of the Virginia Gun club has forwarded the necessary blanks to residents of Orr to make application to the state game and fish commission for bass fry to be planted in Pelican lake. Dr. Lenont has also made application for some trout fry to be planted in one of the brooks to the north of this city on the Vermilion road.

Eveleth Hans on Qui Vive.

Eveleth, Minn., April 23.—(Special to The Herald.)—Capt. James C. Hartness, commander of Company F, states that he has received no information as to the militia being called upon.

There is a feeling of suppressed excitement on the part of the guardsmen, many of whom are anxious to be called upon.

CHIEF ENGINEER AT VIRGINIA QUITS

John Kennedy to Leave City After Long Residence.

Virginia, Minn., April 23.—(Special to The Herald.)—John Kennedy for nineteen years chief engineer for the local water and light plant, during the time it was owned by private parties and since acquired by the city, resigned today. He leaves Virginia to go to New Ulm, Minn., to live, where he has secured a gas franchise. Mr. Kennedy will be succeeded by Charles B. Horching, who will be appointed by the water and light board.

ANNEXATION PLAN MAY BE RESISTED

Hibbing Commercial Club May Develop Debate Over Matter.

Hibbing, Minn., April 23.—(Special to The Herald.)—An opposition that may develop at tonight's meeting of the Commercial club against the annexation of township 59-21 will be met by the adherents of the move.

The source of the opposition still remains a mystery and it is possible that in the face of such strong support there may be no definite move made. The merchants generally are strongly in favor of the annexation and the Bear River farmers are enthusiastic.

The joint county hospital and work farm at Wolf will be seriously discussed, the construction of a potato warehouse will be brought up and final action will be taken on the guarantee asked by the State Federation of Clubs for the Minnesota building at the San Francisco fair.

VIRGINIA HIGH WILL PLAY BALL.

Virginia, Minn., April 23.—(Special to The Herald.)—A schedule of games will be arranged for the Virginia high school baseball team as soon as arrangements are completed for the use of Oliver park when the Northern league team is not at home.

The program will include one game with Eveleth, two games with the Duluth Central high school, two with Hibbing, one with Aurora and an opening practice game with Mountain Iron. This will give the Virginians at least two trips away from home and possibly three.

WINTON PAIR NEARLY DROWN.

Winton, Minn., April 23.—(Special to The Herald.)—Alexander Whitten, son of Manager T. S. Whitten of the St. Croix Lumber & Manufacturing company, and H. C. Hurning, who is connected with the St. Croix concern, met with an experience Tuesday which might have claimed their lives.

They were returning from a fishing trip, and were driving home in a cutter over Fall Lake route. When they were about a mile from town the ice gave away. The horse was drowned, but the fishermen were able to save themselves.

INSPECT HIGHWAY SOUTH OF EVELETH.

Eveleth, Minn., April 23.—(Special to The Herald.)—Alex Fraser, W. A. Swanstrom, Charles Kauppi and John Tischer inspected roads south of Eveleth yesterday, leaving in the afternoon for Biwabik.

The trip here was the result of an agitation for a new highway south from this city to tap a farming country near the St. Louis river. A proposed easterly extension of the town line road south of the city and a new road in the Moose Lake territory were also inspected.

George A. Herham, secretary of the Commercial club, accompanied the commissioners.

Former Eveletthian Weds.

Eveleth, Minn., April 23.—(Special to The Herald.)—Announcements have been received here of the marriage at Oshkosh, Wis., of Len Dawson, formerly of this city, and Miss Edna Elizabeth Duggan of Oshkosh. Mr. and Mrs. Dawson will reside at Hibbing.

Small Biwabik Fire.

Biwabik, Minn., April 23.—(Special to The Herald.)—Fire yesterday afternoon in the home of W. J. Lunderen in the Iron Range location did small damage, being extinguished before much property had been destroyed.

Would Adopt Child.

Virginia, Minn., April 23.—(Special to The Herald.)—Mr. and Mrs. Peter Dahl of Virginia have applied to the district court to adopt Carroll Payne, aged 1 year, who was given into their care by the Children's Home society of St. Anthony park last December. They wish to change his name to Ralph Olaf Dahl.

Prescribed by doctors for the past 19 years.

Resinol will stop that itch

THE moment that Resinol Ointment touches itching skin, the itching stops and healing begins. That is why doctors have prescribed it successfully for nineteen years in even the severest cases of eczema, tetter, ringworm, rashes and other tormenting, unsightly skin eruptions. Aided by warm baths with Resinol Soap, Resinol Ointment restores the skin or scalp to perfect health and comfort, quickly, easily and at little cost.

Resinol is also an excellent household remedy wherever a soothing, healing application is needed. It contains nothing of a harsh or injurious nature and can be used on the tenderest or most irritated surface. Practically every druggist sells Resinol Ointment (60c and $1), and Resinol Soap (25c). For trial free, write to Dept. 4-S, Resinol, Baltimore, Md. Avoid "substitutes" for genuine Resinol.

JURY ACQUITS CHISHOLM MAN

Harry Helmuth Held Not Guilty of Forgery Charge.

Virginia, Minn., April 23.—(Special to The Herald.)—The district court jury that heard the evidence in the case against Harry Helmuth of Chisholm, indicted on a charge of forgery returned a verdict early last evening of not guilty. The trial of Joe Skovich for assault upon Frank Babich with a knife is on today. The accused is alleged to have "cut Babich during a dispute in Virginia as to which one a dog preferred. The complaining witnesses exhibited his scared back to the jury today in support of his claim of the assault.

The case of Otto Berglund vs. E. J. Johnson, from Hibbing, to recover $600 alleged to have been lost in a game bling game, was dismissed yesterday.

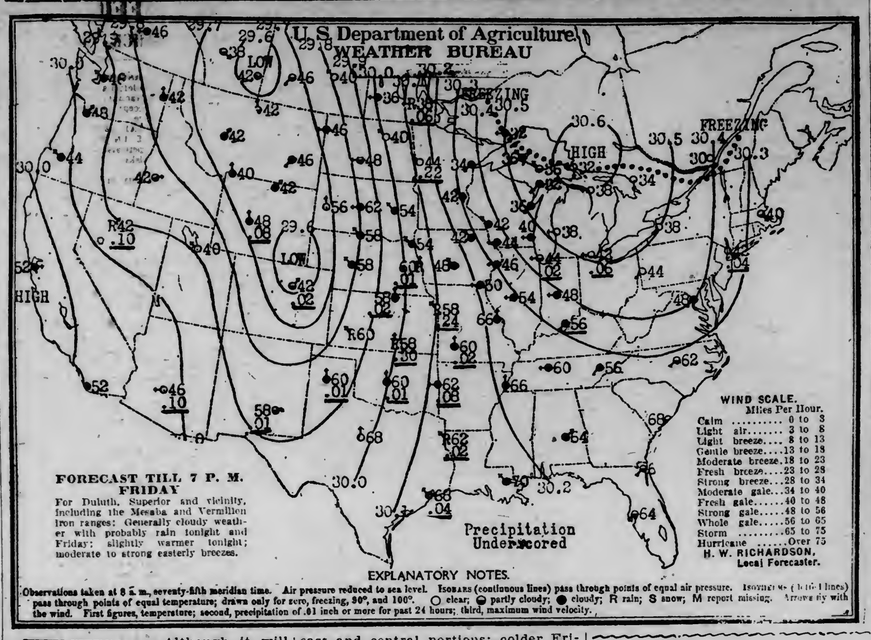
Sam Delich and Tom Delich were found not guilty Tuesday afternoon. They were indicted on the charge of engaging in a free-for-all fight near Spina in which several men were alleged to have been injured.

Biwabik Pioneer Dies.

Biwabik, Minn., April 23.—(Special to The Herald.)—Charles Christian, Sr., aged 63, one of the oldest residents in point of residence here, who has been acting as a sort of nurse and caretaker for sick people, died yesterday afternoon of consumption. He is survived by a sister, Mrs. George Wright, and a nephew, Charles Christian, Jr. Funeral services will be held here Friday morning at 9 o'clock at St. John's Catholic church, and interment will be at the Lakeview cemetery.

Virginia Track Meet.

Virginia, Minn., April 23.—(Special to The Herald.)—A field and track met in which Virginia high school class teams will participate will be held in about two weeks. The winners of these contests will be chosen to compete for places on the regular high school team, which will hold contests with other high schools of the range this year.



Range Lumber Company Elects.

Hibbing, Minn., April 23.—(Special to The Herald.)—Officers of the Hibbing Lumber company under the new organization recently effected have been selected as follows: President, C. W. Radford; vice president and treasurer, W. T. Wright; secretary and manager, E. P. Radford. The former stockholders, who were all Hibbing and Virginia men, have sold out their interests in the concern to the new organization.

Unique School Board.

Republic, Mich., April 23.—(Special to The Herald.)—In the respect that it conducts its business in a foreign language, the school board of Humboldt township, Marquette county, is believed to be the most unique body of its kind in the state. Of its five members, four are Finns. The fifth man speaks English. He is unable to take part in the proceedings, not understanding Finnish, and if he wishes to know what the minutes contain he must consult an interpreter.

OFFICIAL MAP OF THE WEATHER

RAIN

Although it will be slightly warmer tonight than it has been, the cloudy weather of today will continue tonight and tomorrow with rain probably during that time. The fair weather promised yesterday for today did not materialize, having got switched off somewhere.

There was fog and rain a year ago today. The sun rose this morning at 5:05 and will set this evening at 7:07, giving fourteen hours and two minutes of sunshine, three minutes more than yesterday. The day's length is now one hour and fifty-three minutes short of the longest day in the year.

Mr. Richardson makes the following comment on weather conditions:

"Light to moderate easterly winds are the rule in the lake region. During the last twenty-four hours light rain fell over the Red River valley and Southwestern states. The temperature has risen somewhat throughout the greater portion of the Northwest."

General Forecasts.

Chicago, April 23.—Forecasts for the twenty-four hours ending at 7 p. m. Friday:

Wisconsin—Mostly cloudy tonight and Friday; possibly showers; slowly rising temperature.

Minnesota—Unsettled weather tonight and Friday, probably showers, warmer tonight and in southeast portion Friday.

Iowa—Unsettled weather tonight and Friday, probably showers; warmer in east and central portions.

North Dakota—Unsettled weather tonight and Friday, probably showers; warmer in east portion tonight; colder Friday.

South Dakota—Unsettled weather tonight and Friday, probably showers in east and central portions; colder Friday.

Montana—Mostly cloudy tonight and Friday, probably showers in extreme west portion.

Lower Michigan—Unsettled and warmer tonight and Friday, probably showers.

Upper Michigan—Unsettled tonight and Friday, probably showers; warmer tonight; warmer Friday in east portion.

SITUATION IN SOUTHERN COLORADO CRITICAL

(Continued from page 1.)

district. Men are said to be in an ugly mood.

"Adjt.-Gen. Chase called me by long distance telephone this morning," declared John Lawson, international board member of the United Mine Workers of America, "and told me he was coming here in the interest of peace. I told him there could be no peace where there was no justice."

Twenty-five armed men left Walsenburg early today in the direction of Aguilar and Ludlow. Armed men from Northern New Mexico still are coming into the district and a large force from Fremont county is said to be marching across Huerfano county. Large numbers from Trinidad are reported to have joined the Ludlow strikers who have been entrenched in the Black hills northeast of Ludlow since Monday night.

Urgent Call for Help.

Trinidad, Colo., April 23.—"If you have any help you can send, rush it to Rouse immediately. Strikers have big bunch and are coming this way."

This message was received at the Trinidad offices of the Colorado Fuel & Iron company early today from Supt. W. G. Deck. An earlier message said: "Primrose superintendent, and last of his men arrived, stating strikers had just reached Primrose and they got ahead of them."

Another large body of armed men still is besieging the wrecked mining camp of the Southwestern Fuel company at Empire, according to a telephone report from H. D. King early today just before the wires went down. The King family have been prisoners in their home since yesterday noon.

The fate of J. W. Siple, president of the company, who with twenty or thirty others, including several women and children, were reported entombed in the mine stope, was unknown. A report from Aguilar to Maj. P. J. Hamrock stated that the entombed are dead, the informant declaring the air had been cut off since yesterday.

Desultory firing occurred this forenoon at Ludlow. The main body of armed strikers was believed to be in the vicinity of Primrose. A small number of guards was prepared to resist any attack at Rouse. A large body of armed men was reported marching from Trinidad against the militia at Ludlow.

"Civil War at Home."

Kansas City, Mo., April 23.—"We don't need to go to Mexico to find war. We have a war in Colorado that transcends in barbarity any contest south of the Rio Grande."

This statement regarding the trouble between Colorado miners and the militia was made here today by John P. White, president of the United Mine Workers of America.

"We have civil war at home," Mr. White continued. "It involves infinitely greater and more clearly defined principles than the Mexican trouble. The fight being made by the miners for the recognition of their union will go on. Those miners are backed by our organization of nearly 500,000 members."

President White said the United Mine Workers' union was supplying the strikers with funds, food and clothing, but said the union never had sent nor considered sending them a gun or cartridge. He said he did not know from what source they obtained guns and ammunition.

Six Employes Dead.

Trinidad, Colo., April 23.—Six mine employes dead and two missing; three men, two women and a baby reported to be entombed in a burning mine; several mining camps destroyed and others riddled with bullets; less than 200 militiamen and company guards confronting an army of striking coal miners estimated by strike leaders at more than 400—this was the situation when the sun set upon the third red day in the Southern Colorado labor war.

The dead on the side of the coal operators as the result of the day's fighting as near as could be estimated were as follows:

WILLIAM WADDELL, superintendent of the Empire mine of the Southwestern Fuel company (possibly died in mine).

JOHN CHURCH, engineer of the Empire mine.

UNIDENTIFIED MINER, killed at Empire.

DAVID DONOVAN, carpenter at the Delagua mine of the Victor-American Fuel company.

FRED DOUGHERTY, guard at Delagua; found dead in the hills.

CARL JOHNSON, employed at Delagua.

Two Guards Missing.

Felix Gonzales and Joseph Chavez, guards at Delagua, still are missing and are supposed to be dead somewhere in the rugged hills above Hastings canyon.

Strike leaders assert that one of their fighting men were killed during the day's battle and that only two were reported wounded.

According to the reports received by the military authorities the fighting at Aguilar, which followed that at Delagua, was participated in by the same body of strikers.

The firing at Delagua began soon after daybreak with a clash between fifteen guards and a large body of miners. This clash occurred in the hills a mile or more from the camp, where the guards are declared to have gone to meet the approaching strikers. There was hot fighting at close range for a few minutes, then the guards retreated toward the camp, pursuing strikers at their heels. The strikers reached the crest of the canyon directly above the camp, then rushed for the mine buildings.

Mine company reports declared that in this rush dynamite was exploded by the attacking party.

Face Death by Suffocation.

About thirty men, women and children, besieged in the Empire mine near Aguilar, with the mouth of stope caved in by dynamite explosions, face death by suffocation, according to H. D. King, one of the owners of the mine. King, himself, practically a prisoner in his house, not far from the mine, gave his story by long distance telephone. Not a house or a stick of overhead workings was left standing in the camps, according to King. The mine tipple had been burned, but the interior of the mine had not been fired. If the fan has been put out of commission, as reported, Mr. King believed that the danger of suffocation was imminent. All firing had ceased before 11 o'clock.

In command of the besieged party was J. W. Siple of Denver, manager of the mines of the Southwestern Fuel company. Mrs. William Waddell and her baby were in the mine, one report stating that Mrs. Waddell had been wounded. Mr. Waddell, superintendent of the Empire mine, was generally believed to have been killed.

"Last evening I asked the strikers to permit me to go to the stope and rescue the besieged persons," said Mr. King. "They replied that anyone who went near the mine would be shot. The Royal line tipple and shaft have been destroyed and some of the strikers told me that they had 'cleaned up the whole canyon.'"

The final outbreak of the day was reported from Rouse in Huerfano county where it was stated an attack had been made upon Rugby and Primrose mines at Rugby station. A message was received at the local offices of the Colorado Fuel & Iron company, stating that a bomb was exploded at the Rugby mine last night. The story was told by a party of six miners and four women that arrived on foot from the Black Diamond mine, a short distance across the hill. Heavy firing was reported at that time.

Special Session Approved.

Denver, Colo., April 23.—A telegram received today from Governor Ammons approved the action of Lieutenant Governor Fitzgerald in deciding to call a special session of the state legislature to finance the military expenses. It was asked that the proclamation be not issued until Governor Ammons' arrival here tomorrow night.

Cream Cake

Inquiries among a large number of women using "The Cook's Book" showed this to be their favorite cake recipe. It is easy to make, certain to turn out well if K C Baking Powder is used, and may be put together with almost any filling or icing.

K C Cream Cake

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

One-half cup butter; 1 cup sugar; yolks of 2 eggs, beaten light; 1½ cups sifted flour; 2 level teaspoonfuls K C Baking Powder; ½ cup cold water; whites of 2 eggs, beaten dry.

Cream the butter; add the sugar, yolks of eggs and water; then the flour, sifted three times with the baking powder; lastly the whites of eggs. Bake in two or three layers; put these together with cream filling, and dredge the top with confectioner's sugar.

Cream Filling

One-fourth cup sifted flour; ¼ teaspoonful salt; 1 cup hot milk; 1 egg, beaten light; ½ cup sugar; 1 teaspoonful vanilla extract; 1 ounce chocolate.

Mix flour and salt with a very little cold milk; stir into the hot milk and cook ten minutes; add the chocolate and stir until it is melted and evenly blended with the flour mixture, then beat in the egg mixed with the sugar, and lastly the vanilla.

You need the K C Cook's Book, containing this and 89 other delicious recipes—sent *free* upon receipt of the colored certificate packed in every 25-cent can of K C Baking Powder. Send to the Jaques Mfg. Co., Chicago. 43

MRS. THOMSON TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 649 W. Russell St., Philadelphia, Pa.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WHAT TO DO FOR NEURALGIA

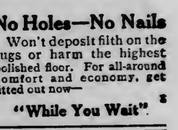
The one great symptom of neuralgia is pain; the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

These are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot flannel, hot water bags, etc., lulls the inflamed nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams Medicine Co., Schenectady, N. Y., will send you a little book on "Home Treatment of Nervous Disorders" for the asking.



Fits Either Heel

Changed by wearer periodically, it keeps level till *all* worn out. Prevents "running over"—slipping and strain on ankles. Can't work loose.

Heimbach's Double-Wear Rubber Heel

Is stretched over a key-plate in changing. Hence must be of finest soft cushion-like rubber. Inferior rubber will not stretch. Outwears two pairs of common rubber heels.

No Holes—No Nails

Won't deposit filth on the rugs or harm the highest polished floor. For all-around comfort and economy, get fitted out now

50c a pair

"While You Wait"

MERCHANT IS SHOT IN THEATER LOBBY

Wife Leaning on His Arm at Time of the Tragedy.

Gillespie, Ill., April 23.—Pape Williams, a local merchant, was shot and killed in the lobby of a theater here last night by Frank Coudrey, an undertaker. Williams' wife was leaning on the arm of her husband at the time of the tragedy.

The shooting was over so quickly that the crowd leaving the theater did not seem to realize what had happened and none knew who fired the shot. An hour later James B. Coudrey, father of Frank Coudrey, told the police that his son had come home greatly excited and had said that he killed Williams. The slayer then disappeared, and a posse thus far has been unable to find him.

THUNDER STORM IN NORTH DAKOTA

Seeding Operations Will Be Delayed a Few Days

Fargo, N. D., April 23.—(Special to The Herald.)—There was a heavy rainfall early this morning accompanied by a regular thunder storm and electric display. There was lighter precipitation during the forenoon. The rain will temporarily delay seeding in this part of the valley, but moisture creates perfect condition for wheat that has been seeded.

Joyful Anticipation of Motherhood

There is apt to be a latent apprehension of distress to mar the complete joy of expectation. But this is quite overcome by the advice of so many women to use "Mother's Friend." This is an external application designed to so lubricate the muscles and to thus so relieve the pressure reacting on the nerves, that the natural strain upon the cords and ligaments is not accompanied by those severe pains said to cause nausea, morning sickness and many local distresses.

Many people believe that those remedies which have stood the test of time, that have been put to every trial under the varying conditions of age, weight, general health, etc., may be safely relied upon. And judging by the fact that "Mother's Friend" has been in continual use since our grandmother's earlier years and is known throughout the United States it may be easily inferred that it is something that women gladly recommend.

"Mother's Friend" is prepared only in our own laboratory and is sold by druggists everywhere. Ask for a bottle to-day and write for a special book for expectant mothers. Address Bradfield Regulator Co., 307 Lamar Bldg., Atlanta, Ga.

Commissioner Voss moved the adoption of the resolution and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

Commissioner Murchison submitted a resolution awarding the contract for lamps, action on which was postponed for one week, under the provisions of the charter.

Commissioner Murchison submitted a resolution awarding contract for the construction of a concrete culvert across Oneota street at Forty-third avenue west, action on which was postponed for one week, under the provisions of the charter.

By Commissioner Murchison:
Resolved, That public convenience and safety requires the construction of sidewalks as follows:
A three-foot plank walk on the south side of Tioga street from Forty-seventh avenue east to Fiftieth avenue east.
A two-foot plank walk on the north side of Third alley from Fifth avenue west to Mesaba avenue.
Resolved further, That it is hereby directed that said work be done by day labor or by contract, as the commissioner of public works may elect, the cost thereof to be paid out of the permanent improvement revolving fund, and it is further ordered that assessments be levied upon the property benefited by the construction of said walk, according to benefits received, to defray the cost thereof, with such other expenses as under the provisions of the charter may be assessed.
Commissioner Murchison moved the adoption of the resolution and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

By Commissioner Murchison:
Resolved, That house-numbering plats as prepared by the city engineer be and hereby are approved as follows:
1, Oatka Beach addition; 2, Boulevard Place addition; 3, Colman's First addition, Colman's Second addition, Colman's Third addition and Colman's Second acre tracts; 4, Norton's Steel Plant addition, Brookline addition; 5, Lemagie Park addition, Glen Avon Seventh and Eighth divisions; 6, Kenilworth Park addition; 7, New Duluth and Riverside Park; 8, Harrison's Brookdale division; 9, Gary, First division, and Gary, Central addition; 10, Lester Park divisions.
Commissioner Murchison moved the adoption of the resolution, and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

By Commissioner Murchison:
Resolved, That the control of that triangular piece of ground within the intersections of Seventh street, Clover street and Irving place be and hereby is transferred to the division of public affairs.
Commissioner Murchison moved the adoption of the resolution, and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

By Commissioner Murchison:
Resolved, That there is hereby granted to J. A. Watterworth, owner of lot 1, block 13, Gordon & Whiting's division, a refund on sidewalk assessment in the sum of $8.93, and it is hereby directed that an order be drawn on the general fund in payment of the same.
Commissioner Murchison moved the adoption of the resolution, and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

By Commissioner Murchison:
Resolved, That this council deems it expedient that the matter of the petition of M. M. McCabe et al., asking for the vacation of all that portion of Ruthvin court, Hunter's Park, First division, be proceeded with, and it is hereby directed that said petition be filed of record with the city clerk, who shall give notice in accordance with the provisions of Ordinance No. 337 of the time and place when this council will consider the matter of said petition and hear the testimony and evidence on the part of parties interested.
Commissioner Murchison moved the adoption of the resolution, and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

By Commissioner Murchison:
Resolved, That the city council of the city of Duluth does hereby designate the easement to be acquired for the construction of slopes or retaining walls for cuts and fills upon both sides of Vernon street from the west line of Bryant's addition to Grand Forks avenue as covering the property bounded by the boundary lines of said easement which boundary lines are hereby designated and described as follows:

NORTH SIDE OF VERNON STREET.

Beginning at the interseetion of the north line of Vernon street with the west line of Bryant's addition; thence north along the west line of Bryant's addition a distance of eight feet, more or less; thence east on a line parallel with and eight feet distant more or less from the north line of Vernon street to the west line of Atlantic avenue; thence south along the west line of Atlantic avenue a distance of three feet more or less; thence east on a line parallel with and five feet more or less distant from the north line of Vernon street to the west line of lot 7, block 16, West Park division; thence north along said west line of lot 7 a distance of eleven feet more or less; thence east on a line parallel with and sixteen feet more or less distant from the north line of Vernon street to the west line of Michigan avenue; thence south along the west line of Michigan avenue to the north line of Vernon street; thence west along the north line of Vernon street to the place of beginning.

Beginning at the intersection of the north line of Vernon street with the west line of Grand Forks avenue; thence north along the west line of Grand Forks avenue a distance of seven feet more or less; thence west on a line parallel with and seven feet distant from the north line of Vernon street to the southerly line of Third street; thence along the southerly line of Third street to the north line of Vernon street; thence east along the north line of Vernon street to the place of beginning.

SOUTH SIDE OF VERNON STREET.

Beginning at the intersection of the south line of Vernon street with the west line of Bryant's addition; thence south along the west line of Bryant's addition a distance of nine feet more or less; thence east on a line parallel with and nine feet distant more or less from the south line of Vernon street to the northerly line of Third street; thence along the northerly line of Third street to the south line of Vernon street; thence west along the south line of Vernon street to the place of beginning.

Beginning at the intersection of the south line of Vernon street with the east line of Michigan avenue; thence south along the east line of Michigan avenue a distance of sixteen feet more or less; thence east on a line parallel with and sixteen feet distant more or less from the south line of Vernon street to the east line of Winnipeg avenue; thence north along the east line of Winnipeg avenue a distance of eleven feet; thence east on a line parallel with and five feet more or less from the south line of Vernon street to the west line of Grand Forks avenue; thence north along the west line of Grand Forks avenue to the south line of Vernon street; thence west along the south line of Vernon street to the place of beginning.

The property in which such easement is to be acquired is as follows, to-wit: All that part of lots 7 to 12 inclusive, in block 3, Bryant's addition, lying within eight feet more or less of Vernon street; all that part of lots 8 to 14 inclusive, in block 4, Bryant's addition, lying within five feet more or less of Vernon street; all that part of lots 5 to 12 inclusive, in block 3, West Park division, lying within five feet more or less of Vernon street; all that part of lots 1 to 6 inclusive, in block 16, West Park division, lying within five feet more or less of Vernon street; all that part of lots 7 to 12 inclusive, in block 16, West Park division, lying within sixteen feet more or less of Vernon street; all that part of lots 3 to 12 inclusive, in block 21, West Park division, lying within seven feet more or less of Vernon street; all that part of lots 1 to 12 inclusive, in block 34, West Park division, lying within seven feet more or less of Vernon street; all that part of lots 1 to 6 inclusive, in block 6, Bryant's addition, lying within nine feet more or less of Vernon street; all that part of lots 1 to 7 inclusive, in block 5, Bryant's addition, lying within nine feet more or less of Vernon street; all that part of lots 5 to 12 inclusive, in block 4, West Park division, lying within nine feet more or less of Vernon street; all that part of lots 1 to 10 inclusive, block 15, West Park division, lying within nine feet more or less of Vernon street; all that part of lots 1 to 12 inclusive, in block 22, West Park division, lying within sixteen feet more or less of Vernon street; all that part of lots 1 to 12 inclusive, block 33, West Park division, lying within five feet more or less of Vernon street.

Resolved further, That John P. Mason, W. L. Jackson, J. D. Bergstrom, N. J. Miller and Olof G. Olson, all of whom are resident freeholders and qualified voters of the city of Duluth and none of whom are residents of the ward in which the property to be acquired is situated, are hereby appointed to view the premises and appraise the damages which may be occasioned by the taking of private property or otherwise in the making of such improvement.

Resolved further, That the compensation of such appraisers be and hereby is fixed at $75.00, to be paid from the permanent improvement fund.

Commissioner Murchison moved the adoption of the resolution and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed April 20, 1914.
Approved April 22, 1914.

By Commissioner Hicken:
Resolved, That contract for furnishing 1500 bushels of oats to the fire department be and hereby is awarded to Randall, Gee & Mitchell Co.
Commissioner Hicken moved the adoption of the resolution and it was declared adopted upon the following vote:
Yeas—Commissioners Hicken, Merritt, Murchison, Voss, Mayor Prince—5.
Nays—None.
Passed—April 20, 1914.
Approved—April 22, 1914.

By Commissioner Hicken:
Resolved, That applications for licenses are hereby granted and bonds accompanying same are hereby approved as follows:

PLUMBERS.

State of Minnesota, Department of Insurance.
I Hereby Certify, That the annual statement of the Millers' Mutual Fire Insurance association for the year ending December 31, 1913, of which the above is an abstract, has been received and filed in this department and duly approved by me.
J. A. O. PREUS,
Commissioner of Insurance.

MARKET HAS A REACTION

Wheat Declines on Liberal Rains in Southwest---Strong at Close.

Flaxseed Breaks Sharply With Heavy Selling of Speculative Holdings.

Duluth Board of Trade, April 23.—The market turned strong at the close. May wheat closed off ⅜c; July ¼c off and September ⅜c off at 89½c asked. May durum closed ½c off and July ⅝c off.

Oats closed ¼c off at 36⅝c on the track and 36⅛c for to arrive. Rye closed unchanged at 54½@56½c, and barley unchanged at from 43c to 57c.

At Winnipeg, May oats closed at 35⅝c bid and July at 36¼c.

Puts on Minneapolis July wheat closed at 91¾c asked, and calls at 93c bid.

Advices of general rains in Nebraska and Kansas, and realizing on yesterday's sharp advance, led to a reaction in the wheat market today. A flood of orders were in hand for execution at the opening and the market went off ½c during the first few minutes. Quotations then rested and remained on the lower basis up to the closing hour.

May wheat opened unchanged at 92⅝c and declined ½c. The July option opened ¼c off at 93½c and weakened ⅛c more. Business was light in durum, with only scattering buying from any quarter. May durum opened unchanged at 87⅞c and declined ⅝c. The July option opened ¼c down at 89¼c and weakened ⅜c more.

A disappointing factor to holders was that Liverpool failed to respond to the advance of the American markets, their close coming lower. Trade over there was dull with poor consumptive demand reported as a result of the bulge on this side having checked business.

A firming up in corn prevented the decline in wheat going any further than it did. It was brought about through good buying on the break and reports that heavy rains in Argentina might prevent any further shipments this month.

Primary receipts were light and they are not expected to increase till after the farmers' complete their seeding operations. They were substantially below last year's figure today, with inspections on this market coming to only 8 cars against 63 last year. There were just 20 cars of all grains on the tracks for the day. At Minneapolis receipts were 157 cars or one less than last year. Arrivals at Winnipeg are much larger just now than had been expected by the trade. They came to 269 cars today against 133 a year ago.

Liquidation in Flax.

Liquidation of speculative holdings of flaxseed developed at the opening of the market, resulting in quotations going off sharply at the outset.

Buying by crushers' interests then made itself felt and from then on the price movement was only fractional. The close was weak with final prices showing declines of 2½c.

The foreign markets were again weak, London closing 1¾c off; Buenos Aires ⅜c off and Antwerp unchanged.

May flax opened unchanged at $1.55 and closed 2½c off at $1.52½. July opened unchanged at $1.57 and closed 2½c off at $1.54½. The September option opened ½c off at $1.58 and closed 2½c off at $1.56 asked.

At Winnipeg, May flax closed at $1.33¾ bid and July at $1.36⅞.

Cash Sales Thursday.

No. 1 northern wheat, 1⅓ cars	$ .92
No. 1 northern wheat, 3,000 bu, to arrive	.92⅛
No. 1 northern wheat, 1,100 bu, to arrive May	.93⅛

Minneapolis	5	17
Winnipeg	27	24

* * *

Foreign closing cables: Liverpool—Wheat, ⅛@¼d lower; corn, unchanged. Berlin—Wheat, ⅝c higher. Budapest—Wheat, ⅝c higher. Antwerp—Wheat, 1¼c higher.

* * *

Duluth grain stocks, giving changes in four days:

Wheat—Western and winter, 458,000 bu., decrease, 187,000 bu.; spring, 8,876,000 bu., decrease, 1,304,000 bu.; durum, 2,223,000 bu., decrease, 66,000 bu.; bonded, 1,495,000 bu., increase, 3,000 bu.; total wheat, 13,016,000 bu., net decrease, 1,544,000 bu.

Coarse grains—Corn, 388,000 bu; oats, 3,685,000 bu., decrease, 292,000 bu.; rye, 318,000 bu.; barley, 633,000 bu., decrease, 18,000 bu.; flax, domestic, 1,622,000 bu., bonded, 471,000 bu.; total flax, 2,093,000 bu., decrease, net, 58,000 bu. Total all grains, 20,133,000 bu., net decrease, 1,796,000 bu.

* * *

Clearances reported: Wheat, 60,000 bu.; flour, 9,000 bbls., together they equal 101,000 bu.; corn, none; oats, 3,000 bu.

* * *

Primary markets report the following receipts and shipments today:

Wheat—Receipts, 368,000 bu., last year, 470,000 bu.; shipments, 413,000 bu., last year, 753,000 bu.

Corn—Receipts, 287,000 bu., last year, 290,000 bu.; shipments, 781,000 bu., last year, 367,000 bu.

Oats—Receipts, 447,000 bu.; last year, 437,000 bu.; shipments, 924,000 bu.; last year, 554,000 bu.

* * *

Duluth car inspection: Wheat—No. 2 northern, 2; durum, 3; winter, 1; mixed, 2; total wheat, 8; last year, 63; flax, 3; last year, 13; total of all grains, 11, last year, 91; on track, 20.

* * *

Duluth millers report fair Eastern inquiry for flour just now and the Duluth-Superior Milling company will send forward a large tonnage on the first package boats to go down the lakes. Sales of some patent flour for export was also advised by the company.

* * *

The Minneapolis cash market was steady with the demand fair. No. 1 northern blue stem sold at from 2c to 2⅝c over May and velvet chaff at 2@2¼c over. Yesterday's advance caught a goodly number of open orders to sell to arrive. Flour reports were still poor. There were a few scattered sales made at old prices, but buyers would not meet the advance. Cash No. 1 northern wheat sold at from 92½c to 94¼c and No. 2 northern at from 90½c to 93c.

* * *

A wire from Chicago said: "So far this week, Chicago has received 176,000 bu and shipped 1,600,000 bu corn, and yet they claim there was no demand. No boats were loaded from private elevators yesterday, but 185 cars were withdrawn, while 106,000 bu was taken from public elevators. It looks certain that Chicago stocks will show a decrease of more than 2,000,000 bu for the week."

* * *

Baker received the following from Lewis at Minneapolis: "There seems as much anxiety on the part of longs to sell out as there was on the part of shorts to cover yesterday morning. Cables have shown absolutely no response to our advance and some moisture has fallen where needed in the Southwest. The Mexican situation has become more complicated. The one thing that was most to be feared seems now highly probable, namely, the uniting of the Federal and Constitutionalists against the so-called American invader. The mere blockading of the Mexican ports as a chastisement for Huerta, is an entirely different thing as compared with the same act against the Mexican people united a sa body. They comprise 15,000,000 people, and any attempt by the United States to pacify that country and create order, would take many years and have far more disastrous results than contemplated."

* * *

Broomhall cabled from Liverpool: "Wheat — Strength in America and prospects of light shipments from Argentine with an improved demand for Australians caused moderate covering by shorts and opening values were ⅛d to ¼d higher. Following the opening, there was an additional gain of ¼d in July with speculative support. Later the market eased with profit-taking and prices declined ⅛d to ¼d on the larger Indian offers and private cables received here relative to the American crop prospects. European crop advices were generally favorable. At 1:30 p. m., the undertone was steady, unchanged to ⅛d higher.

"Corn—Was influenced by the American cables and bullish advices from Argentine and opening values were ¼d to ⅜d higher. The small spot demand, freer LaPlata offers for distant shipment and private cables received here forecasting clearing weather in Argentine, stimulated profit-taking and prices lost ¼d of the early advance. At 1:30 p. m., the market was ⅛d to ¼d higher."

* * *

Crop reports indicate that the winter wheat plant is making encouraging headway in spite of the small average precipitation of rain in some of the Southwestern states this spring. This is as a result of the good subsoil moisture. Four of the winter wheat states, Missouri, Nebraska, Arkansas and Oklahoma, have 16,704,000 acres under the crop this season with very little abandonment thus far in prospect. This is 1,883,000 acres larger than in 1913.

Corn planting operations are now well underway in the states west of the Mississippi and south of the Missouri rivers. In spite of the backward spring, fair progress is being made in spring wheat seeding throughout the Northwest.

* * *

Apart from yesterday's bulge of 1⅞c the price movement in wheat on the Duluth market has been narrow this spring. Quotations on the May and July options were up 2½@2⅝c respectively at the close yesterday as compared with March 31. The price is now 2¾c above last year's range at this time. The market in durum has been quiet during the last three weeks and the options have gone off ½@⅝c since the first of the month.

* * *

Louis Odegaard of Portland, Ore., was a visitor on the board of trade today. He averred that 75 per cent of the seeding in the far West has been completed.

Shipments of bonded grain—Wheat, 109,000 bu, last year none.

MINNEAPOLIS MARKET.

Wheat Easier on Foreign Cables and Rain Reports.

Minneapolis, April 23.—Wheat was easier here today, mostly on foreign cables and reports of rain in the Southwest. The Mexican situation, which yesterday affected the market, apparently had little or no influence today.

Wheat—May opened 90½c; high, 90⅝c; low, 90c; closed, 90⅝c. July opened 91¾c; high, 92¼c; low, 91⅝c; closed, 92¼c. Cash—No. 1 hard, 95¼c; No. 1 northern, 92¾@94½c; to arrive, 92¾@93¾c; choice to arrive, 94½c; No. 2 northern, 90¾@92¼c; to arrive, 91¼@92¼c; No. 3 wheat, 87¾@89¾c. Flax, $1.50½@1.52½.

The flour market was strong today and prices again advanced 5c a barrel. Fancy patents, $4.65 in wood; first clears, $3.55 in jute; second clears, $2.80 in jute. Shipments, 56,602 bbls. Barley, 43@58c; rye, 55½@57c. Bran unchanged.

THE CHICAGO MARKET.

General Selling of Wheat on Rain in the Southwest.

Chicago, April 23.—Rain in the Southwest today brought about general selling of wheat. Opening prices were ½c to 1⅛c lower. Later, however, a slight rally occurred.

Lack of export inquiry kept the market depressed. The close was unsettled, ¼c to ⅝c net lower.

Clearing weather in Argentina eased the corn market. Quotations started ¼c off to ⅛c up. In subsequent trading the May delivery gathered strength but deferred options were weak.

A feature was the action of a group of houses that simultaneously were buying May and selling July. The close was steady, a shade off to ⅝c up compared with last night.

Oats sagged with other grain. Business was only of a scattered character.

Higher values for hogs lifted provisions. The effect, though, was brief, the market succumbing to the break in cereals.

Wheat—No. 2 red, 95@95⅛c; No. 3 red, 94@94½c; No. 2 hard, 93¼@93½c; No. 3 hard, 92@93c; No. 1 northern, 95@96c; No. 3 northern, 93@95c; No. 2 spring, 94½@95½c; No. 3 spring, 93½@94½c.

Corn—No. 2, 67⅜c; No. 3, 65¾@66c; No. 3 yellow, 66½@66⅜c; No. 3 white, 67c.

Oats—No. 3 white, 38¼@38¾c; standard, 39¼@39½c.

Range of prices:

	Open.	High.	Low.	Close.
Wheat—				
May	.92½-92	.93	.92	.92⅞a
July	.87½-⅛	.87⅜	.87⅛	.87⅛a
Corn—				
May	.64⅛-¾	.65⅛-¼	.64⅝	.65-⅛
July	.64⅞-⅝	.65	.64⅝	.64⅞-⅞

REMARKS—Light rains fell over Eastern North Dakota, Manitoba, Minnesota, Eastern Nebraska, Kansas, Missouri, Oklahoma and the northern portions of Illinois, Indiana and Iowa.

H. W. RICHARDSON,
Local Forecaster.

*—Inches and hundredths.
‡—Highest yesterday, lowest last night.
§—Not included in the averages.
NOTE—The average highest and lowest temperatures are made up at each center from the actual number of reports received and the average precipitations from the number of stations reporting 0.10 or more.

STOCKS DECLINE ON LONDON EXCHANGE.

London, April 23.—Dispatches from Washington suggesting the possibility that Carranza might make common cause with Huerta against the United States, had a depressing effect on the London exchange today. Mexican railway shares fell from 2 to 4 points and British consols dropped 3-16. American securities were heavy.

The less favorable bulletin issued in Vienna in regard to the health of the Emperor Francis Joseph also affected the market, bringing some continental selling. On the bourse in Vienna prices fell rapidly after the publication of today's bulletin on the emperor's health.

All dividends on Mexican Railway company loans were passed today. The first preferred immediately declined 4 points to 95, making an agrregate loss of 8 points today. Ordinary stock was 3½ lower and second preferred 4½ lower than yesterday.

South St. Paul Livestock.

South St. Paul, Minn., April 23.—Cattle—Receipts, 2,050; killers weak; steers, $5.75@8.40; cows-heifers, $4.75@7.25; calves steady, $5.25@8; stockers and feeders weak, $4.75@7.40.

Hogs—Receipts, 3,220; steady; range, $8.10@8.25; bulk, $8.15.

Sheep—Receipts, 950; steady to weak; lambs, $5.75@7.75; wethers, $5@6.25; ewes, $4@5.75.

WEAKNESS IN STOCKS

Net Changes of Session Show General Fractional Losses.

Early Decline Recovered But Prices Drop Near the Close.

New York, April 23.—Irregular tendencies persisted throughout the forenoon, but the range in prices was narrow, aside from a few shares. Following the early decline the market gradually made up its loss, although the recovery was hampered by European selling of Canadian Pacific, Erie and Kansas & Texas. Bonds were irregular. New York State 4½'s declined to 108½, a fall of a point within a week. Panama 3's registered sold at 102¼ against 101¾, the previous transaction, and recents bids of 100¾.

The market weakened at the opening today on the more serious aspect of the Mexican situation. Selling was not heavy, but support was poor. The decline was influenced by a general drop of American stocks in London. While the movement almost uniformly was downward, in only a few cases did the loss reach as much as a point during the early trading.

Mexican Petroleum fell more than 3 points and American Smelting, which also has large interests in Mexico, yielded about 2 points. Canadian Pacific, which had conspicuously weakened for some time, dropped to 194¼. Some issues of government bonds were lower.

The speculative initiative was lacking in the early afternoon and prices ruled near yesterday's close. Bears were timid, owing to the support the market was receiving, but bulls were unwilling to take on stocks owing to the Mexican trouble.

The stock market today closed heavy. Prices weakened in the late session after a decline early, which was influenced by the Mexican situation, had been recovered. Net changes showed general fractional losses. American Smelting was raided in the final dealings and dropped over 5 points on the announcement that the company's plants in Mexico had shut down. The rest of the list weakened sympathetically with some increase in pressure on Canadian Pacific, which fell to 193½.

COPPERS WEAKEN STILL FURTHER

Increased weakness in mining stocks was in evidence at Boston today, with considerable liquidation of weak holdings. Except in a few issues declines were moderate, however.

Butte & Ballaklava reacted from its sharp break of yesterday, closing 63c up at $2.12. Alaska Gold closed 58c off at $25.75; Butte & Superior 25c off at $32.75; Calumet & Arizona 25c off at $63.50; and North Butte 50c off at $25.

Greene-Cananea suffered the severest loss, closing $1.50 off at $28.75. The selling in Granby had apparently spent itself, the stock closing just 25c off at $76.

In the Duluth curb list, Savanna sold at $1.50, Keating at $1.56 and Calumet & Corbin at 28c.

Paine, Webber & Co. had the following from Boston:

"President Nicholls of Granby says: 'Everything at Granby continues of the most gratifying nature and I know nothing to warrant any uneasiness on the part of the stockholders. It is the intention of directors so far as I know to declare a regular dividend of $1.50 at the meeting next month, barring, of course, the unforeseen.'"

* * *

The American Smelting and Refining company has ordered that all its Mexican mines and smelters be closed.

FLAG DISPARAGERS WILL BE ARRESTED.

New Orleans, La., April 23.—Superintendent of Police Reynolds has ordered the arrest of any person making "disparaging remarks about the army and navy and the American flag on the streets of this city."

The order was issued when the superintendent was advised that four soldiers in uniform had forcibly dispersed a quintette of street orators, who were haranguing a crowd and charging that the army and navy were subsidized.

REPUBLICANS OF INDIANA

Indianapolis, April 23.—Though denouncing the Mexican policy of the national administration, the platform adopted by the Republican state convention here today pledges the undivided support of the Republican party to the government in "whatever it may undertake for the vindication of the nation's honor, or the nation's rights in Mexico, or elsewhere."

The section of the platform dealing with the Mexican policy of the government alone says the difference of the Republican party, with the national administration are "differences of policy only, and not of patriotism." In another section the platform in speaking of the Democratic policy reads: "It declared for protection of the rights of every American citizen of the United States, residing in a foreign land and compelled foreign citizens of the United States, residing in Mexico to obtain it by fleeing across the border, to avoid the bloody consequences of 'watchful waiting.'"

Assails the Tariff.

The platform assails the Democratic revision of the tariff. It declares the Democratic tariff has opened the markets of the United States to foreign producers, who through cheaper labor, are able to compete with the domestic industries.

Of the Democratic national administration it says: "It promised a revision of the tariff which would not disturb business. It has given us a sectional tariff which has disturbed and depressed business to an extent unknown since the last Democratic tariff revision twenty years ago. It promised a tariff that would lower the cost of living, while maintaining wages and prices of farm products."

Civil Service Reform.

"It promised a strict adherence to civil service reform principles, and has stripped the diplomatic service of its trained experts and made it a means of paying personal and political obligations. It promised economy and retrenchment, and has increased the appropriations more than $100,000,000 annually. It promised the overthrow of the caucus rule, and has given such an exhibit of tyranny of the secret caucus as never before has been witnessed.

"It pledged freedom of debate in congress and the curtailing of the power of the speaker, and resorted to the cloture and gag rule. It declared for free tolls for American coastwise vessels through the Panama canal and at the behest of Great Britain it is attempting to repeal the law providing for this exemption."

For Protective Tariff.

The platform declared in favor of a protective tariff; protests against the a option of the proposed treaty with Colombia; declares for equal rights for all citizens; for a new state constitution; in favor of industrial and agricultural education; for legislation that will benefit the laboring classes and a workman's compensation law.

BORAH FORESEES NOTHING BUT WAR

Washington, April 23.—That the United States and Mexico are actually at war was the declaration of Senator Borah today, when the administration senate leaders sought to pass the bill granting President Wilson $500,000 to move Americans out of Mexico.

Senator Borah declared that the United States should immediately get out of Mexico, out of Honduras and Nicaragua. Senators Smoot and Borah criticized the way in which the administration has handled the Mexican situation.

"Before another forty-eight hours is passed, in my judgment we shall be at war with united Mexico," said Senator Borah. "No one doubts what the forces of Huerta will do and no one can doubt what the forces of Carranza will do.

"I think when this act is passed, it ought to be declared that the United States will withdraw from Mexico, will withdraw from Nicaragua, withdraw from Honduras."

BRITISH SUBJECTS WARNED TO LEAVE.

El Paso, Tex., April 23.—British subjects in Mexico were warned today to leave immediately. The warning came from the British ambassador, Sir Cecil Spring-Rice, at Washington, to H. C. Myles, British consul here, who at once wired to consuls in Mexico. About 700 Britishers are in Mexico.

LEGAL NOTICES.

CERTIFICATE OF INCORPORATION —OF— MERRIMAC MINING COMPANY.

KNOW ALL MEN BY THESE PRESENTS, That we, whose names are hereunto subscribed, have agreed to and do hereby associate ourselves together under the Constitution and Laws of the State of Minnesota, and more particularly under the provisions of Chapter 58 of the Revised Laws of the said state, for the year 1905, as a manufacturing and mechanical corporation under the name and for the purposes hereinafter set forth, and to that end do hereby adopt the following Articles of Incorporation:

ARTICLE I.

The name of this corporation shall be MERRIMAC MINING COMPANY, and the general nature of its business shall be the mining, smelting, reducing, refining and working of iron ores and minerals, and the manufacture of iron, steel, copper and other metals, said business to be carried on in the State of Minnesota and elsewhere.

The principal place of transacting the business of said corporation shall be at Duluth, in the County of St. Louis and State of Minnesota, with such other offices and places of business, either within or without the State of Minnesota, as may from time to time be determined by the management of said corporation.

ARTICLE II.

The time of the commencement of this corporation shall be the 27th day of April, 1914, and the period of its continuance shall be thirty (30) years.

ARTICLE III.

The names and places of residence of the persons forming this corporation for the purpose of incorporation are as follows: W. D. Bailey, A. M. Washburn and C. M. Van Norman, each and all residing at Duluth, St. Louis County, Minnesota.

ARTICLE IV.

The government of this corporation and conduct and management of its affairs is hereby vested in a board of three (3) directors, who shall all be stockholders, and, except as herein provided, shall be elected by the stockholders at their annual meeting, which shall be held on the first Tuesday in February of each year, and who shall, within ten (10) days thereafter, elect the following officers, namely: A President, Vice-President, Secretary and Treasurer. Any two of said offices may be held by the same person, with the exception of the offices of President and Vice-President.

The first annual meeting of the corporation shall be held on the first Tuesday in February, 1915, but until such time and until the directors thereat elected shall be qualified, the following persons shall be and constitute the board of directors of this corporation, namely: W. D. Bailey, A. M. Washburn and C. M. Van Norman, and until such meeting is held and until the directors thereat chosen shall have elected officers, and until such officers shall have qualified, the officers of this corporation shall be as follows:

W. D. Bailey, President.
A. M. Washburn, Vice-President.
C. M. Van Norman, Secretary.
W. D. Bailey, Treasurer.

The officers and directors of this corporation, except those herein designated as such to act in the first instance, shall hold office for one year, or until their successors are elected and qualified, and in case any vacancy occurs in any of the offices or membership of the board of directors of this corporation, either before or after the first annual meeting, the same shall be filled by the board of directors until the next annual meeting and until such vacancy shall be filled by election held in accordance with these Articles and such By-Laws as may be adopted providing for elections.

The Board of Directors of this corporation may adopt, and is hereby authorized to adopt, such By-Laws, rules and regulations for the corporation and the management of its business not inconsistent with these Articles or with the constitution and laws of the State of Minnesota, as it may deem needful for the government of officers and the conduct of the affairs of the corporation, and may create such other offices in addition to those herein provided for as may from time to time be deemed necessary, and may fill such offices as it may create, and may abolish and discontinue such offices at will. The Board of Directors shall also have power, when in its judgment cause exists, to remove any such officers of this corporation from their positions and declare the offices vacant.

ARTICLE V.

The amount of the capital stock of this corporation shall be Two Hundred and Thirty Thousand Dollars ($230,000.00), and the same shall be divided into Two Thousand Three Hundred (2,300) shares of One Hundred Dollars ($100.00) each, and the same shall be sold, either for cash or property and things of value deemed by the Board of Directors equivalent thereto, such determination by the Board of Directors to be final and binding upon the parties in interest. Two Hundred Thousand Dollars ($200,000.00) of said capital stock shall be preferred stock, and Thirty Thousand Dollars ($30,000.00) of said capital stock shall be common stock. The preferred stock of this corporation shall have the following benefits and preferences:

1. Preferred stock of this corporation shall carry with it no voting power, but shall draw cumulative dividends at the rate of six per cent per annum from the date when the same is issued, on the whole or any portion of the par value of said stock remaining unretired from time to time, said dividends to be payable at the date of the annual meeting of the company whenever funds are available therefor.

2. Said preferred stock shall be subject to retirement wholly or partially pro rata at par and accrued dividends on dividend dates or oftener, as fast as the corporation realizes from its investments and business funds not needed for the carrying on of the business of the corporation.

3. No dividends shall be declared on common stock until all the preferred stock and dividends thereon has been so retired.

The stock of this corporation shall be paid for as called for by the Board of Directors, and no stock which has not been subscribed for and upon which the payments called for have not been made as required by the Board of Directors, shall be entitled to vote or representation in any of the proceedings of this corporation.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Two Hundred and Fifty Thousand Dollars ($250,000.00).

IN TESTIMONY WHEREOF, the undersigned parties have hereunto set their hands and seals this 20th day of April, 1914.

W. D. BAILEY. (Seal)
A. M. WASHBURN. (Seal)
C. M. VAN NORMAN. (Seal)

Signed, Sealed and Delivered in Presence of:
J. A. SINCLAIR.
E. E. HEWITT.

State of Minnesota, County of St. Louis —ss.

On this 21st day of April, A. D. 1914, before me, a Notary Public within and for said county, personally appeared W. D. Bailey, A. M. Washburn and C. M. Van Norman, to me known to be the persons described in and who executed the foregoing instrument, and acknowledged that they executed the same as their free act and deed.

JOHN A. SINCLAIR,
Notary Public,
St. Louis County, Minn.

My commission expires Aug. 14, 1915.
(Notarial Seal, St. Louis Co., Minn.)

NOTICE OF SHERIFF'S SALE OF REAL ESTATE UNDER JUDGMENT OF FORECLOSURE.—

State of Minnesota, County of St. Louis —ss.

District Court, Eleventh Judicial District.

Scott-Graff Lumber Company, Plaintiff,
vs.
Peter Grende, alias, Peder Grende, alias Peter Grinde; Frank Hughes, George F. Shea, W. T. Bailey Lumber Company, a corporation; A. H. Krieger Company, Peter Schuster, C. C. Butler, D. G. Cutler Company, a corporation; A. C. Stevens, Gust A. Johnson, Norton Hardware Company, a corporation; P. G. Wicklem, Sigard Abrahamsen, Virginia Foundry & Machinery Company, a corporation, and F. W. Terrell, as Trustee of the Estate of Peter Grende, Bankrupt, Defendants.

Whereas, a judgment and decree has been duly entered in the above entitled action, a certified transcript of which has been delivered to me, adjudging and decreeing, among other things, that the property hereinafter described and all the right, title and interest therein of defendant Frank Hughes as the same existed on September 20th, 1912, or as the same has been enlarged or completed thereafter, be sold to satisfy certain liens thereon, as determined and adjudged in said action.

Now, Therefore, Notice is Hereby Given, That I, the undersigned, Sheriff of said St. Louis County, pursuant to said judgment and decree, will sell at public auction, to the highest bidder for cash, on the 16th day of June, 1914, at ten o'clock in the forenoon, at the office of the Sheriff of said County, in the County Court House in the City of Duluth, St. Louis County, Minnesota, the premises and real estate described in said judgment and decree, all lying and being in said County of St. Louis and State of Minnesota, to-wit:

Lot Twenty-six (26) and the southerly one (1) foot of lot Twenty-five (25), in Block Twelve (12), Virginia, according to the recorded plat thereof, except the East forty (40) feet of said lots.

Dated April 21st, 1914.

JOHN R. MEINING,
Sheriff of St. Louis County, Minn.
By V. A. DASH, Deputy.

BALDWIN, BALDWIN & HOLMES,
Suite 900 Alworth Building,
Duluth, Minnesota,
Attorneys for Plaintiff.

D. H., April 23, 30; May 7, 14, 21, 28, 1914.

SHERIFF'S EXECUTION SALE—

Under and by virtue of an Execution issued out of and under the seal of the District Court of the State of Minnesota, in and for the Eleventh Judicial District and County of St. Louis, upon a judgment duly rendered in the Municipal Court, of the City of Duluth, St. Louis County, Minnesota, on the 30th day of October, 1911, in an action therein, wherein John Wahl Candy Company, a corporation, was Plaintiff, and O. M. Anderson and Mrs. O. M. Anderson, Defendants, in favor of said Plaintiff and against said Defendants for the sum of thirty-two and 56-100 ($32.56) Dollars, a transcript of which said judgment was thereafter and upon the 8th day of November, 1911, duly filed and docketed in the office of the Clerk of said District Court in and for St. Louis County, Minnesota, which said execution has to me, as Sheriff of said St. Louis County, been duly directed and delivered, I have levied upon and will sell at Public Auction to the highest cash bidder at the Sheriff's Office in the Court House, in the City of Duluth, in said County of St. Louis, on Wednesday the 10th day of June, 1914, at ten o'clock in the forenoon of that day, all right, title and interest that above named Judgment debtors had in and to the real estate hereinafter described, on the 8th day of November, 1911, that being the date of the filing and docketing of said Judgment at the Office of the Clerk of the District Court in and for said St. Louis County, Minnesota, or any interest therein, which said judgment debtors may have since that day acquired. The description of the property being as follows, to-wit:

Lots one (1) and two (2) in block twenty-five (25), Oakland Park Addition to the city of Duluth, in St. Louis County, Minnesota, according to the recorded plat thereof on file and of record in the office of the Register of Deeds in and for St. Louis County, Minnesota.

Dated, Duluth, Minn., April 21st, 1914.

JOHN R. MEINING,
Sheriff St. Louis County, Minn.
By V. A. DASH,
Deputy.

LATHERS & HOAG,
Attorney for Judgment Creditor.
D. H., April 23, 30, May 7, 14, 21, 1914.

NOTICE OF MORTGAGE FORECLOSURE SALE—

Default has been made in the payment of the sum of Four hundred fifty-four, and 45-100 ($454.45) Dollars, for principal and interest which is claimed to be due and is due at this date, and which default has continued to the date of this notice, upon a certain mortgage duly executed and delivered by John Larsen Jommen, widower, mortgagor, to Ernest Gustafson, mortgagee, bearing date the 2nd day of August, 1911, with a Power of Sale therein contained, and duly recorded in the office of the Register of Deeds in and for St. Louis County, Minnesota, on the 4th day of August, 1911, at 2 o'clock P. M., in Book 286 of Mortgages, on page 143.

Said mortgage has been duly assigned by said Ernest Gustafson to Sattler Bros. Co., a corporation, by written assignment dated the 17th day of January, 1912, and recorded in the office of the Register of Deeds in and for said County, on the 22nd day of January, 1912, at 8 o'clock A. M., in Book 303 of Mortgages, on page 239.

Now, therefore, notice is hereby given, That by virtue of the Power of Sale contained in said mortgage, and pursuant to the Statutes in such case made and provided, said mortgage will be foreclosed by sale of the premises described in and conveyed thereby, viz.:

The Southwest quarter of Southeast quarter (SW¼ of SE¼) of Section Fifteen (15), Township Fifty (50), Range Eighteen (18) West of the Fourth Principal Meridian, in the County of St. Louis and State of Minnesota, which sale will be made by the Sheriff of said St. Louis County, Minnesota, at his office in the County Court House, in the City of Duluth, in said County and State, on Friday, the 5th day of June, 1914, at 10 o'clock A. M. of that day, at Public Vendue, to the highest bidder for cash, to pay said mortgage debt and interest, and Twenty-five and no-100 ($25.00) Dollars attorney's fees, and disbursements allowed by law, subject to redemption at any time within one year from date of sale.

Dated April 22nd, 1914.

Workers Contrasted!

The laggard drones in the rut.

The aggressive worker forges to the front.

The laggard seeks no chances for advancement and is content to hang on to his job without striving for efficiency and recognition.

The aggressive worker keeps in touch with opportunity and is alive to chances for bigger, better things.

The laggard does not know of the offerings of The Herald Want Columns.

The aggressive worker depends upon The Herald Wants to provide increased responsibility and added earnings.

The Herald Wants are for the aggressive.

NO AGGRESSIVE ACT TO AGGRAVATE STATUS OF AFFAIRS WILL BE TAKEN, SAYS WILSON

"DEATH TO AMERICANS!" IS SHOUTED BY MOB IN MEXICO CITY STREETS

Trample the Stars and Stripes Under Their Feet.

Position of Americans in Federal Capital Is Critical.

Crowd Threatens to Assassinate People in the American Club.

Mexico City, April 23, by Refugee Train to Vera Cruz, April 24.—Mobs in the streets of Mexico City were trampling under foot the Stars and Stripes and were threatening American pedestrians when the refugee train, engaged under the auspices of the British and German legations, left for Vera Cruz, carrying some 500 fugitives of various nationalities.

The position of those American citizens left in the Federal capital was regarded as critical.

Nelson O'Shaughnessy, the American chairge d'affaires, Lieut. Rowan of the navy and Capt. William A. Burnside of the army were to leave on Thursday night for Manzanillo on the Pacific coast under special arrangement with Provisional President Huerta.

Immediately after the news of the

(Continued on page 16, third column.)

FEARS NO ATTACK BY THE REBELS

Daniels Says Constitutionalists Are Actuated By Patriotic Feeling.

Washington, April 24.—Secretary Daniels said today that he had no fear of an attack on American forces by Mexican Constitutionalists.

"Despite excesses and mistakes," said Mr. Daniels, "I believe the bulk of the Constitutionalists are actuated by patriotic sentiment and that constitutional government and liberty are to prevail in Mexico as they do everywhere else in the world."

NERVOUS ON THE BORDER

El Paso's Citizens Scared During Night By the Slightest Noise.

American Troops and the Rebel Garrison Pass Peaceful Night.

El Paso, Tex., April 24.—While warships were plowing two oceans and troop ships were loading for Mexican ports, the rebel garrison at Juarez and the American troops in this city spent a peaceful, though watchful night within a stone's throw of each other.

An early American visitor to the other side of the river today remarked to a Mexican friend: "Well, we slept on our arms last night; how did you get along over here?"

"Oh, we slept on our pillows," was the reply, and both laughed.

People Are Nervous.

The night was devoid of incident, but the more nervous of El Paso's population frequently were thrown into alarm. Did a motorcycle give vent to its rapid preliminary snorts, or an automobile tire explode, or the fire alarm whistle blow there at once followed a deluge of inquiries over the telephone into the newspaper offices.

"Has the battle begun?" was the invariable question.

El Paso has an armed camp, largely for the reassuring effect of the troops on the nervous citizens. Artillery was posted on the highlands of the city at the water reservoir; two battalions of infantry with a machine gun platoon, Battery C of the Sixth artillery with three-inch field pieces and two squadrons of cavalry kept watch over the slumbers of the city, but nothing developed.

TO COMMAND SQUADRON ON MEXICAN EAST COAST

REAR ADMIRAL C. McRAE WINSLOW,
The Daring Naval Officer Who Cut the Cable to Cuba During the Spanish-American War.

BIG FORCE NOW LANDED

More Marines and Bluejackets Sent Ashore at Vera Cruz.

Expected Total Force Will Reach 6,500 Men By Friday.

Vera Cruz, Mex., April 24.—The battleship Louisiana arrived today and immediately landed detachments of marines and bluejackets. The Mississippi also prepared to send ashore 700 marines and a battalion of bluejackets, as well as two aeroplanes. The marines who have been holding the outposts were relieved today by a battalion of bluejackets.

Detachments of bluejackets and marines are quartered all about the city, while squads patrol the streets. By tomorrow the total force on shore probably will reach 6,500 men.

The outposts have been equipped with twelve machine guns and several

(Continued on page 16, second column.)

DEATH PENALTY FOR MEXICANS

Orders Against Attacks on Americans Issued By Carranza.

Douglas, Ariz., April 24.—At Cananea, Sonora, confidence in the ability of President Wilson and Gen. Carranza to save the situation in Northern Mexico was expressed today when the big mining company, which employs 3,000 persons, started up its reverbatory furnace, which was closed several weeks ago for repairs.

The situation was greatly aided by the stringency of Carranza's orders against Mexicans becoming embroiled with Americans. Death was the penalty promised to any Mexican wantonly provoking attack.

TO SETTLE STATUS OF NATIONAL GUARD.

Washington, April 24.—Proceedings were begun in the supreme court today to determine whether the National Guard may be sent to Mexico or other territory outside the United States without first being mustered in as volunteers. The proceedings are in the nature of an appeal from the action of Judge Day in the Federal court in Northern Ohio, in dismissing an action of Lieut.-Col. Daniel T. Stearns against Adjt.-Gen. George H. Wood of the Ohio National Guard growing out of preparations for militia movements outside the country.

BATTLE IN STRIKE ZONE NOW RAGING

Fighting Is Proceeding Between Strikers and Colorado Troops.

People Flee in All Directions From the Disturbed District.

Armed Miners Take Position Over Area of Over Five Miles.

CAPTURE TWO TRAINS.

Trinidad, Colo., April 24.—Fighting between state troops and armed strikers began shortly after 11 o'clock at Bunker hill, a short distance south of Monson, according to reports just received here. The strikers are reported to have captured two trains. The cavalry men have turned their horses loose and are entrenching.

A later report from Rouse says: At 11:35 seventy cavalry men at full gallop have just passed Rouse with artillery.

The two messages indicate that a second troop which detrained at Monson has executed a flank attack on the band of strikers, which is said to have attacked the scouting party.

Trinidad, Colo., April 24.—Gen. John Chase, who reached Walsenburg with the first train bearing troops into the strike zone shortly after 1 o'clock this morning, later abandoned his plan of detraining there and marching into the strike zone. With soldiers posted on top of the boxcars, the special train, consisting of eight boxcars, a baggage car, ten coaches and a caboose, moved slowly south at 7 o'clock in the direction of the rugged hills near Munson and Rugby, where an armed force, estimated at 1,000 is believed to be massed waiting to open an attack.

Provisions Are Scarce.

Provisions are running low among the strikers and the leaders say if it becomes necessary in order to obtain food for the men they will take food from company stores at Aguilar and vicinity.

While the fighting was raging at the mines all about Aguilar, no disturbances of any sort occurred in the town. The strikers of the Aguilar district were believed to have moved north in the direction of Rugby, where another large body was said to be stationed in the hills.

At 3 o'clock the strikers were

(Continued on page 16, fourth column.)

EXTENT OF ARMY WORK IN MEXICO HINGES ON CARRANZA'S ATTITUDE

Gen. Villa's Apparent Friendliness Gives Encouragement at Washington.

Believed That He Will Have Considerable Influence on Carranza.

"Need Have No Anxiety," Says Villa to Gen. Scott

Washington, April 24.—"Just had an interview with Villa. He wishes to salute you affectionately and say you need have no anxiety." This message was delivered today to Gen. Hugh Scott, assistant chief of staff of the army, from Dr. Carlos E. Husk of El Paso. Gen. Scott has known Villa for some time, the two having faced each other across the Rio Grande for many weeks at El Paso and Juarez.

Washington, April 24.—What effect the movement of land troops to Vera Cruz and to the Mexican border, coupled with the renewal of the embargo on the shipment of munitions of war into Mexico, will have on the attitude of the Constitutionalists, was one of the chief questions which confronted the Washington administration today. The answer to this question was awaited with the keenest interest in official circles. It was realized that upon the attitude of the Constitutionalist leader, Gen. Carranza, to a great extent hinged the extent of American military operations in Mexico. In the meantime, officials were also apparently without any definite information regarding the plans of Gen. Huerta, although there were rumors as to the intentions of Gen. Maas, the Federal commander, who evacuated Vera Cruz, to attack that city.

Friendliness of Villa.

One of the encouraging features of the situation was the apparent friend-

(Continued on page 16, first column.)

IS NOW ON HIS WAY FROM MEXICO CITY

NELSON O'SHAUGHNESSY,
United States Charge d'Affaires.

Washington, April 24.—A dispatch received from Admiral Fletcher at 11 o'clock stated that a train to meet Charge O'Shaughnessy was about to leave Vera Cruz.

"I'M BEHIND YOU, WOODROW!"

EXPECTS CARRANZA TO REMAIN NEUTRAL

No Further Advance of American Forces From Vera Cruz Unless Huerta Declares War.

President Has No Intention as Yet of Calling for Volunteers or Further Power.

Washington, April 24.—President Wilson, in discussing the general situation today with callers, explained that no aggressive act to aggravate the status of affairs would be taken by the American government.

The president wished it to be impressed generally that the United States had not adopted a threatening attitude toward the Constitutionalists in Mexico, but merely that it expected them to remain neutral while this government continued to seek reparation from the Huerta government for indignities offered by the Huerta authorities.

WILL NOT JOIN HUERTA.

Official messages from American Consular Agent George C. Carothers, describing his meeting with Gen. Villa, reached the president early in the day. In these messages, it was specifically stated that Villa would not join with Huerta, and the intimation was conveyed that Gen. Carranza by his strong protest against the capture of Vera Cruz was, in reality, seeking to prevent disintegration of his forces.

Further steps are dependent upon a more definite announcement of the intentions of Gen. Carranza. Likewise it is declared the American forces will not extend their operations beyond the vicinity of Vera Cruz until it is clear whether Gen. Huerta will declare war or send troops to attempt to dislodge the American forces.

No Call for Volunteers.

The president made it clear that he had no intention as yet of calling for volunteers or of appearing before congress to ask for an extension of his authority. It was further stated that a brigade of infantry and artillery from Galveston to reinforce the naval forces at Vera Cruz is not intended as an indication that the United States would develop a campaign against Mexico City. But should Huerta, by some overt act against Americans in Mexico City, or elsewhere, provoke the American government further, there will be a continuation of efforts to obtain reparation.

May Precipitate War.

President Wilson considers that, in accord with international precedent, the American government could even push its way into the interior of the country to obtain redress for wrongs without actually being in a state of war with the Mexican people as a whole. He, however, realizes that Huerta, by rallying to his support a great part of the Mexican nation, may actually precipitate a general war, but it is certain that the initiative in a declaration of war would have to come from Mexico before the president appears before congress to ask for more power or funds.

This being regular cabinet day, the president's official advisers gathered at the executive office shortly before noon, the Mexican situation being taken up for further deliberation.

RAILROAD MEN ARE THREATENED

Mexican Authorities Are Forbidding Them to Leave Mexico.

London, April 24.—A cabled appeal from the American manager of the Tehuantepec railway led Lord Cowdray to visit the British foreign office and the United States embassy today to request protection for the foreign employes of the line. Eighty per cent of the employes are American citizens, and, according to the cablegram from the manager, the Mexican authorities are threatening them with arrest and forbidding them to depart from Mexico. Lord Cowdray declared that the predicament of the employes was alarming.

In response to the request of Lord Cowdray, the state department at Washington informed him that the Annapolis and the Denver would be at Salina Cruz on the Pacific side today, and that the Nashville would arrive at Puerto Mexico, on the Atlantic side, today.

The British postoffice issued notice this morning that correspondence for Mexico would be forwarded only at the sender's risk, and that the payment of money orders in Mexico would not be guaranteed in consequence of the disturbed conditions in that country.

FEAR FOR SAFETY OF AMERICAN OIL MAN.

Pittsburg, Pa., April 24.—E. Lowery Humes, United States district attorney, today asked the state department to locate W. E. Chesney, a Butler county oil man, who was last heard from at Tampico. Chesney recently left that city for the interior of Mexico, and his friends fear for his safety, as they have heard nothing from him since March 27.

Many Western Pennsylvania oil men and their families are in the Mexican oil fields, but little concern is felt for them as their letters have contained no hint of danger.

TROOPS OFF TO VERA CRUZ

Army's First Expeditionary Force for Mexico on the Way.

Wives Stand in Rain to See Husbands Leave Camp.

Galveston, Tex., April 24.—The reinforced Fifth brigade, the army's first expeditionary force for Mexico, broke camp during the night at Fort Crockett here and at daylight moved to transports waiting to take them to Vera Cruz. They were not expected to sail before late this afternoon.

The soldiers marched from camp after a night spent practically without sleep. The general sentiment appeared to be that they were glad to escape the routine of camp life under canvas, which has lasted here for more than a year, since the Second division was mobilized at Galveston and Texas City.

These Camp Crockett regiments, Fourth, Seventh, Nineteenth and Twenty-eighth infantry, comprising about 3,500 men and forming the bulk of the brigade, were largely veterans, all having seen service in the Philippines. They worked all night packing and cleaning camp and by daylight the troops not only were ready to move, but the 100 acres they had occupied was almost literally broomswept, so careful was the cleanup.

Wives Watch Husbands.

The whole movement passed quietly.

(Continued on page 16, fourth column.)

MANY ARE ANXIOUS TO ENLIST IN NAVY.

New York, April 24.—Officers in charge of the navy and marine corps recruiting offices here were flooded with applications for enlistment again today. Yesterday an average of twenty an hour for the navy was disposed of, many applicants being foreigners. One squad of fourteen Russians, accompanied by an interpreter, was rejected because none could speak English.

VOLUNTEER ARMY BILL IS PASSED

Washington, April 24.—The senate today without debate passed the volunteer army bill as agreed to by the conferees of the house and senate.

The measure contains a provision giving priority to militia organizations which express, through three-fourths of their minimum enlisted strength, a desire for volunteer service.

The bill makes the enlistment term four years, and gives the president, instead of the governors of the states, the right to appoint officers.

MANY WILL "HOLD ROPE"

Aad Temple, Nobles of Mystic Shrine, Holding Spring Ceremonial.

About Fifty Novices Will Cross Hot Sands After Enjoying Banquet.

About fifty novitiates will—provided they survive the ordeals to which they will be subjected—become Shriners tonight. Aad Temple is holding its spring ceremonial and at 6:30 this evening a banquet will be served. The banquet is served first in order that the candidates for initiation may start out with a full equipment of nourishment that their strength may be at flood tide, so to speak, and give them a better show of getting by with the tests that will be given them later. They usually need it.

After that is over the candidates who are seeking to solve the mystery of the Sphinx and other things, will be told to get ready for trouble. And there will be a lot of it to be prepared for. Potentate H. W. Richardson and Ceremonial Master H. J. Mullin have been getting their heads together for weeks and have some brand new stunts with which to make the novitiate feel foolish.

Preceding the ceremonial the Shrine girls will entertain, and the patrol of the temple will give fancy drills, showing what they have with which to astonish Atlanta next month. The patrol's bugle and drum corps will also make its first appearance. The patrol, under the guidance and instruction of Capt. Paul, has developed into one of the crack drilling organizations of the country, and with the addition of the drum corps, it is now a fine marching organization.

Capt. Paul got his baptism of noise the other night when he went to the Armory to drill the bugle and drum corps for the first time. The captain thought the new corps something of a joke and did not realize that it really can play. So he lined the members up and gave the order "Forward—march!" That was the last time he was heard. The corps swung into a march and simultaneously the drums crashed and the bugles blared. Capt. Paul, dazed at the awful din rebounding from the Armory walls, tried to give orders. His lips and jaws worked but nothing could be heard. Finally he waved his arms in token of surrender, and the members of the corps stopped in order to laugh.

But the patrol and the corps will be very much in evidence tonight.

I. O. O. F.

Central Link, No. 175, and all Odd Fellows are requested to attend the funeral of Frank Carlo, Tenth avenue west and Third street, Saturday, 10 o'clock.

JURY FOR INJURY CASE.

Joseph Beaulieu Demands $2,975 of Duluth Iron Works.

A jury was drawn in district court before Judge Ensign this morning to try the personal injury suit filed against the Duluth Boiler works by Joseph Beaulieu, who is asking for $2,975 for injuries received while employed at the works on March 31, 1913.

Beaulieu asserted that while engaged in tightening a bolt on a boiler, a part of the machinery broke, causing him to lose his balance and fall with considerable force. In the fall he severely wrenched his shoulder and was otherwise injured. David J. Erickson is the plaintiff's attorney and Abbott, McPherran, Lewis and Gilbert are defending.

WOULD KEEP FADDEN.

Larimore People Petitioning Against Police Chief's Removal.

Larimore, N. D., April 24.—(Special to The Herald.)—Richard Fadden, who has been chief of police of Larimore over twenty years, it is announced, is to be removed from office by Mayor Martin Nelson, who recently attained the executive chair through his success in lot drawing with M. Gass, they being tied for the position.

W. M. Edwards has been designated by Mayor Nelson as Chief Fadden's successor.

Friends of Fadden, who is well known throughout the Northwestern police world, have been circulating petitions asking Mayor Nelson to retain him, and local people are almost unanimous in favor of such action.

HADDAD WILL STAND TRIAL

Will Face Jury on Charge of Shooting George Gazarie.

A brarah Haddad, who shot and killed George Gazarie in a pistol duel on Garfield avenue on the evening of Oct. 12, 1913, will be brought to trial for a second time on a charge of murder in district court next week. The case will be called before Judge Dancer Tuesday morning.

Haddad was indicted for murder in the first degree by the November 1913 grand jury and was brought to trial before Judge Fesler shortly after the

ABRAHAM HADDAD.

true bill had been returned against him.

During the progress of the trial and after consulting with his attorney, John H. Norton, Haddad decided to change his indictment to that of guilty to murder in the third degree, providing the state would consent.

Warren E. Greene, county attorney, offered no objection. The plea was accepted by the court and the trial brought to a sudden close. When the prisoner was brought before the court for sentence on Feb. 7 last, however, he again changed his mind and asked the court to allow him to stand trial.

Attorney Norton at that time withdrew from the case, stating to the court that under the circumstances he did not feel as though he could continue as counsel for the defendant. The court has since appointed James A. Wharton as attorney for Haddad.

Haddad admits having shot and killed Gazarie, but maintains it was done in self-defense. The shooting, which took on the form of a pistol duel on the street, was the climax of a feud of long standing between the men. They had met and quarreled on previous occasions and were both armed when they met on the night that Gazarie was killed. Several shots were exchanged.

After the shooting, Abraham was captured by the police after a running fight during which Joseph Haddad, a brother, shot Police Captain Kiskett through the wrist. Joe was brought to trial and convicted of assault in the first degree. He is now serving time on the indeterminate plan at the St. Cloud reformatory.

County Attorney Greene will personally conduct the second trial of the Haddad murder case.

BLOODHOUND WILL AID THE SHERIFF

"Sport" Is Latest Addition to Mr. Meining's List of Deputies.

"Sport" is the latest addition to Sheriff John R. Meining's staff of deputies.

"Sport"—let it be known—is a thoroughbred bloodhound with a long pedigree and an instinct for catching criminals that would go credit to Sherlock Holmes.

Sheriff Meining recently purchased "Sport" from John S. Elmhirst of the Minnesota forest service. He was brought here yesterday from Aitkin.

"Sport" enjoys the distinction of being the first bloodhound to enter the service of the county.

A consort for him will be purchased from a well known kennel in Indiana. Negotiations are now under way for this by the sheriff.

The purchase of two bloodhounds was authorized several weeks ago by the county board.

BENNETT READY FOR OPPOSITION

Actor Hears Effort Will Be Made to Prevent Appearance.

Richard Bennett, who will appear at the Duluth Lyceum theater for three days commencing next Thursday, has declared in a letter to his advance representative, Jacob Wilk, that the performance of "Damaged Goods" will be given in this city regardless of any effort that may be made to stop the production.

Reports have reached him, he writes, that a concerted movement is now on in Duluth to prevent the presentation of the famous Eugene Brieux play. If such a movement is on foot, it has not yet reached the city officials.

Mr. Bennett cites in his letter the trouble that occurred when his play was to be produced at Boston last fall. Mayor Fitzgerald at that time declared he would keep "Damaged Goods" from the Tremont theater, as long as he was mayor. He was supported by a large number of people, whom Bennett describes as "a gang of political barnacles in the guise of uplifters." All efforts were made to stop the production, but when Mr. Bennett arrived in the city and learned of the efforts of Mayor Fitzgerald, he declared open war and announced he would prove the latter had violated the fire ordinance at the Colonial theater a year before, when the mayor and several others, he alleged, were given seats in an aisle at their own request, after being told that there were no more seats to be sold or given away.

HOLLAND ESTATE TO PAY BIG TAX

Inheritance Tax on Late Brainerd Man's Property $14,922.

Brainerd, Minn., April 24.—(Special to The Herald.)—In probate court before Judge J. T. Sanborn has been taken up one of the biggest probate cases in the history of Crow Wing county, the estate of the late Judge G. W. Holland. The entire estate is valued at $348,077.55. Each heir, with the exception of George D. La Bar, pays an inheritance tax of $1,926.40. George D. La Bar, having received an additional bequest in the shape of First National bank stock, pays a tax of $5,601.65. The entire inheritance tax amounts to $14,922.25. The church bequests, of which there are many, are exempt from taxation.

Special Court Term.

A special term of court will be held on April 24 when Judge W. S. McClenahan will hear the Crosby license contest and the Ironton injunction case.

IRON MEN VISIT.

Jones & Laughlin People Look Over Cuyuna Range.

Crosby, Minn., April 24.—(Special to The Herald.)—A party connected with the Jones & Laughlin Steel company registered at the Spalding hotel on Wednesday. It is reported that the company will open up the Feigh property, west of the Pennington and will also sink a shaft in a property at Riverton. The party included Thomas Walters, Ishpeming, Mich.; Mark Elliot, Virginia; E. F. Brandt, Pittsburg; Prof. F. Crabtree, Pittsburg; R. L. Downing, Virginia; Clement K. Quinn, Virginia.

BISMARCK NEXT YEAR.

North Dakota Knights Templar Decide to Meet There.

Fargo, N. D., April 24.—The Knights Templar conclave just held here voted to meet next year in Bismarck, and chose the following officers:

Commander, J. W. Carroll, Lisbon; grand generalissimo, Frank White, Valley City; captain general, Herbert G. Proctor, Jamestown; senior warden, G. W. Wolbert, New Rockford; junior warden, William B. Henry, Wahpeton; grand prelate, W. J. Hutchinson, Fargo; recorder, W. L. Stockwell, Fargo; treasurer, A. B. Taylor, Fargo; sword bearer, G. Roy Ringer, Minot; warden, J. H. Fraine, Grafton; captain of guards, Ernest C. Eddy, Fargo.

A REMARKABLE DISPLAY OF

MEN'S & YOUNG MEN'S CLOTHING!

WEATHER: Showers tonight and probably Saturday; moderate breezes.

We knew we would surprise the town with this new spring showing, but we hardly expected the good news would spread so rapidly. From our first announcement men and young men were quick to respond, seemingly they had told others, until now it would seem the "whole town" shares our enthusiasm over this remarkable new spring display. We show all the new models in both Suits, Overcoats, Balmacaans, all the new fabrics and colors—we know we can suit and satisfy you no matter how critical you are. Strouse & Bros. high art clothes, Kuppenheimer clothes, Styleplus clothes, only to be found here—

LOOK FOR THE RED-AND-WHITE LABEL

AX IS HELD OVER DAIRIES

Must Come Up to City's Demands to Secure License Renewals.

Saloonkeepers are not the only ones to be brought into line by the city's power to grant or refuse licenses.

Milk Inspector Gust Hedman is using the same kind of a club to secure desired results from dairymen who have failed to show a disposition to make needed improvements. The milk licenses expire April 30 and before some of them are recommended for renewal, the milk inspector will insist that the delinquent dairies be put into proper shape.

Yesterday he informed one dairyman that he would have to build a milk-house or he would probably be denied a permit to continue in the milk selling business. The dairyman was allowed two months in which to do the work. The same plan will be followed with others who have neglected to keep their establishments up to date.

The health department is using the license power in another direction, compelling the garbage men to secure suitable wagons and to obey the regulations of the ordinance. While the milk licenses are free, the garbage collection permits cost $5 each a year and a bond is also required. The garbage men are being allowed until May 1 to secure their licenses.

Public Amazed!

CROWDS! Tremendous Crowds! Pleased Crowds!

ENORMOUS PRICE REDUCTION on a manufacturer's surplus stock of Suits, Coats, Skirts, Waists, Dresses, etc. has been attracting the people of Duluth and vicinity, from all sides. FIGHT BEGUN ON CITY STORE

D. A. Reed Prepares Paper for Commissioner Merritt Opposing System.

Would Hamper Departments Without Effecting Saving, Says Reed.

The meeting of the city council with the city purchasing committee, consisting of the employes who do the buying for the various departments, promises to precipitate a lively debate on the advantages and disadvantages of a general purchasing and storeroom system.

The ordinance which was introduced at the council meeting last Monday afternoon, limits the purchasing system to office supplies, blank books, printed forms and janitor supplies, but as the announced intention is to extend this to other supplies and materials later, the discussion will probably cover the whole field.

Opposes New Method.

Commissioner Leonidas Merritt is the first member of the council to come out with a declaration opposing a general purchasing system, and in support of his contention he has submitted to his colleagues a statement prepared by Manager D. A. Reed of the water and light department, which, he says, reflects his own views. Judging from past expressions, the general sentiment of the council has been favorable to a purchasing system, but the subject has not been thoroughly analyzed by the commission as a whole.

Manager Reed contends that a general purchasing system would hamper the various departments without effecting a saving. He says that he has been through the experience of organizing a purchasing agency several times and that in some instances there was decided loss and disadvantage. He adds that the present red tape would be increased and that the only gain would come in cases where two or more departments use the same supplies, in which case the purchase could be combined without a purchasing department.

Would Violate the Charter.

Another argument is that purchasing is one of the most important duties of a department head and that it could not be taken away from him without impairing his general efficiency. He hold further that it would be a violation of the spirit of the charter. "The city has divided its work into public affairs, finance, public works, public safety and public utilities," his statement continues. "The employment of a purchasing agent or any act which conflicts with this division would be starting out to split up duties and responsibilities along a different line of theory, such as might be suggested perhaps by the following division of the work peculiar to the administration of the city: Accounting, purchasing, paying, and inspecting. If these five heads prevailed we would find, for instance, the water and light department would have all its accounting done by the accounting department as represented at present by the city auditor; all its purchasing would be done by the purchasing agent; the receipts of money in payment of gas and water bills would be received by the city treasurer; the pumping stations and construction of water and gas mains would be done by the city engineer, and the inspection of this work would be done by another official, who would do all city inspection. By this method it would be observed that the water and light department as an organization would be entirely dissolved, and the work would be done by other organizations of the city."

Delegates to Duluth.

Grand Rapids, Minn., April 25.—The following delegates to the Duluth congressional convention of Saturday have been selected by Itasca county Democrats:

C. L. May, C. E. Seeley and A. H. Grumpo of oCleraine, J. K. Jasper of Bovey, Frank Sherman, L. W. Huntley and Hugh McKwen of Grand Rapids, O. J. Daly of Deer River.

CITY WILL MAKE DISPLAY

Water Department Rental Increased to Extent of $1,200 a Year.

With its occupancy of the additional office room in the front of the Commercial building, Fourth avenue west and First street, the water and light department will enter into more active competition with the gas appliance department of the Zenith Furnace company, located in the same building.

In the past the department has been hampered in this direction by lack of proper display facilities. The additional room will provide ample window space, and the department proposes to use this for displaying gas stoves, gas grates and other equipment incidental to gas consumption. The windows will also carry large signs informing the public that therein is located the city water and light department. Heretofore many people have had considerable difficulty in finding the office, as it was in the rear of the building.

For the additional space the city is paying an increased rental of $1,200 a year, bringing the total rental up to $4,800 a year, which does not include additional expense necessitated by being obliged to secure extra storage room.

The department has awarded a contract for the erection of a steel tower and storage tank for the orphanage system to the Minneapolis Steel & Machinery company on their bid of $4,989. The bid of the Rock Island Bridge & Iron works was $4,284, but was not accepted as it was irregular.

Superior

Echo of Election Scandal.

Phil Gannon, assembly man from the First district, J. J. Colt, and Max Dreger, who were arrested on charges of fraudulent voting are being tried in the municipal court this afternoon. Gannon is charged with having aided Colt in casting a vote illegally on March 24 during the primary election. Dreger is on trial for having voted while not a citizen of Superior.

Boost City Salaries.

The city commission yesterday raised the salaries of many of the city employes. Chief of Police McKinon received the biggest raise, his salary being advanced from $1,900 to $2,400. The other raises were as follows: Assistant corporation counsel, $1,600, $100 increase; city treasurer, $1,700, $100 increase; city comptroller, $1,500, $100 increase; city assessor, $1,900, $100 increase. The salary of the city stenographer was raised from $75 to $85 monthly. Slight increases were given members of the police and fire departments.

Separated From Money.

Gust Kauppala of Jewell, Minn., is looking for a handsome woman and a roll of $145 which he had before he met her yesterday morning. This morning he asked the police to get out a "Mary Doe" warrant for the woman. Kauppala admits that he first met the woman yesterday morning. He says he took a "joy ride" about the city with her and later accompanied her to a hotel where they feasted. He said this morning when he awoke he was in a room in the hotel and his money gone. The police are of the opinion that the woman has left the city.

CABINET MEMBERS ARE OPTIMISTIC

No Further Offensive Operations in Mexico Decided On.

Washington, April 24.—Members of the cabinet, after a two-hour session at the White House, evinced an optimistic spirit as to the Mexican situation. It was stated that no further offensive operations in Mexico had been decided on. The cabinet devoted much of its time to consideration of the Colorado strike situation and departmental affairs.

Secretary of State Bryan, after the cabinet meeting, went into conference with Severo Mallet-Prevost, an international lawyer of New York, and Charles A. Douglas, an attorney representing the Mexican Constitutionalists in Washington.

CONSISTORY RE-ELECTS ALL OF ITS OFFICERS.

Duluth consistory, No. 3, Scottish Rite Masons, held its annual meting last evening at the Masonic temple, and re-elected its officers of last year. They were installed by T. W. Hugo, sovereign grand inspector general of the thirty-third degree for Minnesota. The officers are:

Master of kadosh, R. B. Knox; prior, A. A. Farrington; preceptor, J. C. Adams; chancelor, W. A. Cant; minister of state, W. B. Patton; registrar, Harry Nesbitt; treasurer, J. P. Johnson, almoner, Alfred Le Richeux; master of ceremonies, R. T. Hugo; prelate, Rev. C. W. Ramshaw of Cloquet; expert, Dr. J. D. Budd of Two Harbors; assistant expert, W. A. Kennedy; captain of the guard, Albert Berg of Minneapolis; steward, A. B. Kirk of Biwabik; tyler, J. H. La Vaque.

LIST OF DEAD AT VERA CRUZ RAISED.

Washington, April 24.—A dispatch from Admiral Badger made public at the navy department late today adds to the list of American dead at Vera Cruz the following:

Louis Frank Boswell, chief gunner's mate, home address at Coulterville, Ill.; next of kin, father, William H. Boswell.

Randolph Summerlin, private marine corps; home address Willacooche, Ga.; next of kin, father, Benjamin F. Summerlin.

PROTEST AGAINST "WAR IN MEXICO."

Chicago, April 24.—A proclamation protesting against the "war in Mexico," was issued by the executive committee of the National Socialist party. It was announced today at the party headquarters here. The protest was made on the ground that there are not sufficient reasons for the "war" and neither the United States nor Mexico will derive any good from it, while the "capitalist class" will reap the benefits.

Silberstein & Bondy Company Established 1870

When a Woman Comes to the Serious Business of Choosing Her Spring Suit

she wants the largest possible choice, and she will find it here.

A wonderful showing of New Suits purchased on Mr. Silberstein's recent trip to the Eastern markets at special prices. Silk Skirts—That are both practical and smart, in Taffeta, Moire and Silk Poplin—**$10.50** to **$16.50.**

Nearly Every Woman Starting Out to Buy a..... Hat Wants to Get Something Different

New Wing-trimmed Hats! New Ribbon-trimmed Hats! New Flower-trimmed Hats! So many that are equally new, equally beautiful, equally stylish, that we could hardly make up our minds which one would be most representative for illustration.

There are new Sailors that are tilted and Sailors that are straight; Sailors that are trimmed beneath and Sailors with ribbons, wings and flowers all around the crown—new cire ribbons, new lacquered ribbons, new little posies of quaint little flowers. And the new flat hats a-plenty; hats that shelve out at the sides or back to accommodate great bows of silk or velvet; jaunty little cornered affairs and Toques and Turbans in endless variety—**$7.50, $8.00** and **$10.00.**

A most complete line of Ladies' Union Suits.

THE TALK OF A LOG BOOK

Friendly Drink Resulted in Contempt of Court Charge.

While a jury in Judge Bert Fesler's division of the district court has been spending several days listening to a rather tedious and uninteresting story of how the "spuds" of a dredge were sprung when a steamer brushed by the dredge one day last June in the Ashland harbor, a little side show in connection with the case has been going on which might have livened things up considerably if the jury had been let it on it.

The case is one in which the Northern Dredge & Dock company is suing the Pittsburg Steamship company for $2,150.62 damages. It is claimed by the dredge company that while one of its dredges was engaged in excavating a slip adjacent to a coal dock at Ashland on June 1, 1913, it was brushed by the steamer Samuel Mather, operated by the steamship company, and as a result the "spuds" or supports of the dredge were sprung, so that it became necessary to suspend work for repairs.

Harry F. Brower, who was captain of the tug Ella G. Stone while she was engaged last season in towing dumps for the dredge in Ashland harbor, was a witness in the case by the steamship company, defendant. He testified, among other things, that he had kept a log of the movements of the Ella G. Stone and that he would be able to refer to the book to clear up a certain point which was in dispute at the trial of the case. Brower was asked to produce the book in court.

Enter Albert Ceal.

At this juncture, one Albert Ceal, who spent last season as engineer on the Ella G. Stone, appeared to have come into the case. He met Capt. Brower in the Kaiserhoff saloon Wednesday noon. Brower had the log of the Stone with him.

While the two men were in the saloon, Brower excused himself for a moment to enter a telephone booth. Before doing so, however, he handed the book over to Ceal for safe-keeping. When Brower came out of the booth, he found both Ceal and the log missing.

Brower spent no time in getting out of the saloon and in trying to find Ceal. He finally located him and not seeing the log demanded an explanation. Ceal declared that it had been stolen from him in the saloon and that he had been out hunting for the culprit himself.

Brower immediately hurried to the courthouse and notified his attorney. The jury was dismissed for a short period and a consultation was held between the attorneys and the court as to what to do about the matter. It was finally decided that a subpoena be issued commanding Ceal to produce the book in court at once.

Yesterday morning, Ceal was remanded to the sheriff's custody. He was released at 5 o'clock last night. Out of the jury's hearing, Judge Fesler made inquiries of both Ceal and Brower as to what became of the book. Ceal declared that it was stolen from him while he was viewing the scenery on the walls of the saloon. Brower insisted that Ceal still had the book. Ceal then charged Brower with having put up a job on him and thus the matter stood.

The question has not as yet been cleared up but as the point which might have been settled by a reference to the log was not important, it is probable that the incident so far as Ceal is concerned is closed.

OTHER POWERS MAY ENTER A PROTEST.

Paris, April 24.—American operations at Vera Cruz are likely to raise international difficulties, according to a London dispatch to the Temps, unless they are regularized by admitting the existence of a state of war. It is pointed out that France endeavored to blockade Chinese ports in 1884 without declaring war and that Great Britain protested successfully.

Italy's olive oil yield for the 1912-1913 season is estimated at 40,000,000 gallons, compared with 65,000,000 gallons, last season.

A device has been invented to permit an aeroplane to pick up mail bags and parcels from the ground while in full flight.

PRESIDENT AND WAR STAFF PROCEED WITH THEIR PLANS

Every Available Warship on Way to the Mexican Coasts.

Army Brigade Is Shipping in Transports for Vera Cruz.

Washington. April 24.—President Wilson and his war staff today proceeded with their plans for operations in Mexico.

The day found every available American warship ploughing southward for the Mexican coasts on the Atlantic and the Pacific, and a brigade of the First army division shipping in transports from Galveston for Vera Cruz. This army force would place more than 10,000 American troops in the Mexican seaport, to hold the city or begin offensive operations toward Mexico City, with Vera Cruz as a base.

No plans for further aggressive movements about Vera Cruz were made today. The president, in talking over the situation with callers, said that for the present no general campaign outside of Vera Cruz was planned and that no further campaign would be begun unless Gen. Huerta declared war. The president told Representative Fitzgerald that no further war funds were needed as yet, and that none would be asked for unless a general war was precipitated by Huerta.

Wood Gets Reports.

Maj. Gen. Wood, who will command the troops in the field, received reports early stating that the Fifth brigade had been shipped and would leave Galveston later in the day.

Meantime the department was busied with conditions on the Texas border. Despite the friendly attitude assumed by Gen. Pancho Villa in his statement yesterday, citizens of the towns along the border were apprehensive, and the department received several applications for additional border guards. Gen. Wood and his aides scanned all information as to the concentration of Constitutionalist forces in the neighborhood of Juarez, where Villa is located.

O'Shaughnessy's Arrival.

President Wilson and his advisers anxiously awaited word today of the safe arrival of Charge O'Shaughnessy at a coast port. He left Mexico City under special Mexican guard during the night and Admiral Badger had been ordered to give safe conduct to his train through the American lines.

Officials of the navy and war departments busied themselves with plans for further operations in the neighborhood of Vera Cruz. With the Fifth brigade under Gen. Funston at the Mexican seaport there will be concentrated a force sufficient to hold the city or to begin offensive operations.

Can Withstand Attack.

Gen. Maas, the Huerta commander, who left Vera Cruz, was reported as concentrating all his available forces at Soledad, thirty-six miles away on the railroad line to Mexico City. Reports from Admiral Badger, however, said that the forces now in Vera Cruz should be able to withstand any attack. Meantime no plans for any movement on the Northern border were perfected. It generally was understood that no offensive operations would be undertaken into the territory controlled by the Constitutionalists at this time.

Estimate Funds Needed.

At the navy department, Representative Padgett of Tennessee, chairman of the house naval affairs committee, was called into conference with Secretary Daniels. The naval appropriation bill carrying $142,000,000 and providing for the building of two new battleships now is under consideration in the house.

VOLUNTEER ARMY BILL

Is Designed to Cure Defects in the Existing Law.

Four Years' Enlistment and Officers Appointed By President.

Washington, April 24.—The house passed the volunteer army bill this afternoon and it now goes to the president for signature.

The bill was designed to cure defects in existing law relating to volunteer forces and it is relied upon to put these forces upon a wartime footing almost similar to the regular army. Except for the fact that the volunteer army would be disbanded immediately by presidential action at the close of hostilities which led to its organization, there would be little difference between it and the regular standing army.

The volunteer army, under the terms of the bill, is to be raised when war exists, or "while war is imminent," but only after congress has given the president authority.

The president would call for volunteers by proclamation and make the necessary regulations for receiving them into service. Enlistments would be apportioned among the states according to population.

Four Years' Enlistment.

The president appoints the officers, instead of the governors of the states, and he has absolute authority to organize brigades and divisions without regard to state lines, a provision expected to lead to a rapid absorption of the volunteers into the regular forces. The enlistment period is four years, as in the regular army.

Officers are to be appointed not for particular organizations, but subject to proper assignment by the war department; but no officer above the rank of colonel will be named, and only one staff officer will be appointed for each 200 enlisted men.

In making appointments, the president is required to give preference to men with honorable discharge from the regular army or militia, to graduates of military schools, and may accept the recommendations of governors.

The president also is given full authority for the organization of coast defenses, machine gun detachments, and all other "adjuncts that may be necesary in the prosecution of war."

Minnesota Troops Notified.

Minneapolis, Minn., April 24.—(Special to The Herald.)—Col. Erle D. Luce, commander of the First regiment, M. N. G., today received orders from Gen. Fred B. Wood to prepare his troops for mobilization on short notice. The First regiment has a full quota of 1,000 men.

VERA CRUZ NOW IN NORMAL STATE

Control to Be Obtained of All Pipelines Into City.

Vera Cruz, Mex., April 24.—American marines and bluejackets today controlled a radius of at least five miles around the city of Vera Cruz in which normal conditions virtually had been restored.

Outposts were pushed further out in a southerly direction to the water supply station at Tejan, and marines and sailors were dispatched there on a train to obtain control of all pipelines into the city. They took with them oil fuel to run the pumping plant.

To the west and northwest, Capt. Smedley Butler with his marines are stationed. Thus Rear Admiral Fletcher commands all the approaches to the city.

Within the city sniping had almost ceased this morning. A close watch for sharpshooters was kept up all night by patrols. Orders had been issued that all civilians should keep within their residences after 7:30 o'clock in the evening, and these were strictly obeyed. As a result, the night hours were quiet. It was generally expected that unless some untoward incident occurred today, this "curfew hour" would be extended.

Some 300 Americans, mostly women and children, left for Galveston on board the Esperanza, and arrangements have been made for removing from the coast towns as soon as possible all Americans who can be induced to leave.

More than 1,000 Americans are reported to have left Tampico where they were given the most urgent advice that they had better make their departure.

The Chester is to be sent to Frontera, Contzacoalcos and other coast towns to urge Americans there to be ready to embark on the Ward liner Monterey, which is due here today from Havana.

WILSON INDORSED BY PROGRESSIVES.

St. Paul, Minn., April 24.—(Special to The Herald.)—Minnesota Progressives in conference here today to indorse candidates for state offices, unanimously adopted a resolution presented by Hugh T. Halbert, state chairman, as follows:

"Resolved, that we, the Progressives of Minnesota, in convention assembled, demand recognition as patriots above partisans, and do hereby support President Wilson and congress in their efforts to uphold and defend our national honor in the present crisis."

TEXAS GUARDS FOR SERVICE ON BORDER.

Austin, Tex., April 24.—An entire regiment of the Texas National Guard was today ordered to mobilize at Brownsville for border patrol duty. Governor Colquitt, it also became known, will order the other two regiments to the border, unless a request to Secretary of War Garrison for additional troop protection for Texas border points is granted.

MARINES ORDERED TO BATTLESHIPS.

Washington, April 24. — Secretary Daniels today issued orders for the assembly of 250 marines from Atlantic stations at New York to join the forces of the battleship New York, when she sails for Mexico either Sunday or Monday. Orders also were issued for the assembly of a like number of marines in San Francisco for duty on the West Virginia, when she sails for the Mexican Pacific coast.

MERCHANT VESSELS TO BE CHARTERED.

Washington, April 24.—The war department today announced that it would be unable to move the entire brigade ordered from Galveston to Vera Cruz in available army transports. The department said it would be necessary to charter merchant vessels for the movement of the troops; that the department was not in a position to complete arrangements for such ships, and that further authorization and further funds were needed through congressional action.

THE DAY IN CONGRESS

HOUSE.

Resumed debate on naval appropriation bill.

Chairman Padgett of naval committee presented resolution to make immediately available $200,000 for use of New Orleans navy yard in making repairs to naval vessels.

Judiciary committee resumed consideration of general anti-trust bill.

Appropriations committee discussed the sundry civil appropriation bill to be reported soon.

Seamen's relief bill considered by merchant marine committee.

Agricultural committee continued hearing on proposed legislation to prohibit or restrict cotton futures transactions on stock exchanges.

SENATE.

Passed volunteer army bill.

MINNESOTA PIONEER DIES IN CALIFORNIA.

E. P. Baker, 75 years old, pioneer resident of Minnesota, died last night at the home of his daughter, Mrs. W. H. Sprague of El Center, Cal. Notice of his death was received last night by his son, B. E. Baker of the Duluth Board of Trade.

Mr. Baker came to Minnesota in 1864, settling in Winona. During the last few years he has made his home with his daughter. The body will be brought to Winona for burial. The date for the funeral has not been set.

Judge Holland Dead.

Philadelphia, April 24.—Judge James E. Holland of the United States court for the Eastern district of Pennsylvania died at his home in Conshohocken, near here, early today, after a long illness. He was 56 years old.

HAILED FROM SCANLON.

Four Drunks Brought Into Cloquet Court This Week and Fined.

Cloquet, Minn., April 24.—(Special to The Herald.)—Four drunks appeared in municipal court this week, all hailing from Scanlon. All were fined except one, who was sent to serve his sentence in the county jail. The offenders were Phil Bergeren, Erik Johnson, Frank Maniesta and Axel Anderson.

Manager Hayes of the city baseball team has called the team together for a try-out next Sunday afternoon, and the new pitcher, Leo McCabe, from Arcadia, Wis., will be here for the play. The proceeds from the baseball dance go toward fixing up the grounds at the baseball park and screening with woven wire the side lines.

A fire at T. P. Davis' claim Monday afternoon was discovered in time to save his house and larger buildings. A pile of straw and a pighouse were burned, neighbors discovering the fire. There was no one on the place.

Trimble P. Davis was quite seriously ill for a time on Wednesday from something he had eaten and his friends were alarmed.

Mesdames Charles Canfield, Guy Smith, K. E. Davis, C. B. Watkins, Albert Cox, J. T. Sheean and F. J. Underhill went to Duluth Wednesday to see "The Bluebird."

Misses Helen Thompson and Bertha Anderson attended a dancing party in Brookston Saturday evening.

Mrs. Roe McCamus and children of Brookston visited Cloquet friends Friday.

There will be a meeting of the town board of Perch Lake Monday evening at the H. H. Kattman home.

Owing to the beginning of the summer run of the sawmills, the banks of the city are to be open the evenings of pay days.

Ammunition For Mexico.

Antwerp, Belgium, April 24.—Seven hundred tons of ammunition are lying here awaiting shipment to Mexico. A consignment of 600 tons of cartridges left here for that destination last week.

PLACING THE BLAME.

Ladies' Home Journal: The little boy had brought home perfect school reports for several weeks, and then his marks suddenly took a tremendous slump. His father viewed the last one in evident disapproval.

"How is this, son?" he asked.

"Teacher's fault," said the boy.

"How is it the teacher's fault?"

"She moved the little boy that sat next to me."

MILL CITY BLAZE.

Two Business Blocks and Roller Rink Are Destroyed.

Minneapolis, Minn., April 24.—Two business blocks and a roller skating rink were destroyed by fire here last night, causing a loss of $55,000. The West Side Commercial club building and several dwellings were badly damaged. Three firemen and a policeman were injured when the front wall of one of the buildings was thrown into the street by a gasoline explosion. They will recover.

Minot Dailies to be Merged.

Minot, N. D., April 24.—A consolidation of the two dailies, the Optic and the Reporter, is scheduled to take place here May 1. C. A. Johnson, twice a Republican candidate for governor, is conducting the Reporter, and will have charge, it is said, of the consolidated publication.

WHOLE FLOOR IS DEMANDED

Lively City Council Hearing on Public Market Space.

Commissioners Are Divided on Question—Citizens Address Them.

The hearing held in the council chambers yesterday afternoon to discuss the public market at the Armory resulted in a spirited discussion of the necessity of using the entire floor of the building for that purpose.

Strong affirmative arguments were offered by C. P. Craig, chairman of the agricultural committee of the Commercial club; H. V. Eva, secretary of the Commercial club; A. B. Siewert, representing the Retail Merchants' association; Mrs. C. E. Spring, representing the Housewives' league; William C. Sargent and Mayor W. I. Prince.

That the sixty feet recently allowed by the council is ample space was maintained by Commissioner R. Murchison, head of the works division; Commissioner W. A. Hicken, head of the safety division; W. B. Logan, a retail grocer; and William Burgess of the Rotary club.

Those urging that the whole floor is needed declared that the time has arrived for the city to do its share to encourage the development of the agricultural country tributary to Duluth; that the municipal administration should abandon the halting, half-hearted policy of past years; that the Armory should be used for the purpose for which it was originally built, a public market, and that every encouragement should be extended to the farmers and prospective settlers.

Those who believed that all the space is not essential asserted that they have no wish to interfere with the development of the country or to hamper the settlers, but that they thought the 60 by 140-foot room available under the council's resolution will be plenty large enough to meet all requirements of the coming summer.

Hesitation By Commissioners.

When Mayor Prince called upon the council for an informal expression, it was slow in coming. The mayor and Finance Commissioner Fred J. Voss were favorable to turning over the entire floor for a public market. Commissioner Murchison was strongly opposed to it, as it would interfere with the season's operations of the works division, and Commissioners Hicken and Merritt stated that they were not prepared to definitely commit themselves at the present time.

Mr. Craig declared that the providing of adequate market facilities stands out as a matter of major importance as a municipal activity, and that anything less than the whole floor of the Armory would be insufficient. He pointed out that the development of the farming country and the encouragement of the farmers is a primary essential in the upbuilding of Duluth. He said that for years the city has pursued a compromise policy and that henceforth it should turn over a new leaf, adopt a truly hospitable attitude and demonstrate it by turning the entire floor of the Armory over to the public market. He said that nearly every organization of the city and many individuals have spent large sums of money to further agricultural development and that if these efforts are to count for anything the city must do its part, even though it should cost some money and cause inconvenience. He held that in the market question as in others, what is worth doing at all is worth doing well.

Secretary Eva asserted that the development of the agricultural possibilities of the country about Duluth is of more importance than all the steel plants and industries which might be secured. He emphasized the fact that the Armory was built for a public market and that the whole floor should be vacated regardless of any inconvenience it might cause any other division of the city. He explained that an adequate market is important not only to the farmers now here, but that it would serve as a powerful inducement to bring other settlers to this section of the state. He said that people are now limiting their crops because the market facilities are inadequate and that the entire floor should be available whether the streets are paved and cleared or not.

Business Man's View.

A. B. Siewert stated that the public market is a business proposition and should be viewed as such. He held that no reasonable trouble or expense should be spared to provide an ample and attractive market, with proper quarters for the farmers and their wives as well as for their horses. He added that although the full space may not all be used this year the city should anticipate the future development and demand.

Mrs. Spring declared that the housewives of the city want the public market and that nothing less than the whole floor should be considered.

Mr. Burgess was heartily in favor of the market, buf he was agreeable to using sixty feet this summer, as this would probably be sufficient for the present season and would also meet with the general approval of all members of the city council. He urged owners of automobiles to bring their neighbors wives and children to the market as well as their own. In his opinion the logical location for a permanent public market is the site of the old courthouse at Sixth avenue east and Second street.

Mr. Sargent stated that it is important to satisfy the farmers and that this could be done only by giving them the use of the whole floor of the Armory for a public market.

Commissioner Murchison did not think that the whole floor would be needed. He said that the works division is willing to run a partition the full length of the building, giving the farmers three-fifths of the space for a market on the most desirable side of the building and completely shutting it off from the section used by the works division. He asserted that if part of the Armory is not available it will seriously interfere with public improvements and street cleaning as well as cause the division much extra expense from a fund already over-burdened.

Commissioner Hicken declared that he wants to see the country settled and developed and that he desired to encourage the public market, but that as yet he had not been convinced that the 60-foot room would not be plenty big enough to meet all requirements of the current year. He agreed with Mr. Burgess that the permanent market should be located at the old courthouse site.

Mr. Logan advised the commissioners to "stand pat" on their original proposition, as the room allowed is ample for market purposes and is much larger than the space heretofore allowed.

Mayor Prince felt that the use of the whole floor as a public market should be given a fair and thorough trial. He said that if the results did not justify this course the council could be governed accordingly in the future. He made an informal motion that the room be cleared by July 1, but it did not carry as Commissioner Murchison opposed it and Commissioners Hicken and Merritt did not vote.

Are the dead in heaven, purgatory or hell, or where? Hear Judge Rutherford's answer Sunday at the Lyceum theater. Free lecture, 3 o'clock.

A New York House, With Style Craftsmanship Beyond the Ordinary, Sends Many Garments for Dispersal

It is certainly as much of a gratification for us to offer these suits as it will be pleasure and profit to those fortunate enough to receive them. Some manufacturers are like some artists—taking the raw materials and with a deft skill, never failing to produce true works of art. That is true of this manufacturer—for, from a gathering of many varied materials, of buttons, of linings and of trimmings, he manages to evolve such garments that EVERY woman concedes cleverness to, but only the really style-informed appreciate to the fullest. At all events, the occasion is unusual, for this maker's suits, at special prices, are rarely obtainable, which is an important reason for your prompt selection.

Following Is a Guide to Special Offers:

$27.50 $29.75 $34.75

The values in these suits are unusual, but unusual as they are, they are but types of the values we are offering throughout our entire suit department. Likewise, the variety is unusually large, while QUALITY deserves special emphasis. In these suits many new fabrics are shown, including the new Gabardines, Plain and Fancy Serges, etc.; all have new jaunty coats and skirts, with the many new features of the season. The regular prices of these should be $35, $42.50 and $50. Our Saturday special prices are **$27.50**, **$29.75** and **$34.75.**

REDFIELD ON PROSPERITY

Secretary of Commerce Tells of Decline in Cost of Living.

Hopes for Early Rate Decision By Interstate Commerce Commission.

Chicago, April 24.—Secretary Redfield of the department of commerce, made a prosperity speech here last night before the Industrial club. He took for his topic "A Sense of Proportion" and contended that any lessening of business activities at the present time was not peculiar to the United States alone; that a moderate and general decline of the cost of living has been noted all over the world, and that the new tariff law had not brought the rush of foreign importations which was threatened. Mr. Redfield referred to the railroad rate situation and expressed the hope that the interstate commerce commission's decision on the application of the Eastern railroads for freight rate advances would soon be decided.

"It is respectfully submitted for your consideration that the following statements are correct," said he.

"1. The adoption of the present fiscal policy of the nation has not been followed by the rush of foreign importations which was threatened.

Decline in Prices.

"2. On the authority of experienced and unprejudiced observers of different nations there has been progressing for some months, and is now in progress, a moderate and quite general decline in prices to a lower level, a part of a movement of a similar character going on throughout the world.

"3. A general depression in business has long existed in many countries throughout the commercial world.

"The public has through press and platform these many years demanded a reduction in the cost of living. That reduction is now going on. Is it possible it should come without readjustments which, however healthful, are temporarily difficult? Are business booms born out of a falling market?

"If America is in despair I do not know it. There are difficulties here. No man is born into the world without pain; and the evolution from higher to lower prices, from highly centralized industry into a more normal and democratic type, will not be accomplished without difficulty; but to treat the process as if it were either dangerous or disastrous is like mourning because a man-child is born into the world. Let us look more closely into the business facts.

Look at the Facts.

"Let us, as we view the business situation, neither minimize nor magnify it, neither localize it nor generalize it. Let us look at the facts as they are, not in their narrow and immediate and parochial significance. California is not in distress with her abounding crops. Kansas knows no weakness in the presence of her wheat. New York, with nearly eighteen hundred millions in her savings banks alone, faces no immediate necessity. We are free from the terrors of an inflexible currency. We are becoming free from those who mistakenly thought it would be long profitable to monopolize. We are readjusting ourselves upon an altered economic basis. Speculation is not rife. Our merchants are not overstocked. Our competing power was never as strong as now. Such dullness as there was has been in part the bringer of a higher efficiency into our factories.

"'Ah!' but one says, 'the fear of business legislation.' I have already hinted at the fact that this legislation, if it had been desired to have it hasty or rash, might well have been enacted long ago. Almost immediately after the president's message upon the subject, certain measures were introduced into both houses. Three months have gone. They have been spent in discussion. Business men have been given an opportunity to state their views. Time has been taken to hear from the country. Furthermore, it will, I am sure, be admitted to be just that a congress shall be judged by its fruits, and the present one has produced several great legislative enactments.

"But I confess to amusement at learning in some quarters that business does not demand further legislation, for therein business shows that sense of detachment from the general weal which has been its bane. It may well be that the public demands that which business does not seek. The point is that business must remember that its voice is not the only one that is to be heard.

Absent From the Markets.

"But it is true that our whole outlook is affected by the absence from our markets of our largest purchasers and our largest employers. I say absence, meaning that our railroad companies are sharply economizing because, as they claim, their revenues in relation to their necessary expenditures are such that they can not do otherwise. I shall not enter upon a discussion of the questions now pending before a tribunal which is abundantly competent to deal with them, and no just inference may be drawn from what I shall say as to the merits of those questions. I think I am justified as a business man in saying that I earnestly hope the decision will be reached with the least possible delay. It is not too much to say that the prosperity of the nation is bound up in and intertwined with the prosperity of its railway system. The railway, if I interpret public opinion correctly, must be a railway and little if anything else. It is not, for example, to be the pivot on which financial operations turn, profitable indeed to those who turn them, but not causing the railway to serve the people better. It must in fairness be admitted that the railway men of today are suffering from the sins of the fathers, which are being visited upon the children to the third and fourth generations.

"The process of democratization is still going on. The 'big fellows' are ceasing to own the railways and the 'little fellows' day by day, are coming to take their place.

Scientific Management.

"I am inclined to think that when the matter shall have been wrought out to its full analysis with ample lapse of time the statement of Mr. Brandeis, for which he has been so much ridiculed, may not prove to have been so far wrong, and I do not recall in this connection that he said how soon the suggested result was to be reached. I remember very well that the leading advocate of so-called scientific management told me that to put a modern industry of large size upon the most scientific basis would mean five years of continuous work, and I suspect at least this time is necessary for the same work upon a great railway.

"Meanwhile justice and common sense require any truthful man to concede that when the worst is said respecting our railway managers it is none the less true that they have so wrought as to give America the lowest freight rates in the world.

"I hope, and think I may say believe, that the day of opposition is giving way to the day of comprehension. I do not mean that law is to be less strong or the insistence upon obedience to law less firm, but that there is coming into the minds of all a greater sense of their essential relationship, and that we shall turn ere long from the industrial and transportation contests which have so engrossed us to other questions of equal or greater importance, and shall come to wonder ere many years pass that we did not sooner see how much easier, better, and more profitable it was to work together with and for one another."

MALE CHORUS IN LINE FOR FESTIVAL

The Normanna Male chorus, numbering forty singers, indorsed the Midsummer Festival for 1915 at its meeting at the Lenox hotel.

Sentiment favoring the festival was unanimous, and the members offered to help in any way possible to make the affair a success. A committee of three was appointed to co-operate with the general committee composed of representatives of various other organizations of the city. The committee follows: Oscar Hansen, Louis Solan and J. A. Johnson.

Who is this man Rutherford who lectures Sunday at the Lyceum theater on "Where Are the Dead?" He is an active lawyer of New York city and the best known layman Bible lecturer in the world.

HOUGHTON COUNTY JAIL IS FILLED.

Houghton, Mich., April 24.—The crowded condition in the county jail is causing Sheriff Cruse apprehension and means to confine prisoners in other parts of the county building will have to be devised. With the sentencing of strikers to terms in the county jail, the number of inmates has increased to ninety and every cell is filled.

HALT RUNAWAY YOUTHS.

Pair From St. Peter Are Arrested at St. Cloud.

St. Cloud, Minn., April 24.—Claiming that they were going to the mines at Deerwood where they expected to make a fortune, Lean Hartew, aged 18, and William Widenhaft, aged 14, runaway boys of St. Peter, Minn., were captured by the local police at the Northern Pacific depot Tuesday night. The boys had $5 on their persons.

When asked as to what they intended doing they said that they were en route to the mines where they expected to secure employment and start making a "little lump" for themselves. They were released Wednesday afternoon on word from relatives. Widenhaft, the younger of the two, was sent back to St. Peter, while Hartew was ordered to leave the city. Hartew's father is proprietor of the Central hotel in St. Peter.

Get Jamestown Jobs.

Jamestown, N. D., April 24.—(Special to The Herald.)—J. A. Kelley on assuming the office of mayor of Jamestown, Tuesday night, made the following appointments: City auditor, R. E. Wallace; city attorney, O. J. Seiler; city engineer, J. M. Hansel; street and water commissioner, Harvey Ausperger; chief of police, Harry Wean. J. A. Blewett was the retiring mayor.

Buffalo's bonded indebtedness now totals $31,520,590.83, within $1,845,329.67 of the legal limit of 10 per cent of assessed valuations.

BLESSING THE RICE FIELDS

One of the Oddest Annual Contests in the World.

Mud and Water Fight in Heart of the Himalayas.

Washington, April 24.—One of the oddest annual contests in the world, a mud and water fight, during which the women of far-off and little known Bhutan, in the heart of the Himalayas, seek to prevent the men from taking possession of an inundated rice field, is described by John Claude White, late political officer in charge of Sikhim, Bhutan, and parts of Tibet within the sphere of British influence, in a communication to the National Geographic society. The event is known as the spring ceremony of blessing the rice fields. Victory for the women portends, during the coming season, fertility of the soil and increase among the flocks and herds.

"Early one morning the sound of a sweet-toned gong warned us that the spring ceremony of blessing the rice fields was about to begin," writes Mr. White. "A long and picturesque procession of men and women, led by the donyer, came wending down the hillside until the first rice field, into which water had been running all the day before, was reached. The field below was still dry, and turning in there they all sat down and had some refreshments. Suddenly the men sprang up, throwing off their outer garments; this was the signal for the women to rush to the inundated field and to commence throwing clods of earth and splashes of muddy water on the men below as they tried to climb up. Then followed a wild and mad, though always good-natured, struggle between the men and the women in the water, the men doing their utmost to take possession of the water field, the women equally determined to keep them out.

Donyer Suffered Much.

"The donyer, the leader of the men, suffered severely, though the courtesies of war were strictly observed, and if one of the assailants fell his opponents helped him up and gave him breathing space to recover before another onslaught was made. But gradually the women drove the men slowly down the whole length of the field until the last stand was made by a very stout and powerful official, who, clinging to an overhanging rock, with his back to his foes, used his feet to scoop up such quantities of mud and water that no one was able to come near him. However, all the other men having been driven off, he and the donyer were allowed at last to crawl up on the path and the combat for the year was over. The victory of the women was looked upon as a very propitious ending; so they dispersed to their various homes rejoicing."

Mr. White writes of being entertained by one of the officials, as follows: "We here saw what capable housewives the Bhutan ladies are. Everything was done very systematically. In the morning the provisions for the day were given out—no easy task, with some hundreds of retainers to feed—and the storerooms relocked, orders issued, and tasks appointed in spinning, weaving, etc., to be carried out by the large household of women, and it was interesting to see the deference in which these dames are held.

Weaving and Metal Work.

"We were shown all the industries of weaving in cotton, wool and silk, the process of casting metals, chiefly bells and images, the making of swords and gold-and-silver-smiths' work. Many pieces turned out by the latter were of exquisite design and finish. It was all most interesting and instructive. We visited a somewhat grewsome spot, where the bodies of the higher families are exposed on a slab of rock after death to be eaten by lammergeiers. It was a beautiful, though terrible, spot, close under the snows and glaciers of their sacred mountain, Cho-mo-Lha-ri.

"This country was so little known that as recently as 1890 a high Indian official wrote most undeservedly, as my explorations proved: 'No one wishes to explore that tangle of jungle-clad and fever-stricken hills, infested with leeches and the pipsa-fly, and offering no compensating advantages to the most enterprising pioneer. Science passes it by as a region not sufficiently characteristic to merit special exploration.'"

DRUNKENNESS

is a curable disease, which requires treatment. The ORRINE treatment can be used with absolute confidence. It destroys all desire for whiskey, beer, or other intoxicants. Can be given in the home. No sanitarium expense. No loss of time from work. Can be given secretly. If after a trial you fail to get any benefit from its use your money will be refunded. ORRINE is prepared in two forms: No. 1, secret treatment, a powder; ORRINE No. 2, in pill form, for those who desire to take voluntary treatment. Costs only $1.00 a box. Come in and talk over the matter with us. Ask for booklet. W. A. Abbett, 205 West Superior street, 902 East Second street and 101 West Fourth street.

Sixty-Eighty-Eight

6088 For Rheumatism

—a specialist's formula proved in years of practice—no dangerous drugs.—Get the famous book "Medical Advice on Rheumatism," explaining Inflammatory, Chronic Articular and Muscular Rheumatism and Gout. BUTTER IS ON DECLINE

Dairy Product Sells Cheaper With Good Increase in Production.

Arrival of Car of Strawberries Leads to Reduction in Prices.

Another deecline in butter is a feature of the local produce market today. For that the increased supplies in this district, and in fact in all sections of the country, are responsible. Gathering up of storage stocks of the product will not begin until June, and in the meantime with the make becoming larger than current consumption the market is gradually tending easier.

With storage stocks now exhausted, the New York market and other cities in that state are absorbing large quantities of creamery product, and substantial shipments from here are now being sent forward by the Bridgeman-Russell company, Victor company and and other operators.

Prices today are a cent down at 25 to 26 cents a pound for the best creamery; 24 to 25 cents for first creameery; 20 to 21 cents for imitation creamery, and 18 to 19 cents for dairy.

Egg Prices Firm.

Eggs are firm at 18 to 19 cents a dozen, and it is not thought by the trade that there will be much variation from that figure for some weeks yet. Marketings of eggs have shown a substantial expansion of late, but with the season now getting well along packers are in the market freely for supplies. The nervousness that had characterized the situation in eggs since the early spring has passed over for the time being, and no startling changes are looked for from now on. It is predicted by dealers that at the prices eggs are going into warehouses this season, 25 cents will be about the top retail figure for them next winter.

Poultry Supplies Scarce.

Fresh and dressed poultry prices are unchanged, as receipts of live birds are so small that they are hardly a factor. Frozen stock is reported to be so run down that it has about reached the exhaustion point in brollers. It is expected that marketings by district fanciers will be on a more liberal scale within the next three or four weeks.

With the exception of an advance of ½ cent a pound in beef, figures in meats are unchanged. The situation in flesh foods remains strong. Lard is off ½ cents a pound.

Strawberries Become Abundant.

Strawberries are the feature in the fruit line today with the arrival of the first complete car of the Louisiana berry. The fruit is said to be of exceptionally fine quality and its quotation shows a reduction of 50 per cent from last week.

California blood and navel oranges are now coming to hand freely and are offering on a reasonable price basis.

The movement of Southern vegetables is exceptionally good and reductions in prices are the rule through the list. Under that category is to be mentioned head lettuce, asparagus, celery, cucumbers and Florida tomatoes.

New cabbage is to be had at a much cheaper cost figure. The market in Minnesota potatoes is firm at present on account of the breaking up of the roads having affected deliveries. A slump is however predicted in them later on.

ADMINISTRATION TICKET WINNER

Washington, April 24.—The administration ticket of the National society, Daughters of the American Revolution, won a complete victory in yesterday's election. The returns from the balloting for ten vice presidents general and two honorary vice presidents general were announced last night. Those elected vice presidents general were:

Mrs. George M. Miner, Connecticut; Mrs. Joseph S. Wood, New York; Miss Elize F. Lery, Washington state; Mrs. Charles Clement Abbott, New Hampshire; Mrs. A. T. Lane, Texas; Mrs. Geo. T. Smallwood, District of Columbia; Mrs. Samuel W. Jamison, Virginia; Mrs. Charles R. Davis, Minnesota; Mrs. E. F. Noel, Mississippi; Mrs. William S. Crosby, Wisconsin. Honorary vice presidents: Mrs. W. Delafield, Missouri; Mrs. D. W. Bushnell, Iowa.

STATE SUPREME COURT DECISIONS

St. Paul, Minn., April 24.—(Special to The Herald.)—The following decisions were handed down today by the state supreme court:

Clay County.

Township of Highland Grove, appellant, vs. Village of Winnipeg Junction, respondent—

1. The township within which a dissolved incorporated village was located is not, in the absence of a statute so providing, the legal successor of the village, or the owner of any of its property, or the surplus funds remaining in the village treasury after dissolution, and cannot maintain an action therefor.

2. Section 743, revised laws 1905, (section 1305, general statutes 1913), provides that where a municipal corporation is dissolved the common council thereof shall direct how any surplus fund shall be used, and an improper direction or disposition of such funds cannot be complained of by the township in which municipality was located.

Order affirmed. BROWN, C. J.

Lyon County.

John Kommerstad, respondent, vs. Great Northern Railway company, appellant—

1. An order based upon an alternative notion for judgment notwithstanding the verdict or a new trial, denying the motion for judgment but granting a new trial, on the ground that the verdict was not sustained by the evidence, is not an appealable order.

2. The former rule of the court sustaining the right of appeal from such orders was abrogated by chapter 474, laws 1913, by which an appeal from orders granting new trials, except in certain instances, was abolished and taken away.

Appeal dismissed. BROWN, C. J.

Freeborn County.

Fred R. Beck, respondent, vs. Chicago, Milwaukee & St. Paul Railway company, apppellant—

Plaintiff stepped on a nail protruding from a board that was in a passageway on defendant's right-of-way that led to the entrance of its stockyards. It is held:

1. Whether defendant was negligent was a question for the jury.

2. Plaintiff was rightfully in the passageway for the purpose of entering the stockyards to load his stock into a car for shipment. The fact that he had been called away to secure his team and was injured while returning does not affect the measure of care owed him by defendant.

Order affirmed. BUNN, J.

Ramsey County.

Armin G. Albrecht, respondent, vs. August J. Diamon, appellant—

In this action for the dissolution of a partnership, an accounting, and the apointment of a receiver, it is held:

1. On the findings of fact the appointment of a receiver was unnecessary and unjustified.

2. A receiver should not be appointed in an action for partnership dissolution unless it is necessary in order to protect the property or the interests of the parties. There was no such necessity in this case.

Order reversed. BUNN, J.

Hennepin County.

Iver A. Olsen, respondent, vs. Ole N. Nelson, appellant—

Where, in an action by a judgment debtor against the judgment creditor for cancellation and satisfaction of the judgment of record, on the ground of plaintiff's discharge in bankruptcy after rendition and docketing of the judgment, if developed that the judgment might be a lien on property owned by one not a party, it was error for the court to determine the issue thus presented and to order absolute satisfaction of the judgment of record, whether the action be considered as such or as a motion under General Statutes, 1913, Sec. 7914.

The proper order in such case indicated.

Order affirmed with directions. PHILIP E. BROWN, J.

Sibley County.

D. S. Phillips, appellant, vs. E. W. Webb, respondent—

In an action brought by a contractor, constructing a town drain, for damages for interference with such construction, wilful or negligent interference must be proven and also the amount in which the contractor has been damaged. In this case no damages were shown even conceding that there was some evidence of negligence.

On appeal to the district court on questions of law alone the cause is tried on the evidence returned, and where such evidence does not support a verdict for plaintiff, but discloses a want of a meritorious cause of action, it is proper to order judgment for defendant.

Judgment affirmed. HOLT, J.

Hennepin County.

State ex rel Robert M. Works, respondent, vs. Otto S. Langum, as sheriff, et al, appellants—

The maximum sentence that may be imposed for the offense of a direct contempt of court by the municipal court of the city of Minneapolis is a fine of $20 or two days' imprisonment in the county jail.

In a habeas corpus proceeding where the respondent justifies the detention of the relator upon a commitment showing a valid conviction, but an unauthorized sentence, it is proper, in releasing him from detention under the commitment, to remand him to the proper court for further proceedings.

Order affirmed on both appeals. HOLT, J.

Goodhue County.

F. A. Sommer et al, respondents, vs. F. W. Meyer, appellant—

1. A section corner is where the government surveyors placed it. Where a section corner post has disappeared, the evidence of witness bearing trees and the surveyor's field notes will usually prevail. If the calls of the field notes are erroneous, their use or rejection becomes a practical question. There is no universal rule applicable to such a case. The court must make its decision, as in any other case, by considering all the evidence that will aid it in arriving at the facts, such as the testimony of eye-witnesses as to the location of lost monuments, the testimony of surveyors based on surveys from other established locations, as well as the calls of witness' trees and field notes. The direction of lines may be reversed if by so doing all the known calls of the survey are harmonized, otherwise the calls are to be taken as they are.

2. The testimony of the surveyor whose location the court adopted, is discredited in some particulars, but it accords with old surveys, with the testimony of eye-witnesses as to the location of lost monuments and with lines long acquiesced in, and it properly apportions the distance between established monuments. The testimony taken altogether sustains the finding of the trial court.

Order affirmed. HALLAM, J.

Hennepin County.

Emanuel Kayser et al., applicants, vs. John H. Van Nest, respondent—

1. Whether the owner of an automobile is liable for damages caused by negligence in driving it depends upon whether the driver was or was not the servant of the owner and engaged upon the business of the owner when the negligence occurred.

2. Where a parent keeps an automobile which he authorizes a child to use for pleasure at any time, and the child operates it so negligently as to cause injury to others, it is error to rule that, as a matter of law, the parent is not responsible for such negligence.

3. The fact that a servant driving his master's car upon the master's business permits a stranger riding with him to drive it temporarily, while upon such business, does not absolve the master from responsibility.

Order reversed. TAYLOR, C.

Hennepin County.

James A. Leonard, appellant, vs. Thomas D. Schall, respondent—

1. Where at the close of a trial the attorneys for both parties, acting jointly, collected the exhibits for delivery to the jury, and both, supposing that a certain package contained exhibits only, permitted it to be given to the jury without examining its contents, although both had an opportunity to do so, the discovery, after verdict, that, unknown to either party, such package, in fact, contained a document not offered in evidence, will not justify granting a new trial, at least unless it be made to appear that such document improperly influenced the jury.

2. An examination of the evidence shows that it is sufficient to sustain the verdict.

Order affirmed. TAYLOR, C.

Clay County.

B. B. Larson, respondent, vs. First National Bank of Culbertson, Montana, appellant—

The evidence sustains the findings of the trial court that certain cattle shipped from Montana to Chicago belonged to the plaintiff, and that he was entitled to recover the proceeds thereof, received by the defendant bank, though the bank had made a colorable but not actual transfer thereof to a receiver, an officer of the bank, claiming to be entitled thereto.

Order affirmed. DIBELL, C.

Clay County.

Clay Robinson & Co., plaintiff, vs. B. B. Larson, et al, defendants: First National Bank of Culbertson, appellants and respondents on cross-appeals—

1. In an action tried in the circuit court of Cook county, Illinois, there was necessarily adjudicated between the contesting parties in this action the question whether advancements made by one litigating party under a bill of sale took precedence over a chattel mortgage of the other. It is held that the adjudication in the circuit court of Cook county is conclusive upon the same question involved in this action.

2. It is the adjudication which determines the estoppel by judgment, or the estoppel by verdict, and not its correctness or the propriety of the method by which it is reached.

3. An owner of property which is intermingled and confused with similar property of another, without his fraud, and without his negligence, does not forfeit his property; and it is for the court to make a division of the property or its proceeds on such practicable basis as will likely result in giving to each his own.

Affirmed on both appeals. DIBELL, C.

Clay County.

B. B. Larson, respondent, vs. K. O. Slette, appellant—

The evidence justifies the finding of the court that the defendant without authority represented himself to be the agent of the plaintiff, directed one Iverson, who was wholly insolvent, to apply to his own use a check in his hands belonging to the plaintiff, that he was without authority so to do, and that thereby the same was lost to the plaintiff.

Order affirmed. DIBELL, C.

Clay County.

B. B. Larson, appellant, vs. K. O. Slette, et al., respondents—

The evidence justifies the finding of the court that the defendants did not sell and appropriate the proceeds of certain livestock belonging to the plaintiff, or cause to be driven away and lost certain other livestock belonging to him.

Order affirmed. DIBELL, C.

Clay County.

B. B. Larson, respondent, vs. K. O. Slette, appellant—

One of two makers of a promissory note, who gives his personal note to the payee upon the maturity of the note, and the same is accepted as payment of it, and it is thereupon surrendered and discharged, may maintain an action for contribution against his co-maker.

Order affirmed. DIBELL, C.

Clay County.

B. B. Larson, et al, respondents, vs. Knute O. Slette, appellant—

In an action by two makers of a promissory note, who paid it, to recover of a co-maker his proportionate share, it is held that the evidence justifies the findings of the court.

Order affirmed. DIBELL, C.

Clay County.

K. O. Slette, et al, appellants, vs. B. B. Larson, et al, respondents—

1. The directors of a state bank have no inherent authority to make an assessment upon the capital stock to make up a deficiency arising from the impairment of the capital; and such an assessment can be made only under a direction of the bank examiner as authorized by R. L. 1905, Sec. 3,000, G. S. 1913. 6366.

2. Upon the evidence it is held that the action of the bank examiner amounted, at the time this action to enjoin the enforcement of an assessment was commenced, to an informal but sufficient direction that the amount of a prior irregular assessment be collected and applied to restore the depleted capital.

Order affirmed. DIBELL, C.

Clay County.

First National Bank of Culbertson, Montana, et al, appellants, vs. State Bank of Climax, Minn., respondent—

In an account to recover money the plaintiff is not entitled to judgment, where the money sought to be recovered is subject to an undetermined garnishment, though as between the plaintiff and the defendant the right to recover is complete.

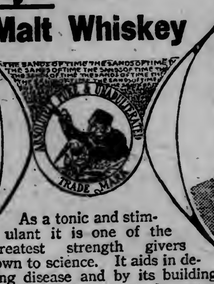
Order affirmed. DIBELL, C.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Luster With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agent, Wirth's Drug Store, 13 West Superior street.



Are You Getting Along in Life?

When men and women pass the age of sixty they need a remedy that will quicken the circulation, bring restful sleep, invigorate the brain and prevent decay. Numerous men and women who have passed their allotted "three score and ten" owe their longevity to

Duffy's Pure Malt Whiskey

Mrs. MARY A. SIMPSON

Mr. WM. HENLEY

As a tonic and stimulant it is one of the greatest strength givers known to science. It aids in destroying disease and by its building and healing properties, assists in restoring tissues in a gradual, healthy, natural manner. Men and women of over seventy—many who have almost reached the century mark—who have used Duffy's for many years, write us that they are still using it, still depending on it for the good it has done them and is still doing them. At druggists, grocers and dealers, $1.00 a large bottle. In sealed bottles only.

The Duffy Malt Whiskey Co., Rochester, N. Y.

"I have used Duffy's Pure Malt Whiskey a great many years, and I find it gives me strength and a good appetite. I am 102 years old and in very good health for one of my years."—Mrs. Mary A. Simpson, 333 DeGraw St., Brooklyn, N. Y.

Mr. Wm. Henley, of Henly, Mo., writes: "I take great pleasure in recommending Duffy's Pure Malt Whiskey to all old people. I have been using it for 11 years. I am 85 years old and I find it a great blessing and I intend to use it as long as I live."

"Get Duffy's and Keep Well"

"SPOOL HEEL" COLONIALS

FASHION SHOES FOR DRESS WEAR

$3.00

FINANCING OF NEW HAVEN ROAD

All Details Are Completed and the Notes Underwritten.

New York, April 24.—All the details of the New York, New Haven & Hartford Railroad company's financing were completed yesterday at a conference between the officials of the company and the banking syndicate organized by J. P. Morgan and the railroad company.

The plan calls for the raising of $60,000,000, instead of $65,000,000, as announced last week. This will take care of all requirements, including the $45,000,000 of notes maturing May 18 and $5,000,000 due the latter part of July, leaving a balance which, it is thought, will carry the road through the remainder of the year.

The $60,000,000 will be acquired through the sale of $20,000,000 New Haven one-year 5 per cent notes, with various securities as collateral; $20,000,000 Harlem River & Port Chester railroad one-year 5 per cent notes guaranteed by New Haven, and $20,000,000 New England & Navigation company three-year 6 per cent notes.

The collateral back of the New Haven and New England Navigation notes will be announced within a few days. It is understood that practically the entire $60,000,000 has been underwritten.

CIVIL SERVICE ACT OF ILLINOIS UPHELD.

Springfield, Ill., April 24.—The Illinois supreme court adjourned yesterday without passing upon the validity of the state woman suffrage act. The civil service act was upheld.

MILLER FOR SENATOR CHOICE OF INDIANA.

Indianapolis, Ind., April 24.—Candidates for all state offices, except governor and lieutenant governor, and for United States senator were nominated and a platform was adopted by the Republican state convention, which closed a two-day session here yesterday.

Hugh Miller, former lieutenant governor, was chosen to make the race for senator.

DOES YOUR STOMACH CONTAIN A GLASSFUL OF ACID?

96 OUT OF 100 DYSPEPTICS HAVE DANGEROUS ACID IN THEIR STOMACHS, WHICH MUST BE NEUTRALIZED IF GOOD HEALTH IS TO BE MAINTAINED.

If you held a teaspoonful of hydrochloric acid in your mouth for only a second you would not be surprised at its burning and inflaming all the tissues; yet an eminent specialist states that 96 out of 100 dyspeptics go about with a glassful or more of this powerful acid in their stomachs, and then wonder what causes the burning and aching and why they suffer the discomfort after meals. To put wholesome food into an acid stomach only increases the discomfort, because the acid mixes with the fresh food and turns it sour, making a lot more acid. The acid condition causes food fermentation, which irritates, distends and inflames the tender stomach lining, and it is not surprising that specialists say acid stomachs are dangerous. This decidedly dangerous and uncomfortable condition can be overcome either by following a strict diet or, and this is far easier and more quickly effective, by taking a teaspoonful of bisurated magnesia in a quarter glassful of water after meals to neutralize the acidity. The latter course is much more satisfactory because it corrects the acidity and banishes discomfort without any need for diet.—Advertisement.

REVISED LIST OF THE DEAD AND WOUNDED AT VERA CRUZ

Washington, April 24.—The following revised list of casualties in fighting at Vera Cruz on Wednesday was reported to the navy department yesterday by Rear Admiral Badger:

Dead in the operations at Vera Cruz, April 22:

Francis Patrick De Lowrey, seaman, born April 1, 1893; home Pittsburg. First enlisted Oct. 1910, re-enlisted Jan. 31, 1904, Norfolk attached to the New Hampshire.

Frank Devorick, ordinary seaman, born Sept. 14, 1895; home address Alma, Iowa. Enlisted Sept. 4, 1913, at Des Moines. Attached to the South Carolina.

Gabrial A. De Fabbio, gunner's mate, third class, born Nov. 16, 1890, home Batavia, N. Y.; first enlisted November, 1903; re-enlisted Jan. 31, 1913 at Buffalo. Attached to the New Jersey

Louis Oscar Fried, ordinary seaman, born April 11, 1895, home address, Gretna, La., enlisted May 2, 1912, at New Orleans. Attached to the Arkansas.

Charles Allen Smith, ordinary seaman, born Jan. 11, 1894, home Philadelphia, Pa. Enlisted Aug. 31, 1911, at Philadelphia. Attached to the New Hampshire.

Albine Eric Stream, ordinary seaman, born Aug. 14, 1895, home Brooklyn, N. Y. Enlisted March 13, 1913, at New York, attached to the New Jersey.

Private Rufus Edward Percy, marine corps; born June 9, 1890, at Highgate, Vt., enlisted Jan. 11, 1912, at Boston, Mass. Attached to Eighth company.

The name W. I. Watson, ordinary seaman, is given in the list of "dead." The department has been unable to identify this man.

Slightly Wounded.

Slightly wounded in battle of April 21, in addition to those originally reported.

Charles Donaldson Cameron, ordinary seaman, born Jan. 7, 1896, home Brooklyn, N. Y. On Florida.

John Adam Gilbert, seaman, born Dec. 26, 1893, home Philadelphia, enlisted Jan. 16, 1911, at Philadelphia. On Utah.

Charles Joseph Leahy, ordinary seaman, born Aug. 19, 1895, home New York city. On Florida.

John Roderick Place, seaman, born Jan. 27, 1894, home Newark, N. J. On Florida.

Elmer Cuyrickard, electrician, first class, born July 13, 1895, home Frederick, Md. On Utah.

William Malloy Smith, ordinary seaman, born June 8, 1894, home Cincinnati, Ohio. On Florida.

Seriously Wounded.

Seriously wounded April 22:

Mitchell William Bass, seaman, born June 7, 1892, home Tifton, Ga., on Utah.

Clifford Martin Gullman, seaman, born July 30, 1893; home Vandalia, Ohio, on Arkansas.

Henry J. Kappler, ordinary seaman, born Aug. 5, 1892, home at Algiers, La., on South Carolina.

Henry Pulliam, fireman, first class, born Feb. 6, 1882, home Pulaski, Va., on Utah.

Sergt. Michael Fitzgerald, marine corps, attached to marine detachment, U. S. S. Utah; born Sept. 27, 1874, at Ardmore, Ireland.

Private Jeremiah Gullruth Peoples, marine corps, attached to marine detachment U. S. S. Utah. Born May 27, 1887, at Oreton, Ohio.

Slightly Wounded.

Slightly wounded April 22:

John L. Bennet, coxswain, born Aug. 17, 1883; home Brooklyn, N. Y., on New Jersey.

Hugh Aloysius Boyle, ordinary seaman, born June 10, 1891, home Brooklyn, N. Y.; on South Carolina.

Fred Nance Calmes, ordinary seaman, born Feb. 7, 1891; home Lawrence, S. C., on South Carolina.

Kirk Christy, ordinary seaman, born Sept. 15, 1893; home Crisfield, Md., on New Hampshire.

George Putman Kinsman, ordinary seaman, born Aug. 8, 1895; home South Boston, Mass., on Vermont.

Charles L. Nordseik, ordinary seaman, born April 19, 1896, home Valatie, N. Y., on Florida.

Leon Decatur Robinson, seaman, born June 23, 1890; home Sycamore, Ill.

Lester Hays Taylor, ordinary seaman, born June 23, 1890; home Fort Wayne, Ind.

Private August E. Bell, marine corps, attached to Eighth company, born Sept. 19, 1890, at Jersey City.

Private Henry Edward Holsinger, marine corps, attached to marine detachment, U. S. S. Utah, born Feb. 6, 1892, at Cleveland, Ohio.

Sergt. James Ayling, marine corps, Sixteenth company, Second regiment, U. S. S. Prairie, born Middlesex, England, May 17, 1879.

Private James Willie Wrenn, marine corps, Tenth company, Second regiment, U. S. S. Prairie, born Baldwin, Miss., March 29, 1891.

Killed on Thursday.

The addresses of the Americans killed and wounded Thursday at Vera Cruz were announced by the navy department late last night in a revised list as follows:

Dead:

DENNIS J. DEANE, seaman, New York city.

E. H. FROLICHSTEIN, ordinary seaman, Mobile, Ala.

ELSIE C. FISHER, ordinary seaman, Hayes, Miss.

Wounded:

George J. Soden, gunner's mate, second class, Warren, Mich.; next of kin, father, Eugene Soden, Rochester, Mich.

Fred H. Fridth, ordinary seaman, Philadelphia.

W. O. Keas, chief turret captain, Hillsdale, Mich.

R. E. Lee, ordinary seaman, New York.

Edward Carl Walter, seaman, Burlington, Iowa.

R. O. Jans, seaman, Muscatine, Iowa.

AEROPLANES FOR USE IN MEXICO

Aero Club of Illinois Offers Eleven Flying Machines.

Chicago, April 24.—Eleven aeroplanes, the property of the Aero club of Illinois, will be sold or given to the United States government for use in Mexico in the event they are needed.

The offer was made at a luncheon of the club yesterday and a committee was appointed to communicate with the authorities in Washington to ascertain whether the flying machines are wanted.

With the eleven aeroplanes will go the services of eleven trained air pilots who have already volunteered their services to the government. Funds for the purchase of an armored aeroplane for service in Mexico were subscribed at the luncheon.

SURPRISE FOR MEXICAN BOAT

Gunboat Did Not Know Americans Had Taken Vera Cruz.

Vera Cruz, Mex., April 24.—The Mexican gunboat Progreso, with more than 500 soldiers in heavy marching order aboard, steamed to the harbor mouth last evening, but no farther. The commander of the Progreso had not heard that the Americans were in possession of the city.

The Progreso was hailed by the flagship and boarded by Lieut. Byron McCandless of Rear Admiral Badger's staff, who informed the commander that he had the choice of remaining under the guns and searchlights of the flagship or putting out to sea.

When Lieut. McCandless reached the Progreso he asked that a gangway be lowered, but this was refused, and he jumped for the side of the vessel and clambered aboard. The interview between the lieutenant and the Progreso's commander was brief, and ended by the Mexican gunboat putting to sea.

The Progreso came from the south, probably from Frontera. The captains of the Mexican steamer Tehauntepec and a government fireboat moved their craft slowly into the harbor yesterday afternoon and then discovered that they were "detained."

The Tehauntepec carried a detachment of thirty regulars in charge of 250 prisoners who were detained for service in the Mexican army. The two vessels anchored near the deserted Mexican training ship Zaragoza, which was in the harbor when the port was taken.

The Tehauntepec and the fireboat came from Frontera, from which port they sailed early Monday. The former carried twelve American passengers, who were taken off in launches and put aboard the battleships.

WINONA VETERANS OFFER SERVICES.

Winona, Minn., April 24—Commander John Walton of the Henry Lawton camp of United Spanish War Veterans here, has tendered the services of his company, 100 strong, to Governor A. O. Eberhart in case the Mexican trouble creates need for troops.

Sunkist

Oranges—*Now* Heaviest with Juice

This is the season when California Oranges are heaviest with juice, sweetest and most beneficial.

Over ten million daily are being shipped from California and these oranges are now being offered by all dealers.

Every Sunkist Orange is glove picked and tissue wrapped—shipped on picking day, therefore always fresh. And prices were never so low as *now*.

Sunkist Oranges are both *good* and good *for* you. Eat them at every meal, between meals and at bedtime. Try this for Spring Fever. Give the children this juice—this drink of natural purity.

Beautiful Rogers Silverware

Save the wrappers from Sunkist Oranges and Lemons. 12 wrappers from either, with 12 cents, entitle you to any of these three pieces of guaranteed Rogers silver. 36 wrappers and 36 cents entitle you *to all three.* 24 other beautiful premiums. Send the coupon.

Try Sunkist Lemons, Too

Ask for Sunkist Lemons, too. For cooking purposes or for lemonade, there are no other lemons like them—highly flavored, juicy, practically seedless.

These are the *best looking* and the *best* lemons—the kind that look most appetizing, sliced or quartered, to serve with fish and meats.

Try Sunkist Lemon juice in place of vinegar in making salad dressing or in any other dish.

These lemons are grown, picked and shipped with the same care used in the production and handling of Sunkist Oranges. Your grocer has them or can get them at once.

ADDITION TO WAREHOUSE

Cold Storage Company Will Spend $120,000 Enlarging Its Plant.

The erection of a seven-story reinforced concrete addition to its plant to involve an approximate expenditure of $120,000, has been decided upon by the Northern Cold Storage & Warehouse company. It is to go up south of the present building and will have a frontage of eighty-five feet on the dock by a depth of 130 feet.

The contract for the foundation was let yesterday to MacLeod & Smith and the work of pile driving will be proceeded with at once. The general contract for the structure will be awarded later on after decision has been reached in some details now under consideration.

With the completion of the addition now proposed, the local cold storage plant will be the largest of its kind in the West, and will rank as perhaps the most modern in its interior arrangements.

"A substantial increase in the demand for storage facilities at this point both for general merchandise and perishables is forcing us to increase the capacity of our plant for the second time in three years," said A. M. McDougall, manager of the company, yesterday.

The going into effect of a storage in transit rate is leading to the routing of a greater volume of freight this way for subsequent shipment to points in the West as far as the Pacific coast, he averred.

Mr. McDougall is also sanguine that the effect of the interstate commerce commission's decision in the butter and eggs case, will be to make Duluth a concentrating point for those classes of perishables from over a wide area in the Northwest. The inauguration of cold storage facilities on the lake package carriers, will, he thinks, lead to remarkable development in that class of traffic from here.

"Now I'll Be Good
So I'll Get Another Piece"

Snow-Mellow

Chocolate Layer Cake has a rich, creamy taste, rarely equaled in "home made" products and in bake-shop products—**never.** Just try this recipe if you want to make a cake that delights the "grown-ups" as well as the "kiddies."

Beat up one tablespoonful of Snow-Mellow in one-fourth cup of hot water, according to directions in the book you get free. Then beat in well, one-sixth cup of granulated sugar. Then **fold in** one-sixth cup granulated sugar to which has been added one level tablespoon powder cocoa. Bake the cake-layers your way, or according to directions in the book. You'll never know how good chocolate layer cake can be until you try it with Snow-Mellow filling. Our book shows 28 ways in which you can use Snow-Mellow. Every 25c box makes desserts for seven meals for four to six people.

Get Snow-Mellow at your grocer's, price 25c, or sent by mail on receipt of 25c and the name of your grocer, by Frank & Houren, Sales Agts., 623 South Wabash Ave., Chicago, with book and beater, FREE.

NORTHWESTERN BANKERS CONFER

Four Duluthians Are Attending Meeting at St. Paul.

Bankers of the Ninth Federal reserve district, comprising Minnesota, North and South Dakota, Northern Michigan and Northern Wisconsin, are meeting at St. Paul today to discuss organization details in connection with the new bank to be established at Minneapolis.

At the conclusion of the business sessions the bankers of the Twin Cities will entertain the visitors at a banquet tonight, when George M. Reynolds, president of the Continental & Commercial bank of Chicago, will speak on the Federal reserve banking law and its effect on business.

Duluth representatives at the meeting are: A. L. Ordean, president of the First National bank; W. G. Hegardt, vice president of the American Exchange National bank; H. S. Macgregor, cashier of the City National bank; and J. W. Lyder, cashier of the Northern National bank.

PIG IRON INDUSTRY OPERATED AT LOSS.

New York, April 24.—The pig iron industry in the United States is being operated at a loss of $1,000,000 a month, according to the report of John A. Penton of Cleveland, secretary of the American Pig Iron association, to the general meeting of the association held yesterday.

The average loss per ton on all pig iron sold by 85 per cent of the manufacturers and merchants north of the Ohio river during February was $1.15. Unfilled orders on the books of members of the association, March 1, amounted to 1,714,801 tons, the report says, and as a result of these conditions, many furnaces have been shut down and a number of the plants are in the hands of receivers.

The report protested against the new tariff.

BRIDGMAN IS HEAD OF THE PUBLISHERS.

New York, April 24.—At the annual meeting of the American Newspaper Publishers' association yesterday, the following officers were elected: President, Herbert L. Bridgman of the Brooklyn Standard Union; vice president, Hopewell L. Rogers, Chicago Daily News; secretary, John Stewart Bryan, the Richmond, Va., News-Leader; treasurer, Edward Payson Call, New York Journal of Commerce.

There was a lively contest over the election of a president, Bridgman being opposed by Jason Rogers of the New York Globe, who earlier in the session led a fight to reduce the cost of membership in the association.

ATHLETES ARE HONORED.

Eight Central Students Are Given "D's" and Sweaters.

E. P. Gibson, faculty treasurer of the Athletic association of the Central high school, presented sweaters and "D's" to eight student athletes at the chapel exercises this morning. Mr. Gibson made a well-turned little speech in making the presentation speech and complimented the boys upon their work and excellent showing in athletics during the season.

Following are the recipients of the honors: Capt. Larson of this season's basket ball team; Capt. Solheim of next year's team; Stevens, Scrivens, Forysack, Olson, Collatz and O'Brien.

WILL AID IN FESTIVAL.

Normanna Chorus Plans Activities Up to June 4.

The Normanna Male chorus has decided to take part in the festival to be given May 17 by the Norwegian societies and churches of Duluth. The proceeds of the entertainment will go toward erecting a home for aged Norwegians of the state.

The chorus has arranged to give a grand ball at the Auditorium, Saturday, May 16. The committee on arrangements is composed of Elmer Oss, A. H. Tesdahl and H. Lorentgen.

A testimonial concert will be given on or about June 1. Special rehearsals will continue until the departure of the chorus June 4.

TEA AT ITS BEST—

in all its garden freshness and fine flavour

"SALADA"

sealed lead packets are proof against dirt. The tea can't be contaminated—and it costs no more than common tea.

ASSESSORS DUE TO CALL

Twenty-Six Deputies Will Start Valuing Personal Property May 1.

City Has Been Divided Into Districts to Facilitate the Work.

Be ready for a call from the assessor.

Twenty-six deputies will start out one week from today, May 1, to make the personal property assessment of the city.

Fifteen of these will be extra men and the other eleven will be present employes of the assessor's office. Many of the additional men have been engaged in similar work before so that they will be quite familiar with their duties.

Deputies Will Meet.

A meting of the deputies who will make the personal property assessment, has been called for tomorrow afternoon. City Assessor J. Allyn Scott will explain the detail of the work to them. The last legislature changed the requirements considerably, making a complete reclassification and nearly doubling the number of items to be listed. This will increase the difficulties as well as about treble the amount of work in the office. It is estimated that the new schedule will cause a loss of one and one-quarter millions in the-total personal property valuation, taking last year's valuation as a basis. The aggregate last year was $13,192,654. Under the new law much property that was assessed at 40 to 50 per cent of its full value, will have to be assessed at 25 and 33 1-3 per cent of its true value.

To facilitate the work Chief Deputy William K. Fowler has divided the city into districts, each of which will be placed under one deputy. In addition to the men in the districts others will be assigned to assess automobiles, flour, lumber and coal, and monies and credits.

Saloon in Separate Class.

Saloons have also been put into a separate class, as was done last year. One man will assess all the "gin mills" in the city. This will prevent any of the other deputies who might be so inclined from being compelled to mix with temptation, which might result in their falling by the wayside and neglecting their work. But in any event they could not "soldier" on the job for more than a few days, as under the system being followed, the work of each of them is checked every day. Experience has shown the officials what constitutes a fair day's work, and any who fail under the standard, will be dropped without delay.

WOULD FIX GUILT ON NEGRO CONLEY.

Atlanta, Ga., April 24.—Three affidavits, seeking to fix guilt for the murder of Mary Phagan upon James Conley, negro factory sweeper, were submitted in superior court here today by attorneys for Leo M. Frank, under death sentence for the murder, in connection with a motion for a new trial on newly discovered evidence.

Conley was the principal witness against Frank at the latter's trial and is serving one year's imprisonment upon conviction as an accessory after the fact.

Credit Men Will Dine.

The Duluth Association of Credit Men will meet this evening at the Commercial club. They will have dinner at 6:30 o'clock and will then listen to addresses by Julius H. Barnes, W. B. Cross and G. H. Bate.

Horse Runs Away.

A dash for liberty made yesterday afternoon by a horse pulling an Interstate Mercantile company's delivery wagon was short-lived, when the animal crashed into the curbing at Fourth avenue west and First street and broke the wagon. The horse was stopped by pedestrians. The driver had left the animal standing in the alley alongside the Christie building and the animal ran out and down to First street before it was stopped. No one was hurt.

Fine Pictures and Frames.

Decker's, cor 2nd Ave. W. & First St.

Left $6,000 Estate.

Joseph Shimmin, who died at Virginia April 11 last, aged 58, left an estate consisting of real and personal property valued at $6,320, according to a petition for the admission of his will which was filed with the clerk of the probate court yesterday by his daughter, Esther Florence Shimmin Meehan. Four children and a grandchild are the only heirs.

Second Escape In Month.

For the second time in the last month William McLaughlin has made his escape from the police. On March 13 he made his getaway from the police court, but was rearrested on April 9 and taken at that time to the work farm, from where he escaped yesterday afternoon. He has not yet been captured by the police, who are keeping a close watch.

Held For Assault.

Frank Wheaton, 27 years old, was arrested this morning on a charge of having struck Irving Stahl, a son of William Stahl, 312 West Fourth street, on April 15. He pleaded not guilty when arraigned following his arrest and his trial was set for 2 o'clock this afternoon. Wheaton lives at 218 Fourth avenue west.

Messenger Boy Ill.

Kenneth Holbein, a Western Union messenger boy, was taken suddenly ill at the Y. M. C. A. last evening and the police ambulance was called to take him to his home, 204 West Sixth street. He is reported improved today.

Husband Placed on Parole.

Oline Joleand, 30 years old, who was arrested yesterday afternoon on a charge of non-support preferred against him by his wife, was this morning placed on parole for one year. He pleaded guilty when arraigned in police court and was fined $50 and costs or thirty days on the work farm. The sentence was suspended.

Not Guilty of Theft.

Isadore Johnson, 34 years old, was this morning found not guilty of having stolen $4.75 yesterday from Emil Nybund and the charge against him was dismissed. He was arrested by Patrolman Le Beau and he pleaded not guilty when arraigned this morning. His trial was set for 10 o'clock, when the case against him was dismissed.

Held as Robbery Suspect.

Matt Hill, 31 years old, was arrested this morning by Sergeant Robert as a suspect in a robbery case reported from Minneapolis yesterday. The police are holding Hill pending an investigation.

Woman Merchant Bankrupt.

Mrs. Jessie Hull, who has been operating a store at the village of Sandstone, this morning filed a voluntary petition in bankruptcy with the clerk of the United States court. She gives her assets as $3,160.02, of which she claims $325 is exempt, and her liabilities as $3,049.65.

Temple Services.

"The Life of the Tree and the Tree of Life" will be the subject of the sermon to be delivered this evening by Rabbi Maurice Lefkovits at the regular services at Temple Emanuel, Seventh avenue east and Second street. The services will begin at 8 o'clock.

Beggar Goes To Farm.

For begging on the street William Linn, 51 years old, a well known police character, will have to spend the next thirty days on the work farm. He was arrested by Detective Toewe yesterday afternoon and he pleaded guilty when arraigned in police court this morning.

Held For Reckless Driving.

The trial of William Martell, who is charged with having driven his automobile recklessly on Monday afternoon, has been postponed until 2 o'clock on the afternoon of May 7. His trial was originally set for this morning.

INVESTIGATE LIVING COST

Duluth Advisory Board of Minimum Wage Commission Meets.

The meeting of the Duluth advisory board of the minimum wage commission was held this morning. The secretary of the commission, Miss Eliza P. Evans of Minneapolis, was present.

It was decided at this meeting to consolidate the manufacturing and mercantile boards with a total membership of thirty-two and to increase the number of persons on the various committees. W. E. McEwen, who was chairman of the apprenticeship committee, was made chairman of the manufacturing-mercantile board. The members of the committees to investigate the cost of living for the working women of Duluth are:

Cost of board, room and clothing—Miss Marguerite Culkin, chairman; Mrs. Stenby, Miss Mary Cheska, Miss Nora Ryan, I. Freimuth, George M. Peterson, Miss Schaefer, Miss Tyson and Miss Larson.

Cost of miscellaneous items—W. C. Mitchell, chairman; Miss Erickson, Miss Pearl Hunt, Mrs. Chapman, Mrs. F. C. Bowman, B. Silberstein, M. Stack and M. F. Jamar.

Apprenticeship and education—W. E. McEwen, Mrs. T. J. Davis, George A. Gray, B. P. Neff, H. D. Final, R. A. Horr, J. J. Moe, Miss Mary M. Parsons, Miss Duffy, Mrs. A. A. Kerr, Miss Tyson, Miss Murphy and Miss McDonald.

A list of questions will be sent to merchants and manufacturers and the answers will be tabulated to aid in the work of establishing a minimum wage for women.

MINISTER IS THANKED.

Grand Rapids Masons Laud Mr. Myers for Easter Sermon.

Grand Rapids, Minn., April 24.—Itasca lodge, No. 208, A. F. & A. M., at its last meeting adopted this resolution thanking Rev. A. A. Myers, pastor of the M. E. church, for his invitation to attend Easter services at his church and for the fine service given: "That we, as members of Itasca lodge, No. 208, A. F. & A. M., do hereby extend sincere thanks to Rev. A. A. Myers for his invitation to this body to attend services in the Methodist church on Easter Sunday morning and also for the very able and eloquent sermon given on that occasion, the best Masonic service ever given in Grand Rapids."

HELD FOR SALE OF POOR MILK.

Chin Won Tong, 60 years old, proprietor of the Zenith restaurant on Lake avenue south, was arrested this morning on a charge of selling adulterated milk. He pleaded not guilty and his trial was set for 10 o'clock Monday morning. He was allowed to go on payment of $15 bail. Won Tong is accused by Joseph Pratte, milk inspector of the health department, of having sold some milk containing less than 3½ per cent butter fat as prescribed by the law.

Tomorrow:

Miss Shaull's Last Day in Duluth

No lecture will be given—as Miss Shaull will give her personal attention to those who consult her about their corset problems.

Her lectures have proven interesting to hundreds of women.

By the living models she has plainly taught the stout—the medium and the slender

NOT TO ENVY THE WOMAN WITH THE FINE FIGURE

But to wear the right Bon Ton model and have a figure that all will admire.

Talk with her at our corset department tomorrow.

Buy Tango Blouses Suits, Coats, Here Tomorrow

A Few of You May Have Those Much Wanted Tango Suits for Sunday.

The Tango shade is brilliantly beautiful—just now it is surely the height of fashion.

Here you will find "classy" suits of Tango Crepe, Gabardine, Wool Eponge, Bedford Cord and Serges—these are the fabrics that fashion favors. They are made up in styles that fashion followers will admire.

We had only a few of them; there is only one of a size left—they will not be common, but there is any size from 16 to 40. -:- -:- -:- -:-

See the Tango Suits on sale at **$18.50, $22.50, $25.00, $35.00** and **$38.50.**

Tango Coats Are Equally Alluring

Here they are in straight line or ripple models, some of them in 26-inch, others in 34-inch lengths. Made up in Ratines, Eponges, Cut Chinchillas, Cords and novelty weaves. Either yoke line or full line. Every size from 16 to 40. Limited lots, so they will not be common. Prices now and here, $15.00, $16.50, $18.50, $20.00, $22.50 and $25.00.

Tango Blouses to Match the Tango Suits and Coats

Crepes, Voiles and Chiffons in beautiful Tango shades, gloriously designed styles, that smack of Paris. Prices, $3.98, $4.98, $6.50 and $7.50 for copies and adaptations of imported models that would cost very, very much more.

Tomorrow a Glorious Showing of Charming Hats Selling at $5.00

Ribbon trims, pom pom trims and flower trims are here in most uncommon trims.

Clever milliners have adapted many new and original ideas. Styles are for the most part charmingly simple, and we may also add, simply charming.

It takes real artists to develop such styles as these. It proves conclusively that our milliners are close students of style and adepts in its expression.

You will see hats here that your friends would never imagine cost so little as $5.00. There is so much real style to them.

Come and See—Try Them on

You will find real surprises among them. You'll also find many other lovely hats at reasonable prices.

Here Are New Colonial Pumps & Oxfords of Very Snappy Styles

Tomorrow will be a good time to select your spring footwear. No matter if it is raining Saturday the weather may be warm and sunny on Sunday, and low shoes will then be in evidence—anyway, it is an opportune time to choose while assortments are as fine as they now are here.

Choose from the newest Colonial Pumps and Oxfords, turned or welt soles, dull or patent leathers or immaculate white—the very latest styles. All sizes—**$3.50** and **$4.00** the pair.

Dressy Street Boots $3.50 and $4.00

Handsome Street Shoes, patent or dull leathers, kid or cloth tops, welted soles, wide or narrow toes; a new line from a maker who makes only high-grade footwear and whose goods are usually sold for half a dollar more than our prices of **$3.50** and **$4.00.**

Size assortments are such that you may be fitted with glove-like nicety. The styles are those which look aristocratic under the exposure of present day skirt fashions.

TWO HEARINGS ON SAME DAY

Charles Lawler and Joseph Rich Both Face Murder Charges.

One Killed Sister-in-Law and Other Brother-in-Law.

Charles Patrick Lawler and Joseph Rich, both charged with murder, will be given their examinations in police court next Tuesday afternoon. This is the first time in years that two murder cases are up for a hearing at the same time.

Lawler killed his sister-in-law, Mrs. Mary Lawler, at the Astoria hotel on April 10, while Rich shot Frank Carlo, his brother-in-law, in a pistol duel at their store, 511 West Michigan street, shortly before midnight Wednesday. The former, it is alleged, has admitted murdering his sister-in-law, while Rich claims that he shot Carlo in self-defense.

Although Lawler committed the crime just two weeks ago today, the state has been unable to hold the examination, because of Lawler's illness. He attempted to kill himself after shooting his sister-in-law and he has been in a weakened condition ever since the shooting. The hearing has twice been postponed, but it is now believed that he will be able to appear next Tuesday afternoon. He is charged with murder in the first degree.

Rich was yesterday morning arraigned on a charge of murder in the second degree and asking for an examination, it was set for 2 o'clock next Tuesday.

This afternoon Coroner McComb will conduct an inquest over the body of Carlo, a coroner's jury having been called to convene at the Grady & Horgan undertaking rooms at 2 o'clock.

It was announced this morning that the funeral of Carlo would be held at 10 o'clock tomorrow morning from the residence of the murdered man, 1001 West Third street. Interment will be at Calvary.

Marine

GRAIN RATES AT LOW EBB

Light Ore Chartering Are Reflected in Marine Circles.

Owing to light chartering in the iron ore trade, acute weakness has developed in marine circles. Steamers for grain loading were offered today down to 1 cent a bushel, and space is reported to have been taken at that figure. This compares with a grain rate of 2¼c ruling at the opening of navigation last year. Vessel men do not look for much improvement till the furnace operators fix their season's ore rates and enter the market more freely for supplies.

NAVIGATION OPEN AT ASHLAND, WIS.

Amaranth Arrives; Several Other Vessels Are Due Soon.

Ashland, Wis., April 24.—(Special to The Herald.)—Navigation opened at Ashland today, with the arrival of the lighthouse tender, Amaranth. There is considerable ice in Chequamegon bay. The Apostle Island lights are lighted except on Michigan and outer islands.

The Amaranth will go to Eagle Harbor with a lighthouse crew tomorrow after visiting Michigan and outer islands.

Ore trains are moving and several boats are due tomorrow.

STEAMER E. N. OHL LEAVES WITH GRAIN

Several Other Large Boats Expected to Depart This Week.

The steamer Edwin N. Ohl, a vessel with a gross tonnage of 5,141, left Duluth at 1 a. m. today with a cargo of grain for the East. The close of the week is expected to see the departure of several other of the large grain boats at the Head of the Lakes.

Estimates from the different elevators place the total amount of grain in bottom at 2,835,000 bushels of wheat and 501,000 bushels of oats. The steamer Vulcan finished loading 101,000 bushels of flax for Toledo yesterday and will clear today, it is expected. The only other boats that may clear today are the Northern Light and the Northern Wave, loaded with flour and merchandise for Buffalo.

Other boats scheduled to clear late this week or early next week are the A. S. Upson, with 227,000 bushels of wheat; the J. S. Ashley, with 335,000 bushels of wheat; the Penobscot, with 70,000 bushels of wheat and 300,000 bushels of oats; the M. A. Hanna, the W. H. Gratwick, the J. J. Albright, the J. Q. Riddle and the Mathew Andrews.

Officials at the Great Northern ore dock state that the steamer Joseph Block is up-bound light for ore and is scheduled to tie up at the pier Saturday. This will be the first ore cargo to be shipped from the Duluth-Superior harbor this season. The Block wintered in the South Chicago harbor. Other ore docks have reported no cargoes for immediate loading, although the Duluth & Iron Range pier is expected to start shipping early in the week.

No Rush for Coal.

Owing to the mild weather during the winter the consumption of coal was light in Duluth as compared to former years, and for this reason there are no rush orders for coal by water. Both coal and ore orders are slow to come in, and navigation early this season will be affected accordingly.

CHANGES IN COAST LIGHTS AND SERVICE.

The hydrographic office has just issued a bulletin giving changes and contemplated changes in coast lighting and service as follows:

In St. Mary's river Gros Cap reef, gas and bell buoy will be dismantled, and the Canadian government has signified its intention of establishing a buoy at this point.

About April 30 the characteristic of West Side Middle Light No. 13, lower Hay Lake cut, will be changed from fixed to intermittent white. The light will be exhibited 32 feet above the sea from an iron post adjoining a lamphouse on a concrete pier. The illuminating apparatus will be a lens lantern burning oil gas.

At Johnson's Point, St. Mary's river, about April 30, an unwatched intermittent white light will be established 24 feet above the water on an iron post surmounting a cluster of tanks standing on a concrete pier erected in 22 feet of water off Johnson's Point. The gas buoy will be discontinued.

Lumber to Move Soon.

A fleet of vessels from Buffalo and various other Lake Erie ports and Chicago is expected to arrive in Duluth some time next week for lumber cargoes at the Head of the Lakes. The ice conditions around Buffalo are reported to be very unfavorable for navigation at present, and the time of the vessels' arrival is very much of a conjecture.

Detroit Passages.

Detroit, Mich., April 24.—(Special to The Herald.)—Up: Price McKinney, 9:20 p. m., Thursday; Warner, Thomson, 9:40; Flagg, Warriner, 9:50; Ranney, 12:20 a. m. Friday; Thomas Adams, 1:30; Alfred Mitchell, 3:40; Sinaloa, 7; Old Wolf, 7:30; Edmonton, Sultana, 7:40; Argo, 8. Down: Beaverton, 12:20 a. m. Friday; Wyandotte, Schlessinger, 6:30; Caiete, 6:50; Howe, 8:15; Robert Wallace, 8:40.

The Sault Passages.

Sault Ste. Marie, Mich., 9April 24.—(Special to The Herald.)—Up: Niagara, 8 last night; Colborn, Yates, 9; Leonard, Miller, 5:30 a. m.; Augustus, Fairmount, Carleton, 10:30. Down: William Rogers, 9 last night; Utley, midnight; Thomas Barlum, 1 a. m.

Marine Notes.

Capt. James Jackson, master of the steamer D. O. Mills, is in the city today on his way to Fort William to his ship.

A. G. Smith of Cleveland, marine consulting engineer, is in the city today on business.

John W. Earhart, who sailed the steamer J. S. Ashley last season, is bringing out the steamer R. L. Ireland at Lorain, Ohio. The steamers Ashley and Ireland are managed by A. T. Kinney of Cleveland.

Boats that locked up the Soo last night, if not delayed in ice above the Soo, are expected to begin to arrive in Duluth some time tomorrow.

The English city of West Hartlepool is said to be the first municipality to produce electricity in its own plant by waste heat obtained from a nearby iron works.

Korea displays the plum blossom on her stamps. It is the royal flower of her last dynasty—a dynasty which reigned for 500 years, until the Japanese wrested it away.

Beautiful Hair Tinting

Absolutely and Positively Harmless "Brownatone" Instantly Changes the Hair to Any Shade of Brown (or Black if Preferred.)

Nothing so robs a woman of her good looks and attractiveness as gray, streaked or faded hair. And there is no more reason or sense in tolerating unattractive hair than there is in wearing unbecoming gowns. Nearly all of the more noted beauties long ago recognized this fact, and so wear their hair not only in the style, but also the color, most becoming.

The one hair stain that stands supreme is "Brownatone." It is simple and easy to use. Just comb or brush it into your hair. It can not be detected, will not rub or wash off, acts instantly, and is absolutely harmless.

"Brownatone" will give any shade desired from golden brown to black.

Your druggist sells "Brownatone" or will get it for you, and it is worth your while to insist upon having this preparation and not something else. A sample and a booklet will be mailed you upon receipt of 10 cents, and your orders will be filled direct from our laboratories if you prefer.

Two sizes—25c and $1.00.

Two shades—One for Golden or Medium Brown, the other for Dark Brown or Black.

Insist on "Brownatone" at your hairdresser's.

Prepared only by the Kenton Pharmacal Co., 527 E. Pike St., Covington, Ky.

Sold and guaranteed in Duluth by Orpheum Pharmacy, Second avenue east and Superior street; Lyceum Pharmacy, and other leading dealers.

DEFECTIVE PAGE INTENTIONAL DUPLICATE EXPOSURE

VILLA WILL NOT ENTER ON WAR WITH UNITED STATES

Makes Caustic Remarks Concerning "That Old Drunken Ass, Huerta."

Hopes the Americans Will Bottle Up Vera Cruz Tighter.

El Paso, Tex., April 24.—Gen. Francisco Villa, head of the rebel military forces, informed George C. Carothers, special agent of the state department, that he will decline to be dragged into a war with the United States by anybody.

"Why," he smiled as he threw an arm about the broad shoulders of the government representative, "all Europe would laugh at us if we went to war with you. They would say that 'little drunkard Huerta has drawn them into a tangle at last.'"

Villa said he was not consulted in the drafting of the Carranza note transmitted to Secretary Bryan, and which was regarded as somewhat hostile in tone. The rebel leader told Carothers, who reported the interview to the state department last night, that one of the chief reasons why he came to Juarez was to show the American people that his attitude was friendly and that he did not fear to trust himself on the border without a military escort behind him.

Carothers took supper with Villa and canvassed the situation thoroughly.

Glad Vera Cruz Is Taken.

"Honest," said the rebel leader between mouthfuls, "I hope the Americans bottle up Vera Cruz so tight they can't even get water into it. Your admiral is doing something it would have taken us a long time to accomplish, if we could have accomplished it at all."

The general brought with him 100 woven rugs of the softest lambs' wool as a present for Gen. Scott, who recently left Fort Bliss to become assistant chief of staff at Washington. Carothers promised to forward them along with Villa's congratulations on the receipt of promotion.

Villa said he had arranged with all foreigners, except Spaniards, to ship out their cotton from Torreon upon paying a war tax, to which the foreigners had agreed.

Roberto V. Pesquiera, Carranza's confidential agent here, insisted that the note of his chief to Secretary Bryan was not hostile, but was intended as a basis for further negotiations.

What the Rebels Claim.

The rebel position is that the American troops should be withdrawn from Mexican soil, Carranza recognized as de facto president, or at least as a belligerent, and the punishment of the individual Huerta and other individual offenders left to the rebels. Carranza, if recognized, would not hesitate to apologize, and disavow the acts of one whom he considers a traitor.

"I think his statement was fair and frank," said Pesquiera, "and by no means a threat of war." He said as giving evidence of the peaceful intentions of the rebel government, that Carranza had refused a number of offers from Federal garrisons to join him if he would take the field against the United States.

"To all of these offers we have returned negative replies," said Pesquiera. "We cannot join forces with Huerta for any purpose."

Juarez Not Excited.

While this city was in a ferment of war talk and military preparations yesterday, the Mexican city of Juarez, across the river, pursued the even tenor of its way. Even the arrival of Villa from Torreon failed to excite the villagers.

A battalion of infantry which had been guarding the city, was reinforced from the post by another battalion of the Twentieth, a squadron of the Twelfth cavalry's Battery C of the Fifth artillery and a machine gun platoon. Last night the black muzzled field guns, parked in the camp of the reinforcements in the Texas & Pacific railroad reservation in East El Paso, were ready to pour the shells into a foreign foe should one appear.

Gen. Villa at one time remarked:

"What does the United States want to pay any attention to that old drunken ass, Huerta, for, anyway?"

Villa, himself, is a teetotaler.

Gen. Villa explained that he stopped traffic in Juarez as a precaution, stating that in the present strained moments the irresponsible acts of even a drunken man might have grave consequences.

"It becomes those in authority on both sides of the river to take every precaution against such possibilities," explained the rebel leader.

Would Protect Foreigners.

Gen. Villa received reports last night and made guarded replies to a number of inquiries.

Asked if foreigners would be protected should the rebels be brought into a war against the United States, he replied:

"Our forces, in an event which I hope will not come about, would take the opportunity of proving to the world that we are a civilized people and capable of following all rules of civilized warefare. I would give perfect guarantees to all neutral foreigners and am willing to vouch for this personally."

When asked whether he would join forces with Huerta in war against the United States, he said:

"As I have already stated, such an event is improbable; but to answer your question I must state that I am a soldier and am ready to follow all orders of my chief, Gen. Carranza."

Gen. Villa, when asked to express an opinion on Gen. Carranza's note to President Wilson, replied:

"It was written with the brain of a Saxon and the soul of a Latin."

MANY APPLYING FOR COMMISSIONS

Retired Officers and Others Seek Places in the Army.

Washington, April 24.—Application for commissions in the army are now pouring in upon the war department. Many of these are from former soldiers—men who have resigned their commissions in the regular service, or who were officers in the volunteers during the last war with Spain. Some are offering to raise regiments of "rough riders," and among the applicants for active service are many regularly retired officers who profess their physical ability to meet the demands of a new campaign.

The American Red Cross is having its share of volunteers and the headquarters at the war department are fairly swamped with letters for women volunteering for nursing service under the Red Cross in Mexico. The Red Cross officers, with nearly 4,600 experienced trained nurses in camp, have been obliged to inform the writers that only graduated trained nurses of two to three years' experience can even be enrolled, much less given immediate assignment.

COPP'S ARREST BY MEXICANS

Taken on the Pretext He Was Relative of Madero.

Baltimore, Md., April 24.—Paymaster Copp of the United States navy was arrested on the pretext that he was a relative of Madero, according to a message from war correspondents given for transmission by wireless to Capt. Haroldson of the steamer Borgestad, which reached here yesterday from Tampico.

The correspondent could not send out the message. The wireless on the Borgestad broke down and the message was not known until the vessel docked here.

Copp was afterward released from a jail at Tampico with a scant apology, the message said, and Admiral Mayo sent word to Zaragoza that he must make ample apology and fire a salute.

Ogden Trebor McClurg, president of a publishing company in Chicago, was a passenger on the Borgestad. He said he had to race down the river in a small motor boat, passing near the Constitutionalist lines at Tampico, to board the Borgestad.

Mr. McClurg said the feeling against the Americans in Tampico is very bitter.

SQUADRON TO EAST COAST OF MEXICO

Rear Admiral Winslow to Be in Command of the Fleet.

Washington, April 24.—Secretary Daniels has issued orders forming a special service squadron for service on the east coast of Mexico. Rear Admiral Cameron McRae Winslow has been selected to command and will hoist his flag on the New York, which will leave Sunday or Monday to join the fleet now in Mexican waters.

The special service squadron will consist of the battleships New York and Texas, armored cruisers Washington and Montana, the Tacoma, Des Moines, Chester, Salem, Nashville, Dolphin, Castine, Machias, Paducah, Wheeling, Petrel, Eagle and other vessels that may become available from time to time.

Most of those vessels are well adapted for inshore work on the Mexican coast and the experience and ability of Rear Admiral Winslow eminently fits him for command of this squadron.

ORDERS TO ENLIST ALL MEN POSSIBLE.

Chicago, April 24.—Orders have been received here to enlist all the men possible at the marine recruiting stations in this city. The order which came from Maj.-Gen. Commandant George Barnett, marine corps, Washington, D. C., read:

"Disregard quota for district. Enlist all men possible. Use extra efforts to re-enlist ex-marines."

Applications for enlistment have been ten times the normal rate since the Mexican troubles, according to the recruiting office of the marine corps here.

INTERVENTION BY BRITAIN RUMORED.

London, April 24.—The Mexico City correspondent of the Daily Telegraph in a cablegram dated Thursday says:

"A telegram from Sir Cecil Spring-Rice, the British ambassador at Washington, was received at the British legation today as a result of which the British charge, Thomas B. Hohler, started for Vera Cruz.

"It is understood that Mr. Hohler's mission is to meet Admiral Fletcher and enter into negotiations with him regarding a possible attempt to solve the Mexican difficulty through the intervention of British diplomacy.

"However surprising this news may seem, it is not regarded at the American legation as being without foundation, as it is believed that the United States cannot wish to repel any suggestion for an honorable solution."

RED CROSS RELIEF BOARD MAKES READY.

Washington, April 24.—The war relief board of the American Red Cross prepared here yesterday to respond to any call the government may make. This committee on direction was appointed to have immediate charge of relief work: Brig.-Gen. William C. Gorgas, surgeon general of the army, chairman; Surgeon General William C. Braistead of the navy; Maj.-Gen. George W. Davis, U. S. A., retired; Miss Mabel T. Boardman, chairman of national relief board, Red Cross, and Ernest P. Bicknell, national director of the Red Cross.

To Have State Cavalry.

Salem, Or., April 24.—Governor Oswald West has issued a call for the organization of a regiment of state cavalry. He said that if it was necessary to use the regiment in connection with the Mexican trouble, he wished to accompany it.

Douglas Wants Soldiers.

Douglas, Ariz., April 24.—The Douglas chamber of commerce has requested the secretary of war to send an additional regiment of soldiers here. The request is based on the preponderance of Mexicans here and in the mining camps. A circular printed in Spanish and unsigned was circulated, calling upon Mexicans to stand by the fatherland.

Offer Wireless Service.

New York, April 24.—The United Fruit company, with headquarters in this city, yesterday notified Secretary of the Navy Daniels that their wireless stations at New Orleans, Swan island (in the Caribbean), and various points in Central America would be at the service of the government as long as they were required.

What is the soul? Has man an immortal soul? When man dies what dies? These questions will be clearly and satisfactorily answered by Judge Rutherford at Lyceum theater, 3 o'clock Sunday.

ENDS TOMORROW!

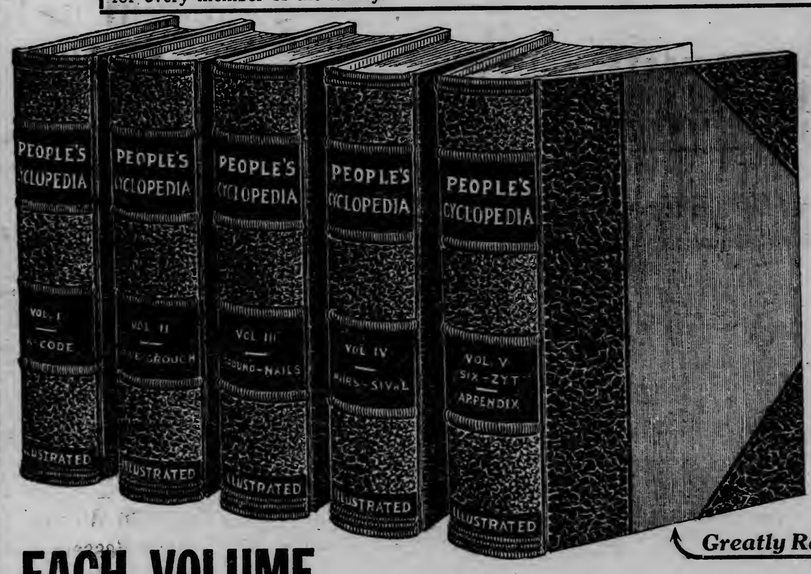
See here! There's no time to lose now—not a minute, for this big educational book bargain positively ends tomorrow night, and next week this same identical set that is now being given out by The Glass Block Store for one coupon and $1.98 may cost you exactly $12.00, and you will need this saving of $10.02. Clip the coupon printed below—NOW—and bring it to The Glass Block Store listed in coupon below.

READERS OF THE HERALD

have been quick to show their appreciation of this money-saving offer. The many thousands of readers who have already come into possession of this great reference work have told their friends about it, and all are loud in their praise for its many superior features.

PEOPLE'S CYCLOPEDIA—$1.98

IS THE NATIONAL BANK OF KNOWLEDGE!



for the boy at school; for the girl at school; for the young man or young woman out of school; for the older members of the family—in fact for ALL who desire to PROGRESS, this USEFUL set of books means SUCCESS. It is KNOWLEDGE that causes the wheels to revolve; it is EDUCATION that leads to ADVANCEMENT. This HANDY reference work is your STOREHOUSE of KNOWLEDGE—it is the MEANS of EDUCATION for your children—it is the ever ready GUIDE to ADVANCEMENT.

FIVE HANDSOME VOLUMES FOR.....

This sum represents the total charge to you for this $12 reference set, complete from A to Z. Its wealth of information comprises all subjects appropriate to a work of this character, including Chronological History, All Prominent Men and Women, Educational Charts, Electricity, Agriculture, Sociology, Languages, Astronomy, Architecture, Foreign Countries and Cities, Manufacturing, History from the beginning to Now, Government, Religious, etc.

RESIDENTS OF DULUTH CAN GET THIS SET ONLY AT THE GLASS BLOCK STORE

People's Cyclopedia is the ideal substitute for Travel. The reader may know of all foreign countries, their history, wealth, progress and natural advantages and attractions. He may learn of all foreign and American cities, the buildings, parks, prinicipal industries and sights worth seeing; and find out about all the peoples of the earth; how they work, how they play; how they govern and how they worship—in short, how they live. Whatever is best worth knowing is told in People's Cyclopedia for every member of the family.

SCHOOL TEACHERS OF DULUTH:

Teachers in the public schools everywhere have found People's Cyclopedia to be an invaluable reference work for getting quickly at the vital and important facts of every subject. Yo do not have to search laboriously through a lot of big, cumbersome volumes to get the main points of any subject about which you may want information. This cyclopedia contains all the essential facts of the big sets, omitting all superfluous details without losing anything of importance by the condensation.

Embellished at Great Expense With Colored Illustrations Covering Over Five Hundred Subjects.

Text Illustrations and Monotones.

Greatly Reduced Illustration

EACH VOLUME EQUAL TO SEVERAL ORDINARY BOOKS

You will not need an extra bookcase to hold this complete set of reference books, for it takes up less than half as much space as the ordinary cyclopedia—yet the information is all in it—thousands upon thousands of subjects covering the entire world and its people. Think of the many advantages in having all this information in such convenient form that it can be referred to "in a minute" without searching through numerous large, unhandy volumes! Its convenience makes it far more desirable than any similar work. It saves time in reference and saves room in the library—saves money to get it now, too.

Orders By Mail

MONEY REFUNDED IF NOT SATISFACTORY.

By parcel post include EXTRA 14 cents within 150 miles; 24 cents, 150 to 300 miles; for greater distances ask your postmaster amount to include for 10 pounds. Send coupon and remittances to The Glass Block Store, Duluth, Minn.

THE DULUTH HERALD

AN INDEPENDENT NEWSPAPER

Published every evening except Sunday by The Herald Company.

Both Telephones—Business Office, 324; Editorial Rooms, 1126.

Entered as second-class matter at the Duluth postoffice under the act of congress of March 3, 1870.

OFFICIAL PAPER, CITY OF DULUTH

SUBSCRIPTION RATES—By Mail, payable in advance, one month, 35 cents; three months, $1; six months, $2; one year, $4; Saturday Herald, $1 per year; Weekly Herald, $1 per year.

Daily by carrier, city and suburbs, 10 cents a week; 45 cents a month.

Subscribers will confer a favor by making known any complaint of service.

When changing the address of your paper, it is important to give both old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guaranty that it has the largest circulation in Minnesota outside the Twin Cities.

The Herald will be glad to have its attention called to any misleading or untrue statement which may appear in its news, editorial or advertising columns.

THE REBELS TAKE A SECOND THOUGHT.

"Wherever and whenever," said President Wilson in reply to Carranza's rather bumptious note, "the dignity of the United States is flouted, its international rights or the rights of its citizens invaded, or its influence rebuked where it has the right to attempt to exercise it, this government must deal with those actually in control. It is now dealing with General Huerta in the territory he now controls. That he does not rightfully control it does not alter the fact that he does control it. We are dealing, moreover, only with those whom he commands and THOSE WHO COME TO HIS SUPPORT. With these we must deal."

And after the Constitutionalist leaders had had an opportunity to digest that, the peril of complications with them as a result of reprisals upon Huerta immediately diminished.

And so the matter stands. We want no war, but we are ready for war if war is necessary. We are contented with the present situation, but ready for whatever may develop.

The issue is on the knees of the gods—except as it rests with the judgment of Mexican leaders.

If Huerta's plan to unite the warring factions under his banner "to repel the invader" fails, as it will if Carranza and Villa use ordinary horse sense, then Huerta will not last a month.

The outcome may be simpler than seemed possible at first.

Incidentally, the president did a wise thing in selecting Brazil as the nation that is to look after American interests in Mexico. Brazil, like Argentina, Chile and the United States, has refused to recognize Huerta; and this choice will go far to allay the bugaboo of American imperialism that Latin-American imagination has raised.

Texas has taken to ng-growing. Next thing we know Texas will be claiming to have been the original Garden of Eden.

WHAT BREAKS UP FAMILIES.

The Brooklyn domestic relations court, preliminary to beginning a new year's operations, has made an analysis of the divorce cases presented to it in the preceding year.

The court seems to have gone about it very carefully, and to have sought to get at the bottom facts in each case. The grounds for divorce stated in the petitions are rarely illuminating. "Desertion" and "cruelty," for instance, are common pleas: yet there must be reasons somewhere for both desertion and cruelty which the pleadings do not reveal. The Brooklyn court sent out its probation officers and instructed them to go behind the returns for the real reason in every case.

Even as it stands, the compilation is not finally instructive. The most frequent cause is drunkenness; yet who knows what incitement of personal relations may have been back of many of these cases?

The table showing the causes, the number of cases resulting from each cause, and the proportion of each to the whole, is as follows:

Cause.	Number.	Per Cent.
Drink	390	45.8
Other women	117	13.7
Laziness	79	9.2
Jealousy	76	8.9
Incompatibility	75	8.8
Gambling	33	3.8
Out of work	30	3.5
Lazy and untidy wives	20	2.3
Mother-in-law interference	12	1.4
Other men (accusations of husbands)	10	1.2
Cruel treatment	8	.9

It will be noted—and jokesmiths are especially invited to note it—that interference by mothers-in-laws consisted only a little more than one per cent of the whole.

Incompatibility is a vague enough reason. Incompatibility may have driven some to drink, and some to philandering with other men or women. Laziness in a husband surely seems like "incompatibility" with an ambitious wife, and cruelty certainly is "incompatible" enough.

However, the statistics are interesting, if for no other reason than because they constitute another indictment against the evil of intemperance.

Canada has awarded a New York firm the contract for a hundred thousand mail boxes. How does that feel to the lion's tail?

WHAT A PITY!

Though it was inevitable, it is none the less a pity that the country's business should have been interrupted by this pitiful war with Mexico.

Here the administration is in wise hands, guided by a far-seeing vision and a wide and deep sympathy with the problems of society, and the president and the congress were busy with big projects for the common good.

At last, after years of subservience to special interests, there was a chance that something would be done for the everyday human being who pays all bills and bears all burdens in the last analysis.

Much had been done, but much more remained to be done.

And now, thanks to Mexican insolence, the nation must turn aside from its wholesome occupations and plunge itself into a war for the benefit of a black-and-tan collection of Greasers who hate us, who always have hated us, and who will hate us none the less because we whip them for their own good!

Yet it had to be, and the country will face what fate provides for it with the best cheer it can. If the United States had endured the humiliation of wanton insults from the monster Huerta, had let these insults go unnoticed, not only would they have grown more gross and vicious, but this country have become an object of contempt from the Rio Grande to Cape Horn—and around the world as well.

One American life—to us, at least—is worth more than the whole Mexican nation. Yet precious American lives must be sacrificed in untold numbers because a half-breed nation adjoining can neither manage its own affairs nor leave ours alone!

Yet what must be, must be. Inviting no more trouble than we can avoid, we shall dodge none that persists in pushing in. Reprisal for wanton insult is all we intended; but if Mexico compels us to pacify her by force of arms, pacify her we shall if it takes ten lives or ten thousand, ten days or ten years.

Congressman Miller says the Filipinos lack "governmental consciousness." And it's seven to one the poor things never knew what alled them.

MEXICO.

Mexico is an undeveloped, half-savage empire—rich in resources, poor in people.

Its population is about fifteen millions, its area in square miles, 767,005—about the size of the area in this country occupied by these twelve important states: Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska and Kansas.

Less than twenty per cent of its population is white; and this element is mostly of Spanish descent. Forty-three per cent of its people are of mixed Spanish and Indian blood, and thirty-eight per cent are Indians. Only a small proportion of the mixed and Indian people are really civilized.

Mexico is rich in fertile soil, in minerals, and in timber. Development has been slight, and most of it by foreign agencies. Agricultural methods are primitive and, worse than that, the great masses of the people are landless. The land is held by a few—a fact that feeds revolution.

While Mexico's area supports squalidly fifteen millions of people, the American states above named support in comfort and plenty more than thirty millions of people. Though the two areas cannot fairly be compared because a good deal of Mexico is mountaineous and some of it arid, yet the difference in population, and especially the difference in comfort, is due still more largely to lack of civilization and modern methods.

Even so, if agriculture and industry could be permitted to go ahead unmolested by politics and rebellion, Mexico could easily support its people in ample comfort. But from mine to field and from forest to city, industry and agriculture are practically paralyzed by the poison of armed unrest.

If it could be done, nothing better could happen to Mexico than to have a foreign power step in, knock together the heads of the warring factions, and set the Mexican people at work. The trouble would be that the Mexicans would not have sense enough to appreciate this service. Yet that is precisely what this country, before it is through, may have to do. And then, its work for humanity completed, it must step out again, perhaps to see its labors all undone by the next gust of revolution. Moreover, it must not be tempted by the latent riches of this afflicted empire. It must leave as it came, with no selfish purpose and no spoils of war.

A considerable demand for copper sheets is reported in parts of Greece. What kind of a climate must they have there?

THE NEED OF A CITY AND COUNTY HOSPITAL.

Last December a woman was found, half unconscious, in a poorly heated shanty in this city. Her only companion was a drunken stepson. They had no money.

The diagnosis disclosed the fact that the woman was suffering from pneumonia.

When those who discovered the case attempted to have the woman cared for, both hospitals reported that they had patients on cots in the halls, and could not take another patient.

The only thing that could be done was done. A deaconness kindly volunteered to stay with the patient, but in that ill-heated shack her chance for life was poor indeed. She died within twelve hours.

If there had been a city and county hospital that unfortunate woman would have been taken there immediately, and her life might have been saved.

Swat the garbage pile.

A Housekeeper's Tragedy.

One day as I wandered, I heard a complaining,
And saw a poor woman, the picture of gloom;
She glared at the mud on her doorsteps (t'was raining),
And this was her wail as she wielded the broom:

"Oh, life is a toil, and love is a trouble,
And beauty will fade, and riches will flee;
And pleasures they dwindle, and prices they double,
And nothing is what I could wish it to be.

"There's too much of worriment goes to a bonnet;
There's too much of ironing goes to a shirt;
There's nothing that pays for the time you waste on it;
There's nothing that lasts but trouble and dirt.

"In March it is mud; it's slush in December;
The midsummer breezes are loaded with dust;
In fall, the leaves litter; in muggy September
The wall paper rots, and the candlesticks rust.

"There are worms in the cherries, and slugs in the roses,
And ants in the sugar, and mice in the pies;
The rubbish of spiders no mortal supposes,
And ravaging roaches and damaging flies.

"It's sweeping at six, and dusting at seven;
It's victuals at eight, and dishes at nine;
It's potting and panning from ten to eleven;
We scarce break our fast ere we plan how to dine.

"With grease and with grime, from corner to center,
Forever at war, and forever alert,
No rest for a day, lest the enemy enter—
I spend my whole life in a struggle with dirt.

"Last night, in my dreams, I was stationed forever
On a bare little isle in the midst of the sea;
My one chance of life was a ceaseless endeavor
To sweep off the waves ere they swept over me.

"Alas, 'twas no dream! Again I behold it!
I yield; I am helpless my fate to avert;"
She rolled down her sleeve, her apron she folded,
Then laid down and died, and was buried in dirt.

—Anonymous.

Common Sense About the Stage

New York World: Along with its "white list" of plays recommended to Catholic theater-goers, the Catholic Theater Movement publishes a statement of its attitude toward "problem" plays and disease drama as follows:

It is only too true that there are hideous social sores, unutterable depths of sin and degradation, the existence of which cannot be ignored. Whether the stage is the place to deal with these awful problems of life is in itself a problem to be solved. But every thoughtful man and woman must deplore the untold evil wrought by the dilettante and the seeker after sensation who, in alliance with speculative managers, do not hesitate, under one pretext or another, to force upon our young men and women a premature knowledge of and familiarity with the most hideous phases of human degradation.

This is the attitude of sane and self-respecting theater-goers everywhere toward the influences which have recently degraded the drama. It is the attitude not alone of Catholics but of all persons, irrespective of religious belief, who have the best interest of the stage at heart and regard indecency under whatever name as its worst menace. Only managers who have profited by the exploitation of vice and social disease, and reformers who have been the victims of their own delusions, can hold any other opinion.

The "silent censorship" of the Catholic Theater Movement is to be commended as conducing to a cleaner and more reputable stage.

Men Slaves to Fashion.

Youngstown, Ohio, Telegram: If you do not think men are slaves to fashion, watch their hats. The manufacturers set a style, whereupon the majority of men put their heads in it, no matter whether they match or not. The one redeeming feature of the spring styles is they will be so large that if one feels at all embarrassed it will be easy to hide from sight. They will be hard and soft, light and dark, in a variety of shades, but big. There will be no complaint the owner does not get his money's worth.

When a man stands before a glass balancing one of the new hives over his ears he will think it looks a little odd on him, maybe, but he will take it, for so long as men will wear something they do not need they might as well have the enjoyment of variety.

An Apostrophe to Tobacco

Tom Bodine in the Paris, Mo., Mercury.

Now comes Lee Shippey, in the pride of youthful conquest, and testifies boastfully that he swore off smoking at 11:42 o'clock Monday two weeks ago and has adhered faithfully to a noble resolve ever since—fourteen whole days. That's a torturous, almost interminable length of time for a man with a temperament to forbear, and while not over-credulous we stand ready to accept the statement as true provided he will go before a notary and on his oath answer the following questions: How long has he been smoking? What does he smoke, alfalfa or real tobacco? Does he smoke after meals only or all the time? Does he smoke for the spiritual satisfaction derived or for carnal pleasure alone? Does he smoke cigars or a pipe? If he will answer these questions we stand ready within fifteen minutes thereafter to announce definitely to the people of Missouri whether he is lying or telling the truth—whether he has really quit or merely does not appear before friends and kindred with a halo of fog enveloping his promethean brow, in lieu thereof slipping down to the office on Sunday morning, locking the door, firing up and for an hour enjoying such delight as only the smoker foresworn can enjoy in this world. Skepticism on our part grows out of hard and bitter experience oft repeated. It is the acrid residue of a hundred defeats. No man who smokes real tobacco out of a cob pipe just after breakfast or supper, for the intellectual uplift and the spiritual satisfaction resulting—who goes at it tenderly, with fondness in every move and gesture—was ever known to quit for more than forty-eight hours.

After that the paper grows dull, the magazine stupid, the book, even though it be verse, insipid and uninteresting. The daughters of music, where there be such, become screechers of harrowing discord, philosophy is a vain thing, politics the travail of fools. The keys on the typewriter cry out in anguish and "inspiration" stands afar off, generally, in a cloud of smoke. At morn, you say "Would God night were here," and at night "Would God the morn were here." Optimism takes wing and life takes on a pale and sickly cast of thought. The bare bodkin were preferable. The ornate, carnal, make-believe smoker, he who empties a half-smoked pipe into the cuspidor or throws away a whole cigar every hour or so, can easily quit, but not the man who smokes with the spirit and the understanding. Tobacco is the most subtle brain stimulant known to man. It is significant that it is an American plant and its discovery and general use were contemporaneous with the beginnings of modern democracy and of social progress, the Elizabethan period being the starting point. In proportion as we have smoked, and smoked with understanding, have art, literature, industry, invention, discovery—and freedom grown apace. We are not superstitious about the matter, but having given up a hopeless struggle, have become convinced that tobacco has a divinely ordered place in nature's scheme. It beats no retreat from life, its paradises are no loaf of bread and wilderness affairs, but street, office, the seat of a riding cultivator, where men not only dream great dreams, but do great deeds as well. As to young and confident Mr. Shippey ('tis no mere pang of helpless envy that provokes us) he's got to show us.

Columbus.

Behind him lay the gray Azores,
Behind the Gates of Hercules;
Before him not the ghost of shores;
Before him only shoreless seas.
The good mate said: "Now must we pray,
For lo, the very stars are gone,
Brave Adm'r'l speak; what shall I say?"
"Why, say: 'Sail on! sail on! and on!'"

"My men grow mutinous day by day;
My men grow ghastly, wan and weak."
The stout mate thought of home; a spray
Of salt wave washed his swarthy cheek.
"What shall I say, brave Adm'r'l, say,
If we sight naught but seas at dawn?"
"Why, you shall say at break of day:
'Sail on! sail on! sail on! and on!'"

They sailed and sailed, as winds might blow,
Until at last the blanched mate said:
"Why, now not even God would know
Should I and all my men fall dead.
These very winds forget their way,
For God from these dread seas is gone.
Now, speak, brave Adm'r'l, speak and say—"
He said: "Sail on! sail on! and on!"

They sailed, They sailed. Then spake the mate:
"This mad sea shows his teeth tonight.
He curls his lip, he lies in wait,
He lifts his teeth as if to bite!
Brave Adm'r'l, say but one good word:
What shall we do when hope is gone?"
The words leapt like a leaping sword:
"Sail on! sail on! sail on! and on."

Then pale and worn, he paced his deck,
And peered through darkness. Ah, that night
Of all dark nights! And then a speck—
A light! A light! At last a light!
It grew, a starlit flag unfurled!
It grew to be Time's burst of dawn.
He gained a world; he gave that world
Its grandest lesson: "On! Sail on!"

—Joaquin Miller.

(The London Athenaum several years ago pronounced this the best American poem.)

The Woman Who Must Be Amused.

The Unpopular Review: I have witnessed many cases of personal unhappiness among women, some of domestic shipwreck, owing to a wife's moral confusion, some of women hounded by unreasonable discontent into public careers for which they have no capacity, and, perhaps the most pitiful cases of all, women pursued by an aimless restiveness which finds no stated expression, but colors atrociously their every act. Peace and clear thinking wither as those women pass. They are mostly victims of a false theory that a woman has the innate right to be amused, and that for such amusement she need not pay. It will be seen that I have described what foreign neurologists call la maladie Americaine. And as a matter of fact the fallacy that a right to be amused exists is more prevalent in America than elsewhere.

A Fine Chance for Optimism.

Philadelphia Ledger: "I understand you got into jail," said the warden, "on account of a glowing mining prospectus."

"I was quite optimistic," admitted the gentlemanly prisoner.

"Well, the governor wants a report on conditions in my jail. I want you to write it.

Statesmen, Real and Near

By Fred C. Kelly.

Washington, April 24.—(Special to The Herald.)—If you or I, patient, sad-eyed reader, were desiring to buy, let us say, a mule, we would simply go to them that sell, look over the spring stock of mules, pick out a nice one, pay our money and go our way. That would be all there would be to it.

But when the government buys a mule—ah, what a grave, momentous and complicated thing it may become.

For example, the purchase of a mule in Honolulu may completely upset the peace and dignity of high officials of the United States treasury.

* * *

One morning Byron R. Newton, assistant secretary of the treasury, came to his desk feeling well fed, in excellent spirits, and as care-free as if he had not a worry in the world. The first thing he picked up from his desk was a request from the chief quarantine officer in the public health service of Hawaii, for permission to buy a new mule to replace one that was run down in health. It was an urgent case, the letter said, for they simply had to have a mule, so would the proper official of the treasury department please rush permission at once?

But urgent or not, Newton found himself all snarled up with precedent and custom to such an extent that he was obliged to know more about the case. Just how ill was the mule they already had? Might it not, perhaps, get well and be its old self again? These were questions that had to be answered. So he wrote back for fuller particulars.

* * *

In due course he received a letter from the chief quarantine officer at Honolulu inclosing a grave communication from the territorial veterinarian, who wrote in this sad strain:

"Pursuant to your request I have this day examined an old brown mule which has been used by your department for several years for general work on Quarantine island. The examination failed to show anything materially wrong with the animal except advanced age, while standing still, but when led around it appeared to be extremely nervous, as if afraid of falling down and did in fact knuckle over a couple of times in a manner which I fear would have resulted in a fall, had not the animal been on guard against it. This condition must be ascribed principally to old age or senile-debility, somewhat resembling locomotor ataxia in man. Under no circumstances should this animal be taken into town as it is likely to fall and injure itself severely if unduly excited on hard, rough, or slippery pavement."

When Newton got that far it was all he could do to keep from bursting right into tears. But he knew that he must try to bear up, for if he gave way to his emotions, his work would suffer and that might hinder the work of the entire department. Still, it was tough to think of that poor old brown mule away off in Honolulu, struggling against locomotor ataxia, while he, Newton, sat at a mahogany desk in Washington unable to offer it so much as a wisp of hay.

Even as he thought of these things, another letter came from the chief quarantine officer at Hawaii, with later and even sadder developments:

"I have the honor to report that the brown mule at the station fell down while hitched to the wagon, and——"

"'Have the honor to report,' is good," murmured Newton to himself.

* * *

"The mule and his mate were purchased from the army in 1904," the letter went on. "They were not young mules even then."

Thus the full pathos of the situation began to dawn upon Newton. He could picture the mule and its mate toiling through life together year after year, even after reaching a time of life when they might be willing to retire from active work and let their tasks fall upon younger shoulders. The letter outlined in solemn detail what the varied and manifold duties of the mule had been, confirming the impression that its life had been one comparatively devoid of sunshine or frivolity, and ended up with an appeal that an order granting permission to buy a younger and heartier mule be sent by cable.

And, indeed, would it not have been an inhumane government that would haggle quibbled over a few dollars' cable toll in a case like that?

* * *

At the close of the day at the Baltimore convention when Mr. Bryan made his speech that turned the tide from Champ Clark to Woodrow Wilson, a young correspondent from one of the Boston papers climbed wearily aboard an interurban car to slip over to Washington and get a few hours' sleep out of his system. After he had been riding along for half an hour he noticed that he was sitting next to another young man whose weary attitude showed that he, too, had been attending the convention and losing sleep.

That gave them a community of interest and the newspaper man said to his seatmate: "Bryan's speech was a corker, wasn't it?"

"I don't care for Bryan at all," said the other tired young man, only he didn't say in quite that mild language.

"I'm not crazy about Bryan myself," went on the newspaper toiler, "but I do think that just by way of giving the devil his due, that was some speech he made."

"Well," observed the other, "I thought the speech was rotten, but I may be prejudiced. I'm Speaker Clark's son."

And that ended the conversation—for both of the young men were extremely tired.

The Cry for Newness in Modern Life.

Woman's World: There may be no new thing under the sun, but there are always new angles to the old things, and it is this newness that the world seeks so passionately. We are getting it in multitudes of swift changes and it is pushing the race forward in splendid ardor. But the main thing we are learning is that a civilization that breaks its workers down early and casts them aside for younger victims needs a lot of improvement. In thirty-three states we now have laws to save the children, and that is a gratifying start. What we further need is the correction of conditions that will make easier the lives of average men and women and allow them to grow toward old age with more hope and less wear. It can be done and the progress of the world will be better because there will be fewer wrecks along the way. Safety first, is the present cry of transportation. Why not apply it to all the interests and forces of the times? The craze for newness will be with us always—but it is now as it has ever been, the more haste the less speed.

No Company Excepted.

London Answers: Snapp—Well, all the fools are not dead yet.

Mrs. Snapp—I'm glad of it. I never did look well in black.

Duluth and The Herald

Bouquets and Brickbats from the State Press.

In Plain View Now.

Eveleth News: The new steel plant at Duluth will be completed this year and ready for operation in the spring of 1915. So enormous is the scale on which the project is being developed that it is entirely beyond the comprehension of most of us. Eventually 10,000 or more men will be employed and added to these will be their families and the usual number of people to engage in trade and other industries. That the population of Duluth will be increased fully 50 per cent as the direct result of the establishment of the steel plant there, is a very conservative expectation. With all this assured, Duluth appears at last to be about to realize the hope that some day it would be the metropolis of the Northwest.

Even Quentin Reads Herald Ads.

Minneapolis Tribune: Not that it is of particular interest to anybody, but from the ad department of The Duluth Herald we discover that the manager of the most prosperous auto company there is advertising for a horse.

Not Too Late for Them Yet.

Madison Independent-Press: The scheme of The Duluth Herald to let the army of jingos invade Mexico is not a bad one.

Likes the Plan.

Chisholm Miner: The Duluth Herald (this year, the same as last year, the best newspaper in the Northwest) has taken up the question of the state of Minnesota furnishing dynamite to settlers in Northern Minnesota. There is little doubt in the opinion of this paper but that the plan of The Herald would work out fine. It is a pretty darn good thing to keep agitating and not allow it to drag any longer than is possible. The farmers of Northern Minnesota are up against mighty ticklish propositions and it would be a heap big blessing to them if the state would take up manufacturing and furnishing dynamite in large quantities at exceedingly low prices. Sure, give the farmer a deserved lift.

Coming at Right Time Too.

Aurora News: A cement plant at Duluth will mean much to Northern Minnesota, as cement will be much used in road work in the future.

Invitation for the Camels.

Princeton Union: The Duluth Camels are looking for a new location. As camels can go for a period of at least two weeks without taking a drink, we suggest that they locate in Princeton. Camels, we would welcome you.

The Right Idea.

Fergus Falls Wheelock's Weekly: The Duluth papers have recently contained much self-congratulatory matter over a recent opinion rendered by the interstate commerce commission. Its Commercial club is now scattering broadcast over the Northwest pamphlets explaining this decision and what it means to the West at least from a Duluth standpoint.

The pertinent thought in this for us of Fergus Falls is not that Duluth felt that freight rates were discriminatory and unfair, but that when she wanted something right bad she had a live and cohesive body of business and professional men to go after what she wanted and they brought the bacon.

In union lies strength. No matter where it exists, an organization like the Duluth Commercial club, working together for the common good and with the selfish thought of personal profit elminated, can and will do much toward the making of a better and a more prosperous city.

The Fears of the Poor

Albion Fellows Bacon in the Survey: The same words do not mean the same thing to them and to us. "Safety"—that is a thing we rarely think of, except when we travel. In our homes we tuck our children into soft white beds, bolt doors and windows, and with a comfortable thought in the background of Providence, our good man, and the police, sleep with no thought of fear.

I know of mothers who have to lock their little children into their tenement rooms when they go to work for the day. Others have told me that they have to hurry home, after washing, for fear their little girls will get home first, from school, in terror lest they fall in the hands of one of the low drunken lodgers in the place. There are mothers who tremble when an ambulance or a patrol wagon rumbles by, and who hide their little ones under the ragged coverlet when the noise of heavy feet on the stairs tells that a carousal is over or a fight is on. And if the daughter steals in later, off the street, they are thankful that she comes in at all.

"But the lowest types, not having our sensibilities, cannot suffer so keenly," people say.

If they have not our refined anguish, neither have they our higher consolations. Superstition shadows the poor with countless fears, as we find at every turn. Some writers dwell strongly on the paralyzing terror of want, the fear that the Wolf will actually end them. Do they fear it so, those half brothers of Romulus, who have known only that same shaggy foster mother? Or do they think of her as Hood's seamstress thought of Death—"I hardly fear his terrible shape, it seems so like my own." The higher types do show this fear, with an equal dread of the almshouse. The thought of a pauper burial preys upon them, too. Some of them will take us to a little battered trunk, and show us, folded away, the clean sheets, the coarse shroud, and the small sum of money saved, though they starve, so they "can be put away right."

The First Rain.

Between the ranks of thistle, down the road,
The phantom flocks of sunbeams hastily,
With gilded feathers of the butterfly,
Disperse away; anon a weary load
Of grain, wild scented, being freshly mowed,
Comes smoking on; as from the brooding sky
There fall deliberate, still showers of shy,
Big raindrops all around. The teamsters goad
The swaying oxen, steaming, to a shed
For covering. The brown and dusty trees
Are whispering, as eagerly they spread
Their branches in the rain, and stand at ease
And listen, yonder in the clover bed
The happy buzzing of ten thousand bees!

—Charles Warren Stoddard.

Poor Marksmanship.

Columbia University Jester: Drug Clerk—Did you kill any moths with those moth balls I gave you?

Disconsolate Customer—No, I tried for five hours, but I couldn't hit a one.

Twenty Years Ago

From The Herald of this date, 1894.

***President Cleveland today sent to the senate the nomination of E. C. Stringer to be United States attorney for the district of Minnesota. Mr. Stringer has a law office in St. Paul, but his residence is really in Hastings.

***John Carroll of West Duluth left today for Chicago to spend the summer.

***The wedding of A. C. Walker of the O. K. shoe store and Miss Nettie Hall of Stockton took place on April 22 at the Methodist church at West Duluth.

***The Dixon returned this morning from her second north shore trip. She got as far as Grand Marais this time and found the harbors clear at Beaver Bay, Grand Portage and along the north shore, except at Isle Royale and Thunder Bay, which are still ice-locked.

***The Windsor hotel has been sold by James Sullivan to Ed. Dormedy of West Duluth.

***The Zenith City Baseball club organized for the season last evening and elected William Essler captain and Eugene J. Silberstein manager.

***W. C. Agnew, general manager of the Mahoning Iron company, has taken a residence in Chester terrace and will occupy it with his family, they having arrived from Youngstown, Ohio.

***Mrs. W. B. Davies of Mankato, Minn., is visiting her daughter, Mrs. W. A. Riddle of 316 East Fourth street.

***A. R. Merritt returned this morning from Idaho, where he has mining interests.

***E. J. West, Jr., manager of the Duluth Dry Goods company, has returned from a business trip to the East.

***Ned Smith leaves tomorrow for Cleveland, where he will be in the employ of the American Steel Barge company.

***Henry Mayhew of Grand Marais came in on the Dixon this morning.

***There was a meeting this morning to reorganize the chamber of commerce, but the scheme ran up against a constitutional snag and but for the rescuing hand of such parliamentarians as T. W. Hugo, F. E. Searle and others the scheme would have ended in complete failure. Finally arrangements were made to have the old directors change the by-laws and another meeting will be held. The chief difference of opinion was regarding barring members from voting on questions in which they are personally interested.

Radium in Cancer.

New York Sun: The discussion of the possible action of radium in the cure of cancer by the American Surgical society must be regarded as another warning to sufferers not to depend upon an unproved claim while precious time may be slipping away which alone may offer security against fatal results.

It is gratifying to the Sun that the positive views expressed in this assemblage of our most eminent surgeons justify the warning offered in these columns several months ago that "the logical and safe deduction from all known facts would be to consult a surgeon for every swelling or growth, whether painful or not, without delay, and to submit to its removal, which every conscientious surgeon will advise if he regards it as malignant. Awaiting a possible radium treatment is exceedingly dangerous. Superficial cancer has been cured and removed by application of radium without disfigurement; in these cases it should be applied whenever practicable without delay."

This is the only safeguard against fatal outcome in this malignant disease; only by immediate medical attention to every abnormal swelling not due to inflammation may the number of deaths from cancer be reduced. This fact is so well recognized that it is the duty of lay journals to deviate from the conventional procedure of avoiding the discussion of treatment and to place this warning before their readers again and again.

Hand in Hand.

Woman's Home Companion: "I tell you, Pat, my boy," the big man of the town confided, laying a patronizing hand on the young Irishman's shoulder, "I wish I had your tongue."

"Sure, sor," grinned Pat, "but it would do yez no good without me brains."

Gloves—Every weight for dress and street wear, in all the newest shades—$1 to $2.50.

The BIG DULUTH
WILLIAMSON & MENDENHALL

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest, but discussions of sectarian religious differences are barred. Letters must not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer though these need not be published. A signed letter is always more effective, however.)

ALL THAT IS NEEDED.

To the Editor of The Herald:
Will you kindly answer the following: Is a child, born in the United States, whose father has not been naturalized, a citizen of the United States when he grows to maturity? Thanks in advance. LOUIS READ.
Duluth, April 22.

He is.—The Editor.

THE CRIBBAGE PROBLEM.

To the Editor of The Herald:
I am not a professional cribbage player, in fact, know very little about the game. I find, however, that it is possible to make twenty-six by holding four five-spots and turning a jack. You make fifteen-twelve out of your cards, the four fives count twelve and two for turning a jack, making a total of twenty-six. Yours respectfully, FRANK McMERITY.
Duluth, April 22.

Mr. McMerity has made an error in his count.—The Editor.

FOUND IT EASY.

To the Editor of The Herald:
The solution of your egg problem, to my mind, is a very simple proposition. Of course, the lady had seven eggs to start with. By selling half an egg over half her eggs, or 4, she would have three left; then selling at the second store half an egg more than half the eggs left, or 2, would leave one; and at the third store selling half an egg more than half her balance, or one, would leave her empty handed. Yours for something harder,
ALFRED A. BRAYTON,
Board of Trade.
Duluth, April 22.

THE ROBIN.

To the Editor of The Herald:
Little Robin Redbreast,
Bless your little heart.
Glad to see you back,
Sorry when we part.

Worms are getting large,
Cherries will be ripe,
The sun will warm the day,
Moon will bless the night.

You will build birdie's home
On the swinging tree,
Then lay your speckled eggs,
Happy as can be.

When the dear birdies hatch
Strain your glossy throat
Singing praise of gladness—
Never miss a note.

When they get feathered out,
Flirt their little tails,
Watch for tabby cat,
Waiting on the rails.

She, like an evil sprite,
Watching all alone
To catch the little ones
When they're leaving home.

Then your poor heart will ache
Many anxious hours,
Guarding your dear treasures
From the evil powers.

If they escape the cat,
And the boy and sling
Bring them all back with you
In the coming Spring.
JERO MEECO O'LEY.
Duluth, April 22.

KIND WORDS.

To the Editor of The Herald:
As the gentle drops of water
Wear away the hardest stone,
So the tender words of kindness
Wear away the hardest heart.
FRANK LETHERT.
Duluth, April 24.

UNFAIR TAXES.

To the Editor of The Herald:
From time to time I have noticed several questions being answered by the Editor through the Open Court columns. I have two or three questions which I wish the Editor would kindly answer:
First. How is it that some people have to pay so much more taxes than their neighbors?
Second. It is right that they should pay about twice as much as their neighbors who own property of the same value?
Third and last. If it is not right, who should I go to in order that I may get this wrong or mistake righted?
Thanking you in advance,
ONE WHO IS OVERTAXED.
Biwabik, Minn., April 22.

If your property and your neighbor's are of equal worth, they should be assessed alike. If they are assessed alike, your taxes will be the same. If they are not assessed alike, you should see your local assessor about it.—The Editor.

MORE ANSWERS TO ADDITION PROBLEM.

To the Editor of The Herald:
Regarding the addition problem, my answer is as follows:

11
3
3
3
1

Total 21

Thanking you for the space, yours truly,
FLORENCE GRACE MADERER,
107 West Fifth street.
Duluth, April 22.

To the Editor of The Herald:
Would like to have you state in your Open Court section if the following solution to the addition problem is correct: Nine plus 7 plus 3 plus 1 plus 5-5 equals 21. Yours truly,
H. E. S.
Eveleth, Minn., April 22.

The problem is evidently a "catch" problem, and both of the above answers are correct. No straight combination of six numbers would give the answer 21, for the reason that all of them are odd numbers and six of them would give an even answer.—The Editor.

ANY SIXTH GRADE PUPIL SHOULD SOLVE THIS.

To the Editor of The Herald:
As mathematical problems seem to be very popular with The Herald I also wish to submit a problem.
A farmer had five sons. He sent them into town to sell eggs. He gave the first son twenty eggs, the second forty, the third sixty, the fourth son he gave eighty, and the fifth he gave 100 eggs. At first the price of eggs was high, but afterwards the price went down. At what price did each son sell his share of the eggs in order to bring home the same amount of money for the number of eggs each had? Thanking you in advance for the space, I remain, yours very truly,
GERTRUDE FLINT,
Duluth, April 22.

HERE'S ANOTHER.

To the Editor of The Herald:
Would you kindly give this problem a space in the columns of your valuable paper? In twenty-five squares, in five rows of five each, so place and arrange the numbers from 1 to 25 inclusive, that all the rows of figures when added from bottom to top, from side to side and diagonally, or twelve rows in all, will all total the same. Yours truly, R. McN.
Duluth, April 23.

JOHNSON REFUSES PARDON FOR RUEF.

Sacramento, Cal., April 24.—Governor Johnson has declined to pardon or commute the sentence of Abraham Ruef, serving fourteen years for bribery, or to intercede with the state board of prison directors for a parole for the imprisoned San Francisco political boss.

TO AID CHILD LABORER.

Charitable Bodies Will Work to Secure Legislation.

Miss Edna G. Meeker, secretary of the Associated Charities yesterday received a letter from Owen R. Lovejoy, general secretary of the National Child Labor committee, New York city, asking the co-operation of the local organization in an effort to secure desired legislation. The plan as outlined by Mr. Lovejoy is to make direct appeals to congressmen from every state through Associated Charities and other organizations for favorable consideration of a $165,000 appropriation for the Federal Children's bureau.

DULUTH AND SUPERIOR ELKS SMOKE THE PIPE OF PEACE

"HELLO, BILL."

More than 100 members of the Duluth lodge of Elks visited the Superior herd last night as the initial move to still further promote the friendly relations between the members of the antlered tribe at the Head of the Lakes.

Last night's visit marks the beginning of a series of friendly calls between the lodges on both sides of the bay. A large delegation went over in a chartered car and about an equal number made the journey in automobiles.

Following the regular meeting there was a most enjoyable smoker and social session. The spirit of good-fellowship prevailed. Several excellent addresses were delivered by members of both lodges and these were plentifully interlarded with jokes and stories, many of them at the expense of various individuals who were present.

The local delegation was headed by Exalted Ruler Neil Morrison, who extended a cordial invitation to the Superior Elks to return the visit. Olaf Johnson, past exalted ruler of the Superior lodge, responded and assured the visitors that they would journey to the Duluth side of the harbor at an early date.

CLAN TO WELCOME GLASGOW MEN

Noted Scots Will Be Given Dinner By Duluthians Monday Night.

Clan Stewart will entertain two officials from Glasgow, Bailie McMillan and Assessor Walker, at a dinner at the Commercial club next Monday evening.

When it was announced that these distinguished Scotchmen would be here on April 27, the clan instructed its chief, A. G. Macaulay, to get in touch with them and invite them to be the guests of the local Scottish organization. Chief Macaulay reached them at Minneapolis last night and they accepted the invitation.

A large committee has been appointed to arrange a suitable program for the occasion. Simon Clark is the chairman of this committee. The other members are Alex Anderson, A. G. Macaulay, J. H. McKinnon, John Burnett, John G. Ross, D. A. Cameron, John McDonald, G. A. E. Finlayson, A. G. McKnight, T. W. Cameron, P. T. McDonald and George Maxwell.

W. D. Gordon of Minneapolis, the royal deputy of the Order of Scottish Clans for Minnesota, will accompany the visitors to Duluth and will be present at the banquet on Monday evening.

Besides informal talks by the visitors and others the Bagpipe band will discourse highland music and there will be a lively program of Scottish songs and readings.

Clansmen who intend to be present are asked to communicate with either Simon Clark or A. G. McKnight, so arrangements can be made to take care of everyone who wishes to attend.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by Boyce drug store under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

HEAR APPEAL IN ELECTION CONTEST

Supreme Court Will Pass on Legality of Last City Election.

Arguments in the McEwen-Prince mayoralty and Farrell-Murchison-Hicken commissionership election contest cases, which were decided in favor of Mayor Prince and Commissioners Hicken and Murchison in the district court and were appealed, will be heard before the Minnesota supreme court at St. Paul today. The lower court upheld the original canvass of the ballots as made by the city council. The election was the first one under Duluth's commission form of government.

Warren E. Whipple and Walter F. Dacey are attorneys for W. E. McEwen, defeated candidate for mayor, and O. J. Larson and Neal E. Beaton are representing Mayor Prince at the supreme court hearing. In the other contest, the attorneys are Baldwin, Baldwin & Holmes for Farrell; Crassweller, Crassweller & Blu for Hicken and J. A. Hanks for Murchison.

POSTPONES PAVING.

High Bids and Unsettled Conditions Halt East Grand Forks Job.

East Grand Forks, Minn., April 24.—(Special to The Herald.)—The eleven bids for paving in the residence district were rejected by the city council as the result of remonstrances by citizens, and it is probable that the work will be laid over for a year.

The bids were regarded by many as being too high, and unsettled business conditions were regarded by numerous citizens as a sufficient basis for requesting the postponement of the work.

POSLAM'S RARE HEALING POWER AMAZES ALL

Poslam daily proves a cause of wonder to thousands because of the rapidity of its action in soothing, controlling and eradicating any skin disease.

Its healing powers are felt at once. Itching stops. Inflamed skin is comforted. Improvement may be noted daily.

All druggists sell Poslam. For free sample, write to Emergency Laboratories, 32 West 25th Street, New York.

Poslam Soap is best for skin and scalp. Improves. Beautifies.

New toilet size, 15 cents.

Woman's Realm

The state normal school has announced the summer session of 1914 will begin June 15 and close July 24. Classes will be organized and work assigned the opening day in order that recitations may begin the next morning.

The conditions for admission are the same as those for the regular yearly session. Those who have completed the full course of an accredited high school, those who hold either a first or second grade certificate to teach in the state, or those who hold an eighth grade diploma and are sufficiently mature and capable to justify the belief they could succeed in the work, will be admitted without examination. An entrance examination will be required of others.

There will be a charge for tuition only for those who do not pledge themselves to teach the two years immediately following graduation.

The school will certify final standings of a satisfactory grade if the student wishes to use such standings in applying for a teacher's certificate. These standings will be accepted by the superintendent of education in lieu of the usual examination. To earn such credits it is imperative the student be present throughout the entire term.

The program of recitations includes all subjects required in the state examination for first and second grade certificates and as many others as the demand may warrant and the facilities of the school permit.

In regard to subjects and credits, the prospectus says:

"The number of subjects a student may carry is limited to two, with two recitations daily in each. This provides the possibility of earning two term credits in six weeks. Those who wish to take both credit work and any part of the course for rural teachers will be restricted to one credit subject and not more than two of the other.

"A special course for teachers of the rural schools of St. Louis county will be provided. Six weeks' work, with daily recitations, will be given in the common branches, penmanship and rural methods. Such work will not lead to credits in the normal school and those who take both credit and non-credit courses will be allowed but one of the former and two of the latter. Those who may desire further information concerning this work should address Supt. N. A. Young, courthouse, Duluth."

Surprise Party.

Miss Miriam Linder was pleasantly surprised at her home Wednesday evening in honor of her birthday. The evening was spent in music and games, after which a luncheon was served. Those present were:

Misses—
Ruth Berne, Bertha Stoltz, Gerda Leed, Margaret Lundsten, Ellen Carlson, Irene Dick, Edith Fredrickson, Ruth Lundsten, Wilma Linder, Rose Skogstrom, Judith Meline, Helen Linder.

Messrs.—
Leonard Cato, Elbert Ohman, Reuben Grant, Floyd Kennedy, Roy Stromgren, David Olson, Fred Stoltz, Hadden Stromgren, Lorimer Linder.

Twentieth Century Club.

At the meeting of the executive board of the Twentieth Century club this morning, it was decided by unanimous vote to postpone the presentation of the play of the Juvenile Drama class until the week following the close of the public schools in June. The presentation of the play was left in the hands of the executive board and the drama coach, Mrs. R. B. Liggett.

Woman's Relief Corps.

At the meeting of J. B. Culver corps No. 69, W. R. C., yesterday plans were completed for a dinner to be given Saturday evening in Memorial hall. A program by the members of the local post will follow the dinner.

The regular monthly card party of the corps will be held in Memorial hall Thursday afternoon, May 1. The hostesses for the occasion will be: Mrs. R. M. Stitt, Mrs. Etta Tischer, Mrs. B. M. Sampson, Mrs. Ross and Mrs. Robert Gillon.

Mrs. Marcus W. Bates will be the hostess for the social half hour at the next regular meeting, to be held in Memorial hall May 14.

Leeds-Moore.

The announcement has been made of the engagement of Miss Jessie Louise Leeds of London, Eng., to Alec Gerald Moore of Kesaryia, Camparan, India. Miss Leeds has been in India since September as the guest of her uncle, Mal. Leeds, and of others.

Miss Leeds is the granddaughter of Mrs. Katherine Walbank of 428 East Second street and until eight years ago lived in Duluth. Her mother, Mrs. E. E. Leeds, is the guest of Mrs. Walbank.

Saturday Club.

The members of the Saturday club will hold their annual business meeting and election of officers tomorrow afternoon at 2:30 o'clock at the library clubroom.

Priscilla Club.

The Priscilla club met yesterday afternoon at the home of Mrs. C. M. Hon, 207 East Second street. The next meeting will be May 14 with Mrs. E. L. Kimball of 119 Anoka street.

Aftenro Program.

The Aftenro society has arranged a program to be given this evening at the Norwegian-Danish church, Twenty-fourth avenue west and Third street. In addition to piano, vocal and violin solos there will be songs by the choir of the church and addresses by Mrs. J. J. Moe, president of the society, and John Heitman. A social hour will follow the program.

NEW YORK WOMAN OWNS PRIZE WINNING DOG

MRS. MALCOLM STRAUSS.

Mrs. Malcolm Strauss of New York was one of the exhibitors at the show of the French Bulldog Club of America last week in New York and her champion Beau Athos took several prizes.

A VISIT

to the Sign of the Samovar is always worth while.
It will be doubly so next week.
JANE LISTMAN'S SHOP
732 East Superior Street.

Suffrage Tea.

The suffrage program and tea given Wednesday evening by the Ladies' Aid of the Forbes Memorial M. E. church at Proctor attracted such a large crowd to the church it was a case of "S. R. O." On the program was a biography of Susan B. Anthony, a talk on "Equal Rights" and a supposed anti-suffrage argument. Dr. Mary McCoy, president of the Duluth Women's Suffrage association, spoke on "Equal Suffrage." A playlet and suffrage songs were also given.

The suffrage tea, given in connection with the program, was the first one to be given in the Northwest. The tables were decorated in yellow, the national suffrage color; paper napkins bore the slogan, "Votes for Women" in yellow; and the sandwiches were tied with yellow ribbon.

So much interest was shown in the meeting and the women of Proctor became so enthusiastic upon the subject of equal suffrage, there was talk of starting a Women's Suffrage association.

Tea at Club.

Miss Esther Adams and Miss Helen Congdon will be hostesses at the Kitchi Gammi tea tomorrow afternoon from 4 to 6 o'clock.

Rouchleau-Thompson.

Louis Rouchleau, formerly of this city but now living in Minneapolis, has announced the marriage of his daughter, Lillian, to Arthur Raymond Thompson. The wedding took place yesterday. Mr. and Mrs. Thompson will be at home after Oct. 1 at 1770 Hennepin avenue, Minneapolis.

Beta Theta Pi Dinner.

Invitations have been sent out to thirty-three members of the Beta Theta Pi fraternity in Duluth, Superior and on the ranges to a dinner to be held at the Spalding hotel the evening of May 2. The members will assemble at the hotel at 6:30 o'clock and will have dinner at 8 o'clock.

St. Paul's Church.

Tomorrow, St. Mark's day, holy communion will be celebrated at St. Paul's Episcopal church at 10:30 o'clock in the morning.

Young Peoples' Society.

A Young People's society with a membership of twenty-four has been organized at Park Point Mission chapel. The officers are: Charles Huff, president; Ralph Thompson, vice president, and Miss Susan Gude, secretary and treasurer. Meetings will be held every Sunday evening at 7 o'clock. Topics will be assigned to various leaders. The society will probably join the Central Christian Endeavor organization.

Lodge Notes.

Odd Fellows and Rebekahs of Proctor will celebrate the fifth anniversary of the institution of the order in their town and the ninety-fifth anniversary of the founding of the order, by a banquet and program Saturday evening. Grand Patriarch S. A. Farnsworth and Grand Master A. N. Annes will speak.

For the convenience of the Odd Fellows and Rebekahs of Duluth who wish to attend the Proctor celebration a special train will leave the union station at 6 p. m. and Fifty-seventh avenue west at 6:15 p. m. and will reach Proctor in time for the banquet. A train will leave Proctor for Duluth after the close of the festivities.

* * *

Duluth lodge, No. 10, D. of H., will entertain at cards this evening at 9 o'clock at Maccabee hall. All members of D. of H. and A. O. U. W. and their friends are invited.

* * *

Duluth hive, No. 1, Ladies of the Maccabees, gave a card party this afternoon at Maccabee hall. The hostesses were Mrs. C. H. Stang, Mrs. Clara Maser, Mrs. Mary Coye and Mrs. A. J. Gladman.

* * *

Alpha club of Alpha council, No. 1, Modern Samaritans, gave a dancing party last evening in Foresters' hall. The hall was decorated in pink, green and white. Blewett's orchestra played for the dancing. Mrs. W. A. Hatley presided at the punch bowl. The members of the reception committee were: Miss Gertrude Dickey, Miss Myrtle Noble and Miss Grams. The assisting hostesses were Mrs. E. Maseau and Miss Helen Grams.

AT CENTRAL HIGH.

Representatives for Wallace Cup Contest Chosen.

The contest to decide the representative for the Central high school of Duluth in the Wallace cup contest of May 8 was held this morning. The contestants and their subjects were: Luke O'Brien, "Connor;" Dorothy Patton, "The Man in the Shadow;" Emmanuel Coo, "Toussaint L'Ouverture;"

MISS DOROTHY PATTON.

Esther Abrahamson, extracts from "The Music Master."

The judges were Miss Ethel Rockwood, Principal Young and A. J. Alexander.

The first place was awarded to Miss Dorothy Patton, who has represented the school the two previous years and the second place to Luke O'Brien. The contest was a very close one.

Personal Mention.

Mr. and Mrs. T. F. Cole of 1701 East First street returned yesterday from Bellaire, Fla., where they spent the winter.

* * *

Mr. and Mrs. G. W. Buck of 1624 East Superior street, returned today from Florida, where they spent the winter.

* * *

Mrs. Charles N. Thorp of 1131 East First street, who has been in Minneapolis as a delegate to the meeting of the state missionary societies, returned home today.

* * *

Mrs. T. K. Hicks and Miss Winnifred Hicks of 426 Twelfth avenue east, have returned from a nine months' trip to Europe. They visited Germany, Holland and England, and stopped in Boston and New York on their way home.

* * *

* * *

Mr. and Mrs. James Riley, formerly of Iron River, Wis., have taken the house at 305 East Third street.

* * *

Mrs. Amos Frankenfield of 307 East Third street has gone to Los Angeles to visit her sister, Mrs. Henry Phoeler, and friends.

* * *

Miss Margaret Byron of 2408 West First street left yesterday afternoon for Hibbing to spend the week end with friends and relatives.

* * *

Mrs. T. J. Wasely returned to her home at Hibbing yesterday afternoon after having been a guest at the home of her mother, Mrs. William Byron, 2408 West First street.

* * *

Miss Margaret Swift of Mexico City, Mexico, is the guest of Mrs. C. W. Elston, 1509 East Superior street.

* * *

Mrs. James H. Madden, 721 East First street, has as her guest her sister, Mrs. W. H. Elliott of New York, and Mrs. Thomas Bardon of Ashland, Wis.

* * *

Mrs. James Armstrong of Louisville, Ky., is the guest of Mr. and Mrs. Whitney Wall, 1716 East Third street, for a week.

* * *

Mr. and Mrs. J. H. Hearding and family, 2305 East Third street, have returned from Maitland, Fla.

* * *

Mrs. John Stone Pardee, who has been visiting friends in the city, has returned t oher home at St. Paul.

* * *

Mrs. F. A. Miller of 26 Minneapolis avenue is ill with scarlet fever.

* * *

Miss Ethel Grenier of 218 West Third street will go to Hibbing tomorrow to spend the week-end.

Amusements

TONIGHT'S ATTRACTIONS.

LYCEUM—"The Blue Bird."
ORPHEUM—Vaudeville.
EMPRESS—Vaudeville.

Amusement Notes.

A woman's ready sympathy and quick wit suggested to Maurice Maeterlinck the idea of "The Blue Bird," which is at the Lyceum all this week. The story of how the philosopher-mystic was lured from gloomy, abstruse themes to the writing of such a cheery, optimistic world-classic is as follows:

One winter evening the poet's wife brought to her husband at their home in Saint Wandrille, Normandy, the story of a little lost wanderer in the neighboring forest. The child's sister was sick, and the mother, a poor woodcutter's widow, was unable to obtain employment or even to give her children bread. And so the little girl, trusting in the old Norman folk tale that whoever desired happiness must first take captive the blue bird, set out in the cold and the snow of a murky winter eve to hunt the bird that was blue and thus put an end to her family's troubles.

The poor creature (her blue bird still far, far away) was found in a half frozen condition by Mme. Maeterlinck. She was warmed and fed, and soon the Maeterlincks brought real happiness to the wood cutter's sad home by providing clothes, food, medical attendance and finally by seeing to it that the mother of the family got paying work to do.

The poet's imagination took fire at the incident. He wrote a tale of the blue bird quest, based on the girl's experience, but the web and the woof of it were the waking and dream fancies of a boy and a girl hunting the blue bird, while accompanied by a troop of fairies. When the short narrative was completed, he read it to his wife.

Now many a scribbler has read his completed brain-product to the spouse of his bosom and been rewarded with the kindly smiles and comments of that somewhat partisan judge. In this case, however, it amounted to a good deal more. For as Georgette Le Blanc, Mme. Maeterlinck had been for years a favorite on the Parisian stage, and the theatrical instinct—the instinct for scenes and situations—was keen within her.

"Why don't you dramatize it?" she asked suddenly.

"Impossible!" exclaimed Maeterlinck. "It is only a dream. No one else would appreciate it as you and I have, for we have been in the atmosphere of the story, living it in a way, with an actual soul over at the edge of our own forest."

"Just try it," insisted the lady. "If the idea has pleased us, it will please others. And I am sure it has dramatic value; through it a real message of love and happiness may be brought to millions of souls we do not know."

Slowly, laboriously (as is Maeterlinck's habit in writing for publication) he began the composing of "the play and gradually the dramatic structure of "The Blue Bird" took form and body out of the fantastic dream-story. The dramatic interest grew from act to act. And behind the outer plot of Tyltyl and Mytyl's childlike quest for the blue bird lurked ever the big central thought of mankind's quest for the secret of life, i. e., knowledge and happiness.

* * *

Performers taking part in two acts at the Duluth Orpheum this week are enthusiastic boosters for Australia.

Jackson and McLaren, the two Australian woodchoppers who are on this week's bill, are naturally loyal to their own country. Miss Willette Whitaker, or in real life Mrs. F. Wilbur Hill and her husband, also have a good word for the Never-Never land. They have just returned from a tour of Australia.

"Few people in this part of the world realize what a big country Australia is," said Peter Jackson. "It is as large as the United States, and all of it is within the temperate or tropical zones. That means that all of it is habitable, and yet the population is hardly more than the state of New York, or about 6,000,000 or 7,000,000. Of these the two cities of Melbourne and Sydney have about 1,500,000. There are vast areas of unexplored territory especially in the northwestern part of the continent. The settlements are just a fringe around the coast, and the interior is almost entirely undeveloped. The greatest drawback to the country is the lack of water in the interior. Australia has no large rivers for such an enormous country. The mountains are around the coast and many of the rivers flow inland. That makes development difficult. The country needs more railroads, although a transcontinental line is now building. It is a working man's country and the working men control the government. There are few great fortunes, for the laws discourage land speculation. Australia needs above all other things, big capital to develop its resources."

Miss Whitaker is equally enthusiastic about Australia, and says the Australians have the English thoroughness and the American push and enterprise.

* * *

Possessing a baritone voice that is exceptional for a woman, Marie Dreams presents a program of song numbers that are easily the hit of the vaudeville bill, which opened at the Empress theater yesterday afternoon for the remainder of the week.

Miss Dreams sings her songs with apparent ease and yet they are sung in a range rarely attempted by women singers. Her rendering of "I'm On My Way to Mandalay" and "You've Won My Heart Away" scored especially at the opening performances yesterday. Although not the headline number, her act is deserving of considerable praise.

"The Stage-Door Johnnies," with Trix Oliver, who plays the leading role in the song sketch, headlines the pleasing bill. There are six people in the cast and the members introduce a program of songs and dances, together with a good line of comedy, that makes the number deserving headline honors. Among the song hits are "Always Something Wrong," "Meet Me Girlie," "Good-bye Rose," and "I'm the Brightest Star on Broadway."

A musical act is presented by Foster and Foster. The male member of the team is an able piano player and his individual style of playing scored a hit.

Of typically country style and somewhat reminiscent of Sis Hopkins is the act presented by Marie Scott King, who calls herself a country girl comedienne. Miss King dresses and looks the part, besides being able to introduce a patter of jokes and country songs that are far above the average.

An excellent photo picture is shown at the close of the bill, which will continue until tomorrow evening with the regular daily matinees.

GOLDEN ANNIVERSARY SALE
1864 1914

$50

Is yours if you act before May 15th

During this sale Kranich & Bach are deducting $50.00 from the price of every K. & B. piano sold in the U. S. A. We are their only representatives in Duluth.

ORPHEUM DARK ONLY ONE DAY

Motion Pictures Will Replace Vaudeville During Summer Months.

The fourth vaudeville season of the Duluth Orpheum theater will come to a close on Saturday, May 8, according to an announcement made today by Manager H. E. Billings. The theater will reopen for the fifth season on Sunday afternoon, Aug. 23.

The Orpheum will not remain dark this summer. Special feature films will be presented during the summer season, and the theater will be reopened on Monday, May 11 with the first of these feature films.

"This has been the most successful season the Duluth theater has had," said Manager Billings this morning. "The attendance has been larger and the shows better than in any year since the theater opened.

BRAINERD REVIVAL BRINGS RESULTS.

Brainerd, Minn., April 24.—(Special to The Herald.)—At the union revival meetings held at the tabernacle there have been converted to date 178 people. The services are held by many of the churches of the city, the evangelist being Mr. Lowry and the singer Prof. Moody. A chorus of 200 voices is led by Mr. Moody, while two pianos join in the harmony.

OBSERVATIONS

By PEGGY PEABODY

Policewoman All Right for Certain Duties.

People are of two minds about the usefulness of policewomen, apparently, although the balance of opinion seems to be in their favor. However, in Chicago, where they have been given fair trial, several objections have been raised, among them that they are not able to make arrests, as witness a recent strike among waitresses.

I believe a platoon of policemen had to be sent to disperse the mob that gathered to watch the vanquishment of the unruly waitresses by women with police authority. Policewomen are so new that their appearance anywhere would be the signal for a demonstration difficult to quell. Besides, their effectiveness does not lie in clubbing their sister women into submission, nor in making arrests. Theirs is rather a preventive function.

That women vested with the proper authority will be able to prevent much evil in public places, particularly among the inexperienced and indiscriminate of their own kind, I do not dispute for a single moment. I believe thoroughly in the policewoman for certain duties which certain evils necessitate amid our complex civilization.

In Pittsburg no one but the proper authorities know who they are. They wear no uniforms or other conspicuous badges of office. Of course, they have their credentials of authority, but little more is needed. Rather would the appurtenance of the police officer mitigate against their usefulness, for in no sense do they take the place of the regular patrolman, nor should they aspire to.

The policewoman's work today to be effectual should be conducted quietly and shorn of the visible signs of police authority as far as possible. Her field will be one of prevention. It will be her province to stand between the young girl and the wrong step she is about to take. She will be able to send young girls loitering about the streets and elsewhere to their homes. She will be able to investigate their places of abode, inform their parents of their tendencies and, if possible, sow the seed in both girls and parents that will induce both to preserve self-respect.

Therein, in a hundred different ways which it shall be her duty to disclose, she will fill a niche that is crying to her today. That she will meet with many problems and difficulties and have a hard row of it, I do not doubt. Few will take her offices kindly or gratefully, which only goes to prove how greatly she is needed. The policewoman, to be worth while, must have a motherly eye for all young, foolish things with feet set upon the primrose path.

'BLIND' BUYERS ARE SURPRISED

Lumberjack Gets Kimonos and Lace and Peddler Gets Piccolo at Express Company's Annual Auction Sale.

Kimonos and fluffy lace to a lumberjack, a piccolo to a rag peddler and some garden seed to an individual, who was seedy enough without it, were among some of the drawings made at the annual auction of the Western Express company held yesterday at 312 West First street.

The articles and packages sold by Harry Silver, auctioneer for the express company, were "knocked down" to the highest bidder, neither the former nor latter knowing what was contained in the bundles. They were among the collection gathered during the year at the express office and not called for. It is customary to sell such parcels to help pay the expense in delivering them here.

What looked to be a healthy prize in a large suitcase brought brisk bidding yesterday afternoon and the sale grew quite heated toward the end. Finally a woodsman made the high bid, and he was given the prize. Upon opening the suitcase he found it contained several kimonos and a bundle of fluffy lace.

An old peddler also entered the fray and purchased a large bundle that looked as if it might contain some clothing, but when he opened it he found to his surprise a piccolo. It had been wrapped with thick coverings of paper.

But the surprise of the day came when several seedy-looking individuals entered the arena and joined in the bidding. One of them saw what appeared to be a valuable bundle and he offered $1.25 at the first bid. No one would go higher and he was given the prize. It contained about 100 packages of seeds.

One man drew a thousand souvenirs of a lodge convention held about a year ago in a Southern city, while a gray-haired old man was highest bidder for what proved to be a large set of doll dishes. He only smiled to find these articles and he became even happier when he found a small girl outside the store, who was glad to take the playthings home.

It was a great day for those who would buy "blind," and also for the express company. Everything that had been stored up during the last year was sold at the auction, which continued from early morning until late in the evening.

GRONNA LOOKING OVER HIS FENCES

Grand Forks, N. D., April 24.—(Special to The Herald.)—United States Senator A. J. Gronna, who is in the state, will make a statement of his candidacy for re-election in a few days.

Senator Gronna is learning the extent of damage done to his political fences by Andy Miller and J. H. Worst, the other senatorial candidates already in the field. He will spend about two weeks here, looking after spring farming operations on his lands near Lakota, as well as feeling the political pulse.

Senator Gronna expressed approval here yesterday of President Wilson's program in dealing with the Mexican situation, insisting that it was absolutely impossible to avoid the fight.

Get This Fellows! Latest Styles $15

When You've Decided You've Thrown Enough $10 Bills Away on Clothes—Let Me Make Your Spring Suit for $15.00.

Why should you pay $25 or $30 for a made-to-measure suit? What is there about a suit that should make it cost that much? Three or four yards of cloth—the cutting—trimming—sewing? No sir! It's the process by which it's made.

The man who buys his cloth by the single piece, like the small custom tailor, pays a big price for it. The bigger man who buys by the bolt, pays a big price. These men pay the manufacturers a profit, the jobber, the wholesaler, and then they add on their own—and you pay $25 or $30 for the suit.

That's the whole scheme, fellows. But listen. I am a branch of the Glasgow Woolen Mills. Our woolens are figured in carloads. They come direct from the looms, to our big floors, where they are inspected, shrunk and rerolled. Think of what we save, fellows. Think of how little the goods for a suit costs us. Next to nothing. Then we sell direct to you. We cut out jobbers, sub-jobbers, wholesalers, and all their profits. And the result is, fellows, that I can make you the swellest little Spring suit that ever graced your back for $15.

Break away from the old fogey idea that $15 can't buy a real made-to-measure suit. Just ponder about what I've told you. It's modern business that makes this low price possible. You've been following an old rusty idea that's cost you $10 more for every suit you've bought—Chase it! Let me make your Spring suit. Pay me $15 for the suit and I'll put a crisp $10 bill in the right hand pants pocket, or pay me $15 straight. Take me up? George Mills, Mgr. Glasgow Woolen Mills Store, 338 West Superior street.

P. S.—I've got the finest made-to-order pants proposition in town. Regular $5, $6 and $7 trousers are going now for $2.75. Come in and look them over.

—Copyright, 1914, by Leon Sigman.

West End ARE HEADED FOR NORWAY

Party of 100 Duluthians Will Leave Sunday—More to Follow.

Duluth, the ranges and Northeastern Minnesota will send fully 800 excursionists to Norway and other points of Europe this summer, according to the predictions of P. George Hanson of P. George Hanson & Son, general agents for the Northwest for the Cunard steamship line.

On Sunday nearly 100 residents of the city will leave and join a party which will take a special train in Chicago for Boston, where the party will embark on the steamship Carmania on Tuesday. The party will arrive in Norway about May 10.

On May 2 another party will leave the city and will sail on the steamship Campania from New York on May 5. In this party will be Rev. and Mrs. J. H. Nervig and family of the Zion Norwegian Lutheran church of the West end.

"Every Norwegian who feels that he can afford a trip to his fatherland is going to Norway this year to attend the centennial celebration," said Mr. Hanson. "The reservations for berths on the various steamships this year exceed those of any other year in the history of the line. Many of our subagencies also have reported large parties which will leave."

Parties are being made up to sail on the Franconia from Boston on May 12; on the Cenonia to sail from New York on May 13; the Lusitania to sail from New York May 19; Laconia, sailing on May 26 from Boston; and the Mauretania leaving New York on May 26.

One one of the latter two boats will go the Normanna Singing Society of Duluth and the Norden Singing Society of Superior. These societies will represent Duluth and the Head of the Lakes during the summer with the 1,000 Norwegian singers of America, who will attend the celebration.

WILL ASK FOR Y. M. C. A. BRANCH

Club Men and "Y" Directors Will Meet to Go Over Plans.

Directors of the Y. M. C. A. will listen to requests to lend their support to the proposition of establishing a branch in the West end at a meeting this afternoon. Members of the West End Commercial club, who have been active in investigating the need of such an institution for this end of the city, will appear before the central body.

The members of the committee are Rev. George E. Silloway, Martin Timmerman and John J. Moe. The committee is sanguine that the directors will take steps to assist the West end in raising the funds to secure a site and the put up a building this summer that will cover the needs of this end of the city.

WILL CONFER THE THIRD DEGREE

Trinity Lodge Will Be Addressed By C. B. Miller and Others.

Trinity lodge, (U. D.) A. F. & A. M., the new West end Masonic "blue lodge," will give its first exemplification of the third degree on a class of candidates at a special meeting to be held next Thursday evening.

The occasion will be celebrated by a banquet, which will be served for the members of Trinity and other lodges of the city who have been invited to attend. The banquet will be served at 6:30 o'clock in the Woodman auditorium, Twenty-first avenue west and First street. The third degree will be conferred on a class of five candidates in the lodgeroom above the banquet hall at 8 o'clock.

Congressman Clarence B. Miller and County Attorney Warren E. Greene, past masters of Ionic lodge, No. 186, will be the principal speakers. The program of speeches will be brief and snappy. Preparations are being made to take care of a large attendance at the banquet.

Trinity lodge is one of the youngest lodges in the state. Carl E. Lonegren is worshipful master and R. E. Wheeler is secretary. The present membership of the lodge is about 100.

WILL CONFIRM CLASS ON SUNDAY

Bishop Morrison Will Conduct Services at St. Peter's Church.

Confirmation services will be held Sunday for a class of twelve at the St. Peter's Episcopal church, Twenty-eighth avenue west and First street. The class, which has been prepared in Swedish, will be publicly catechised and the sacrament and holy baptism will also be administered. The services will begin at 11 o'clock.

The members of the class are Jennie Whittstett, Isabel Hall, Alberta Johnson, Evelyn Seaberg, Myrtle Paulson, Edith Rundbeck, Eunice Johnson, Edith Olson, Alpha Olson, Harry Seaberg, Russell Palmer and Ernest Ridgewell.

At 8 p. m. the Rt. Rev. James D. Morrison, bishop of Duluth, will preach and administer the apostolic rite of confirmation.

The class is the second that has been prepared under the direction of Rev. W. E. Harmann. Last Sunday Rev. Harmann confirmed a class of sixteen at the Christ's Episcopal church of Proctor. The latter class was the second largest in the Duluth diocese and with the additional class Sunday, Rev. Mr. Harmann will have confirmed this year more children than any other Episcopal rector at the Head of the Lakes.

You Will Remember

by the photograph how he looked when he was home. Always preserve the family picture. Group Photos our specialty.

THOMPSON, THE PHOTOGRAPHER, 2030 West Superior Street.

SVEA CLUB WILL GIVE CONCERT

The Svea Glee club has arranged for a concert in this city prior to the club leaving for Minneapolis to take part in the Sangerfest of the American Union of Swedish Singers of America to take place beginning June 7 at Minneapolis. The concert by the society will be held on May 15 at the First Methodist church, Third avenue west and Third street.

The program being prepared for this concert will include many selections in both English and Swedish. Some of these songs will be from among the numbers to be given at the Sangerfest.

The Svea Glee club and the Orpheum Singing society will represent Duluth at the gathering of singers in Minneapolis. Both organizations have been chosen as two of the sixteen clubs out of fifty-three societies which will appear on the program as individual organizations.

West End Briefs.

Rev. Gust F. Johnson of Minneapolis spoke in English last night at the revival services at the Swedish Mission church, Twenty-first avenue west and Third street. The services will be continued this evening.

Sons of Sweden lodge, No. 170, Vasa Order, have arranged to entertain this evening at the Woodman hall, Twenty-first avenue and First street.

Rev. E. H. Rasmussen of Minneapolis is expected to arrive here tomorrow to begin a series of revival services to be held in the Central Baptist church next week.

Carl Fisher, 220 North Twenty-second avenue west, was pleasantly surprised last evening by a number of friends. Twenty guests were present.

The confirmation class of the First Norwegian-Danish M. E. church entertained last evening at a social in the parlors of the church.

EARNINGS INCREASE.

Street Railway's Receipts Show Gain Over Last Year.

Earnings of the Duluth Street railway continue to reflect an increased movement of traffic in this city. For the second week of April they were reported at $2,816, a gain of 10 per cent over the corresponding period last year. For the year to date, there has been an increase of 9.2 per cent in the system's revenue over the same period in 1913.

Under the influence of the company's steady gains in traffic, a good investment demand for its stock is noted on the Eastern exchanges. The issue is now quoted at $63 on the Toronto stock exchange.

BRAZILIAN LEGATION TO TAKE ARCHIVES.

Washington, April 24. — Secretary Bryan has announced that arrangements have been made with the Brazilian government whereby the archives of the American embassy in Mexico City will be turned over to the Brazilian legation in that city. Mr. Bryan made this announcement after a conference with Ambassador Dagama.

A method of involving the use of copper sulphate has been perfected in Surinam for destroying bacilli which injure tobacco plants through the twigs.

EXTENT OF ARMY WORK IN MEXICO HINGES ON CARRANZA'S ATTITUDE

(Continued from page 1.)

liness manifested toward the United States by Gen. Villa, military leader of the Constitutionalists, in an interview with American Consul Carothers at Juarez, and it was believed that his attitude might have considerable influence on Gen. Carranza. He is quoted as having said that one of the chief reasons for his coming to Juarez was to show the American people that his attitude was friendly. He emphasized the improbability of the rebels being brought into armed conflict with the United States, but said, however, that he was ready to obey orders of his chief.

Carranza himself has made a statement which has been variously interpreted. While apparently considered in some quarters as tantamount to an ultimatum for American withdrawal, Constitutionalist representatives point to it as friendly in character. Precautions were taken, however, by the administration when it ordered the restoration of the prohibition against the shipment of arms into Mexico.

No Designs Against Mexico.

The president reassured Gen. Carranza that he has no designs against Mexico, but that he considers it necessary to demand full reparation from Huerta for indignities committed against the United States. He followed up the statement by ordering troops to Vera Cruz, and to assist in forcing the demands moved other troops to the international border as a precaution against possible disorders and for any other eventualities. In addition to the movement of land troops, the naval strength of the United States in Mexican waters is to be increased by a special service squadron.

Considerable uneasiness continued to be felt here over rumors of anti-American demonstrations in Mexico City where there are still many United States citizens and over more definite reports of similar troubles at Ensenada on the west coast of Mexico, where it was reported last night that the American consulate had been attacked. Steps were immediately taken to afford relief in the latter case by the dispatch of a gunboat from San Diego. Word of its arrival at Ensenada was hourly expected.

Embargo a Military Measure.

The embargo in force today against arms and ammunition all along the Mexican border was a military measure taken by the war department. It was declared as a part of the operations of the army and navy, and no action by the state department was involved. By this means the technical re-establishment of the legal embargo, which it was thought might have embarrassed the administration in its attitude toward the Constitutionalists in Northern Mexico, was avoided. The embargo will be enforced by the entire military organization on the border and under military orders to customs authorities.

Orders to hold up all shipments of arms across the Mexican border were sent today by the treasury department to all collectors of customs. The orders are in co-operation with the war department's efforts to enforce the embargo. Collectors were notified to "hold all shipments of arms until further notice."

BIG FORCE NOW LANDED

(Continued from page 1.)

three-inch field pieces, which were taken to the front today.

Rear Admiral Fletcher's headquarters at the Terminal hotel were guarded by machine guns, while seven field pieces are held in reserve in the vicinity.

Work Is Effeient.

The commissary, ordnance and quartermaster's departments worked efficiently so that along the docks there were no piles of merchandise as is usually the case when an armed force is landed. All supplies were promptly distributed among the troops, who also received distilled water from the ships under the supervision of the medical department.

Over 250 Mexican sick and wounded were found in the San Sebastian hospital, when it was inspected today by a navy surgeon. Among the wounded was only one woman, who had been shot through the arm.

In the mortuary of the hospital were found forty unburied Mexican dead. A supply of ammunition also was found here. The building had been protected from the gun fire of the warships and the rifle fire of the landing party by the hospital flag, although it appears certain that there was much sharpshooting from the roof of the hospital.

Bad Conditions in Hospital.

Conditions in the hospital were found to be so bad that three navy surgeons were detailed today to assist the hospital authorities. Food and medicine were supplied from the Solace.

All the American wounded have been taken on board the Solace. Until the arrival of the Solace the wounded and the prisoners had been sent on board the Prairie, which soon became overcrowded.

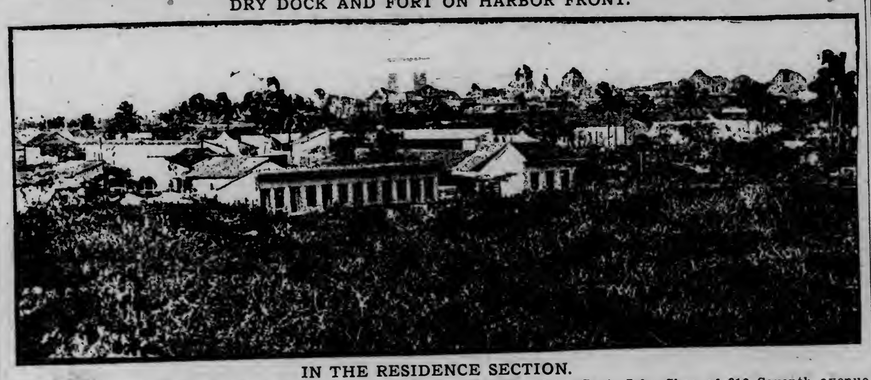
The medical department today made an inspection of the sanitary conditions of the city and opened negotiations with the Mexican health officials in the hope of inducing them to return to their work.

Two Customs Houses.

With Commander Herman O. Stickney of the Prairie, appointed commander of the port, the American authorities today undertook the administration of the customs. For a time in reality there will be two customs houses. Mariano Ascarraga, the Mexican customs collector, is not inclined to serve under American supervision, but declares he will take charge of the undispatched business which was in hand at the moment of occupation.

The Ypiranga's Cargo.

Hamburg, Germany, April 24.—The Hamburg-American line today authorized the publication of a statement declaring that the military supplies on board the Ypiranga consisted of empty shrapnell shells and empty ammunition chests with gun carriages for one battery of artillery.



HARBOR AND DRY DOCK AT VERA CRUZ

VIEW OF THE HARBOR.

DRY DOCK AND FORT ON HARBOR FRONT.

IN THE RESIDENCE SECTION.

The above pictures of Vera Cruz harbor were given to The Herald by Capt. John Shea of 312 Seventh avenue west. Capt. Shea, who is a well-known local tugman, has visited almost every port of any importance in the world. These pictures he got in Vera Cruz when he was in that city several years ago. "The harbor there is not unlike the Duluth harbor," said Capt. Shea. "Vera Cruz is a city somewhat smaller than Duluth. The harbor is also smaller than the Duluth harbor, but not unlike it in formation, with a long point of land running out."

D. H., 4-24-14.

SATURDAY POST ADVERTISEMENTS

ENDORSED BY

The Columbia

You hear a great deal about the mysterious wonders effected by advertising, but there is no mystery about it. Advertising is the simplest of all factors in business. It is letting you know about things. If these things are good, advertising pays; if they are not good, you'll never buy them a second time nor will you recommend the store that sold them to you.

If a nationally advertised article is indorsed by The Columbia you can buy it with our guarantee—there is no risk about it so far as you are concerned.

This week's Saturday Evening Post has announcements of the following good things for sale at The Columbia:

Society Brand Clothes on page 1.
Aristocratic suits for young men.

Stein-Bloch Suits on page 34.
Clothes that have value and character.

Sincerity Clothes on page 53.
Thoroughbred garments with personality.

Kenyon Weatherproof Coats on page 69.
They wear as well as they look.

Wilson Bros. Union Suits on page 33.
No edges or buttons between the legs.

Porosknit Underwear on pages 42 and 43.
Cool, light, comfortable, durable.

Columbia Shirts on page 79.
A new shirt for an unsatisfactory one.

Also Arrow Collars (62), Cheney Silk Cravats (67), McCallum Silk Hose (66), Boston Garters (46), and Paris Garters (64).

The Columbia Clothing Co
At Third Ave. West.

"DEATH TO AMERICANS!" IS SHOUTED BY MOB IN MEXICO CITY STREETS

(Continued from page 1.)

landing of the American bluejackets and marines at Vera Cruz was made known in the Federal capital by extra editions of the local newspapers, crowds of students and government office employes began to gather.

Mob Smashes Windows.

By dusk a mob had assembled in front of the American club, where they smashed windows and howled insults and threats at the American citizens inside, all of whom they threatened to assassinate.

An appeal to the governor of the Federal district brought police protection, but not before the crowd had shattered many of the windows in the clubhouse and in adjoining property belonging to Americans.

"Death for Americans!"

Until 2 o'clock in the morning bands of excited Mexicans marched through the streets singing the Mexican national anthem and shouting "Death for the Americans!"

An American jewelry store was looted by the Mexican mob at night. The police looked on without taking any action.

The American club, the leading American hostelry, and the offices of the Mexican Herald were closed, owing to threats of the mobs to burn them and murder their occupants.

Federal "Victories."

The newspapers, probably acting under the directions of Gen. Huerta, issued many extra editions, in which they printed dispatches stating that El Paso, Laredo, Nogales and other places had been taken by the Mexicans. Other dispatches announced that the Federal troops had gained a great victory at Vera Cruz, where they expected to surround and drive the invaders into the sea.

The papers declared that the battleship Louisiana had been sunk by a Mexican torpedo. An alleged dispatch from the south said that Emiliano Zapata, the Southern rebel, was coming to join forces with Gen. Huerta.

Railroaders Discharged.

All the American officials employed by the national railroads and the Mexican Railway company immediately were discharged by the government in order that no trains could be operated except under the supervision of the government.

At the American embassy orders were expected from the Mexican government that the arms and ammunition recently permitted to enter should be given up. This was in retaliation for the seizure of Vera Cruz by the American fleet.

At 6 o'clock Wednesday evening Nelson O'Shaughnessy, charge d'affaires, had not received his passports, but he was preparing to leave.

The refugee train took twenty hours to make the journey from Mexico City to Vera Cruz. There were many delays, but no mishaps.

Refugees Reach Vera Cruz.

Vera Cruz, Mex., April 24.—A refugee train from Mexico City, carrying 150 Americans, 100 Germans, 300 Spaniards and Mexicans and 60 Englishmen, arrived here last evening under the personal conduction of Thomas B. Hohler, charge d'affaires of the British legation.

The exodus from the capital was arranged through the joint action of the British and German diplomatic officials with the war office. The train proceeded slowly and with many interruptions reached the Mexican outposts at Tejeria at noon, where it was detained for two hours while a search was made by the Mexicans for railroad officials, four of whom were arrested and held until Gen. Maas, at Soledad, was communicated with and their release ordered.

Those arrested were General Superintendent Comfort, Superintendent of Locomotives Blake, National Superintendent of Locomotives Burke and General Superintendent Rowe, all of whom had been formally discharged by the Mexican government when the roads were taken over.

The passengers on the trip suffered little inconvenience, all who desired being furnished with Pullman accommodations. There were fourteen cars in the train, and a majority of the passengers were women and children.

TROOPS OFF TO VERA CRUZ

(Continued from page 1.)

Wives of men or officers here and there watched their husbands. When daylight came with a cold rain many women stood bareheaded on the seawall overlooking the camp, seemingly unmindful of the weather, as they watched passing companies for a look at their own men folk.

One military prisoner was compelled to remain in a low-ralled enclosure at the end of the camp where all the troops passed in their march to the front in full view. He walked round his enclosure, all the time watching the troops.

Troops From Snelling.

The four infantry regiments which left today joined the mobilization camp from the following posts: Twenty-eighth infantry, Fort Snelling, Minn.; Fourth infantry from Fort Crock, Neb.; Seventh infantry from Leavenworth, Kan.; Nineteenth infantry from Forts Meade, in South Dakota, Sill in Oklahoma, and Leavenworth. Company E, engineers, which also boarded the transports, came from Leavenworth. The Sixth cavalry, which is also ordered to sail with all possible dispatch, came from Fort Des Moines, Iowa. Just when the cavalry would get away was not settled early today.

In addition to the four transports, Meade, Sumner, Kilpatrick and McClellan, which were taking on troops this morning, the quartermasters' department was endeavoring to secure one or two commercial steamers, which were intended principally to transport cavalry and artillery.

Brig.-Gen. Frederick Funston, who will command the brigade now embarking, was waiting at his headquarters last night when the sailing orders came. He had the orders telephoned back to Galveston, where the whistles of the four transports blew a prearranged signal summoning their crews. An hour after the order reached Galveston every officer and man in the city knew it and was either at camp or on the way.

BATTLE IN STRIKE ZONE

(Continued from page 1.)

roused by the clanging of a bell. An outpost had seen a light which he supposed to be the headlight of the engine on the troop train. All preparations for an attack were made, when it was learned that a mistake had been made.

Armed Men Take Position.

A series of signal shots in the hills shortly after 4 o'clock indicated that the armed men have taken up a position over an area extending from Munson south to Rugby station, a distance of over five miles.

At 9 o'clock it was reported that the troop train had halted near Munson and the troops were detraining. Cavalrymen were said to be scouting.

Aguilar, normally a thriving mining and agricultural town of 2,000 population is depopulated today. Terrorized by the events of the past four days during which the strikers' colony at Ludlow was wiped out in a battle between strikers and militia, and the mining camps of Empire, Southwestern, Bordhead and Royal were wrecked or burned, the citizens have fled in all directions.

The train which reached Trinidad last night from Lynn, the nearest railroad station, was jammed with refugees from the center of the disturbed district. Many families have also fled to neighboring ranches and other towns out of the strike zone.

The town's water supply is cut off by the destruction of the pumping plant which also supplied the camps at Hastings, Delagua and Berwind. Similar conditions exist in probably a dozen mining camps in Huerfano and Las Animas county.

Women and Children Rescued.

Aguilar, Colo., April 24.—With an army of heavily armed strikers estimated by some of their leaders as not less than 600 patrolling this vicinity, and with parties of defenders besieged in the Empire and Southwestern mines, the Aguilar canyon was awaiting the arrival of state troops which it was agreed would be the signal for sanguinary fighting. The three women, two children and two wounded men taken from the mine under an armistice yesterday were sent to Pueblo last night. They are the following: William Waddell, superintendent of the Empire mine, shot through the shoulder; Matt Waddell, son of William Waddell, and clerk in the Empire mine, shot through leg; Mrs. William Waddell, Mrs. Matt Waddell and 9-month-old daughter; Louis Waddell, 13, son of Mr. and Mrs. William Waddell and Mrs. John McIntyre, wife of the mine blacksmith.

The rescued women said that the air in the mine was pure, but there was not a particle of food. The party in the mine now, all men, is estimated at about twenty. It includes J. W. Siple, president of the company, and John Church, who was reported dead.

The women declared that they had been well treated by the miners after their rescue from the blockaded stope.

7 PER CENT INTEREST

We are offering in amounts of $1,000 or more preferred stock in a growing local industry with $50,000 cash capital and $45,000 net surplus. Earnings last year $37,000. Additional capital is needed for expanding business. Interest semi-annually. This stock will be retired in three to five years at par or better.

NO INTERVENTION BY GREAT BRITAIN

Report of Opening of Diplomatic Negotiations Is Denied.

Washington, April 24.—Diplomatic officials here today denied reports that Thomas B. Hohler, charge of the British embassy at Mexico City, had been sent to confer with Admiral Fletcher at Vera Cruz with a view to opening diplomatic negotiations for a solution of the Mexican difficulty. It was stated on high authority here that Mr. Hohler had been sent to Vera Cruz to look after the interests of the British subjects leaving Mexico City.

Reports were denied that Sir Cecil Spring-Rice, the British ambassador here, had ordered Mr. Hohler to Vera Cruz with a view to possible negotiations for diplomatic intervention. It was stated that no diplomatic intervention on the part of Great Britain had been suggested, nor was it contemplated. Secretary of State Bryan also declared that no such intervention had been discussed. Sir Lionel Carden, it was learned, also declared that no such intervention had been discussed.

Sir Lionel Carden, it was learned here today, has arrived in Mexico City and will take charge of the British embassy there until July 1, when he will proceed to his new post at Rio Janeiro.

MORE TRANSPORTS TO CONVEY TROOPS.

Washington, April 24.—The quartermaster corps of the army over night completed arrangements whereby the passenger steamer San Marcos of the Mallory line, and the freighter Satilla of the Texas Steamship company are now at the disposal of Gen. Funston at Galveston as an additional transport to take his command to Vera Cruz. Horses and artillery equipment that cannot be placed on the four government transports already at Galveston will be put aboard the Satilla, and the San Marcos will provide transportation for the remaining troops.

Alfonso Would Arbitrate.

Madrid, April 24.—King Alfonso of Spain, it was reported today, has expressed his willingness to act as arbitrator between the United States and Provisional President Huerta if agreeable to both sides.

MUST PAY FOR A BROKEN LEG

Contractor Louis Ramstad Loses Verdict in Damage Suit.

Because Ole Oleson, woodsman, walked into an unprotected excavation on Twentieth avenue west late one night last fall and broke his leg, Louis Ramstad, the contractor who dug the hole, must pay him $472.55, according to a sealed verdict opened in Judge Ensign's division of district court this morning.

Oleson brought suit for $5,729 damages against the Duluth Brewing & Malting company, Charles Danielson and Louis Ramstad. Danielson and Ramstad were contractors last fall for the erection of the Rex hotel at Twentieth avenue west and Superior street. The brewing company is the owner of the building.

Before the case was given to the jury yesterday, Judge Ensign granted a motion to dismiss the cause of action as against the brewing company and Contractor Danielson. The only question submitted to the jury was the liability of Contractor Ramstad. The accident occurred on the evening of Oct. 24 last.

After the jury had retired yesterday afternoon Carl Hvall, one of the men on the panel, was taken suddenly ill. A physician was called and upon his advice the juror was excused from service and removed to his home. This was consented to by attorneys for both sides.

The eleven men reached a verdict at 11:30 o'clock last night. The court not being in session at the time, the finding was sealed and was brought into court this morning.

SPORTS

The Herald Sporting Gossip Is Reliable

Just Between You and Me

By BRUCE

SOMEONE once remarked upon the feasibility of discovering a golden room in a mansion constructed almost entirely of plebeian wood. Speaking for the first time of pugilists, the remark above referred to recalls the fact that some of the boys with the sloppy frames carry the interior works of shining gold.

In his prime, which was short and to the point, Ray Temple was one of the real recent lightweights of this country. Temple, whose real name was something on the order of Tempke, was slender, even attenuated, and a flat chest and a long neck—but when Raymond started those weird and snaky hooks and fantastic glides around the ring, he resembled a human rattlesnake in action.

Kid McCoy was never selected by the jury of ring judges as anything but a mark until he had passed the stage of ring adolescence and licked so many tough ones that the followers of the game were compelled against their hard dying belief to admit that he was one of the realest fighters that the ring has ever produced.

But you never can tell—the old human organism is a most peculiar thing.

One evening, a year or so ago, Cyclone Johnny Thompson came to Superior and went through the motions of fighting. John was so fat that the flesh fell, gently undulating, over his belt and flapped about under his arms.

Young Mahoney opposed the Cyclone one, and despite the fat, despite the advancing ring years of this Sycamore relic of more illustrious days, the Thompson one showed some of the wise birds enough to convince them that had he cared to open up he still possessed quite a bit.

Opposed to the case of Thompson is that of Papke. The Kewanee man is through, and as years go, he is young and a mere novice compared to the veteran Thompson.

Why do some go fast—and why do some last so long?

Farmer Burns is 53 years of age, and he can beat a lot of the heavyweight wrestlers of this country. Frank Klaus is a young man as the years of the athletic age are computed—and he is through as a fighter.

Eddie Hanlon gave the rare promise of becoming one of the greatest little fighters this country ever produced—and at an age when most boys are thinking of their junior high school dignity, this boy was through with the ring.

Opposed to the case of "Cute" Hanlon is that of Frank Craig, the Harlem Coffee Cooler. This colored man was able to fight in the years that are as old as Methuselah, as they compute the years of the ring. Why is it?

Some slim youths, pale and wan, go in and fight like demons, showing endurance and gameness; others of the variety of the draft horse, possessed of large and swelling muscles, are lemons of radiant verdure. How can one explain it?

Some frogs leap further than you would naturally suppose—and this same principle of progress applies to the lads of the ring. Some great surprises have been flung violently forth in the shape of rather sickish looking youths.

* * *

This From Chicago.

EDDIE KANE is of the opinion that Charley Cutler will defeat Jess Westergaard. Edward was at one time associated with Willie Hoppe, is of Chicago and but recently accompanied the Cutler one on a tour over various parts of the Northwest.

The Chicago man declares Cutler is too strong for the Des Moines Swedish champion and opines that during the course of the first forty minutes of the mat proceedings that tall and broad-shouldered Jess will be forced to bow in acknowledgment of the ability of the man who blasted the mat aspirations of the powerful Fristensky.

If Cutler can defeat the Westergaard one he will be generally classed as the greatest American since the heyday of Gotch, and the most fit opponent to resist the further invasion of some of the large mat men from the other side of the pond.

* * *

Investigating Mandot.

LOOKING toward Joe Mandot as one of the interesting possible figures that may cross the ring path of one Lawrence Brown, it is found that the boy of the French market district of New Orleans is one of the romantic and highly interesting characters of the boxing world.

Mandot was a baker boy in the market district of New Orleans when he took up the game of boxing. His rapid advancement soon attracted the notice of promoters of the town that in the old days boasted of the largest battles in the lurid history of the Marquis of Queensbury game.

For several years Mandot has been a contender for the lightweight crown. His battles with Temple, Wolgast, Rivers and Ritchie have figured in the editions de luxe of pugilistic doings.

Clever, possessing some of the greatest boxing skill of any of the present contenders of the lightweight class, Mandot, one of the picturesque figures of the ring, is the ideal boxer to give Pal Brown the chance to demonstrate that he still possesses the qualifications entitling him to consideration among the topmost list of the lightweight brigade.

* * *

A Brand New League.

STOP, look and listen—behold a new league is about to cross the portal of our midst—welcome to our city, little one.

With the ranges aligned with Duluth in the effort to promote the advantages and prosperity of semi-professional baseball, and with the Duluth amateur league boosting merrily for the success and solidity of amateur ball, it looks as if the season about to be will be filled with abundant amusement.

The more baseball the merrier, some say. Once the habit is cultivated the fan becomes insatiable. Proceeding along that theory the fans of this city should increase in multifarious manner and our stands and bleachers should be packed with howling masses.

But returning to the central theme thought of the new league, or the league that is about to be new, let us state that it should provide some first-class semi-professional baseball of real caliber, and if such is the case the league is deserving of the support of the fans.

Descending to the lowly level of platitudes for the moment, permit us to repeat that baseball is a great game and will continue to hold the stage of calciumed interest even if our troops find it necessary to push on and occupy Mexico City for a few sulky and sultry weeks.

NATIONAL LEAGUE

Chicago 2; Cincinnati 1.

Chicago, April 24.—Pitcher Douglas held Chicago to four hits, three of which were doubles, and the locals won their first home game of the season from Cincinnati yesterday, 2 to 1. After two were out in the third inning, Lavender doubled to left, walked, and Good doubled, scoring the pitcher with the first run. Zimmerman singled in the next inning and went to second on a wild pitch and again when two men were out Johnson doubled and scored Zimmerman. The visitors were saved a shutout by scoring one in the fifth. Clark opened the inning with a double and Moran followed with a single, sending the catcher to third. Good fumbled the ball long enough to allow Clark to count. Score: R. H. E.
Cincinnati .....0000010000—1 5 1
Chicago .....00110000x—2 4 2
Batteries — Douglas, Ingersoll and Clark; Lavender and Archer. Umpires —Rigler and Emslie.

Pirates 5; Cardinals 1.

Pittsburg, Pa., April 24.—Pittsburg opened the National league baseball season here yesterday by defeating St. Louis 5 to 1. It was the locals' seventh straight victory. Adams pitched a steady game, allowing the visitors their only run in the seventh on singles by Dolan and Snyder, and an out. Hageman was relieved. Score: R. H. E.
St. Louis .....0000001001—1 9 2
Pittsburg .....0003200000—5 8 0
Batteries — Hageman and Snyder; Adams and Gibson.

Giants 12; Phillies 4.

New York, April 24.—The New York Nationals opened their home season yesterday with an easy victory over Philadelphia 12 to 4. Mayer was wild and ineffective and Jacobs was even easier, the New Yorks scoring six runs on him in the sixth inning on four hits, two passes, a steal and two errors. Neither twirler was well supported. Score: R. H. E.
Philadelphia ...1000010020—4 7 5
New York ....20112600x—12 11 2
Batteries—Mayer, Jacobs and Killifer; Tesreau and McLean, Schupp.

Braves 9; Dodgers 1.

Boston, Mass., April 24.—Although Tyler gave the Brooklyn batsmen eleven bases on balls, the visitors could not hit with men on bases and Boston won 9 to 1 yesterday. Score: R. H. E.
Brooklyn .....1000000000—1 7 3
Boston .....00040023x—9 9 2
Batteries — Ragan, Walker, Pfeffer and Marty; Tyler and Gowdy.

AMERICAN LEAGUE

Yankees 5; Athletics 3.

Philadelphia, April 24.—A triple by Sweeney with the bases filled in the eighth inning decided the opening game of the championship season here yesterday in favor of New York, the final score being 5 to 3. Only one hit was made off Bush in the first seven innings, but in the eighth a pass to Walsh was followed by singles by Caldwell, Holden and Truesdale and Sweeney's triple, four runners scoring. Score: R. H. E.
New York .....0010000405—5 6 2
Philadelphia .....1290000000—3 9 0
Batteries — Cole and Sweeney; Bush and Schang.

Recruit Shuts Out Walter.

Washington, April 24.—Washington was shut out in its first home game of the season with Boston yesterday. A. Johnson, a Red Sox recruit pitching, holding the Senators to six scattered hits and outpitching his namesake. The visitors bunched hits in the last three innings, scoring five runs.

President Wilson, who was to have thrown out the first ball, was unable to attend on account of pressure of business caused by the Mexican crisis. Score: R. H. E.
Boston .....0000000325—5 9 1
Washington ....0000000000—0 6 2
Batteries—A. Johnson and Cady; W. Johnson and Ainsmith.

Cleveland Wins at Last.

Cleveland, Ohio, April 24.—Cleveland, after losing eight straight games, finally won one yesterday when Mitchel held Chicago to six scattered hits and Cleveland found Cicotte for ten safe drives, some of them for extra bases. Score: R. H. E.
Chicago .....0000000010—1 6 2
Cleveland .....0101002 0x—4 10 0
Batteries — Cicotte and Schalk; Mitchell and Carisch.

Tigers Defeat Browns.

St. Louis, Mo., April 24.—Cobb's sacrifice fly in the third inning yesterday, scoring Kavanaugh, whose double had scored Bush from first base, gave Detroit enough runs to beat St. Louis, but the visitors added one more run in this inning and made the score 3 to 1 in their favor. Score: R. H. E.
Detroit .....0030000000—2 5 1
St. Louis .....0100000000—1 7 1
Batteries — Main and Stanage; Wellman, Taylor and Crossin.

TILLMAN HAS THE SHADE ON WOLGAST AT HUDSON

Minneapolis Boy Outpoints the Dutchman in Ten-Round Bout.

Wolgast's Left Hand Useless—Former Champion Swings Wildly.

BY BRUCE.

St. Paul, Minn., April 24.—(Special to The Herald.)—Johnny Tillman outpointed Ad Wolgast in the ten-round bout at Hudson last night in every one of the rounds, with the exception of the opening one. The first session was an even one, the boys feeling each other out. After that the Minneapolis boy went in and surprised even his most loyal followers by outpointing the former lightweight champion of the world and showing him up in every department of the game. But one thing can be said in extenuation of the former title-holder, and that is that he entered the battle with his left hand practically useless. The port side wing was of no practical use to the Dutchman and this fact was a grave handicap.

Wolgast did most of the forcing, but in the seventh and eighth rounds Tillman brought the huge crowd to its feet by meeting the Durable Dutchman in the center of the ring and slugging with him. The man who claims that he will yet regain the title he lost to Willie Ritchie at Daly City showed the lamentable lack of all the attributes that go to make up a champion. Little Adolph was wild, repeatedly missing vicious swings, and his judgment of distance was so bad that it should have made a novice blush for shame. Opposed to the lack of form exhibited by Wolgast was the remarkable exhibition of Tillman. The youngster showed an unerring left that shot with the regularity of a piston rod to the former champion's head and occasionally varied his attack by crossing his right or shooting a hard right uppercut to the head. It must be said that Wolgast was not hurt by any of the blows Tillman landed, and it can also be said that Ad failed to make any visible impression upon Tillman.

Raymond Carcionini won from White Hope Fred Fulton on a foul and this after he was hopelessly beaten and on the point of collapse.

Neither of the large contenders showed sufficient form to entitle them to be ranked with the real contenders for the heavyweight title.

Billy De Foe of Red Wing shaded Kid Coffey and in the curtain raiser Buff Seidel of St. Paul had slightly the better of Jim Burke.

Referee Duffy of Milwaukee officiated in all of the bouts and one of the greatest crowds that has witnessed a fight in any part of the state of Wisconsin was on hand.

AMERICAN ASSN.

Kaws 6; Millers 5.

Minneapolis, Minn., April 24.—Minneapolis lost to Kansas City by ascore of 6 to 5 yesterday in the opening game of the local season. Timely hitting by the locals gave them a two-run lead at the start of the ninth, but Lake weakened in that frame. Two passes, a double, a single, a sacrifice and a Minneapolis error gave the visitors three runs and the game in the final inning. Reagon for Kansas City was wobbly at times, but showed tightness in the pinches. The game was played in a drizzling rain. Score: R. H. E.
Kansas City ....1000200036—6 8 3
Minneapolis ....0000030205—10 4
Batteries—Reagan and Moore; Lake, Burns and Rondeau. Umpires—Murray and Johnson.

Saints 6; Brewers 5.

St. Paul, Minn., April 24.—Charlie Hall of St. Paul won his own game here yesterday with a single in the tenth inning that scored Autrey and McNally. It was the first home game of the season, and after Milwaukee had apparently won it in the tenth, the locals started a batting rally that netted a 6 to 5 victory. The game was played in a drizzling rain. Score: R. H. E.
Milwaukee ....0200001101—5 10 3
St. Paul .....0000030102—6 11 0
Batteries — Young and McGraw; Hall and Glenn. Umpires—Johnston and Irwin.

Cleveland 3; Columbus 2.

Columbus, Ohio, April 24.—Baskette's triple following Hilliyard's single and two errors by Columbus' infielder in the eighth inning, gave Cleveland three runs, just enough to win yesterday's game, which was the first of the Columbus season. Score: R. H. E.
Columbus .....0100000100—2 7 2
Cleveland .....0000000030—3 3 0
Batteries — Eayers and Smith; Baskette and Devogt.

Colonels 3; Hoosiers 0.

Indianapolis, Ind., April 24.—Northrup pitched fine ball for Louisville yesterday and Indianapolis lost the first game of the series, 3 to 0. Score: R. H. E.
Indianapolis ....0000000000—0 5 2
Louisville .....0001000 20—3 7 1
Batteries — Merz and Livingstone; Northrup and Severeid.

Baltimore 4; Buffalo 3.

Baltimore, Md., April 24.—Baltimore defeated Buffalo yesterday, 4 to 3. Krapp relieved Moore in the fourth inning. Score: R. H. E.
Baltimore ....0112 0000x—4 9 2
Buffalo .....0020 00001—3 8 4
Batteries—Wilhelm and Jacklitsch; Moore, Krapp and Blair.

St. Louis 3; Indianapolis 0.

Indianapolis, Ind., April 24.—Two singles, an infield hit and a double gave St. Louis three runs in the ninth and a victory from Indianapolis in the opening game of the season here yesterday. Score: R. H. E.
St. Louis ....0000000003—3 9 0
Indianapolis ....0000000000—0 6 2
Batteries—Keupper and Hartley; Falkenberk and Texter.

Tinker Men Beat Kaws.

Chicago, April 24.—Chicago's "third big league" team opened its season here yesterday in big league style. Besides the thrills furnished by the elaborate ceremonies, Joe Tinker's men regained their batting eyes and defeated the Kansas City Federals, 9 to 1. Score: R. H. E.
Kansas City ...0000000010—1 5 2
Chicago .....0312020109—15 1
Batteries—Johnson, Stone, Hogan and Easterly; Hendrix and Wilson.

Brooklyn Beats Pittsburg.

Pittsburg, Pa., April 24.—In a hard-hitting game yesterday the Pittsburg Federals defeated Brooklyn, 6 to 5. Score: R. H. E.
Brooklyn .....2010200005—5 8 3
Pittsburg .....1210002 0x—6 14 4
Batteries—Marion, Chappelle, Lafitte and Owens; Barger and Berry.

CHICAGO COURT ENJOINS INDIAN

Pitcher Who Jumped From Reds to Federals Restrained From Playing.

Chicago, April 24.—An injunction restraining George H. Johnson, former pitcher for the Cincinnati National league baseball club, was issued yesterday by Superior Judge Foell. The court also restrained the Kansas City Federal league club from in any way interfering with men now under contract with the Cincinnati National league baseball club.

Deputy sheriffs were later sent to the Federal league baseball park on the North side to serve Johnson and the officials of theKansas City Federal league club with the injunctions.

Before their arrival at the ball park, Johnson had begun to pitch in the initial game between his club and the Chicago Federals. Court officials declared that until he was served with the injunction he could not be held in contempt of court for playing with the Federals, but the court could have complete jurisdiction over him after he had been served with notice of the issuance of the restraining order.

"Should he continue to pitch after the injunction is read to him," said a court official, "he could be haled before Judge Foell and made to show cause why he should not be punished for contempt of court."

WILLIE HOPPE MAKES NEW RECORD RUN.

New York, April 24.—Willie Hoppe, the world's balk line billiard champion, gave another proof of his wonderful ability with the cue when he established a new record run of 303 in his match against George F. Slosson last night in the 14.1 balk line tournament for the world's championship.

SUNDAY SCHOOL BOYS IN MEET

Athletic Association Will Have Indoor Events at Y. M. C. A.

More than 100 athletes will compete at a big indoor meet to be held this evening at the Y. M. C. A. gymnasium.

The affair will be under the auspices of the Duluth Sunday School Athletic association. The meet will be conducted in five divisions. The midget division will take in boys weighing less than ninety pounds and they will have a potato race, jumping contests and a relay race. The lightweight division, which will consist of boys between 90 and 105 pounds, will have a 15-yard dash, high jumping and broad jumping and a four-lap relay race. The middleweight division, which will consist of boys between 105 and 120 pounds, will have a high jumping, a 15-yard dash, standing broad jump, an eighth-mile race and a six-lap relay. The welters, between 120 and 150 pounds, will have several similar events; and so will the heavies, who are to weigh more than 150 pounds. Most of the Sunday schools in the city are in the association.

CASTING EXPERT TO GIVE AN EXHIBITION.

William C. Vogt, the expert artificial bait caster, whom many have seen on the courthouse grounds casting for practice, will give an exhibition of his skill tomorrow afternoon from 4 to 5:30 at the foot of Fifth avenue. He was to have given an exhibition last Saturday, but the rain caused him to call it off.

Mr. Vogt's skill has astounded all those who have seen him perform. As a fisherman he is said to be remarkable because of his casting efficiency. James A. McLennan of Duluth was out fishing with him this week, together with a number of others. Mr. McLennan says that Mr. Vogt caught twelve trout before any of the others in the party got a strike.

Some of his casting feats, it is claimed, seem to smack of magic at times. Mr. Vogt likes to give instruction, for his object is to prove to fishermen the country over that the use of live bait is not necessary, and also to show how to catch fish with the least possible pain to the fish.

College Baseball.

Madison, Wis., April 24.—The University of Wisconsin won the first conference game yesterday, defeating Indiana 3 to 1.

LEGAL NOTICES.

CERTIFICATE OF INCORPORATION —OF— MERRIMAC MINING COMPANY.

KNOW ALL MEN BY THESE PRESENTS, That we, whose names are hereunto subscribed, have agreed to and do hereby associate ourselves together under the Constitution and Laws of the State of Minnesota, and more particularly under the provisions of Chapter 66 of the Revised Laws of the said state, for the year 1905, as a manufacturing and mechanical corporation under the name and for the purposes hereinafter set forth, and to that end do hereby adopt the following Articles of Incorporation:

ARTICLE I.

The name of this corporation shall be MERRIMAC MINING COMPANY, and the general nature of its business shall be the mining, smelting, reducing, refining and working of iron ores and minerals, and the manufacture of iron, steel, copper and other metals, said business to be carried on in the State of Minnesota and elsewhere.

The principal place of transacting the business of said corporation shall be at Duluth, in the County of St. Louis and State of Minnesota, with such other offices and places of business, either within or without the State of Minnesota, as may from time to time be determined by the management of said corporation.

ARTICLE II.

The time of the commencement of this corporation shall be the 27th day of April, 1914, and the period of its continuance shall be thirty (30) years.

ARTICLE III.

The names and places of residence of the persons forming this corporation for the purpose of incorporation are as follows: W. D. Bailey, A. M. Washburn and C. M. Van Norman, each and all residing at Duluth, St. Louis County, Minnesota.

ARTICLE IV.

The government of this corporation and conduct and management of its affairs is hereby vested in a board of three (3) directors, who shall all be stockholders, and, except as herein provided, shall be elected by the stockholders at their annual meeting, which shall be held on the first Tuesday in February of each year, and who shall, within ten (10) days thereafter, elect the following officers, namely: A President, Vice-President, Secretary and Treasurer. Any two of said offices may be held by the same person, with the exception of the offices of President and Vice-President.

The first annual meeting of the corporation shall be held on the first Tuesday in February, 1915, but until such time and until the directors thereat elected shall be qualified, the following persons shall be and constitute the board of directors of this corporation, namely: W. D. Bailey, A. M. Washburn and C. M. Van Norman, and until such meeting is held and until the directors thereat chosen shall have elected officers, and until such officers shall have qualified, the officers of this corporation shall be as follows:

W. D. Bailey, President.
A. M. Washburn, Vice-President.
C. M. Van Norman, Secretary.
W. D. Bailey, Treasurer.

The officers and directors of this corporation, except those herein designated as such to act in the first instance, shall hold office for one year, or until their successors are elected and qualified, and in case any vacancy occurs in any of the offices or membership of the board of directors of this corporation, either before or after the first annual meeting, the same shall be filled by the board of directors until the next annual meeting and until such vacancy shall be filled by election held in accordance with these Articles and such By-Laws as may be adopted providing for elections.

The Board of Directors of this corporation may adopt, and is hereby authorized to adopt, such By-Laws, rules and regulations for the corporation and the management of its business not inconsistent with these Articles or with the constitution and laws of the State of Minnesota, as it may deem needful for the government of officers and the conduct of the affairs of the corporation, and may create such other offices in addition to those herein provided for as may from time to time be deemed necessary, and may fill such offices as it may create, and may abolish and discontinue such offices at will. The Board of Directors shall also have power, when in its judgment cause exists, to remove any such officers of this corporation from their positions and declare the offices vacant.

ARTICLE V.

The amount of the capital stock of this corporation shall be Two Hundred and Thirty Thousand Dollars ($230,000.00), and the same shall be divided into Two Thousand Three Hundred (2,300) shares of One Hundred Dollars ($100.00) each, and the same shall be sold, either for cash or property and things of value deemed by the Board of Directors equivalent thereto, such determination by the Board of Directors to be final and binding upon the parties in interest. Two Hundred Thousand Dollars ($200,000.00) of said capital stock shall be preferred stock, and Thirty Thousand Dollars ($30,000.00) of said capital stock shall be common stock. The preferred stock of this corporation shall have the following benefits and preferences:

1. Preferred stock of this corporation shall carry with it no voting power, but shall draw cumulative dividends at the rate of six per cent per annum from the date when the same is issued, on the whole or any portion of the par value of said stock remaining unretired from time to time, said dividends to be payable at the date of the annual meeting of the company whenever funds are available therefor.

2. Said preferred stock shall be subject to retirement wholly or partially pro rata at par and accrued dividends on dividend dates or oftener, as fast as the corporation realizes from its investments and business funds not needed for the carrying on of the business of the corporation.

3. No dividends shall be declared on common stock until all the preferred stock and dividends thereon has been so retired.

The stock of this corporation shall be paid for as called for by the Board of Directors, and no stock which has not been subscribed for and upon which the payments called for have not been made as required by the Board of Directors, shall be entitled to vote or representation in any of the proceedings of this corporation.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Two Hundred and Fifty Thousand Dollars ($250,000.00).

IN TESTIMONY WHEREOF, the undersigned parties have hereunto set their hands and seals this 20th day of April, 1914.

W. D. BAILEY. (Seal)
A. M. WASHBURN. (Seal)
C. M. VAN NORMAN. (Seal)

Signed, Sealed and Delivered in Presence of:

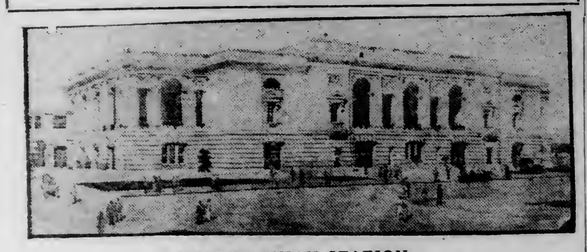
ORDER TO EXAMINE FINAL ACCOUNT—

State of Minnesota,
County of St. Louis—ss.
In Probate Court. In the Matter of the Estate of Maurice Quinn, Decedent.



The petition of Lucy A. Quinn as representative of the above named decedent, together with her final account of the administration of said estate, having been filed in this court, representing, among other things, that she has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the Court, and that the Court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on her bond.

It is ordered, That said petition be heard, and said final account examined, adjusted, and if correct, allowed by the Court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County, on Monday the 18th day of May, 1914, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted. Ordered further, That this order be served by publication in The Duluth Herald, according to law.

Dated at Duluth, Minn., April 22nd, 1914.

By the Court,
FRANCIS A. WATKINS,
Judge of Probate of Carlton County, Acting Judge of Probate of St. Louis County, Minn.
Attest: A. R. MORTON,
Clerk of Probate.
Seal, Probate Ct., St. Louis Co., Minn.

DALLAS IS BUILDING $5,000,000 UNION STATION AND TERMINAL

DALLAS UNION STATION.

Dallas is constructing a $5,000,000 terminal and station. The building alone will cost $950,000. The terminal will be used by all the railroads that enter Dallas.

It will comprise fifteen miles of trackage. The station was designed by Jarvis Hunt of Chicago, who drew the plans for the new Union passenger station at Kansas City and the general passenger terminals at Chicago. The work on it is to be completed in eighteen months. The station will be 283 feet long with a depth of 135 feet. A bridge will carry the passengers over the tracks to their trains. Arrangements have been made so that the capacity of the station can be doubled by additions at any time.

SMOKE ORDINANCE BEING VIOLATED

Arrests Threatened If the Laws Are Not Complied With.

Recent observations of Smoke Inspector J. W. Schneider show that a number of owners of downtown stacks are violating the provisions of the new smoke ordinance.

The measure prohibits the emission of black smoke for more than six minutes in any hour, and then only to kindle fires or clean the furnaces. In several instances the violations have been pronounced, black smoke pouring from the chimneys for several times six minutes during the hour they were being checked.

The owners or agents of the buildings are being served with written notices of the inspector's findings. They will be given a fair opportunity to remedy the conditions causing the smoke, but if they fail to make any improvement, warrants will be sworn out for their arrest.

RECRUITING TO WAR STRENGTH

The possibility that the Duluth batallion of the National Guard may be called upon at any time to go to the front and participate in the Mexican trouble has caused the captains of the three local companies to recruit their membership up to the full quota. At present the enlisted membership is about 65 for each of the three companies and this number will be increased to 108, the full war strength.

During the last two days advertisements asking for men to join the companies have appeared in the local papers. The ad asks for men ranging in age from 18 to 25 years and those with previous experience will be given preference. Many former veterans of the Spanish war as well as former members of the militia are said to have already applied for membership in the companies.

Capt. W. O. Flodin of Company C said that he was meeting with success in getting applicants. He said that it was his intention of having a full quota of men if possible in case the company was called upon.

PROGRESSIVES IN CONFERENCE

Movement to Indorse Lee for Governor Nipped in Bud.

St. Paul, Minn., April 24.—(Special to The Herald.)—A state ticket will be named by the Progressive party conference here late today. P. V. Collins, candidate for governor in 1912, attended today's meeting and his name was added to the list of possible nominees for governor, as was that of W. T. Coe of Minneapolis. Others mentioned are M. D. Purdy and F. M. Nye of Minneapolis, H. T. Halbert of St. Paul and O. J. Larson of Duluth. A movement to have the conference indorse W. E. Lee, one of the candidates for the Republican nomination, was nipped in the bud at the opening of the conference. Rumors that such a motion would be offered had reached the leaders and the first action of the conference was to adopt a motion that a full state ticket be named.

H. T. Halbert, state chairman, called the conference to order at 10 a. m. He touched on the Mexican situation in his opening remarks, saying that in a crisis like this Progressives must lay aside their partisanshiyp and be patriots first.

J. Q. Mackintosh of Stillwater was named chairman and C. Chapin of St. Paul secretary.

A resolutions committee was named with P. V. Collins as chairman, and brought in a brief report reaffirming the party's belief in the national and state platforms of 1912 and the platform adopted last February.

The silk industry in Italy employs 190,000 operatives and 19,000 looms.

JOHN HEINO ACQUITTED

Jury Returns Verdict of "Not Guilty" in Attorney's Case.

John R. Heino, attorney, charged with having committed adultery with Mrs. Olga Gran, wife of Victor H. Gran, was acquitted this afternoon by a jury in Judge Dancer's division of the district court. The jury returned its verdict at 2:45 p. m.

"I am very grateful," was Mr. Heino's first remark after the jury had turned in its verdict. He shook hands with most of the jurymen. It is not known whether Mrs. Gran will be brought to trial on the joint indictment or not.

Shortly after 11 o'clock last evening the jurors informed the officers in charge that they had been unable to reach an agreement and expressed a desire to be shown to their sleeping quarters in the courthouse. This morning, after the jurors had eaten breakfast, they returned to a reconsideration of the case.

Judge Dancer charged the jury yesterday afternoon that some of the witnesses in the case had perjured themselves, and it was up to the jury to decide who they were. The conflict of statements concerning certain features of the case, the court stated, could not be reconciled as error of judgment, faulty memory or innocent lack of comprehension.

WILL PUT UP ONE ARC.

N. P. Would "Split Difference" on Smithville Lighting.

The Northern Pacific railroad has agreed to maintain an electric arc lamp over the crossing at Sixty-third avenue west and Raleigh street. Commissioner Merritt asked that the road also pay for a light at the dangerous Smithville crossing, but Supt. A. V. Brown replied that he felt that the city was already getting considerable advantage in the lighting matter and agreed to "split the difference." Commissioner Merritt says that a light will have to be maintained over the Smithville crossing as a measure of public safety whether the city or the railroad pays for it.

A TOWER OF GOLD.

Harper's Weekly: According to a law promulgated in Germany in 1871, the $30,000,000 which France paid in indemnity to the Prussians the previous year was guarded in the "Tower of July" at Spandau, the famous fortress situated eight miles from Berlin. Besides this amount of money, definitely set aside, is a quantity of gold in reserve for commercial panics.

In order to safeguard such a massive store great precautions have been taken for the past forty-two years. The money is kept on two floors of the fortress and is packed in 1,200 oaken chests. Each chest contains $25,000 in gold. The inviolability of these chambers is secured in the following manner; they have triple doors with various locks whose keys are held by certain officials of the ministry of war; and these keys each open only one door, so that no one official is ever able to enter alone.

The clamps of the chests are sealed and stamped in such a way that it is not possible for them to be tampered with without danger of almost instant discovery. Moreover, the weight of each sack and chest is registered.

WHAT FISHES KNOW.

Harper's Weekly: That fish possess a certain power of reason is affirmed by many who have studied them. They often learn to recognize the voice of the one who feeds them. Fish will congregate in places where food is habitually thrown to them. If a morsel proves too large to be swallowed, they have been known to divide it on a sharp stone.

The French people are great chicken raisers. A return gives the income derived by them from this industry as $385,000,000.

ANY ATTEMPT TO RAISE PRICES ON

SHOE REPAIRING

Our Superior Shop Will Move to 1314 Tower Avenue May 1st

Neither under guise of "union" or "home trade," as long as the volume of our repair business warrants the purchase of supplies in as large quantities as hitherto, and are not owned by wholesale houses.

A man who limps around and argues for advance in prices in the interest of "home trade" has traded jobs with an errand boy and should receive compensation accordingly.

NEWS OF THE NORTHWEST

IS ROBBED ON JOURNEY

Northome Man "Touched" at Bemidji While En Route to Austria.

Going to Claim Inheritance and Loses His Travel Money.

Bemidji, Minn., April 24.—(Special to The Herald.)—"Your sister, Vanda Konkolnika, is dead in Austria, and you have $10,000 coming from her estate," said a message that John Keller, for eleven years an employe of the Minnesota & International railroad, received a few days ago while at work near Northome.

Later this good piece of news was confirmed by the Austrian consul at St. Paul, who sent John $150 in cash so that he might proceed to Austria to claim his riches.

John got on the train and came to Bemidji on his way to St. Paul and the old country, and stopped at the Biondo hotel.

"Touched" at Hotel.

When he came to Bemidji his $150 was safe, but the next morning he sought the police and told how some time during the evening or next morning $135 of his money had disappeared.

It was thought that Joseph Jerome, also a guest at the Biondo hotel, might know something of the money, and he was arrested and arraigned before Judge Crowell. He denied taking the money, but said he had found $60 in front of the First National bank building. His case was continued, and in default of $500 bond he was locked up.

Yesterday Jerome was again brought before Judge Crowell, being represented by Attorney Henry Funkley. The charge against Jerome was dismissed for lack of evidence, and he was given his freedom.

Keller, however, is still out his $135 and is awaiting instructions from St. Paul before proceeding farther.

BURY TRAIN VICTIM.

Funeral at Bemidji of Man Run Over at Depot.

Bemidji, Minn., April 24.—(Special to The Herald.)—With no relatives or friends to mourn his death, Emil Uzelding, who died at the Samaritan hospital early Saturday morning after having both legs cut off by the Great Northern train the previous afternoon while attempting to catch on to the rear of the day coach after the train had started, was buried at 8 o'clock this morning from St. Philip's church, Rev. Father John J. T. Philippe officiating, in Holy Cross cemetery. On his death bed Uzelding told Father Philippe that he was a native of Luxemburg, Germany, and that his wife had died a year ago. An attempt will be made to notify his relatives of his death. Although the man had acquaintances here, no one knew his family connections, and he gave his name as Uzelding and also as Uiselding. Joseph La Plante, the liveryman at Crookston, for whom he claimed to be going to work, says he does not know of such a man.

IS CANDIDATE FOR ORATORICAL HONORS

LESTER M. SMITH.

Grand Forks, N. D., April 24.—(Special to The Herald.)—This state's representative in the annual oratorical contest of the Western League of Oratory will be picked here tonight when the state contest is held, with five speakers participating.

The contestants, in addition to seeking the honor of representing the state in oratory, also will win the solid gold watch, offered annually by the grand lodge of Masons of the state.

The contestants and their subjects follow: Lester M. Smith, University of North Dakota, "An Apostle of Progress;" E. Musberger, Agricultural college, "The Educated Patriot's Attitude;" Daniel Darrow, Fargo college, "Academic Freedom;" Leslie Dysart, Jamestown college, "Mob Rule;" Theodore Zeyher, Wahpeton school of science, "Alexander's Vision."

WILL PLANT TREES ALONG FINE ROAD

North Dakota Women Would Beautify Proposed Meridan Highway.

Grand Forks, N. D., April 24.—(Special to The Herald.)—Improvement of rural beauty through the planting of trees along highways is the scheme taken up by the conservation committee of the North Dakota Federation of Women's Clubs, of which Mrs. E. W. Cunningham is the chairman.

The first move along this line will be in connection with the Meridian highway and Mrs. Cuningham has held a conference with the officers of the state division, designed to formulate the methods.

It is expected that the women will take the matter up with the various townships through which the highway runs and probably will ask for the planting of a single row of trees along each side of the highway, which extends from the Manitoba boundary line to South Dakota, through the six eastern counties bordering on the Red river.

Mrs. Cunningham is very enthusiastic over the plan.

THIEF RIVER FALLS TO BUILD HOSPITAL

Pennington Board Gives $5,000 Towards the Enterprise.

Thief River Falls, Minn., April 24.—(Special to The Herald.)—Definite steps are being taken toward securing an up-to-date hospital building here. A committee of five men has been appointed by the Commercial club and have the matter in charge. This committee met yesterday with the board of county commissioners and placed the claims of a hospital for this county before them. After giving the matter some consideration the county board promised to help the proposition along with a gift of $5,000.

The progressive business men of Thief River Falls in addition to substantial donations are promising to aid the good work by holding "hospital week" in their stores and donating 10 per cent of the takings of the stores during the week. This in addition to the $5,000 promised by the county and a like sum expected to be given by the city, will form the nucleus of a splendid fund with which it is proposed to build a hospital in the very near future.

WILL DEDICATE AITKIN CHURCH

First Services in New Congregational Structure May 17.

Aitkin, Minn., April 24.—(Special to The Herald.)—The new Congregational church will be dedicated Sunday, May 17, and Dr. Cowling, president of Carleton college, will preach the sermon. May 19 and 20 the Duluth district association of Congregational churches will hold their annual convention here. Rev. W. E. Hammond, who has been pastor of the church for one year has accepted a call to remain for a second year. He was extended a vote of thanks for the excellent work he has accomplished and was also given a month's vacation, which he will take in August.

Duluth M. E. Conference.

The Duluth district conference of Methodist churches will be held here May 25 and 26. The opening day will be marked by the laying of the cornerstone of the new M. E. church by Bishop William A. Quayle. About fifty ministers from the district are expected at that time.

ODD FELLOWS TO MEET AT AITKIN

District Gathering Will Be Held There Monday, May 4.

Aitkin, Minn., April 24.—(Special to The Herald.)—Preparations are being made by the local Odd Fellows for the district meeting which will be held here Monday, May 4.

Visiting brethren are expected from Staples, Motley, Brainerd, Little Falls, Crosby, Deerwood and Palisade. There will be an afternoon session and the Brainerd lodge will put on team work in the evening.

Among the grand officers who will be present are: A. W. Ames, Windom, grand master; A. L. Bolton, St. Paul, grand secretary; C. M. Sprague, Sauk Center, grand treasurer; Winn Powers, St. Paul, grand representative.

AITKIN LODGE TO DEDICATE QUARTERS.

Aitkin, Minn., April 24.—(Special to The Herald.)—The new Masonic lodge rooms over the First National bank building will be formally dedicated May 5. The grand lodge officers from St. Paul are expected to participate in the exercises of the afternoon. A banquet will be served at 6:30 and an entertainment given in the evening. The Duluth Masonic quartet will furnish music and a ball in the opera house will complete the program.

HOMESTEADER IS FATALLY BURNED.

Pinewood, Minn., April 24.—Pouring gasoline into a smoldering fire instead of kerosene caused an explosion and claimed the life of James M. Fines, a homesteader living near here. His home was burned to the ground, but his son, wife and granddaughter were saved. Fines' son drew his father's body through a window, but too late. The dead man was formerly an M. & I. railroad conductor, and left the road a year ago to live on his homestead. He was a member of the Brotherhood of Railroad Trainmen and carried a $1,500 policy with this order. Neither the house nor contents were insured. The only article saved was an old gold watch presented to the deceased many years ago by his father.

RED RIVER VALLEY WILL RAISE TUBERS

More Potatoes Are Being Planted This Year Than Before.

Hunter, N. D., April 24.—(Special to The Herald.) — The farmers around Hunter and other parts of the Red River valley will increase their potato acreage this year from 50 to 100 per cent. This is due to the ever-increasing demand for Red River valley potatoes by the seedmen of the Southwestern states and the increasing number of potato warehouses that are being constructed.

To Feed Stock Tubers.

Another reason is that many farmers in this section are going into the cattle and pork-fattening business, and they believe potatoes possess high values for feed for beef cattle and hogs. In the case of the hogs the potatoes are not dug. The pigs are turned loose in the potato field for a short time daily and do their own digging and picking. Some farmers contend potatoes are worth 25 cents a bushel for feeding purposes.

BRING BLOODED STOCK.

Thief River Falls Men Are Importing Holstein Cattle.

Thief River Falls, Minn., April 24.—(Special to The Herald.)—Early yesterday morning H. P. Sponheim and Fred Bierbauer of this city arrived from Northfield with a carload of thoroughbred Holstein cattle. The car contained twenty-five head and is the second carload of Holsteins to be shipped into Thief River Falls this spring. The bringing in of Holstein stock is the result of organized efforts on the part of the Commercial club to get farmers to raise better stock and to engage to a greater extent in the dairying industry.

The cattle are being distributed among our best farmers at actual cost price and on easy terms.

CONVICT BLIND MAN.

North Dakota Court Sends Sightless Liquor Dispenser to County Jail.

Ashley, N. D., April 24.—(Special to The Herald.)—The first blind man ever convicted in the state for a violation of the prohibition law was Christian Scheuffele, a sightless accordian player. He is well known to the traveling fraternity and also to the people of the towns along this line of the Soo. He was endeavoring to increase his income from musical selections by purveying liquor. There have been a number of convictions of crippled blind-piggers, but Scheuffele is said to be the first blind blind-pigger ever sent up. He will have to serve ninety days and pay a $2,000 fine, or serve thirty days additional if he doesn't pay.

McCLUSKY, N. D., HAS $6,000 FIRE.

McClusky, N. D., April 24.—(Special to The Herald.)—The Tantow poolroom and the Hargrave restaurant and confectionery here were burned. A defective flue in the poolroom caused the fire. Hargrave's restaurant next door caught on fire and the only article of value saved was a piano. Tantow carried $2,900 insurance on his stock and fixtures and Hargrave only $500. The owner of the Hargrave building was not insured. The total loss is about $6,000.

FLOODWOOD CREAMERY.

March Report Shows Substantial Gain in Its Business.

Floodwood, Minn., April 24.—(Special to The Herald.)—The Floodwood Cooperative creamery report for the month of March shows a substantial gain over that of the previous month in cream receipts. The total pounds of cream received for the month amounted to 7,336; total pounds butter, 1,926.51; butter fat retained in cream, $81.90; total butter fat, 2,008.41 pounds. Total amount paid to patrons amounted to $526.37. This shows a gain of 893.87 pounds of butter fat over that of the previous month.

BARN NEAR FLOODWOOD DESTROYED BY FIRE.

Floodwood, Minn., April 24.—(Special to The Herald—The farm buildings of Andrew Santakka, who lives up the St. Louis river about a mile, were entirely destroyed by fire Tuesday night. Fifteen tons of hay, all his chickens and farm machinery were consumed, and the loss is said to be in the neighborhood of $1,500, with no insurance.

WISCONSIN BRIEFS

Ashland—The first cow testing association formed in this part of Wisconsin has been successly organized, with Otto Ringlin president, Ed Carlson vice president, and R. Mantel of Moquah secretary and treasurer. These officers are farmers residing at the head of Chequamegon bay.

Milwaukee—Following repeated demands of the police for a warrant charging Rosa Guhlo with assault with intent to kill Samuel Amato Monday night, a warrant was issued by the district attorney's office Wednesday charging the Italian girl with assault with intent to do great bodily harm. Bail was immediately furnished in the amount of $350 by the girl's friends.

Neenah—The city of Menasha will sue the Wisconsin Traction, Light, Heat & Power company asking an order to take over the equipment of that company, so as to do commercial lighting, in accordance with a referendum vote.

Madison—Ruth Welse, 836 Williamson street, was struck by a motorcycle driven by Maurice Park and died Tuesday night. Park, it is said, did all he could to avoid the accident.

Neenah—Maj. J. B. Schneller of the First Wisconsin infantry appointed F. J. Schneller, Neenah, adjutant; quartermaster commissary, Hans Hilsenhoff, Madison; N. C. Jersild, Neenah, sergeant major, and orderlies, Richard C. Erdman, Oconomowoc; J. W. Bojinski, Milwaukee, and J. H. Albright, Neenah.

Milwaukee—Liborious Semmann, dean of the Marquette Conservatory of Music, was elected president of the Wisconsin Music Teachers' association. La Crosse will be the next convention city. Other officers elected were: Vice president, Miss Lillian Watts, Milwaukee; treasurer, Miss Elizabeth Buehler, Madison; secretary, Mrs. G. Hyde, Madison; auditor, Mrs. Anna Heilman, Merrill.

Madison—In accordance with views expressed in Mayor A. H. Kayser's inaugural message, the chairman of the license committee introduced a motion to reduce saloon licenses.

DAKOTA BRIEFS

Fargo, N. D.—Charles Wasem of Regina, Sask., was in the city Wednesday with a covered wagon and an ox team, on his way from Regina to Belleville, Ill. He is traveling on a wager of $500 and must reach Belleville by Sept. 7, in time for the city's centennial celebration, which is to be held Sept. 7.

Grand Forks, N. D.—Judge C. M. Cooley of the district court will probably go to Lakota to hold a term of district court for the hearing of a few Nelson county civil cases.

Fargo, N. D.—The successful candidates in Tuesday's election to choose five members of the school board, were Mrs. R. P. Blake, John S. Frame and E. F. Ladd, for the three-year term; Mrs. Nellie Nelson Hicks and Frank W. Hall, for the one-year term.

Grand Forks, N. D.—Attended by hundreds of old friends and fellow members of the Knights of Columbus, the last rites for J. M. Carroll, pioneer resident of Grand Forks, were held Wednesday morning at St. Michael's Catholic church. Mgr. Lemieux delivered the funeral sermon. The interment was at Calvary cemeteery.

Mandan, N. D.—At the annual meeting of the Mandan civic league, Mrs. George A. Stark was for the third time re-elected to the presidency. Other officers named were Mrs. Frances McDonald, treasurer; Mrs. H. H. Harmon, vice president, and Mrs. Bernard S. Nickerson, secretary.

Bismarck, N. D.—Arrangements are being made by local Elks for a special car in which they will go to Minot to attend the state convention the latter part of June.

Wildrose, N. D.—The presence of Great Northern surveyors in the territory west and southwest of here has revived the rumors of the proposed extension of both the Great Northern lines from here and Crosby toward the western part of the county and possibly to Williston by a loop to the main line.

Minot, N. D.—"Yeggs" who smashed their way into the L. Abrahamson store in this city, armed themselves with revolvers, stealing four weapons. The police believe the men are those who have been engaged in a campaign of pillage throughout this district, and who recently robbed a store at Wheelock.

PENINSULA BRIEFS

Ewen—Fire destroyed the Humphrey Mercantile company's building and stock here Tuesday night. The origin of the fire is unknown. The estimated value of the property was $7,500. Insurance to the amount of $1,500 covered the building and $2,500 the stock.

Negaunee—Rosen Bros. of the firm of Rosen Bros. & Klein have decided to retire from business in this city. Rosen Bros. have been in business here for the past fifteen years and Ernest Klein has been a partner of the firm for eight years, managing the store for the past five years.

Ishpeming—The members of the Ishpeming Advancement association are making plans for a Chautauqua for this summer.

Calumet—While dumping a tram car at one of the levels in the Red Jacket shaft early Tuesday evening, Steve Balch, aged about 32 years, recently of Detroit, was killed when he was drawn into the shaft. He came here about three months ago from Detroit. He is survived by a wife and two children in Austria, a brother in Detroit and cousin in Red Jacket.

Escanaba—Fine tribute was paid to the memory of Attorney F. D. Mead by the Delta county bar this week when memorial services were conducted in the circuit court here. Representatives of bar associations from surrounding counties were present and the service was the most impressive that has ever been conducted by upper peninsula attorneys.

Hancock—Court Pride of Hancock, Foresters of America, claims the distinction of having on its rolls, the oldest member in the United States, in the person of James V. Barkell of Ryan street. Mr. Barkell affiliated with the order in 1876 when the title of the lodge was the Ancient Order of Foresters.

Calumet—James Buddo of the Mohawk location died at his home April 21, following a brief illness of one day, death being due to pneumonia. He is survived by a wife who is now in Green Bay, where she was called a few days ago on account of the illness of her father.

MINNESOTA BRIEFS

East Grand Forks—Joseph Jarvis of this city was awarded the contract for graveling State Roads Nos. 2 and 6 in Grand Forks and Huntsville townships. The roads lead into East Grand Forks from the north and southeast. Mr. Jarvis' bid was for $4,197.96. Charles Nyquist of Moorhead was awarded the contract for doing road work in the town of Badger.

Little Falls — The Little Falls Darling Gas company,, to whom the franchise granted to Joseph C. Kern will be transferred, has been organized by Peter J. Sult, Milwaukee, president and treasurer; Simon P. Brick, Little Falls, vice president; James G. O'Brien, Milwaukee, secretary; Joseph C. Kern, Milwaukee; Don M. Cameron, Little Falls; Frank M. Boyle, Milwauke, business manager.

Bemidji — Contracts for the wiring, plumbing and heating for the Hotel Markham addition were let by F. S. Lycan. The bid of the Warfield Electric company of Bemidji for the wiring was accepted, the contract price being $650, while the St. Paul firm of J. D. Roberts & Co. will do the plumbing and heating, the work to be done for $7,000.

Mankato — A. J. Busch, aged 77, one of the oldest and best known residents and business men of Mankato, died Wednesday afternoon at his home. Mr. Busch had long been ill with a complication of diseases.

St. Cloud — The case of Samuel Hayward against J. C. Shea and Sam Thompson, charging the theft of $100 worth of alfalfa seed, was dismissed by Judge Alden, the court stating that evidence was not sufficient.

Crookston — Harold Dahlnes, formerly a messenger boy in the employ of the Western Union Telegraph company in Crookston and well known to many in the city, is a wireless operator aboard a battleship in Vera Cruz harbor.

Fisher — Mrs. William Wagner, a pioneer of Polk county, died at her home near Fisher from a complication of diseases. She was 47 years of age. Interment was in the cemetery at Fisher. Besides her husband she leaves two sons and two daughters: Ray Wagner, Arthur Wagner, Elma Wagner and Elsie Wagner.

Cambridge — Mrs. O. T. Rykken and seven children left Monday evening for Montana, where Mr. Rykken, former section foreman at this place, has been for several weeks. Their future home will be at Milestone, Mont., where they have land.

Hinckley — John White was indicted by the recent grand jury for selling liquor in Hinckley last winter without a license. White pleaded guilty and was fined $50 and thirty days. This sentence was suspended during the good behavior upon recommendations of the county attorney.

Minneapolis — Bertram W. Roberts, formerly of this city died Tuesday in Duluth. Mr. Roberts was born in Minneapolis, Feb. 23, 1872, and was a graduate of the South High school. His wife and two sons, Warren and Gordon, at Little Falls, Minn.; his father, E. W. Roberts, a brother, Frank, and sisters, Nellie and Mary, of Minneapolis, survive him. The funeral was in Lakewood chapel Thursday at 2:30 p m.

Hastings — Harry Jackson, a native of Sweden, aged 26 years, had both legs cut off below the knee Wednesday afternoon by falling from the bumpers of an extra east-bound freight train in charge of Conductor W. B. Jones, opposite the freight depot, and is in a critical condition.

St. Paul — The dead body of Dr. Edmund La Londe, 349 University avenue, was found in the kitchen of his residence April 22, with the gas turned on. The coroner believes Dr. La Londe went to the kitchen for a drink and did not know that he had turned on the gas.

Remedy Used By Three Generations

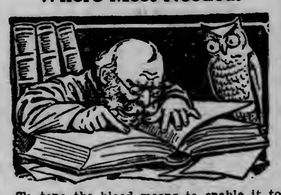
Mothers Who Took It When Children Now Giving It to Their Children.

There must be genuine merit to an article that has stood the test of two generations of users.

In the field of medicine none has had greater success, nor retained that success to a greater degree, than Dr. Caldwell's Syrup Pepsin, which is now being used by three generations of people. Its use in families is constantly becoming more general. The reason, primarily, is that it has merit. It is what it represents itself to be, a laxative-tonic; it does not make exaggerated claims nor use coarse language to set forth its virtues.

It is a medicine, but so mild and gentle a medicine that thousands of mothers give it to tiny infants, and yet, in a slightly larger dose, it is equally effective for grown-ups. It is for any disorder of the stomach, liver or bowels, for constipation no matter how chronic, for dyspepsia no matter how severe, for biliousness, sour stomach, gas on the stomach, headaches, drowsiness after eating and similar complaints arising from a clogged-up condition of the bowels. It is pleasant to the taste and does not gripe. It can be used with safety and good results by anyone at any age or in any condition of health, and that person's health will improve. Every druggist sells it and the price is only fifty cents and one dollar a bottle.

Thousands of families throughout the country are never without Syrup Pepsin in the house, among them Mrs. W. A. Taylor, 717 Lincoln avenue, Beloit, Wis. She has five children and gives Dr. Caldwell's Syrup Pepsin to all of them as needed. Little William used to cry half the night with cramps and pain, but since being given Syrup Pepsin he does so no longer. The use of this remedy will teach you to avoid cathartics, salts, purgatives and physics generally as they are entirely too harsh. Syrup Pepsin cures gradually, but the cure is comfortable, safe and permanent.



WM. ROSWELL TAYLOR.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington street, Monticello, Ill. A postal card with your name and address on it will do.

Blood Tonic Has Important Meaning

Puts the Right Sort of Vim Where Most Needed.

To tone the blood means to enable it to throw off accumulated impurities, to increase the red corpuscles and to put the blood-making organs into such active condition as to produce that conscious sensation of what we feel as health.

This is the logical effect of using the famous blood purifier, S. S. S.

Half the people you meet complain of weary muscles, stagnant brain, jangled nerves, and a wonderful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn-out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

S. S. S. has long been famous as a blood purifier, and its action by elimination of the irritating poisons that infest the blood, is one of the very important things to know.

You can get S. S. S. at any drug store, but take no other so-called blood purifier.

S. S. S. is purely a vegetable product, and you will make a great mistake to have some enthusiast palm off a mercury, arsenic or iodide of potash preparation that may do you irreparable harm.

S. S. S. is prepared by The Swift Specific Co., 533 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice. It will be worth your while to do so.

The Shock Absorbing Adjustable Spring

YOU can not regulate the stiffness of the seat-springs in ordinary baby carriages. That is why ordinary stiff-springs might be all right for a child two years old but would be too jerky and bumpy for a little mite a week or a month old.

The SIDWAY is the **only** baby carriage with springs that can be regulated to **exactly suit the increasing weight of the baby.** And these springs are marvels of gentleness. Whether baby weighs seven or forty pounds, whether you ride him over rough roads or cobblestones, suddenly tilt or turn, baby rides without a jerk or bump, evenly, easily, phantom like. This is because of the SIDWAY adjustable, long-leaf suspension springs.

Sidway GUARANTEED

This Name on the Frame of Every Genuine

Sidways Fold With One Motion

The exceptional bed length and width leave worlds of room for pillows and quilts and for the unconfined movement of baby's limbs.

The Sidway is the only baby carriage, every part of which is unconditionally guaranteed by the makers against wear and breakage for two years. **This includes the Fabrikoid Leather made exclusively for the Sidway, and carrying the additional guarantee of the DuPont Fabrikoid Co., sole makers of Fabrikoid.**

The big Sidway factory turns out a Sidway baby carriage every 45 seconds. This enormous output, at a minimum of cost per carriage, gives you a Sidway of the highest quality and value at a price no higher than many unguaranteed carriages. Made in various styles to suit every purse, by the Sidway Mercantile Co., Elkhart, Ind.

See the Sidway at

SAUK CENTER MAN IS GIVEN BOOST

Dr. Dutoit Is Indorsed By Democrats for Congressman.

Bemidji, Minn., April 24.—(Special to The Herald.)—At a meeting here the Democrats indorsed Dr. J. A. Dutoit of Sauk Center as a candidate for congress in the Sixth district. Twelve years ago Dr. Dutoit was a candidate against Beckman of Little Falls. Dr. Dutoit and Editor Vasaly of the Little Falls Herald were here at the conference. Dr. Dutoit would not say positively that he would become a candidate, but that he would give the matter serious attention.

MOTHER TAKEN ILL; CHILDREN FRIENDLESS

Their mother suddenly taken ill just as they arrived at the Union station this morning from Virginia, Harold and Johnnie Layman, 5 years and 1 year old, respectively, were left alone when an ambulance took her to St. Luke's hospital. An officer took the children to police headquarters, where they are being cared for by Police Matron Walsh.

DULUTHIANS IN MEXICO

Anxious Regarding Fate of Mr. and Mrs. E. F. Swift.

Mr. and Mrs. E. F. Swift, formerly of Duluth, were in Mexico City when last heard from, and since the trouble became acute resulting in the hostile demonstration in the Mexican capital yesterday, fear is felt for their safety and that of their youngest child, who is with them.

Miss Margaret Swift, their daughter, is visiting in Duluth, the guest of Mrs. C. W. Elston, 1609 East Superior street. She has not heard from her parents for some time and fears for their safety and that of her youngest sister.

Mr. Swift is the Mexican representative of the International Harvester company and has had charge of that company's affairs there for several years. He left Duluth about eight years ago, but has visited here since then. They were in Duluth last summer as the guests of their friends here.

Mr. and Mrs. Swift have two other children, who are visiting with relatives on the Pacific coast. Mrs. Swift was formerly Miss Britts and taught school here before her marriage.

DEMOCRATIC CHIEFS WILL GATHER IN DULUTH.

The Democratic county committee will meet this evening to organize for the coming campaign. The meeting will be held at the St. Louis hotel.

Tomorrow afternoon at 2 o'clock the meeting of the Democratic congressional conference will be held at the city hall. It is expected that there will be a large attendance. This was determined on at the meeting of the congressional delegates at the state conference in St. Paul on March 31, and keen interest is shown in the choice of a candidate for congressional honors. Andrew Nelson is understood to be the choice, but that cannot be fully determined until tomorrow.

It is expected that this evening the bulk of the delegates will begin to arrive, the more tardy arriving tomorrow morning.

WINONA BOY HURT IN VERA CRUZ FIGHTING.

From The Herald Washington Bureau.

Washington, April 24.—T. V. Biscup, boatswain's mate, second class, of Winona, Minn., is among those reported wounded in the attack on Vera Cruz, but the extent of his injuries is not stated.

The young man's mother, Mrs. Julia Biscup, lives at 75 East Third street, Winona.

MUST CLOSE SIDE DOORS

New Hicken Liquor Code Will Become Effective May 1.

Doors and Screens Must Be Removed From All Booths.

Orders to close all doors leading from saloons to any other room are being issued by the police department to saloonkeepers. This regulation becomes effective May 1, as provided in the Hicken liquor code.

By that time all doors or screens must be removed from all booths or wine rooms. The only exception to this is the office and in that case it is probable that a door will be permitted, provided it is fitted with a transparent pane of glass.

This will eliminate all entrances from cigar stores or other business establishments to saloons as well as the doors connecting with restaurants, which have been in use in several places where the two are located in adjoining buildings. The side entrances, such as open off stairways, will have to be nailed up. In short, all doors, except those opening directly into the saloon from the front or rear, will have to be put out of commission.

Some of the cigar stores in front of saloons will continue as they have been, except for the doors, until the saloon license expires. This is possible as the ordinance reads that no license shall be issued for saloons in rooms which are more than six feet wider in the rear than in the front. But before another license is issued the necessary changes will have to be made. It is understood that the authorities will not split hairs in enforcing the ordinance to the letter so long as the full spirit of it is observed. Some technicalities will be waived as to construction provided they are not such as would tend to shut off a full view of the barroom during legal closing hours.

WILL WORK AT NIGHT.

City Will Not Sweep, Clean or Sprinkle During Day.

The downtown district will not be swept, cleaned or sprinkled during the day time.

This work will be done during the night, according to Commissioner Roderick Murchison, head of the works division. The same plan was followed last year but the territory will be extended this season.

The district which will be handled in this manner includes Superior street from Fourth avenue east to Eighth avenue west and the intervening avenues between Michigan street and First street. The pavements will be thoroughly flushed every night. This arrangement is expected to keep them so clean that there will not be enough dust during the day to be a nuisance or cause any inconvenience.

WANTS COURT TO DETERMINE HEIRS.

Mrs. Catherine Powers of Superior petitioned the probate court yesterday afternoon for an order determining the heirs of her husband, James H. Powers, who died fourteen years ago at Mendota, Wis., and the descent of land owned by him in this county. Powers owned two city lots at Ely at the time of his death. He is survived by a widow and four sons.

Ida Lonquist, widow of John Lonquist, who died aged 37, at his home near Mountain Iron on April 15 last, today filed a petition with the probate court for letters of administration on his estate. The estate consists of real and personal property valued at $950. Lonquist left a wife, three daughters and one son.

ATTACKED IN HER HOME.

Albert Lea Girl Has Thrilling Experience With Intruder.

Albert Lea, Minn., April 24.—Alone in the home of her mother Wednesday evening, Miss Alma Olson, a 17-year-old telephone operator, battled for an hour with an intruder and was left for dead with the burners of a gas range turned on. She was rescued a short time later, but has been delirious and only at odd moments is she able to tell anything at all of the affair.

The entire police force is working on the case, but has been unable to locate any suspect from the meager description given by the girl.

ON THE IRON RANGES

NASHWAUK NEEDS MANY NEW HOMES

New Washing Plant of La Rue Mine Is About Completed.

Nashwauk, Minn., April 24.—(Special to The Herald.) — The demand for houses is large and it is almost an impossible task for a family to find a house to move into. As a residence town Nashwauk is in first-class condition as to owners of property and while there are a number of houses erected every year, the demand seems never to wane, winter or summer.

John H. Carlson has sold his saloon business to Charles Tahtinnen, who will take charge the first of the month. An application signed by fifty citizens and the transferring of his license will be acted upon at the next meeting of the council, May 4.

The Hogan & Hayes building has been rented by the Nashwauk Hardware company and will be used as a display room.

The new steam road roller which the township has ordered is expected to arrive soon. When this roller is used on the different roads in this vicinity a vast difference will be noticed, especially where new road work is being done or where resurfacing is necessary.

Washing Plant Ahout Ready.

The washing plant at the La Rue mine is practically completed for the washing of iron ore. The plant has a capacity of twenty-five cars per day. A crew of men has been working at the plant for the past three months and are now putting the finishing touches to the plant.

At the next meeting of the village council the purchasing of a sprinkler wagon will be considered and a representative will be present to demonstrate his outfit to the council.

Supt. Max H. Barber of the Crosby mine returned Monday from a business trip to Ishpeming, Mich.

The drinking fountain installed last fall on the corner of Central avenue and Third street is now in working conditions and seems to fill a long felt want.

Domenick Morshone was placed under arrest by Chief of Police William Hayes Thursday morning and is now out on bail for riding his motorcycle on the cement walks.

VIRGINIA SCHOOLS TO DISPLAY WORK

First Week in May Is Designated as Exhibition Week.

Virginia, Minn., April 24.—(Special to The Herald.)—The first week in May has been designated "exhibition week" in the local schools, when the work done by the pupils the past year will be displayed in the several departments.

A display will be opened to the public in the primary building Monday, May 4; in the Central building on Tuesday; Johnson and South side buildings, Wednesday; Roosevelt building, Thursday, and North side building, Friday.

To Combine Display.

The week following will be featured by a large exhibit in the corridors of the technical high school building, where all of the exhibits of the various buildings will be assembled into one splendid display.

Wednesday night, May 13, the entire plant of the manual training department will be thrown open for public inspection between the hours of 7 and 10 o'clock. The boys of the manual training department will be at work throughout the evening. A full crew will demonstrate the progress that has been made in this department the past year.

IS SOME ATHLETE.

New Virginia Physical Director Made Record at Stout.

Virginia, Minn., April 24.—(Special to The Herald.)—Alfred K. Jackson of Stout institute, Menomonie, Wis., who was elected physical director in the Virginia schools for the coming year, was the best all-around athlete in the Menomonie high school. He obtained 86 points in tests made to determine the five best athletes in the school. His name was placed on a shield of special design and placed in the gymnasium.

GIVES THEM TEST.

Keewatin Fire Chief Sounds False Alarm to Try Firemen.

Keewatin, Minn., April 24.—(Special to The Herald.)—The citizens of Keewatin were aroused from peaceful slumber at an early hour Tuesday morning by the vigorous blowing of the fire whistle. The alarm was a false one, the ruse being used by the chief for the purpose of satisfying himself as to the qualifications of his firemen.

There is a movement on foot to organize a volunteer fire department and also include to membership applicants that desire to join for social purposes. The membership organization will have a membership of twenty-five and the officers will consist of a chief, secretary and treasurer. The village council will lend its support to the organization and that it will be a success from the start is assured. By-laws will be drafted as soon as the organization can be completed.

The village council decided to add another unit to the power plant consisting of one 125-horse power generator one 7-killowat exciter to be connected direct. Bids will be let at a meeting to be held May 12.

Luxuriant Hair Easy to Acquire

Some Splendid Beauty Secrets Taken from the Beauty Talks of Valeska Suratt, America's Greatest Beauty-Actress, and Recommended by Her in the Boston American.

"The only way to have beautiful hair is to force it. You can spend a lifetime with the ordinary hair tonics sold trying to tease it into healthy growth, but the game is not worth the candle. Here is the hair-treatment formula that will produce astonishing results in a short time. It will also stop hair from falling. Mix one-half pint each of water and alcohol (or take one pint of imported bay rum if you wish) and add one ounce of beta-quinol. It is then ready to use. It is fragrant, cleanly, and contains no oil. The beta-quinol costs no more than fifty cents at the drug store."

"It is very difficult to develop the bust, but I have known the following formula to produce very good results. Never use mechanical appliances on the bust. Massage is of very little use. Mix half a cup of sugar, two ounces of ruetone and a half pint of hot water. Of this take two teaspoonfuls after meals and at bed time. This is absolutely safe and is the only thing that I would recommend. The ruetone you can obtain at the drug store for one dollar."

Here is a simple, effective formula for wrinkles: To a half pint of hot water add two ounces of eptol and two tablespoonfuls of glycerine. Stir until it becomes a beautiful satiny cream. When cool it is ready to use. Every day's use of this brings back youth to the face in a startling manner. Wrinkles, big and little, and crow's feet, vanish. The eptol costs no more than fifty cents at the drug store.—Advertisement.

COMPANY F TOLD TO BE PREPARED

Captain of Eveleth Company Advises All to Be Ready.

Eveleth, Minn., April 24.—(Special to The Herald.)—"I have as yet received no orders but you can expect to be called upon for service at any time. Every man should be out for drill every Thursday night now. However, we may not be here next Thursday. It seems probable that the National Guard will be called out and if it is Company F wants to be there with both feet forward."

Thus Capt. J. C. Hartness addressed his militia company after drill last night. The men are excited over the possibility of seeing active service and have made ready to drop their work and leave at an hour's notice.

Telephone numbers and addresses were taken by the officers last night so that the members of the company can be reached on short notice, day or night. Drill has been more spirited since the Mexican situation reached a crisis.

WANTED MEN FOR SERVICE IN ARMY

That Was Reason Austria Offered Free Transportation Home.

Eveleth, Minn., April 24.—(Special to The Herald.)—John Yartze, who returned to Austria from this city a few months ago, writes a brother, Jacob Yartze, here that the recent offer of free transportation to that country was made in order to secure men for the army and that they will return to this country when they learn what the purpose of the government was in calling them home.

The proclamation issued by the government said nothing of military service and the men who accepted the offer were mostly men with families who had planned to return home this summer. The homecomers are about due to reach Austria now. Many from Eveleth accepted the free transportation.

HIBBING CLUB IS FOR BETTER ROADS

Commercial Club Wants Money Spent at Home, Not in Frisco.

Hibbing, Minn., April 24.—(Special to The Herald.)—Hibbing people will not guarantee any portion of the $60,000 asked for by the State Federation of Commercial clubs for the construction of a Minnesota building at San Francisco, even though the legislature might return the money. The Commercial club last night went on record as favoring the expenditure of the money on good roads or in the present work of the immigration department. It is understood that the other Commercial clubs of the county will take similar action.

Virginia Also Opposes.

Virginia, Minn., April 24.—(Special to The Herald.)—The local Commercial club last night voted against the proposition of raising $60,000 in Minnesota for a display at the Frisco fair, preferring that the money be spent on roads in Northern Minnesota. The committee on establishing a range county hospital and work farm here reported little progress and favored the erection of a local city hospital.

Ralph C. Pickering, Ralph Wilk, and Thomas Moody were appointed a committee on entertainment for the ensuing year. The committee will arrange for a number of social events.

The committee is planning a big smoker in the near future at which Senator James P. Boyle will be the chief speaker. The membership of the club is now 115 all fully paid up.

DIES NEAR CUSSON.

Employe of Rainy Lake Company Found Dead in Bed.

Virginia, Minn., April 24.—(Special to The Herald.)—Emil Marx, 45 years old, was found dead in bed at River Side camp of the Virginia & Rainy Lake company, six miles from Cusson, Wednesday. The body was brought here. It is thought that he has relatives living in Milwaukee, and an effort is being made to advise them of his death. Marx died suddenly of heart failure. He was employed with a construction crew.

MINERS MAY COMPETE.

Demonstration of First Aid Considered at Virginia.

Virginia, Minn., April 24.—(Special to The Herald.)—A non-competitive field meet for the miners of the Virginia district is contemplated by the men in charge of the Superior district mine rescue car, which is stationed here.

If sufficient interest can be aroused in the proposed meet, teams representing the various mines will give public demonstrations in first aid to the injured and rescue work. A large number of miners would participate.

WOLF WORK FARM PLAN INDORSED.

Hibbing, Minn., April 24.—(Special to The Herald.)—Legislation that will allow the construction of a county hospital and work farm at Wolf was requested last night by the Commercial club and the secretary was instructed to write to all legislative candidates on the range regarding the move. He will also inform the other clubs of the action and solicit their support. The Eveleth and Chisholm clubs have already favored the plan and the Virginia organization stands alone in its effort to land the institution at that city. The location at Wolf, it is claimed, will be central for all of the towns and will be a great saving in transportation charges.

TWO HARBORS WOMAN SEEKING SCHOOL JOB

Two Harbors, Minn., April 24.—(Special to The Herald.)—Mrs. D. H. Lawrence has definitely decided to enter the race for superintendent of county schools. Mrs. Lawrence has been a resident of Lake county and this city for a number of years and is favorably

MRS. D. H. LAWRENCE (and child.)

known by many. She was a teacher in the public schools here for three years and while acting in this capacity she was considered one of the most successful teachers, and it is believed if elected she will undoubtedly prove a very able and efficient superintendent.

LEGAL PHASE TO BE LOOKED INTO

If It Can Be Done, Township Annexation Will Be Made.

Hibbing, Minn., April 24.—(Special to The Herald.)—The legality of the annexation of township 59-21 by the town of Stuntz will be investigated before any recommendation is made to the town board by the Commercial club, though the members present last evening went on record as favoring the move, which is in an effort to secure an improved road to Sturgeon lake and the Bear river country.

A doubt exists in the minds of many of the members as to the right of any town to contain more than five legislative townships, and it is this phase of the question that is to be investigated by the committee consisting of D. T. Collins, M. H. Crocker and Victor J. Benoe.

Differ Only on Methods.

The proposed plan was thoroughly discussed by the club members last evening. All were in favor of a good road, but there was a difference of opinion as to the method that should be employed.

That there is now under course of construction a judicial road that will when completed connect Bear River with Hibbing along the county line, by the building of a short stretch, was brought out by Mayor Power.

The possibility of constructing the Bear River road through the township desired annexed, even though it is not added, will also be investigated by the committee.

The officials of the township, it is claimed, plan to materially shorten the portion of the Sturgeon Lake road that lies within the boundaries of the township and to place it on level ground. The present road was an old trail and is very hilly.

The construction of a potato warehouse in Hibbing will be taken up at the regular May meeting of the Commercial club, having been laid over last night owing to other business.

TO ENTERTAIN ALUMNI.

Chisholm Getting Ready for Gathering There on May 29.

Chisholm, Minn., April 24.—(Special to The Herald.)—The Minnesota Range Alumni association, of which A. Y. Peterson is president, met Tuesday evening to discuss the annual meeting which will take place here May 29. It was decided to give a three course dinner at the O'Neil hotel and a dance in the Finnish opera house. A general committee was appointed consisting of A. Y. Peterson, Edward Freeman, Lewis Downing, Fred Lang, and Mrs. Fred Drotning.

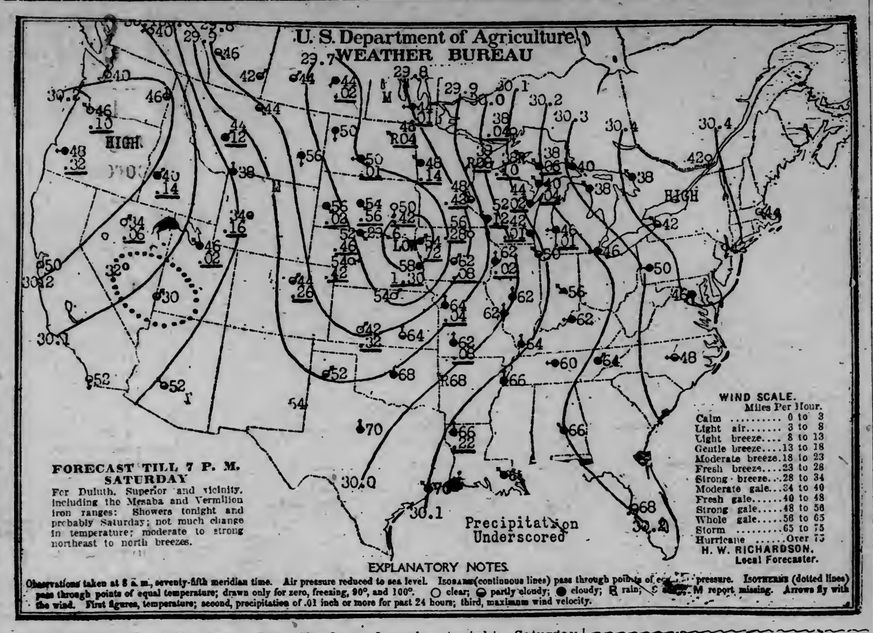
Brother at Vera Cruz.

Virginia, Minn., April 24.—(Special to The Herald.)—Daniel Loomis, brother of Arthur Loomis, local photographer, is sergeant of marines on the transport Hancock, which is at Vera Cruz, Mex.

Sergeant Loomis visited in Virginia last year while on furlough. He is a Michigan boy, enlisting from that state about eight years ago.

HYOMEI RELIEVES

Catarrh, Head Colds, Snuffles Almost Instantly—You Breathe It.



Why delay and continue to needlessly suffer the ravages of catarrh? It is not only unnecessary, but dangerous. Try now—today—the Hyomei treatment for any catarrh ills, head colds, hoarseness or bronchitis.

The Hyomei process of banishing catarrh, relieving head colds and healing the raw and inflamed mucous membrane is not only most effective, but is quick, entirely harmless and pleasant to use—it's nature's way—you breathe it—no bad tasting drugs to upset the stomach.

You cannot successfully reach the organs where the catarrh germs thrive except with antiseptic and germicidal air. The commonsense method is to breathe a few times daily health-restoring Hyomei. Being medicated air it goes right to the spot and immediately reaches all the diseased tissues. Its antiseptic healing begins at once.

If suffering from frequent colds, headaches, raising of mucus, spasmodic coughing, difficult breathing, or that weak and run-down feeling, surely try Hyomei. Its your duty to yourself, friends and family, for no catarrh victim ever enjoys good health. Get from your druggist at once a complete Hyomei outfit, $1.00 size. Boyce drug store always sells it on money back if not benefited plan.

OFFICIAL MAP OF THE WEATHER

Observations taken at 8 a. m., seventy-fifth meridian time. Air pressure reduced to sea level. ISOBARS (continuous lines) pass through points of equal pressure. ISOTHERMS (dotted lines) pass through points of equal temperature; drawn only for zero, freezing, 90°, and 100°. ○ clear; ◒ partly cloudy; ● cloudy; R rain; S snow; M report missing. Arrows fly with the wind. First figures, temperature; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

RAIN

Old man Jup. Pluv. got in his work in good shape during the night and bids fair to do more stunts with his sprinkling can before he gets tired of the job. There will be showers this evening and Saturday with the temperature about the same. The clouds are gloomy today and most everybody has the dumps.

Rain held the boards a year ago today also. The sun rose this morning at 5:04 and will set this evening at 7:08, giving fourteen hours and four minutes of sunshine.

Mr. Richardson makes the following comment on weather conditions:

"The disturbance centered over the Missouri valley caused light to heavy rains throughout Central states, the Northwest and Far West, and strong northeast breezes on Western Lake Superior. Temperatures have risen over the Upper Mississippi valley and lake region, but the weather has turned colder over South Dakota, Nebraska and Kansas. Heavy rain fell at Omaha."

General Forecasts.

Chicago, April 24.—Forecasts for the twenty-four hours ending at 7 p. m. Saturday:

Wisconsin—Unsettled weather tonight and Saturday, probably showers and thunderstorms; warmer in east portion tonight; cooler Saturday.

Minnesota—Showers tonight; cooler in west portion; Saturday generally fair with cooler in south and west portions.

Iowa—Unsettled weather with thunderstorms this afternoon or tonight; cooler tonight; Saturday fair with cooler in east portion.

North Dakota and South Dakota—Cloudy and cooler tonight; Saturday fair.

Montana—Fair tonight and Saturday; cooler tonight.

Upper and Lower Michigan—Rain tonight and probably Saturday; warmer tonight.

CHISHOLM STREETS WILL BE CLEANED

Village Council Orders Clean Up and Does Other Things.

Chisholm, Minn., April 24.—(Special to The Herald.)—Dr. W. R. Schmidt came before the village council Wednesday night and brought up the matter of cleaning up the streets and yards. He was instructed to call upon the street commissioner for whatever help he might need and to start work immediately. Harry O'Brien was instructed to take charge of the scavenger work.

Arthur Bischold, park superintendent, asked the council for an appropriation with which to purchase a motor cycle to transport him from his work. This was tabled.

Lundahl & Son were awarded the contract to furnish 1,700 tree guards of the same type as used last year.

Mr. Lang was instructed to call for bids for 1,000 barrels of cement to extend the curbing; also for lumber for a new surface for the Longyear lake bridge.

Many Seeking Work.

Superintendent of Statistics and Complaints Harry O'Brien reported that he already had applications from over six hundred unemployed men, over a third of whom are married men and are greatly in need of employment. He asked the council to open up the work at once so that these could be taken care of.

Mr. O'Brien was authorized to call for bids for eight new fire alarm boxes and other supplies for the fire department.

Mr. O'Brien was also authorized to call for bids for furniture for the detention hospital, and medical appliances; also a year's supply of Mazda lamps for the white way.

Mayor Austin appointed the following committees:

Purchasing—Joseph Austin, J. H. McNiven, Leo Mitchell.

Sub-auditing—J. H. McNiven, Joseph Jakse, Leo Mitchell.

Cemetery—D. C. Culver, J. H. McNiven, Joseph Jakse.

Recorder Culver asked for an appropriation of $125 per month, salary for a deputy recorder. As the office of deputy recorder has been abolished, Mr. Culver's motion was held out of order. As Mr. Culver did not look at the matter in the light that the other members of the council did, the council went into executive session at 11 o'clock. This lasted until 2 a. m. without result.

WEDS AT ISHPEMING.

Coleraine Locomotive Fireman Finds Bride in Upper Michigan City.

Ishpeming, Mich., April 24.—Miss Delia Lafave and Fred Rock, both of Ishpeming, were married at St. Joseph's church early Wednesday by Rev. Father Bordas. Miss Lafave is a daughter of Mrs. August Lafave, Cedar street. Those who attended the couple were: Miss Theresa Ryan and Ed Doherty, both of this city.

Mr. and Mrs. Rock left for Minnesota, and will visit friends for a short time. Later they will make their home in Coleraine, where Mr. Rock is employed as a locomotive fireman.

HIBBING TO HAVE FINE PLAYGROUND

Ball Park and Athletic Field in Heart of Village.

Hibbing, Minn., April 24.—(Special to The Herald.)—If the plans outlined by Supt. Wolf for a joint school and village park on Mahoning street and Second avenue are realized, this village will have a playground and athletic field equal to any in the big cities. The park could be used for baseball and other sports in summer and for skating in winter.

"The park could be flooded in the winter after the ground had frozen," said Mr. Wolf "without doing any damage to the streets and drained early in the spring. It would be a beautiful place that would balance with Misabe park and allow ample room for walks and promenades. Other cities have found that playgrounds to be of the most benefit should be in the heart of the city and the opportunity has been glen Hibbing people to try this out."

Gives Satisfaction.

There seems to be but little dissension now over moving the ball grounds to the joint park. The Arthur Iron Mining company, who hold the right to the Mahoning street property have practically given their consent, and it seems more than probable that the Oliver Iron Mining company will offer no objection to parking the present ball grounds.

"The school officials are enthusiastic over the joint grounds," said Supt. Blair. "There is ample room for a running track, diamond and football field. The old park, after Fourth avenue is opened would be too small for any of these sports. The co-operation of the village would be welcomed, I am sure, by the school board."

No definite steps will be taken until the mining companies have given their full consent to the plan when the work will be rushed.

NEW LIFE.

Found in Change to Right Food.

After one suffers for months from acid dyspepsia, sour stomach, and then finds the remedy is in getting the right kind of food, it is something to speak about.

A N. Y. lady and her young son had such an experience and she wants others to know how to get relief. She writes:

"For about fifteen months my little boy and myself had suffered with sour stomach. We were unable to retain much of anything we ate.

"After suffering in this way for so long I decided to consult a specialist in stomach diseases. Instead of prescribing drugs, he put us both on Grape-Nuts and we began to improve immediately.

"It was the key to a new life. I found we had been eating too much heavy food which we could not digest. In a few weeks after commencing Grape-Nuts, I was able to do my house work. I wake in the morning with a clear head and feel rested and have no sour stomach. My boy sleeps well and wakes with a laugh.

"We have regained our lost weight and continue to eat Grape-Nuts for both the morning and evening meals. We are well and happy and owe it to Grape-Nuts."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville" in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

TAKES TESTIMONY.

Charges Against Hibbing Chinese Are Before Inspector.

Hibbings, Minn., April 24.—(Special to The Herald.)—Brown McDonald, immigration inspector with headquarters in Duluth, was in the village yesterday taking testimony in the case against Sin Tak Sam, the Chinaman arrested in a local laundry charged with fraudulently obtaining entrance into the United States. The Oriental asserts his innocence and was represented at the recent hearing in Duluth. It is understood that charges may be preferred against another local Chinaman because of testimony that was offered at the hearing.

TWO HARBORS WEDDING.

Two Well Known Young People Married in Norwegian Church.

Two Harbors, Minn., April 24.—(Special to The Herald.)—A very pretty wedding was solemnized at the Norwegian church last evening when Miss Emily Marie, second oldest daughter of Mr. and Mrs. C. H. Hagen, was married to George Basden. The wedding ceremony was performed by Rev. K. P. Carlson, pastor of the church. Many relatives and friends were present.

Miss Helen Hagen, a sister of the bride was bridesmaid and Walter Basden, a brother of the groom best man. The bride wore a gown of shadow lace over satin and carried a bouquet of lilies of the valley. The church was decorated in pink and white.

After the ceremony a wedding supper was served at the home of the bride's parents to immediate relatives and friends.

The bride is favorably known among a large circle of friends and has made her home in this city with her parents for many years.

The groom is one of the popular young men of the city and is employed in the switch service of the Iron Range railroad.

TOWER WEDDING.

Tower, Minn., April 24.—(Special to The Herald.)—Several Duluthians attended the wedding of Miss Sadie May Napier and Fred Nystrum, both of this city, Wednesday evening at the home of the bride, Rev. Mr. Mapson officiating.

The maid of honor was the bride's sister, Miss Ruth Napier. The best man was Arvid Anderson. The bride wore light blue messaline and carried a bride's bouquet of pink and white roses. The maid of honr wore rose messaline and carried carnations. The decorations in the house were in green and white. Among the out-of-town guests were: Mrs. McClure, Miss Florence McClure, Miss Alice Camelon, Mr. and Mrs. A. Anderson, all of Duluth, and Miss Sigrid Anderson of Biwabik. Miss Ethel Burgess of Tower rendered Mendelssohn's wedding march. After a honeymoon, Mr. and Mrs. Nystrum will reside in New Duluth.

TO GIVE CLASS PLAY.

Two Harbors Seniors to Give "At the End of the Rainbow."

Two Harbors, Minn., April 24.—(Special to The Herald.)—The graduating class of the high school will give their class play, "At the End of the Rainbow," this evening in the auditorium of the Minnehaha building. The students who take part have been working hard for the past few months to make the play a success, and according to the school faculty everything is in readiness for the first performance this evening.

The class of 1914 is the first one of quite a number to have a complete set of stage settings and this feature linked with the play will undoubtedly make it the most successful graduation play that has been seen in Two Harbors for many years.

A matinee will be given tomorrow afternoon for the benefit of children. The tickets have been on sale all this week and at present only a few remain for this evening's performance.

CHILDREN'S WANTS TO BE CARED FOR.

Hibbing, Minn., April 24.—(Special to The Herald.)—The work of the Hibbing Public library has increased to such an extent that the need of a specially trained worker with the children has become apparent. To meet this condition Miss Louise Richardson of South Carolina, a graduate of Pratt Institute Library school, has been elected children's librarian and will report for duty on May 1.

Seventy-five books in the Italian language have been added this week to the foreign book collection.

To Attend Hibbing Exercises.

Virginia, Minn., April 26.—(Special to The Herald.)—Many local Odd Fellows and Rebekahs will attend the service to be held at the armory in Hibbing, Sunday afternoon, in honor of the anniversary of the organization of the lodge on the range.

A chartered car on the Mesaba Electric railroad will leave Virginia for Hibbing shortly after noon, returning after the exercises.

HAVE YOU HAD THE GRIP?

There are certain disorders, such as the grip, that especially debilitate and make the body an easy prey for more dangerous diseases. Ask those who have had the grip regarding the present condition of their health and most of them will answer: Since I had the grip I have never been well." They still have profuse perspiration, the persistent weakness of the limbs, the disordered digestion, shortness of breath and palpitation of the heart caused by the thin-blooded condition in which the grip almost always leaves its victim after the fever and influenza have subsided. They are furthermore, at the mercy of relapses and of complications, often very serious. In an attack of the grip there is a rapid thinning of the blood and not until the blood is built up again is complete health restored.

Dr. Williams' Pink Pills quickly make the blood rich and red, drive out the lingering germs from the system and transform despondent grip victims into cheerful, healthy men and women.

Try the pills for any form of debility caused by thin blood.

All druggists sell Dr. Williams' Pink Pills. Get a box today and begin at once to regain your health. Write for free booklet, "Building Up the Blood," to the Dr. Williams Medicine Co., Schenectady, N. Y.

ATTENTION!

Mesaba Range Odd Fellows.

All Odd Fellows and Rebekahs are requested to join with the range lodges on Sunday at Hibbing to commemorate the ninety-fifth anniversary of the order.

Meeting at Odd Fellows hall, Third avenue, at 1 p. m.

Public meeting at armory in City Hall, at 2 p. m. All are invited.

Good speaking; good music.

SUPERIOR MAN GETS CONTRACT

John Donlin Will Build New Virginia South Side School.

Virginia, Minn., April 24.—(Special to The Herald.)—The board of education has awarded the contract for building the new South side school to be built here this year to John Donlin, a Superior contractor, for $54,568. The Bowe-Burke company of Duluth was the next lowest bidder.

The plumbing, heating and ventilating contract went to the Star Construction company of Virginia for $11,000.11. John Swanson of Virginia will do the electric wiring and similar work for $1,875.

WILL BE DEPORTED.

Kinney Man, Once Sent to Finland, to Be Returned.

Virginia, Minn., April 24.—(Special to The Herald.)—Immigration Inspector McDonald of Duluth was here today on his way home with Carl Lehtenen, a Finn living at Kinney, who will be deported because his mind has been unbalanced since he was recently hit on the head. It is said he was deported several years ago and was allowed to return.

TOWER AGENT IS FATHER OF TWINS.

Tower, Minn., April 24.—(Special to The Herald.)—Word has been received from Two Harbors that Mrs. G. C. Carlson, wife of the local agent for the Iron Range railroad, has given birth to twins, both girls, in that city and that as soon as mother and children can travel they will return here.

Gilbert Entertainment.

Gilbert, Minn., April 24.—(Special to The Herald.)—The entertainment given Wednesday evening in Carlson's hall by the Odd Fellows in commemoration of the ninety-fifth anniversary of the founding of the order was attended by a very large crowd who were attentive to the program and were appreciative of the generous luncheon provided.

Returning to Copper Country.

Eveleth, Minn., April 24.—(Special to The Herald.)—A number of men who have been laid off temporarily in the mines here, sixty have left for Calumet, Mich., to seek employment.

Not all of those who are leaving this city were employed in Michigan previous to the strike but all expect to secure work there since the strike has been declared off.

Favor Caps and Gowns.

Virginia, Minn., April 24.—(Special to The Herald.)—The senior class of the high school voted last night, 23 to 3, to wear caps and gowns during the coming commencement.

SULPHUR IS THE ONLY THING FOR ITCHING ECZEMA

Use Like Cold Cream to Subdue Irritation and Clear the Skin.

In the treatment of the various forms of disfiguring, itching and burning Eczema such as Acne, Ringworm, Salt Rheum, there is nothing known that can take the place of bold-sulphur cream.

It effects such prompt relief, even in the aggravated Eczema, that it is a never-ending source of amazement to physicians.

For years bold-sulphur has occupied a secure position in the treatment of cutaneous eruptions by reason of its cooling, parasite-destroying properties. Bold-sulphur is not only parasiticidal, but antipruritic and antiseptic, therefore invaluable in overcoming irritable and inflammatory affections of the skin. While not always establishing a permanent cure, yet in every instance it instantly stops the agonizing itching; subdues the irritation and heals the inflamed, raw skin right up and it is often years later before any Eczema eruption again appears.

Those troubled should obtain from any good pharmacist an ounce of bold-sulphur cream and apply it directly upon the abrasion like an ordinary cold cream. It isn't unpleasant and the prompt relief afforded is very welcome.

MARKET IS AGAIN WEAK

Decline in Wheat Continues on Liberal Rains Through Southwest.

After Ruling Strong, Flaxseed Weakens at Close With Lower Cables.

Duluth Board of Trade, April 24.—The market was weak up to the close. May wheat closed ¾c off; July ½c off and September ½c off at 89c. May durum closed at ¾c off and July ⅜c off.

Oats closed ⅛c off at 36⅝c for on the track and 35⅞c for to arrive.

Rye closed unchanged at 54½@56½c for the best grades, and barley unchanged at from 43c to 57c.

At Winnipeg, May oats closed at 35¼c bid and July at 36⅛c bid.

Puts on Minneapolis July wheat closed at 91⅛c asked and calls at 92⅝c asked.

Today's market in wheat was influenced by reports of liberal rains in Nebraska, Kansas, along the Mississippi valley and in South Dakota at points where moisture was most needed. The Mexican war situation was hardly a factor in the day's trading.

Cash demand was reported in all the markets and though some export bids were advised at the seaboard, they were out of line.

Corn was again weak at Chicago, St. Louis and Kansas City.

Liverpool closed higher on the comparatively steady American markets yesterday and predictions of light world's shipments this week. Any sharp break in the market was put out of the question through good buying of July wheat by Armour and other leading operators at Chicago and disinclination to make commitments on the short side in view of possible bullish developments at this stage.

Primary receipts showed a relatively heavier falling off today, the aggregate coming to 325,000 bu against 526,000 bu last year. Inspections locally were only 14 cars against 75 last year. At Minneapolis there were 122 cars compared with 162 a year ago. Marketings at Winnipeg continue unexpectedly heavy, 257 cars coming to hand up there today, compared with 181 last year.

Stocks in the local elevators are being substantially reduced through the present activity in steamer loadings. As a result of the congestion in the marine trade vessel space was offered down to a cent a bushel today.

May wheat opened unchanged at 92¼c and declined ⅜c up to the final hour. The July option opened unchanged at 93½c and sold off ½c. July also broke ½c to 89c.

There was only limited inquiry for durum and it declined steadily. May durum opened ⅜c off at 87¾c and declined ⅜c more and the July option opened unchanged at 88⅞c and weakened ⅜c.

Flax Weak at Close.

Flaxseed was comparatively strong during the greater part of today's sessions as a result of fair bidding by crushers at the low spots set after yesterday's sharp break. The market turned weak at the finish, with final prices showing declines of ¼@½c.

The foreign markets all sold off, Buenos Aires closing 1⅝c down; London ¾c down and Antwerp 1¾c off.

May flax opened ¼c off at $1.52¼, and closed ½c off at $1.52 nominally. July opened unchanged at $-.54½ and closed ½c off at $1.54, and the September option opened ¾c off at $1.55¾, and closed ¼c off at $1.55¾.

At Winnipeg, May flax closed at $1.32¾ bid, and July at $1.35⅝ bid.

Cash Sales Friday.

No. 1 northern wheat, 2 cars	$ .92⅝
No. 1 northern wheat, 1,000 bu, to arrive May	.93
No. 1 northern wheat, 2,400 bu, to arrive	.92¼
No. 2 northern wheat, 1 car	.90¼
No. 2 durum, 1 car	.85⅞
No. 2 durum, 1 car	.85
Oats, 2-3 car, 3-0	.32
No. 1 flax, 1 car	1.52½
No. 1 flax, 1-3 car	1.53

MARKET GOSSIP.

Steamers with cargoes of grain have cleared from Duluth as follows since the opening of navigation: Thomas Barlum with 187,000 winter wheat and 109,000 bu bonded wheat; Mary L. Elphicke with 250,000 bu spring wheat; E. N. Ohl with 263,000 bu spring wheat and the W. O. Pollock with 304,000 bu of barley.

The following cargoes are still afloat in the harbor: W. K. Bixby with 199,000 bu durum and 89,000 bu spring wheat; M. Andrews with 226,000 bu oats; J. B. Cowles with 341,000 bu spring wheat; J. O. Riddle with 355,000 bu spring wheat; J. J. Albright with 241,000 bu winter wheat; J. K. Dimmick with 246,000 bu winter wheat; J. J. Ashley with 336,000 bu spring wheat; A. S. Upson with 227,000 bu spring wheat; Penobscot with 71,000 bu spring wheat and 275,000 bu oats; W. H. Gratwick with 240,000 bu spring wheat; Bransford with 65,000 bu durum and the M. A. Hanna with 175,000 bu durum and 65,000 bu winter wheat.

* * *

Broomhall estimates world's shipments, exclusive of North America, at 7,200,000 bu, against 6,464,000 bu actual last week. Of this Europe will take about 6,800,000 bu. Total shipments last week were 9,792,000 bu and last year 13,136,000 bu. Arrivals into the United Kingdom were about 4,800,000 bu. He predicts a good decrease on passage. Australia shipments of wheat this week were 1,456,000 bu. India shipments of wheat 56,000 bu with none estimated for next week.

* * *

The Winnipeg Free Press has the following from Magrath, Alta.: "A seed wheat famine prevails in this district. The mills and elevators are completely out and farmers coming in from the country are forced to return without seed. Seeding operations on many of the big farms are suspended on account of the supply being exhausted. Orders are being rushed and seed is being hurried with all possible speed. Beautiful weather prevails although the soil is rather cold."

* * *

The Minneapolis cash market was steady, but the demand was just fair. The mills continued to take supplies out of store. No. 1 northern blue stem was quoted steady at 2@3¾c over May and velvet chaff at 2@2¼c over, but the top premiums were only for very choice. Flour sales were moderate, but a little improvement was noted by some mills. Cash No. 1 northern wheat sold there at from 92c to 93¾c and No. 2 northern at from 90c to 91½c.

* * *

Broomhall cabled from Liverpool: "Wheat—Easier American cables yesterday were offset here by heavy sales of Australian and an improved demand for spot, and prices at the opening were unchanged to ⅛d higher. Following the opening there was moderate realizing and values declined ⅛@¼d on cheaper Manitobas and Indian offers and freer Russian offers. Later American buying again steadied the market and most of the decline was recovered. World's shipments are said to be moderate with a good decrease on passage. At 1:30 p. m. the undertone was steady, unchanged.

"Corn—Opened quiet and later July recorded support on the light Argentine shipments, while the distant month was under pressure of realizing due liberal Plate offers and lack of speculative support. At 1:30 p. m. the undertone was irregular, unchanged to ⅛d lower."

* * *

Argentine weather continues unsettled with rain in parts. Corn shipments are being delayed by the heavy rain and the cash situation is acute.

* * *

Argentine shipments—Wheat, 632,000 bu, against 848,000 bu last week and 4,432,000 bu last year; corn, 1,514,000 bu, against 4,412,000 bu last week and 1,998,000 bu last year; oats, 1,050,000 bu, against 1,160,000 bu last week and 1,210,000 bu last year.

* * *

Baker received the following wire from B. W. Snow from Miranda, Faulk county, S. D.: "There has been practically no moisture in the ground, no rain or snow, and conditions were getting serious until last night, when it rained all night and continues raining today. This insures the start of the crop. Considerable seeding yet to be done."

* * *

Duluth car inspection: Wheat—No. 1 northern, 4; No. 2 northern, 2; No. 3, 2; durum, 3; mixed, 3; total wheat, 14, last year, 75; flax, 2, last year, 5; oats, 2, last year, 4; rye, 1, last year, 2; barley, 2, last year, 7; total of all grains, 21, last year, 93; on track, 20.

* * *

Duluth grain stocks, giving changes in five days:

Wheat—Western and winter, 394,000 bu, decrease, 257,000; spring, 8,812,000 bu, decrease, 1,368,000 bu; durum, 2,060,000 bu, decrease, 219,000 bu; bonded, 388,000 bu; total wheat, 12,742,000 bu, net decrease, 1,818,000 bu.

Coarse grains—Corn, 388,000 bu; oats, 3,684,000 bu, decrease, 293,000 bu; rye, 318,000 bu; barley, 636,000 bu, decrease, 15,000 bu; flax, domestic, 1,625,000 bu; bonded, 486,000 bu; total flax, 2,111,000 bu, increase, net, 76,000 bu; total all grains, 19,879,000 bu.

Afloat—Wheat, 3,015,000; oats, 226,000 bu; barley, 304,000 bu.

Clearances reported: Wheat, 103,000 bu; flour, 27,000 bbls; together they equal 225,000 bu; corn, none; oats, 8,000 bu.

Shipments of bonded grain—Oats, 1,131 bu, last year none.

THE CHICAGO MARKET.

Wheat Drops on Rains in Nebraska and Kansas.

Chicago, April 24.—Rainfalls reported today from Nebraska and Kansas in addition to the showers of the previous day, caused the wheat market here to take a downward bend. Selling, however, was not heavy, and the buying demand was fair on the dip. Advices that seeding for the spring crop had made excellent progress in the Dakotas and Minnesota tended to favor the bears. Prices opened unchanged to ⅛c lower, rallied a trifle and then underwent a moderate general sag.

Rains in the spring crop region were against any important upturn. So also were liberal purchases of wheat to come to Chicago from Kansas City. The close was steady, ⅛c to ¼c net lower.

Slowness of cash inquiry both here and in the Southwest had a depressing effect on corn. It was denied that Argentine sales were being cancelled. After opening a shade to ¼@⅜c down, the market eased off all around.

Increased weakness followed. The Southwest was selling May corn here and quite free offerings were received from Iowa. The close was steady at a decline of ⅜@½c to ⅝@¾c net.

Oats weakened on account of the rains. About the only demand came from cash houses.

Provisions suffered from lack of support. Firmness in the hog market was virtually ignored.

Wheat—No. 2 red, 95c; No. 3 red, 93½@94½c; No. 2 hard, 93¾c; No. 3 hard, 92¾c; No. 2 northern, 95@96½c; No. 3 northern, 93@95c; No. 2 spring, 94½@95½c; No. 3 spring, 92½@94½c.

Corn—No. 2, 66@67c; No. 2 yellow, 67½c; No. 3, 65½@66c; No. 3 white, 67¼@67½c.

Oats—No. 3 white, 38¼@38¾c; standard, 39¾@39c.

Range of prices:

Wheat—	Open.	High.	Low.	Close.

July	.37½	.37⅝	.37⅛-⅜	.37½b

MINNEAPOLIS MARKET.

Wheat Weaker on Liberal Offerings and Lack of Interest.

Minneapolis, Minn., April 24.—Lack of interest and liberal offerings caused a weaker opening in the wheat market today. Favorable reports from the Southwest and from seeding operations in the Northwest were in continued evidence.

Wheat—May opened 90½c; high, 90¾c; low, 89¾c; closed, 90⅛c. July opened 91⅞c; high, 92⅛c; low, 91⅛c; closed, 91⅝c. Cash: No. 1 hard, 94⅛c; No. 1 northern, 92⅛@93⅞c; to arrive, 92⅛@93⅛c; choice to arrive, 95⅞c; No. 2 northern, 90⅛@91⅝c; to arrive, 90⅝@91⅝c; No. 3 wheat, 87⅛@89⅛c.

Flax, $1.50¼@1.52¼.

The flour market was quiet today. Prices unchanged. Shipments, 59,326 bbls. Barley, 43@59c; rye, 56@57½c. Bran, unchanged.

New York Grain.

New York, April 24.—Wheat, May, $1.01½; July, 96⅛c.

DECLINES IN STOCKS

Liquidation Larger and Lower Average of Prices Recorded.

Mexican Crisis Has Disturbing Effect on the Market

New York, April 24.—The market was more disturbed during the morning than at any previous time, since the Mexican crisis became acute. Liquidation was on a larger scale and stocks fell to a new low average for the long decline. Heavy foreign selling reflected a depressing influence abroad of the Mexican trouble and was one of the principal influences in forcing down quotations here.

Domestic news was bearish, including reports of more general trade contraction and lower prices for some steel and copper products. After the decline had run from 1 to 2 points, it was checked by investment buying and inside support.

Bond prices dropped. Mexican government 5's broke 3 points. United States 4's registered were ¼ lower on the bid price.

Bear pressure was directed against the stock market at the outset today. The leading speculative stocks, particularly Reading and Union Pacific, were sold in large amounts, and there was a general recession in prices. In many instances the lowest quotations of the present decline were reached. Canadian Pacific sold down 2½ to 191¼. Mexican Petroleum lost 5. A dozen other issues fell about a point each.

After noon dealings were smaller, a rally of ½ to a point checking the demand for both accounts for the time being. Today's sales for London and continental account were difficult to estimate, owing to selling on direct orders aside from arbitrage business. Estimates ranged from 30,000 to 50,000 shares.

The market closed weak today. Continuance of active foreign liquidation undermined the market and offset support from the influence of investment buying and short covering. Canadian Pacific broke rapidly in the last hour and carried down the whole list with it. New Haven also manifested extreme weakness. Final prices showed losses of one to two points.

New York Money.

New York, April 24.—Call money, steady, 1½@1¾ per cent; ruling rate, 1¾ per cent; closing 1½@1¾ per cent. Time loans, strong; sixty days, 3 per cent; ninety days, 3@3¼ per cent; six months, 3½ per cent. Mercantile paper, 3½@4 per cent; sterling exchange, firm; sixty days, $4.85.35; demand, $4.87.45. Commercial, $4.84¾. Bar silver, 58½; Mexican dollars, 45½. Government bonds, weak; railroad bonds, easy.

London Stocks.

London, April 24.—American securities opened from ¼ to a point lower. The dealings were active and excited during the forenoon with Canadian Pacific leading the decline. Covering hardened the list in the early afternoon, but prices sagged again in the late trading and the closing tone was easy. Money was in good demand and discount rates were firmer.

Bank Exchanges Larger.

New York, April 24.—Bank exchanges this week as compiled by Dun's Review total $3,194,296,833, a gain of 12.1 per cent over 1912.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., April 24.—Barrett & Zimmerman report: Market even in tone. Retail orders for draft teams and farm horses were a feature. Shipments being made to numerous points in Wisconsin, Minnesota and Upper Michigan. Consignments of horses continue to arrive from the woods.

COPPERS STRONG UNDER LIQUIDATION

Liberal Selling in Some Issues Leads to Moderate Declines.

Further liquidating sales in mining stocks at Boston were well absorbed today and closing prices were as a rule only fractionally off. Besides the Mexican trouble, a decline in copper metal to 14⅜c a pound was a bearish factor.

Granby was again the feature absorbing a large proportion of the day's business. It was strong in the late trading, closing 25 cents up at $75.75 after selling down to $74.50. Greene-Cananea held comparatively steady, closing 50 cents off at $27.50. Amalgamated Copper declined $1.12 to a close of $69.87 ex-dividend $1.50. Alaska Gold closed 50 cents off at $25.12; Butte & Ballaklava unchanged at $2; Butte & Superior unchanged at $32.50; North Butte unchanged at $24.75, and Shattuck 25 cents off at $22.50.

In the Duluth curb list Alex Scott sold at $5.25; Keating at $1.56 and Calumet & Corbin at 26 cents.

* * *

Paine, Webber & Co. had the following wire from Boston: "A special meeting has been called by Granby to authorize the directors to raise funds in various ways for the purposes of the company in such amounts, manner and upon such terms and conditions as they determine, provided the total amount other than by issue of its shares or first mortgage 6 per cent gold bonds shall not at any time exceed the sum of $3,000,000."

* * *

At St. Louis lead closed at $3.70@$3.70½ and spelter at $4.95@5.05.

* * *

Daniel Guggenheim in a statement to the press at New York said he is very glad to say to stockholders of the Smelters company that he has no apprehension whatever regarding the ability of the company to pay dividends on its stock even should all earnings from Mexico cease.

* * *

Copper exports for week ended April 23 were 7,001 tons, a decrease of 5,689 tons; month to date, 25,768, a decrease of 5,192 tons. From Jan. 1 exports aggregated 142,647 tons, an increase of 25,205 tons.

New Mining Sensation

—ON THE—

Cuyuna Iron Range

The iron property of Ver-Mes-Cuyuna Mining & Development company is situated in the very heart of the Cuyuna iron range. A year's drilling has proved up a large body of ore. The over-burden is the lightest yet encountered on the range. Mining will be cheap. The location is ideal and there are no transportation problems.

Results already secured at this mine fully warrant and demand further development work. To strengthen the company's treasury for that purpose, 25,000 shares of stock are offered for subscription at par, $1.00 a share.

This is the first stock offered the public since the company's organization was completed. It is a rare chance. Investigation is invited. Get some of this offering before it is all taken. Prospectus and any information desired on request.

Ver-Mes-Cuyuna Mining & Development Co.,

214 Torrey Building, Duluth, Minn.
Iron Exchange Building, Brainerd, Minn.

LEGAL NOTICES.

ORDER OF HEARING ON PETITION FOR DETERMINATION OF DESCENT OF LAND—

State of Minnesota,
County of St. Louis—ss.

In Probate Court. In the Matter of the Estate of James H. Powers, Decedent.

The petition of Catherin Powers having been filed in this Court, representing, among other things, that the above named decedent died more than five years prior to the filing of said petition, and that no Will of decedent has been proved nor administration granted on his estate in this State; that said petitioner has, and claims to have, an interest in certain real estate of decedent lying and being in the County of St. Louis, State of Minnesota, described in said petition, and praying that the descent of said real estate be determined by this Court, and the same assigned to the persons thereunto entitled. It is ordered, That said petition be heard before this Court, at the Probate Court Rooms in the Court House, in the City of Duluth, in said County, on Monday, the 18th day of May, 1914, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted. Ordered further, That this order be served by publication in The Duluth Herald, according to law.

Dated at Duluth, Minn., April 23rd, 1914.

By the Court,
FRANCIS A. WATKINS, Judge of Probate of Carlton County, acting Judge of Probate of St. Louis Co., Minn.

Attest: A. R. MORTON,
Clerk of Probate.

Seal, Probate Court, St. Louis Co., Minn.
D. H., April 24, May 1 and 8, 1914.

RACKS TO HOLD KETTLE COVERS

Christian Science Monitor: Racks to hold kettle covers would cost but very little if planned for when a house is to be built, and they are always a great convenience. They may be fastened to the inside of the kitchen closet door, where they will occupy no space needed for something else, says the Ladies' Home Journal. They are of simple construction; two end pieces and a long crossbar, the lids being slipped between this bar and the door and held up by the knobs resting on the bar.

WOUNDED AT VERA CRUZ

Former West Duluth Boy One of the First Victims.

John McMillan Graduated From the Longfellow School in 1897.

A former West Duluth boy was among those wounded in the conflict which took place on the landing of marines in Vera Cruz on Tuesday. John McMillan, son of Mrs. Francis McMillan, a resident of Bay View Heights for many years, was one of those wounded.

The young man and his mother left West Duluth about ten years ago moving to Chicago. Since then Mrs. McMillan has moved to Canada and is now making her home at Mayfield, Man.

John was raised in West Duluth. As a boy he attended the Longfellow school, graduating from the eighth grade of that institution in 1897. He enlisted from Chicago in the United States marine service and was assigned to the Sixteenth company, Second regiment. He was with the first detachment that landed in Vera Cruz on Tuesday.

MOOSE LODGE TO EQUIP ROOMS

Fund Is Almost Covered—Members Will Help in Installation.

At the meeting last night of West Duluth lodge, No. 1478, Loyal Order of the Moose, plans were practically completed for the equipping of club rooms for the members. Almost the entire amount of money required for this purpose is assured.

Negotiations have been completed for a lease of the Great Eastern hall. The entire second floor of this building, 210 North Central avenue, will be used for the purpose. A large lodge room will be furnished. All features that go with a modern club room will be installed.

Final plans were also made last evening for entertaining tonight at a dancing party to be given at Dormedy's hall, Central avenue and Ramsey street. Invitations have been extended to many friends of the members.

Arrangements were also made last night for many of the members to go to Proctor Monday evening to take part in the installation of a new lodge in that village. A special train will leave the city early in the evening.

The committee in charge of the dancing party tonight consists of Hughie Viou, R. J. Baker, J. Geherty, John Dido and M. J. Roach.

MRS. JANZIG WILL BE BURIED TUESDAY.

The funeral services for Mrs. Henrietta Janzig, 86 years old, the pioneer resident of Hermantown who died Tuesday evening, will be held Monday afternoon at 1 o'clock from the home of her daughter, Mrs. Herman Breismeister of Hermantown, and at 2 o'clock from the German church of Hermantown. Rev. E. Lehne will officiate. Burial will be at the Hermantown cemetery.

Mrs. Janzig came to Hermantown from Germany on May 26, 1874. Her husband was one of the first settlers of that community. Mr. Janzig died twenty-four years ago as the result of an accidental discharge of a gun while hunting in the nearby woods.

Mrs. Janzig leaves seventy-three descendents living in this country. Seven are sons and daughters, forty-three are grandchildren, and twenty-three, great-grandchildren. The children are Mrs. Breismeister, with whom she made her home; August and William Janzig, both farmers at Hermantown; Rev. John Janzig of Gutenburg, Iowa; Rev. Gustav Janzig of Bridgewater, S. D.; Mrs. Johanna Fritz of Proctor, and Mrs. H. E. Bartholdi of Duluth. The two sons from out of the city arrived here today to attend the funeral.

AUTOMOBILE AND MOTORCYCLE OILS

We carry a complete line of MOBILOIL Oils and Greases, a grade for each type of motor; also spark plugs and supplies of all kinds for gasoline engines. Our prices are the lowest. Oils, 35c to 80c per gallon. Spark plugs, 25c to $1.50 each.

OLD RESIDENT CALLED.

John P. Olson Succumbs at Iron River, Wis.

John P. Olson, a resident of West Duluth for twenty-five years, died Tuesday at Iron River, Wis., following an illness of several weeks. News of his death was received by his friends here yesterday afternoon.

Mr. Olson was one of the pioneer settlers in West Duluth. For many years he operated a dairy near Fairmont Park. He was a member of West Duluth lodge, No. 145, A. O. U. W. He was born in Minnesota, fifty-eight years ago and only a year ago moved to Iron River, Wis.

He leaves a widow, four daughters and one son. He also leaves four sisters and one brother. The funeral was held this afternoon at Iron River.

BOY JOINS MARINES.

Glenn McMillan Is First Duluthian to Enlist.

Glenn McMillan, 19 years old, is the first Duluthian to enlist in the marines since the Mexican trouble grew critical. He enlisted yesterday at the local marine recruiting office in the Manhattan building and was last evening sent to Mare Island, Cal., for a short training, after which he will be detailed to Mexico for actual service.

Young McMillan is the son of Mr. and Mrs. James McMillan, 229 North Fifty-ninth avenue west.

Several inquiries are reported at the local marine office today and it is expected that many will enlist if war is formally declared. The office is open every day from 8 o'clock in the morning until 8 o'clock in the evening and from 11 until 3 p. m. on Sundays.

WOULD ADMINISTER HUSBAND'S ESTATE

Mrs. Isabelle Purdy, 510 North Fifty-seventh avenue west, today petitioned the probate court for letters of administration on the estate of her late husband, Homer B. Purdy, who died, aged 38, at the state hospital for the insane at Fergus Falls on Jan. 23 last. The petitioner asks for the appointmen of Theophilus Naufftz as administrator. The estate is a small one. Besides his widow, Purdy leaves as heirs two daughters, Lillian 10, and Irene, 5.

John Baker Funeral.

The funeral service for John Baker, 50 years old, who died while on his way home to his cabin in Midway Saturday, and whose body was found Tuesday afternoon, was held this afternoon from Richter's undertaking rooms with burial in Oneota cemetery. An autopsy held yesterday afternoon disclosed that the man had died as a result of alcoholism.

P. A. P.

Are you going on the special train to help institute the new Proctor Moose lodge, Monday evening, April 27. If so leave your name with Perly.

Social Evening.

The Ladies' Aid Society of the Westminster Presbyterian church entertained last night at another of its social affairs at the home of Mrs. G. L. Shoup, 122 North Fifty-third avenue west. A musical and literary program was given. The following took part: piano solo, Miss Florence Mattson; readings, John Allen; violin solo, Miss Esther Mattson; piano solo, Miss Pauline Solem; and pianola selections, Mr. Shoup. The women assisting the hostess were: Mrs. T. F. Olsen, Mrs. Eli Moore and Mrs. Rudolph Sieger.

Bible Class Will Meet.

The regular monthly business and social meeting of the Adult Bible class of the Westminster Presbyterian church will be held this evening at the home of Grover Diebel, 823 North Fifty-sixth avenue west. Following the business meeting a short informal program of music will be given. The class is one of the largest organized Bible classes in West Duluth.

Patrick McCabe Dead.

Patrick McCabe, 75 years old, a resident of West Duluth for a number of years, died this morning at St. Mary's hospital following an illness of a week. During the past few months Mr. McCabe had made his home with his son, Michael McCabe, 902 East Fourth street. The funeral will be held tomorrow morning at 8 o'clock from the St. James Catholic church. Interment will be in Calvery cemetery.

DOES IT PAY YOU TO PAY CASH FOR YOUR GROCERIES?

We want to prove to you that it does under certain circumstances. It does not pay you to pay cash for your groceries at a store that does a credit business, as their prices are figured so they can give credit, and make a living. It certainly does pay you to pay cash at a Cash Store, where prices are figured on an exclusive cash basis. Our selling cost is 50 per cent less than the average grocery store.

BIG SAVINGS FOR YOU.
25-lb. sack Gran. Sugar....$1.10
Pure Lard, in 20-lb pails, lb..12c

LEGAL NOTICES.

ORDER TO EXAMINE FINAL ACCOUNT—

State of Minnesota,
County of St. Louis—ss.

In Probate Court. In the Matter of the Estate of Mabel W. Fuller, Decedent.

The petition of Frederick A. Russell as representative of the above named decedent, together with his final account of the administration of said estate, having been filed in this court, representing, among other things that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the Court, and that the Court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on his bond, It is ordered, That said petition be heard, and said final account examined, adjusted, and if correct, allowed by the Court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County, on Monday the 18th day of May, 1914, at ten o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted. Ordered further, That this order be served by publication in The Duluth Herald, according to law.

Dated at Duluth, Minn., April 22, 1914.

By the Court,
FRANCIS A. WATKINS, Judge of Probate of Carlton County, Acting Judge of Probate of St. Louis County, Minn.
Attest: A. R. MORTON,
Clerk of Probate.
Seal Probate Court, St. Louis Co., Minn.
ALFORD & HUNT,
Attorneys.

CITY NOTICES.

OFFICE OF THE COMMISSIONER OF PUBLIC UTILITIES—
City of Duluth, Minnesota,
April 23, 1914.

Sealed proposals will be received at the office of the manager of the water and light department, until 3 o'clock P. M. Monday, May 4th, 1914, for laying 36-inch cast iron water main for the department, in accordance with plans and specifications on file in the office of the manager.

A certified check for ten per cent of the amount bid, certified by some bank authorized to do business in the state of Minnesota, and made payable to the order of the treasurer of the city of Duluth, must accompany each proposal.

Proposals must be addressed to the Manager, water and light department, city of Duluth, and indorsed "Bid For Laying 36-inch Cast Iron Water Main."

The city reserves the right to reject any or all bids.

CITY OF DULUTH.
By C. S. PALMER,
City Clerk.
D. H., April 23 and 24, 1914. D 1123.

NOTICE—
State of Minnesota, County of St. Louis—
District Court, Eleventh Judicial District.

In the matter of the condemnation by the city of Duluth of the following described property, to-wit: Lots 1, 2, 3, 4, 13 and 14, in block 4, of Banning & Ray's sub-division of Duluth, for the purpose of erecting thereon a public armory.

To G. Willis Peters and G. Willis Peters, trustee:

Notice is hereby given, That on the 16th day of May, 1914, before the above named court, at a special term of said court, to be held on said day at the Court House in the city of Duluth, at the opening of court on that day, or as soon thereafter as counsel can be heard, the petition of the city of Duluth in the above entitled matter will be presented to said court.

Notice is further given, That the objects of said petition are to obtain from said court an order adjudging that the taking by the city of Duluth of the land hereinafter described, for the purpose of providing a site upon which to erect a public armory, is necessary and is such as is authorized by law; and appointing commissioners to ascertain the damages that will be occasioned to the owners of said land on account of such taking.

The land proposed to be taken is situated in the county of St. Louis and state of Minnesota, and is described as follows:

Lots one (1), two (2), three (3), four (4), thirteen (13) and fourteen (14, of block four (4), Banning & Ray's sub-division of Duluth, according to the recorded plat thereof on file and of record in the office of the register of deeds in and for St. Louis county and state of Minnesota.

CITY OF DULUTH,
Petitioner.

HARVEY CLAPP,
City Attorney.
D. H., April 17, 24; May 1, 1914. D 1115.

LEGAL NOTICES.

NOTICE—
To William Miller:

You are hereby notified, That default has been made in the terms and conditions of that certain land contract entered into on the 25th day of August, 1910, by and between Hamilton H. Peyton, as party of the first part, and you, the said William Miller, party of the second part, wherein and whereby the said party of the first part agreed to sell, and you, the said William Miller, agreed to buy, the following described real estate, situate in the County of St. Louis and State of Minnesota, namely:

Lots Three (3) and Four (4), in Block Four (4), Midway Park Addition to Proctor, according to the plat thereof on file and of record in the office of the Register of Deeds in and for said St. Louis County.

You, the said William Miller, are further notified that said default consists in the failure of yourself, or anyone in your behalf, to pay those certain installments upon said contract, each amounting to Five Dollars ($5.00), which became due and payable to said party of the first part on the 16th day of August, 1911, and on the 16th day of each and every month thereafter up to and including the 16th day of April, 1914, which said installments aggregate the sum of One Hundred Sixty-five Dollars ($165.00), and in the further failure of yourself, or any one in your behalf, to pay the semi-annual interest due upon said contract, which, at the date hereof, amounts to Thirty-six Dollars ($36.00), on account of which default the said party of the first part, Hamilton H. Peyton, has a right, and does now elect, to terminate said contract.

Now, therefore, you, the said William Miller, will please take notice that the said contract hereinabove referred to will terminate thirty (30) days after the service of this notice upon you, unles prior thereto you shall comply with the terms and conditions of said contract hereinbefore mentioned, and pay the costs of this service. The amount claimed to be due upon said contract at the date hereof is the sum of Two Hundred One and no-100 Dollars ($201.00).

This notice is given according to the provisions of Section 8081 of the General Statutes of Minnesota for the year 1913.

Dated this 23rd day of April, 1914.
HAMILTON H. PEYTON.
D. H., April 24, May 1, 8, 1914.

CONTRACT WORK—
Office of Commissioner of Public Works.
City of Duluth, Minn., April 24, 1914.

Sealed bids will be received by the Commissioner of Public Works in and for the corporation of the City of Duluth, Minnesota, at his office in the City Hall, in said city, at 10 o'clock a. m., on the 5th day of May, A. D. 1914, for the furnishing, f. o. b. Duluth, Minn., of the following quantities more or less, of material:

880 cubic yards Coarse Sand.
1,800 cubic yards No. 2 Sand.
1,100 cubic yards Gravel.
230 cubic yards Trap Screening, one-tenth-one-half.
8,800 square yards Triangle Mesh.
140 Joint Protectors, 12 feet 4¾ inches long.
70 Joint Protectors, 4 feet long.
2,100 feet No. 2 Elastite or Gensasco Joint Filler.
1,500 Sewer Brick.
500 lineal feet 12-inch Vitrified Tile Pipe.
290 lineal feet 10-inch Vitrified Tile Pipe.

According to the plans and specifications on file in the office of said Commissioner.

A certified check for ten per cent of the amount of the bid, payable to the order of the Treasurer of the City of Duluth, must accompany each proposal.

The City reserves the right to reject any and all bids.

CITY OF DULUTH,
By C. S. PALMER,
Clerk.
R. MURCHISON,
Commissioner.
D. H., April 24-25, 1914. D 1124.

CALL FOR BIDS.

Notice is hereby given that the Board of Independent School District No. 9, Itasca County, will receive bids on the following pianos from among the following makes: One upright and one Baby Grand, either Knabe, Steinway, Everett, Kranich & Bach, Ivers & Pond, or Chickering. Said bids to be in the hands of the clerk on or before the hour of eight o'clock P. M., on the Thirteenth (13th) day of May, 1914, at which meeting the said bids will be considered.

The board reserves the right to reject any or all bids.

W. A. KING,
Clerk,
Independent School District No. 9.
Keewatin, Minn., April 21, 1914.
D. H., April 24, May 1, 1914.

NOTICE OF BIDS.

Sealed bids will be received by the village of Keewatin up to April 28, 1914, at 8 o'clock for the purchase of one 125 H. P. engine, 75 K. W. generator, and one 7 K. W. exciter, direct connected, delivered and erected on purchaser's foundations at power plant, Keewatin, Minnesota, and all according to specifications now on file in village hall, Keewatin, Minn. All bids shall include the purchase of old machinery now in said plant by the bidder, such machinery to be designated by the superintendent of power plant, and to be taken as part payment by the bidder, such purchase price to be deducted from the price of the new machinery installed.

By C. W. EXTRUM,
Village, Clerk, Keewatin, Minn.
D. H., April 22, 23, 24, 25, 27, 28, 1914.

U. S. ARMY HEADS IN LONG CONFERENCE ON PLANS FOR TROOPS

New Volunteer Bill Goes to President for His Signature.

Artillery Is Ordered From Galveston to Vera Cruz.

Plans in Case of Declaration of War Are Discussed.

Washington, April 25.—A lengthy conference in the early morning hours today between Secretary of War Garrison, Chief of Staff Gen. Wotherspoon, Maj.-Gen. Wood and other officers was the culmination of a night of bustling activity in the war department.

The possibility of mobilizing the militia under the new volunteer army bill, which was laid before the president for his signature, was also deliberated upon. Organization of the volunteer forces under the new measure will call for a large amount of detail work and the department wishes to be fully prepared to handle it.

Artillery Movement Ordered.

Conditions on the Texas border and the movement of the troops to Vera Cruz were said to have been considered.

The war department announced later that as many of the troops of the Fourth field artillery as can be taken on the liner San Marcos will leave Galveston late today for Vera Cruz. The troops will take their equipment with them. The remainder of the regiment and the animals will sail later on the liner Satilla.

The military heads, it was reported, discussed conditions generally, with particular reference to the situation on the border. Word was received that troops ordered from the Pacific coast to the Texas border were entrained for Fort Sam Houston.

Reports that Gen. Wood and Gen. Scott had been ordered to Vera Cruz to take charge of the army movements there were emphatically denied, and Gen. Wotherspoon declared early today that absolutely no new army orders had been issued.

The attack on Laredo, Tex., by Mexican Federals evacuating Nuevo Laredo across the border was especially discussed, and the sending of the Texas militia into the field as an aid to the Federal troops on border patrol also was taken up.

Talk of Rebel Action.

The conference further considered and prepared to meet the possibility of a change in the situation which might put the Constitutionalists in Northern Mexico on the offensive.

Ways and means for future possible operations were discussed at length. Various plans for movements of all sorts in Mexico have been submitted to the chiefs of the department and while no definite plan has been outlined, all have been given consideration. The conference reviewed several possible operations which might be made necessary by a declaration of war, or by an attack by Huerta forces.

SPANIARD ACTS FOR MEXICAN EMBASSY

Washington, April 25.—Senor Don Juan Riano, the Spanish ambassador, today announced that he had taken charge of the affairs of the Mexican government in Washington.

BRYAN DENIES PLAN TO QUIT

Secretary of State Has No Intention of Resigning.

Cabinet Members Admit Differences of Opinion on Policy.

Washington, April 25.—Secretary of State Bryan today emphatically denied widespread and persistent reports that he would resign from the cabinet. When informed of published reports that he would relinquish his post should war be declared against Mexico, Mr. Bryan said:

"The subject of my resignation never has been discussed with anybody nor thought of by me."

White House officials pointed to the general denial issued a few days ago of the story that Secretary Bryan would resign, saying that statement was sufficient to cover all rumors of cabinet dissension. They said they did not regard it as necessary to repeat the denial with each published report.

Differences of Opinion.

Outside of the White House there has been considerable discussion of the individual views known to be held by members of the cabinet on the present situation. None of these is said to be serious or approaching any breach in the president's official family, but there have been natural differences of opinion as to what aggressive measures should be pursued. The president himself, it is expected, has invited the widest range of suggestions from his advisers, and has

O'SHAUGHNESSY ON U. S. S. MINNESOTA

Refugees From Mexican Capital Arrive Safely at Vera Cruz.

Washington, April 25. — Nelson O'Shaughnessy, American charge at Mexico City, his family and Consul General Shanklin and his staff arrived in Vera Cruz from the Mexican capital last night, and have gone aboard the battleship Minnesota. Mr. O'Shaughnessy was accompanied by his wife and child and experienced no difficulty en route to Vera Cruz. In the party also were Mr. McKenna and Charles Parker, clerk of the embassy, and Mrs. Parker.

Mr. O'Shaughnessy was accompanied by Gen. Corona and Col. Braniff, who were appointed as his escort by President Huerta as a special courtesy to the retiring chargo d'affaires. The train on which Mr. O'Shaughnessy came from the capital was met at a break in the railroad near Vera Cruz by a train bearing Capt. Huse, chief of staff, and two lieutenants, who were accompanied by a guard of unarmed bluejackets.

AT THE WHITE HOUSE FOR WAR DISCUSSION

SECRETARY BRYAN AND SENATOR SHIVELY.

Secretary of State Bryan and Senator Shively, a member of the foreign relations committee of the senate, have been frequent callers on the president in relation to conditions in Mexico.

SHOWING PLACES MOST IN THE NEWS IN MEXICAN TROUBLE.

NUEVO LAREDO LIES IN RUINS

Hundreds of Destitute Refugees Huddle Among the Debris.

Laredo, Tex., April 25.—Smouldering ruins in what was once the populous Mexican border town, Nuevo Laredo, and hundreds of destitute refugees huddled in every possible shelter here, were visible reminders today of the desolation wrought late yesterday by Mexican Federals who burned and dismantled their one time stronghold.

It was ascertained definitely today that the wild shooting of the Mexicans had done no damage on the American side. On the Mexican side, however, destruction was complete. Fires were still burning throughout the city today, as there is no fire fighting apparatus available.

Among the larger buildings ruined is the American consulate, which was first dynamited; the postoffice; the municipal building; the Concordia theater; the Mexican National railway shops, which in times of peace employed several hundred Americans, and the flour

(Continued on page 2, third column.)

"TROOPS GOING FOR DUTY"—GARRISON

Secretary of War Makes No Further Statement of Plans.

Washington, April 25.—Secretary Garrison said today that the United States troops that have been ordered to Vera Cruz were going there "for duty," when asked as to the purpose of the military movement. He would make no further explanation of the shipment of the Fifth army division from Galveston.

JAPAN WILL TAKE NO ADVANTAGE OF WAR

Premier Says No Effort Will Be Made to Force Alien Issues.

Tokio, April 25.—The Japanese premier today authorized the statement that "Japan has no intention whatsoever of utilizing the present trouble between the United States and Mexico to secure from the United States a satisfactory settlement of the California difficulty."

OFFER STATE BORDER GUARD

Texas and Arizona Would Put Militia to Work.

Washington, April 25.—Governor Colquitt of Texas today telegraphed the war department asking if the department would bear the expense of moving the Texas militia to the border where it would co-operate with the regular troops in patrolling the border. Governor Colquitt will be told that there is no authority to give his state troops such financial assistance.

Afraid of Mexicans.

A telegram from citizens of Arizona to Senator Asnurst, asking for the immediate dispatch of regulars to the Arizona border was today laid before Secretary Garrison. The telegram declared that there was evidence of restlessness among Mexicans across the border and fears were expressed for the safety of Arizona citizens unless troops were sent.

Arizona Men Restless.

Governor Hunt of Arizona was in

'LONG 'BOUT THIS TIME O' YEAR.

AMERICAN COLONY IN MEXICO CITY ARMED FOR SELF DEFENSE

Foreigners There Fear Attacks By Overwhelming Mobs---Reign of Terror Exists in That City

American Refugees Are Taken Off the Train Bound for Vera Cruz---Situation Critical.

Vera Cruz., April 25.—Details as to conditions in Mexico City were given Consul Canada by the refugees who have reached Vera Cruz. They report a reign of terror in the capital, and confirm the reports of anti-American outbreaks.

A mob entered Porter's hotel, an American institution, insulted the guests, smashed windows and emptied the hotel. The guests were taken to other hotels and the managers of the hotel came to Vera Cruz.

The American club was attacked and several stores were sacked, with a loss estimated at 50,000 pesos. Refugees report the American colony well armed for defense.

Foreigners have continued to withstand attack. They are well armed, but fear an attack by overwhelming mobs.

REPORTS FOUR KILLED.

El Dictamen, a Vera Cruz newspaper, today says four Americans have been killed by mobs in Mexico City. It declares it has received information from the Federal capital.

Three of the American victims were taken out of street cars and killed on the streets, while the fourth was killed in the Young Men's Christian association building by members of the baseball team to which he belonged, according to El Dictamen, which made its reappearance today.

The information as to the massacre of Americans is not confirmed from any other source.

Vera Cruz today was isolated from direct communication with the interior, but the sparse news brought here by refugees indicates that the state of affairs is bad and rapidly growing worse, so far as Americans are concerned.

The refugees arriving here bring word of intense anti-American feeling in all directions.

The American military authorities in Vera Cruz consider the situation of Americans in the capital and all over the republic grave.

Shooting in Vera Cruz.

Almost normal tranquility has been restored in this city, but occasional sniping occurred during the night. There was, however, no general disorder, the domination of the city by the American forces having been generally accepted by the residents.

The order issued from the admiral's headquarters for the closing of all saloons remained in effect today.

The restaurants are having difficulty in furnishing the usual quantity and quality of food owing to the impossibility of obtaining supplies. Prices have, therefore, been advanced.

The American lines, some ten miles in length, now completely encircle the city. Outposts have been established covering all points from one to five miles out.

Anxiety at Washington.

Washington, April 25.—Unconfirmed rumors of the killing of Americans

(Continued on page 2, fifth column.)

M. E. MISSIONARIES IN MEXICO ARE SAFE

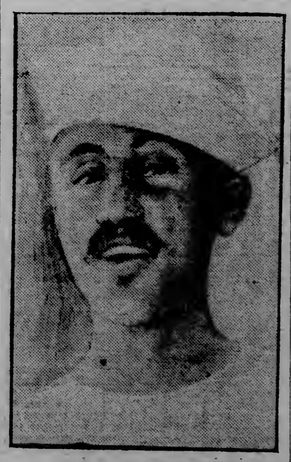
Church Board Receives Reassuring Cablegram From Vera Cruz.

New York, April 25.—Fears for the safety of its missionaries in Mexico today were relieved by a cablegram from Vera Cruz, received at the headquarters of the Methodist Episcopal board of foreign missions. According to this, seven of the thirty missionaries have arrived in Vera Cruz and all the others are safe in Mexico City, Puebla and Guanajuato.

PRISONERS WERE NOT KILLED, BRYAN SAYS

Reports to British Ambassador Capture of Railway Men.

Washington. April 25.—Secretary Bryan said today that he has notified Ambassador Spring-Rice of the reported arrest of a British subject at Orizaba. He was one of twenty foreign railroad employes, nineteen of them Americans, who were reported arrested there. Mr. Bryan denied the reports that these prisoners had been executed, and stated that the Brazilian consulate has been appealed to for their release.



CARRANZA CABLES MEXICANS WILL UNITE

Sends Message to Madrid That Spaniards Will Aid Them.

London, April 25.—A cablegram from Venustiano Carranza dated Chihuahua, saying he protests most energetically against American invasion of Mexico, is published by a press association in Madrid.

"The Mexican people," the message adds, "will unite to fight against the invaders to the last breath. Of the 17,000 Spaniards in Mexico, many are ready to fight by the side of the Mexicans."

FIRST AMERICAN KILLED IN FIGHT AT VERA CRUZ

JOHN F. SCHUMACHER.

Brooklyn, N. Y., April 25.—The first life lost in the trouble with Mexico was that of John F. Schumacher, a coxswain aboard the Florida. He lived in Brooklyn and enlisted when only 17. He was promoted until he became coxswain. He was not married. He was 25 years old when he died.

BIG NIGHT IN SHRINEDOM

Many Candidates Are Given the Moslem Test By Aad.

Shrine Girls Score Hit—Old Members Do Not Escape.

Nearly fifty novices were made Shriners last evening, taking the strenuous but fascinating degree as administered by Aad temple. H. J. Mullin was director of the ceremonial, and proved one of the most efficient that the temple has ever had.

The things he did not think of to do to candidates do not seem to be of much account and while nothing violent was on the program, there is probably not a candidate who was initiated last evening but who looks back on something that happened that makes him grin all to himself with embarrassment.

So many things happened that even were it not a matter of fraternal secrecy, they could scarcely be recounted. As a ceremonial it is believed that Aad temple never had a greater success.

Each ceremonial sees some new stunts, take-offs, and songs that the Shrine girls put over, all arranged by Mr. Custance, who is musical director of the Shrine. Their program, which opened the evening after the dinner, which was served at 6 o'clock, has the old members in doubt as to how to compare it with past performance. With each ceremonial the remark is heard that that was the best the Shrine Girls have given yet. Last night many asserted the same thing.

All Get Theirs.

Few escaped the Custance wit and all of the leading Shriners "got theirs" in song and story. Capt. A. H. Paul, commander of the Arab patrol, came in for special attention. The newly formed drum corps and its various members, came in for good natured frankness, and the illustrious potentate, H. W. Richardson, by no means came off scot free. His weather predictions were given general criticism, but later, the Shrine girls presented him with a bouquet of flowers, made up in handsome design, as a token of their regard. Previous to that, however, they presented him with a sprinkling can and a bellows, with which he was instructed to continue to furnish the city with rain and hot air. R. B. Knox was immortalized in song, a paraphrase on "What Do You Mean, You Lost Your Dog?" Several of the candidates were given special attention, and Dave Cone will probably not forget his initiation into the Shrine in some time.

After the Shrine girls were through, and just before the initiation began, Illustrious Potentate Richardson was almost given heart disease by seeing a handsome present given him smashed to atoms. The presentation was made by Past Illustrious Potentate T. P. Bradley. On a table alongside of him was a handsome glass water set. Noble Bradley said, in presenting it to Potentate Richardson:

Present For the "Pote."

"An exceedingly pleasant duty devolves upon me. The officers and members of the patrol have requested me, as immediate past potentate, to present you with this slight token of their appreciation of the interest you take in their work and the successful efforts you have made to insure their trip to Atlanta. They chose this delicate gift as a contrast between its perishable nature and the imperishable regard which they have for you, and at the same time they express the hope that long after the trip to Atlanta has faded to a mere memory, the sight of this souvenir may serve to remind you of the 'tie that binds' unbroken and unbreakable."

There was so much about "perishable," "imperishable," "unbroken," etc., that some of the wise ones expected something would happen, and they were not disappointed. As he finished, Noble Bradley made an elaborate bow and carefully contrived to hit the table upon which the set stood. It went over and there remained nothing but smithereens for the presentation. It was only one of the many stunts planned.

A sure-enough presentation took place, however, with Henry Nesbit in the role of recipient. In behalf of the members of the Shrine, the illustrious potentate, H. W. Richardson, presented Mr. Nesbit with a handsome solid silver coffee set. This was made with a view to expressing the appreciation of the temple for the ever readiness of Noble Nesbit to help out everybody and respond to every call for volunteers to work in the Shrine meetings, preparing for them and for the Shrine in general.

As to the ceremonial itself, it was exceedingly interesting. Many new stunts were foisted on the candidates, and the evening was further enlivened by a three-round boxing match between two of the candidates, a newspaper man and a board of trade man, which, while impromptu, was what is termed a "daisy."

The drum and bugle corps made its first appearance last night and it was most creditable. In the short time the corps has been practicing it has reached a degree of efficiency that is rather remarkable. The drummers handle their sticks well and the buglers take their parts well.

Following the ceremonial the Shriners adjourned to the St. Louis hotel cafe where refreshments were served and another program given. It was one of the best nights, all told, that Aad temple has yet furnished.

OFFER STATE BORDER GUARD

(Continued from page 1.)

communication with Secretary Garrison today over the possibility of mobilizing the Arizona militia for patrol on the Mexican border in connection with the regular troops.

Mexican Border Forces.

Nogales, Ariz., April 25.—Although the rebel Gen. Obregon, following instructions from Gen. Carranza, contemptuously refused the proposition of the Federal commander at Nuevo Laredo, Gen. Tellez, to join forces to repel a foreign invasion, according to the text of notes exchanged by them, the incident served to stir Americans here to ascertain just what forces could be mustered against this section.

In the state of Sonora and Sinaloa, the Federals have a combined strength of 21,000. They would have in active service the railroad running from Mazatlan north through Culiacan, Guaymas and Hermosillo to Nogales, which is garrisoned by only three troops of the United States cavalry and one machine gun platoon.

The equipment of the Mexican roads can run to United States territory, and this prompted citizens on the border to organize an emergency brigade composed of merchants who have armed themselves. United States troops are expected here within a few days. The importance of Nogales as a border point lies in the fact that through the railroad running south, it forms a gateway to the whole Pacific coast of Mexico, and gives direct connection with the Western seaports.

"Refrain From Demonstration.

Jose M. Maytorena, governor of Sonora state, on instructions from Gen. Carranza, posted this notice in all the important cities.

"To the Mexican people:

"You are urged to refrain from all anti-foreign demonstrations. The honor of the country at this moment is put to the test, and it becomes all citizens loyal to the republic to abstain from doing anything which might cast discredit upon us. Gen. Carranza is discussing the Vera Cruz situation with the Washington government through diplomatic channels."

At the time he issued this placard, Governor Maytorena sent a train with 150 soldiers north to the Mexican village opposite Nogales.

West Coast Strength.

Federal and rebel forces on the west coast, according to information gathered by United States consular agents, are as follows:

Federals at Guaymas 4,000 under Gen. Tellez; at Mazatlan, 3,000; other points, 1,000; total 8,000.

These figures do not include the Federal garrisons at Tepic and Guadalajara, where the actual strength of the Huerta forces is unknown.

Rebels near Guaymas, 5,000 under Gen. Alvarado; in and near Hermosillo, 6,000, under Gen. Alfaro Obregon; at Navajo and Culiacan, 2,000; total, 13,000.

This would account for 21,000 rebels and Federals distributed at various points along the west Mexican coast and connected with railroad to the United States border at Nogales.

Warned to Leave.

United States Consul Frederick Simpich has sent out more messengers by horseback and automobile to warn Americans in the interior to leave Mexico at once. An official version of the expulsion of 120 Americans from Nacozari, 125 miles south of Douglas, Ariz., was received by Consul Simpich over long distance telephone last night as follows:

"On Thursday night a delegation of rebel leaders called on J. S. Williams, Jr., manager of the copper company, and served notice that all Americans in Nacozari must leave Mexico before daylight. All the Americans, numbering 120, accordingly were called together and by 2 a. m., a train was made ready and a start made for the border. The incident was the first unfriendly act on the part of the rebels experienced at that point."

Consul Simpich also received word that the copper mine at Cananea had closed down, sending the American employes to the border and throwing 6,000 Mexicans out of work.

Yaqui Desert.

Americans who arrived from Hermosillo on last night's train reported that 1,000 Yaqui Indians, on hearing that the American forces captured Vera Cruz, deserted the Federal army and went to the hills with their arms. The Yaqui Indians are credited with being the best fighters in Mexico.

NUEVO LAREDO LIES IN RUINS

(Continued from page 1.)

mill. So far as known, no lives were lost in the fire.

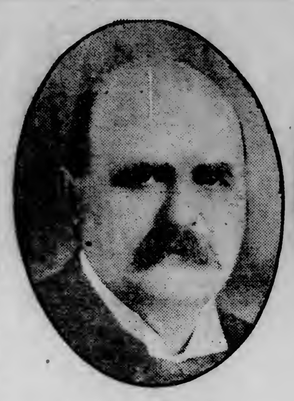
Feeling of Uneasiness.

Excitement occasioned when the Mexicans began firing across the international line, and their sharp interchanges with the United States border patrol subsided quickly when the Federals retreated, but left a strong feeling of uneasiness in its wake. All night a reinforced patrol, aided by citizen volunteers, guarded the river front, and heavy guards were maintained at the two international bridges.

It was feared other attempts to dynamite this means of communication between the two countries would be made. Two Mexicans were shot yesterday in attempting to destroy the bridges. Some of the more nervous citizens fear another visit of the Mexicans to attack Laredo itself, but army officials, though every precaution is being taken, believe there is no danger.

There was no further trouble during the night.

HAVE PURE BLOOD



Hood's Sarsaparilla Makes Rich, Red Blood.

Your heart works night and day without a pause. It is the principal organ of the circulation of your blood. It is of the utmost importance that it should do its work well. The quality and quantity of your blood have much to do with its action. If this fluid is pure and abundant, your heart and other vital organs act with more energy than when it is defective in quality or deficient in quantity.

Hood's Sarsaparilla makes the blood pure and abundant. It is the one old reliable medicine, that has been sold for forty years, for purifying the blood. There is no better blood remedy, appetizer, stomach tonic or nervo builder. From the very first dose of Hood's Sarsaparilla improvement begins.

Be sure your druggist gives you Hood's, for nothing else can possibly benefit you as much and nothing else can take its place. Get it today.

HEINO MUST FACE ALIENATION SUIT; MRS. GRAN DISCHARGED

JOHN R. HEINO.

MRS. OLGA GRAN.

Although Attorney John R. Heino was found by a jury in Judge Dancer's division of the district court to be innocent of the charge of having committed adultery with Mrs. Olga Gran, wife of his former business associate, Victor H. Gran, his troubles are not yet at an end.

On May 11, Heino will be obliged to defend a suit for alienation of affection brought by Gran in which $15,000 damages are asked. A. E. McManus, attorney for Gran, yesterday announced that the finding of the jury in the criminal case against Heino would not in the least affect the alienation suit. It will be brought on for trial as originally intended.

The criminal charge of adultery against Mrs. Gran will be dismissed, according to the county attorney.

"In view of the verdict in the Heino case," said County Attorney Greene yesterday afternoon, "I will ask the court to dismiss the indictment as to Mrs. Gran. The nature of the offense charged precludes the possibility of one being guilty and the other not and since a jury has been fit to absolve Heino from guilt, I shall not ask that Mrs. Gran be punished."

The Heino adultery case furnishes another example of the conflicts in the opinions of juries on the same set of facts. Three weeks ago a jury which tried the adultery feature of the Gran divorce case answered "yes" to the query "Did the defendant, Olga Gran, commit adultery with John R. Heino at his office in the Sellwood building on the afternoon of Jan. 31?" The same question was submitted to the jury in the criminal case and a verdict to the contrary was returned. The same witnesses testified in both cases, with but a few minor exceptions.

JURY SAYS SELF DEFENSE

Slayer of Carlo Will Have Hearing on Tuesday Morning.

A coroner's jury yesterday afternoon decided that Joseph Rich shot and killed his brother-in-law, Frank Carlo, last Wednesday night in self-defense. This was the declaration made by the prisoner after the shooting, which was witnessed by Miles T. Frink and Joseph D. Stringer.

Owing to the fact that two murder cases had been set for next Tuesday afternoon arrangements were made immediately after the inquest yesterday to conduct Rich's examination at 10 o'clock Tuesday morning. Charles Patrick Lawler, who killed his sister-in-law, Mrs. Mary Lawler, at the Astoria hotel April 10, will appear for examination Tuesday afternoon. County Attorney Warren E. Greene and Andrew Nelson and George Sjoselius, attorneys for Rich, yesterday agreed to change the hearing to take place in the morning.

County Attorney Greene conducted the inquest yesterday afternoon, which was held at the Grady & Horgan undertaking rooms, and called as witnesses both Stringer and Frink, who were in the confectionery store at 511 West Michigan street, where the pistol duel between Rich and Carlo, partners in the business, took place. They both testified that Carlo and Rich argued over money matters and that this led to the shooting, which they claim was begun by the murdered man. Other witnesses called were Adolph Egdahl, the saloon keeper at 509 West Michigan street, who heard the shots and who rushed into the confectionery store, where he succeeded in separating the two men, Police Surgeon Murphy, Chief Troyer and Patrolman Le Beau.

Coroner C. F. McComb presided at the inquest and the following constituted the jury: R. S. Berdie, C. S. Hazen, George W. Power, Edward Lynch, M. Fitzgerald and Alex Fraser.

The funeral of Carlo was held at 10 o'clock this morning from the residence, 1001 West Third street. Interment was at Calvary.

BRYAN DENIES PLAN TO QUIT

(Continued from page 1.)

steered a middle course between those who favor a quickly aggressive policy and those who believe war can be best averted by patient observation and carefully deliberated action.

Persons close to the administration council described the divergence of views as the product of natural differences among those charged with responsibility for executive action. Officials point out, for instance, that the war department is naturally anxious to take every reasonable precaution with its military forces, and the navy is bending its energies likewise to perfect its arrangements for actual warfare.

State Department Action.

They say also that the state department, which is directly responsible for relations with other foreign governments and which is trying through diplomacy to prevent aggressive movements which might aggravate action by the Constitutionalists and the Mexican people as a whole, is busily occupied in friendly repression of the war spirit of its allied departments.

All the cabinet secretaries themselves denied that there is any serious division, and point to their close and frequent conferences as evidence of their co-operation.

MEXICAN DEAD AT VERA CRUZ TOTAL 126

Wounded in Fighting There Are Estimated at 195.

Vera Cruz, Mex., April 25.—An enumeration of the Mexican casualties in the fighting with the American forces, canvassed from every available source, gives the dead as 126 and the wounded as 195. A number of the wounded are expected to die because of lack of attention at the time they were injured.

The Mexican street sweepers were induced to return to work yesterday and it is hoped that other municipal employes will follow suit shortly.

Dozens of Mexican business men are besieging the American headquarters hourly to obtain assurances that their lives and property will be protected if they open their shops.

AMERICAN COLONY IN MEXICO CITY ARMED FOR SELF DEFENSE

(Continued from page 1.)

by mobs in Mexico City, the arrest of American railroad employes yesterday at Orizaba and information forwarded to Washington that American military authorities at Vera Cruz considered the situation at Mexico City and throughout the Mexican republic a grave one for Americans there, aroused activity of the Washington government today.

While the authorities were exercising every possible effort to get verification of the disquieting reports from the Mexican capital, Secretary of State Bryan conferred with the Brazilian ambassador here, Mr. Da Gama, over the arrest of Americans at Orizaba, and informed him that he had requested the Brazilian diplomatic representatives in Mexico City to seek the release of the prisoners. Ambassador Da Gama urged the Brazilian minister in Mexico City to do all he could for the release of the Americans.

Fear Aggravation.

Officials here were much exercised over the reported assassinations of Americans in Mexico City. Serious eventualities there, it was pointed out, might aggravate the present situation and serve to arouse sentiment among the people that would demand more aggressive action in Mexico on the part of this government.

It was further emphasized, however, that mob violence could not be construed as any deliberate act of Gen. Huerta, and that it could be claimed by his government that it was powerless to control the situation owing to the anti-American feeling aroused by the seizure of Vera Cruz.

Although no new military orders were issued by the war department, plans for perfecting the operations at Vera Cruz and along the Mexican border were considered by Secretary Garrison, Gen. Wotherspoon, chief of staff, and Maj. Gen. Wood, who has been chosen to direct the military operations in co-operation with Secretary of the Navy Daniels.

It was declared that there had been no change in the policy of the government to "sit tight" at Vera Cruz unless retaliatory tactics should be resorted to by Gen. Huerta or some overt action on the part of the Constitutionalists should demand a forward movement into Mexico. Neutrality on the part of the Constitutionalists, officials believed, would be observed.

If War Is Forced.

Should war be forced upon this government, it was pointed out, the base of operations would be at Vera Cruz, and the plan would be to confine the advance if possible to the territory controlled by Huerta, with Mexico City as the objective point of the American forces. The movement, it was generally believed, would be an extensive one.

Although it still is the determination of the president to prevent war, the army and navy are prepared for any emergency and should the word come to advance to the interior in order to protect life and property, it is said the war department is ready to send in an army of 20,000 to 30,000 men and to increase the forces to a great degree along the Mexican border.

The war department, throughout the day, was humming with excitement, although no new orders were issued. Reports that Gen. Wood already had been ordered to Vera Cruz were emphatically denied.

Spain's Action a Surprise.

Announcemnt today by the Spanish ambassador, Mr. Riano, that Mexico had turned its affairs in the United States over to his government, came as a surprise to officials here, the general expectation having been that France would be asked to act on Mexico's behalf. Following reports from Madrid yesterday that King Alfonso was willing to act as mediator in the differences between this government and Mexico, the selection of Spain to look after the affairs of Mexico was regarded with significance. Although there have been several informal suggestions of diplomatic intervention from various quarters, it is declared at the state department that no formal offers had been made nor were any expected.

The navy department today received a report from Admiral Badger at Vera Cruz stating that all of the wounded are improving and that the surgical cases are doing "surprisingly well."

Taken From Train.

In an official report from Consul Canada at Vera Cruz, the state department was informed today that several Americans were placed under arrest in Mexico City after being taken from the refugee train that carried Charge O'Shaughnessy and his party to Vera Cruz. J. Starr Hunt and his family were among those arrested. Burton Wilson was taken from the train at the first station out of Mexico City.

On Tuesday all business houses in the capital were closed and the streets were filled with disorderly crowds.

Refugees reported that prior to April 22 the Huerta government had been conscripting soldiers, procuring 2,000 by forcible conscription in Mexico City on Sunday, Monday and Tuesday. On April 22 it was stated, Mexicans began to volunteer for service.

Men Guard Bridges.

Officers of both the war and navy department were concerned today over the report from Vera Cruz that a small Mexican force was prepared to blow up the railroad bridges between Vera Cruz and Mexico City. Several of these bridges could not be replaced, and temporary provision for getting trains by them would be impossible. The plans of the navy and war departments for possible operations out of Vera Cruz hinge on the possession of the railroad and it was feared they would be seriously hampered if the bridges were destroyed.

The navy department believes that an expedition out of Vera Cruz along the railroad could insure the safety of the bridges, but it is pointed out that this would be an act of war. This probably would be the first move in case war actually is declared. Meantime the naval forces in Vera Cruz must confine their operations to that city and its immediate environs.

Trouble at Mazatlan.

Admiral Howard reports from the West coast of Mexico that the German consul at Mazatlan is extending his friendly offices to have the steamer City of Sidney take all foreigners at Mazatlan. He reports a demonstration in front of the American consulate at that place last night, and that the governor has made all possible reparation, and that a guard of Federal soldiers is now protecting the consulate.

PUBLIC FUNERAL FOR SOUTHERN LAD.

New Orleans, La., April 25.—Gretna, La., opposite New Orleans, is arranging a public funeral for Louis O. Fried, who was the first Southerner to die in the fighting at Vera Cruz.

Fried was an ordinary seaman on the battleship Arkansas and was killed Wednesday.

REBELS CAPTURE TAMPICO CEMETERY

Gen. Caballero Sends Report He Will Take the City.

Brownsville, Tex., April 25.—The following report signed by Gen. Caballero, rebel commander at Tampico, to Constitutionalist headquarters at Matamoros, under date of the 24th, was given out here today:

"Having come to my notice that the Federals in Tampico were offering further insults to Americans, I immediately reopened my attack at 4 o'clock this morning and already have captured the cemetery, where strong Federal forces resisted. Expect triumph by night."

TO SATISFY ALL

The people all the time is our aim, so talk over the Laundry Question in your family, and if your linen has not been returned promptly in the very pink of good condition, try us.

Rough Dry Washing, 3½c per lb. If we don't please you, tell us—if we do, tell your friends.

BEMIDJI MAN IS SAFE AT VERA CRUZ

Bemidji, Minn., April 25.—(Special to The Herald.)—Mr. and Mrs. J. W. Naugle of this city, who had been much alarmed because of the failure of their son, A. J. Naugle, who is employed by the Pearson Oil company at Mexico City, to notify them of his safety, received the following message yesterday:

"Vera Cruz, April 24.—I am at Vera Cruz. Safe under American protection. Don't worry."

Since the first of the year Mr. Naugle has written his parents once a week, but only one of his letters has reached here.

CANAL ZONE IS PUT UPON WAR FOOTING.

Panama, April 25.—Col. George W. Goethals, governor of the Panama canal zone, has issued orders placing the canal zone on a strict war footing.

He instructed Maj. Gerheart, commanding the Tenth infantry, to send two companies of infantry to patrol the Gatun locks and one each for duty at the Miraflores and Pedro Miguel locks. The soldiers were given 100 rounds of ammunition each, and will camp near the locks.

The action of Col. Goethals is believed to have been the result of anti-American sentiment expressed in fly sheets which were making their appearance on the streets of Panama, and also shown editorially in El Diario, which is strongly pro-Mexican.

HEALTH AND MONEY

Money Is the Most Envied but the Least Enjoyed; Health Is the Most Enjoyed but the Least Envied; and This Superority of the Latter Is Still More Obvious When We Reflect That the Poorest Man Would Not Part With Health for Money, but the Richest Would Part With All His Money if Necessary for Health.

Life at Best Is Short and to Get the Best Out of Life One Must Have Health. We All Know How to Live in Order to Avoid Being Sick; but Few of Us Appreciate Advice When Given. What We Usually Want Is Some One to Help Us Out of Our Difficulties. Whatever Follies or Indiscretions Have Led You Into ELECTRO OZONE Will Cure You.

Electro Medicine has performed wonderful works in the city of Duluth and elsewhere. If disease has been your lot and sickness your steady companion, and if medicines have failed to make you well, and the knife has failed to cure you, there is no need to give up in despair. If seven hundred men and women have found their health through Electro Medical treatments in Duluth, why not you?

YOU GET THE TREATMENT OF EXPERTS

It will cost you no more to take treatment from any experienced expert specialist than to place yourself under the doubtful skill of mediocre doctors. You will find our institute thoroughly reliable. We are here to stay, and it is our sincere intention to erect in Duluth one of the largest sanitariums in the country, because our methods have proven to cure better and quicker than any other method. Parties out of town are requested not to write, as we are too busy with healing and treating patients. Those who sincerely wish to find out the truth about their condition are welcome to a free consultation and advice. Married women should be accompanied by their husbands.

DIRECT ROAD TO THE CITY

Court Establishes Highway on St. Louis-Carlton County Line.

Will Be of Great Benefit to Farmers of Two Townships.

A judicial highway which will furnish the farmers of Industrial and Solway townships with a direct outlet to Proctor and West Duluth in this county and to Cloquet in Carlton county was established this morning by Judge Bert Fesler of the district court, who conducted a hearing on a petition for the establishment of the road.

The thoroughfare as proposed and established will traverse the line between St. Louis and Carlton counties from the southeast corner of the town of Solway westerly to the St. Louis river north of Cloquet. It will open up all of the southerly part of Solway township and the easterly part of Industrial township in this county to Cloquet and Duluth.

About twenty representative farmers of the district affected who have urged the establishment of the county line road for years were present and some of them took the stand as witnesses. The improvement as ordered by the court seemed to please the settlers.

It was brought to the attention of the court that St. Louis county was now building a north and south road from the Saginaw settlement to a point on the county line three miles east of the Cloquet river and joins at that point the Phalen road which now runs from the county line due south to Cloquet.

As it appeared to the court that there were no settlers living in the country west of the Saginaw-Phalen road, Judge Fesler cut off the westerly three miles of the proposed road and ordered the highway built from the Saginaw-Phalen road easterly seven miles.

The court will in the near future appoint three commissioners to assess damages to the property owners whose land is taken for right-of-way purposes. An engineer will be appointed to take charge of the work and lay out the plans. It is planned to construct the road this season. The cost of the road will be shared equally between St. Louis and Carlton counties. The expense will be borne out of the general road fund.

PERSONAL

W. H. Constantine of Marquette, Mich., is registered at the St. Louis.

W. H. Bailey of Elmer is stopping at the St. Louis for the day.

Henry Worden of Winnipeg is at the St. Louis.

Lola Craig of Winona is stopping at the Spalding for the day.

M. Alster of New York is a guest of the Spalding.

Morris Schwartz of New York is registered at the Spalding.

C. R. Jones of Detroit is stopping at the Spalding.

A. J. Lehner of Fairbanks is at the McKay today, being in the city on business.

Mrs. E. A. Freeman of Grand Rapids is at the McKay.

Mrs. A. J. McGuire of Grand Rapids is down for the day, being registered at the McKay.

Miss Mable Cooper of Grand Rapids is at the McKay and will spend the day here.

Miss Fredrica Siverts of Coleraine is at the McKay.

W. J. Griffin of Two Harbors is in the city.

George Moore of Racine is at the Holland today.

H. J. Smith of Coleraine is at the Holland and is here on business.

H. O. Johnson of Virginia is in the city.

P. T. Arnst of New York is registered at the Holland.

Samuel Goldish of 208 East First street has returned from a two weeks' business trip to Two Rivers, Wis.

CITY BRIEFS

Boys' Rally Day.

Sunday will be observed as boys' rally day in the Sunday school of the First Christian church at 10 o'clock tomorrow morning. The boys' department will have charge of the opening exercises and there will be a boy chorus and boy ushers. The boys are inviting their fathers to meet with them and at the regular class period they will be addressed by W. S. Moore.

We Make Loans on Real Estate.

Pulford, How & Co., 609 Alworth building.

Will Build New School.

Bids will be opened by the county board of education on May 5 for the construction of a building to be known as Unorganized School No. 45, a two-room structure with living apartments for the teacher which will be located in section 8, 61-19, about eight miles west of Angora. The estimated cost is $4,500. N. A. Young, county superintendent, and L. A. Ink, principal of the unorganized schools, returned yesterday from Angora after selecting the site for the school.

Northland Printery.

Good printing. Call Zenith 494. Adv.

Would Adopt Infant.

The petition of Guy W. C. Ross and Mrs. Helen M. Ross for the adoption of the infant daughter of Grace Crosby of Harrison county, Mo., born on April 19 last, was filed yesterday with the clerk of the district court. The matter will probably be taken up at the special term of court this morning. The mother of the child has given her consent to the adoption.

Notice.

My wife, Celestia E. Wilson, having left my bed and board, I hereby give notice that I will not be responsible for any debts she may incur. (Signed) Frank Wilson, Box 56, Route 3, Duluth.

Duluth Floral Co.

Your Florist. Violets and violets.

Fine Pictures and Frames.

Petitions for Administration.

Mrs. Hanna Nelson, widow of Charles A. Nelson, who died at Buhl on Sept. 5, 1913, yesterday petitioned the probate court for letters of administration on her husband's estate, which consists of real and personal property worth $3,450. The heirs are a widow and six children.

Blacksmith Shop for Sale.

Inquire Board of Trade livery, 16 East First street.

Paralytic Gets $700.

Paul Seb, whose left arm became partially paralyzed as a result of being struck by a heavy timber while unloading logs at Cusson Dec. 24, 1913, will receive $700 damages from the Virginia & Rainy Lake company, his employers, under the terms of the workingmen's compensation act. A settlement for this amount was approved by District Judge Bert Fesler yesterday.

Would Dissolve District.

A petition for the dissolution of School District No. 14, which is located east of Alborn in the town of New Independence, was filed yesterday with N. A. Young, county superintendent of schools. Should it be indorsed by the county superintendent it will be submitted to the county board for final action.

Will Present City's Case.

W. H. Gurnee, assistant city attorney, will go to St. Paul Monday to present the city's side in the argument brought by McCoy & Hanson before the state supreme court in behalf of Charles Sholund, local saloon keeper, whose license was revoked several weeeks ago.

Assault Case Postponed.

The case against Frank Wheaton, who is accused of having assaulted Irving Stahl on April 15, was yesterday afternoon continued until 2 o'clock the afternoon of May 24. He pleaded not guilty when arraigned yesterday, and when the trial was called in the afternoon, a postponement was made.

Drank Too Often.

For being drunk a fourth time John A. Olson, 39 years old, will have to spend the next thirty days on the work farm. He was arrested last night by Patrolman Johnson and he pleaded guilty in police court this morning. He was fined $40 and costs, in default of which he was taken to the work farm for thirty days.

Dr. Smyth,

305 Columbia building, treats all foot troubles. Corns removed without pain.

Atlanta Ready for Shriners.

R. H. Graham, traveling passenger agent of the Southern railroad, was here yesterday booking Shriners for the meeting of the imperial council at Atlanta. He has just come from there and he says that the decorations of the city are extraordinarily beautiful. One hundred and thirty-seven special lights, representing the 137 temples of the North American continent, are in the business center of the city, and each costs $10. They are of unique design and handsome. That is just one of the schemes that the Atlanta nobles have designed to charm their visiting brethren, says Mr. Graham.

Woodland Sunday School.

The Woodland Union Sunday school will meet at the E. R. Cobb school building at Woodland tomorrow afternoon at 3 o'clock. J. H. Lee is superintendent.

Barnes Unable to Serve.

Julius H. Barnes has informed Mayor Prince that he will be unable to serve on the general city committee of the midsummer festival. The mayor has not yet selected any one to fill the vacancy but the appointment will be announced shortly.

WANTED

COMPANY "A" STILL NEEDS A FEW MORE ENLISTMENTS

to bring them up to full strength. Men with ability as marksmen preferred.

Apply to Capt. R. K. Lee at the Armory, Sunday or evenings.

BOYS WILL REPEAT MINSTREL SHOW

The boys' department of the Y. M. C. A. will give its minstrel show Tuesday evening at the boys' building, Sixth avenue east and Third street. The show was given on April 23 but many people were unable to see it and so the committee has decided to give another performance. The proceeds will go to the camp equipment fund.

Stanley Lamb and Edwin Scriven will be the end men and N. D. McLeod, interlocutor. The chorus will be composed of fifty voices. George Ward, Truman Brooke, Harold Coe, John Shields, Raymond Anderson, William Smith, Edwin Scriven, Charles Le Richeaux, Edwin Skinner, Arthur Heaim, Stanley Lamb, George MacAskill, Marshall Peterson and J. R. Batchelor will sing solos.

The minstrel show is an annual affair. In addition to the minstrel show there will be moving pictures and fancy drill by Group D, gymnasium class.

NOTICE

The annual meeting of the stockholders of the Board of Trade Livery will be held at 16 East First street, May 5, at 10 a. m.

ARE PREPARING FOR ASSESSORS.

Deputy County Auditor L. A. Marvin and a crew of office clerks are busy today arranging the books, blanks and other supplies so that they may be without any difficulty distributed to the assessors of the various cities, towns and villages at a meeting of the tax officials to be held at the courthouse Monday.

It is expected that about eighty assessors will be present. Members of the state tax commission will attend and at that time will address the assessors on tax mattters. Particular references will be made to the changes noted in the personal property tax law since the passage of the classified assessment law.

WILL OPEN BIDS ON MEADOWLANDS DITCH.

Sealed bids for the construction of County Ditch No. 2, the final establishment of which was made by the county board early this month, will be opened Monday afternoon by County Auditor Odin Halden.

The ditch will be built in the township of Meadowlands between the St. Louis and Whiteface rivers and will drain between 8,000 and 10,000 acres of land now too low for successful tillage. The improvement is one which has been long needed.

The approximate cost will be $43,000.

Bemidji May Pole Dance.

Bemidji, Minn., April 25.—(Special to The Herald.)—Next Friday evening the Bemidji band, with all members playing, will give a benefit dance, the unique feature of which will be a May pole erected in the center of the hall and around which the merry-makers will frolic, winding the pole with streamers of variegated ribbon. The committees in charge are: Arrangements, Clyde Petrie, Oscar Nelson and Alden Remfrey; floor commitee, Axel Kettleson, Tom Newton and Delbert Elletson; music, H. E. Anderson, Oscar Nelson and Alden Remfrey; advertising, Herbert Wood.

ARE SEEKING RECRUITS

Marine Corps Enlisting All Available Men Regardless of Limit.

Former Members Are Being Urged to Re-enlist for Special Service.

Duluth recruiting stations are scenes of activity today. Scores of men are applying for positions in the navy and marine corps and every effort is being made to secure as many enlistments as possible.

Sergeant Frank Buck of the marine corps, who is in charge of the local station, received word from Washington this morning to take all the men he can enlist. Instructions received are to the effect that he should disregard the quota of 9,221 men permitted by congress, but to secure every available applicant and to send the recruits off at once for a short training service on the California coast, from where they will be detailed shortly for active duty in Mexico.

Yesterday Sergeant Buck enlisted Henry Clavehn of Detroit, Mich., George Ogren of International Falls and Collin Cramton of Duluth. He is also endeavoring to locate all ex-marine men residing in Duluth or vicinity, and is urging them to reinlist for special service in Mexico.

This morning Herman Kroll of Stillwater and Joseph Poliquin of Big Falls, Minn., were sent to Minneapolis by Chief Quartermaster Erickson of the navy recruiting station. Six applicants filed this morning, and it is probable they will all be sent to the Mill City within a few days.

So eager is John Romano of Chisholm to enter the navy that he applied to Quartermaster Erickson this morning, accompanied by an interpreter. His application was denied.

MALONEY MAY SAVE LICENSE

May Not Have Sold to Minor at Cody Hotel, as Charged.

Forrest Maloney may still get a renewal of his saloon license at the Cody hotel, Central avenue and Ramsey street, West Duluth.

Last week, his bartender, Archie Ohman, was arrested on a charge of selling liquor to a minor, Henry Horman, who said that he was 18 years of age. Ohman pleaded guilty and paid a fine of $50 and costs. Under the provisions of the Hicken code he could not obtain another license and the building would be penalized for a year.

When the situation became apparent an investigation was begun to ascertain whether or not Horman was in reality a minor. An affidavit has been received from his mother stating that he was born in 1892. This would make him 22 years old. A certified copy of the birth certificate has not been obtained, as far as was known at the city hall this morning.

The municipal court at West Duluth will be asked to grant a motion for a new trial. If this is done and it is shown that Horman is of legal age, the probability is that Maloney's application for a renewal of his license will be passed by the council.

M. Duncovich has applied for a transfer of a saloon license from First avenue west to 1313 Commonwealth avenue. This location is in Gary. When the saloon situation in that part of the city was being discussed by the council it was tentatively agreed that the number of saloons would be limited to the two now there, one being at New Duluth and the other at Gary. For that reason it is unlikely that the application will be granted.

And you say there will no collection taken at Judge Rutherford's lecture Sunday? None whatever, he will not permit it where he speaks. Strange, but true.

BIRTHDAY OF THREE VETERANS

Three of Duluth's old soldiers, veterans of the Civil war, will have a birthday party tonight at Memorial hall, courthouse.

They have invited their friends and comrades to be present and help them celebrate the occasion.

Under the auspices of Culver post, G. A. R., of which they are members, a dinner will be served in their honor at 6:30 o'clock. A program of music and short speeches will follow later in the evening.

The three members of the post whose birthdays occur this week are N. L. Upham, aged 81; M. W. Bates, 74, and S. W. Clark, 71.

FORECASTS BIG MEETING.

E. G. Hall of State Federation of Labor Speaks Here.

E. G. Hall, president of the Minnesota State Federation of Labor, forecasted the largest labor meeting in the history of the state for Duluth July 20, 21 and 22 next when the state organization will convene in Duluth. President Hall spoke last night on labor matters to the Duluth Trades assembly at Kalamazoo hall.

Mr. Hall believes that much good may be accomplished by this meeting and referred to various important labor problems that are prominent in present statutes and new laws which will be urged by the legislative committee.

W. E. McEwen also addressed the assembly.

A committee reported that the painters' union had settled its strike with the contractors.

LABOR LEADERS WELL SATISFIED.

The relations of labor and capital in Duluth are reported to be unusually good this spring, and no serious difficulties are expected when contracts expire May 1. Building trade unions are now preparing to make new contracts to be operative for the coming season. Labor men say that these contracts will not entail any trouble.

No Legal Recourse.

Action could not be taken through the courts to compel the city council to turn over the entire ground floor of the Armory for a public market, even though bonds were issued to erect the building partially for that purpose, in the opinion of City Attorney Harvey Clapp.

The attorney says that the circumstances relative to the use of the building after its erection would have to be taken into consideration and that the council has authority to exercise its judgment as to the best use of the building.

ONE JUROR HAD THE SMALLPOX

Trial of the personal injury suit brought by Joseph Beaulieu against the Duluth Boiler Works in Judge Ensign's division of the district court yesterday came to a rather sudden halt yesterday afternoon when it was brought to the attention of the court that Fred Fitzgerald, one of the jurors, was coming down with smallpox.

The jury was drawn at the morning session of court. During the noon recess, a city health officer ran across Fitzgerald and noticing the eruption on his face pronounced it smallpox and detained him. He was sent out to the city pest house near the poor farm.

When the eleven members of the panel returned to court and informed Judge Ensign that they as well as his honor and the court attaches had been exposed, it was deemed advisable that the courtroom be fumigated and the jurors who had not been vaccinated recently have their arms scratched. The room was thoroughly fumigated. Court will be resumed Monday. Attorneys have stipulated that the case may be submitted to the eleven men.

CLEARING FOR NEW RAILROAD

The Grand Marais & Northwestern railroad is progressing well, and word has been received that the work of clearing the right-of-way is under way. Lack of men seems to be the greatest trouble and at this season of the year conditions prevent very rapid progress. The grading contract has been let and work will begin as soon as the frost gets out of the ground. Cook county has appropriated $100,000, a third of the total capitalization.

It is confidently expected to have a line of this road in operation through to Ely in a very few years, traversing a county which some believe, will produce large quantities of iron ore.

THE DAY IN CONGRESS

HOUSE.

Debate continued on naval appropriation bill.

Passed joint resolution authorizing secretaries of war and navy to loan equipment for instructing and training in sanitary organizations of American Red Cross.

Arthur R. Marsh of the New York cotton exchange, before agricultural hearing on anti-cotton futures, testified that if proposed legislation is not carefully safeguarded it might eliminate cotton growers producing low grades.

SENATE.

Inter-oceanic canals committee continued hearings on toll exemption repeal bill.

300 NUNS EAGER TO SERVE AS NURSES

La Crosse, Wis., April 25:—Services as nurses of 300 nuns of the Franciscan order, whose headquarters are here, were offered to the war department by the mother superior today. A dozen experienced nurses can start on an hour's notice, it is announced, and others will follow rapidly. The sisters are all anxious to go to the front and are eager for the first assignment.

SEEK RECRUITS FOR U. S. MARINE CORPS

Washington, April 25.—Secretary Daniels, through Maj.-Gen. Barnett, commandant of marines, today ordered the following retired marine corps officers to special recruiting duty at these stations:

Capt. F. M. Eslick of Gadsden, Ala., to St. Louis.

Capt. R. C. Walker of Middletown, N. Y., to Boston.

Capt. D. W. B. Blake of Pass Christian, Miss., to St. Paul.

Capt. H. T. Swain of Saratoga, Cal., to Portland, Ore.

AMERICANS IN THE CAPITAL IN DANGER

Washington, April 25.—Americans remaining in Mexico City are entirely dependent upon the Huerta government and the small guards maintained at the foreign legations for protection, it was stated at the state department today. There are between 60 and 100 men, it was said, attached to the various foreign legations in the Mexican capital, armed with small arms and machine guns, upon whom the Americans might depend. These, the department said, would be effectively only against sporadic mob violence, and would be practically powerless against any general movement or any mob attack the Mexican government might ignore. It was expected that the Americans, in the event of an attack, would take refuge in the other foreign legations.

REFUGEES ARRIVE AT GALVESTON, TEX.

Galveston, Tex., April 25.—The vanguard of several thousand refugees from Mexico, headed for Galveston, arrived here today on the United States collier Cyclops from Vera Cruz and Tampico and the steamer Trinidadian from Tampico. The majority were Americans. Tomorrow 1,500 refugees are due on the steamer Esperanza from both Vera Cruz and Tampico.

Maj. I. L. McGlasson, state quarantine officer, has had 400 cots installed in the hospital at the United States immigration station at Pelican island, where the refugees will be detained for six days in accordance with quarantine regulations.

PULL DOWN STATUE OF WASHINGTON

Washington, April 25.—The state department said that no official dispatches confirmed the report that four Americans had been killed in Mexico City, and that Consul Canada at Vera Cruz, still in communication with the department, made no mention of such an occurrence when he reported the pulling down of the Washington statue in Mexico City and the stoning of the American club.

Diplomat Marries.

London, April 25.—Hugh R. Wilson, secretary of the American legation at Guatemala, was married at St. Peter's church, Eaton square, at noon today, to Miss Katherine Bogle of Ann Arbor, Mich.

ASKS FOR U. S. GUNS TO FIGHT MEXICANS

CAPT. J. C. GREENWAY,
Formerly of Coleraine, Minn.

Washington, April 25.—An appeal for government guns to arm citizens of Bisbee, Ariz., to repel any invasion from Mexico, was laid before Secretary Garrison today by Senator Ashurst. Governor Hunt, in a telegram to Senator Ashurst, asked that 1,400 rifles be sent from the nearest army post. A telegram to Senator Ashurst from Capt. John C. Greenway of Bisbee, said that 900 Mexicans, said to belong to the Constitutionalist forces, were driving Americans out of Cananea, across the border.

MEXICANS FREE TO LEAVE VERA CRUZ

Washington, April 25.—Secretary Daniels has instructed Admiral Badger at Vera Cruz to issue a proclamation informing all Mexicans in that vicinity that they are free to come and go as they please. This, it was hoped, would induce Gen. Huerta to permit Americans to leave Mexico City, where they have been detained in consequence of the report that Mexicans were not permitted to leave Vera Cruz.

ASKS AMERICANS TO QUIT RAILROAD

New York, April 25.—At the office of the National Railways of Mexico, the report from Mexico City that President Huerta had asked all the Americans in the employ of the railway company, with the exception of President E. N. Brown, to resign was confirmed.

Mr. Brown is in this city, but it is not known whether he will accede to the request of the Mexican government to continue in charge of the railway.

CONGRESSMEN WANT ACTION IN MEXICO

Washington, April 25.—An undercurrent desire in congress for more aggressive action in Mexico became apparent today, several members of the house and chairman of important house committees agreeing that the plan to "sit tight" at Vera Cruz awaiting retaliatory developments might result in embarrassing international complications.

REASSURING NOTE SENT TO CARRANZA

Washington, April 25.—The note which the state department has dispatched to Gen. Carranza through American Consular Agent Carothers, it was made known today, reiterates the intention of the American government merely to obtain reparation from the Huerta government and not to engage in hostilities against the Constitutionalists.

BRYAN AND BURLESON GO TO WHITE HOUSE

Washington, April 25.—Secretary of State Bryan and Postmaster General Burleson were called to the White House late today for a conference on the Mexican situation. The postmaster general is particularly anxious about conditions on the Texas border, where the local authorities are clamoring for additional troops.

HAY RED CROSS BILL PASSED BY HOUSE

Washington, April 25.—To meet the present emergency in Mexico with possible need of trained volunteer nurses, the house today passed the Hay joint resolution authorizing the secretaries of war and navy to issue at their discretion and under proper regulations any articles needed for instruction and practice by organizations formed by the National Red Cross for rendering aid to the army and navy in war.

CLEMENCEAU SNEERS AT PEACE SEEKERS

Paris, April 25.—George Clemenceau, former French premier, writing on the subject of Mexico, in the Homme Libre, pokes fun at the pacifists.

"They have done nothing—not even talk," he says. "This is not very encouraging for those peoples whom the pacifists have proposed to defend otherwise than by arms against invading neighbors. That must be the reflection of the worthy Mexicans as they watch the peace-jurist president, Wilson, knocking down their houses with his shells.

"And his sole reason for this action is that the excuses made to him were not equal to his indignation. I say the sole reason, because President Wilson does not speak of the oil fields whoch have attracted the attention of American financiers in the same way as the French coal mines at Briey on the German frontier always are being coveted by the Germans."

Diaz's Plans.

Monte Carlo, April 25.—Gen. Porfirio Diaz, former Mexican dictator, has decided to remain here for the present. He has given up his plan to go to Vichy, and will instead make a tour of Italy and then return to his Paris residence.

Delinquent Taxpayers.

Bemidji, Minn., April 25.—(Special to The Herald.)—There are 463 delinquent personal property taxpayers in the county of Beltrami this year, an increase of 160 over the number last year. Sheriff Johnson is now geting out the statements and if they are not paid within five days after receipt he will proceed to enforce collection. There are sixty-nine delinquent taxpayers in Bemidji.

WILL GO TO PROBE COLORADO STRIKE

Denver, Colo., April 25.—Chief Justice G. W. Musser of the state supreme court, A. R. King, associate justice, and three other persons to be appointed by the governor, will leave late today for Trinidad to investigate certain phases of the strike situation. This announcement was made by Governor Ammons.

From other sources it was learned that their inquiry would be in the interest of peace.

Strikers in Trinidad.

Trinidad, Colo., April 25.—Robert F. Bolton, in charge of union headquarters here, today said that about 300 strikers had come into Trinidad during the night to await the outcome of the conference between Gen. John Chase and union leaders. The strikers' women and children, removed from Aguilar, Segundo and other nearby camps, would be sent back today, he said.

According to Bolton, the terms offered by the strikers for a permanent peace would be, first that the strikers be not disarmed; second that the mine guards be sent out of the country.

Bolton said he would ask the military authorities for permission to send a specially selected committee with witnesses to the site of the burned Ludlow tent colony to excavate and determined whether any dead remained in the caves and holes under the debris.

The military camp at Ludlow reported everything quiet today.

Night Firing Unimportant.

The firing last night was scattered, and regarded as of no more importance than numerous other similar occurrences which have passed unnoticed in the rush of exciting events of the last few days.

DULUTHIAN WEDS GIRL AT PROCTOR.

Proctor, Minn., April 25.—(Special to The Herald.)—One of the prettiest weddings seen here in some time was that of Miss Lillian Louise Taillon, daughter of Mr. and Mrs. Phil Taillon of Proctor, and Charles Gordon Wood of Duluth at St. Rose's Catholic church here, Monday morning, Rev. Father Walsh officiating. Miss Florence Loirett of Ishpeming, Mich., was bridesmaid, and Leo Taillon, brother of the bride, best man. The bride wore white messaline with tunic of overlace, and her tulle veil worn cap effect was caught with lilies of the valley. The bridesmaid wore white crepe meteor with a tunic of white lace over pink chiffon. A wedding breakfast followed the ceremony, after which the couple left for Chicago on their honeymoon. They will live in Duluth.

ULSTER MEN GET ARMS FROM GERMANY

Belfast, Ireland, April 25.—A consignment of about 40,000 rifles and half a million rounds of ammunition from Germany was landed at isolated points on the const of Ulster during last night, and distributed by means of 200 automobiles to the various headquarters of the Ulster "volunteers."

The Ulster men, who declare themselves determined to offer a stern armed resistance to the introduction of home rule, were mobilized early last night, and guarded the landing places and the roads until the distribution of the arms had been completed.

The police were powerless to interfere and all communications were interrupted.

REFUGEES ON BOARD HAWAIIAN BOATS.

Washington, April 25.—Reporting to the navy department from Vera Cruz under date of 4:25 p. m. yesterday, Admoral Badger said:

"Following received from the captain of the British cruiser Berwick at Puerto Mexico: 'There are now about 200 American refugees on board three Hawaiian steamers anchored off breakwater. They have not sufficient food to take refugees to nearest American port. Would suggest that I supply each of them with sufficient food to take them to Galveston, and will, if you give necessary instructions to leave forthwith for Galveston.'"

The navy department announced that the three steamers referred to were supposed to be the Texan, Dakotan and Oregonian. Secretary Daniels said he had wired Admiral Badger "the necessary authority," and that the refugees would be sent at once to Galveston.

Moore's Steel Ranges Please--

We can show you more improvements on these ranges than any other make—we have sold them for 15 years. We have all sizes and prices from

COXEY'S ARMY OF FOURTEEN MOVES ON

Pittsburg, Pa., April 25.—In the face of a driving rain, "General" Jacob Coxey and his army of the commonweal, fourteen men, today marched out of Sewickley, a suburb, on their way to Washington. Police here announced that the army must keep moving after it enters the city.

IS GIVEN SEND-OFF.

New Duluth Grain Inspector Receives Neighbors' Good Wishes.

Crookston, Minn., April 25.—J. F. Ingersoll, a prominent Polk county man who was recently appointed on the state grain appeals, was given a thorough surprise at his farm home Tuesday evening when over forty members of the Fairfax-Andover social circle called.

Mr. Schuck, in behalf of the circle, presented Mr. Ingersoll with a handsome traveling bag.

The family will remain at Crookston, though Mr. Ingersoll leaves on May 1 for Duluth to assume his new duties.

SALEM ORDERED TO MEXICAN WATERS.

Philadelphia, April 25.—The scout cruiser Salem, one of the fastest vessels in the navy, is expected to leave the Philadelphia navy yard this afternoon for Mexican waters. The Salem is officially attached to the special service squadron commanded by Rear Admiral Winslow, which includes the battleships New York and Texas and a number of smaller warships.

The destination of the Salem was said to be Tampico. The cruiser will carry a crew of 350 men and 76 marines.

DRINKS CARBOLIC ACID.

St. Cloud, Minn., April 25.—Merle J. Marlette, a paroled prisoner of the local state reformatory, is detained by the local police pending an investigation into the death of Winnifred Davis, aged 19, who is alleged to have taken carbolic acid and killed herself because Marlette, with whom she was infatuated, proposed to accompany his employer to Montana, the reformatory officials having granted him permission. It is said Marlette and the girl had been meeting clandestinely, as her parents objected to his attentions, and when he announced he was going to leave, she decided to take her life.

VICTOR HERBERT IS OPERATED ON.

London, April 25.—Victor Herbert, the composer and conductor, underwent an operation this morning for appendicitis. His condition had become so critical that his doctors decided that an operation was necessary to save his life. The composer's condition this evening was considered satisfactory. Mr. Herbert came here from the United States a week ago.

BIG CHAUTAUQUA.

Valley City to Build Large Auditorium at Once.

Valley City, N. D., April 25.—The steel Chautauqua auditorium is to be built. The contract was let to the De Cauter Bridge company of De Cauter, Ill., work to begin at once. The building will be the largest structure of the kind west of the Twin Cities and will measure inside 120 by 120 feet, with a stage 40 by 24 feet, in addition to which there will be a dressing room of ample size.

The building will be well lighted with plenty of windows, painted white and will seat comfortably 3,250.

FARMING IS DIVERSIFIED

North Dakota Not Merely Wheat State, Says J. H. Worst.

Head of Agricultural College Expects Big Crop This Year.

J. H. Worst, for the last nineteen years president and director of the North Dakota Agricultural college, and now a candidate for the United States senate from his state, is in Duluth today. President Worst is here with the college band, which "represents nine different nationalities and more than 40,000 acres of land."

"We are improving the agricultural conditions of North Dakota," said President Worst. "We are preaching and likewise teaching diversified farming. Conservation of the soil is what is needed in North Dakota.

"The people are getting away from wheat growing a great deal, and yet I venture to say that there is as much wheat raised in North Dakota as formerly—you see we are teaching the farmers to raise more bushels to the acre.

"East of the Missouri river the outlook for a fine crop is very good just now. The soil is moist and is apparently in very good condition. West of the river, while the ground seens to be moist on the surface, there is the belief that the subsoil needs more moisture.

"Our farmers out there are raising the best kind of cattle and growing diversified crops. During the last year there were several thousand head of pure bred cattle imported into the state. The farmers out that way seem to prefer the Holstein, and buyers went to Wisconsin and other dairying centers and bought some of the best.

"You know that we have twenty-six county commissioners, paid by a tax levy, and these men work in twenty-six counties—work under the direction of the Agricultural college. In addition to the advice and effort these commissioners are expending in the education of the farmer of the Flickertail state, we have twenty demonstration farms of twenty acres each, and upon these farms we are endeavoring to demonstrate by practical lessons the value of crop rotation, soil conservation and the best methods to pursue in crop raising and tilling of the soil. We believe we are succeeding admirably, and we believe, further, that the agricultural progress of the state has been very rapid within the last five years."

Mr. Worst remarked that the people up his way were at last beginning to take his candidacy for the senate in a serious light. He entered the race at the request of the farmers of the state, and the race promises to be close, as there are a large number of candidates in the field.

LAST CHANCE TO GET CYCLOPEDIA

Tonight Ends the Great Educational Campaign in Duluth.

Today is positively the last chance to get People's Cyclopedia, the five-volume set of modern reference books, regularly selling at $12, for $1.98. So act quickly. The sale ends at the Glass Block store at the closing hour today.

Thousands of readers who have need of a set of this kind have heretofore been unable to get it on account of the high prices of the large and cumbersome sets so extremely advertised. But here is a complete set of modern reference books at less than the average price of one volume.

Today, however, closes the distribution. There are just enough sets left to take care of today's distribution, and readers should present their coupons early this evening, or they may be disappointed.

Clip the coupon printed in the announcement elsewhere in this issue and present it tonight at the Glass Block store, together with $1.98 for a complete five-volume set. It is indeed the greatest book bargain on record, and no man, woman or child should miss it.

Those who cannot conveniently call at the Glass Block store and also out-of-town readers may order by mail, as per announcement on another page. Make remittance payable to the Glass Block store.

Clip the coupon now and present it at the earliest possible moment. —Advertisement.

HEARING IN GAIN CASE CONTINUED

Opposing Counsel in Action Agree to a Week's Delay.

Arguments on a motion for a new trial in the case of the state against Mary Le Flohic, alias Madame Gain, who was convicted by a jury in district court on Feb. 4 on a charge of keeping a house of ill-fame, were continued for one week by Judge Cant today. The continuance was agreed to by both Mason M. Forbes, first assistant county attorney, and John H. Norton, attorney for the defendant.

Madame Gain, a notorious character in Duluth's half-world, was found guilty, after one jury had disagreed, of having conducted the Clifton hotel, 321 West First street, as a house of ill-fame between June 24 and July 5, 1913. She was indicted at the September term of court and brought to trial at the November term. The jury disagreed and the case was continued to the January term. Upon a second trial she was convicted.

The motion for a new trial is based on the alleged failure of the state to bring the woman to trial at the next term of court following that in which the indictment was found. Attorney Norton contends that a "mistrial" is not a trial as contemplated by the statute. The defense asserts that the statute which provides for a speedy trial was not complied with.

The same point was raised on a motion to dismiss the indictment made by Attorney E. M. Goldberg, former counsel for Madame Gain in the case just before the second trial was begun. Judge Cant denied the motion, however, and allowed the trial to proceed.

Cloquet Child Dies.

Cloquet, Minn., April 25.—(Special to The Herald.)—Guy Chester, Jr., the 3-months-old child of Mr. and Mrs. Guy Smith, died last night. A bad cold caused the child's death. The funeral will take place tomorrow from the Presbyterian church.

Additional Society News

Mrs. Henry Hauck of 407 East Seventh street entertained Wednesday in honor of the 7th birthday of her son, Raymond. The decorations were in pink and green. Music and games were enjoyed. Those present were:

Mesdames—
S. Rapensky, E. Behning,
C. Behning,
Misses—
Elise Beinfeld, Freida Hauck,
Leona Fleer, Marjorie Behning.
Louise Cherne,
Masters—
William Behning, Clifford Cherne,
Frank Bepensky, Fred Beinfeld,
Robert Bolt, Luther Lehne,
Morris Leskowitz, Marvin Barthold,
James Lawn,
Bealto Cherne, Edward Behning,
George Wendlant, Herbert Barthold,
Harold Behning, Raymond Kethel,
Frederick Miller, Henry L. Hauck.

The ladies of the Beneficent Beta council No. 2 will give a card party Monday evening at their hall, Twentieth avenue west and Superior street.

Mr. and Mrs. W. A. Hunt and family will be at the Hotel Alexandria from May 1 to June 1 while their house at 1905 East Third street is being redecorated.

Resumes Business in Duluth.

Theodore Couture is pleased to announce that he has returned from a few months' trip in the East and is now ready to resume his work in the painting and decorating business. He also wishes to say that he has associated himself with Henry De Roche, one of the best known painters and decorators in the city. If you wish to save time, money and trouble, as well as have reliable and experienced artists do your painting and decorating, call up Melrose 4284 or Grand 2103-Y.

SHOWS LETTERS ON WASHINGTON WILL

Mrs. Storey Produces Them at Meeting of the D. A. R.

Washington, April 25.—Correspondence between Governor Stuart of Virginia and J. P. Morgan concerning the will of Martha Washington which is in Mr. Morgan's possession, was read to the Daughters of the American Revolution today by Mrs. William Cummings Storey.

The letters show that the matter was opened by Governor Stuart through W. L. McCorkle, president of the New York Southern society in March last. In reply Mr. Morgan said his only desire was that the document should be placed where it could be best preserved and of most use to the people of the United States. Not considering the courthouse building of Fairfax county, Virginia, to which Governor Stuart desired the document returned, and where the will of George Washington no wis, as fireproof or accessible to any large number of people, Mr. Morgan made two propositions.

One was that the state of Virginia or Fairfax county should place the original will of George Washington on exhibition at Mount Vernon for an indefinite period and that if this were done he would present the will of Martha Washington to the Mount Vernon association for permanent exhibition there. The other was that should the Virginia authorities not be willing to do this, the will of George Washington should be presented to the Library of Congress and that he would in turn present the will of Martha Washington to the nation for the same disposition.

Neither of these proposals met with the approval of Governor Stuart, who stated the people of Virginia held that Martha Washington's will was a part of the legitimate records of Fairfax county, Governor Stuart then renewed his request that some agreement could be arrived at and there apparently the matter rests so far as disclosed by correspondence given out by Mrs. Storey.

HAPPENINGS AT THE DULUTH BUSINESS UNIVERSITY

Located at 118-120 Fourth Avenue West, Christie Building.

Sixteen young men and women have just left the college to accept excellent clerical positions. The combined monthly initial salary of these young people amounts to $815 or an average of $51 per month. Names and positions accepted are as follows:

H. G. Whitney, bookkeeper for Oliver Iron Mining company; Thomas Quinn, bookkeeper for Oliver Iron Mining company; Elmer Lindbeck, bookkeeper for Oliver Iron Mining company; Abraham Gordon, bookkeeper for Oliver Iron Mining company; J. E. McLaughlin, bookkeeper for Oliver Iron Mining company; Siguard Moe, bookkeeper for Oliver Iron Mining company; Herman Porger, boookkeeper for Oliver Iron Mining company; Guy Anderson, bookkeeper for F. D. Harlow, public accountant; Cecil Shea, stenographer for Zenith Box & Lumber company; Dorothy Wachtel, stenographer for Marshall-Wells Hardware company; Carrie Anderson, stenographer for Marshall-Wells Hardware company; Olive Boyd, stenographer for Marshall-Wells Hardware company; Cecil Stevens, stenographer for Marshall-Wells Hardware company; Louis Ardoulin, stenographer for Portland Cement company; Ann Morrison, stenographer for Gowan-Lenning-Brown company; Angela Sever, bookkeeper for Bridgeman-Russel company.

The college will be in session all summer, no vacation. Special rates, special courses and special classes will be organized for teachers during May, June, July and August. Special rates will be allowed eighth grade and high school students during the summer months.

CLOQUET SCHOOL AFFAIR

Annual Reception By Juniors of High School Is Held.

Cloquet, Minn., April 25.—(Special to The Herald.)—The annual reception given by the juniors of the Lincoln high school for the seniors and faculty was held last night at the Masonic temple.

Dancing was indulged in until 12 o'clock, after which a dinner was served at Cochrane's. The banquet room was prettily decorated in purple and white, the high school colors.

After dinner, speeches and toasts were given by Supt. Peter Olesen, Principal H. E. Wilkins, Miss Kellog, James Underhill and Arvid Boquist, presidents of the junior and senior classes, and Ruth Logan of the junior and Walter O'Meara of the senior class.

CLOQUET GIRL DIES AT EWEN.

Cloquet, Minn., April 25.—(Special to The Herald.)—Word was received here last night of the death of Marion Peterson, the 12-year-old daughter of William Peterson of this city, at the home of her uncle, O. Peterson, in Owen, Mich. Death was caused by typhoid fever.

The remains will be brought to Cloquet for burial Monday.

IS ARRESTED FOR BIGAMY

Husband of Duluth Young Woman Said to Have Another Wife.

First Wife Swears Out the Warrant for His Arrest.

Bigamy is the charge which will be lodged against Walter J. Sullivan, who was arrested by the Minneapolis police last night. He will be arraigned in the local police court next Monday morning.

Sullivan is accused of having married Helen Swan of this city, while his first wife, Grace Sullivan, was still married to him. She is living at present in Minneapolis. Both women will appear against him.

The complaint against Sullivan was made here yesterday afternoon by Mrs. Sullivan, No. 1, who came to Duluth to press her charge. She claims that she learned but a week ago that her husband had married Miss Swan in Duluth last November. She also plans to begin divorce proceedings against him, she said.

Chief Troyer immediately wired Chief Martinson at Minneapolis late yesterday afternon and in the evening he received a return telegram announcing the arrest of Sullivan on a charge of bigamy. Chief Troyer reported the arrest to Sheriff Meining this morning and a deputy will be sent down today to bring Sullivan back for trial. He will be arraigned in police court Monday morning.

Mrs. Sullivan, No. 2, has been living with her parents, Mr. and Mrs. John C. Swan, 425 Tenth avenue east, for the last few weeks and only recently learned that Sullivan had a wife living in Minneapolis. She went to County Attorney Greene and reported the rumor that had reached her and although Mr. Greene made an investigation, the former never pressed her charge of bigamy and it was left to Mrs. Sullivan, No. 1, to come to Duluth and cause Sullivan's arrest.

Married Last November.

Mrs. Sullivan, No. 2, was married in Duluth on Nov. 16 last by Rev. William F. Hlovik of the Endion M. E. church. She and her husband left for a short wedding trip after the marriage, spending several weeks on the range. Sullivan was at that time traveling for a Minneapolis concern and had given his name as J. Walter Sullivan to acquaintances here and was also married under that name to Miss Swan.

Correspondence at police headquarters between Chief Troyer and the authorities at Bemidji and Minneapolis disclose the fact that Sullivan was arrested on Feb. 26 for beating a board bill in the former town. It was claimed that he and his second wife had spent several days at the Markham hotel, leaving a $36 board bill unpaid. Another charge was made that he had failed to pay a similar bill at the Rex hotel at International Falls and that he had passed a bogus check on the International State bank in the border city.

First Wife to Rescue.

Sullivan was arrested at St. Cloud and was taken back to Bemidji, where the charge was pressed against him. Mrs. Sullivan, No. 1, who was in Minneapolis, heard of his plight and sent the money to the Markham hotel and the charges against him were dropped. Just previous to that Mrs. Sullivan, No. 2, returned to her parents in Duluth and has been here ever since.

Mrs. Sullivan No. 1 came to Duluth Thursday evening to investigate the rumors she had heard about her husband, and yesterday afternoon she came to the office of John G. Ross, clerk of court, and swore out a warrant for the arrest of Sullivan, charging him with bigamy. She left for Minneapolis late in the afternoon and is expected to return for the trial next week.

In her story to the clerk of court Mrs. Sullivan said that she and her husband were married at Hayward, Wis., about three years ago. She was working at the time as a public stenographer and court reporter, while Sullivan was employed as a salesman for the Frederick Murphy Automobile company of Minneapolis. She continued working after marriage, she said, and still operates an office in the New York Life building in Minneapolis, and also acts as special court reporter.

Sullivan, who is 28 years old, is six feet tall and is described by the police as being of very striking and handsome appearance. He came from New York and often used the name of John W. Sullivan, the police claim.

Mrs. Sullivan No. 2 is very well known in Duluth, and her marriage last November will be remembered by many. She formerly attended the Central high school. She was born in Duluth. Mr. Swan is very well known throughout this part of the state as a lumber shipper and occupies offices in the Providence building.

Railroads

W. H. BRIMSON DEAD.

Former Northern Pacific Superintendent Called in Washington.

Brainerd, Minn., April 25.—(Special to The Herald.)—W. H. Brimson, formerly with the Minnesota & International railway, with headquarters in Brainerd, died of apoplexy recently at his home in Washington, D. C. Mr. Brimson was superintendent of the Rocky Mountain division of the Northern Pacific railway after leaving Brainerd ten years ago and later was general superintendent of the Baltimore & Ohio, from which position he recently retired. He was an intimate friend of R. R. Wise and generally spent his summer vacations with Mr. Wise in Brainerd.

SOO TRAIN HAS LUCKY ACCIDENT.

Hankinson, N. D., April 25.—(Special to The Herald.)—Soo luck prevented a serious disaster here. The passenger train, No. 106, ran into an open switch and the engine and tender were derailed, tying up traffic for several hours. The low rate of speed at which the train was moving prevented a tragedy and the passengers escaped serious injury.

BEGIN TO FILL BRAINERD BRIDGE.

Brainerd, Minn., April 25.—(Special to The Herald)—McCullough & Cheney, Minneapolis railway contractors, have landed their outfit of three engines, a steam shovel, twenty-four dump cars and a lot of other equipment and will commence work on the Northeast Brainerd bridge fill. J. Laundry and W. Hare are Minneapolis steam shovel men who will work on the job.

BUYING AGENT FOR THE CITY

Important Legislation Will Be Adopted Despite Opposition.

Water Department Officials Say They Will Be Hampered.

Despite the strenuous opposition of Commissioner Leonidas Merritt, head of the utility division, and other officials of the water and light department, the ordinance providing for a purchasing agent and a store system will be passed in its present form by the city council.

This became clear this morning when three of the five commissioners declared themselves in favor of the ordinance at a meeting of the council with the purchasing committee, consisting of the employes who do the buying for the various departments, held in the council chamber.

Mayor W. I. Prince and Finance Commissioner Fred J. Voss stated emphatically that the measure was for the best interests of the city, and Safety Commissioner William A. Hicken asserted that he could see no objection to it.

The only "insurgents" present were Commissioner Merritt and his subordinates in the water and light department. They argued strongly against the move but they failed to convince the others that their position was correct. Commissioner Merritt presented the objections outlined by Manager D. A. Reed of the water and light department, claiming that a purchasing system would hamper the operations of the department; that it would be a violation of the spirit of the charter; that it would result in no saving, and would lessen general efficiency.

Discussion Becomes Barbed.

The discussion became quite acrimonious at times, but it was the most thorough threshing out which the question has had thus far. Several sharp verbal passages were exchanged, with Commissioners Voss and Merritt leading the opposing sides, but they served to throw more light upon the problem that it had heretofore received.

The ordinance which is about to be passed limits the purchasing to office supplies, stationery, printed forms, blank books and janitor supplies. The intention is to extend it at a later date to include the buying of other materials.

Mayor Prince said that he is heartily in accord with the proposed legislation and that he trusts the time is not far distant when it would be enlarged to a general purchasing and store system for the whole city. He stated that it is the only business-like and efficient method as it will not only save money and misunderstandings but will eliminate the present hit-and-miss, go-as-you-please policy now in effect and result in desirable uniformity and a valuable system. He pointed out that Duluth is the only large city in Minnesota which is without a purchasing department and that many of the up-to-date cities of the country are finding it profitable.

Commissioner Voss said that a purchasing system would result in material savings; that it will center responsibility, and will expedite the conduct of the city's business. Commissioner Merritt contended that it will take from department heads responsibility which should be placed upon them and that experience of others had shown that purchasing departments did not accomplish the purposes for which they are intended.

City Clerk C. S. Palmer held that it would be in keeping with the spirit of the charter and not in violation of it. He explained that the framers of the charter considered a purchasing department very seriously but not knowing whether it could be successfully put into operation at once, its establishment had been left to the council's judgment.

NOTED DECORATOR BECOMES DULUTHIAN

R. Nelson Place, known throughout the continent as an interior designer of exceptional merit, has associated himself with Duluth's exclusive decorators, Gowen & Zimmerman. Mr. Place is a native New Yorker but is well known in the Northwest, having designed the interior decorations of such buildings as the Elk's club at Minneapolis, the Andrews hotel, and the homes of George B. Clifford, Guy A. Thomas, M. J. Scanlon of the Brooks-Scanlon Lumber company, and many others.

While on a recent trip, E. L. Cowen, of Cowen & Zimmerman, was attracted by the panel decorations in the Mill City Elk's club. On asking the identity of the designer he was given Mr. Place's name and address and immediately telegraphed a lucrative offer to the artist. Mr. Place accepted and Duluth is the gainer.

Famed among Mr. Place's works are the "Wedding of the Daschunds"; the "Robin Hood" panel, and "Old King Cole," reproductions of which form the decorative scheme of the Elk's Home in Minneapolis.

FERRY BOATS

Just started running today from DULUTH to SUPERIOR.

FARE, 5 CENTS

FIRST OF DEFENDERS TO TAKE TO WATER

Sloop Resolute Said to Resemble Famous and Speedy Fifty-Footers—Launching Time at Sunset.

Bristol, R. I., April 25.—The launching of the sloop Resolute, the first of the American trio of cup candidates to take the water, brought here today the first mobilization of yachtsmen in defense of the America's cup. A score of members of the New York Yacht club and as many of their friends were permitted to look the boat over as she sat on the ways in one of the Herreshoff building sheds. The launching was set for sunset.

Nearly all the members of the syndicate are present. They had a brief meeting to talk over plans for the season.

There was little to do except to clear out the dock into which the Resolute will plunge. Every precaution was taken that only recognized persons should have a view of the yacht and strangers were kept out of the yards.

Those who saw the boat said she resembled in a great degree the famous fifty-footers which nine members of the New York Yacht club sailed with much success last season. Her most distinguished feature is the short, saucy stern. The forebody suggests the belly of a shad. The hull forward of the fin is brought down to a sharp "C" some distance from the water.

NORTH DAKOTA U ORATOR IS BEST.

Grand Forks, N. D., April 25.—(Special to The Herald.)—Lester Smith of the North Dakota university won the state intercollegiate oratorical contest here last night.

SPOONER NOTES.

Spooner, Minn., April 25.—(Special to The Herald.)—William F. Steffes, cashier of the Security State bank this week, received service medals, earned during his term of enlistment in Company I of the Thirteenth Minnesota infantry, in the Spanish-American war. Mr. Steffes served through the entire Philippine campaign of the regiment.

S. P. Peterson, who has resided in this neighborhood for nearly fifteen years has sold his farm, located about one mile east of the Rainy Lake River Boom corporation offices and fronting on the Rainy, to Syvert Johnson, for $4,000. Mr. Peterson will visit a daughter in Sweden, whom he has not seen for several years.

Robert Wilson Jack died at the local hospital this week. He was taken sick at Rainy river and attended by Doctors McBane and Corrigan, who removed him to the hospital, where everything possible was done for him. He was 27 years old and was born in Scotland, and has been employed as a traveling salesman for several years, by a well-known Canadian wholesale house.

A meeting of the business men of the village was held on Wednesday evening to reorganize the Commercial club. Nearly every business man in town has expressed his willingness to do his best to make the affair a success. A committee was appointed on organization and a meeting will be held next Monday evening at the Auditorium, when it is expected that the club will take on a new lease of life.

The Spooner schools received pictures to the value of more than $100 this week from the Turner art people of Massachusetts. This is the result of the proceeds of the art entertainment held by the schools during January.

The Farmers' club at Williams has organized a co-operative telephone company. At the first meeting over $700 was subscribed. The company will have a local central and wires will radiate both north and south from Williams.

RAPS CANNED SOUPS.

North Dakota Food Shark Says Concoctions Misrepresent.

Bismarck, N. D., April 25.—(Special to The Herald.)—Commercial condensed soups, analyzed by Leon A. Congdon of the state pure food department are, in most instances, made up largely of salt water, according to the report that has just been promulgated.

Discussing one brand of soups, Mr. Congdon declares they are made up almost entirely of water, salt and water with some extract of beef and added spices.

Celery soup, so labeled, is made up of celery paste, salt, small amount of butter, with the exception of one sample, which contained celery seed for flavoring purposes.

Condensed beef soups, according to Congdon, are made up for the most part of vegetables.

Steeplejack Thrills.

Eau Claire, Wis., April 25.—Perched on top of the steeple of the Sacred Heart church yesterday, "Jack" Muessel, a steeplejack from White Bear, Minn., thrilled those who witnessed his feat and were almost breathless for fear that some calamity might befall this "daredevil."

Muessel had been engaged by John T. Gately, general agent for J. D. & E. G. Owen, copper cable lightning rod, to perform the hazardous task of installing a lightning conductor on the church.

Oriska, N. D., Burglary.

Oriska, N. D., April 25.—(Special to The Herald.)—Breaking in the glass of the front door, burglars entered the Oriska Mercantile company's store and stole the cash register containing $45. Three arrests were made, but the guilty parties are thought to have escaped.

TWO VETERAN FIRE FIGHTERS WILL RETIRE ON PENSIONS

JOHN QUIMBY.

JOHN TWADDLE.

Two veteran "smoke eaters" of the Duluth fire department will retire from active service May 15.

They are Capt. John Twaddle, in charge of No. 7 fire hall at Seventh avenue east and Ninth street, and Engineer John Quimby, stationed at No. 4 hall, Fourteenth avenue east and First street.

Both have been actively connected with the department for more than a score of years. Capt. Twaddle was appointed in May, 1890, and Engineer Quimby went on in August, 1891. Both of them have participated in many memorable battles with the firo fiend during that time, and leave with excellent records to their credit.

In 1897 Capt. Twaddle narrowly escaped with his life. While engaged in fighting a fire in the building of the Duluth Shoe company, which later went out of business, a section of the upper part of the wall fell above him. The man standing next to him was instantly killed and he sustained a fracture of the skull, from which he recovered after a long siege in the hospital.

Through a coincidence both men are 54 years of age and both made their applications for retirement the same day. They were acted upon favorably by the officials. The retirements come at a favorable time, as the new combination motor rigs will be received in a short time. These will call for a reduction of the force of the fire department, for which reason the leaving of Capt. Twaddle and Engineer Quimby will not seriously handicap the force. Each of the men will receive a pension of $40 a month.

When Capt. Twaddle leaves No. 7 another captain will not be appointed. The station will be in charge of a lieutenant.

We Are Now Located at Our New Location

122 and 124 East Superior Street

Dining Room Chairs

Regular Value $4.00—

Special sale Dining Room Chairs, genuine quarter sawed oak, fumed finish, **exactly like picture**, with genuine leather seat, special for **Saturday** night and **Monday**—think of it, at only—

$2.35

We just received today several hundred Dining Chairs. In fact, new goods are coming in every day.

Young People, let us show you our 3 to 5-room outfits from **$65.00 to $225.00.** Your credit is good.

BANQUET FOR NIGHT SCHOOL

Work of the Y. M. C. A. Educational Department Is Reviewed.

Helping Young Men of Duluth to Double Earning Capacity.

The first annual banquet of the educational department of the Duluth Y. M. C. A. was held last evening in the assembly hall of the association building.

Those present were the following members of the board of directors: President, Watson S. Moore; vice president, F. E. House; treasurer, Calvin F. How; recording secretary, B. N. Wheeler; K. C. Hoxie, S. E. Matter and John J. Moe, besides E. P. Cassell, Jr., and George M. Peterson, secretary of the Retail Merchants' association, and a large number of the faculty and student body, in all seventy-four.

The hall was decorated with American flags and the tables with pink carnations and ferns. Music was furnished by the Y. M. C. A. archestra headed by H. J. Denny. The menu was served by the cafeteria department under the direction of Miss Anna Reed.

After the dinner B. C. Wade, general secretary of the association who presided and acted as toastmaster, introduced A. L. Turner, educational secretary who gave a report of the season's work.

He spoke in part as follows::

Value of Work.

"Educational work is necessary in the association because statistics show that more than half of the boys of our country leave school before they are 14 years of age, and without having received the essential foundation of education for their life work. The demand is growing keener each year for trained men in all lines of employment above common labor. The following figures indicate the economic loss through lack of training of our young men for skilled labor. These figures show the average wages per hour in five of the building trades and five machinery trades, and then unskilled labor in connection with these trades:

Building Trades.	Per Hour.	Machinery Trades.	Per Hour.
Plumbing	..54c	Blacksmith	...31c
Painting	.....38c	Machinist	....29c
Bricklaying	...62c	Molding (brass)	31c
Elec. wiring	...43c	Molding (iron)	32c
Sheet metal	...46c	Pattern (wood)	35c
Unskilled	....19c	Unskilled	....17c

"These figures are taken from the United States bureau of labor and commerce. They show the average pay of skilled labor to be 40 cents per hour, while the average pay of the unskilled labor in the same trades is 18 cents.

"Four or five years of an average faithful application on the part of a young man in Y. M. C. A. night school, while pursuing his regular vocation during the day, will raise him from the 18-cent to the 40-cent class. This means a difference in earning power of $660 a year or in forty years amounts to the neat little fortune of $26,400.

"The total cost of this training should not be over $250 to $300 for tuition, instruments, books and supplies, leaving a net gain of more than $26,000 during a lifetime.

"The Y. M. C. A. educational department has pioneered this work and still leads all other factors in making available this opportunity under favorable and attractive conditions to the employed men and boys of our country."

At the close of Mr. Turner's report James Nelson of the shorthand class responded briefly and to the point as to the benefit which he had received from the course this winter. In the same manner Erling Shursen spoke of the bookkeeping class, James Gardner of the architectural drawing work and Charles H. Kelley of the course in salesmanship. George M. Peterson, as a member of the advisory committee on the course of salesmanship, spoke of the favorable impressions which he had received of this work in his contact with it as a committeeman. At the close of Mr. Peterson's talk Mr. Wade introduced K. C. Hoxie, chief engineer of the Minnesota Steel company, as the new chairman of the educational committee. Mr. Hoxie responded very gracefully and was followed by the members of the board in brief interesting talks in the following order: S. E. Matter, C. F. How, F. E. House, B. N. Wheeler and President W. S. Moore. Each spoke of his appreciation of the development and growth of the educational work during the year and of his satisfaction in having a share in the responsibility of an organization which was rendering such a service in developing higher efficiency in young men.

OUR REGRETS

PUBLIC OPINION

A NEW WEEKLY PUBLICATION IN DULUTH, WILL APPEAR SATURDAY, MAY 2nd.

Unfortunately, we are unable to offer our initial paper to you before then but we promise that which we have for you next Saturday will be well worth waiting for.

The policy of **PUBLIC OPINION** is to influence remedial action toward betterment of Duluth's municipal affairs. Necessarily, we need your support. Help us "Do it for Duluth."

PUBLIC OPINION will be placed on sale at all leading news dealers next Saturday morning. Subscriptions and a dollar bill mailed to our offices, 613 Torrey building, will receive our prompt attention.

TERMINUS OF OCEAN ROUTE

Duluth of Future Will Not Be Merely Lake Port.

Credit Men Hear Talks on Rate Problems and Currency.

That Duluth will eventually become the head of a great ocean waterway being the gateway for a vast commerce both eastward and westward bound was reiterated by Julius H. Barnes last night in an address before the Duluth Association of Credit Men at a banquet held at the Commercial club. This inland waterway he said would make Duluth the outlet for the grain production of fifteen states and by thus providing cheaper rates would save to the Northwest 5 cents a bushel on shipping, or more than $2,000,000 annually.

Mr. Barnes reviewed briefly the struggle Duluth has had to secure better rates, and what that victory means for the city. He took a decided stand against the railroads gaining control of both lake and rail commerce and the boosting of water rates for the benefit of the railway corporations.

Mr. Barnes deplored the fact that the roads would often offer a cheaper rate on a long, circuitous route for the purpose of getting patronage than they would on a short, direct haul.

If traffic were operated in a logical manner, said Mr. Barnes, freight would be carried over lines offering the quickest and cheapest haul. The competition of roads blocks efficiency he said, and the only way that efficiency can be obtained is by some control that would force all roads to work in harmony. Mr. Barnes did not express himself as an advocate of government ownership but merely mentioned the plan as one by which uniformity could be obtained.

The Rate. War.

The fight being waged by the Twin Cities and Duluth on rates was briefly discussed. "There is a good deal of talk," said Mr. Barnes, "that the interests of the Twin Cities and Duluth are common. This is not true; their fields are separate and distinctive. Duluth occupies the premier position and should be the greatest distributing center in the country as a great part of the traffic should go by the lake both eastbound and westbound."

Currency Law.

Isaac S. Moore of the American Exchange National bank spoke on the new currency law, discussing its scope and purposes. He seemed to believe that the law might work for greater good or evil according to the manner in which it was operated.

Regarding the aim of the framers of the bill to secure lower rates of interest he said in substance:

"Whatever may be said of the high rates of interest during the past, it must be admitted that these rates have kept gold within the United States, and this country today has more gold than any other country in the world. As one of the aims of the new law is to secure cheaper money for the borrower the lower rates may take gold to European countries, which are very anxious to get it for the purpose of floating bonds for battleships, armies, etc. The new law may be operated, however, so as to prevent in a great measure this outlet of gold."

He spoke of the exhaustive investigations made by congress before passing the bill, and emphasized especially the fact that the senate had given an extensive hearing to bankers and other currency authorities, thus insuring a much better bill than the one drafted by the house.

G. H. Bate gave an excellent discussion of commercial agencies and the exhaustive methods of their investigations.

W. B. Cross, treasurer of the F. A. Patrick company, and president of the Duluth Credit bureau, discussed the work of the National Asociation of Credit Men.

One of the features of his talk was his advocacy of a large fund for the prosecution of fraudulent cases. He spoke of the effort of the national association to secure $1,000,000 for this purpose saying that it was the belief of the members that the existence of such a large fund would go a good way to prevent fraud by scaring those with fraudulent intent.
